Hi Leslie -
Here are the documents that Sanitation has related to the refined request.

I would let the requester know that Sanitation does NOT keep a complete list of all homeless camps in the City.

1. Munis service requests to Sanitation related to homeless camps
2. Avl App requests with the key word 'homeless' (all departments)
3. A list of camp/sanitation issues at a point in time (no longer updating this list)
4. A list of camp issues & responses in the City that some departments are coordinating on - but is not an exhaustive list of camps

Thanks,
Jes

City of Asheville Public Records

A message was added to record request #21-212:

Good morning. I would be happy to provide further clarity on my goal with this request, and maybe you can assist me in determining which records would be the fastest and most useful to pull. I am trying to determine the location and number of homeless encampments that have existed in our city in 2021. I spoke with the employee of a local homeless services organization who told me that the sanitation department had helped them compile this information in the past. I am unclear on what specific records would be most useful for determining this information, and as I understand it your email search queue is months-long, so I will defer to you on what would be the most appropriate records to pull. If you are similarly unsure, then letâ€™s cast a wide net and do an email search. Best, Ursula >
