Subject: Upcoming Weather

Fire is preparing to stand up the Command Center at Fire Station 1 on Thursday should the predicted weather cause problems.
The forecast for Thursday is:
Strong thunderstorms likely. Damaging winds, large hail and possibly a tornado with some storms. High near 70F. Winds S at 10 to 15 mph. The heavy rain and storms are predicted to start around 1100 hours and last until late afternoon around 1800 hours.

In preparation for those weather conditions, please have the detectives come in dressed to assist patrol. Also, if needed, we will want to staff the Fire Command Center with PD command staff personnel to coordinate our responses.

Chief J.P. Stokes, MPA
