Subject: Re: Another idea for transit.

Mayor Manheimer, thank you for taking a moment away from the little league game to talk about transit.

I plan to keep a close eye on 5307 funds and opportunities to collaborate between the City and County, especially with this new language coming from the FBMPO. It is my hope that implementation of the evening hours will be possible as capacity increases and it funding is available.

I look forward to an opportunity to either join in a meeting or to offer what resources I can. I am among those eager to celebrate a new day where the City and County can build bridges over this wall that was built so we can achieve success together!

Peace,
Kim

Mayor Manheimer,

I hope you and your family are enjoying a bit of this Spring weather before the Summer comes to stay!

I have an idea about transit funding, especially regarding para-transit. Do you have a few minutes for a call Sunday evening or Monday morning? I think there's an opportunity for a narrative shift that could be symbolic of a new day that is possible with our new City and County managers.

Thank you for your consideration,
Kim
