Subject: Another idea for transit.

Mayor Manheimer,

I hope you and your family are enjoying a bit of this Spring weather before the Summer comes to stay!

I have an idea about transit funding, especially regarding para-transit. Do you have a few minutes for a call Sunday evening or Monday morning? I think there's an opportunity for a narrative shift that could be symbolic of a new day that is possible with our new City and County managers.

Thank you for your consideration,
Kim
