Subject: Thank you and a request...

Councilmembers Smith, Young, and Haynes,

I want to start by saying thank you for prioritizing the FY1 implementation of the transit master plan during the retreat! Your dedication to housing and prioritizing the budget is commended, and I'm among the people reporting back to the community on your diligent work.

Transit advocates are hearing that a report from a consultant looking into our current state of transit will be surfacing soon, and was originally expected at PED. Can you help me find out which meeting agenda that will be surfacing at?

Peace & Health,
Kim
