Subject : 10-19-15 Minutes
Attachment : 101915Regular.pdf;

I have attached the minutes you requested. I did not intentionally leave them off the webpage. Sometimes I just forget and that happens to be one I forgot. I looked at minutes posted during that year and I also forgot to upload 8-7-15 and 2-16-15 minutes, but I do have those minutes.

If you have any questions or need additional information, please let me know.

Thanks,
Janet

Mr. Simoneau said in your agenda packet you can see the Building Inspections Department started this thing in 2010 saying we've got a problem and didn't follow through. Then in 2012 again ordering the house to be fixed, it was not done. In 2015 again we got complaints and then we asked the Building Inspections Department to carry this through this time, not just to send letters and then forget about it, but to send a letter and then let's follow through and have the hearing. As Mr. Sailers has indicated this has been going on for years now and the fact of the matter is the property owner hasn't been responsive.

Commissioner Phillips said so since 2010 and all the notifications, they have never responded.

Mr. Simoneau said they have not done the repair work.

Commissioner McAulay said I think the problem has existed for longer than the last 5-6 years, well over 10 or even longer. This is located in Westminister Park which is one of the older well-kept large lot subdivisions in Huntersville in the Long Creek area in case people don't know. And many residents in the area as well as the adjoining area have complained about this. My guess is that it took at least a number of years for an inspector to actually get out there. I know from comments that neighbors have tried to do work on it and there's always a little dabbing in making improvement. I would assume that this house does not have electricity, water, sewer or it might be on septic tank.

Commissioner Phillips made a motion to adopt ordinance ordering the vacating and closing of a dwelling located at 9512 Pembroke Road pursuant to the Town of Huntersville Minimum Housing Code and Article 19, Part 6, Chapter 160A of the North Carolina General Statutes.

Commissioner Neely seconded motion.

Commissioner Julian said is it closed, vacated and torn down.

Mr. Simoneau said it's not necessarily to tear it down, just to close and vacate. We've heard reports that there are people in there.

Commissioner Julian said are you going to put a lien on the property.

Mr. Simoneau said yes, if we spend the money.

Mayor Swain called for the vote.

Motion carried unanimously.

HFFA Management Extension. Commissioner McAulay made a motion to approve Management Services Agreement with Health Works, Inc. to provide management services to the Huntersville Family Fitness & Aquatics Center.

Commissioner Julian seconded motion.

Commissioner Julian said I just wanted to at least thank Dee and HSW. I've been a commissioner for 8 years. When I first became a commissioner there was a trend of a few board members who thought we should sell that asset. Asset it is. It's just like a park. It's something that the residents of Huntersville

can use and enjoy and it enhances the quality of life. I heard quite a few words up here that really made me glow with enthusiasm about Dee and the management of that facility is the way it enhances the kids' lives and the lives of every adult who uses that facility. It's a world class facility and asset. It's part of the quality of life here in Huntersville that we are used to and the Town can provide in a very cost effective manner. HSW strives to bring in as much income and I know this because my first years on the board, the board really hammered HSW……make it pay for itself. Well there's no way a park or a recreation facility is going to pay for itself, but she has worked and made the aquatic center/HFFA a great place for our residents. I wholeheartedly support it. I think a vote for HSW is a vote for our kids, our residents and all the people that use it. This last summer probably about June I got a call from one of my neighbors who said we are not allowed to bring coolers into the swimming pool area and so the first thing I did, I called Dee and I found out why we weren't allowing that. Come to find out it was because we have a snack bar and one of the charges that the Board has for Dee is to bring in as much revenue as you can. Well HSW studied that, talked with the mothers and they came up with a solution without coming to the Board and all this uproar. These mothers are all now happy. They can bring their little cooler for their kids. It was a big item that Dee and HSW was able to handle at a very local level. With all that I'm going to support this contract. I've seen what other companies have proposed and I heard someone say we did not put it out for RFP. During my 8 years, yes we did. There was one time we did put out an RFP and nobody came forward with a proposal for it. I'm going to support this and I appreciate what she has done at HFFA.

Commissioner McAulay said I do support the motion. I compliment the fulfilling of the contract and the work and programs that have been applied there. I also as you know appreciate those for the senior citizens and compliment you on that. I also want to say that whoever throws an ethics rock at someone should take a good selfie of himself and look at it as his low point.

Commissioner Neely said I'm going to go ahead and support this tonight. I can tell we are in the middle of a political year. On the years that I have been on the Board I haven't heard words like cronyism, special treatment, make it right, do it our way, you have fiduciary responsibilities. If there is anyone who is making those accusations that has any proof that any of that exists, I suggest you see the Town Attorney because I haven't seen it, I don't believe it exists. I don't believe that if we weren't in a political year with someone trying to make points that we'd even be hearing about it. As it relates to HFFA, one of the reasons I moved to this community was the fact that we had that facility. The Executive Director of that facility in my opinion does an outstanding job. She has something that's rare. She has strategic vision. She's moved this facility continually forward. She's seen the pitfalls. She's made allowances for the pitfalls. She's came to this Board of Commissioners and asked for the necessary funds and changes in the management of their company to make it the success it is and for those reasons I'm going to support this contract.

Commissioner Phillips said there's no bigger fan here than me of Dee Jetton. But I also think we have a responsibility to the citizens of Huntersville. The physical fitness world is changing daily. Dee made a comment herself in the pre-meeting about even some of the programs changing for the aquatic center and so I think just being fair we ought to put out an RFP or RFQ. Like I said, I think we need as a Board to look at every option out there to do what is best for our citizens and they may be……..HSW so far I don't have a complaint, but I just think in all fairness we need to look at all options.

Commissioner Kidwell said a lot has been said and I think every Board member up here has said something positive about HSW. That being said, I have a substitute motion that we postpone this until the 2016 Huntersville Board Retreat where the new board can review the contract and then make the decision whether to stick with this or send it out for RFP. The current management group is doing a

bang up job. Three more months is not going to impact the running of the facility. It will allow in that time for staff and the new board to review it, make a decision, and then move forward without any controversy.

Commissioner Phillips seconded motion.

Commissioner Bales said I'm sitting here listening to everyone banter back and forth and frankly in my personal opinion it doesn't matter whether November 3 is coming around or not, we need to do what's right by HFFA. So my question to Mr. Ferguson is how long would an RFP take to do.

Greg Ferguson, Town Manager, said to construct one that would actually cover all the different lines of business that are in that facility would take months.

Commissioner Bales said how much would it cost.

Mr. Ferguson said it would depend on whether you would go out and get the contract for someone to do that or if you allocated internal staff to it. It would take Janet Stoner, Gerry Vincent and myself quite a bit of our time because we are the three people who currently manage that contract. Janet's been involved in that process since the very beginning. She's been hands on with me in managing that agreement for 15 years. Gerry has been with the town now about 8 years, so Gerry has been involved. Gerry currently is the project manager for any project that occurs at the facility so any type of expansion, HVAC, he works with HSW and HFFA to see that delivered.

I think the misunderstanding might be that an RFP is easy to construct. An RFP would have to cover any line of business so as the speakers tonight said there are lines of business that are in place today that were not in place 15 years ago. For example, the preschool program that was referenced was not in place the day that the facility opened. That was a community room. Commissioner McAulay recalls that was the bridge room for a group of seniors. And so over time as the facility has matured, the facility's role in the community has changed greatly and so there are lines of business like synchro that were not there 15 years ago. Those are opportunities where you have a lot of water and you have a lot of hours and you want to fill the water 24 hours a day if possible because the water is your most costly feature for the facility.

The facility's fitness facility has been managed by Presby or by HSW since the beginning of the facility in 2001. The relationship with Presby is very important to maintain because they have been there for 15 years, so the partnership that we have in place right now, while it might seem strange, has worked so successfully that as we mentioned in the pre-meeting if there were a good reason to try to go out and rebid this contract if it were not local, if it were not cost effective, if the taxpayers were actually having to pay for the facility versus the members and hotel/motel taxes in the form of debt service payment, there would be more of a reason to go out and rebid it or put it out for RFP. But general fund tax dollars generally are not used to support the facility. It's an enterprise fund. By that very definition enterprise fund means it's a business. So we try to run it like a business and we try to recover 90 percent or more of the revenues from the member fees and other non-due fees that members pay. Daily guests can also pay and then that can also provide services like preschool, afterschool and those revenues are all used to fund the facility. If it were a trash service, absolutely we bid that out about every 5 years. If it were a fleet of cars, those are easy to bid out every 5 years. We had this same discussion 5 years ago and the Board at that time said it really wouldn't be smart to go looking for companies…..are you going to award it on the low cost or are you going to award it on the best service bid. Or are you going to award it on some other seven different opinions about what that should be. This is a service contract. It does not

have to be bid per state law. So it's different than the HOA industry which as those HOA boards change every 2 to 3 years, absolutely they need to put that contract out and they need to determine if the contract at their local pool is still working for them because as Mr. Sheehan said pools change. Some pools add slides for instance. And one of the pools that his company manages I believe has added a slide lately, so those things change over time, too, but the HOA pool industry and what we are providing with HSW really is an apples and oranges difference.

Staff absolutely will take direction from the Board. If you want us to write an RFP we can do that but the reality is by the time an RFP gets written we are well into the budgeting process. We are well into that six month window and the number of employees that are employed locally I think we heard was 75 and it ranges up to 110, so those are people whose jobs potentially could be displaced. And while other vendors can provide that and they might say they will hire locally, the problem is the relationships that have been built over 15 years with the seniors, with the dive teams, with the patrons that go in and they see the same trainer every 3 days. It's not a quick and easy let's just go bid this out because we can find another car dealer or oil change or even a solid waste provider. This is one of the most complicated things that we do because we have interaction with over 10,000 members each month. The number of visits this year I think I quoted earlier this past year was around 240,000 and that's projected to go even higher this year. Those are a lot of individual touches that this company performs on your behalf each and every day and their responsibilities range from the kids who are 3 and 4 years old up to the seniors who are on the other end of the spectrum. It's a very important function that they provide on your behalf so if we are going to change horses as we said earlier we want to know why we are doing that – is there a financial problem, is the service too expensive, do you not like the structure of the contract. The contract was actually structured 15 years ago so that there's a performance fee at risk. And that $50,000 is what you set up as the four parameters at the back of the contract that you as a Board can set as goals and those four goals drive whether that $50,000 is awarded each year. At one time we had 35 or 36 goals. Five years ago as a Board you reduced that to five goals and tonight we are looking at four goals, the biggest of which would be financial responsibility and that's weighted at 60 percent.

Janet Stoner could probably speak to this but one of the things that we take very seriously is that fiduciary responsibility to our residents and this is not a burden on our general fund. It's not a burden on our property tax. Janet is managing this contract very closely in daily and weekly reporting from Dee and Ansle and so this facility is well run. That's the bottom-line. And when you are having success you like to continue having success and we cannot tell you if you change to another management company that you would have success. This is 15 years of going down a path and now we are in a pretty good place with people who have a lot of institutional knowledge and that institutional knowledge can't easily be reduced to an RFP.

Our recommendation as staff is that you continue on the path. If there are things that you identify that you want to tweak to make better, I'd be happy to sit down with anybody who has those ideas. If there's a way to contribute to the overall health of the facility, we are open to those. We have not only a member suggestion box, we have an employee suggestion box. Those are reviewed. Janet Stoner for many years went down to the facility and made copies of those. That feedback is very important to continue that pathway forward through their partners like Novant but with other partners whether they are the swim teams that practice there. We have some that we host. We have some programs that we own outright. And we have some programs that HSW owns. And so those are all contributing to the success of the facility but it's not very easy that you can just say duplicate that.

Mayor Swain said can you quickly talk about any non-compete clauses if the contract is to be changed. Like if there is a non-compete what goes.

Mr. Ferguson said I would defer to them on that. There have been non-compete clauses in the contract in the past when the contract was in its infancy.

Mayor Swain said if they are employees with HSW and the contract changes do they have a non-compete clause.

Dee Jetton, HFFA Executive Director, said in years past as a part of our contract there was a non-compete agreement that extended across all of our employees. We in our contract before last did not renew that component with you however if Health and Sport Works did not hold this contract there are other places for me to go. We hold wellness contracts with Wells Fargo in their corporate locations and have services for wellness programs inside corporations across North and South Carolina as well as with other hospitals and insurance companies and so I along with probably the top 15 employees of the company who are your predominantly full-time staff members would be displaced into other facilities.

Commissioner Kidwell said my motion stated let the next board look at this contract because there are things in this contract in the financial section of reimbursement for premiums, reimbursement for portions of increased premiums for liability insurance, contract janitorial/custodial services, things like that. This is not about what Dee has done. This is not about what HSW has done. It's clear they do a great job there. I take my little girl there. I go there on occasion, not on a regular basis. During the summer my little girl likes the little swimming pool, she can walk right in and she's got her little wings on, it's fun. But this does go back to looking at the contract to make sure that we are doing the right thing. There might be some tweaks and if we approve this tonight those tweaks are not going to be able to happen for five more years without any type of re-doing. When I talk about let's hold off, let's really review this, it's not an attack on the function of HSW. It's not an attack on the people working there. It's not trying to displace anybody. It's making sure that we are doing the right thing fiscally…..the right thing for the town.

Ms. Jetton said what I was going to say is while the contract would be in place for a 5 year period, each year I along with you decide the budget for HFFA. So the only item there that you see is the set management fee and everything else in order for us to achieve our profit which is in that at risk performance fee, we are incented to negotiate to the best of our ability the best insurance rates, the best opportunities for ourselves to keep those figures that don't go into our pockets as low as possible so that both you on a budgetary basis and we on a budgetary basis are successful, so I would contend that you have the opportunity to alter the budget for HFFA every single year.

Commissioner Kidwell said you are correct. But the specific line items within this contract we do not, if it's signed.

Ms. Jetton said except they are still all a part of the budget process and if you read it from the back in order for us to achieve those components then we have to present a budget that is balanced and meets your needs as well as ours. There's no incentive for us to spend money unnecessarily on those items that you are referring to which are minor in the contract.

Commissioner Kidwell said I'm not saying unnecessarily by any means. I don't think you would do that. As I said you do run a well-run facility. But it's been my experience that when I contract somebody out I say okay you go do this. They are responsible for all of that, not just specific portions, and then we come back in. That's what I'm referring to on the contract. That's why I would like to wait and let the

new board……..and we're not guaranteed to be on that board so there is a risk to review and move forward.

Commissioner Phillips said why is it so imperative that we do this tonight. The contract doesn't expire until June 30, 2016. So is there some imperative reason we've got to do this just this moment.

Ms. Jetton said I begin the budgeting process in the middle part of November for the development of programs, the long range planning for space planning, for equipment purchases and then I generally wrap that up sometime in February so that I can begin early conversations with Janet looking at what hotel/motel/prepared food tax dollars may be so that we can go through that process. Knowing who is going to operate the center over the course of the next 5 years……in this year in particular it's critical on our side for some of the things that we are looking at in terms of our relationship with Novant and the development of those extended programs that Mike Lippard referred to and that we are looking at with the hospital……the global hospital, not just locally with that program but with Novant in general to look at how we can prepare ourselves to provide those services for the orthopedic groups for a rehab for those sorts of things and I don't want to speak on their behalf but generally my experience has been it requires a special set of skills for a hospital to entrust their patients in a facility and I think we may be challenged to find that locally and I would say particularly after just coming back from a conference in Chicago that the industry as a whole is stating that our industry is not prepared to receive those services. But we've spent the last 25 years, almost 30, I started this in 1989 and I sold out long before my oldest son who is now almost 18 years old – just for clarification I own none of Health and Sport Works and I have no ownership in any program or service that is provided at Huntersville Family Fitness & Aquatics Center. And furthermore I've had breakfast with you, Mr. Anarella, but I have never had breakfast, lunch or dinner with Jill and so while I do meet with her in terms of services and how we can work together and how we can cooperate together, I would say my relationship with her is no different than anybody else I would extend to the board. I don't want that to be part of any decision making process that there's a relationship there.

Commissioner McAulay said I call the question on the substitute motion.

Mayor Swain called for the vote to postpone the discussion until retreat which generally is the end of January.

Motion failed 2 to 4 – Commissioners Kidwell and Phillips in favor; Commissioners Bales, Julian, McAulay and Neely opposed.

Mayor Swain called for vote on the original motion to approve the agreement.

Motion carried 4 to 2 – Commissioners Bales, Julian, McAulay and Neely in favor; Commissioners Kidwell and Phillips opposed. *Agreement attached hereto as Attachment No. 2.*

Personnel Policy. Commissioner McAulay made a motion to adopt the updated personnel policy to be effective November 1, 2015.

Commissioner Phillips seconded motion.

Commissioner Kidwell said just so the audience knows this is the first time we have updated the policy completely since 1998. There's been a lot of good things brought into this new policy. There's some things that I hope the new board will look at and review starting next year in terms of sworn officers. I

Town of Huntersville

Personnel Policy

ABOUT THIS POLICY

The purpose of this Policy is to establish a personnel system for the Town of Huntersville that will promote a fair and effective means of employee recruitment and selection, develop and maintain an effective and responsible work force, and provide the means for removal of unsatisfactory employees. This Policy is adopted and established under the authority of NCGS Chapter 160A Article 7.

This Policy is provided as a guide and is not nor should it be considered to be an agreement, bargain or contract of employment, express or implied, or a promise of treatment in any particular manner in any given situation. All employment with the Town is "at will." Employees are free to leave the Town at any time, with or without a reason and with or without notice. The Town also has the right to end an employee's employment at any time, with or without a reason and with or without notice. Although the Town may choose to end an employee's employment for a cause, cause is not required.

Further, the Town has the right to manage its work force and direct its employees. This includes the right to hire, transfer, promote, demote, reclassify, lay off, terminate, or change any term or condition of employment at any time, with or without a reason and with or without notice unless otherwise required by law.

The Town may, at any time, in its sole discretion, modify or vary anything stated in this Policy—except as required by law, and except for the rights of the parties to terminate employment at will, which may only be modified, on an individual by an express written agreement authorized by the Town Board and signed by the duly authorized representatives designated by the Town Board.

This Policy supersedes all prior employee handbooks or personnel policies issued by the Town. Any violation of the policies and/or procedures set forth herein may result in disciplinary action, up to and including termination.

This Policy shall cover all employees of the Town except as specifically exempted. This Policy shall not apply to elected officials, members of advisory boards and councils, the Town Manager or the Town Attorney except for the general employment principles located in Article II.

ARTICLE I. GENERAL PROVISIONS

SECTION 1. AUTHORITY OF TOWN BOARD

The Town Board will adopt and approve personnel policies that promote the hiring and retention of capable, diligent, and honest employees under the authority of NCGS Chapter 160A-164, including the classification and pay plan.

SECTION 2. AUTHORITY OF TOWN MANAGER

The Town Manager is responsible for administering the personnel policies adopted by the Town Board and directing the activities of all employees. The Town Manager shall have all authority granted to him/her under NCGS 160A-148 and such additional authority as is granted to him/her by the Town Board from time to time, including the authority to delegate any or all of these duties and responsibilities to the appropriate staff member.

SECTION 3. DEPARTMENTAL RULES AND REGULATIONS

Due to particular personnel and operational requirements, certain departments of the Town may establish supplemental rules and regulations applicable only to operating policies and procedures for those departments. All such rules and regulations shall be subject to the approval of the Town Manager and shall not, in any way, conflict with this Policy, but shall be deemed to be supplemental thereto. To the extent any Departmental Rules and Regulations are in conflict with this Policy, this Policy will control.

SECTION 4. CONTROLLING LAW

To the extent any of this Policy or any Departmental Rules and Regulations are in conflict with federal, state or local laws, the Town will abide by the applicable federal, state or local law and such policy, rule or regulation will be abrogated.

SECTION 5. AUTHORITY TO MODIFY

The Town may, at any time, in its sole discretion, modify or vary anything stated in this Policy—except as required by law, and except for the rights of the parties to terminate employment at will, which may only be modified on an individual basis by an express written agreement authorized by the Town Board and signed by the duly authorized representatives designated by the Town Board.

SECTION 6. CONSEQUENCES FOR VIOLATIONS

Any violation of the policies and/or procedures set forth herein may result in disciplinary action, up to and including termination.

ARTICLE II. GENERAL EMPLOYMENT PRINCIPLES

SECTION 1. MERIT PRINCIPAL AND EQUAL EMPLOYMENT OPPORTUNITY

The Town is an equal opportunity employer. The Town believes all employees of the Town should be treated fairly and consistently. The Town will make employment decisions without regard to race, religious creed, color, age, sex, gender, sexual orientation, sexual expression, national origin, ancestry, citizenship status, religion, marital status, disability, military service or veteran status, genetic information, or any other classification protected by applicable federal, state, and local laws and ordinances.

The Town is dedicated to ensuring the fulfillment of this Policy with respect to hiring, placement, promotion, transfer, demotion, layoff, termination, recruitment advertising, pay, and other forms of compensation, training, and general treatment during employment. All such decisions shall be made solely on the basis of merit. Employees shall receive equitable and adequate pay and benefits and eligible employees shall receive merit pay increases based upon their performance, subject to the availability of funds.

Any violation of this Policy will not be tolerated and will result in appropriate disciplinary action, up to and including termination. If an employee believes someone has violated this Policy or otherwise has questions regarding this Policy, the employee may bring the matter to the attention of their supervisor, Department Director or Human Resources. The Town will promptly investigate the facts and circumstances of any claim this Policy has been violated and take appropriate corrective measures.

No employee will be subject to, and the Town prohibits, any form of discipline or retaliation for reporting perceived violations of this Policy, pursuing any such claim, or cooperating in any way in the investigation of such claims.

SECTION 2. NO HARASSMENT/NO DISCRIMINATION

The Town will not tolerate any form of harassment or discrimination. The Town prohibits harassment, discrimination, and/or intimidation of others based on race, religious creed, color, age, sex, gender, sexual orientation, sexual expression, national origin, ancestry, citizenship status, religion, marital status, disability, military service or veteran status, genetic information, or any other classification protected by applicable federal, state, or local laws or for any other reason.

Harassment Defined Harassment as defined in this Policy is unwelcome verbal, visual or physical conduct, based on an individual's protected characteristic, creating an intimidating, offensive, or hostile work environment that interferes with work performance. Harassment includes, but is not limited to remarks, jokes, written materials, symbols, paraphernalia, clothing or other verbal or physical conduct which may intimidate, ridicule, demean or belittle a person because of their age, sex, color, race, creed, religion, national origin, ethnicity, disability, marital status, military/veteran status, or status in any other group protected by federal, state, or local law. Harassment can be verbal (including slurs, jokes, insults, epithets, gestures or teasing), graphic (including offensive posters, symbols, cartoons, drawings, computer displays, or e-mails) or physical conduct (including physically threatening another, blocking someone's way, etc.) that

denigrates or shows hostility or aversion towards an individual because of any protected characteristic.

Sexual Harassment Defined Sexual harassment can include all of the above actions, as well as other unwelcome conduct, such as unwelcome or unsolicited sexual advances, requests for sexual favors, conversations regarding sexual activities and other verbal or physical conduct of a sexual nature. Sexual harassment also includes unwelcome behavior, remarks, jokes, or innuendos that intimidate, ridicule, demean, or belittle a person on the basis of their gender (regardless of whether the remarks are sexually provocative or suggestive of sexual acts).

Harassment occurs when:

- Submission to and/or tolerance of the unwelcome conduct is explicitly or implicitly made a term or condition of a person's employment;
- Submission to, tolerance of, and /or rejection of the unwelcome conduct is a basis for employment decisions;
- The unwelcome conduct substantially interferes with a person's work performance and creates an intimidating, hostile, or offensive work environment.

Because it is difficult to define unlawful harassment, employees are expected to behave at all times in a professional and respectful manner. Even if conduct is not offensive to those participating in the conduct, it may be offensive to others. Such conduct may be in violation of this Policy, even if it is not unlawful. Harassment is unacceptable in the workplace and in any work-related settings such as business trips and business-related social functions, regardless of whether the conduct is engaged in by a supervisor, co-worker, vendor, service provider or other third party.

Employees are responsible for bringing any form of harassment or discrimination to the Town's attention so that harassment and discrimination in the workplace are avoided. The Town cannot remedy claimed harassment or retaliation unless an employee brings these claims to the attention of management. Failure to report claims of harassment and/or retaliation prevents the Town from taking steps to remedy the problem and may be grounds for disciplinary action, up to, and including termination. If an employee experiences any problem of this sort, becomes aware of any other employee experiencing a problem of this sort, or has knowledge of any form of harassment or discrimination, sexual or otherwise, they must immediately report it to their supervisor. If an employee believes that it would be inappropriate to discuss the matter with their supervisor, or they are uncomfortable discussing the matter with their supervisor, they may elect to bypass the supervisor and report the matter directly to Human Resources.

The Town will investigate thoroughly and promptly, all claims of harassment or discrimination. Employees are required to cooperate with any investigation involving harassment and/or discrimination.

SECTION 3. REASONABLE ACCOMMODATION OF INDIVIDUALS WITH DISABILITIES

The Town recognizes and supports its obligation to endeavor to reasonably accommodate job applicants and employees with known physical or mental disabilities who are able to perform the essential functions of the position, with or without reasonable accommodation. The Town will endeavor to provide reasonable accommodation to otherwise qualified job applicants and employees with known physical or mental disabilities, unless doing so would impose an undue hardship on the Town or pose a direct threat of substantial harm to the employee or others.

An applicant or employee who believes he or she needs a reasonable accommodation of a disability should discuss the need for possible accommodation with Human Resources.

SECTION 4. REASONABLE ACCOMMODATION OF INDIVIDUALS' RELIGIOUS BELIEFS AND PRACTICES

The Town recognizes and supports its obligation to endeavor to reasonably accommodate job applicants and employees with sincere religious beliefs or practices who are able to perform the essential functions of the position, with or without reasonable accommodation. The Town will endeavor to provide reasonable accommodation to otherwise qualified job applicants and employees, unless doing so would impose an undue hardship on the Town.

An applicant or employee who believes he or she needs a reasonable accommodation of a sincere religious belief or practice should discuss the need for a possible accommodation with Human Resources.

SECTION 5. SUBSTANCE ABUSE

The Town desires to provide a safe and healthy work environment for employees as well as to provide the best service possible to the public. To achieve these goals, the Town has the following rules about the use, possession, and sale of drugs and alcohol by its employees. ***NOTE – BECAUSE OF THE NATURE OF THEIR POSITION, CERTAIN EMPLOYEES MAY BE SUBJECTED TO ADDITIONAL REQUIREMENTS UNDER STATE AND/OR FEDERAL REGULATIONS***.

The illegal or unauthorized use, being under the influence of, sale, distribution, or possession of narcotics, drugs, alcohol or controlled substances while on the job (on or off Town property) or on Town property (whether or not an employee is "on the clock") will result in immediate disciplinary action, up to and including termination. The unauthorized use of alcohol during working hours or reporting to work under the influence of alcohol or illegal/unauthorized drugs is strictly prohibited.

The use of controlled substances prescribed to an employee by a licensed physician or which are available over the counter is not prohibited by this Policy. However, if any such medication requires any accommodation or poses safety concerns, employees should notify their supervisor or Human Resources to discuss what accommodations are necessary.

The Town will administer pre-employment drug testing after a conditional offer of employment has been issued. In addition to pre-employment screening, the Town may conduct for cause drug and alcohol testing if there is reasonable suspicion that an employee is in violation of this Policy. The Town may also conduct for cause drug and alcohol testing following an accident or other workplace incident including situations involving damage to Town property or personal injury. Employees in safety sensitive positions may be subject to random drug tests in accordance with the Random Testing Procedures which are then in effect.

NOTE – BECAUSE OF THE NATURE OF THEIR POSITION, CERTAIN EMPLOYEES MAY BE SUBJECTED TO ADDITIONAL REQUIREMENTS UNDER STATE AND/OR FEDERAL REGULATIONS.

All such testing will follow the procedures set forth in the North Carolina Controlled Substance Examination Act and implementing regulations and will otherwise be conducted in compliance with Federal and State laws as well as such administrative procedures as may be established by the Town.

Refusal to submit to screening and/or a positive test may be grounds for withdrawal of the conditional offer of employment and/or termination of employment. Violation of this Policy will result in disciplinary action, up to and including termination. The Town maintains a policy of non-discrimination and will endeavor to make reasonable accommodations to assist individuals recovering from substance and alcohol dependencies, and those who have a medical history which reflects treatment for substance abuse conditions. However, employees may not request an accommodation to avoid discipline for a policy violation.

SECTION 6. WORKPLACE VIOLENCE PREVENTION

The Town is strongly committed to providing a safe workplace for all its employees. The purpose of this Policy is to minimize the risk of personal injury to employees and damage to Town property. Threats, threatening language, or any other acts of aggression or violence made toward or by any Town employee will not be tolerated. For purposes of this Policy, a threat may include any verbal or physical harassment or abuse, attempts to intimidate or to instill fear in others, menacing gestures, bringing weapons to the workplace, stalking, or any other hostile, aggressive, injurious and/or destructive actions undertaken for the purpose of domination or intimidation.

The Town specifically discourages employees from engaging in any physical confrontation with a violent or potentially violent individual; however, employees are expected and encouraged to exercise reasonable judgment in identifying potentially dangerous situations and informing management accordingly.

All potentially dangerous situations including threats by co-workers should be reported immediately to a Supervisor, Department Director, Human Resources or to any other member of management with whom you feel comfortable. Reports of threats may be made anonymously. All threats will be promptly investigated. No employee will be subject to retaliation, intimidation, or discipline as a result of reporting a threat under this policy.

If an investigation confirms that threat of a violent act or violence itself has occurred, the Town will take appropriate corrective action. Anyone, regardless of position or title, whom the Town determines has engaged in conduct that violates this Policy, including retaliation, will be subject to discipline, up to and including termination.

The Town reserves the right to seek a civil "no-contact" order in accordance with the provisions of the North Carolina General Statutes on behalf of any employee who has been the victim or target of workplace violence or other unlawful conduct in the workplace in violation of this Policy.

SECTION 7. NO ABUSE

The Town will not tolerate any form of sexual abuse, physical abuse or other abuse of any kind of persons in Town programs. This applies to all Town programs, but is especially important in the case of Town programs serving potentially more vulnerable populations such as children, youth, seniors, etc. In order to avoid the potential for actual or perceived instances of sexual or other abuse in Town programs, an employee who works with or around children, youth or other citizens participating in Town programs:

- Should not put him/herself in a one-on-one situation involving a child/youth who is not their own;
- Should not put him/herself in a one-on-one situation with an adult participant who is not an immediate family member;
- Should not provide unwarranted gifts, trips, attention and affection to individual children/youth/adult participants who are not members of their immediate family.

EMPLOYEES HAVE THE RESPONSIBILITY TO BRING ANY FORM OF ABUSE TO THE TOWN'S ATTENTION. If an employee witnesses or becomes aware of any such situation, they must immediately report it to their supervisor. If an employee believes that it would be inappropriate to discuss the matter with their supervisor, or they are uncomfortable discussing the matter with their supervisor, they may elect to bypass the supervisor and report the matter directly to Human Resources. The Town will investigate thoroughly and promptly, all claims of violation of this Policy. Employees are required to cooperate with any investigation under this Policy. The Town will endeavor to keep complaints, investigations and resolutions confidential to the extent possible; however the Town cannot compromise its obligation to investigate complaints or any obligation to report instances of sexual or other abuse to the appropriate enforcement authorities.

SECTION 8. NO RETALIATION

No employee will be subject to, and the Town prohibits, any form of discipline or retaliation for reporting perceived violations of these policies in good faith, pursuing any such claim, or cooperating in any way in the investigation of such claims in good faith. If an employee believes someone has violated this no-retaliation policy, the employee should bring the matter to the immediate attention of Human Resources. Anyone, regardless of position or title, whom the Town determines has engaged in conduct that violates this Policy against retaliation will be subject to discipline, up to and including termination.

SECTION 9. OPEN DOOR POLICY FOR QUESTIONS, SUGGESTIONS, AND CONCERNS

Employees should bring questions, suggestions, and concerns to the Town's attention so it can understand and work with each other better. If an employee has a question, suggestion or concern, it may be discussed with their supervisor. Most concerns can be addressed and resolved at that level. However, if an employee otherwise feels uncomfortable speaking with their supervisor or has not received a satisfactory response they, may proceed to the next step in the chain of command or to Human Resources.

