**Subject:** Final push for signatures for the police data petition

News, updates, and announcements from Code for Asheville

[View this email in your browser](#)

**Thank you for your support of the Petition for Police Accountability Through Data Transparency!**

The full request drafted by [Code for Asheville](#) and endorsed by numerous community groups was presented in March to the City of Asheville Public Safety Committee, who indicated their support for the proposal and approved Code for Asheville to present the request at [Asheville City Council’s April 24 meeting](#).

We’ve got **one week** to get as many petition signatures as possible in order to demonstrate strong community support.

**Can you help us get the word out?** We have drafted an action alert and are asking supporters to send it to their email lists and share it on social media. You’ll find the action alert in [this shared Google Doc](#) (you can also email [info@codeforasheville.org](mailto:info@codeforasheville.org) to get a Word copy). If you share the alert, please let us know!

We also invite you to join us at the City Council meeting and send a representative to stand with Patrick Conant as he presents to Council.

Thank you again for your support and your important work in our community!
