Subject: Request to consider different meeting location for 6/19 Council meeting.

Mayor Manheimer and Council,

As you know, the June 19th Council meeting is expected to have a number of very important agenda items, decisions that will direct the future of our beloved Asheville:

- The FY18/19 Budget
- The Comp Plan
- The Transit Master Plan
- Return of Written Consent/APD policy (which has now been in over a dozen official, City meetings)

There is sure to be a large number of folks in attendance, many prepared to speak and others to observe, as well as staff for presentations. I hope you will consider a room with greater capacity, such as the conference room at the Civic Center or the County chambers, so that we can hear our neighbors voices and be in community together during these important conversations. My desire is for the tone and the attitude to be positive, even if we disagree with each other, and I don't think that will be as easily achieved if we're competing for space or separated in overflow rooms.

Thank you for your consideration,
Kim
