Suspect was walking through the PVA when I arrived. I stopped her and asked if she was ok? She stated yes and she was OK. I asked her if she was asking people for money. She stated no. I told her that if she was and having the child with her it is terrible and there were plenty of services to help her. She said she was fine and got in a vehicle. I did not see her soliciting for anything, nor did she have a sign with her.
