They are right on. I know in the past we have had some who call regularly either exaggerating or it just seems to them like the traffic is crazy. Last week I was stopped for the construction crews with a guy in the road, orange reflective vest, holding up a stop sign and everything. The car behind me tried to go around the guy because they didn't want to wait. Too bad there was a large piece of machinery and a dump truck in the roadway!

Subject: speeding complaint

Took a complaint from Jamie Bass who lives on Newsome Rd that stated that everyone is speeding through the area. He said that he has almost been struck twice and is asking for Officers to enforce the speed limits and issues speeding tickets. He said that people are traveling at 60 mph and that you could write 300 tickets a day. He said that the construction guys have made comments to him about almost getting hit as well.