ARTICLE III. COMPENSATION AND CLASSIFICATION PLANS

POSITION CLASSIFICATION PLAN

SECTION 1. ADOPTED

The Position Classification Plan, as amended from time to time is hereby adopted as the Position Classification Plan for the Town.

SECTION 2. ALLOCATION, ADMINISTRATION AND AMENDMENT

The Town Manager shall be responsible for:

- The administration and maintenance of the position classification plan so that it will accurately reflect the duties performed by employees in the classes to which their positions are allocated.

- The allocation of each position covered by the Position Classification Plan to its appropriate class/pay grade in the Plan.

- The addition and deletion of positions from the Position Classification Plan.

SECTION 3. EMPLOYEE CLASSIFICATIONS

A number of different types of employees are employed by the Town.

- Probationary: All employees, upon initial appointment and/or promotion, will serve a probationary period of six (6) months in their position. Police officers shall serve a probationary period of twelve (12) months or such other time period as is required by Training and Standards. The probationary period for any employee may be extended for a maximum of an additional six (6) months with approval of the Town Manager.

- Regular Full-Time Employees: Employees who are regularly scheduled to work the number of hours which is designated as full-time for their position. Regular full-time employees are eligible for all Town benefits, subject to the terms and conditions of the applicable plans and the law.

- Regular Part-Time Employees: Employees who are regularly scheduled to work fewer than the number of hours which is designated as full-time for their position. Eligibility for Town benefits is subject to the terms and conditions of the applicable plans and the law. Part-Time employees do not accrue vacation, sick leave or holiday pay except as specifically designated by the Town Manager.

- Temporary Employees: Employees who are hired for a specific task or project, usually involving fewer than 180 days. While they do receive all statutory benefits, temporary employees are not eligible for Town benefits.

In addition to the above classifications, employees are categorized as either "**exempt**" or "**non-exempt**."

- Non-Exempt Employees: Employees who are eligible for overtime under the federal Fair Labor Standards Act and/or applicable state wage/hour laws. Non-exempt employees are entitled to an overtime premium for overtime work in accordance with state and federal law.

- Exempt Employees: Salaried employees whose work duties exempt them from the overtime provisions of the federal Fair Labor Standards Act and any applicable state wage/hour laws. Employees classified as exempt receive a salary which is intended to cover all hours worked.

Employees will be informed of their initial employment classification and status as exempt or non-exempt upon commencing employment. An employee may change classifications only upon written notification by the Town. There are no automatic conversions from one classification to another. Employees should speak to Human Resources regarding any concerns or questions about an employee's classification.

COMPENSATION PLAN

SECTION 1. ADOPTED

The Compensation Plan for Sworn and Non-Sworn personnel, including the schedule of salary ranges and class titles assigned to salary ranges as amended from time to time is hereby adopted as the Compensation Plan for the Town.

SECTION 2. ADMINISTRATION AND MAINTENANCE

The Town Manager shall be responsible for:

- The administration and maintenance of the Compensation Plan so they will provide equitable compensation for all positions, reflecting differences in duties and responsibilities, the rates of pay for comparable positions in private and public employment in the area, changes in the cost of living, the financial conditions of the Town and such other factors as may be deemed necessary by the Town Manager.

- Making recommendations to the Board for such changes in salary ranges including market adjustments as appear to be warranted.

SECTION 3. PAY GRADES AND SALARY RANGES

Pay grades and salary ranges are intended to furnish administrative flexibility in recognizing individual performance among employees holding positions in the same grade by rewarding employees for meritorious service, exceptional qualifications, experience etc. All employees should be paid at a rate within the salary range for the applicable pay grade except for employees who are in a trainee status or employees whose current salaries are above the established maximum rate following transition to a new pay plan. While the minimum rate established for the pay grade is the normal hiring rate, applicants with qualifications exceeding the stated minimum for the position,

may be hired at any salary within the pay grade, with a recommendation of the Department Director, Human Resources and approval of the Town Manager. Employees who reach the maximum level of salary in their pay grade are not eligible for further pay increases except upon recommendation of the Department Director, Human Resources and express approval of the Town Manager.

SECTION 4. PROMOTION, DEMOTION, RECLASSIFICATION AND COMPLETION OF PROBATIONARY PERIOD

When an employee is promoted, demoted or reclassified, the rate of pay for the new position will be established in accordance with the following guidelines, subject to the discretion of the Town Manager:

Promotion An employee who is promoted should receive a 5% pay increase in base salary or an increase to the minimum of the new pay grade, whichever is higher.

Demotion The amount of reduction in salary of an employee who is demoted and such employee's eligibility for future pay increases shall be determined at the discretion of the Town Manager.

Probationary An employee who successfully completes the probationary period should receive a 5% pay increase in base salary.

Reclassification In the case of a reclassification, an employee whose position is reclassified to a higher pay grade should receive a 5% pay increase in base salary or an increase to the minimum of the new pay grade, whichever is higher. If the position is reclassified to a lower pay grade, no adjustment will be made. There will not be a new probationary period associated with a position reclassification and; therefore, no probationary increase in salary.

SECTION 5. MERIT PAY/MERIT BONUS

When the quality of an employee's performance meets applicable criteria, the employee may be eligible for a merit increase upon recommendation of the Department Director. Merit increases are not automatic, but should be based on performance. Merit increases may also be denied based on productivity, behavior, attendance or poor work quality. The amount of and availability of merit increases are subject to approval of and funding by the Town Board and approval of the Town Manager.

Any employee who is in the final quarter of an annual evaluation period (90 days or less) at the time of their promotion to a new position, will be eligible for evaluation to receive a merit increase at the same time as they receive their 5% promotional increase. Employees who are not yet in the final quarter of an annual evaluation period (91 days or more) at the time of their promotion will not be eligible for a merit increase until the completion of their probationary period and next annual evaluation period.

Upon the recommendation of the Department Director, Human Resources and with approval of the Town Manager, employees who have reached the maximum salary for their position may be granted a discretionary lump sum merit bonus. Merit bonus payments should be based on performance as reflected in the employee's performance evaluation.

SECTION 6. PERFORMANCE EVALUATIONS

The Town endeavors to conduct regular performance evaluations to give employees an opportunity to discuss work performance with their supervisor. In addition, supervisors may frequently provide regular input regarding employee performance.

An employee's annual review period will commence at the conclusion of their probationary period. Employees who are promoted will commence a new annual review period at the conclusion of their promotional probationary period and establish their new review date.

Formal performance reviews should consider the following issues, among others, as applicable: attendance, initiative and effort, and quality and quantity of work performed. The performance evaluation is designed to identify employee strengths, inform employees of areas where improvement may be required. Performance evaluations should also provide an opportunity to set performance goals and targets.

SECTION 7. WORK PERIOD

For payroll purposes, the work period is defined as seven consecutive days running from Monday at 12:00 AM to Sunday at 11:59 PM. Public Safety employees have a work period of 28 days. Specific work schedules may vary depending on position and department. From time-to-time, it may be necessary to change employee work schedules to meet the needs of the Town. Employee cooperation with any such changes is both expected and appreciated. The Town will give employees as much advance notice as possible of any changes in work schedule.

SECTION 8. OVERTIME

The nature of Town business sometimes requires employees to work beyond regularly scheduled working hours. Supervisors will notify employees when they are required to work overtime. The Town will try to provide advance notice of any overtime that will be required; however, overtime is not always predictable. Overtime should be unusual. Please remember employees are not allowed to work overtime unless it has been authorized in advance by their Supervisor.

Whenever possible, departments will schedule time off on an hour for hour basis within the applicable work period for non-exempt employees so that they are not required to work more than the hours allowed by federal overtime requirements. When time off within the work period cannot be granted, non-exempt employees will be paid overtime at one and one-half times (1½) their regular rate of pay or compensatory time will be granted at one and one-half times (1½) the overtime hours worked. (Currently all hours worked over: 40 hours per week for regular employees; 212 per work period for fire; or 171 per work period for law enforcement, are considered overtime.) Please note that sick leave, vacation leave, holiday leave or other ***non-worked*** time does not count as hours worked for purposes of overtime calculations.

Exempt employees are not entitled to be paid overtime; however, the Town allows exempt employees to track compensatory time for purposes of taking time off in the discretion of the Department Director. Exempt employees are not entitled to be paid out for accrued compensatory time under any circumstances.

SECTION 9. STANDBY/ON-CALL AND CALL BACK PAY

The nature of several jobs performed by Town employees requires that those employees be on standby duty or on-call – i.e. be available and ready to work in the case of an emergency. Standby/on-call duty is an integral part of the routine duties and responsibilities of some jobs. As such, compensation for standby duty is included in the base salary. In the event that non-exempt employees are called back to perform assigned duties outside of normal working hours, they will be guaranteed a minimum payment of two hours of wages for being called back to work or be paid for their actual hours worked, whichever is greater. Hours actually worked while on-call are calculated beginning when the employee reports to the work site and are added to the regular total of hours worked for the work period. Those employees who are on standby/on-call duty and cannot be located to perform their duties in the event of being called back, will be subject to disciplinary action. Only hours actually worked when called back count toward hours worked for overtime purposes. Additional incentive pay/leave may be granted at the discretion of the Department Director.

SECTION 10. TIMEKEEPING AND SAFE HARBOR POLICY

It is the Town's policy and practice to accurately compensate employees and to do so in compliance with all applicable state and federal laws. To ensure employees are paid properly and no improper deductions are made, they must review their earnings statements promptly to identify and to report all errors. If they believe a mistake has occurred or if there are any questions, please use the reporting procedure outlined below.

Deductions The Town is required by law to make certain deductions from employee earnings. Earnings statements itemize the deductions made from gross earnings. Federal and state laws require that the Town make deductions for social security, federal income tax, state income tax and any other legally-mandated taxes or deductions. In addition, employees may authorize deductions for additional items, such as contributions for medical insurance, retirement savings plans, etc.

Non-exempt Employees If an employee is classified as a non-exempt employee, they must record their daily starting, meal and ending times as well as anytime away from their work station for non-business reasons other than normal break times. Non-Exempt employees must show an accurate record of the hours worked because their pay will be based on this attendance record. Non-exempt employees should accurately record when they begin work, but under no circumstances should any employee begin work more than five (5) minutes prior to the employee's scheduled starting time or continue to work five (5) minutes or more after the employee's scheduled quitting time unless specifically authorized by their supervisor. Non-exempt employees may never work off the clock. In the event any employee fails to record starting or quitting time or there is an error on a timesheet, the supervisor should be notified. All attendance records must be approved by the supervisor. Employees may only record their own time. Recording time for other employees may lead to discipline, up to and including termination.

Exempt Employees If an employee is classified as an exempt salaried employee, they will receive a salary which is intended to compensate for all hours worked for the Town. This salary will be established at the time of hire or when the employee becomes classified as an exempt

employee. While legally authorized deductions such as those specified above will be made, an exempt employee's salary will be a predetermined amount that will not be subject to deductions for variations in the quantity or quality of the work performed except for certain reasons expressly permitted by law. Exempt employees will receive their full salary for any workweek in which work is performed. Please note that exempt employees will be required to use accrued vacation, sick, or other forms of paid time off for full or partial day absences for personal reasons, sickness or disability.

Whether an employee is an exempt or non-exempt employee, any questions about earnings or the deductions made may be addressed to Human Resources. If an employee believes they have been subject to any improper deductions in pay, it should immediately be reported to their supervisor. If the supervisor is unavailable or if the employee believes it would be inappropriate to contact that person, they should immediately contact Human Resources.

Every report will be fully investigated and corrective action will be taken where appropriate. In the event of unauthorized or inappropriate deductions, the employee will be reimbursed immediately. In addition, the Town will not allow any form of retaliation against individuals who report alleged violations of this policy or who cooperate in the Town's investigation of such reports. Violations of this policy or any form of retaliation in violation of this policy will result in disciplinary action, up to and including termination.

ARTICLE IV. WORK EXPECTATIONS

SECTION 1. REST BREAKS AND MEAL PERIODS

Employees will be provided with rest breaks and/or meal periods to the extent required and in accordance with applicable law and departmental practice.

SECTION 2. LACTATION ACCOMMODATION

The Town will provide a reasonable amount of break time to accommodate an employee desiring to express breast milk for the employee's infant child, to the extent required and in accordance with applicable law. The break time, if possible, must run concurrently with rest and meal periods already provided to the employee. If the break time cannot run concurrently with rest and meal periods already provided to the employee, the employee may use sick or vacation leave at the employee's discretion otherwise the break time will be unpaid. Scheduling outside of normal lunch and break periods is subject to the approval of the supervisor, to the extent permitted by applicable law. The Town will endeavor to, but may not be able to provide additional break time if doing so would seriously disrupt operations.

The Town will make reasonable efforts to provide employees with the use of a room or location other than a toilet stall for the employee to express milk in private. This location may be the employee's private office, if applicable. Please speak to Human Resources if there are questions regarding this policy.

SECTION 3. ATTENDANCE

Attendance and punctuality are extremely important. Employees should be at their work place and ready to work at the designated starting time. The Town recognizes there may be times when absences or tardiness cannot be avoided. In that event, employees must notify their supervisor as early as possible but at least 2 hours before their scheduled shift. An employee must speak with their supervisor or another management employee personally and ***may not*** simply leave a voicemail message, a text or an e-mail. Unless other arrangements have been made with their supervisor, employees must call their supervisor each day of absence.

Failure to give their supervisor notice of an employee's absence may result in disciplinary action. If an employee is absent due to a personal illness or the illness of a family member for more than three (3) consecutive work days or have a pattern of absence, the Town may require the employee to produce a certification from their healthcare provider. If an employee fails to notify their supervisor of their absence for three (3) consecutive work days, the employee may be considered to have voluntarily terminated their employment.

A pattern of excessive or unexcused absences or tardiness may result in disciplinary action, up to and including termination.

SECTION 4. PERSONAL APPEARANCE

Because of the Town's relations with the public, neatness and cleanliness are absolutely necessary at all times. Employees should dress conservatively, in good taste, and according to the requirements of their position. Some employees may have specific safety and/or uniform requirements specific to their position. If an employee fails to dress appropriately, the employee may be asked to leave for the day or to return home, change into suitable clothing, and report back to work. If an employee has any questions about the proper attire for their work area, the employee should ask their supervisor.

SECTION 5. TOBACCO AND OTHER PRODUCTS

The Town regulates the use of tobacco products and electronic cigarettes on the premises for health and safety reasons and in accordance with applicable law. The use of tobacco products and electronic cigarettes is prohibited in all indoor locations on Town property, including private offices as well as Town owned vehicles. The Town also follows the Mecklenburg County Ordinances and State Law which regulate smoking and tobacco use in certain public places.

SECTION 6. PERSONAL VISITS, TELEPHONE CALLS, AND MAIL

Personal visits and personal telephone calls during your work hours are discouraged. Personal mail and e-mail should be directed to the employee's home and not to their Town address.

SECTION 7. ELECTRONIC COMMUNICATIONS POLICY

The Town's electronic communications systems including, but not limited to, computers, internet systems, telephone, voice mail and e-mail systems are provided to employees by the Town and are intended primarily for business use. Information transmitted on these systems may also be public records. As such, employees have no legitimate expectation of privacy in regard to system usage.

The Town may access its electronic communications systems and obtain the communications within the systems, without notice to users of the system, in the ordinary course of business when the Town deems it appropriate to do so. The Town also has the right to and may inspect or monitor without advance notice any devices employees use to access the Town's electronic communications systems, including but not limited to computers, laptops, notebooks, tablet computers or mobile devices.

The reasons for which the Town may obtain such access include, but are not limited to: maintaining the system, preventing or investigating allegations of system abuse or misuse, assuring compliance with software copyright laws, complying with legal and regulatory requests for information, protecting proprietary information, and insuring that the Town's operations continue appropriately during an employee's absence. The Town may also store electronic communications on magnetic media for a period of time after the communication is created and may delete such communications in accordance with record retention requirements.

The Town's policy prohibiting all types of harassment applies to the use of the Town's electronic communications systems, including Internet access. No one may use electronic

communications in a manner that may be construed by others as harassment based on race, national origin, sex, sexual orientation, age, disability, religious beliefs or any other characteristic protected by applicable federal, state or local law. No jokes on these bases should be transmitted over the Town's electronic communications systems.

All employees, upon request, must inform management of any private access codes or passwords. Personal use of the Town's electronic communications systems must be limited to employees' non-work time and otherwise be in compliance with the general restrictions on the use of Town Owned Equipment.

Employees may not access, or attempt to obtain access, to another individual's electronic communications without appropriate authorization. Employees may not install or remove software and/or downloads on the Town's computer systems without prior management approval. Personal computers and other electronic devices (cell phones, tablets, etc.) may not be connected directly to the Town's computer systems without prior management approval.

Violators of this Electronics Communications Policy may be subject to discipline, up to and including termination.

SECTION 8. SOCIAL NETWORKING POLICY

The Town recognizes that Social Networking sites are used by many Town employees. The Town respects the right of employees to maintain a blog or post a comment on social networking sites; however, to protect the Town's interests and ensure employees focus on their job duties, employees must adhere to the following rules:

- Employees may not post on a blog or social networking site during their working time, except in the conduct of Town business and in accordance with departmental policies.

- If an employee mentions the Town on any social networking site and also expresses either a political opinion or an opinion regarding the Town's actions, the communication should include a disclaimer that the views expressed are those of the author and do not necessarily reflect the views of the Town.

- All rules regarding confidential information (including confidential personnel information) apply in full to blogs and social networking sites.

- Any conduct which is impermissible under the law if expressed in any other form or forum is impermissible if expressed through a social networking site. For example, posted material which violated the Town's policies prohibiting discrimination, retaliation, and/or harassment based on any **protected category** as well as the Town's Workplace Violence and No Abuse policies apply equally to employee comments on social networking sites.

- Any employee who violates this policy may be subject to disciplinary action, up to and including termination. The Town reserves the right to monitor all public blogs and social networking forums for the purpose of protecting its interests and maintaining compliance with this Policy.

Nothing in this Policy is designed to interfere with, restrain, or prevent employee communications regarding wages, hours, or other terms and conditions of employment or an employee's Constitutional Rights to free speech or otherwise.

SECTION 9. USE OF TOWN OWNED EQUIPMENT

The personal use of Town owned equipment, materials, tools and supplies is not permitted unless authorized by the Town Manager. Town owned equipment, materials, tools and supplies shall not be removed from Town property except in the conduct of official Town business or upon authorization of the Town Manager. Any authorization granted will be limited to the use specified in the authorization.

Vehicles owned by the Town shall be cared for by an employee in the same responsible way that they would care for their own. Town owned vehicles are to be used exclusively for official Town business. Town owned vehicles may only be taken home in compliance with the Town's take home policy or as specifically approved by the Town Manager. Employees shall not permit non employees to operate or ride in Town vehicles except for the conduct of official Town business or upon specific authorization of the Town Manager.

SECTION 10. SEARCHES OF TOWN AND EMPLOYEE PROPERTY

To protect employees and the Town from theft, and to aid in the enforcement of the Town's policies including substance abuse and workplace violence, the Town reserves the right to conduct searches of Town facilities and property, including Town property in the possession of the employee (e.g., Town owned vehicles, desks, file cabinets, employee lockers, etc.). The Town may also search employees and their personal property (e.g., vehicles, clothing, packages, purses, brief cases, lunch boxes, or other containers brought onto Town premises) when there is reason to believe Town policy is being violated. Employees are expected to cooperate in the conduct of such searches.

SECTION 11. CONFIDENTIAL INFORMATION

No employee shall disclose confidential information concerning the property, government, or affairs of the Town, including but not limited to personnel information or other information which is made confidential by applicable law.

SECTION 12. CONFLICTS OF INTEREST, GIFTS, FAVORS AND ETHICS

Employees of the Town are expected to discharge their duties conscientiously and to conduct themselves in a manner, both on and off the job, which will reflect favorably upon Town government. To that end, employees should:

- Refrain from any use of their official position, or confidential information to advance the financial or other private interest of themselves or others.

- Conduct themselves in such a manner that there is no suggestion of extracting of private advantage from their Town employment.

- Refrain from any action which might result in or give the appearance of preferential treatment to any person or entity.

- Exercise care in their personal financial activities to avoid any legal liabilities which would reflect unfavorably upon the Town.

- Refrain from other activities which are prohibited by law in the conduct of Town service.

- Refrain from accepting any gift, whether in the form of service, loan, thing of value or promise from any person who to the employee's knowledge is interested directly or indirectly in any manner whatsoever in business dealings with the Town;

- Refrain from accepting any gift, favor or thing of value that may tend to influence the employee in the discharge of their duties;

- Refrain from granting in the discharge of their duties any improper favor, service, or thing of value.

SECTION 13. EMPLOYMENT OF RELATIVES

Employment of relatives in the same administrative department at the same time is prohibited. No relatives of current employees will be hired by the Town if such hiring would create a supervisory relationship between a current employee and that relative or otherwise pose an actual or potential conflict of interest. For purposes of this policy, "relative" means spouse, mother, father, guardian, children, sisters, brothers, grandparents, grandchildren, plus the various combination of half, step, in-law and adopted relationships that can be derived from those names, or anyone living as a part of the same household.

This policy shall not be retroactive. Current employees who become related, for example, by virtue of marriage, to another current employee will be permitted to continue employment; however, the Town reserves the right to transfer one or both of the employees if a supervisory relationship exists between the employees to avoid an actual or potential conflict of interest.

Public Safety Exemption: For any public safety department of the Town employing at least 50 full-time employees, the Department Director, with approval of the Town Manager, may waive this policy. However, employees in the same department under this exception cannot be in a supervisory relationship. The Town may reassign either employee within the department to comply with this directive. By accepting employment with the Town, related employees under this exemption acknowledge that their promotional opportunities with the department may be limited due to this relationship.

SECTION 14. INCLEMENT WEATHER

Town offices will not close unless a severe inclement weather situation requires this to occur at the discretion of the Town Manager. Regardless of whether Town offices are open or closed, in the case of inclement weather each employee must make a personal decision regarding safety traveling to and from the workplace.

Employees unable to report to work for the day, not able to arrive at the normal scheduled start time, or needing to leave work early due to inclement weather when there is no Town closing or delayed opening must notify their supervisor and use normal department call-in and advance approval procedures. Employees may use vacation leave for time not worked.

When Town offices are closed or hours shortened due to severe inclement weather, all employees with the exception of essential personnel (to be determined by the department, by event) will be excused from work and will be paid their regular rate. Essential and shift employees required to work during a 24-hour period between 12:00 AM and 12:00 midnight when Town offices have been closed, will have vacation leave hours credited to their leave balance based on the number of hours Town offices were closed proportionate to the balance of their normal work shift during the time period of the severe weather event as determined by the Town Manager and the Department Director. (e.g. if Town offices are closed for 4 hours, employees working an 8-hour shift would receive 4 hours credit, employees working a 12 hour shift would receive 8 hours credit). If there is a delayed opening or early closing, essential and shift employees must work their entire regularly scheduled shift to be eligible for this vacation leave credit. If Town offices are closed the entire day, essential and shift employees must work a minimum of ¾ of their regularly scheduled shift to be eligible for this vacation leave credit (not to exceed the number of hours worked). Departments are responsible for providing a list of eligible employees with hours of vacation leave credit to payroll with timesheet submission.

SECTION 15. OUTSIDE EMPLOYMENT

The work of the Town will take precedence over other occupational interests of employees. All outside employment whether for salaries, wages, other compensation or uncompensated work including all self-employment must be reported to and approved, in writing, by the employee's Department Director and Town Manager. Outside employment, whether for pay or not, causing or perceived as a conflict of interest will be disapproved. The Town Manager shall be responsible for final interpretation of this policy. Conflicting outside employment or other violation of this policy will be grounds for disciplinary action, up to and including termination.

SECTION 16. VOLUNTEER SERVICE

The Town encourages and shall permit employees to participate as members of a volunteer emergency service or other volunteer opportunities with the Town, to the extent that such volunteer activities do not interfere with the employee's responsibilities as an employee of the Town. However, no employee will be required or allowed to volunteer their time to the Town to perform the same or similar work performed as a regular employee.

SECTION 17. POLITICAL ACTIVITY

Each employee has a civic responsibility to support good government by every available means and in every appropriate manner. Each employee may join or affiliate with civic organizations of a partisan or political nature, may attend political meetings, may advocate and support the principles or policies of civic or political organizations in accordance with the Constitution and laws of the United States of America. However, no employee shall:

- Engage in political activity while on duty, through phone calls, e-mails, letters, meetings, or otherwise;

- Use official authority or influence for the purpose of interfering with or affecting the result of an election or nomination for office;

- Be required to contribute funds or support for political or partisan purposes as a condition of employment, pay raise, promotion or tenure of office;

- Coerce, solicit or compel contributions for political or partisan purposes by another employee of the Town;

- Use Town owned supplies, equipment or facilities to display political slogans, posters or stickers or for any other political purpose;

- Be a candidate for the Town Board or partisan election. However; if the employee is a candidate for non-partisan election (except the Town Board), the employee must take a leave of absence, without pay, 30 days prior to the primary election. If successful in any primary election, the leave without pay must be extended until the day after the general election. If successful, the NC General Statutes concerning dual office holding shall apply.

Any violation of this section shall subject such employee to disciplinary action up to and including dismissal.

SECTION 18. SEPARATION OF EMPLOYMENT

Any employee voluntarily leaving the Town is asked to give two weeks' notice in writing to their supervisor. Unauthorized leave from work for a period of three (3) consecutive days shall be considered as a resignation.

All Town property including, but not limited to, keys, fobs, credit cards, security cards, passwords, computers and computer equipment, town files and electronic files on external devices, cellular phones, radios, tablets, tools, and manuals must be returned on the last day of employment or as otherwise requested by the Town.

SECTION 19. TRAVEL AND EXPENSE REIMBURSEMENT

Employees will from time to time be involved in out-of-town travel to attend schools, business meetings, conferences, etc. All expenses submitted to the Town for reimbursement and/or charged to a Town credit card should be limited to reasonable and necessary expenses. Employees attending meetings, conferences, etc., where lodging is offered and available at the institution, shall be required to use such accommodations if possible. Meal expenses charged to the Town should be guided by reasonableness and should ordinarily be charged only when incurred on out-of-town travel or when the meal itself is the occasion of a business meeting. To the extent not charged to a Town credit card, all reasonable expenses (e.g. meals, lodging, etc.) shall be reimbursed at actual costs. Travel in a personal vehicle will be reimbursed at a mileage rate

consistent with prevailing IRS limits for non-taxable reimbursement authorized by the Town Board.

All charges to Town Credit cards and/or requests for reimbursement must be timely submitted and supported by detailed documentation in the form prescribed by the Town Manager. The Town Manager may deny reimbursement or approval of any questionable, unsupported, or excessive expense claims submitted by employees. Any violation of the provisions in this section may subject the employee to disciplinary action.

SECTION 20. LAW ENFORCEMENT SPECIAL SEPARATION ALLOWANCE

The Town provides a special separation allowance for law enforcement officers who meet all of the eligibility requirements of N.C.G.S. 143-166.42 upon approval of the Town Manager. The payments will be made on the Town's regular payroll schedule, will begin with the first payroll falling in the month of retirement and will end with the last payroll falling within the month in which eligibility ceases under NCGS 143-166.42 (c). Retirees may be requested to recertify their eligibility periodically upon request of the Town. Any Separation Allowance Payments accepted after eligibility ceases are unauthorized and subject to repayment.

ARTICLE V. SAFETY/SECURITY

SECTION 1. SAFETY

Employee safety is one of the Town's greatest concerns. With an alert safety attitude, employees can help eliminate painful and costly accidents. Employees are responsible for:

- Developing and maintaining safe work habits;
- Keeping work areas clean and clear;
- Reporting hazards or unsafe conditions to their supervisor;
- Assisting in investigation of accidents;
- Taking proper care of safety equipment;
- Wearing proper clothing and avoiding loose sleeves, cuffs, rings, bracelets and long hair around moving machinery;
- Knowing the location and use of fire extinguishers, the location of fire exits and the best method for reporting a fire;
- Reporting all injuries, however minor, to their supervisor immediately;
- Walking and not running in all buildings;
- Keeping aisles clear;
- Never performing a job that an employee feels is unsafe. Employees should report such situations to their supervisor immediately.

Supervisors will inform employees of any additional safety rules that apply to their particular job or work location. Supervisors are responsible for:

- Implementing safety policies and programs applicable to particular jobs or work locations;
- Training employees in safe work habits;
- Enforcing safe work procedures and environments;
- Detecting and correcting unsafe practice and conditions;
- Investigating accidents and preparing accident reports;
- Encouraging employees to report unsafe conditions and to submit safety suggestions.

In addition, various departments may have detailed safety related procedures and responsibilities. Employees shall be expected to comply with those requirements as applicable.

SECTION 2. ACCIDENTS ON TOWN PROPERTY

Any accident that occurs on Town property should be reported immediately to their supervisor. For employee safety and the safety of others, please do not attempt to give medical aid unless trained to do so. Employees should seek the assistance of a supervisor and call 911 if warranted.

If an employee is injured on the job, they may be entitled to worker's compensation benefits. If an employee is injured while working, please report it immediately to their supervisor, no matter how minor the injury may be. Failure to timely report work place injuries or illnesses may result in a denial of worker's compensation benefits.

SECTION 3. PERSONAL BELONGINGS

The Town cannot be responsible or liable for any personal property of an individual that is lost, stolen, or damaged. The responsibility for safeguarding, replacing, or repairing personal property lost, stolen, or damaged while on Town premises or in a Town-owned vehicle is that of the employee. Consequently, the Town encourages employees not to bring personal property to work.

SECTION 4. VISITORS

For reasons such as the safety and security of Town facilities and Town employees, visitors are not permitted to enter certain areas of Town facilities without authorization. If an employee sees a person who may not have proper authorization to enter the restricted areas of Town buildings, please notify a supervisor. Should friends or family members want to visit for some essential reason, they should wait in the public area until the employee's supervisor has been notified and authorization obtained.

SECTION 5. DRIVING SAFETY

The Town is committed to ensuring employees who have driving responsibilities do not place the Town, other employees, or members of the general public at risk. In keeping with this policy, the Town requires employees with driving responsibilities to maintain a valid and current driver's license as well as a safe driving record as a condition of employment and continued employment. Employees who fail to maintain any required license or safe driving records may become unsuitable for their positions. In such cases, the Town reserves the right to discipline or terminate employees with driving responsibilities whose driving records become unsatisfactory. If an employee's job has driving responsibilities they must immediately notify their supervisor if their license is suspended or revoked.

To verify an individual's driving status, the Town may require employees or job applicants to furnish all or portions of their driving record from the Department of Motor Vehicles or may ask them to sign any necessary authorizations to request records directly from the Department of Motor Vehicles. Employees with driving responsibilities may also be required to provide proof of insurance and/or a Certificate of Liability. Subject to any limitations imposed by state and federal

law, individuals must cooperate fully with any request for records or request for an authorization to seek such records from an appropriate agency or entity.

In the case of employees who are not required to operate Town owned vehicles, for their own safety and the safety of others, are asked to drive on Town business, the Town requires that they have a valid and current driver's license and carry legally-mandated automobile insurance. Prior to beginning any business-related travel, an employee must notify their supervisor if they do not have a valid and current driver's license or automobile insurance so that their supervisor can make other travel arrangements. This policy does not apply to the regular commute to work.

Use of cellular phones and hand-held radios while operating a vehicle are prohibited.

The Town is committed to promoting roadway safety and to minimizing risk to the well-being of Town employees by encouraging the safe use of cellular telephones by Town employees while they are on Town business. While there often is a business need to use cellular phones, safety must be a priority.

Employees must use a "hands free" device when using a cell phone while operating a motor vehicle for work. Even when using "hands free" technology, an employee who needs to make or receive a cell phone call while driving, should if practicable, find a proper parking space or designated "pull off" area first. Stopping on the shoulder of the road is not acceptable except in the case of a genuine unexpected emergency. If stopping and pulling off the road is not practicable, the employee must exercise caution and care when using the cell phone. The employee is prohibited from any other activity, such as reading and/or writing, while participating in a cell phone conversation and while driving a vehicle. Texting or email while driving is prohibited at all times. Public Safety exemptions may apply based on departmental policy.

