Subject: Reid Thompson

When you approach the State Legislature with a reasonable request for a change in the law I hope you realize how Mr. Thompson's reasonable request for a variance to the City ordinance is being handled and how the State Legislature might delight in using your strict enforcement of your own ordinances as inspiration to hold strong to the enforcement of their statutes regarding Asheville.

I hope you all don't waste the extra year of service The Mayor, Senator Van Duyn, and the entirety of the NC Senate GAVE you bickering with each other, the State, and Reid Thompson. You need to spend this time working. With so much in transition, and more unfortunate embarrassment coming courtesy on former Asheville Firefighter and Wanda Greene, we don't need Reid to turn into another nationally tweetcast fiasco in Asheville.

Thanks for all you are doing.
