---

Attached you will find the 2021 SMT schedule. Your name is highlighted beside the classes you are schedule to teach along with the date. Class will start at 0830 till 1730 ish hours with an hour or so for lunch.

In the near future you will have to login and take a test for each class you are going to teach. Once I receive this information I will send you the login information so you can take the test and print out the instructor outline.

If you see any issues with the classes or dates you are schedule to teach then send me a message ASAP so I can address the issue.

Thanks
Crews
