As per our phone conversation attached is the photo of a bible that greeted me at the reception area of your office as I was gathering documents for my many legal cases. I was Very offended to be greeted by a Bible in a government office in a Government building as a non-Christian member of the community who is being discriminated against.

I understand bibles are still used by the legal system however this is not that kind of Bible in my opinion.

I also Understand County employees also have a right to freedom of religion and I totally support that however obviously this was not in a private work area but a public Area greeting citizens.

Thank you,
Jenice Gutierrez
