Subject: Does this make you happy?

Asheville: The second fastest gentrifying city in theÂ nation. Second whitest city in North Carolina. I can't understand why. But hey, soon we'll have a museum to display photos of a once-vibrant African-American community in Asheville. Museums are great places to view things that are now extinct.
I think someone should include this video in a presentation to Council once our new manager is sitting in the chambers. It's best viewed with those special glasses, what do you call'm, oh yeah, equity lenses.
Seriously, watch this video. It's the famous Beer City Video, paid for by our exclusively white Explore Asheville ad agency.