Employees who violate applicable laws may be subject to disciplinary action.

SECTION 6. WEAPONS PROHIBITED ON TOWN PROPERTY

Except as provided below, employees are prohibited from possessing weapons as defined in General Statutes Section 14-269 in Town owned buildings or property. This prohibition shall not apply to the following persons while on duty:

- Officers and enlisted personnel of the armed forces of the United States when in discharge of their official duties as such and acting under orders requiring them to carry arms and weapons;
- Civil officers of the United States while in the discharge of their official duties;
- Officers and soldiers of the militia and the National Guard when called into active service;
- Sworn law enforcement officers;
- Pursuant to a validly issued concealed carry permit.

ARTICLE VI. EMPLOYEE BENEFITS

The Town offers a number of benefits to its eligible employees. Most benefits will be described in a benefits orientation meeting at commencement of employment and/or during open enrollment. This Policy briefly describes some of those benefits.

Eligible employees of the Town may participate in a variety of insurance and retirement programs including the NC Local Governmental Employees' Retirement System, 401K and other programs. These programs are explained fully in information that is provided by Human Resources. The specific benefit plans that apply to each employee may vary. Therefore, please refer to the benefits information provided at the time of enrollment in any benefit plans for further information. Human Resources also is available to answer any questions regarding eligibility and coverage.

The provisions of the plans, including eligibility and benefits provisions, are summarized in the summary plan descriptions ("SPDs") (which may be revised from time to time) for the plans. Additionally, the official plan documents are available for review upon request from management. In the determination of benefits or other matters under each plan, the terms of the official plan documents shall govern over the language of any descriptions of the plans, including the SPDs.

Further, the Town (including the officers and administrators who are responsible for administering the plans) retains full discretionary authority to interpret the terms of the plans, as well as full discretionary authority with regard to administrative matters arising in connection with the plans and all issues concerning benefit eligibility and entitlement.

Other benefits which are available to eligible employees are required by law such as Worker's Compensation and Unemployment Compensation.

The Town currently offers Retiree Health Insurance benefits and Longevity Pay as follows:

Retiree Health Coverage The Town provides employees of the Town who retire with 25 years of creditable service with the Town with retiree health coverage, until the earlier of the time the retiree is eligible for Medicare or other similar group or health coverage. Provided that retiree coverage is available under the Town's group health policy, the Town will pay for the costs of the retiree only coverage up to the same amount the Town pays for health coverage for a then current employee of the Town. Retirees electing such coverage will be responsible for any difference.

Longevity Pay Subject to the approval of funds by the Town Board in the annual budgeting process, the Town may provide longevity pay on such terms and conditions and in such amounts as are funded by the Board.

While the Town intends to maintain these employee benefits and retiree health benefits, all benefits except those expressly required by law are contingent on available funds, and subject to approval/change/termination by the Town Board in the discretion of the Town at any time, with or without notice. No current or former employee has any contractual or vested rights to any benefits except as expressly required by applicable law, and the Town reserves the absolute right to modify, amend or terminate these benefits at any time and for any reason.

For any questions regarding benefits, please contact Human Resources.

ARTICLE VII. LEAVE POLICIES

SECTION 1. HOLIDAYS

The Town currently recognizes the following paid holidays for full-time regular employees:

New Year's Day
Martin Luther King Day
Good Friday
Memorial Day
Independence Day
Labor Day
Veterans' Day
Thanksgiving
Day After Thanksgiving
Christmas (3 workdays)

The Town will follow the holiday schedule of the Office of State Personnel with regard to the date on which each holiday which falls on a Saturday or Sunday will be observed. When holidays fall or are recognized on a regular workday, all regular, full-time employees will receive compensation at their regular rate of pay for each of these holidays. Employees working a 40-hour work week will receive compensation for 8 hours, Public Safety personnel will receive 12 hours or pay in proportion to their normal hours worked. Employees on unpaid leaves of absence are not eligible for holiday pay unless they are on qualified FMLA leave. Regular holidays which occur during a vacation, sick or other leave period shall not be considered as vacation, sick or other leave.

Non-exempt employees who are requested to work on one of the holidays specified above will receive an additional day's pay at their regular rate.

SECTION 2. VACATIONS

Vacation Eligibility Paid vacation leave is available to full-time regular employees. New hires will earn vacation and sick leave for the month if their hire date is from the 1st to the 15th. If their hire date is on the 16th through the end of the month, their accrual will begin the following month.

Vacation Accrual Full-time employees accrue paid vacation time at the rate of 6.67 hours per month. Public Safety personnel working 12 hour shifts accrue vacation pay at the rate of 7 hours per month. Public Safety personnel who do not work 12 hour shifts accrue vacation pay in proportion to their hours worked. In addition, each employee shall accrue an additional 4 hours of vacation per year worked on their anniversary date each year. Employees on unpaid leaves of absence are not eligible to accrue vacation unless they are on qualified FMLA leave**.**

Employees may accrue vacation time pro-rata as they work up to 240 hours. In the event any employee has a vacation accrual in excess of 240 hours as of December 31 of a calendar year, the employee shall only be allowed to carry forward 240 hours to the next calendar year and any excess vacation accrual shall be transferred to sick leave.

Vacation Scheduling Employees may not take vacation leave until they have been with the Town for six (6) months. Vacations may be taken in minimum increments of one-half (1/2) hour. As long as vacation absences do not interfere with the efficient operation of the Town, employees may schedule vacation for any time by mutual agreement with their supervisor. Employees are cautioned not to retain excess accumulation of vacation until late in the calendar year. If an employee has excess leave accumulation during the latter part of the year and is unable to take leave because of staffing demands, the employee shall receive no special consideration either in having vacation scheduled or in receiving any exception to the maximum accumulation rules.

Vacation Payout Vacation is paid at the employee's regular rate of pay at the time of absence for the number of hours the employee otherwise would have worked on that day. Employees who separate from service shall be paid accrued vacation, up to 240 hours; however, employees who do not give proper notice (2 weeks for most employees) will not be paid for their accrued vacation. The designated Beneficiary of an employee who dies while employed by the Town shall be entitled to payment for all of the accumulated vacation leave credited to the employee's account, not to exceed a maximum of 240 hours.

Vacation and Holidays If a Town-recognized holiday falls during a scheduled vacation, the holiday time off will not be charged against the employee's accrued vacation time.

Checking Voicemail and E-Mail The Town strongly believes employees should devote their vacation time to rest and relaxation. Doing so allows employees the time to recharge and generally makes for a more productive workforce. Accordingly, non-exempt employees who are on vacation are not expected to check their voice mail or e-mail when away from the workplace.

SECTION 3. PAID SICK DAYS

All full-time regular employees will be eligible for paid sick days. Full-time employees accrue sick leave at the rate of 8 hours per month. Public Safety personnel working 12 hour shifts accrue sick leave at the rate of 8.4 hours per month. Public Safety personnel who do not work 12 hour shifts accrue sick leave in proportion to their hours worked. Employees on unpaid leaves of absence are not eligible to accrue sick leave unless they are on qualified FMLA leave.

Sick leave is a privilege granted for the benefit of an employee. Sick leave may be used for the employee's own illness, medical or dental examinations or treatment, to attend to the illness of or medical or dental appointments of your spouse, child, parent, or for any other reason allowed by this policy or required by applicable law. Sick leave may also be used during the period of temporary disability in the case of an illness or injury covered by Worker's Compensation or any other Disability Leave Policy.

Notification of the desire to take sick leave should be submitted to the employee's supervisor prior to the leave, when possible, or not later than two (2) hours after the beginning of a scheduled work day. Eligible employees will receive payment for sick time at their normal base rate of pay.

An employee may be required to present a certificate from their medical practitioner stating the time off was necessitated by illness, injury, appointment etc. and (if applicable) releasing the

employee to return to work, and setting forth any restrictions or limitations on their ability to perform their job, to the extent permitted by applicable law. If employees use sick days to attend to the illness or appointments of their spouse, child, or parent, they may be required to present a certificate from that person's medical practitioner stating leave was necessitated by their child, parent, or spouse's illness/appointment, to the extent permitted by applicable law.

There is no maximum accrual of sick leave. Sick leave may be used as credit for service under the NCLGERS to the extent allowed by NCLGERS; however, no sick leave will be paid out upon separation of employment.

Transferred sick leave The Town will allow an employee who has previously been employed by a State or Local Government entity within the state of North Carolina to transfer accrued sick leave to the Town.

Returning Employees Employees whose employment with the Town was separated, and who return to employment with the Town within one (1) year from their date of separation, may reactivate their accumulated, unused sick leave balance at the time of their original separation from the Town, provided that such sick leave balance was not transferred to another employer.

SECTION 4. PERSONAL LEAVE OF ABSENCE

A personal leave of absence without pay of up to one (1) year may be granted to employees who have completed at least eighteen (18) months of continuous service with the Town. A personal leave of absence may be considered when the employee has a need for a leave that is not covered by other leaves of absence provided by the Town. Personal leaves may not be taken to extend the length of any other leave of absence granted by the Town. Any personal leave will run concurrently with other leaves to which an employee is entitled under the law, to the extent permitted by applicable law.

A written request for a personal leave of absence must be presented to the Town Manager at least 3 weeks before the leave is to begin, stating the reason and the length of time for the leave of absence request. Requests will be considered on the basis of the compelling nature of the reason given, the length of time requested, the Town's business requirements, length of service and performance record.

Extensions may be considered on a case by case basis if a written request is submitted and approved in writing by the Town Manager.

Employees are obligated to return to duty within, or at the end of, the time determined appropriate by the Town Manager. Upon returning to duty after being on leave without pay, the employee shall be entitled to return to the same position held at the time leave was granted or to one of like classification, seniority and pay to the extent such position is available. Employees should notify the Town immediately if they will not return to work. Failure to report to work at the expiration of a leave of absence shall be considered a resignation.

Insurance and Benefits An employee may retain all unused vacation and sick leave while on leave without pay; however the employee ceases to earn or accrue vacation and sick leave credits on the date leave without pay begins. Availability for continued eligibility for benefits under the Town's benefits programs are contingent on the terms of those benefit plans.

Holidays If a holiday falls within the period an employee is on unpaid personal leave, the employee will not receive holiday pay.

Other Work If an employee has been granted a personal leave of absence, they may not accept other work during such leave without prior written approval of the Town Manager.

SECTION 5. FAMILY AND MEDICAL LEAVE

The Town's Family and Medical Leave Policy is attached as Addendum A. A current copy of the FMLA policy may also be obtained by contacting Human Resources. ***Please note that FMLA eligible leave runs concurrent with all other applicable leave under this Policy except as specifically prohibited by law. This includes paid leaves such as worker's compensation leave, sick leave, short term disability etc.***

SECTION 6. MEDICAL LEAVE OF ABSENCE OTHER THAN FAMILY AND MEDICAL LEAVE

Employees who are not eligible for Family and Medical Leave or have exhausted their Family and Medical Leave entitlement, or as otherwise required by law, may request an unpaid medical leave of absence due to illness or injury.

Any employee who is unable to work due to illness or injury, should give written notice to Human Resources as soon as possible. Requests for leaves for elective surgery should be submitted at least 3 weeks in advance. Leave requests must include a certification from your healthcare provider stating the date on which the condition began, the probable duration of the leave, a statement you are unable to work at all or are unable to perform one or more of the essential functions of your position with or without reasonable accommodation, and the expected date of return to work. The employee also must submit a medical certification from their healthcare provider establishing their continuing need for leave to Human Resources every 30 days during their leave.

An employee must use any accrued paid time off, including vacation and sick time, during a leave under this policy. The substitution of paid leave for unpaid leave will not extend the maximum duration of your leave. Under the law, eligibility for employer paid health and dental insurance benefits cease during a leave under this policy. Accordingly, the employee must pay their portion of the medical and dental premiums during a leave of absence granted under this policy if they choose to receive such benefits during the leave. The employee will receive notice of their right to continue their benefits.

The length of any leaves of absence under this policy will be considered on a case by case basis, but will not be indefinite. Requests by an employee who is disabled by a medical condition will be evaluated on a case-by-case basis as a possible reasonable accommodation, consistent with applicable law. If an employee requests an extension of their leave, they must submit a certification

from their healthcare provider of continued need for medical leave for each extension request. In some cases, the Town may ask that the employee provide medical information to the Town or a medical professional of its choosing supporting the request for further leave.

When the employee is able to return to work, they must give the Town at least one (1) weeks' notice of their intent to return by contacting Human Resources and providing a certification from their healthcare provider stating the employee is physically able to return to their duties with or without accommodation. This notice is important so the return to work is properly scheduled.

Unless otherwise required by law, the Town will make reasonable efforts to return the employee to the same or similar job and at the same rate of pay held prior to the leave of absence, subject to operational requirements that may exist. If the employee does not return from work on the originally-scheduled return date or request in advance an extension of the agreed upon leave with appropriate medical documentation, they may be deemed to have voluntarily terminated employment. In addition, failure to notify the Town of the employee's availability for work when it occurs, failure to return to work when called by the Town, or continued absence from work because the employee's leave must extend beyond the maximum time allowed, may be deemed a voluntary termination of employment.

SECTION 7. BEREAVEMENT LEAVE

An employee may have up to three (3) days leave at full pay in proportion to their normal work week granted when attending the funeral of an immediate family member. For purposes of this policy, immediate family member is defined as an employee's spouse, child, parent, sister, brother, grandparents, mother-in-law, father-in-law, step-parents, step-child, aunt, uncle and any other relation required by applicable law. Additional time to settle affairs or to attend funerals of other than immediate family may be taken with approval of the Department Director and should be charged to vacation or sick leave. The Town may require verification of death and relation to the deceased.

SECTION 8. CIVIC DUTY LEAVE

All employees will be allowed time off with pay for jury duty or as a court witness for the federal or state governments or subdivision thereof. Employees are expected to provide the Town with proper notice of the request to perform jury duty/serve as a witness and with verification of service. Employees are expected to keep management informed of the expected length of service and to report to work for the major portion of the day if excused by the court. If the required absence presents a serious conflict for management, an employee may be asked to try to postpone their jury duty. Any court fees paid to the employee are allowed to be retained by the employee. While on civic leave, benefits and leave shall accrue as though on regular duty.

SECTION 9. EDUCATION LEAVE

A leave of absence with pay during regular working hours will be granted to an employee to take courses required by the Town as a condition of employment. The Town shall reimburse the employee for tuition, fees and books for the course, provided the employee submits a receipt for such

expenses and proof of successful completion. An employee on educational leave with pay shall continue to earn leave credits and any other benefits to which Town employees are entitled.

SECTION 10. MILITARY LEAVE

Employees who are called to active military duty or who enlist in the uniformed services, are eligible for unpaid military leave of absence in accordance with state and federal law. Employees should present Human Resources with a copy of their service papers as soon as they receive them. To be eligible for military leave, employees must provide the Town with advance notice of their service obligations unless they are prevented from providing such notice by military necessity or it is otherwise impossible or unreasonable to provide such notice.

During a military leave of absence, an employee's length of service accumulates, and benefits will continue as required by applicable law. Provided an employee's absence does not exceed applicable statutory limitations, employees on military leave will retain reemployment rights and accrue seniority and benefits in accordance with applicable federal and state laws.

Employees who are required to attend yearly Reserves or National Guard duty may apply for an unpaid temporary military leave of absence not to exceed the number of days allowed by law (including travel). Employees may also elect to use accrued vacation time for this purpose. Employees should provide as much advance notice as possible so the Town can ensure proper coverage.

Please see Human Resources for further information about eligibility for Military Leave.

SECTION 11. PARENTAL INVOLVEMENT LEAVE

Employees are granted four (4) hours per year of unpaid leave, in accordance with applicable state law, to any employee who is a parent or guardian of a school-aged child so that the employee may attend or otherwise be involved in that child's school. Employees are required to schedule this time off in advance, and provide a written request to take the leave at least 48 hours before the time of the leave. Employees may use vacation leave for such absences at the employee's discretion.

SECTION 12. DOMESTIC VIOLENCE VICTIM'S LEAVE

Employees are permitted a reasonable time off from work to obtain or attempt to obtain assistance as a victim of domestic violence. An employee must follow the Town's usual procedures and policies regarding time off except in cases of an emergency. The Town may request documentation regarding such an emergency. Employees may use vacation or sick leave for such absences at the employee's discretion.

SECTION 13. DISASTER RESPONSE LEAVE

Employees who are members of volunteer fire departments, rescue squads, the North Carolina National Guard, or emergency medical services agencies called into service after the Governor or the General Assembly has proclaimed a state of disaster may take leave without pay to provide emergency services. Employees may, but are not required to, use vacation or other

accrued leave. An employee should provide the Town with a letter requesting the services of the employee from the director of the Division of Emergency Management or by the head of a local emergency management agency. If the Town needs the services of the employee to address the Town's on-going emergency or disaster relief activities, the employee may be exempted from the leave.

SECTION 14. SHARED LEAVE

On occasions when employees have exhausted all sick and vacation leave and have an event that requires an employee to be placed on leave without pay where the unpaid sick leave status places the employee in a hardship, the shared leave policy allows one employee to assist another in these cases. To qualify to receive transferred leave, an employee must have been employed with the Town for at least six months, have exhausted all paid leave and be on leave without pay for five days in a 30-day period, or 10 days in a sixty day period.

A request to receive transferred leave can be made to Human Resources. The Town utilizes a "Blind" Shared Leave Policy. After review by Human Resources and approval by the Town Manager, Human Resources will notify other employees that there has been a request for shared leave. Employees desiring to contribute to shared leave may transfer vacation leave in two (2) hour increments. Shared leave will be applied weekly to the affected employees' payroll as needed and available.

ARTICLE VIII. WORKPLACE STANDARDS AND DISCIPLINARY ACTIONS

SECTION 1. GENERAL RULES OF CONDUCT

Certain specific rules of conduct are observed by the Town and violations of these rules may lead to disciplinary action, up to and including termination. Examples of intolerable misconduct include, but are not limited to:

- Theft or embezzlement;
- Falsification of documents;
- Engaging in or provoking any act of violence or damaging Town property or the property of another;
- Violation of the Town's Substance Abuse policy;
- Possession of weapons of any kind at work, in Town vehicles, or on Town premises unless allowed by this policy or such prohibition is restricted by applicable law or pursuant to a validly issued concealed carry permit;
- Misuse of Town resources;
- Poor performance;
- Other violations of Town Policy;
- Conduct violating the Town's No Harassment/No Discrimination, Workplace Violence, No Abuse, No Retaliation or Equal Employment Opportunity policies.

The Town will address violations of these rules of conduct and any other violations of Town Policy on an individual basis. Disciplinary action may include, but is not limited to, oral or written warnings, suspension, demotion, or involuntary termination. The Town will ordinarily impose discipline of an increasingly progressive nature for each successive instance of employee misconduct. However, each instance of misconduct differs in some respect, the Town has the right to treat each occurrence individually without setting a precedent for future cases and to skip steps in what would ordinarily be the progressive discipline process when circumstances dictate.

When an employee is suspended, demoted or recommended for dismissal, the Department Director will provide the employee with written notice of the charges against him or her, the action taken, effective date of action and the grievance options available. Prior to a recommendation to terminate employment, the employee will have the opportunity to discuss the dismissal recommendation and the reasons for the recommendation with the Department Director recommending the termination. Nothing in this Policy should be construed as a promise of specific treatment in a given situation.

SECTION 2. GRIEVANCE PROCEDURE

It is the policy of the Town to provide a means whereby employees may freely discuss problems with supervisors and to provide a procedure for the presentation of points of disagreement that arise between employees and their supervisors. Listed below are three (3) successive levels at which employees may voice concerns. ***Nothing in this grievance procedure is intended to create an express or implied agreement that alters the employment at-will relationship.***

Employees and applicants who use this Grievance Procedure shall be free from discrimination, coercion, restraint, reprisal or retaliation. The number of days indicated at each step of the grievance procedure should be considered as the maximum number of working days allowed for presentation of and response to the grievance at that level; however when necessary, the time limits given below may be extended by those concerned.

The followings steps are provided to all employees for the settlement of a grievance:

Step 1: Discuss your grievance or concern with your immediate supervisor, assuming you feel comfortable doing so. If no resolution to the grievance is reached informally, the employee should present the grievance to his or her immediate supervisor in writing within ten (10) working days of the employee's recognition of the qualifying incident. The supervisor should respond in writing, within five (5) working days after receipt.

Step 2: Present your grievance or concern, in writing, to the Department Director. This should ordinarily occur within three (3) working days after receipt of response in Step One. The Department Director should complete his/her investigation and make a written determination within five (5) working days after receipt of the appeal.

Step 3: You may file a formal written grievance with the Town Manager within ten (10) working days after receipt of the response in Step Two. The grievance should specify the relief requested. At the Step Three level, the employee should submit a detailed statement of the nature of his/her grievance and any supporting documentation, including any materials submitted to and recommendation of an advisory board, if applicable. The Department Director should also submit to the Town Manager a written response to the employee's grievance, including any documentation in support of the disciplinary action taken. The Department Director's response to the employee's grievance will be submitted to the Town Manager within five (5) working days from the date that the Department Director is notified that the employee has submitted such an appeal in writing to the Town Manager.

The Town Manager or his/her designee shall review the information and render a decision in writing within fifteen (15) working days after receipt. Either the employee or the Town Manager may request an in-person hearing before the Town Manager or his/her designee. The decision of the Town Manager shall be final and not subject to further appeal.

Special Grievance Processes. If the subject of the grievance is a Recommendation of Dismissal or claim involving perceived violations of the Town's No Harassment/No Discrimination, Workplace Violence, No Abuse, No Retaliation, Reasonable

Accommodation or Equal Employment Opportunity policies, then the grievance should be reported immediately to Human Resources and to the Town Manager as a Step 3 grievance.

Optional. If an employee has received a Recommendation of Dismissal from the Department Director, the employee has the option to request the Town Manager to appoint an advisory board to hear the Employee's case prior to proceeding to Step 3. This option must be elected within ten (10) working days after receipt of the Recommendation of Dismissal. The employee must specifically acknowledge and consent to a limited waiver of the employee's personnel privacy rights under NCGS 160A-168 or otherwise with regard to any issues presented to the advisory board in order to utilize this provision. The recommendation of the advisory board shall be included in the information presented to the Town Manager at Step 3.

An employee serving a probationary period following initial appointment has no right of appeal under Town Policies if they are dismissed during the probationary period except in the case of an allegation of a violation of the Town's No Harassment/No Discrimination, EEO, Workplace Violence, No Abuse, Reasonable Accommodations, or No Retaliation Policies.

ARTICLE IX. PERSONNEL RECORDS

The Town follows the provisions of North Carolina General Statute 160A-168 and other applicable statutes, with regard to employee and public access to employee personnel information.

EMPLOYEE ACKNOWLEDGEMENT

I understand that my employment with the Town of Huntersville is for an unspecified term and may be terminated at the will of either the Town or myself, with or without reason or cause, and with or without notice. No words or actions of the Town will be deemed to create an express or implied contract of employment or require the Town to have good cause for terminating my employment.

I acknowledge I have received a copy of the Town of Huntersville Personnel Policy. I understand I am responsible for reading and understanding the contents of the Personnel Policy and that I have read the Personnel Policy in its entirety in accordance with this responsibility.

I understand that any rules, policies, and benefits described in the Personnel Policy may be modified or varied from by the Town at any time—except as required by law and except for the rights of the parties to terminate employment at will.

ACKNOWLEDGMENT OF RECEIPT OF THE TOWN OF HUNTERSVILLE EEO POLICY, NO HARASSMENT/NO DISCRIMINATION POLICY, REASONABLE ACCOMODATION POLICY, WORKPLACE VIOLENCE POLICY, NO ABUSE POLICY AND NO RETALIATION POLICY

I specifically acknowledge I have received a copy of The Town of Huntersville's EEO Policy, No Harassment/No Discrimination Policy, Reasonable Accommodation Policy, Workplace Violence Policy, No Abuse Policy and No Retaliation Policy. I have read these policies, understand them and agree to follow them. I understand any employee who engages in conduct prohibited by these policies will be subject to disciplinary action, up to and including termination.

I understand it is my obligation to refrain from engaging in conduct in violation of this Policy and also to report conduct which I believe violates the Policy to enable the Town to take action as appropriate.

ADDENDUM A

FAMILY AND MEDICAL LEAVE ("FMLA") POLICY

THE TOWN OF HUNTERSVILLE NORTH CAROLINA

This policy provides basic information concerning FMLA entitlements and obligations for Town employees. For questions concerning FMLA leave, employees should contact the Human Resources Director.

I. Employees Eligible for FMLA Leave

FMLA leave is available to "eligible employees." To be eligible, an employee must: (1) have been employed by the Town for at least 12 months (which need not be consecutive); (2) have worked for the Town for at least 1,250 hours of service during the 12-month period immediately preceding the commencement of the leave; and (3) be employed at a worksite where 50 or more employees are located within 75 miles of the worksite.

II. Employee Entitlements for FMLA Leave

As described below, the FMLA provides eligible employees with a right to leave, health insurance benefits and, with some limited exceptions, job restoration for certain family and medical reasons.

A. Basic FMLA Leave Entitlement

The FMLA provides eligible employees up to 12 workweeks of unpaid leave for certain family and medical reasons during a 12-month period. The 12-month period is determined on rolling 12-month basis measured from the date the employee uses FMLA leave. Leave may be taken for any one, or for a combination, of the following reasons:

- To care for the employee's child after birth, or placement for adoption or foster care;
- To care for the employee's spouse, son, daughter or parent (but not in-law) who has a serious health condition;
- For the employee's own serious health condition (including any period of incapacity due to pregnancy, prenatal medical care or childbirth) that makes the employee unable to perform one or more of the essential functions of the employee's job; and/or
- Because of any qualifying exigency arising out of the fact that an employee's spouse, son, daughter or parent is a military member on covered active duty or call to covered active duty status (or has been notified of an impending call or order to covered active duty) in (a) the Reserve component of the Armed Forces for deployment to a foreign country in support of a contingency operation, or (b) the Regular Armed Forces for deployment to a foreign country.

Entitlement to FMLA leave for the birth of an employee's child expires at the end of the 12-month period beginning on the date of the birth.

When spouses are both employed by the Town and eligible for FMLA leave, they will be limited to a combined total of 12 weeks of leave during any 12-month period if the leave is taken for the birth of the employee's child or to care for the child after birth, for the placement of a child with the employee for adoption of foster care or to care for the child after placement, or to care for the employee's parent with a serious health condition.

A **"serious health condition"** is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities. Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3 consecutive calendar days combined with at least two visits to a health care provider or one visit and a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, caring for the parents of the military member on covered active duty and attending post-deployment reintegration briefings.

B. Additional Military Family Leave Entitlement (Injured Servicemember Leave)

In addition to the basic FMLA leave entitlement discussed above, an eligible employee who is the spouse, son, daughter, parent or next of kin of a **covered servicemember** is entitled to take up to 26 weeks of leave during a single 12-month period to care for the servicemember with a serious injury or illness. Leave to care for a servicemember is available only during a single-12-month period and, when combined with other FMLA-qualifying leave, may not exceed 26 weeks during the single 12-month period. The single 12-month period begins on the first day an eligible employee takes leave to care for the injured servicemember.

A **"covered servicemember"** is a current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is on the temporary retired list, for a serious injury or illness. These individuals are referred to in this policy as "current members of the Armed Forces." A **covered servicemember** also includes a veteran who was discharged or released from military service under conditions other than dishonorable at any time during the five (5) year period prior to the first date the eligible employee takes FMLA leave to care for the covered veteran, and who is undergoing medical treatment, recuperation or therapy for a serious injury or illness. These individuals are referred to in this policy as "covered veterans."

Note: The FMLA definitions of "serious injury or illness" applicable to current members of the Armed Forces and covered veterans are distinct from the FMLA definition of "serious health condition" applicable to FMLA leave to care for a covered family member.

C. Intermittent Leave and Reduced Leave Schedules

FMLA leave is usually taken for a period of consecutive days, weeks or months. However, employees also are entitled to take FMLA leave intermittently or on a reduced leave schedule when medically necessary due to a serious health condition of the employee or covered family member or the serious injury or illness of a covered servicemember. Qualifying exigency leave also may be taken on an intermittent basis.

D. Protection of Group Health Insurance Benefits

During FMLA leave, eligible employees are entitled to maintain group health plan coverage on the same terms and conditions as if they had continued to work.

E. Restoration of Employment and Benefits

At the end of FMLA leave, subject to some exceptions, including situations where job restoration of "key employees" will cause the Town substantial and grievous economic injury, employees have a right to return to the same or equivalent position with equivalent pay, benefits and other employment terms. The Town will notify employees if they qualify as "key employees" and advise them of their rights if it intends to deny reinstatement.

Use of FMLA leave will not result in the loss of any employment benefit that accrued prior to the start of an eligible employee's FMLA leave.

F. Notice of Eligibility for, and Designation of, FMLA Leave

Employees requesting FMLA leave are entitled to receive written notice from the Town telling them whether they are eligible for FMLA leave and, if not eligible, the reasons why they are not eligible. When eligible, employees are entitled to receive written notice of: 1) their rights and responsibilities in connection with such leave; 2) the Town's designation of leave as FMLA-qualifying or non-qualifying and, if not FMLA-qualifying, the reasons why; and 3) the amount of leave, if known, that will be counted against the employee's leave entitlement.

The Town may retroactively designate leave as FMLA leave with appropriate written notice to employees provided the Town's failure to designate leave as FMLA-qualifying at an earlier date did not cause harm or injury to the employee. In all cases where leaves qualify for FMLA protection, the Town and employee can mutually agree that leave be retroactively designated as FMLA leave.

III. Employee FMLA Leave Obligations

A. Provide Notice of the Need for Leave

Employees must timely notify the Town of their need for FMLA leave, as described below.

1. Content of Employee Notice

To trigger FMLA leave protections, employees must inform the Town by notifying Human Resources of the need for leave and the anticipated timing and duration of the leave, if known. Employees may do this by either requesting FMLA leave specifically, or explaining the reasons for leave so as to allow the Town to determine that the leave is FMLA-qualifying. For example, employees might explain that:

- a medical condition renders them unable to perform the functions of their job;
- they are pregnant or have been hospitalized overnight;
- they or a covered family member are under the continuing care of a health care provider;
- the leave is due to a qualifying exigency caused by a military member being on covered active duty or called to covered active duty status to a foreign country; or
- if the leave is for a family member, that the condition renders the family member unable to perform daily activities or that the family member is a covered servicemember with a serious injury or illness.

Calling in "sick," without providing the reasons for the needed leave, is not sufficient notice under this policy. Employees must respond to the Town's questions to determine if absences are potentially FMLA-qualifying.

If employees fail to explain the reasons for FMLA leave or to provide necessary paperwork in a timely fashion, the leave may be denied. When employees seek leave due to FMLA-qualifying reasons for which the Town has previously provided FMLA-protected leave, they must specifically reference the qualifying reason for the leave or the need for FMLA leave.

2. Timing of Employee Notice

Employees must provide 30 days' advance notice of the need to take FMLA leave when the need is foreseeable. When 30 days' notice is not possible, or the approximate timing of the need for leave is not foreseeable, employees must provide the Town notice of the need for leave as soon as practicable under the circumstances. Employees who fail to give 30 days' notice for foreseeable leave without a reasonable excuse for the delay, or otherwise fail to satisfy FMLA notice obligations, may have FMLA leave delayed or denied.

B. Cooperate in the Scheduling of Planned Medical Treatment (Including Accepting Transfers to Alternative Positions) and Intermittent Leave or Reduced Leave Schedules

When planning medical treatment, employees must consult with the Town and make a reasonable effort to schedule treatment so as not to unduly disrupt the Town's operations. Employees must consult with the Town prior to the scheduling of treatment to work out a treatment schedule which best suits the needs of both the Town and the employees. If employees providing notice of the need to take FMLA leave on an intermittent basis for planned medical treatment neglect to fulfill this obligation, the Town may require employees to attempt to make such

arrangements. All such treatment schedules and arrangements are subject to the approval of the employee's health care provider.

