Kim: I would be happy to. We are using Genetec mobile LPR, in conjunction with T2 Flex and Digital pay stations. We have been extremely successful in identifying those parking without permits or payment for daily parking permits. To give you an idea of how successful we have been by using all of this technology together, we actually increased our annual daily parking revenue by \$500K in one year – we directly attribute that gain in revenue to this technology.

We have a lot of information to share, and I am not sure what kind of detail you are looking for, so it may be better if you want to contact me directly and we could work out a time to set up a conference call with my team. Thanks!

Sue, could you provide me with some information on mobile LPR and your experience using it?

Thank you,

Kim Engelmann

Once the person leaves the institution, their permit is turned off. We use mobile LPR and are able to identify if a vehicle has an active permit or not.

How do you deal with Faculty/Staff who no longer work at your institution but still have valid permits and therefore could continue to park on campus?

Be well,

Carl

At Oregon Health and Science University (OHSU), we do have multi-year permits. We'd be happy to discuss how we do this with you – contact me and I will put you in touch with the right people on my team. Thanks!

Subject: [t2users] Multi Year Permits ???

I know most schools have a parking year that starts on one date and ends on another. Does anyone have permits that are multi-year? If so, I would like to speak with you regarding how you have that program implemented in T2 Flex.

Thanks!
