Subject: Thanks and stay safe

Esther,
I just want to thank you for bravery regarding the removal of the confederate monuments. I know you are enduring more than the typical ire of the public and popular support doesn't provide peace of mind relative to the concern of personal safety.

We're certainly facing the greatest time of trial our country has seen since WWII. You and I both turn 50 in 2020 (not until December for me, you just have to come in ahead of me every time ????) and the remainder of the year is simply terrifying.

Just wanted say thanks and stay safe. I hope "normal" returns so I can challenge you (in the positive sense of the word) every second and fourth Tuesday of the month.

Take care-
j