When employees take intermittent or reduced work schedule leave for foreseeable planned medical treatment for the employee or a covered family member, including during a period of recovery from a serious health condition or to care for a covered servicemember, the Town may temporarily transfer employees, during the period that the intermittent or reduced leave schedules are required, to alternative positions with equivalent pay and benefits for which the employees are qualified and which better accommodate recurring periods of leave.

When employees seek intermittent leave or a reduced leave schedule for reasons unrelated to the planning of medical treatment, upon request, employees must advise the Town of the reason why such leave is medically necessary. In such instances, the Town and employee shall attempt to work out a leave schedule that meets the employee's needs without unduly disrupting the Town's operations, subject to the approval of the employee's health care provider.

C. Submit Medical Certifications Supporting Need for FMLA Leave (Unrelated to Requests for Military Family Leave)

Depending on the nature of FMLA leave sought, employees may be required to submit medical certifications supporting their need for FMLA-qualifying leave. There are three general types of FMLA medical certifications: an **initial certification**, a **recertification**, and a **return to work/fitness for duty certification**.

It is the employee's responsibility to provide the Town with timely, complete and sufficient medical certifications. Employees must provide medical certifications within 15 calendar days after the Town requests certification, unless it is not practicable to do so despite an employee's diligent, good-faith efforts. The Town will inform employees if submitted medical certifications are incomplete or insufficient and provide employees at least seven calendar days to cure deficiencies. The Town may deny FMLA leave to employees who fail to timely cure deficiencies or otherwise fail to timely submit requested medical certifications.

With the employee's permission, the Town (through individuals other than an employee's direct supervisor) may contact the employee's health care provider to authenticate or clarify completed and sufficient medical certifications. If employees choose not to authorize the Town to clarify or authenticate certifications with health care providers, the Town may deny FMLA leave if certifications are unclear.

Whenever the Town deems it appropriate to do so, it may waive its right to receive timely, complete and/or sufficient FMLA medical certifications.

1. Initial Medical Certifications

Employees requesting leave because of their own, or a covered family member's, serious health condition, or to care for a covered servicemember, must supply medical certification supporting the need for such leave from their health care provider or, if applicable, the health care provider of the covered family member or servicemember. If employees provide at least 30 days' notice of medical leave, they should submit the medical certification before leave begins. A new

initial medical certification will be required on an annual basis for serious medical conditions lasting beyond a single leave year.

If the Town has reason to doubt an initial medical certification, it may require the employee to obtain a second opinion at the Town's expense. If the opinions of the initial and second health care providers differ, the Town may, at its expense, require the employee to obtain a third, final and binding certification from a health care provider designated or approved jointly by the Town and the employee.

2. Medical Recertifications

Depending on the circumstances and duration of FMLA leave, the Town may require employees to provide recertification of medical conditions giving rise to the need for leave. The Town will notify employees if recertification is required and will give employees at least 15 calendar days to provide medical recertification.

3. Return to Work/Fitness for Duty Medical Certifications

Unless notified otherwise, employees returning to work from FMLA leave taken because their own serious health conditions made them unable to perform their jobs must provide the Town medical certification confirming they are able to return to work and to perform the essential functions of their positions, with or without reasonable accommodation. The Town may delay and/or deny job restoration until employees provide return to work/fitness for duty certifications.

D. Submit Certifications Supporting Need for Military Family Leave

Upon request, the first time employees seek leave due to qualifying exigencies arising out of the covered active duty or call to covered active duty status of a military member, the Town may require employees to provide: (1) a copy of the military member's active duty orders or other documentation issued by the military indicating the military member is on covered active duty or call to active duty status and the dates of the military member's covered active duty service; and (2) a certification from the employee setting forth information concerning the nature of the qualifying exigency for which leave is requested. The Town may also require employees to provide copies of new active duty orders or other documentation issued by the military for leaves due to qualifying exigencies arising out of a different covered active duty or call to covered active duty status of the same or a different military member.

When leave is taken to care for a covered servicemember with a serious injury or illness, the Town may require employees to obtain certifications completed by an authorized health care provider of the covered servicemember. In addition, the Town may request that employees submit certifications setting forth additional information provided by the employee and/or the covered servicemember confirming entitlement to such leave.

E. Use of Paid Leave, Concurrent Running of Paid and other Leave with FMLA Leave

Employees must use any accrued paid leave time (sick days, personal days and vacation days) while taking FMLA leave. Sick Leave, Vacation and Holidays will continue to accrue during

the entire FMLA qualified period. The substitution of paid time for unpaid FMLA leave time ***does not*** extend the length of FMLA leave, and the paid time will run concurrently with an employee's FMLA entitlement. Once all accrued paid leave is exhausted, the remainder of the FMLA leave time will be unpaid.

Leaves of absence taken in connection with a disability leave plan or workers' compensation injury/illness shall run concurrently with any FMLA leave entitlement. Upon written request, the Town will allow employees to use accrued paid time to supplement any paid disability benefits.

F. Pay Employee's Share of Health Insurance Premiums

During FMLA leave, employees are entitled to continue group health plan coverage under the same conditions as if they had continued to work. The Town will continue to make contributions for the employee's group health plan coverage including any dependent coverage, provided that the employee continues to pay his or her portion of the premiums. Unless the Town notifies employees of other arrangements, whenever employees are receiving pay from the Town during FMLA leave, the Town will deduct the employee portion of the group health plan premium from the employee's paycheck in the same manner as if the employee was actively working. If FMLA leave is unpaid, employees must pay their portion of the group health premium by remitting their portion of the premium on a monthly basis to the Town.

The Town's obligation to maintain health care coverage ceases if an employee's premium payment is more than 30 days late. If an employee's payment is more than 15 days late, the Town will notify the employee that coverage will be dropped on a specified date unless the co-payment is received before that date. If employees do not return to work within 30 calendar days at the end of the leave period (unless employees cannot return to work because of a serious health condition or other circumstances beyond their control) they will be required to reimburse the Town for the cost of the premiums the Town paid for maintaining coverage during their unpaid FMLA leave.

IV. Coordination of FMLA Leave with Other Leave Policies

The FMLA does not affect any federal, state or local law prohibiting discrimination, or supersede any state or local law which provides greater family or medical leave rights. For additional information concerning leave entitlements and obligations that might arise when FMLA leave is either not available or exhausted, please consult the Town's other leave policies in the Personnel Policy, or contact Human Resources.

V. Questions and/or Complaints about FMLA Leave

If you have questions regarding this FMLA policy, please contact Human Resources. The Town is committed to complying with the FMLA and, whenever necessary, shall interpret and apply this policy in a manner consistent with the FMLA.

The FMLA makes it unlawful for employers to: 1) interfere with, restrain, or deny the exercise of any right provided under FMLA; or 2) discharge or discriminate against any person for opposing any practice made unlawful by FMLA or involvement in any proceeding under or

relating to FMLA. If employees believe their FMLA rights have been violated, they should contact the Human Resources immediately. The Town will investigate any FMLA complaints and take prompt and appropriate remedial action to address and/or remedy any FMLA violation. Employees also may file FMLA complaints with the United States Department of Labor or may bring private lawsuits alleging FMLA violations

Subject : 2020 Master Plan

Jack,

Is our planning or parks staff in contact with or working with the county master plan team on the county parks 2020 master plan? Their website is below, similar to what we have set up for the Huntersville 2040 plan. At minimum, do we anticipate a 2020 master plan public meeting taking place in Huntersville?

Subject : 2030/2040 Plan Discussed At Huntersville Candidate Forum

Last night was the Huntersville Candidate Forum. Questions from the audience were submitted to the monitor. One of the questions to the 9 people running for town commisioiner was "What 2 areas of the 2030/2040 plan to you beleive need the most focus". Below are the comments. This is not a prioritized list it is just the order in which people answered the question. Rather than repeat comments, some answers are consollidated.

Figure it will give us food for thought.

- Focus on economic / business development
- Keep our rural areas safe (preserve hardwood trees), tree canopies
- Explore 55+ communities
- Reduce density
- Expand green spaces
- Incorporate community involvement
- Identify the next business areas (next Birkdale or business park)
- Where will the next growth areas be
- Improve infrastructure, get ahead of the game (where is next high-density area)
- Build on the 2030 plan
- Think outside the box
- More affordable housing options
- Focus on a holistic approach
- Preserve Huntersville heritage make sure Huntersville is Huntersville
- Keep the town caricature
- Improve the downtown area / experience

Looking forward to seeing everybody at the end of the month.

HUNTERSVILLE EDUCATIONAL OPTIONS STUDY COMMISSION
MEETING MINTUES

April 8, 2019
6:30 p.m. – Huntersville Town Hall

The Huntersville Educational Options Study Commission held a meeting at Huntersville Town Hall at 6:30 p.m. on April 8, 2019.

WELCOME AND CALL TO ORDER

Chair Karen Bentley called the meeting to order.

IDENTIFICATION OF A QUORUM

Chair Bentley noted a quorum was present.

Commission Members Present: Karen Bentley (Chair), Al Desciscio, William Farber, Amie Hutchison, Derek Partee, Jim Puckett, Eric Rowell (Co-chair), Michael Sass and Carrie Warren.

Commission Members Not Present: Bobbie Shields.

REVIEW AND APPROVAL OF MINUTES

Approval of Minutes – February 11. Rowell made a motion to approve the minutes of the February 11, 2019 Huntersville Educational Options Study Commission meeting. Partee seconded motion. Motion carried unanimously.

Approval of Minutes – March 11. Rowell made a motion to approve the minutes of the March 11, 2019 Huntersville Educational Options Study Commission meeting. Partee seconded motion. Motion carried unanimously.

Approval of Minutes – March 25. Rowell made a motion to approve the minutes of the March 25, 2019 Huntersville Educational Options Study Commission meeting. Partee seconded motion. Motion carried unanimously.

PUBLIC INPUT

None

SUBCOMMITTEE REPORTS

Chair Bentley prepared a SWOT analysis for each of the options based off of information from the subcommittees. *Refer to Exhibit No. 1.*

The Commission spent time going through the options and revising the SWOT analysis document. D*ocument with changes made during meeting attached hereto as Exhibit No. 2.*

DRAFT

Bentley requested volunteers to serve on a Drafting Subcommittee to prepare the final document. Amie Hutchison, Eric Rowell, Karen Bentley, Jim Puckett and Carrie Warren will serve on the Drafting Subcommittee.

NEW BUSINESS

None

OLD BUSINESS

Public Input Format. The Commission discussed the logistics of the public input meeting scheduled for April 29. The meeting will begin at 6 p.m. The Commission will present the priorities and then take public comments. The public comment period will not be a Q&A session, it will be for the purpose of receiving comments.

Warren noted the charge of the Commission stated "At the conclusion of its prioritization of the options studied, and before making its final report to the Town Board of Commissioners, the Study Commission shall design and implement a process to educate and receive feedback from the Huntersville community and the key stakeholders identified by the Commission as to the Commission's prioritization of the five (5) options studied." It was suggested key stakeholders could include parents, teachers and school staff.

Notification to the public was discussed. Joseph Shook, Public Information Coordinator, suggested social media (Facebook and Twitter) and the Town's website could be used to notify public of the meeting. Shook also suggested Nextdoor. The Commission requested Shook go ahead and post the meeting.

It was suggested that the Commission ask the Town Board to amend their charge to just a presentation of the current facts, because if you are going to present the recommendation then why are you listening to anybody.

Rowell made a motion to request the Town Board revise Paragraph 8 of the Resolution creating the Huntersville Educational Options Study Commission to remove the language "conclusion of the prioritization" and have it just read "Before making its final report to the Town Board of Commissioners, the Study Commission shall design……."

Warren seconded motion.

Motion carried unanimously.

The Commission reviewed the calendar of upcoming meetings. April 29 will be public input, May 13 to review final presentation, May 20 presentation to the Town Board.

CLOSING COMMENTS

It was noted that the Huntersville website includes a list of HEOSC members with the term expiration date of April 2019. Since the final report will not be presented until May, the Commission should request the Town Board to extend the terms.

DRAFT

Rowell made a motion to request the Town Board amend Paragraph 10 of the Resolution to read that the Commission shall terminate on June 1, 2019 or upon presentation of its final report to the Town Board, whichever occurs first.

Sass seconded motion.

Motion carried unanimously.

There being no further business the meeting was adjourned.

HUNTERSVILLE EDUCATIONAL OPTIONS STUDY COMMISSION
MEETING MINTUES

April 22, 2019
6:30 p.m. – Huntersville Town Hall

The Huntersville Educational Options Study Commission held a meeting at Huntersville Town Hall at 6:30 p.m. on April 22, 2019.

WELCOME AND CALL TO ORDER

Chair Karen Bentley called the meeting to order.

IDENTIFICATION OF A QUORUM

Chair Bentley noted a quorum was present.

Commission Members Present: Karen Bentley (Chair), William Farber, Amie Hutchison, Derek Partee, Eric Rowell (Vice Chair), Michael Sass, Bobbie Shields and Carrie Warren.

Commission Members Not Present: Al Desciscio and Jim Puckett.

PUBLIC INPUT

None

NEW BUSINESS

None

SUBCOMMITTEE REPORTS

Chair Bentley noted that members of the Drafting Subcommittee met with Trisha Sisson from Cornelius and went slide by slide through Cornelius's presentation, fusing in the work HEOSC has done. The consensus of the subcommittee was how do we take a regional look from a North Mecklenburg perspective at the capacity question and how does that drive ultimately how we look at our work now and potentially what we would recommend to our boards.

NEW BUSINESS

None

OLD BUSINESS

SWOT/Public Input Session. The Commission reviewed the plans for the public input session on April 29. The meeting will begin at 6 p.m. The Commission will present the preliminary report and then receive public comments.

DRAFT

The Commission went slide by slide through the draft Report to the Huntersville Town Board on the findings of HEOSC and revised the presentation based on consensus of the Commission. *Presentation attached hereto as Exhibit No. 1.*

CLOSING COMMENTS

None

There being no further business the meeting was adjourned.

AGENDA

Huntersville Educational Options Study Commission

LEA Review Subcommittee

March 20, 2019 – 11:00 AM

TOWN HALL (101 Huntersville-Concord Road)

1. Welcome and Call to Order

2. Identification of a Quorum

3. Public Input - *Limited to 3 minutes per speaker, or 30 minutes total*

4. New Business

A. Review what our Commission was asked to do by the Town Council..."due diligence to gather facts and information for each option."

B. Review the fact that our Commission was asked to "prioritize the options" considering the following:
   1) Financial and legal feasibility
   2) Effectiveness to reduce overcrowding of schools in Huntersville
   3) Efficiency
   4) Ease of implementation

C. Weighing the pros and cons of this option

D. Identify the additional information needed to conclude our due diligence in studying this option

5. Old Business

6. Setting our Next Meeting Date/Time/Location

7. Closing Comments

8. Adjourn

Date : 5/13/2019 8:44:48 AM

HUNTERSVILLE EDUCATIONAL OPTIONS STUDY COMMISSION
MEETING MINTUES

April 29, 2019
6:00 p.m. – Huntersville Town Hall

The Huntersville Educational Options Study Commission held a meeting at Huntersville Town Hall at 6:00 p.m. on April 29, 2019.

WELCOME AND CALL TO ORDER

Chair Karen Bentley called the meeting to order.

IDENTIFICATION OF A QUORUM

Chair Bentley noted a quorum was present.

Commission Members Present: Karen Bentley (Chair), Amie Hutchison, Derek Partee, Jim Puckett, Michael Sass, Bobbie Shields and Carrie Warren.

Commission Members Not Present: Al Desciscio, William Farber and Eric Rowell.

REVIEW AND APPROVAL OF MINUTES

Puckett made a motion to approve the minutes of the April 8, 2019 Huntersville Educational Options Study Commission Meeting. Sass seconded motion. Motion carried unanimously.

Puckett made a motion to approve the minutes of the April 22, 2019 Huntersville Educational Options Study Commission Meeting. Sass seconded motion. Motion carried unanimously.

PRESENTATION OF PRELIMINARY REPORT

Chair Bentley presented the Huntersville Educational Options Study Commission Preliminary Report. *Refer to PowerPoint attached hereto as Exhibit No. 1.*

PUBLIC INPUT

Leslie Cosentine, Huntersville Resident, said I'm a 6th grade science teacher at J. M. Alexander Middle. I've been at this job for three years. I left the world of IT consulting after many years and worked 7 days a week, 10 to 12 hour days. This job is harder. I had the choice of where I wanted to work and I specifically chose J. M. Alexander for the IB program and for the diversity and for the need. Though it's not a Title 1 school, we're charged with educating every child and we are educating those children that don't have a very good parent advocate and so my point is whatever option that we choose as a community, we need to remember those children who are left out by parent choice. If we create a school that's competing with the schools where the children that have no parent choice go to and we cannibalize that school system, it could have disastrous consequences for our growth long term. I chose this profession because it's the single fastest way I think to even out inequities in our society and I don't want to be a party to it from Huntersville. I was pleasantly surprised by your presentation of Option 5.

As a CMS teacher I found that to be probably the best option. I would just charge you with remembering the many children, especially those that are right at our southern border and remembering that we need to find an option for them. I think many of our children are going to be fine no matter what we do, because there are parents that care. It's those kids that don't.

Pamela Schmitz, Huntersville Resident, said I have a child that's graduated from a CMS school and one graduating in a month. I do recognize that whether I have children in the school or not, children going through school is important to me as a resident of Huntersville, as a resident of Mecklenburg County. I want to build on her comments about the importance of public schools serving the entire community and building for the community and I really want our Town Board to focus on that, because I do feel that the public schools are important for serving everyone. I have concerns about charter schools with people going into their little bubbles wanting to be around people that are like them and however they define that, whereas public schools you have to rub up against other people that aren't just like you and that's important and I see that especially in our country now, something we need to learn. I do want to say there was a little bit of rottenness at the base of the whole set up. When the Town Board first agreed to join in the HB whatever the number is of the town, the charter schools, you know there were things said at the Board meeting that were not factual and I didn't ever hear those pulled back after it was pointed out those weren't factual. There's very much a lean towards Lake Norman Charter represented in your board. I think you would have to acknowledge that. Lake Norman Charter performs very well, partly because of who they serve. They are built to pull a population that is going to perform well no matter where they went to school, they would perform well. I kept hearing how our town couldn't communicate with the CMS board and when I heard that I was like……..whenever I contacted my board member she responded right away. I didn't always like what she said, but she was open about it and we could talk. I had that experience with another board member that responded right away. I know that Ms. Powell, I had an email with her and she said as far as…she's new in the position since Mr. Puckett was retired in November, but so far my understanding is she's fine with the communication in her short-term to be better. I kind of feel like the whole cash cow idea of North Meck has been oversold. My understanding the only money that's really got some lean to it is the county money. The state, the federal has to go to specific places in education. It's only the county money and the overall budget. I don't think that we are the cash cow for the district. Maybe a tiny bit and I'm kind of okay with that because I think it's for the community. I would like to emphasize let's do what's best for the entire community, whether you see that as Huntersville, as Huntersville/Cornelius, as CMS.

Angela Markou, Huntersville resident, said I'm originally from New Jersey but I've been in Huntersville now the last 11 years. I'm a big proponent for education because I see what education did for me. My father was an immigrant. My mother was a single mother with my sister and I was lucky to find companies to help me pay for my Master's Degree. Education helps bring people out of poverty. I tell my daughter all the time this is your No. 1 and No. 2 priority is education. She goes to Barnette Elementary. She's slated to start Bradley in the fall. I think doing nothing is not an option. To me I love this town. I love living here. I'm not willing to give up on the public schools. I don't understand what this charter stuff means. I hear parents oh Bradley stinks, this school stinks, go to a charter. It's still public. And it's what you make of it. I back up the teachers. I support them going to Raleigh on Wednesday and the school closing because and I tell my daughter I don't care what rules the teacher gives you, whether you like it or not you are going to follow them because I'm not teaching her……she can't go to her boss one day and say well my mom told me I couldn't do it this way. She is going to get fired. I think CMS has gotten too big. I'm a little upset, my stepson goes to Hopewell. Somebody came in with a gun, we never got informed of it. School safety is a big concern and with modular units going up that makes school safety even more of a challenge. Huntersville is a big town but it's got a small town feel to it. I want my daughter to have diversity in school. She's blonde hair, blue eyes. I don't

DRAFT

want everybody looking like her. I want her to see diversity between lower income and higher. It teaches her empathy and it teaches her not everybody is like her. So diversity is a key for me. My stepson is headed to CPCC in the fall. He knew for a long time he wanted to do automotive and nobody's addressed this for him. There's no vo-tech. Not everybody is college bound and we've made these kids think that they are stupid because they are not college bound. I would like to see vo-tech come back into the schools. I'd also like to see debate come back because there are little social warriors now and people can't hear difference of opinions and be respectful. I'm a little upset that there's not more parents here. I want to be involved. I back up the teachers, I back up the town, I want to see what's best because again education for me it was freedom and I see it for other women when you're not as likely to be in an abusive relationship or whatever. You are not likely to commit crime if you have access to a good education and that's whatever decision the people in the town agree to it you know I'm happy to listen to it. I'm leaning to Option 5 because it's still going to be a big district. CMS is too big. They can't control it and the needs are different across all these schools with these different kids and I think that the lack of communication through CMS has been impacted because it's just too big. I'm leaning towards Option 5 because I don't understand what a charter school really is and I'm not giving up on the public schools.

Christy Cowan, Huntersville Resident, said I've been here over 20 years. I have two children that have gone through and are currently going through CMS schools. I have also used the options that CMS has given us in the terms of my child has gone through the IB program. She spent a brief little hot minute at School of the Arts down in Charlotte. I like the options that CMS gives us. I am a huge proponent of public schools. I was not a fan of this bill. One of the reasons being because of the schools that I have chosen to put my children in, I like diversity. And this town and this area is looking very less diverse and I can't stand it because it's not real world and people have got to figure that out. I know you guys are just the messenger so I'm glad that you guys are here to hear people speak because I feel like we are directing emotion at you guys and I know you are just the messenger. I understand this isn't a question and answer session but I have questions so I'm just to lay them out. I'm not looking for answers. It was just things I came up with that I didn't understand. One of the things that you kind of touched on was what happens if we open a municipal charter but the bill gets repealed, will the charter school be grandfathered in. I have no idea what MEAC is (Chair Bentley noted it is the Municipal Education Advisory Committee). I guess this is under the No. 3 option which is the one I have a lot of concern about. I know that there are charter school companies out there and my question would be for the board if you were to open a municipal charter and you were to go through a charter company, I know that those charter companies are only in it for their profit and their gain and there are many charter schools that get opened under these companies that ultimately end up failing because they weren't created with the right purpose. That would be a big concern for me as a resident of this town. You talked about partnering with charters in the area but if you are talking about Huntersville I think there's only one.

Chair Bentley noted the commission will meet again to finalize the presentation, then present it to the Town Board on May 20.

CLOSING COMMENTS

Commission members expressed appreciation to the public that attended to hear the presentation and encouraged others to contact the commission with any feedback they may have.

There being no further business the meeting was adjourned.

Approved this the _____ day of _____, 2019.

Subject : Budget comments

Mr. Roberts & Board,

Unfortunately, I will be unable to attend tonight's public hearing on the budget and HEOSC presentation due to a change over the weekend to the tournament schedule for my youth baseball team that now has us playing tonight at 6:30. Please consider this an overview of the comments I would have made tonight about the recommended budget.

- I support the effort by a majority of the town board to hold our tax rate revenue neutral, especially now in light of Charlotte's plan to hold their tax rate revenue neutral as well. Plenty of taxpayers in Huntersville will still pay higher property taxes next year due to the reval even with a revenue neutral rate - property taxes, that annual reminder that you never actually own your home. A threat of a tax increase in 2021 if a rate higher than tax revenue neutral is not adopted is speculative and unfounded if revenue projections are too conservative and if the town board would ever actually consider cutting spending.
- Kudos to town staff for saving what appears to be over $100K in insurance premiums over last year by bidding out the town's insurance business and switching carriers. We could save even more money if we also cut off dues to the organization we had been buying insurance from for all those years since it appears we have been overpaying them for insurance for quite some time (I know, tough to compare insurance over time because of number of claims, etc.). Not to mention this organization is now more of an advocacy group for expanding the role of government than advocating for any specific issues that would benefit Huntersville.
- It is unacceptable that $1,587,330 in unspecified "Contract Services" is included in this budget without requiring the individual departments to break out this spending by individual line items. If HFFA can break out their contract services by individual line items every other department can too. Staff should do this without even being asked - if they can tally the total for contract services they should just break out the expenses by individual line items in the budget to allow for the greatest amount of transparency. If the town board approves this budget without requiring Contract Services to be broken out by line item they will be admitting they have no interest in real accountability or real transparency.
- Just stop with the spending on Forced Charity - especially for Ada Jenkins. Ada has raised AT LEAST $657,500 in private donations over the past year according to press releases on their own fb page. Huntersville taxpayers do not need to keep funding this organization by force, but anyone on the town board or any resident is obviously free to give as much of their own money to this organization (or any other local charity) as they see fit.
- Finally, if you can't find a single thing to cut out of this budget, you're not trying hard enough. Remember, the easiest thing in the world is spending other people's money.

Thank you,

Eric Rowell
Huntersville

Subject : Call for Meeting
Attachment : 031419PartnerWithCharter.doc;

Attached is the call for the subcommittee meeting. If you would sign, then forward to Mr. Farber to sign and then return to me.

If you have any questions, let me know.

Thanks,
Janet

CALL FOR SPECIAL MEETING

We, Eric Rowell and Bill Farber, members of the Huntersville Educational Options Study Commission Subcommittee to study establishing a municipal sponsored charter school by partnering with a new or existing charter school, do hereby call a special meeting of the Subcommittee for Thursday, March 14, 2019 at 12:00 noon at Steele Creek Branch Library, 13620 Steele Creek Road, Charlotte, NC. The purpose of this meeting is to discuss the option of establishing a municipal sponsored charter school by partnering with a new or existing charter school.

Eric Rowell, Subcommittee Member

Bill Farber, Subcommittee Member

Attachment : 032019LEASubcommitteeCall.doc;

I have attached a call for a special meeting that needs to be signed. One can sign, e-mail it to the other and then forward me the signed one. If I need to change one of the names on the call to Jim Puckett, just let me know.

Once the call is signed, I will send all subcommittee members a signed one. This just has to be done per the open meetings law.

If you have any questions, let me know.

Thanks,
Janet

CALL FOR SPECIAL MEETING

We, Michael Sass and Eric Rowell, members of the Huntersville Educational Options Study Commission LEA Subcommittee, do hereby call a special meeting of the Subcommittee for Wednesday, March 20, 2019 at 11:00 a.m. at Huntersville Town Hall, 101 Huntersville-Concord Road. The purpose of this meeting is to discuss the feasibility of dividing the Charlotte-Mecklenburg LEA into smaller LEA's.

To : "Anthony Roberts" aroberts@huntersville.org
Cc : "Janet Pierson" jpierson@huntersville.org
Subject : Camera work

Mr. Roberts,

Going forward, can we have whoever is operating the camera make every effort to pan out to the wide shot of the dais when votes are taken? Either that or have the mayor begin restating the vote breakdown. The rezoning vote last night couldn't be seen bc the camera stayed on the mayor - you saw Commissioners Boone and Walsh vote but no one else. It was obvious how this vote went due to their statements on the issue, but not all votes are preceded by lengthy commissioner statements.

Thank you,

Eric Rowell

Subject : CMS presentation - March 11

Good morning, HEOSC colleagues.
I just spoke with Anthony and he has confirmed the attendance of Supt. Wilcox, Chair McCray, and D1 rep Rhonda Cheek for our March 11th meeting.

To that end, I wanted to reach out to you all to inquire about what specific topic(s) you would like them to cover/address during their time with us. Understanding and acknowledging that historical context is important to this discussion, my request is that we would keep the discussion future-focused, non-combative, and specific to the mission of our Commission - to inform the group on (for this option) what it would look like to a) partner with CMS or, b) "do nothing".

That being said, please forward to me by Friday, February 22nd the data requests/topics you would like them to present.

Thanks,
Karen

Subject : Community Plan Update Scope of Work
Attachment : Scope of Work - Approved 09032019.pdf;Steering Committee Resolution - Unofficial 09032019.pdf;

Dear Steering Committee Members –

Thanks very much for volunteering to serve on the Community Plan Update Steering Committee. Your appointment was confirmed at last night's Town Board meeting, as per the attached resolution. Please note that the resolution also describes some of the ways in which the Committee will function. On behalf of Town staff and the consultant team that will be working with you, we want you to feel that you have made a significant contribution to Huntersville by the time the Plan Update is completed, and that the Plan embodies the appropriate strategy for our community's future. We also want to do our best to make the time you spend on the project as effective as possible.

The scope of work for the project is attached. Please don't worry about printing it unless you really want to – we'll have paper copies available at our first meeting. We are also planning to have an orientation session before the project starts to familiarize Committee members with the current plan and past plans. We also plan to have other materials available for you to look at if interested.

I look forward to meeting and working with you. In the near future, we'll start asking about future meeting dates and times to see if we can accommodate as many member's schedules as possible. If you don't mind, please reply confirming receipt of this e-mail. If you have any questions, please contact me.

Thanks for your time –
Dave

Town of Huntersville, North Carolina
Community Plan Update
Scope of Work
Date of Approval: September 3, 2019

INTRODUCTION

STEWART is the lead firm selected to prepare the Huntersville Community Plan Update, with Nealon Planning and Kimley-Horn serving as subcontractors to Stewart. The lead firm and subcontractors are referred to collectively in the scope of work as the CONSULTANT.

This scope of work outlines the work program for the development of the Huntersville Community Plan Update. It has been developed based upon a detailed proposal, conversations with Town staff, and prior experience creating similar plans. The work program is organized into the following phases:

- Phase 1: Project Initiation
- Phase 2: Analysis & Visioning
- Phase 3: Plan Development
- Phase 4: Implementation & Adoption

The CONSULTANT will work together with Huntersville Planning staff and other Town departments in all facets of the plan development process, including work with the Steering Committee appointed by the Huntersville Town Board of Commissioners, data analysis and mapping, public engagement, and the creation of policies and actionable implementation strategies.

SCOPE OF WORK

PHASE 1: PROJECT INITIATION

Prior to beginning the planning process, the CONSULTANT will meet with Town staff to refine the work plan, public engagement process, schedule, communication methods, and other items related to project execution.

1.1 Existing Plan and Document Review/Data Gathering

The CONSULTANT will work with Town staff to identify and assemble relevant background documents for review. Spatial data and adopted plans will be collected from the Town, state, and federal agencies as well as private organizations. At a minimum the following will be reviewed:

- GIS Files
- Neighboring Jurisdiction and Regional Plans
- Zoning Ordinance
- Subdivision Ordinance
- 2030 Community Plan
- 2014 Strategic Economic Development Plan
- Small Area Plans
- Land Use Corridor Plans
- Downtown Master Plan
- Neighborhood Plans
- Redevelopment Plans
- Comprehensive & Metropolitan Transportation Plans
- NCTIP/Town CIP Projects

An Assessment of the adopted Community Plan is vital to understanding the challenges, opportunities, and successes stemming from the existing guidance document and implementation measures. The CONSULTANT will work with Town staff to produce an assessment of the existing plan focusing on policy, results of implementation strategies, and consistency with small area plans and other Town studies. As part of this the CONSULTANT will summarize progress and outstanding issues related to the Six Focus Areas established in the existing Community Plan:

1. Housing
2. Environment
3. Transportation
4. Economic & Commercial Development
5. Downtown
6. Public Systems, Facilities & Services

1.2 Tour and Initiation Meetings

To initiate the planning process, the CONSULTANT will conduct an initial round of meetings with staff, the Steering Committee, elected/appointed officials, and stakeholders to help identify key issues to be addressed in the Community Plan Update and to understand expectations. The meetings will include the following:

- *Kickoff Meeting with Staff* – Key CONSULTANT team members will attend a kickoff meeting with Town staff. The meeting will take place the same day as the tour.
- *Community Tour* – CONSULTANT will conduct tour(s) with Town staff to document, inventory, and view key area and features such as Town-owned land and buildings, protected and unprotected natural resource areas, housing, recently approved developments (or areas proposed/being considered for development), and utilities/infrastructure. This tour will help the CONSULTANT understand how the land area is currently organized, used, and supported by public facilities.
- *Stakeholder Interviews* – The CONSULTANT will conduct a series of stakeholder interviews (6 meetings) taking place over the course of one day. The CONSULTANT will work with Town staff to identify these interests (business owners, community and neighborhood groups, economic development and tourism officials, representatives from the environmental community, etc.). The purpose of the meetings is to listen and understand concerns and identify plan opportunities and constraints.
- *Steering Committee Meeting* – The first meeting with the Steering Committee will occur during this phase of the project where we will discuss the project scope, schedule, stakeholder feedback, and identify issues. At least one member of the CONSULTANT team will attend all Steering Committee meetings unless specified in the scope or agreed upon through communications with Town staff.

