I really can't express in words how disappointed I am in this county and state for having zero resources for people trying to help control the feral cat population. Sgt. Robinson of the sheriff dept animal control has not been any help in any way with my ongoing cat problem. Or investigating about my neighbors animal neglect, contact with spay programs or mediation between us to work together. It's ridiculous and I am pissed. He's becoming increasingly aggressive on the phone, when I asked for him to pick up two sick cats I trapped this morning he said to stop asking him for help, he would not come or send anyone for any cats, and it's a problem all over the county. Which I know it is ..which is why it blows my mind that we do not have a feral cat colony county program.. I would even be willing to help start it.
I think the county needs to step up and take some responsibility and not rely on two tiny non profit organizations (Brother Wolfs Friends2Ferals and Sister Kitten) to handle all the feral cats of buncombe county.
I'm planning on going to the sheriffs department to file a formal complaint against sgt Robinson. His inaction is unacceptable and honestly a joke if I really went into the details..
not to mention on the county web page it states that part of his main duties is picking up animals...so who is wrong?????? Why does he refuse to help?? I also wrote wlos but doubt they will respond.

For the past few years I have been at odds with my neighbor who has been supporting a feral cat colony for years. 2020 the cat population exploded and her cats even killed some of my hand raised chickens over the spring. That's when the trouble starts, we realize there are at least 20 cats next door hunting our birds and spreading disease across the neighborhoods healthy pets.
I asked the sheriff to pick up some cats I caught and he was literally offended I could even ask him to waste his time helping me. And I'm doing all the hard work for a colony I did not create but is tormenting me and my property constantly. Its sad to think it's happening all over the county/state and people like Connie will never be held

accountable for hoarding and neglecting animals. And people like me receive zero help from officials that should be stoked I'm helping catch cats..
