Why will this rental assistance exclude internet? If we want everyone to be safe and stay home, and we know that kids are doing online school right now, that's creating a barrier for families who cannot afford to pay their bills! $7.9 million dollars is plenty of funds, internet should be included in this as well to ensure that folks who are looking for jobs can search online, connect with family members they may not have seen in a whole year, and make sure that their kids can continue to be present in online school and don't have to park in the library parking lot just to access the internet.