1.3 Public Engagement Materials

Website and Public Engagement materials – The CONSULTANT will create a standalone website and public engagement materials including a Frequently Asked Questions (FAQ) document or brochure for education purposes. A brief, introductory power point presentation will be created to assist with community outreach. The website will be set up early in the process to allow for people to register for updates during the planning process. Contact information provided via the website will be provided to the town staff to allow for periodic communication. It is also anticipated

that the town's existing email distribution list (Constant Contact) will also be leveraged to announce key opportunities for public involvement. The website will also be used to link to surveys, provide notices of upcoming meetings and events and serve as a repository for project documents and resources.

Phase 1 Meetings:

- Project Initiation Meeting with Staff
- Community Tour
- Stakeholder Interviews (6)
- Steering Committee Meeting #1 – Project Initiation
- Monthly coordination calls with Town Staff

Phase 1 Deliverables:

- Plan Review – A summary of previous planning efforts and adopted policy will be prepared and highlights will be presented to the Steering Committee. Highlights of the plan reviews will also be included in the final plan document. Town staff to provide the following:
  - Text or power-point based summary of progress since current Community Plan adoption related to the six focus areas, including policies and implementation recommendations.
  - Summary of progress made and key ideas within adopted small area plans that are relevant to the Community Plan Update.
- Stakeholder Interview Schedule and Invitation Template – The CONSULTANT will develop a schedule and an email invitation template for staff to use to invite stakeholders to participate in the plan update.
- Meeting Materials – The CONSULTANT will be responsible for producing materials and summaries for the Stakeholder Interviews, Steering Committee Meeting, and other meetings.
- Public Engagement Plan – The CONSULTANT will produce document that lists planned public outreach efforts including meetings and major touchpoints for social media, workshops, and Board and elected official presentations.
- Public Engagement and Branding Materials – FAQ or brochure and standalone website. Introduction power point. Branding including project name, color palette and font set.

PHASE 2: ANALYSIS & VISIONING

2.1 Mapping and Community Profile

The CONSULTANT will prepare a Community Profile (CP). The CP will include the Town history, a Town profile, and associated indicators (population, employment, income, socioeconomic data, housing, education, health, aging, development projects, etc.). Data from the Census Bureau, State of North Carolina, and other available sources will be used. Materials from Huntersville 101 will be integrated into the CP as appropriate.

The information collected and analyzed in the Community Profile will be used to inform the Community Plan Update and provide key facts and figures that can be integrated into presentations and documents in a highly graphic and easily understandable format. This data will be presented at a Steering Committee meeting, a community meeting in Phase 3, and provide educational materials for public engagement efforts, guide the team's work in future phases, and will ultimately be incorporated into the final plan.

This task will include developing maps that will be used throughout the process. Using data collected as part of Phase 1, the CONSULTANT will analyze existing land use patterns to determine development trends and establish character areas which will be useful for determining future land use recommendations. A land supply inventory will also be created that factors in utilized land (built lands not likely to redevelop or accommodate new development), underutilized land (determined by querying certain types of land uses based on a structure value to land value ratio), and vacant or available land. Environmental constraints will also be mapped. An inventory and summary of available, buildable land will be created to help identify areas of potential change.

2.2 Community Profile Deliverable

Key maps, statistics and takeaways will be included in a standalone power point document to be available on the website and included as an appendix in the final plan.

2.3 Community Survey Phase 1

The CONSULTANT will work closely with Town staff to develop a Community Survey to gather feedback from the public regarding plan development preferences and key issues to be addressed by plan policies, future regulatory efforts, and investment decisions. The survey will include a visual preference survey, utilizing local and regional precedents to the extent possible, which will allow participants to express preference for a variety of design options including streets, neighborhood design, open space, and architectural types. It is anticipated that the Community Survey will be available on-line, in print form, and as the focus of the public meetings during Phase 3. It is also important to note that questions/answers from the 2011 survey will be reviewed and utilized in the current survey as appropriate to explore changes in preferences, etc.

The CONSULTANT will work with a third-party provider (i.e. MetroQuest, PublicInput.com or other provider) to create an interactive survey that could include a community forum and/or map-based activities that allow participants to spatially locate priorities and/or identify land use preferences.

2.4 Visioning Workshop

Following the analysis phase, the CONSULTANT will coordinate with Town staff to schedule and conduct a workshop over the course of 3.5 days with open studio times and a variety of formal and informal meetings. A concentrated effort focused on community betterment will build excitement and create momentum for the plan. The first day will focus on issues, opportunities, and visioning. The second day will include a meeting to convey themes of input received on the first day. The third day will focus on developing recommendations, concepts, and action items. An informal public meeting or event and a Steering Committee meeting will also be scheduled during the workshop. During this phase the CONSULTANT will prepare an activity meant to guide children through an interactive planning exercise. This activity could be used during the workshop or at a separate meeting facilitated by Town staff.

Planners and designers will present workshop results at a Steering Committee meeting, and two public open house/workshop sessions will be scheduled to gather input on the plan. As part of the workshop the CONSULTANT may also schedule a work session with staff and key stakeholders and/or an informal meeting.

Phase 2 Meetings:

- Steering Committee Meeting #2 - Analysis
- 3.5 Days of Public Meetings
- Steering Committee Meeting #3
- Monthly coordination calls with Town Staff

Phase 2 Deliverables:

- *Mapping Deliverables (provided in ArcGIS v10.5 Map Package (.mpk) format):*
  - Existing Land Use
  - Land Use Supply (Vacant, Developed, and Underdeveloped Lands)
  - Parcel Size Map
  - Environmental Constraints Map (Floodplains, Wetlands, Slope, Topography, Vegetation, and other Sensitive Resources)
  - Multi-Modal Transportation Maps
  - Infrastructure and Services (Water, Sewer, Storm, Schools, Police, Fire, EMS)
  - Parks, Recreation and Open Space (including Agricultural Lands)
  - Cultural and Historic Resources
- Community Survey (Phase 1)
- Community Profile Deliverable
- Workshop Materials
- Preliminary Vision, Goals, and Recommendations
- Meeting Materials and Summaries

PHASE 3: PLAN DEVELOPMENT

3.1 Plan and Policy Framework

Building on the draft vision, goals, and public input the CONSULTANT will prepare a detailed outline or framework of the proposed plan. Upon direction from Town staff, the framework could incorporate the previous plan's six focus areas as well as any other elements identified in the visioning process.

3.2 Land Use Suitability

The CONSULTANT will conduct a Land Use Suitability Analysis that will determine areas most suitable for different types of development based on economic development and environmental inputs. It is anticipated that suitability maps will be created for residential, nonresidential (commercial, industrial, etc.), and conservation/open space. Exact land use types and inputs will be determined based on consultation with Town staff. Typical inputs include proximity to existing and proposed roadways and utility infrastructure, proximity to schools, parks and commercial areas, adjacent land uses, and environmental constraints.

The suitability analysis will be combined with input from public meetings to determine land use preferences including land use-mix, scale, and design character. Deliverables for this task will be utilized to formulate land use recommendations.

3.3 Build-Out Summary

The CONSULTANT will coordinate with town staff to gather data on residential build-out estimates produced by town staff. A student generation rate will be applied to dwelling unit projections. Build-out estimates from staff will be compared to estimates in the Regional CONNECT Our Future model. This information will be summarized for use in the Community Plan Update process.

3.4 Future Land Use and Housing

Following the Land Use Suitability Analysis, and processing of feedback from the workshop and Steering Committee meeting, the CONSULTANT will work to create a Future Land Use Map to accommodate growth and development through the next five to ten years.

The CONSULTANT will conduct detailed analyses of issues and opportunities in various portions of the Town. Residential growth areas, redevelopment opportunities, economic development opportunities and conservation priorities will be studied.

The map will be supplemented with descriptions of land use categories that will be brought to life using precedent imagery. The descriptions will specify intended use mix, scale, density, and other design features (i.e. – street standards, open space form, and footprint).

As part of this task the CONSULTANT will work with Town staff to provide guidance on the federal Fair Housing Act. Housing recommendations in the Community Plan Update will provide policy guidance on the Town's housing stock and future location and mix of housing within Huntersville. The CONSULTANT will strive to emphasize the importance of providing a range of housing types for all segments of Huntersville's population.

3.5 Transportation

Inventory.

The CONSULTANT will inventory projects recommended in local, regional, and statewide transportation plans. The inventory will consider all modes, including roadway, bicycle, pedestrian, and transit. Funded transportation projects from the Charlotte Regional Transportation Planning Organization (CRTPO) 2045 Metropolitan Transportation Plan (MTP), North Carolina Surface Transportation Improvement Program (NC STIP), the Town's Capital Improvements Program (CIP), and unfunded projects from the CRTPO Comprehensive Transportation Plan and the Town's mode-specific plans will be inventoried. Projects from neighboring jurisdictions considered to have an impact on the Town will also be considered. The inventory of projects will document project source, funding status, and implementation timeframe. No additional traffic analysis or modeling will be conducted.

Diagnostic.

Once the community plan goals are finalized and a draft land use plan is available, the inventory of projects will be revisited to determine how well the projects address the community vision. The diagnostic will consider the proposed design (if

available) of the transportation projects and will recommend strategies that seek to limit community disruptions due to the number and magnitude of concurrent projects under construction.

Transit Assessment.
The CONSULTANT will consider the long-term goal of commuter rail transit while acknowledging the land use benefits of different types of transit (e.g., commuter rail, light rail). The transit assessment will consider the recently completed North Corridor reassessment and parallel and perpendicular connections between the I-77 Express Lanes and the Norfolk-Southern "O" line commuter rail. Ridership forecasting or detailed transit analysis will not be conducted.

Transportation Policies and Action Items.
Using the Huntersville 2030 Community Plan (Part 3, Section 15.0) as a model, the CONSULTANT will recommend transportation policies and programs that support the Plan Update's other topical areas. Recommended policies and programs will include ways to integrate transportation design decisions into other Town decision-making processes.

3.6 Public Systems and Facilities Services

Analyses and recommendations will address capacity and constraints as it relates to potential growth within Huntersville. A framework for public and privately funded utility infrastructure improvements needs to be updated regularly to ensure that it is in line with the type of growth that is envisioned as part of the land use element of the plan. Recommendations and priorities for public utility extensions will be included in this element.

3.7 Economic Development and Placemaking

The Community Profile (population, households, building permits, employment, trends, incomes, and other key variables) will be utilized for this analysis. A comprehensive baseline of where the Town is today will be established. This will be compared with the surrounding markets and/or peer communities. Economic development is critical to the future success of the Town of Huntersville. To help understand and address this issue, the CONSULTANT will consult with the Charlotte Regional Business Alliance, Lake Norman Economic Development, the Lake Norman

Chamber, the Huntersville Chamber, and other agencies to gather information on existing policies, plans, and incentives.

Leveraging the Community Assessment, as well as other published data sources, the CONSULTANT will prepare a market review for Huntersville. This effort will focus on the market potential for housing, retail, job-producing, and entertainment-based sectors. This review will consider baseline and historical conditions; the location, direction, and outcomes of investment decisions; and the use of real estate by various sectors of the local economy. These factors will be synthesized to assess strengths, weaknesses, opportunities, and threats (SWOT) to better understand the development potential of the Town. Ultimately, the CONSULTANT will develop an inventory of potential catalyst sites and available and/or potentially developable land in Huntersville.

Economic development strategies and recommendations will be identified, including new and existing activities and policies. Strategies will be organized around the plan's goals and placed into a matrix that designates between short- and intermediate-term opportunities and longer-term strategic investments.

3.8 Environment and Open Space

This element will incorporate and build off the Town's rural base and environmental resources. Protection and management strategies will be evaluated to ensure that future land use decision-making incorporates appropriate concerns and protection of priority areas such as the Critical Area of the Lake Norman Watershed. The Mecklenburg County Soil and Water Conservation District and the North Carolina Wildlife Resources Commission will be consulted for more input into this section of the Plan.

Open space and recreation resources are important not only to residents and visitors, but also the business community. This element of the plan will focus on meeting the current and future open space, parks, and recreation needs of the Town, and how the Town can use its existing and future open space resources as an opportunity to promote recreational opportunities that could facilitate economic development and promote recreational tourism. The Community Plan Update will include GIS mapping of existing facilities and ongoing open space protection efforts, and will highlight

priority park improvements/investments, greenway corridors, regional park locations and interconnection opportunities, and strategic open space priorities.

3.9 Community Survey Phase 2

The CONSULTANT will work closely with Town staff to develop a second Community Survey to gather feedback from the public regarding draft recommendations and priority implementation steps.

3.10 Plan Development

The CONSULTANT, in collaboration with Town staff, will prepare and submit a draft 2030 Community Plan Update (to be delivered in batches of chapters for ease of review) to Town staff and the Steering Committee for review. Following this review, the draft document will be posted on the Town website for public comment. Town staff and the CONSULTANT will also conduct a community open house to reveal the full plan. An online comment form will be created in order to capture public comments. All comments received from staff, the Steering Committee, and the public will be catalogued, and responses made. This careful tracking of comments will allow the CONSULTANT to identify common themes in feedback/ comments for discussion with staff and elected/appointed officials during the review and public hearing process. The draft document will be revised and amended as appropriate.

Phase 3 Meetings:

- Steering Committee Meeting #4 – Framework and Vision
- Steering Committee Meeting #5 – Draft Plan
- Community Meetings/Open House – Draft Plan
- Monthly coordination calls with Town Staff

Phase 3 Deliverables:

- Future Land Use Map and Policies
- Character Area Descriptions
- Community Survey (Phase 2)
- Draft Community Plan Update
- Summary of Comments on Draft Plan (pdf format)
- Meeting and Public Workshop materials

PHASE 4: IMPLEMENTATION & ADOPTION

4.1 Implementation

After the plan is in draft format the CONSULTANT will conduct a work session with planning staff and other Town departments to discuss implementation steps. Topics that will be discussed include potential amendments to the zoning ordinance, ways to address adequate public facilities, traffic impact analyses, tree preservation, affordable housing/inclusionary zoning and other design standards recommended during the Plan update process.

4.2 Plan Adoption

Plan adoption will be a collaborative process between Town staff and the CONSULTANT. The final 2030 Community Plan Update will be presented to the public at a Community Meeting/Open House and to the Planning Board and Town Board of Commissioners during the review and public hearing process. Following the public hearing process, a final set of plan documents in printed and electronic format will be provided to the Town.

Optionally, the CONSULTANT will assist the town by conducting additional neighborhood meetings and/or attending existing meetings of civic groups to gather feedback on proposed recommendations.

Phase 4 Meetings:

- Steering Committee #6 – Implementation
- Up to 2 Adoption Meetings (Planning Board and/or Town Board of Commissioners)
- Monthly coordination calls with Town staff

Phase 4 Deliverables:

- Implementation Recommendations
- Final Adopted Plan
- Meeting Summaries

Training and Continuing Service

The CONSULTANT will conduct a half-day training session for Town staff, Planning Board, and/or Board of Commissioners. As part of a Continuing Service promise, the CONSULTANT will be available by phone or email for a period of six months following plan adoption to assist staff with questions. This continuing service is included in the base fee and is not an additional cost to the Town.

TOWN RESPONSIBILITIES

It shall be the responsibility of the Town staff to provide the following items:

1. Provide any available electronic information on the study area to be used in the preparation of plans.
2. Provide reasonable advanced notice of scheduled meetings.
3. Provide decisions on critical issues as necessary in a timely manner.
4. Payment of all invoices per Conditions of the Agreement.

COMPENSATION / BUDGET

The CONSULTANT agrees to provide professional services as outlined above in the Scope of Services on a lump sum basis. The total project budget is $124,960, which includes expenses for travel, basic food and supplies for meetings, and printing and deliverables specified in the scope of services. Optional services will be completed based upon a revised contract agreement.

Phase	Description	Cost
1	Project Initiation	$15,045
2	Analysis & Visioning	$52,090
3	Plan Development	$42,310
4	Implementation & Adoption	$12,360
	Expenses	$3,155
	Total	$124,960

ADDITIONAL/OPTIONAL SERVICES

Any item not contained in the scope of services above will be deemed as an Additional Service. Additional services will be provided if requested by the Client for a negotiated lump sum fee or at our Standard Hourly Billing Rates. Potential optional services and deliverables include the following:

Table 1: Optional Tasks

Optional Task	***Description***	***Cost***
Concept Designs [A Concept Design was approved for the Downtown on 9/3/2019]	Optionally conceptual designs will be created for one or more areas that illustrate placemaking opportunities key infrastructure and public realm improvements, building scale, orientation, and other features. Downtown Huntersville would be a prime candidate for a conceptual design that illustrates potential public and private investment and the impact of form-based design policies. The Hambright Road area and/or an undeveloped activity center on the east side of Town would also be candidate locations.	$7,500 per area
Economic and Fiscal Health Analysis [The Lake Norman EDC will pay for analyses for Huntersville & Cornelius]	Kimley-Horn will prepare a cost to serve analysis by land use type (residential, retail, office, industrial, hospitality) for the towns of Huntersville, Cornelius, and Davidson. This analysis will leverage, but update, the structure and findings of the CONNECT Our Future Cost to Serve analysis that was prepared in 2013. Cost to serve measures will focus municipal-provided services like emergency services, utilities, parks and recreation, and transportation. The cost of schools, which are a function of Mecklenburg County, will be excluded from the analysis. A high-level indication of potential tax revenue by land use type will also be included.	$18,000* **The cost above represents analyses for the towns of Huntersville, Cornelius, and Davidson.*

	The findings of the Economic and Fiscal Health Analysis task will be useful in comparing the impacts of growth alternatives for future land uses. They can also be used in future land use decisions to be made by staff and appointed/elected officials. The deliverable for this task will be a technical memorandum and an editable spreadsheet of findings for future use by each jurisdiction.	
Return on Investment Analysis	As directed by the Town of Huntersville, the CONSULTANT will prepare benefit-cost analyses for key infrastructure investments. This effort could be leveraged to support the prioritization process, particularly for those investments that are not currently funded or those that are controversial. Key metrics to be reviewed as part of analyses of return on investment include safety, economic competitiveness, environmental sustainability, quality of life, and state of good repair.	$7,500 per analysis
Detailed Real Estate Analysis	Detailed real estate demand analyses can be prepared to support the development of specific small area plans or unique catalyst sites. These analyses would draw from the overarching market review prepared for the base planning effort but increase the level of detail based on a site's access, visibility, and surrounding land uses. This enhancement would be most beneficial for unique areas/sites and could be added, as needed, when beginning small area planning efforts or as key sites are identified.	$5,000 per analysis
Financial Feasibility Analysis	As directed, test pro formas for detailed small area plans or catalyst projects could be prepared in order to test the marketability of attracting a	$7,500 per pro forma

	private developer to the project based on target return levels. Information provided in this analysis could be used to market key catalyst projects to the development community. This enhancement would be most beneficial for unique areas/sites and could be added, as needed, when beginning small area planning efforts or as key sites are identified.	
Transportation Programming / Prioritization	Programming. The CONSULTANT will work with the Town to create a process to prioritize future transportation projects. This process will consider factors such as investment categories (e.g. mode, partnerships, congestion relief, development facilitation, small area plan), financial targets by category, and long-term value compared to short-term capital costs. Once the prioritization process is approved by the Town, the CONSULTANT will evaluate inventoried projects to identify no more than five additional major transportation projects to pursue over the next ten years.	$5,000
Design Evaluation	As an optional service, the CONSULTANT will work with the Town to identify locations (e.g. intersections, short corridors, or project areas) for which a transportation project or other initiative is likely to affect travel modes and patterns. Upon request for the Design Evaluation Optional Service, the CONSULTANT will work with the Town to define the location(s) and determine the appropriate level of coordination with Town representatives and external stakeholders (e.g. CRTPO, NCDOT, CATS, etc.). For each location, the CONSULTANT will evaluate current design plans and identify potential design changes or improvements so the project better reflects Town interests such as land use	Cost dependent on scope

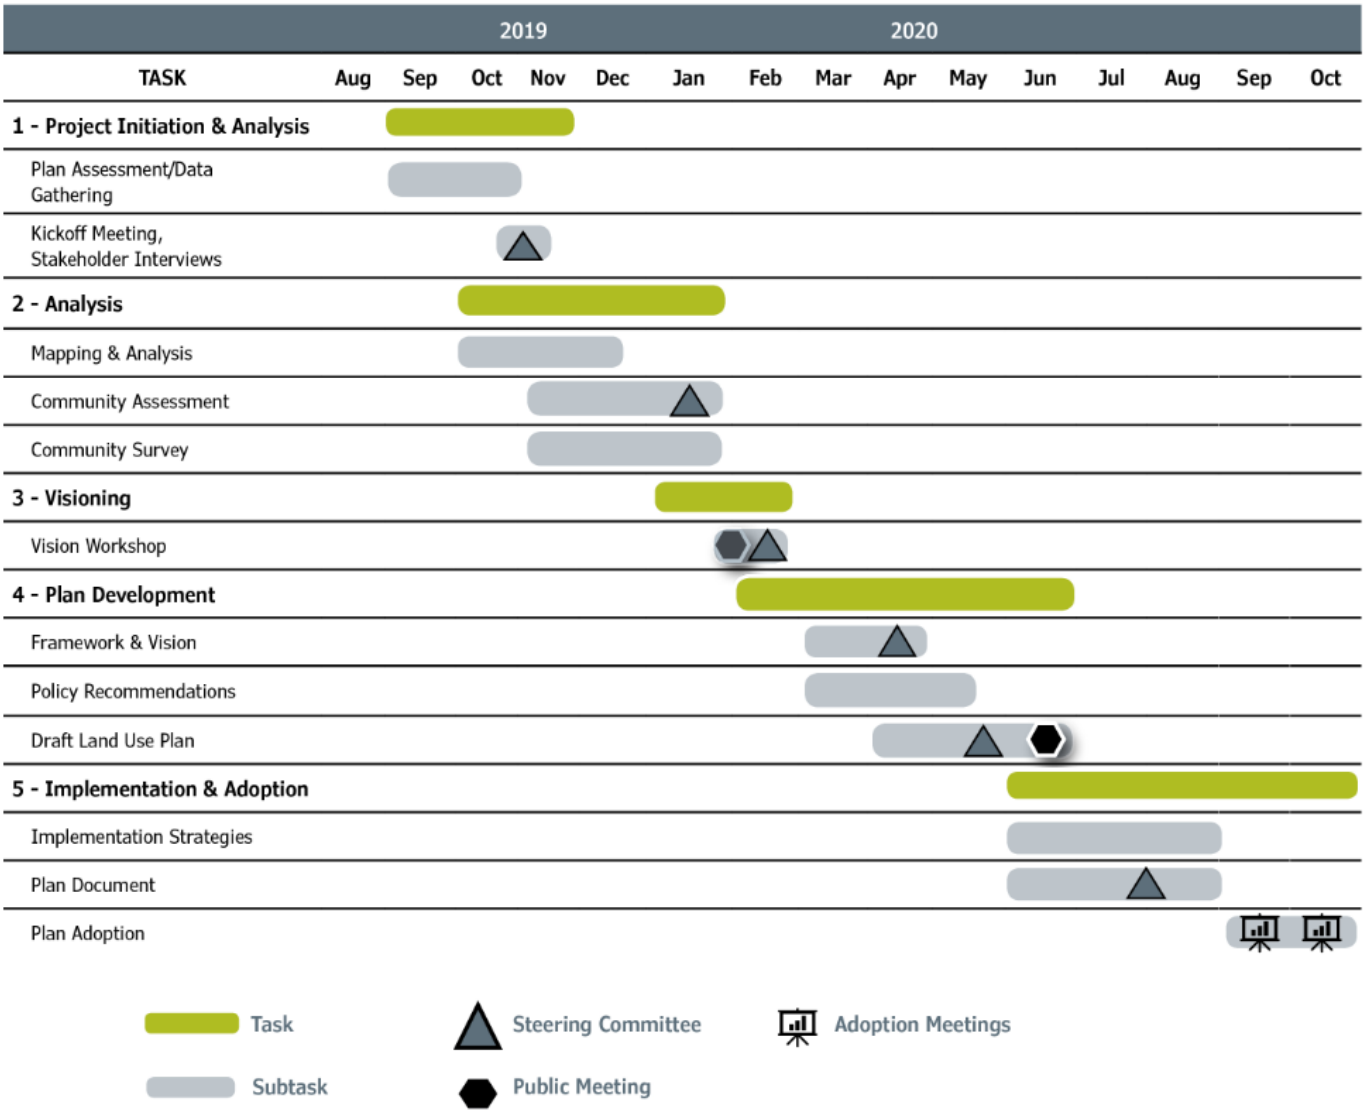
	context (existing and/or planned) or bicycle and pedestrian needs.	
Hot Spot Analysis	The CONSULTANT will conduct a Town-wide review of crash data compiled by NCDOT. This data will be supplemented with feedback from stakeholders and the public. The CONSULTANT will create a process to select the highest priority intersections using a combination of severity, frequency, geographic distribution, and/or relationship to other plans. The CONSULTANT will collaborate with the Town to select 5 locations for more detailed evaluation, including field review to document contributing factors to the crashes and create a list of potential countermeasures. Opinion of probable cost to be included.	$7,500
Additional Meetings	• Adoption Meetings (in addition to the 2 meetings included in scope) • Focus Group Meetings	$1,200 per meeting per Stewart, Kimley Horn or Nealon Planning staff member

PROJECT SCHEDULE

The CONSULTANT agrees to provide services to the Town in the most expeditious manner as is practical and will adhere to the project schedule as appropriate and realistic. It is anticipated that the project will be completed within 12 months from the Notice to Proceed. Note, the adoption process may extend beyond this period.

PROJECT SCHEDULE

The following is a draft schedule for the Huntersville 2030 Community Plan Update:



RESOLUTION TO CREATE THE HUNTERSVILLE COMMUNITY PLAN STEERING COMMITTEE

WHEREAS, the Huntersville 2030 Community Plan was adopted in 2011, and the Town of Huntersville Board of Commissioners has determined that the Plan should be updated, and

WHEREAS, the Town of Huntersville Board of Commissioners has decided to create a Community Plan Update Steering Committee to serve as an advisory board to the Town of Huntersville Planning Board and Board of Commissioners, and

WHEREAS, during the months of July and August 2019, residents of the Town of Huntersville were notified of the opportunity to volunteer and were recruited to complete an application to be appointed and serve on the Steering Committee, and

WHEREAS, upon appointment to the Steering Committee, members will be asked to work with Town staff and professional consultants during the development of the Community Plan Update, including efforts to encourage public participation and engagement during the project;

NOW, THEREFORE, BE IT RESOLVED BY THE TOWN OF HUNTERSVILLE BOARD OF COMMISSIONERS AS FOLLOWS:

1. There is hereby created the Huntersville Community Plan Update Steering Committee.

2. The purpose of creating the Huntersville Community Plan Update Steering Committee is to serve as an advisory board to the Town of Huntersville Planning Board and Board of Commissioners until such time as the Plan Update is adopted by the Board of Commissioners.

3. The Steering Committee consists of fifteen (15) members, who are residents of the Town of Huntersville and appointed by the Town of Huntersville Board of Commissioners. The appointees have been selected from the pool of volunteer applicants interested in serving on the Committee, and include the following members:

Unofficial Copy

1) Kim Aichele
2) Time Bender
3) Ross Boner
4) Randy Brawley
5) John Carbonell
6) Chris Edwards
7) John Forehand
8) Erin Gillespie
9) Scott Harrington
10) Joshua Helm
11) Kristen Ingram
12) Dan Murphy
13) Eric Rowell
14) Kaitlyn Sisson
15) George Solomon

4. The Steering Committee will meet at least eight (8) times during the project, with an anticipated timeframe extending from September 2019 through September 2020, subject to change. The Planning Director shall have the authority to call the meetings of the Committee, which will be called and advertised as a special-called meeting, and to set the agenda for each meeting as part of the special-called meeting notice. Only items of business specified in the special-called meeting notice may be conducted at each meeting.

5. The Steering Committee will elect a Chairperson from its membership. The Chairperson will lead meetings, manage discussion in a civil and orderly fashion, and coordinate the making of decisions by the Committee, whether by consensus or by a motion made, seconded and approved by majority vote.

6. In order for the Committee to carry out its responsibilities, it is necessary for members to attend the meetings. If a member is absent for two (2) meetings, the Committee may request that the member be replaced by the Town Board of Commissioners.

Unofficial Copy

7. Meetings will be advertised and conducted in accordance with the North Carolina Open Meetings Law. Minutes shall be kept for each meeting.
8. Upon adoption of the Community Plan Update, the Huntersville Community Plan Update Steering Committee may be dissolved by the Board of Commissioners.
9. The Huntersville Town Board of Commissioners is deeply appreciative of the spirit of volunteerism and community interest shown by the Steering Committee Members, and of all the residents who applied to serve on the Committee.

Adopted this the 3rd day of September, 2019.

ATTEST:

_____ _____

Janet Pierson, Town Clerk John Aneralla, Mayor

Approved as to form:

_____

Angela Beeker, Town Attorney

Subject : Contact Information

Dear Jackie,

Can you send me the contact information (Cell phone number) for Albert, Carrie, and Eric. I wanted to be able to reach out to them to start the process of scheduling our HEOSC subcommittee meetings.

Thank you for all of your hard work to provide our Commission such great information over the past four months. We all recognize how much time you all have put in to give our group the best information possible.

Thanks !

Mike Sass

> >
> > Anthony,
> >
> > One of the things I have questioned since getting on the board is the amount of money budgeted every year to contract services. If I am not mistaken, improving contract administration was one of our board goals. It is definitely mine.
> >
> > 2018 budget was about $1,727,769 among all departments for contract services, and 2019 went up $223,484 to $1,951,253.
> >
> > I am sure your department heads are already preparing their budget requests and I would like to see these services broken out by contract in each department. This would lend itself to more transparency and make it easier to see if we possibly have overlapping services being contracted, if all contracts are current and have been reviewed by Ms. Beeker, and if we can combine contracts across the whole town for things like HVAC service, landscaping service, cleaning services, and recurring building maintenance.

Almost $2M that I cannot tell a constituent exactly what it is for, is too much. Even if my fellow board members may feel differently than I do about a particular contract, I would hope we all could agree to be more transparent on how and where these funds are being spent.

Thank you for your time and consideration.

Respectfully,

Mark Gibbons

Subject : Cornelius Educational Options Study Commission report
Attachment : CEOSC_Report to Town Board 4_1_19.pdf;

Good evening, all.
Attached you will find the report developed by our colleagues in Cornelius, presented to their Town Board on April 1st. It is well done and very robust - format/content that we should emulate for our presentation to the Huntersville Town Board.

Tricia Sisson has offered to attend our meeting on the 22nd to review the report with us. Let me know if this is of interest to you and I will get her scheduled.

Take care,
Karen

CEOSC Report to Cornelius Town Board

Cornelius Education Options Study Commission

April 1, 2019

Cornelius Education Options Study Commission

- Purpose
- Needs State
- Option Evaluations

Purpose of the CEOSC

- Project the current and future facilities needs of the Cornelius and North Mecklenburg student population
- Evaluate the following 5 Options:
  1. Do Nothing
  2. Partner with CMS
  3. Open and Operate Municipal Charter School(s)
  4. Partner with an Existing Charter School
  5. Create a New LEA

Projected Enrollment

10,222 new students will be added to the capacity needs of the N. Meck schools by 2035

- (1) North Charlotte population within Hopewell & North Meck districts.
- North Charlotte population buildout based on 2045 Charlotte population of 1,322,813
- (Estimated an average population of North Charlotte to Charlotte population to be 6.25%. Applied 6.25% to 2045 Charlotte population (1,322,813 * 6.25% = 82,676.))

