Mayor and City Council,

This is a major follow-up regarding the state of transit: The E 1-1/2 not running "until further notice." This being the back-up for the highest capacity route in the city means people are going to be passed by a full bus, not having any other option for an hour, then possibly at capacity even then.Â

I can imagine the response from a rider reading this, but I'm still thankful the notices are going out. Many folks don't have access to this information or know it's available.

Kim
