On 10/02/2020, around 1556hrs, Rowan Communications dispatched Officers Warren and Peacock to 215 Depot Street about kids being on the train tracks. Seconds after dispatch, Sgt Lancaster told the responding officers they were clear for level one, asked communications if they had already notified Norfolk Southern about stopping the trains, and then told communications to make their main priority.

While looking at the map, I saw where both Officers Warren and Peacock were near the address, and I told them routine traffic was sufficient. Shortly after telling Officers, Warren and Peacock routine traffic was sufficient, Officer DeBonis radioed she was out with the kids, and they were off the train tracks. Officer DeBonis added notes saying the kids were actually 20-21yoa and were taking Halloween pictures.
