Subject: A vision, Your vision

Sheneika,

I was thinking of you all week, and I just want to encourage you to make *your* vision part of our City's named vision. I trust your vision and your voice more than any other representative I have ever (and may ever) vote for as a representative.

Some thoughts from the Jackson Vision may be inspirational in turning up your volume: <https://mxgm.org/2012/07/07/the-jackson-plan-a-struggle-for-self-determination-participatory-democracy-and-economic-justice/>

Resilience, empathy, and participatory democracy are all things you have amplified through your life and leadership... we will follow you!

Love and health,
Kim
