March 20, 2019

Dear County Manager Rick French and County Commissioners:

You will find enclosed our FY 2019/2020 Budget for your consideration, which the Social Services Board transmits to you. This request represents our best estimate of our fiscal needs in order to serve this community's residents in the coming year. We continue to see revenue reductions and the estimates provided in our budget are based on the most reliable information we have for upcoming state and federal budgets for SFY 2019-2020. Estimates may change as state and federal budgets are enacted and programmatic changes are made such as in the case of Medicaid Transformation or further rollout into NCFAST. All can and will change our work but we do not know how but are ever watchful.

While we are requesting additional funding we have anticipated a reduction in expenditures to include: reduction of transportation \$35,000 due to changes anticipated with Medicaid Transformation, \$64,608 reduction in 5310 grant due to reduced grant funding, and Foster Care expenditure reductions of \$56,832. In addition to these highlighted items, there were other more modest reductions in expenditures across the budget but these reflect the largest.

We wish to specifically indicate those items which are new requests or have had the greatest impact to this budget and offer explanations that may facilitate your decision-making:

Positions:

We are asking for no new positions in this budget but would like to point out that the transition into MEDICAID MANAGED CARE also known as Medicaid Transformation begins during the 19-20 fiscal year. The state has indicated in their budget narratives to counties that: "As Medicaid transitions to a managed care model, county departments of social services may observe an impact to operations including increase in time working with individual clients which may drive a need to review and revise business processes. These potential impacts would be driven by increased traffic - in-person, walk-in and via telephone and time spent with clients due to the eligibility and enrollment process as modified by the transition to managed care in Medicaid. Agencies would be contacted regarding information/notices for Managed Care, Plans, support for maintenance of scripts, etc. Staff will connect beneficiaries with the enrollment brokers for health plan choice counseling, primary care physician selection and changes, participate in outreach events held by the Enrollment Broker or PHPs." As this transformation occurs, we will evaluate our needs and keep you advised.

We are requesting several reclassifications due to the changes in work done by those positons, due to responsibilities added, additional duties added and complexity of duties.

These are:

Reclassification of two (2) IMC II workers in Adult Medicaid to IMC III. From Grade 64 to Grade 66.

Upgrade two (2) Adult Income Maintenance Worker IIs to Adult Medicaid Long Term Care IM Caseworker IIIs due to the complexity of the Adult Medicaid Program in general and Long Term Care, specifically. The focus of these 2 workers in the Adult Medicaid area will be on the most complex and costly programs to the county if done incorrectly – LTC, SA and CAP. Individuals in these programs are elderly and disabled who have extensive medical needs. The eligibility determination process is critical to ensuring the client receives the proper benefit and avoids a decision that could lead to a county responsible overpayment.

This request will have an estimated annual cost of **\$3,638** at an estimated **\$ 911 in county funding.** (These positions receive 75% reimbursement)

Reclassifying an Income Maintenance Supervisor II to an Income Maintenance Supervisor III from Grade 68 to 70.

Complexity of duties and change in oversight responsibilities with the State MOU of a supervisor from an Income Maintenance Supervisor II to a Supervisor III. Our work in NCFAST and increased state audits in all programs, but particularly Medicaid requires additional supervisory level approval or intervention in casework, which results in workloads being unmanageable and can result in county responsible overpayments and performance penalties from the state.

This request will have an estimated annual cost of **\$2,709** at an estimated **\$1332 in county funding.**

Additional Needs:

In addition to positions, we have identified some additional needs, including the following:

Technology – Computer equipment for staff in NCFAST, replacement equipment, scanners, signature pads, smart board, and a building security system.

This request will have an estimated cost of **\$68,080** at an estimated **\$45,718 in county funding.**

Repayment of potential County responsible overpayments **\$50,000.**

Additional Items Impacting our budget:

Increased rates for Group Insurance for employees is estimated to be \$222,532 over last FY. Additionally, retirement increased \$34,510, Insurance & bonds at almost \$8,000 and Longevity at \$5,000 for a total of **\$270,042** over last FY.

The budget submitted has an estimated increase in county costs of **\$256,636.** As stated earlier, we have estimated a reduction in spending in our foster care line item of almost \$60,000 due to the hard work of our social work staff, but many unknowns still exist, judges and court time play a significant role in this. The children now in care are more difficult to serve, requiring a higher level of care at a higher cos, uncertainties do exist. For example, we are unable to determine whether additional children will come into our custody during the coming year. The addition of ONE high-risk adolescent needing a Level III (or higher) Mental Health

)placement (who is only eligible for State Foster Home funding) could increase costs by as much as \$4,516 per month, which after reimbursement would cost \$50,388 per year in all-county funds. We do have a number of children who have a plan of ADOPTION in court, and are hopeful that we will be able to move these children into permanent homes (and yet ongoing adoption assistance is a remaining factor).other line items were reviewed and reduced to lessen the impact on the increases in group insurance, longevity, retirement and insurance and bonds.

In years past we have asked the County Manager and Board of Commissioners for consideration of a merit program for DSS staff and while we continue to request that a count-wide merit program be considered and funded, we have not included this in our budget. We would like to note that our salaries are uncompetitive with surrounding counties and do not allow us to recruit experienced staff. At DSS we have utilized our Employee of the Month program, a years of service recognition and a birthday breakfast celebration – as a means of recognizing employees in a small way.

Staff are our greatest resource. Hiring highly skilled staff and keeping them is the best solution to avoiding liability. Turnover creates liability for the county. We send very green and sometimes not fully trained staff into the field – often into dangerous situations. When a worker leaves, those remain carry caseloads higher than the standard and often outside their area of expertise. The risk is great. *The cost of constantly training and losing good staff is exorbitant, and the stress/burden for supervisors and line staff during repetitive vacancies is overwhelming.* We feel an investment in staff is the most important investment we as a county can make.

Our collective best effort has been folded into the production of the attached budget. We have evaluated our needs and are requesting what will allow us to continue providing quality services and meet the needs of our)Alexander County citizens. We continue to see people coming through our doors that have never had to ask for help before. We do not anticipate fewer requests for our assistance in the coming year. We are dedicated to meeting all mandates, protecting the vulnerable populations in our community, and assisting those in need, to the extent possible, and within the resources allotted to us. We have been good stewards of the county funds that you have provided to our agency in past years, and we pledge to continue that pattern. We serve those who seek assistance and many have never asked for help before, if not for us, they would have nowhere to go -- these are our neighbors and our friends, our elderly and our very young. We cannot anticipate that need nor can we provide services to everyone who needs it but we are committed to fulfilling our obligation to protect our vulnerable populations, and to assist those in need, as much as possible, and within the resources that are provided to us.

We are dedicated to serving the residents of Alexander County; we request your support and approval of our proposed budget to continue providing excellence in service.

To summarize our requests for additional funding:

Request	Total Cost	Estimated County Cost
Upgrade 2 Adult Medicaid Workers to IMC III due to program complexity/county liability	\$3638	\$911
Upgrade IMS II to IMS III due to additional duties	\$2709	\$1332
Technology	\$68,080	\$45,718
County Responsible Overpayment Contingency Fund	\$50,000	\$50,000
Total	\$124,427	\$97,961

Thank you for your time and consideration of our request.

Special THANKS to Business Officer Sherry Deal for her personal sacrifices (long evenings and weekends) to produce this budget.

Sincerely yours,

Patricia Baker

Director
