Subject: That dang press

Hey, did you see the AC/T article that used a picture of the AFD seal to report on the actions of one firefighter...that burned an activist's car? Since you want to help the fire department out maybe you should do an opinion piece on that group of people being being painted with such a broad brush.
Keep up the great work! Dang ole press taking one piece of data and spinning a false narrative.
Anyway, African American voter registration in Asheville is down to 10% and falling.
