All:

Please let me know if the sign-out log is running low on black pages. Also be sure to use the sign out log every time you get a spare. Lastly, make sure to check the comments from the last person to sign the car out. If it says it had something wrong with it, do not sign it out unless it's fixed. I will do my best to initial and cross that out so you know if the spare is good or not. Any warning light-on condition is not ok to ignore or drive around with – call the fleet garage immediately and ask them what they recommend.

Thanks, and stay safe!

Sgt J.L. Moreau