Note: no adjustment made for current enrollment over/under planned enrollment in existing N. Meck Schools

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continue with the status quo allowing CMS to solve the issue as they see fit

PROS

- No pushback either legislatively or legally
- Appeases those satisfied with current school status
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - 500+ students by 2025
  - 800+ students by 2030
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for Lake Norman schools
- Continued strain in the relationship between Lake Norman region and CMS
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Cornelius and CMS

Option 2: Partner with CMS

Current/Previous Partnering Agreements:

- 2003 Bailey Middle JUA
- 2004 Reallocation of Land Bond Dollars JUA for Hough
- 2005 Westmoreland Road Elementary(JV Washam) JUA
- 2015 Cornelius Elementary JUA

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.
- Less divisive – public entities working together toward a common goal of positive educational outcomes

CONS

- Possibility of no improvements in our area
- Long timeline to solutions or results.
- If a deal is reached, no guarantee that a newly elected board would continue to honor that deal
- Cornelius pays 4.3% of total property taxes and makes up 2.7% of the county population
- Our area only has 1/9 representation on CMS board
- Differing opinions and perspectives will still be present between Cornelius and CMS

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

CONS (continued)

- Potential loss of magnet school options under MEAC reassignment suggestion
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development.
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).
- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.
- Town of Cornelius can agree to opt out of HB 514 as requested by CMS.
- Any group of concerned citizens can follow the traditional charter school route outside of HB 514.
- Campaign to rally the court of public opinion.

Option 2: Partner with CMS

Potential Outcomes:

- Form a CMS advisory board with representation from Cornelius, Davidson and Huntersville. Consideration can also be given to creating a larger board with representation from Pineville and Matthews.

- Build relationship with the CMS school board to be a stronger advocate for the needs of our area.

- According to the Municipal Concerns Act Article III Report, a consideration for relief for Cornelius at the high school level would be to reassign 750 students to Huntersville schools. Strengthening our relationship with CMS could help accomplish this relief. Based on a planned 2000 students at Hough, it is currently at 127% capacity. This relief would bring Hough to 90% capacity, leaving room for student population growth.

- Once current overcrowding is addressed, work with CMS to create a plan to build future buildings or improve current facilities, possibly funded through COPS.

Option 2: Partner with CMS

Next Steps:

- Set up meeting with representatives from CMS, including Superintendent Dr. Wilcox.
- Work with planning board to develop list of potential sites for new schools.
- Review past and current partnerships with CMS to define parameters of future partnerships with CMS.
- Work with CMS on redrawing boundaries and district lines to better accommodate LKN municipalities. Develop a plan to communicate changes to property owners.
- Explore options to expand current buildings at Bailey and Hough to accommodate more students without modulars. Possibilities may include more classrooms, expand cafeterias or add enclosed outdoor seating, and add a new building for eight and ninth grades between Bailey and Hough.

Option 3: Municipal Charter School

- Using Current CMS North Mecklenburg boundaries

Background on House Bill 514

- Governance Structure
  - Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
  - NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties
- Municipal charters can prioritize enrollment to students in the municipality
- Employment requirements
  - Municipal charters can employ teachers provided
    - at least 50% hold teaching licenses
    - All teachers of core subjects (science, math, social studies, language arts) are college graduates
  - Municipal charters can employ/discharge others to perform non-teaching duties
  - Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School

- Estimated Timing
  - 1 year approval process after application submitted
  - 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
  - Total timetable 2-4 years minimum to open school
  - Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School Cornelius Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Cornelius Operating Budget

MUNICIPAL CHARTER SCHOOL **Base**

FYE 6/30

ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	**(1,220)**	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need $1MM+ to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Option 3: Municipal Charter School Implications

PROS

- Promotes local control and increases parental choice
- Ensures town representation
- Prioritizes enrollment for town children
- Reduces bureaucracy, increases efficiency, and lowers administrative costs
- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Alleviates overcrowding issue
- Reinforces the concept of neighborhood school

CONS

- Potentially higher costs for service delivery
- Risk alienating local LEA
- Law may be changed/repealed to be less favorable
- Legal challenges may occur
- How does Town fund initial school start up/Double Taxation
- High initial liquidity needs
- Profitability impacted by rental expense before ramp up completed

Option 3: Municipal Charter School

Sources of Leverage:

- Town bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- May strain relationship with local LEA

Option 3: Municipal Charter School

Next Steps:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Huntersville (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit citizen feedback

Option 4: Partner with an Existing Charter School

- Enter into a management agreement with an existing, established, local charter school to establish and maintain operations of an independent municipal-owned charter school

Option 4: Partner with an Existing Charter School

Partnering Criteria:

- Located in the North Mecklenburg area
- Local operations management (no outsourcing of primary business oversight)
- No less than 5-years of operations with consistent enrollment exhibiting high parental demand (i.e. wait lists that consistently exceed enrollment), and acceptable performance metrics (EOG Scores) demonstrating consistent educational success
- Acceptable learning curriculum
- Demonstrated positive operational cash flow for at least three of the most current years of operations
- Active and engaging instructional practices
- Must exhibit low/acceptable staff turnover, with Academic Director in place for at least 3-years, and instructors at or above state requirement of at least 50% teachers certified and licensed

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school

CONS

- Loss of total control over municipal sponsored Charter School
- May not receive interest from preferred partner schools

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

Option 4: Partner with Existing Charter School

Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 4: Partner with an Existing Charter School

Next Steps:

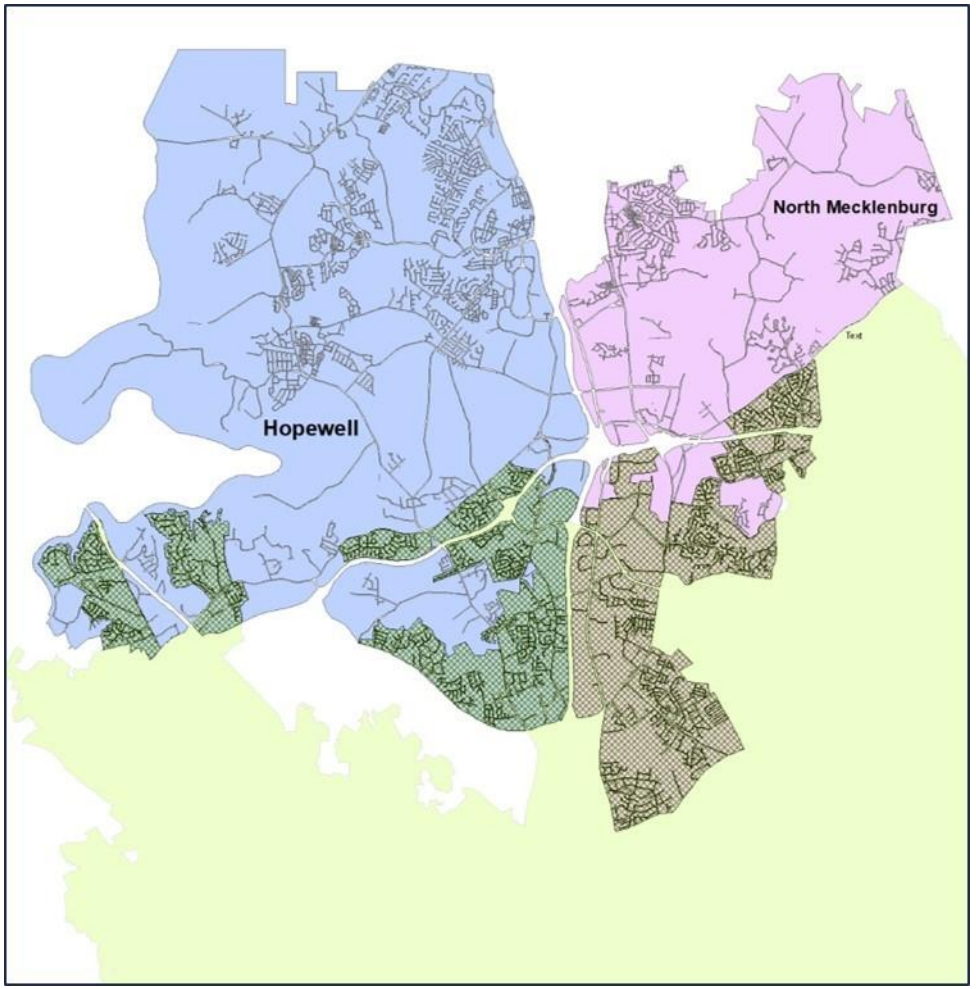
- Analyze sub-option of operating a charter satellite campus
- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Possibly partner with Huntersville (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit and review interest from local Charter School operators that meet or exceed the aforementioned requirements

Option 5: New LEA

- Using Current CMS North Mecklenburg boundaries

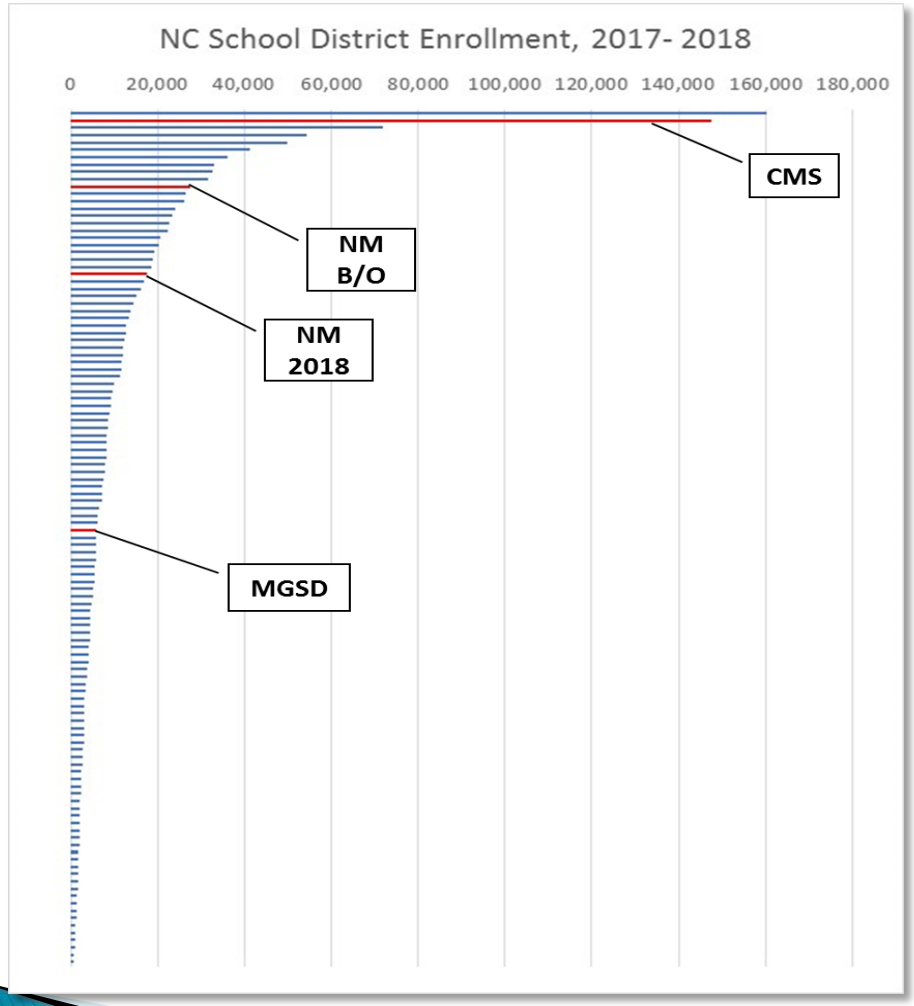
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

Comparison to Existing LEAs



- At current enrollment a North Meck LEA would be the 23rd largest school district in NC
- At buildout a North Meck LEA would be the 11th largest school district in NC

Cornelius Capital Needs Assessment – LEA Option

1. Adding in the over-utilization of the Cornelius schools does make a material difference in the school needs for Cornelius students
2. Cornelius school age children will need additional schools by 2035, likely 1 elementary, 1 middle and 1 high school

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms

Source MGSD Dec 2018
Rounded to whole buildings

Option 5: New LEA

PROS

- Local control
  - Capital budget
  - Student assignment
  - Taxation
  - Board representation
- Fewer bureaucratic layers
- Tailored solutions
- Greater sense of community

CONS

- Politically difficult
- Potential loss of programming breadth

Option 5: New LEA

Sources of Leverage:

- Citizen involvement

Option 5: New LEA

Potential Outcomes:

- North Meck LEA
- LKN LEA

Option 5: New LEA

Next Steps:

- Determine legal process
- Perform revenue analysis
- Engage the community with round table meetings
  - Teachers
  - Parents
- Continue to study feasibility

Summary and Next Steps

- Based on the projection of the current and future facilities needs of the Cornelius and North Mecklenburg student population, and feedback received during this meeting, the CEOSC will finalize their findings of the 5 Options available to the Town of Cornelius to address future educational needs.
  1. Do Nothing
  2. Partner with CMS
  3. Open and Operate Municipal Charter School(s)
  4. Partner with an Existing Charter School
  5. Create a New LEA

- Final report date TBD, anticipated to be May 2019

Appendix

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035
Cornelius Population					
Elementary School	776	0.1	0.3	0.5	0.5
Middle School	1093	0.1	0.1	0.2	0.2
High School	2053	0.0	0.1	0.1	0.1

	Optimal School Size	2020	2025	2030	2035

LED Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County

Subject : Current charter projects in Huntersville

All,

As a point of information and possible addition to the town board report, please see below from Jack Simoneau a list of current charter schools in development in Huntersville.

Bonnie Cone plans to open Fall 2019.
Aspire Phase 1 plans to open Fall 2019 (The Halton School for Asperger's/Autism)
Aspire Phase 2 plans to open Fall 2020 (trade school 9th-12 grades)

Thanks,

Eric Rowell

Subject : Dec. 10 Agenda - opening/closing remarks & survey

All,

One agenda recommendation going forward if the group agrees, an opportunity for committee members to either make opening or closing remarks related to any general items of interest that may not fit with other items on the agenda. Opening remarks would probably be preferable since we don't want to extend the meetings any longer than necessary after planned speakers/presentations.

Also if the group agrees, I would recommend including a follow-up survey discussion as an agenda item for the December 10 meeting. If we are going to commission a survey we probably need to come to an agreement on the specifics no later than the January 14 meeting due to time constraints.

Thoughts?

Thanks,

Eric Rowell

Subject : Decision matrix for Monday's meeting
Attachment : HEOSC Decision Matrix (1).xlsx;

Hello all,
I have attached a tool that we will use to facilitate our discussion at Monday's HEOSC meeting. Please complete the matrix based on your perspective and come prepared to present/defend your scores. After each of us presents our scores, we will total the collective scoring and come to a ranking which will serve as the basis for our recommendations to the Board.

Please let me know if you have questions.

Thanks,
Karen

	Financial and legal feasibility
Options	
1 - Do Nothing	
2 - Partner with CMS	
3 - Open and Operate a Municipal Charter School	
4 - Partner with an Existing Charter School	
5 - Create a New LEA	

Instructions: rate each consideration for each option on a scale of 0-10. Zero = lowest, 10=highest. For example, how would you rate "Do Nothing" on financial and legal feasibility, effectiveness to reduce overcrowding of schools in Huntersville, etc. on a scale of 0-10?

Subject : Drafting sub-committee meeting

Good morning, all.
The Doodle Poll results show that Wednesday, April 17th at 6pm is preferred by the majority of us. Let's plan on meeting at Defined Coffee in Huntersville at 6pm. I will send a calendar request with the details.

From my perspective, the goal of the meeting is to synthesize the various SWOT analyses produced by each sub-committee, and also to begin pulling together (formalizing) our supporting data for the final recommendation (i.e. growth numbers, capacity needs, financial options, etc. - refer to the Cornelius PPT I sent yesterday for further clarity).

See you all soon,
Karen

Subject : FEEDBACK ON HEOSC PLANNING

1. APRIL 29 PUBLIC INPUT NIGHT

We are considering the April 29, 2019 evening as an opportunity for the public to learn more about the work of the Huntersville Educational Options Study Commission (HEOSC). The hope is that by being provided a "preliminary report" from HEOSC, community members will be able to provide our group more meaningful feedback and input PRIOR to our final report including prioritized recommendations for the Huntersville Town Commissioners.

We are being very open and transparent providing such a detailed and comprehensive PRELIMINARY REPORT to the public three weeks before our final presentation on May 20. However, by doing so, we may be putting ourselves a bit at risk for potential errors in the report that we have not fully identified to date.

As a result, I would want us to stress very clearly this report is only a very PRELIMINARY DRAFT. By having this document being available to a wide variety of people, we may get embarrassed by some oversight in the preliminary report, but may also benefit from "more eyes" on the report and a community member may identify an issue for us PRIOR to the most important matter---providing a thorough comprehensive report to the Town of Huntersville on May 20, 2019.

2. PREPARATION FOR OUR FINAL REPORT ON MAY 20, 2019

As we prepare our final report AFTER the April 29, 2019 Public Input Session, I would suggest we consider the following additions to our report:

A. A slide to highlight the key factors the Town Commissioners asked us to consider when prioritizing the five options in our final report. We may consider saying the following:

"Our Huntersville Educational Options Study Commission for approximately the past six months has diligently studied the project we were asked to address. We were asked to prioritize the five options to relieve overcrowding of schools in our community. These options were prioritized after much study and deliberation. We utilized the following criteria provided us by the Town of Huntersville Commissioners:

- The Study Commission shall use the information gathered, and, through a deliberative process, prioritize the options studied, taking into account financial and legal feasibility, effectiveness to reduce overcrowding of schools in Huntersville, efficiency, and ease of implementation.

B. Consider a section in the final report located AFTER the final prioritized options, but PRIOR to the appendix that would provide some "SUGGESTIONS" to the Town Commissioners that would include topics that may assist the Town that we discovered in our lengthy due diligence process. The section may include ideas such as the following:

* As the Town moves forward reviewing the HEOSC final report, we would suggest collaborating with the Town of Cornelius. As a HEOSC, our group coordinated our study with the CEOSC over the past six months. We discovered we were identifying many of the same challenges with CMS as well as the same potential opportunities for solutions. While the needs of the town of Huntersville do not perfectly align with the needs of Cornelius, they are close enough to warrant a partnership going forward.

* While developing a new LEA for Huntersville/Lake Norman /North Mecklenburg region was one of the lowest priorities recommended by the HEOSC, we believe it is ultimately the best option to improve the overall quality of education for the students in our community. We would suggest the Town continue to look for opportunities to advocate for this type of solution.

*We would like to suggest the Town of Huntersville work to become an even stronger supporter of charter school development the in the area. Perhaps the Town could put together a plan to identify ways to make the ability to develop a charter school in the Town as smooth and barrier free as possible. Being an "incubator" for charter schools in the area will assist in relieving overcrowding an create opportunities to improve the quality of education for our children of the community.

* We would suggest the Town of Huntersville continue to work diligently with CMS to change what many believe is the primary reason adequate classroom space is NOT being provided the students in North Meckenburg County. The "rubric" CMS utilizes for school and classroom space planning does not appropriately consider the usual and customary measures school planning professionals utilize throughout the nation for planning the needs for classroom space in a community. CMS uses a "certificate of occupancy" for determining a need versus a method that utilizes factors such as town "planned housing developments" and a factor as to how many students would be attending school per house. A second key factor in CMS poor planning is the continued use of portable classrooms. Portable classrooms should be only TEMPORARY solutions to overcrowding. CMS appears to plan as if these units are long term solutions to relieve overcrowding.

3. FEEDBACK ON THE APRIL 29. 2019 PRELIMINARY REPORT POWERPOINT

A. PAGE 14: The reference to the Town of Huntersville contributing 1.7 M???Over what period of time???

B. PAGE 15: We reference a "rubric" in the PROS...should we say something like a "school construction planning rubric"

C. PAGE 19 : I want to confirm the statement of the "Municipality's governing body composition"

D. PAGE 20: "Operational expenses fully funded....."??? Perhaps it should say---Operational expenses should be able to be meet the ongoing needs from local, state, and federal payments.

E. PAGE 22: "2-4 years to open"??? Stating the Fall 2022 is the earliest we could open a school even with "all planets aligning"

F. PAGE 32: When we reference a potential new LEA and the tax base...I believe there is a relatively simple calculation for determining the "wealth" of a "local unit of government" or "taxing body". Why would we not perform a calculation of the "ASSESSED VALUE per Property Tax Payer" in Huntersville versus a similar statistic for all of CMS.
In comparing school districts and their relative wealth in providing services to students in Illinois we had a calculation that identified each school district's "EQUALIZED ASSESSED VALUE OF PROPERTY PER PUPIL". It provided one a quick estimate of a school district's "ability to pay" and assisted in determining to what degree a community "effort" tax wise could go into providing services.

G. PAGES 34 and 35: While I think the information is good and helpful, these pages offer "Opportunities" and "Threats"...not consistent with the format of the other sections. I am not suggesting we drop these pages...just confirming this is what we want.

H. APPENDIX: I am not so sure how wise it is to include the Appendix in our presentation to the community on April 29. I would want more time for our HEOSC and Huntersville Town staff to review the accuracy of these documents. I understand having a comprehensive appendix will be helpful with our final report to preserve a great amount of detailed work performed by our group.

I. MUNICIPAL CONCERNS ACT OF 2018 approved by Resolution by the CMS Board on October 30, 2018: Should we consider some slide either for April 29 or for sure for the May 20 report that highlights the ACT. But most importantly, as we make our recommended priorities to the Town of Huntersville that the "weighty calculus" of this ACT could have on Huntersville is a high priority for the Town officials...over our "pay grade"

as a Commission.

These are a few thoughts as you prepare the report for us on Monday.

Mike Sass

Purpose & Process

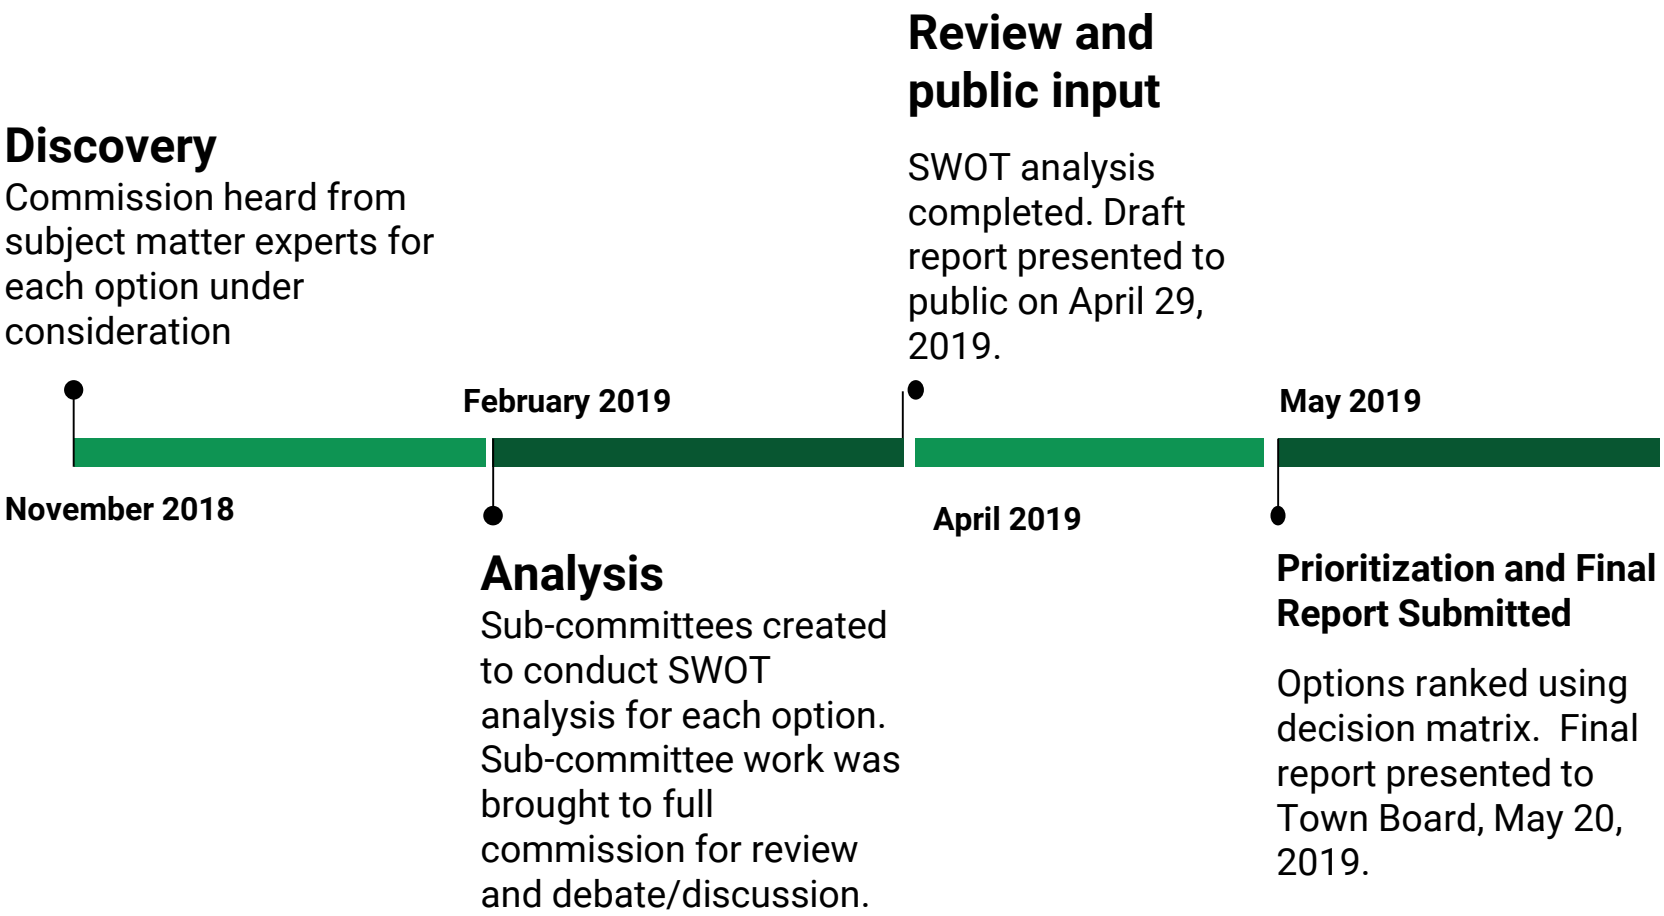
Purpose of the HEOSC

On October 15, 2018, Huntersville Commissioners established the Huntersville Educational Options Study Commission.

The Commission was established to evaluate options available to the Town of Huntersville to reduce overcrowding within the public school system in Huntersville. Those options are:

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Dividing the Charlotte Mecklenburg LEA into smaller LEAs

Process



November 2018
Discovery
Commission heard from subject matter experts for each option under consideration
February 2019
Analysis
Sub-committees created to conduct SWOT analysis for each option. Sub-committee work was brought to full commission for review and debate/discussion.
April 2019
Review and public input
SWOT analysis completed. Draft report presented to public on April 29, 2019.
May 2019
Prioritization and Final Report Submitted
Options ranked using decision matrix. Final report presented to Town Board, May 20, 2019.

Background

House Bill 514

AN ACT TO PERMIT CERTAIN TOWNS TO OPERATE CHARTER SCHOOLS

Governance Structure

- Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
- NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties

Municipal charters can prioritize enrollment to students in the municipality

Employment requirements

- Municipal charters can employ teachers provided
  - at least 50% hold teaching licenses
  - All teachers of core subjects (science, math, social studies, language arts) are college graduates
- Municipal charters can employ/discharge others to perform non-teaching duties
- Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

A RESOLUTION TO ADDRESS THE CONCERNS ABOUT PUBLIC EDUCATION IN MECKLENBURG COUNTY AS ENUMERATED BY THE MUNICIPALITIES LOCATED WITHIN MECKLENBURG COUNTY TO THE CHARLOTTE-MECKLENBURG BOARD OF EDUCATION ("Resolution") - approved by CMS BOE 10/30/18

Article II – Priority of Capital Spending in Certain Municipalities

- To ensure the Board upholds its fiduciary responsibility to the taxpayers of Mecklenburg County, the Board instructs the Superintendent to prioritize all future capital funding to projects that are located within the municipal limits of Charlotte, Davidson, and Pineville, none of which were included in North Carolina General Assembly Session Law 2018-3 ("SL 2018-3"), and are therefore are unable to create and operate their own municipal charter schools.
- Article II shall not apply to any projects already included as part of the 2017 bond package or from a bond package approved prior to 2017 that is not already completed.
- Article II does not apply to any capital needed for repairs or maintenance at any existing school located in any of the Municipalities.
- Municipalities included under SL 2018-3 may be included in this section for priority spending upon the passage of a binding resolution by their elected Board of Commissioners guaranteeing a 15-year moratorium on enacting any section of SL 2018-3.
- Any municipality that is added to the list outlined in Article II Section 1 above by taking action prescribed in Section 4 above, shall immediately be removed from consideration under this Article should it take any action that can be construed to undo any binding resolution as described in Section 4.

Capital Needs Assessment Summary - Huntersville

1. Assessing Huntersville growth only, one elementary school will be needed by 2025, two elementary schools by 2030, one middle school and one high school by 2035.
2. Huntersville school age children will need ***23 additional classrooms by 2020***, and capacity will be constrained without significant re-assignment of Charlotte students out of Huntersville schools or the equivalent of a mid-sized Charter school in Huntersville.

	Avg School Capacity	2020	2025	2030	2035
Huntersville Population					
Elementary School	776	0.3	1.3	2.2	3.5
Middle School	1093	0.1	0.4	0.6	1.0
High School	2053	0.1	0.3	0.5	0.7

	Optimal School Size	2020	2025	2030	2035
Huntersville Population					
Elementary School	700	0.3	1.4	2.4	3.9
Middle School	1100	0.1	0.4	0.6	1.0
High School	1500	0.1	0.4	0.6	1.0

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Huntersville Population	65,780			78,860			91,939			110,000		
Elementary School	3,689	-211	-11	4,422	522	26	5,156	1,256	63	6,169	2,269	113
Middle School	1,487	-50	-2	1,783	246	12	2,079	542	27	2,487	950	48
High School	2,018	-88	-4	2,419	313	16	2,820	714	36	3,374	1,268	63
Huntersville School Pop Total	7,194	-349	-17	8,624	1,081	54	10,055	2,512	126	12,030	4,487	224

Adding the under-utilization in Huntersville schools to the analysis enables Huntersville to stem the urgent need for more schools a bit longer.

Estimated Construction Cost	in millions	$0	$25	$155	$180

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

- No pushback either legislatively or legally
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - **1896 students by 2025**
  - **3327 students by 2030**
  - **5302 students by 2035**
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for North Mecklenburg schools
- Continued strain in the relationship between North Mecklenburg and CMS

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

CONS

- Ongoing concerns about overcrowding can deter economic development and expansion in the region
- Continue to fund the capital needs of CMS outside of the Lake Norman area
- No control over where CMS draws lines for student assignment. This can negatively impact property values.

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Huntersville and CMS

Option 2: Partner with CMS

Current Partnering Agreements (Joint Use Agreements)

- Alexander Middle School- 12010 Hambright Road
- Barnette Elementary School Gym- 13659 Beatties Ford Road
- Bradley Middle School- 13345 Beatties Ford Road
- Huntersville Elementary School- 200 Gilead Road
- Torrence Creek Elementary School- 14550 Ranson Road

Represents a total investment by the Town of Huntersville of $1,170,159

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.
- Less divisive – public entities working together toward a common goal of positive educational outcomes
- Potential ability to influence rubric going forward

CONS

- Uncertainty of future improvements in our area
- Long timeline to solutions or results.
- No guarantee that any future elected political entities honor any prior negotiated deals
- Differing opinions and perspectives will still be present between Huntersville and CMS
- Continued lack of local control over education

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

CONS (continued)

- Lack of firm foundation on which to build a successful partnership
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.
- Uncertainty of site selection and bond assignments based on current rubric and definitions of overcrowding
- Differing opinions on many issues make partnership challenging (e.g. capacity definition, site selection, capital project rubric, mobile classroom use).

