One of the homicides that is being referenced was the Benjamin Hoffman II case, in which we have charged the suspect. I am unable to provide additional information or verify names for the other cases, due to them both being open investigations at this time.

The 2014 policy has been rescinded. In reference to the presentation mentioning an "adjusted procedure" of 24-48 hour notice, rather than 7-days. That is correct, this change was made due to the evolving and adapting changes of conditions concerning encampments when it comes to public safety of the community. As soon as we have that finalized policy I would be more than happy to provide it to you.
