There are two things here:

- One is the invoice itself which I have requested be changed to say "City of Asheville / Code for Asheville Open Data Day", and they are going to send me the corrected invoice.
- The second attachment is the detailed menu of what is being served.

Please determine what card to put on file, and have Eric or whoever our contact is get in touch with Dylan with the info ASAP. Doesn't have to be paid upfront, but do need a credit card on file.