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).
- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.
- Town of Huntersville can agree to enact a binding resolution guaranteeing a 15 year moratorium on enacting any section of SL2018-3 as outlined in the CMS Municipal Concerns Act.
- Any group of citizens can follow the traditional charter school route outside of HB 514.

Option 3: Operate a stand-alone Municipal Charter School

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Promotes local control and increases parental choice
- Operational expenses should be able to be meet the ongoing needs from local, state, and federal payments.
- Local decisions made by local leaders; better planning and cooperation with Town of Huntersville
- Prioritizes enrollment for town children
- Reduces bureaucracy, increases efficiency, and lowers administrative costs

CONS

- Risk alienating local LEA
- Law may be changed/repealed to be less favorable; (e.g. charter cap)
- Legal challenges may occur
- Uncertainty over funding and perception of double taxation
- High initial liquidity needs and upfront expenses
- Siting/land issues, inability to fund land purchases without legislative change.

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Potential to relieve overcrowded schools
- Large pool of diverse potential charter school board members in North Mecklenburg coming from various educational/workforce backgrounds

CONS

- No guarantee for Charter approval
- Estimated time frame of 3-4 years for Charter school to open
- Potential loss of magnet school options under MEAC reassignment suggestion

Option 3: Operate a stand-alone Municipal Charter School

Sources of Leverage:

- Town's financial condition and bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Operate a stand-alone Municipal Charter School

Town Board Considerations:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges

Option 3: Operate a stand-alone Municipal Charter School

Estimated Timing

- 1 year approval process after application submitted
- 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
- Total timetable 2-4 years minimum to open school
- Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Operate a stand-alone Municipal Charter School

Town Board considerations:

- Could be elongated start-up timetable, but once fully operational, becomes longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- Demonstrating best practices in options for alternatives in public education
- Could lead to increased ability to be an incubator for other charter school startups in the Lake Norman Region
- May strain relationship with local LEA

Option 4: Partner with an Existing Charter School

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school
- Avoid learning curve associated with start-up process for school

CONS

- Loss of total control over municipal sponsored charter school
- May not receive interest from preferred partner charter schools

Option 4: Partner with an Existing Charter School

Town Board considerations

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 5: Dividing the Charlotte Mecklenburg LEA into smaller LEAs

Option 5: Dividing Charlotte Mecklenburg LEA into smaller LEAs

PROS

- likely less expensive and more cost effective to operate than CMS
- property tax dollars used for education would stay local and benefit local students
- maximize money spent on education/learning instead of on educational bureaucracy
- greater parental choice, greater educational options in North Mecklenburg
- overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
- greater flexibility with curriculum and addressing concerns of parents than with CMS

CONS

- even at 30-35k students, still far above the national average school district size
- cost - (both strength and weakness) far higher than a single municipal charter, but likely still more cost-efficient than CMS
- commercial tax base less without contributions from commercial property in Charlotte, potential greater burden on North Mecklenburg homeowners
- uncertainty over costs/taxes/curriculum etc resulting in more difficulty in making the case to the public and elected officials to pursue this option

Option 5: Dividing Charlotte Mecklenburg LEA into a smaller LEAs

PROS

- More actual (not just perceived) local control of education
- More input for all stakeholders (parents, teachers, and staff)
- Studies and testimony presented support smaller districts as more efficient, while a possible North Meck LEA could still be large enough to take advantage of economies of scale
- easier access to school leadership
- more accountability of school leadership/teachers
- more permanent nature of a smaller LEA as opposed to just a single municipal charter, a smaller LEA would be a better long-term solution

CONS

- "regional" approach to education does not currently include Davidson
- potential zoning issues based on multi-jurisdictional district
- capital funding and land acquisition - still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land

Option 5: Dividing Charlotte Mecklenburg LEA into a smaller LEAs

Town Board Considerations

- Not a short term solution to overcrowding
- Will need to muster the political will to pursue
- Convincing teachers of a better teaching environment in a smaller district
- Political makeup of a new school board - more receptive / responsive to voters in North Mecklenburg
- More/better focused growth and data projections, working closer with the Town planning staff on demographics / growth trends etc
- Regional approach to education would benefit not just education, also planning efforts
- Start the dialogue statewide over what the right size of a school district size even if this option not pursued by the town (s)
- Help set the template for how this option could be replicated in other areas of the state with similar concerns

Option 5: Dividing Charlotte Mecklenburg LEA into a smaller LEA

Town Board Considerations

- Any agreement to deconsolidate must come from NCGA, which is unlikely at this time
- Education policy continues to become more partisan, not less, so any large-scale solution is unlikely
- The sheer logistics / dynamics alone for such a change to the status quo how to unwind CMS, what to do with CMS assets in North Mecklenburg, would a constitutional amendment be necessary, etc?
- Political instability - locally and in Raleigh
- Potential lawsuits - who would bear the costs?
- CMS - unlikely to cease opposition efforts to change the status quo

Decision Matrix and Recommendations

Decision Matrix

insert decision matrix

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Create a New LEA

Recommendations

Focusing on our charge as a Commission to bring recommendations based on addressing current and future capacity needs, and in consideration of input received during the April 29, 2019 Public Input meeting, the HEOSC is proposing the following:

1. Pursue the creation of a Lake Norman/North Mecklenburg LEA. This option provides the greatest opportunity for addressing the long term capacity needs of our growing community.
2. In tandem with pursuing recommendation #1, the HEOSC recommends the Town of Huntersville pursue both:
   - ➔ Opening a Municipal Charter School(s), and
   - ➔ Partnering with an Existing Charter School

The need for additional capacity is not only a long term need, but also a need in the near term. Pursuing a partnership with an existing Charter School could provide the most near term solution to capacity needs, while opening a municipal-run Charter school will provide additional capacity, but will likely take 3-4 years to open.

Appendix

Option 3: Municipal Charter School Huntersville Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Huntersville Operating Budget

MUNICIPAL CHARTER SCHOOL							Base
FYE 6/30							
ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	(1,220)	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need **$1MM+** to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035

*Assessment of capital needs based on optimal school size

Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively

Huntersville Capital Needs Assessment – LEA Option

1. Adding in the over/under-utilization of the Huntersville schools does make a material difference in the school needs for Huntersville students
2. Huntersville school age children will need one additional elementary school by 2025, 3 elementary schools, 1 middle school and 1 high school by 2035.

LEA Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County	
Cornelius Elementary	Elementary	Cornelius	780	-132	648	634	97.8%	4	0.6%	1	0.2%	7	1.1%	2	0.3%

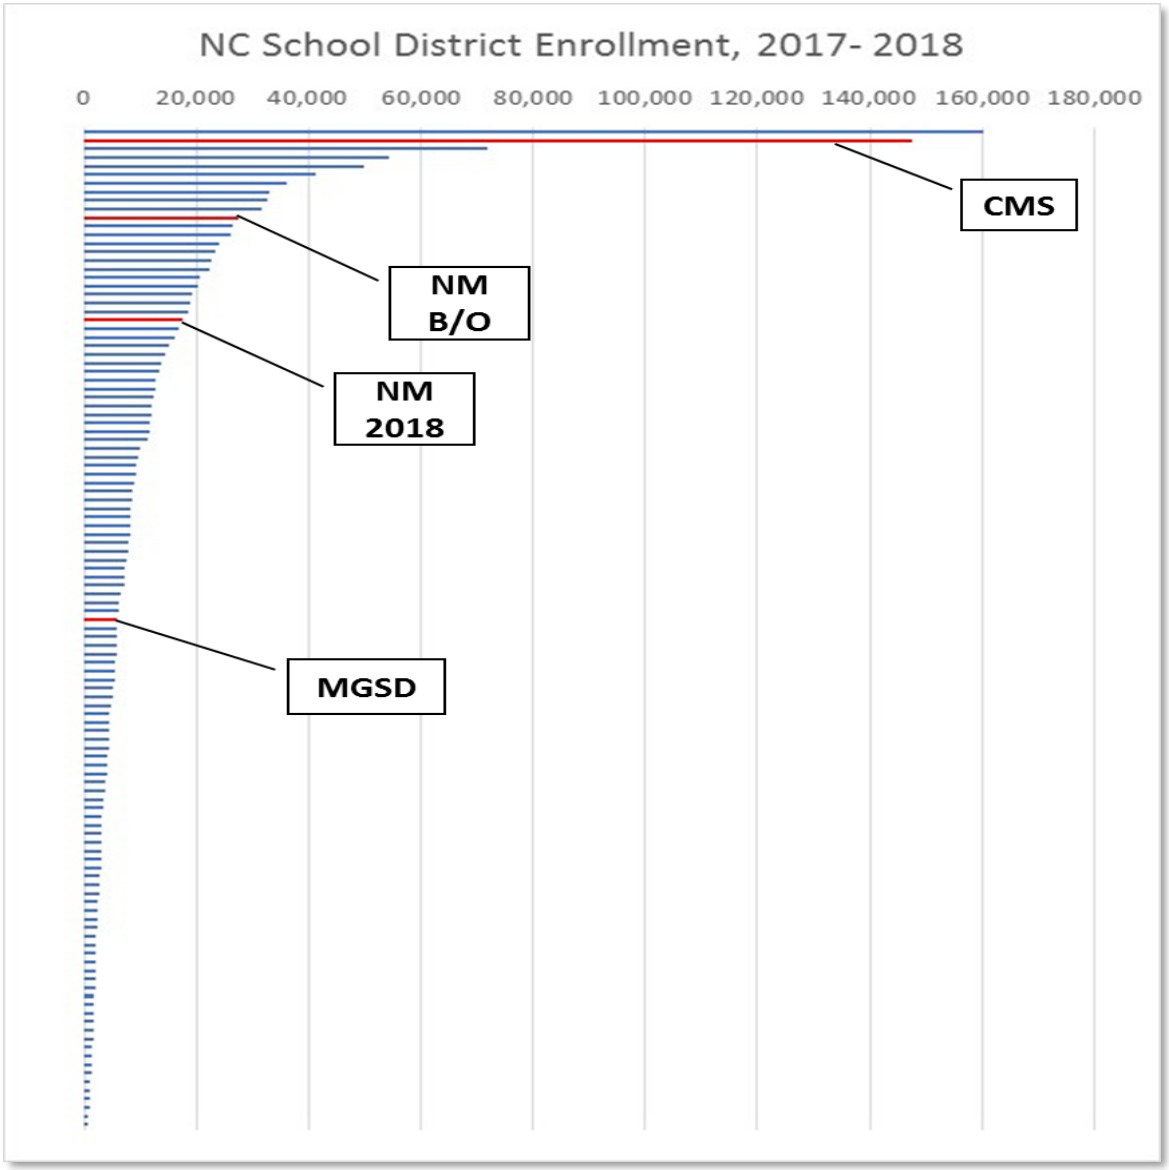
Comparison to Existing LEAs



- At current enrollment a North Meck LEA would be the 23rd largest school district in NC
- At buildout a North Meck LEA would be the 11th largest school district in NC

All,

FYI - in case you have a chance to review prior to Monday night's meeting. Thanks to our Chair and Mr. Sass for attending today. Below is a link to the FB live video of the meeting (at the CMS Board of Education page if the link below doesn't work) and I've attached the CMS slideshow.

https://www.facebook.com/529676790832620/videos/2060846930872949/?__xts__[0]=68.ARBx22y54zEdtngAaVquzhzUsFd_eg8P8bz_s1GttPMDmly7a2Yv9YV6B1LIQAXL9G-sRlbXrRNKvh97uJPYo_WzSpChkq5uBOojzeWGSkioVDipda8vdmerW9W9QM4j5oixu6fyVeVnglplY5PW9eKnEaHraARQ6yC_VJceDa95jJlt_wd0B9Hf-D91BdbmtpFfZlqiYahCOU4nGpNUPLJ-2Fwp0FgFJaRWDpElwsHOJLEU-rFfwQhm2sKRHMGe0gVY8SriT88p_qUHDidIWqyird9s1-1K9cuFeuJNI5lg81APX7baRvB6gWWgl7ooxRUKD2WeMp8atV34yBhwEm0Fi0ASJW6_DKk&__tn__=-R

Growth Trends in Mecklenburg County

MEAC Meeting – December 4, 2018

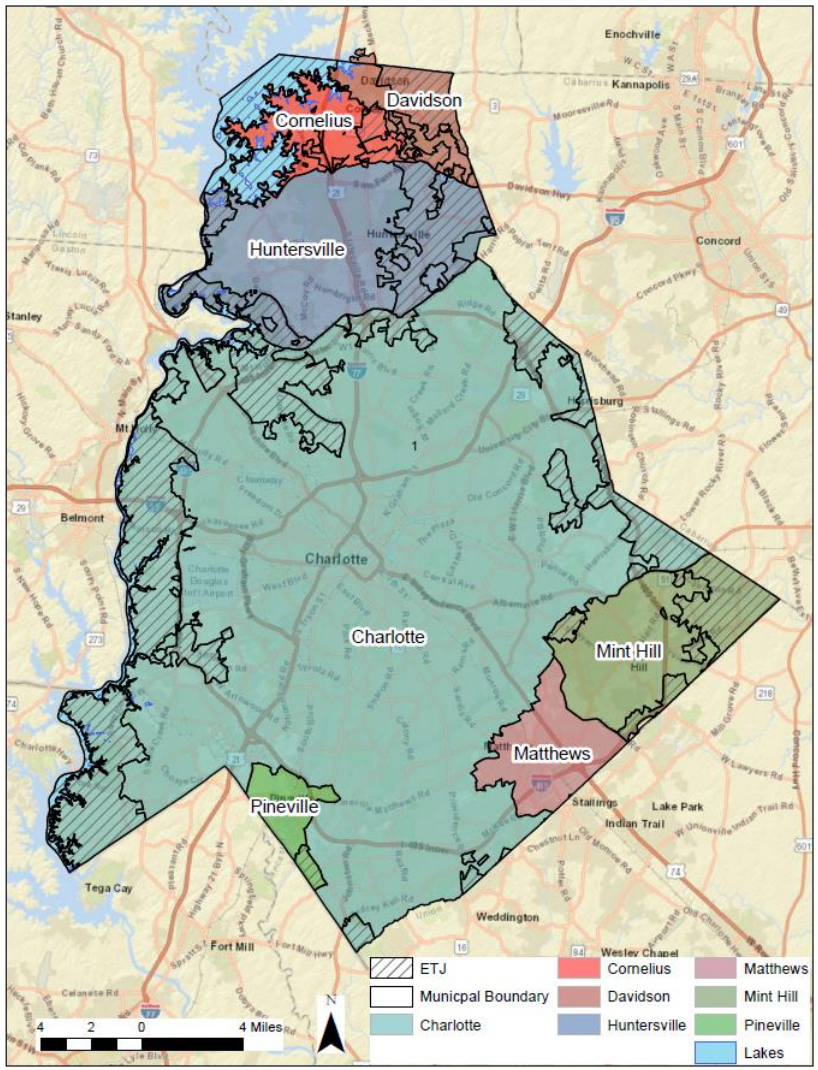
Sources & Notes

- Historic population estimates retrieved from the U.S. Census, 2010 and 2017
  - Census Bureau's Population Estimates Program – updated annually
  - Utilizes data on births, deaths, and migration to calculate population change since the most recent decennial census

- Population projections, 2015 to 2045
  - County-level population projections developed by UNC-Chapel Hill for the Metrolina Region under the auspices of the Charlotte Department of Transportation for the Metrolina Region Travel Demand Model – updated every 5 years
  - County-level population projections allocated to Traffic Analysis Zones (TAZ) by City Explained, Inc. through the Metrolina CommunityViz Model for the Charlotte Department of Transportation – updated every 5 years
  - TAZ-level population projections aggregated to municipal Spheres of Influence by Charlotte-Mecklenburg Planning Department

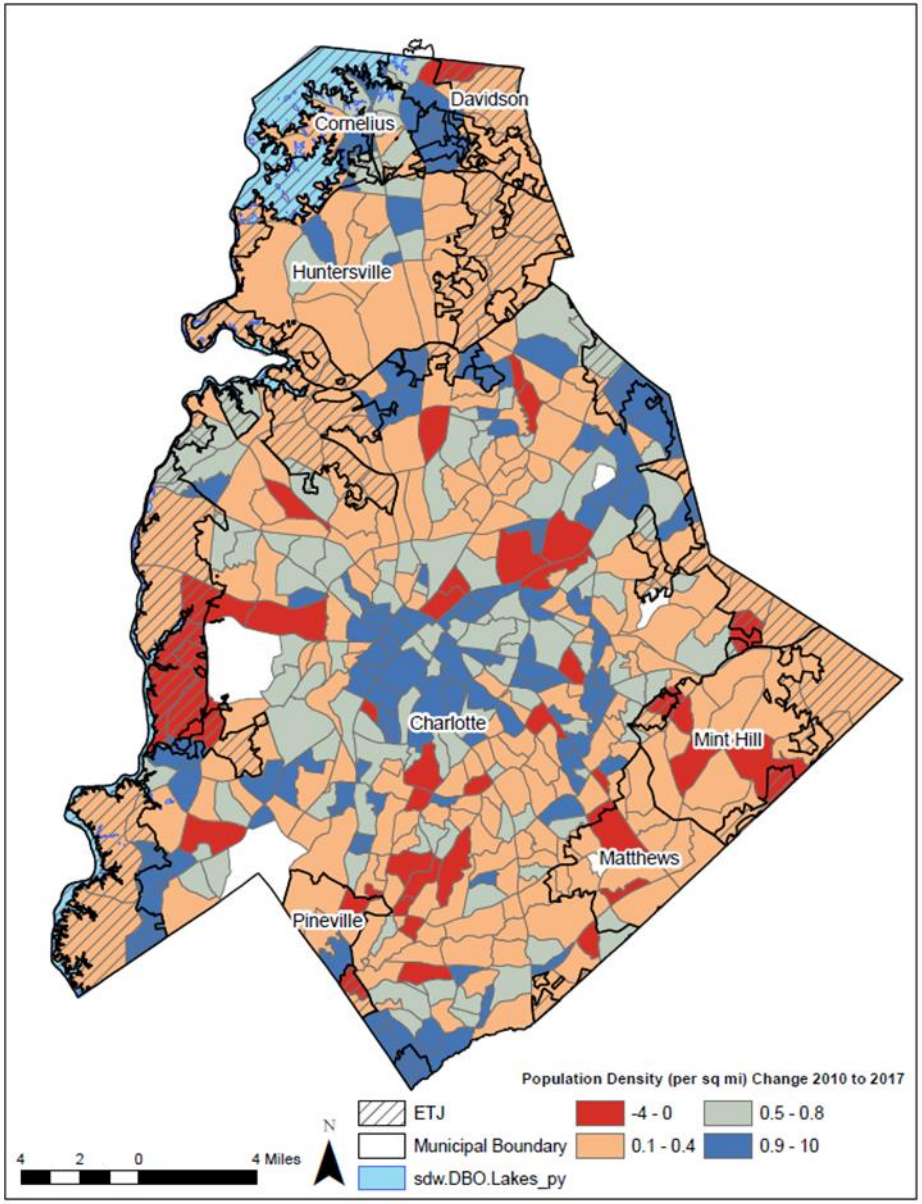
- School-age Youth / Student Enrollment
  - CommunityViz model contains build-out potential analysis for Student Enrollment – projections are for schools located within each jurisdiction
  - This analysis uses projections for total school-age youth population (ages 5 to 17, per Census age categories) by jurisdiction, regardless of school location
  - MEAC opens opportunity for increased collaboration in growth modeling

Mecklenburg County Population & Area, 2017



Jurisdiction	Land Area (sq mi)	Population 2017	% of County Total
Charlotte	307.9	859,035	79.8%
Huntersville	40.4	56,212	5.2%
Matthews	17.2	32,117	3.0%
Cornelius	12.2	29,191	2.7%
Mint Hill	24.2	26,748	2.5%
Davidson	6.2	12,684	1.2%
Pineville	6.7	8,746	0.8%
ETJ	111.8	52,104	4.8%
Mecklenburg Co	526.6	1,076,837	

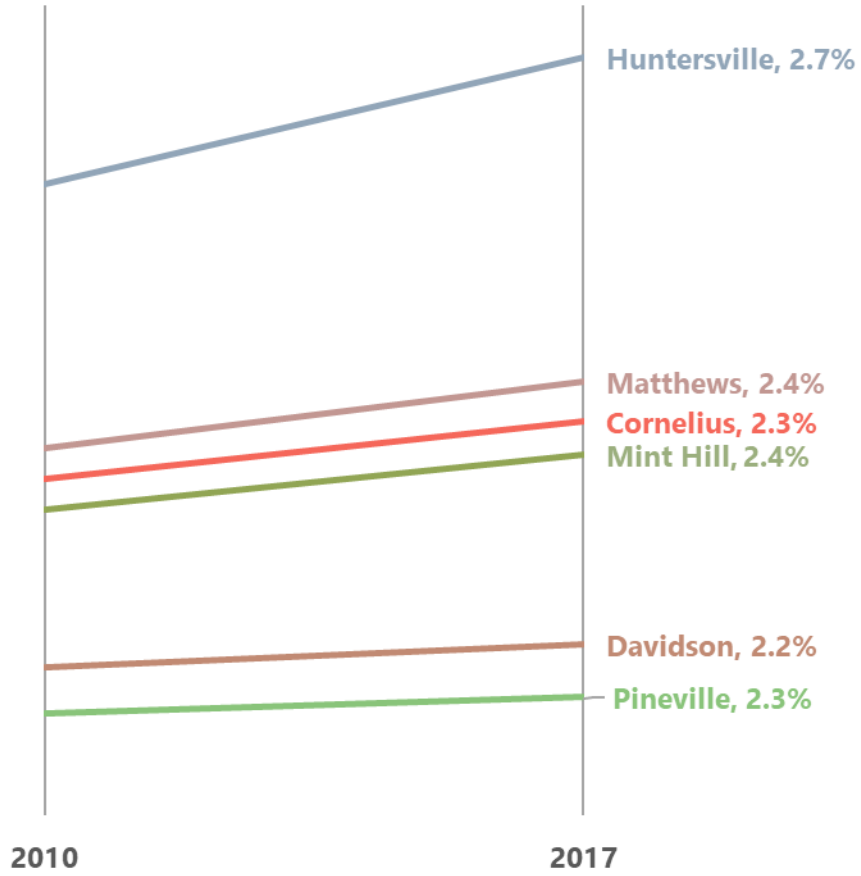
Change in Population Density, 2010 to 2017



Historic Growth by Jurisdiction, 2010 to 2017

From 2010 to 2017, the Mecklenburg County population increased by **~157,000 people** (annual growth rate of 2.3%). The annual growth rate varied slightly by municipality, from a low of **2.2% in Davidson** to a high of **2.7% in Huntersville**.

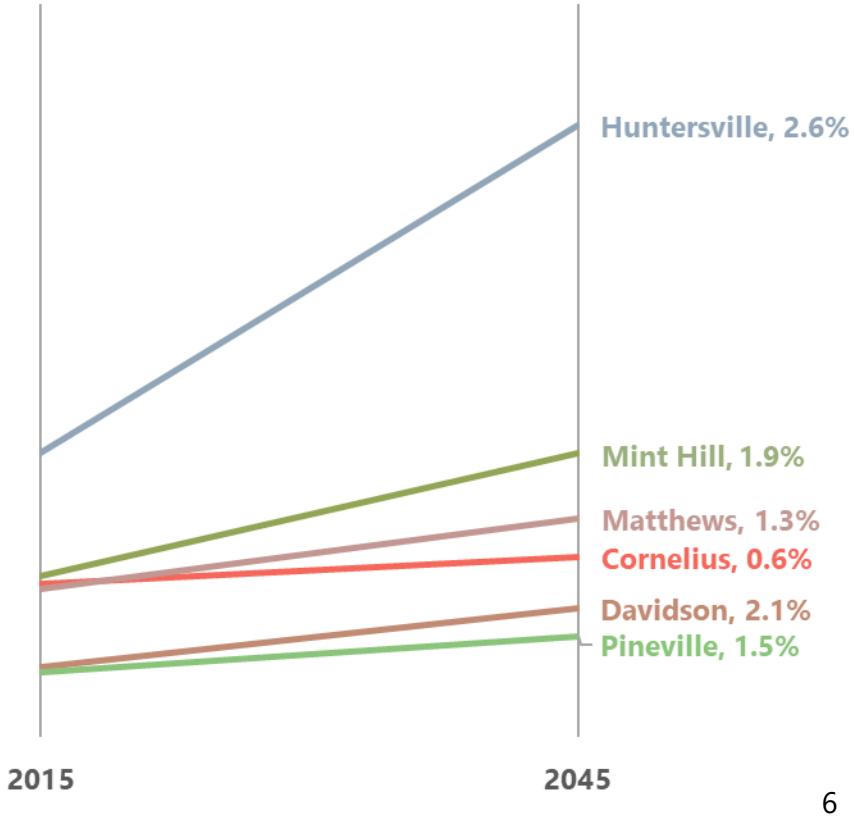
Jurisdiction	Population 2010	Population 2017	Population Change
Huntersville	46,763	56,212	9,449
Matthews	27,183	32,117	4,934
Cornelius	24,869	29,191	4,322
Mint Hill	22,655	26,748	4,093
Davidson	10,908	12,684	1,776
Pineville	7,479	8,746	1,267
Charlotte	735,688	859,035	123,347
Mecklenburg Co	919,650	1,076,837	157,187



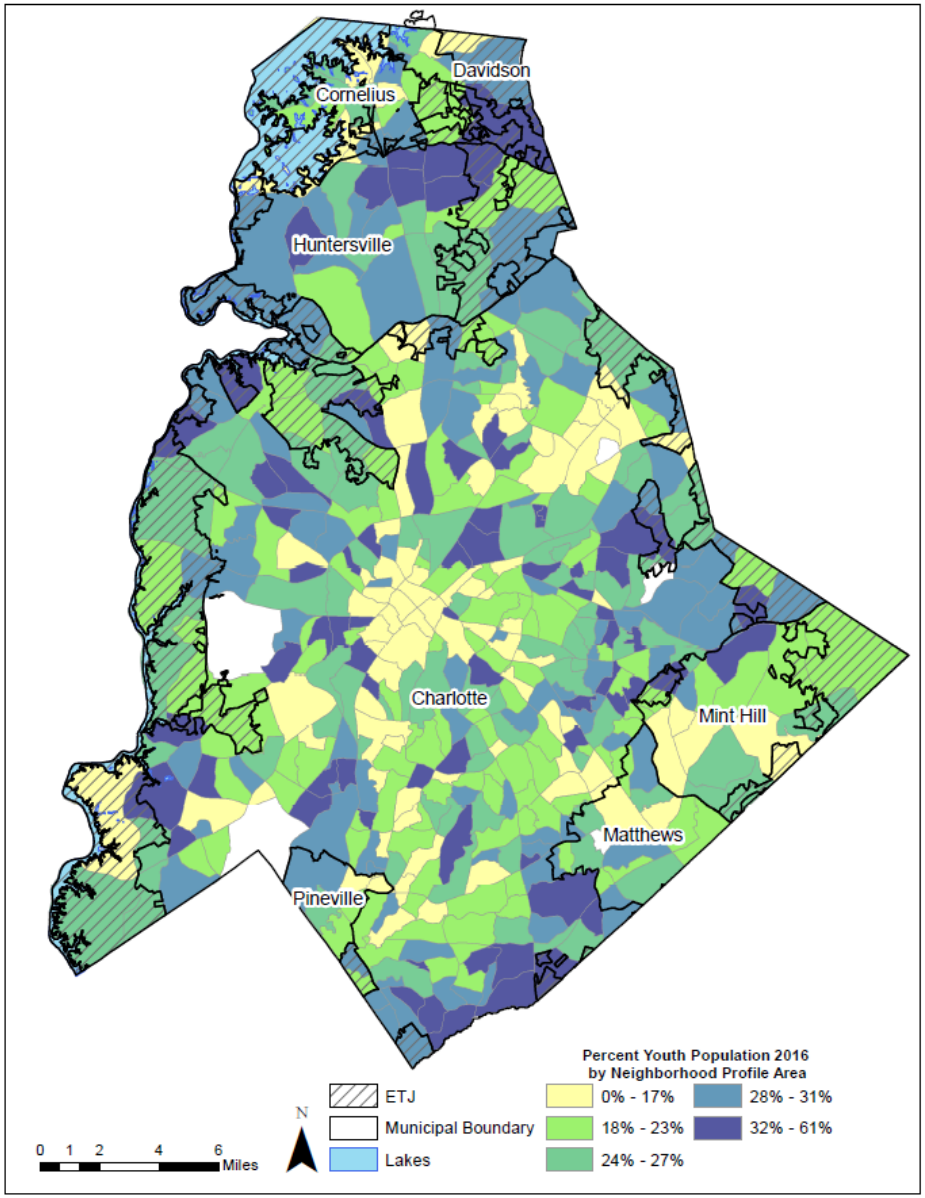
Projected Growth by Jurisdiction, 2015 to 2045

Between 2015 and 2045, the Mecklenburg County population is projected to increase by **~610,000 people** (annual growth rate of 1.6%).The annual growth rate is projected to vary by municipality, from a low of **0.6% in Cornelius** to a high of **2.6% in Huntersville**.

