"There were inconsistencies with how "expungement" was interpreted. The N.C. LEO Certification disqualifies applicants based on any DV charges regardless of expungement.
Expungement is more than just creating a clean paper file. It generally indicates that the conviction was more punishment that was deserved, but total dismissal of the once very serious felony charges wasn't feasible. Mr. Bailey's entire history came up, including his expungement and 15 year period of growth and healing.
Unfortunately, his application made it through the process at the earliest stages of vetting for meeting precise credentials and the grey area of expungement allowed the application to pass by these precise metrics.
PERF will perform the search, we will double check the vetting of the next police Chief at every step of the process.
This sucks, but it wasn't my fault, Council 's fault. The City Manager's fault, and I assure you this is the last thing I need and it's costing me more Tylenol than anyone in town."-

Anyway, I'm sorry this is happening, I know it's not on you, I know you are a human that gets headaches, and I'm sorry that sometimes I aggravate them.

Still just trying to help in my own special way.-
