Subject: Notes on Council Agenda 10/23/2018

Councilpersons Smith, Young, and Haynes,

Continuing in my commitment, here are my concerns/thoughts on tonight's agenda:

1. Item P on the Consent Agenda: we know that 2050 is not soon enough, and that meeting this goal will require budget prioritization.
2. For me, the priorities in the Citizen Survey do not justify the budget disparities regarding APD funding in comparison to housing & transit. This is a great resource to move courageously towards supporting participatory budgeting, and I'm talking very specifically about cutting the APD budget to support that.
3. Public Hearing - Burton St. Neighborhood Plan: This is *urgent*. I heard loud and clear from my neighbor Dwayne Barton who spoke when the plan was adopted: it's time to take action and prioritize through funding.
4. Public Hearing - Hotel at 324 Biltmore: please no.

Peace and health,
Kim
