Instead of stopping by with a USB, I have placed each of your power points on the N drive. If you will click on the N Drive then the folder police, you should see another folder with your name. Inside that folder is a folder labeled "2021 SMT". That is where you should find your power points. If you cannot locate it then please let me know.

Thanks

Subject: SMT Power Point

Please stop by when you can and I will give you the power point for the classes you are going to teach. I tried to send some of them via email but the file size was too big.

Thanks
