Good morning, Debra.

Â

I hope my email finds you well and looking ahead to some fellowship time during the holidays.

Â

I am writing for your help with an ongoing issue. About 5 years ago, the city entered into a lease agreement with Duke Energy for all 50 acres of property along the French Broad River in the River Arts District. The city leased the property for the greenway currently under construction. As part of the lease, the city agreed to maintain and police the entire site.

Â

There is a growing concern with a large homeless camp on the parcel, especially the camp directly under the companyâ€™s transmission line ROW. There are fires each night and an increasing number of tents and structures. We need the cityâ€™s help. Can you all please have these folks relocated? Given the fire danger, we would like them moved as soon as possible.

Â

Can you help? Please let me know if you have any questions.

Â

Jason
