Subject: FW: Open records request: Walton Street pool evaluation/decision-making process

Hi David,

I'm checking in to see if you got the documents you needed as outlined below. The press release last week about tonight's meeting contained some context for you in terms of the public engagement process. We have some more information to share from a Southside Recreation Opportunities project page that just went live, including a timeline for the engagement. Here is a link to that for you.

<http://www.ashevillenc.gov/Departments/CommunityRelations/SouthsideEngagementOpportunities.aspx>

Let me know how else I can help you with your reporting.

Subject: Open records request: Walton Street pool evaluation/decision-making process

This is an open records request for the any recently completed assessment of the condition of/recommendations for the future of the Walton Street pool and recreation complex.

It is also an open records request for any contracts with any outside businesses or consulting firms involved in that assessment and an open records request for any documents pertaining to the meetings of the group of Southside stakeholders, mentioned in September, that was convened to plan a public engagement process.

Thank you for your help in this matter. Please call me if you have any questions.

Best,

David Forbes
