David,

Just realized you left a voicemail. I put the staff reports and the other files I sent you in this folder:

Just let me know if you need this all back on Dropbox. Happy to accommodate.

Ben

David,

I started using Google Drive and must have deleted those from Dropbox without giving it much thought. My mistake! Here is a link to the Google Drive folder that contains all of the files I sent for that request:

<https://drive.google.com/drive/folders/0BySa0wyXWUQVR3NNZmM4QkxzRTQ>

There should be 142 files in the folder. If they don't all show up at first, click on "name" in the top right corner and sort by "last modified" and start scrolling down. Once they all show up, you can go back to sorting by name. If you need more recent enforcements, just let me know and I will start a new records request. I believe the last time I received any from Development Services was early October. Now that we have established a process for collecting these, it shouldn't end up being a slow process.

I should add that it looks like the link has expired and the files aren't available for download anymore.

Hey Ben, I went back to double-check and make sure I'd downloaded all the NoVs and the files and think I may have missed some post-Oct. 13 ones in the "Additional NOVs" folder and among the staff reports. Please let me know when these will be available to download so I can make sure I have complete information about this topic.

Thanks,

David

David,

Here is the link to the PR704 Dropbox folder:

The NOV's listed are the same ones I previously sent you. The more recent ones are in the Additional NOV's folder. In the Staff Report folder, you will find Staff Reports from Development Services that were presented to Council. Council asked them to provide a STR update every 4 months. There have been two so far, the next is scheduled for December 13.

Thanks for being so patient,
