Please read the Chief's email below. We will, starting when you come back to work, go back to the protocol we were under when COVID first hit.

- Have your guys limit their vehicle stops to only if necessary.
- Only serve warrants that are of a violent nature.
- If an officer arrests an individual then they are to wear PPE and decon their vehicle after the person is released
- Have officers call a complaint if possible instead of speaking to them face to face.

If you have any other suggestions then please let me know.

Thanks

Lt. T. J. Crews

Subject: COVID Protocols

All,
There has been an increase in the number of COVID cases in Rowan County over the past few weeks. The increase has been significant enough to warrant the state placing the county on a watch list. We need to make sure we are following all our PPE protocols, particularly regarding prisoner transports and patrol car cleaning post transport. Lt. Miller should have plenty of supplies and is working on get a station set up in the garage. If we haven't consider putting the call and reporting response protocol we had in place in the past back into use so we limit officer contact with the public as much as possible.

Please consider using Zoom for briefings and limiting contact with others as much as possible to limit any infection spread. Thus far, we haven't been significantly impacted, but we are not in the best place with regard

to staffing as we were when the pandemic started. If we had several people infected in a workgroup it might be more of an issue now than before.

Thanks

Chief J.P. Stokes, MPA