Jurisdiction	2015	2025	2035	2045
Huntersville	54,297	74,373	94,270	116,909
Mint Hill	30,591	38,684	46,496	54,072
Cornelius	29,150	31,403	32,979	34,406
Matthews	28,207	33,647	38,064	41,668
Davidson	13,314	17,372	20,967	24,681
Pineville	12,441	15,241	17,551	19,223
Charlotte	835,575	1,007,823	1,165,475	1,322,813
Mecklenburg Co	1,003,575	1,218,543	1,415,802	1,613,772

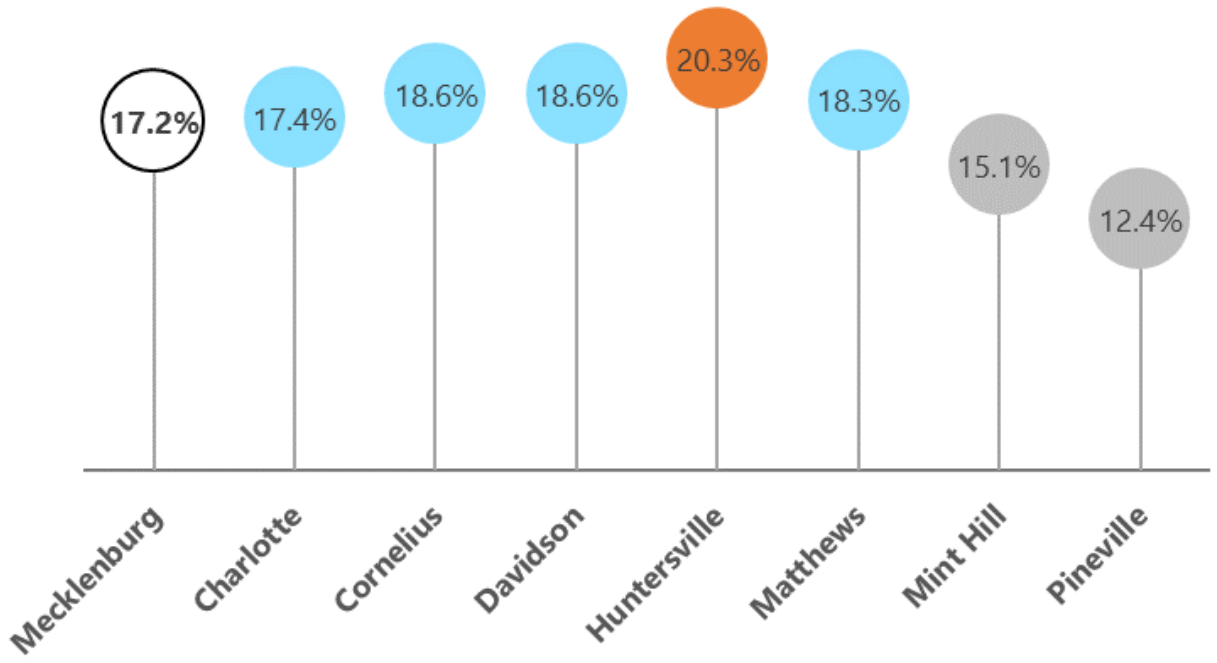


Percent Children by NPA, 2016



School-Age Youth Percentage by Jurisdiction, 2017

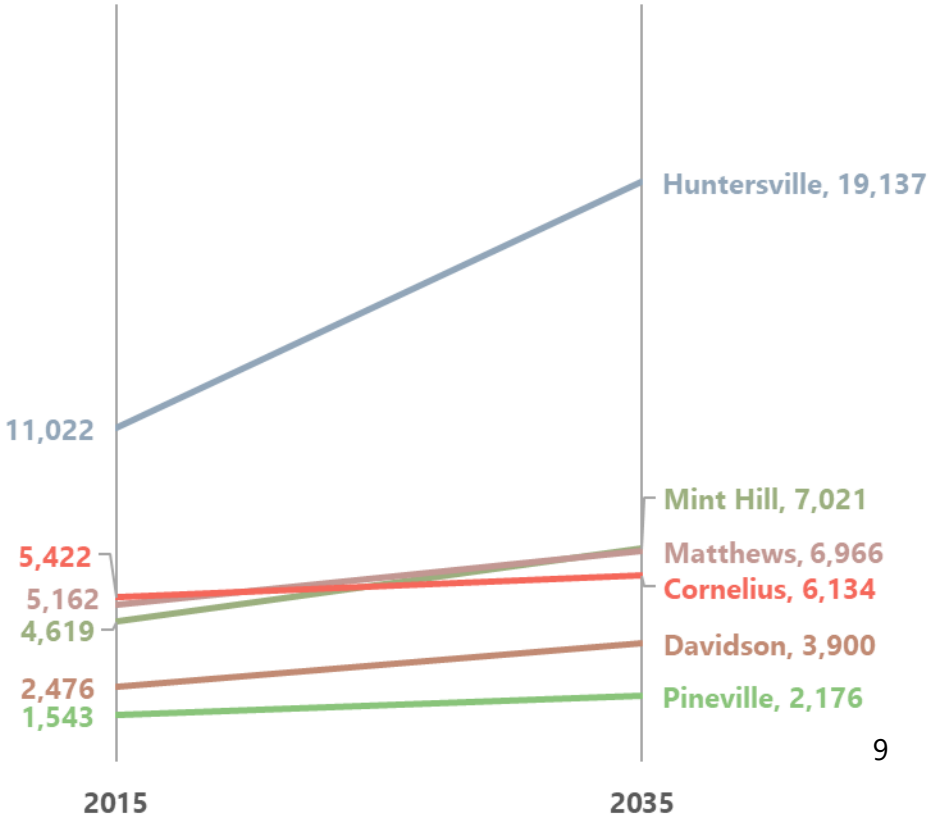
Overall in **Mecklenburg County, 17.2%** of the population are school-age youth (ages 5 to 17). Population composition varies by municipality: **Huntersville (20.3%)** has the highest percentage of school-age youth, while **Mint Hill (15.1%)** and **Pineville (12.4%)** are lower than average.



School-Age Youth Projected Growth, 2015 to 2035

Between 2015 and 2035, the total Mecklenburg County population is projected to increase by ~412,000 people. Assuming constant composition, the school-age population would grow by **~70,900** to a total of ~243,000 school-age youth. Consistent with total population, most of that growth would occur in **Charlotte (~81%)**. Growth in school-age population would range from a low of **~630 in Pineville** to a high of **~8,100 in Huntersville**.

Jurisdiction	2015	2035	Growth
Charlotte	145,390	202,793	57,403
Huntersville	11,022	19,137	8,115
Mint Hill	4,619	7,021	2,402
Matthews	5,162	6,966	1,804
Davidson	2,476	3,900	1,423
Cornelius	5,422	6,134	712
Pineville	1,543	2,176	634
Mecklenburg Co	172,615	243,518	70,903



Limitations & Opportunities

- School-age youth / student enrollment data
- Population projections – update period
- Opportunity for increased collaboration in growth modeling and coordination in capital planning

Thank You!

Subject : Follow up to your reply re: HB 514 and 229

Elaine, thanks and I am hoping you will take the time to learn about HB 229 and if you disagree please publicly let those pushing the legislation know of your request they withdraw it from committee and any further consideration on behalf of those you represent (they are like yourself Democrats so more likely to give your opinion serious consideration than say mine). You maintain the bully pulpit and are the voice for those you represent. While you are of course free to form your opinion based on principle and study of the issues you do not have the right to remain silent on the issue when you office requires you to "speak" for those you represent. Your position becomes part of the process and those who are engaged in acting as part of the process have the right to know where you stand as well. The BOCC controls nearly 1/3 or CMS's operating budget and all of their capital investment. It is that leverage, that you control on behalf of your constituents, that allows the towns and those in public education to make decisions, but only to the extent that you honor your duty and be transparent in the process.

Former Commissioner Karen Bentley and myself both spoke on behalf of the citizens of Huntersville and Cornelius when the issue of HB 514 came up and encouraged the towns to participate. We have also since then felt that the issue of education and the actions of CMS are of such importance that we continue to actively work towards change. Part of our work on behalf of the Town of Huntersville is to actively participate in the actions taken in Raleigh that impact education in our area and NOTHING has a greater potential for a positive impact than the opportunities afford by HB 514 and likewise the threat of HB 229. It is important that the town and the citizens understand where those who represent them stand so we can know how to best engage those elected in the process. So while I appreciate your rather generic support of education I would hope you would take the responsibility of leadership and let us know your personal and political opinions on these two pieces of legislation so we can be prepared with that knowledge as action in the future becomes needed. You speak of listening and transparency, both admirable in a leader, but action and resolve are what are required of those holding elected office.

It is important that those trying to set a course for the future (in this case the Huntersville and Cornelius Town Boards) know all they can about the environment in which they will make decisions and one of the most important facts toward that end is where those elected to office stand on the issues of the day. Our committee is in part gathering the facts and options available and part of that is knowing the position of those in position of impacting future slated legislation or opposition to current legislation. The chairwoman of the BOE and the Superintendent Wilcox were kind enough to meet with us and let us know their position on HB 514 and their support for HB 299, I hope you will offer us the same respect.

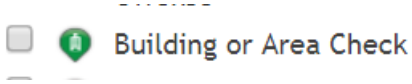
All,

When looking for Zone Check Information (Labeled HPD) you can now simply click the icon under the CAD/CFS tab labeled Building or Area Check.



This selection has been updated to now show HPD zone check information. If you have any questions please let me know.

Thank you,

Good morning Anthony,

Given the committee's work, I thought you might find this article interesting because of the history it provided, the research done, and some of the sentiment that the Board will have to consider as they make potential changes.

Good afternoon committee members, board,and staff

The school board was informed of the public records request sent by Mrs Bentley. I know staff will be providing you with a response and timeline this week.
But I also wanted to share this email thread to provide clarity because I heard it mentioned that a request had been sent to Mr Jeter and not responded to. That in fact was a false narrative. Actually the Huntersville staff person that was asked to request the info realized at 10:22pm on Monday, November 25th that she had never sent the request and it was them sent to Mr Jeter. He began working on it Tuesday and then was made aware of the request by Karen Bentley.
Please know that open and accurate communication is essential in building a strong collaborative partnership between the town and CMS. I look forward to working in that direction in the coming months

Please don't hesitate to contact me with any needs.

I hope that many of you will join us next week for the MEAC meeting December 4th at 11am in the Government Center.

Subject : FW: Contact Information for Subcommittees

I apologize for the delay in getting this information to you. Below is the contact information requested.

Reeves McGlohon
reevesmcglohon@gmail.com
PH: 704.366.3812

Dave Machado
dave.machado@dpi.nc.gov
PH: 919.807.3490

Eric Houck
eahouck@email.unc.edu
PH: 919.249.8430

Bill Brawley
bill_brawley@yahoo.com
PH: 704.574.0894

I did check on when the next MEAC meeting date is. I couldn't find a schedule online, so I checked with Charlie Jeter. According to him, they currently do not have any dates scheduled for future meetings.

If you have any questions, please let me know.

Thanks,
Janet

Subject: Contact Information for Subcommittees

Dear Anthony,

As our subcommittees begin their work this week with planning meetings, is it possible for somebody on your team to provide me (or the entire HEOSC Commission) contact information for some of the consultants you have scheduled these past few months to support our study. I am certain there will be some follow up questions many commission members may have.

Here is the group we may contact:

1. Mr. L. Reeves McGlohan
2. Mr. Dave Machado
3. Mr. Erick Houck
4.Mr. Bill Brawley

Also, will you please let me know when the next MEAC meeting will take place and the location. I would like to attend.

Thank you and your staff for the great support you all have provided!

Mike Sass

Subject: Fwd: Contact Information

Good afternoon, all.

Janet, did we ask cell numbers on the HEOSC application?

Angie, ok to release cell numbers per Dr Sass's request below?

If so, Janet, will you provide Dr. Sass the remaining cell numbers?

Thanks to all

Jackie Huffman

Subject: Cornelius Educational Options Study Commission report

Good evening, all.
Attached you will find the report developed by our colleagues in Cornelius, presented to their Town Board on April 1st. It is well done and very robust - format/content that we should emulate for our presentation to the Huntersville Town Board.

Tricia Sisson has offered to attend our meeting on the 22nd to review the report with us. Let me know if this is of interest to you and I will get her scheduled.

Take care,
Karen

CEOSC Report to Cornelius Town Board

Cornelius Education Options Study Commission

April 1, 2019

Cornelius Education Options Study Commission

- Purpose
- Needs State
- Option Evaluations

Purpose of the CEOSC

- Project the current and future facilities needs of the Cornelius and North Mecklenburg student population
- Evaluate the following 5 Options:
  1. Do Nothing
  2. Partner with CMS
  3. Open and Operate Municipal Charter School(s)
  4. Partner with an Existing Charter School
  5. Create a New LEA

Projected Enrollment

Note: no adjustment made for current enrollment over/under planned enrollment in existing N. Meck Schools

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continue with the status quo allowing CMS to solve the issue as they see fit

PROS

- No pushback either legislatively or legally
- Appeases those satisfied with current school status
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - 500+ students by 2025
  - 800+ students by 2030
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for Lake Norman schools
- Continued strain in the relationship between Lake Norman region and CMS
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Cornelius and CMS

Option 2: Partner with CMS

Current/Previous Partnering Agreements:

- 2003 Bailey Middle JUA
- 2004 Reallocation of Land Bond Dollars JUA for Hough
- 2005 Westmoreland Road Elementary(JV Washam) JUA
- 2015 Cornelius Elementary JUA

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.
- Less divisive – public entities working together toward a common goal of positive educational outcomes

CONS

- Possibility of no improvements in our area
- Long timeline to solutions or results.
- If a deal is reached, no guarantee that a newly elected board would continue to honor that deal
- Cornelius pays 4.3% of total property taxes and makes up 2.7% of the county population
- Our area only has 1/9 representation on CMS board
- Differing opinions and perspectives will still be present between Cornelius and CMS

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

CONS (continued)

- Potential loss of magnet school options under MEAC reassignment suggestion
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development.
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).
- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.
- Town of Cornelius can agree to opt out of HB 514 as requested by CMS.
- Any group of concerned citizens can follow the traditional charter school route outside of HB 514.
- Campaign to rally the court of public opinion.

Option 2: Partner with CMS

Potential Outcomes:

- Form a CMS advisory board with representation from Cornelius, Davidson and Huntersville. Consideration can also be given to creating a larger board with representation from Pineville and Matthews.

- Build relationship with the CMS school board to be a stronger advocate for the needs of our area.

- According to the Municipal Concerns Act Article III Report, a consideration for relief for Cornelius at the high school level would be to reassign 750 students to Huntersville schools. Strengthening our relationship with CMS could help accomplish this relief. Based on a planned 2000 students at Hough, it is currently at 127% capacity. This relief would bring Hough to 90% capacity, leaving room for student population growth.

- Once current overcrowding is addressed, work with CMS to create a plan to build future buildings or improve current facilities, possibly funded through COPS.

Option 2: Partner with CMS

Next Steps:

- Set up meeting with representatives from CMS, including Superintendent Dr. Wilcox.
- Work with planning board to develop list of potential sites for new schools.
- Review past and current partnerships with CMS to define parameters of future partnerships with CMS.
- Work with CMS on redrawing boundaries and district lines to better accommodate LKN municipalities. Develop a plan to communicate changes to property owners.
- Explore options to expand current buildings at Bailey and Hough to accommodate more students without modulars. Possibilities may include more classrooms, expand cafeterias or add enclosed outdoor seating, and add a new building for eight and ninth grades between Bailey and Hough.

Option 3: Municipal Charter School

- Using Current CMS North Mecklenburg boundaries

Background on House Bill 514

- Governance Structure
  - Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
  - NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties
- Municipal charters can prioritize enrollment to students in the municipality
- Employment requirements
  - Municipal charters can employ teachers provided
    - at least 50% hold teaching licenses
    - All teachers of core subjects (science, math, social studies, language arts) are college graduates
  - Municipal charters can employ/discharge others to perform non-teaching duties
  - Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School

- Estimated Timing
  - 1 year approval process after application submitted
  - 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
  - Total timetable 2-4 years minimum to open school
  - Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School Cornelius Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Cornelius Operating Budget

% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	**(1,220)**	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need $1MM+ to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Option 3: Municipal Charter School Implications

PROS

- Promotes local control and increases parental choice
- Ensures town representation
- Prioritizes enrollment for town children
- Reduces bureaucracy, increases efficiency, and lowers administrative costs
- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Alleviates overcrowding issue
- Reinforces the concept of neighborhood school

CONS

- Potentially higher costs for service delivery
- Risk alienating local LEA
- Law may be changed/repealed to be less favorable
- Legal challenges may occur
- How does Town fund initial school start up/Double Taxation
- High initial liquidity needs
- Profitability impacted by rental expense before ramp up completed

Option 3: Municipal Charter School

Sources of Leverage:

- Town bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- May strain relationship with local LEA

Option 3: Municipal Charter School

Next Steps:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Huntersville (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit citizen feedback

Option 4: Partner with an Existing Charter School

- Enter into a management agreement with an existing, established, local charter school to establish and maintain operations of an independent municipal-owned charter school

Option 4: Partner with an Existing Charter School

Partnering Criteria:

- Located in the North Mecklenburg area
- Local operations management (no outsourcing of primary business oversight)
- No less than 5-years of operations with consistent enrollment exhibiting high parental demand (i.e. wait lists that consistently exceed enrollment), and acceptable performance metrics (EOG Scores) demonstrating consistent educational success
- Acceptable learning curriculum
- Demonstrated positive operational cash flow for at least three of the most current years of operations
- Active and engaging instructional practices
- Must exhibit low/acceptable staff turnover, with Academic Director in place for at least 3-years, and instructors at or above state requirement of at least 50% teachers certified and licensed

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school

CONS

- Loss of total control over municipal sponsored Charter School
- May not receive interest from preferred partner schools

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

Option 4: Partner with Existing Charter School

Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 4: Partner with an Existing Charter School

Next Steps:

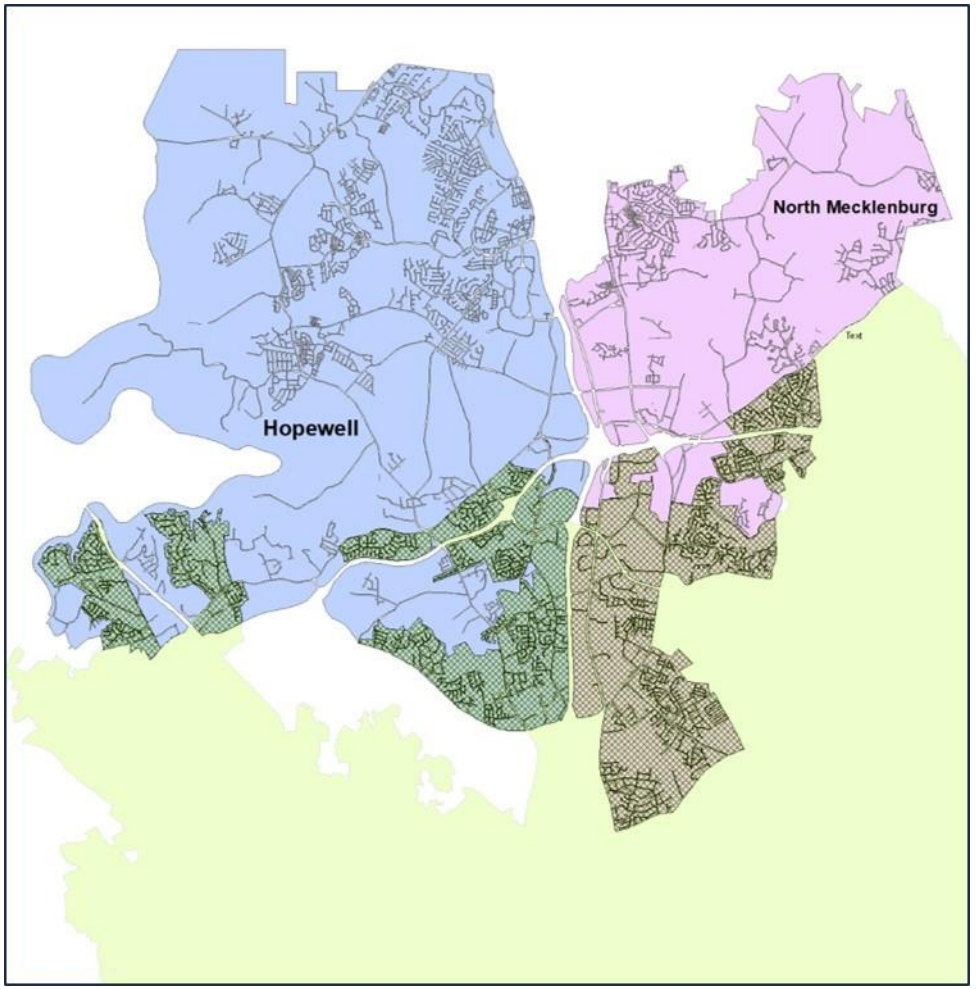
- Analyze sub-option of operating a charter satellite campus
- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Possibly partner with Huntersville (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit and review interest from local Charter School operators that meet or exceed the aforementioned requirements

Option 5: New LEA

- Using Current CMS North Mecklenburg boundaries

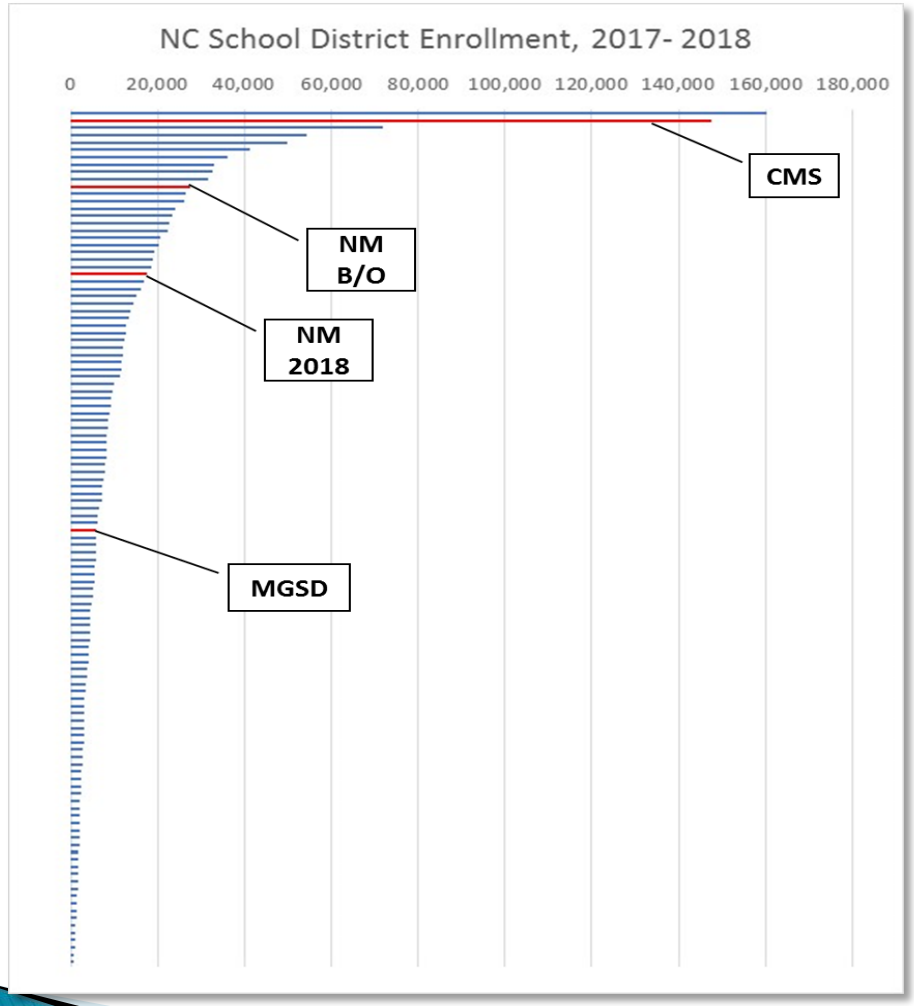
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

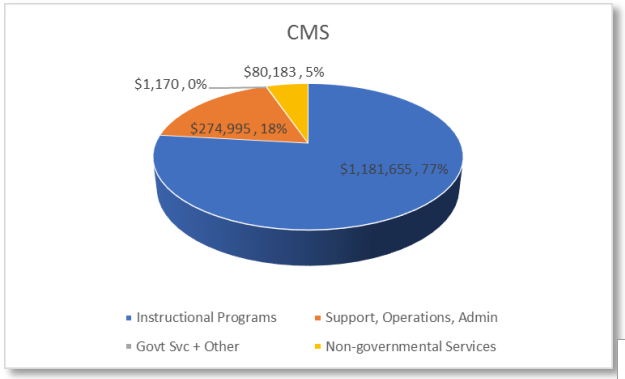
Comparison to Existing LEAs



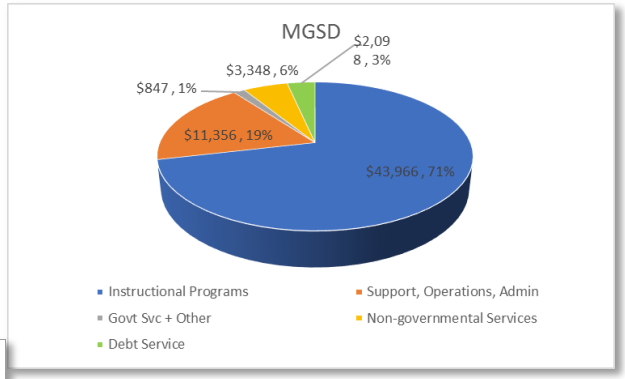
- At current enrollment a North Meck LEA would be the 23rd largest school district in NC
- At buildout a North Meck LEA would be the 11th largest school district in NC

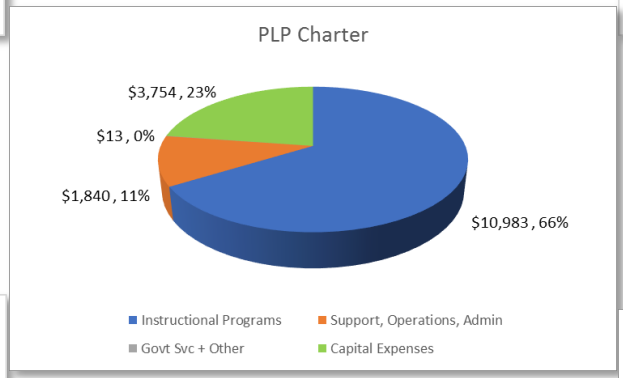
Source: "Size of Local School Districts", Joint Legislative Study

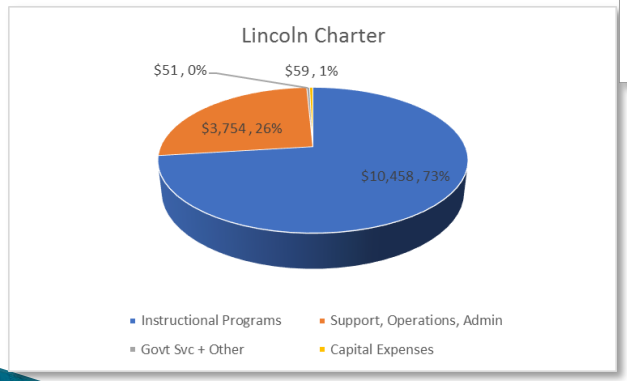
Various Cost Structures



Economies of scale not evident between MGSD & CMS







Operating strategies differ between charter schools

N. Meck Elementary Schools	-193	-10
N. Meck Middle Schools	416	21
N. Meck High Schools	500	25

Cornelius Capital Needs Assessment – LEA Option

1. Adding in the over-utilization of the Cornelius schools does make a material difference in the school needs for Cornelius students
2. Cornelius school age children will need additional schools by 2035, likely 1 elementary, 1 middle and 1 high school

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms

Rounded to whole buildings

Option 5: New LEA

PROS

- Local control
  - Capital budget
  - Student assignment
  - Taxation
  - Board representation
- Fewer bureaucratic layers
- Tailored solutions
- Greater sense of community

CONS

- Politically difficult
- Potential loss of programming breadth

Option 5: New LEA

Sources of Leverage:

- Citizen involvement

Option 5: New LEA

Potential Outcomes:

- North Meck LEA
- LKN LEA

Option 5: New LEA

Next Steps:

- Determine legal process
- Perform revenue analysis
- Engage the community with round table meetings
  - Teachers
  - Parents
- Continue to study feasibility

Summary and Next Steps

- Based on the projection of the current and future facilities needs of the Cornelius and North Mecklenburg student population, and feedback received during this meeting, the CEOSC will finalize their findings of the 5 Options available to the Town of Cornelius to address future educational needs.
  1. Do Nothing
  2. Partner with CMS
  3. Open and Operate Municipal Charter School(s)
  4. Partner with an Existing Charter School
  5. Create a New LEA

- Final report date TBD, anticipated to be May 2019

Appendix

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035

*Assessment of capital needs based on optimal school size

LED Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County

> Greetings all:
>
> I have received a lot of questions lately about our DNA practices and more specifically the costs. I wanted to give you some information about what we are doing because there are really not 'answers' about what we are doing right or wrong but rather why are we doing what we are doing. Most of the questions you get I believe originate from the fact some officers resent doing as many DNA swabs as we do, but there is a difference between DNA swabs and testing when it comes to costs. I will explain both.
>
> Larceny From Autos is our nemesis like most places. We take the extra step to require officers to swab areas where a suspect likely touched. For example, a smudge on a broken window, blood near a broken windows, the latch on a console where items were stolen, etc. It takes a few minutes but the cost is minimal to collect DNA "swabs". It is basically a cotton swab with distilled water and an evidence container. When we test DNA for a match it is about $110 so we do not automatically test anything. We do strategic testing.
>
> There are many of examples about how this would work. Let's say we found some stolen property for sale on craigslist or at a local pawn shop. We would identify the person involved and interview them and request a DNA swab (assuming their DNA is not already on file for a felony conviction). We would look at when the property was stolen and if that person is our suspect in the theft, we would test his DNA against one or two of the break-ins we had in that same area and time frame. If there is a match he would be charged will break ins that occurred during that time at that location. So instead of solving 1 case we may solve 20.
>
> Another example is if we found out through our regional detectives meetings that Agency A arrested suspects in a string of break-ins on a certain date, we would test them against our swabs on the same date after narrowing it down as much as possible to insure it is cost effective.
>
> I have sat in on the DNA training myself and it is impressive and innovative, but it is not costly or wasteful in my opinion. There is nothing we are doing that is controversial unless you feel DNA testing itself is controversial. We are certainly making the most of that technology. The only complaints I have heard is that officers do not like doing the swabs but that is a policy call and I see no reason to change it. The cheaper DNA testing gets the smarter the more effective this strategy will get.

Planning Board
Regular Planning Board Meeting Minutes
January 29, 2019 - 5:30 PM

Town Hall

A. Call to Order/Roll Call

The Chairman determined quorum, and opened the meeting.
Members Present: Jennifer Davis, Chairman, Stephen Swanick, Vice Chairman (late), Hal Bankirer, Catherine Graffy, Frank Gammon, Scott Hensley, and Joe Sailers.
Absent: Susan Thomas

B. Other Business

B.1. Work session with Town Attorney

Angela Beeker, Town Attorney, held a work session to review the Planning Board's basic role, and conflicts of interest. Discussion for the basic objectives was understanding a members' legal role under the NC General Statutes and the Town's Ordinances. The Board is an appointed public body subject to laws governing public bodies, and serves as an advisory board to the Town Board of Commissioners. The Zoning Ordinance section for members was reviewed for recommendations and consistency statements. The conflicts of interest objectives were outlined for public role vs. private role. Hypothetical examples were given and discussed with the members. It was noted how to handle conflicts, and/or perceived conflicts. The legislative decisions (i.e. Conditional Zoning, Text Amendment, Zoning Map amendment), and quasi-judicial decisions (i.e. Special Use Permit, Major Subdivision Sketch Plans) by the Town Board and heard by this Planning Board were defined. The Planning Board speaks to the Town Board through its recommendations (Motions), and the recommendations need to be complete. Member opinions and expert opinions were clarified, including voting rules and disclosures. The Town Attorney provided the members a copy of her presentation, which is attached hereto as Exhibit A, and incorporated herein by reference.

The Chairman called for a ten (10) minutes recess at the end of the work session. S. Swanick entered the meeting before the recess ended. The Chairman re-opened the meeting at 6:31 p.m., and the following comments were added prior to Approval to Minutes:

- The Chairman recognized JoAnne Miller in the audience, and thanked her for the years of service to the Planning Board.
- The Chairman noted the recent resignation of Ron Smith creating a vacant seat.
- The Chairman introduced the new ETJ member, Scott Hensley.

C. Approval of Minutes

C.1. Consider approval of the December 18, 2018 Regular Meeting Minutes

Frank Gammon made a Motion to Approve, and Joe Sailers seconded the Motion. The Motion carried unanimously (7-0).

D. Public Comments

The public comment period was opened at 6:33 p.m., and closed. There were no individuals signed up to address the Board on non-agenda items. The public comment period was reopened at 7:12 p.m. and ended at 7:40 p.m. (see Item E.5.).

E. Action Agenda

E.1. R18-12: NC-73 Driving Range - Deferral Request

Bradley Priest, Senior Planner, advised of the deferral request for Petition R18-12, a request by the property owner of 16715 and 16401 Davidson-Concord Road to rezone the property from Rural ("R") to Special Purpose Conditional District (SP-CD) to allow the development of a golf driving range on the property. Staff explained the applicant's request for a two (2) month deferral to March 26, 2019, while processing a text amendment with a Special Use Permit. The Staff Report is attached hereto has Exhibit B, and incorporated herein by reference.

J. Sailers made a Motion to Approve the deferral, as requested, to the March 26, 2019 Regular Meeting, and S. Swanick seconded the Motion. The Motion carried unanimously (7-0).

E.2. R18-10 Oak Grove Hill - Deferral Request

Joe Sailers excused himself from participation due to a conflict of interest. H. Bankirer made a Motion to excuse, and C. Graffy seconded the Motion, which carried unanimously.

Meredith Nesbitt, Senior Planner, entered the Staff Report into the record, a copy of which is attached hereto as Exhibit C, and incorporated herein by reference. Staff advised of the deferral request for R18-10, Oak Grove Hill, until March 26, 2019, at the request of the applicants, Bowman Development Group. The question about another public hearing was asked, and staff advised that additional property is being considered for direct access to Mt. Holly-Huntersville Road, and if added to the plan it will require a new public hearing.

H. Bankirer made a Motion to Approve the deferral to the March 26, 2019 Regular Meeting, and F. Gammon seconded the Motion. The Motion carried unanimously (6-0).

E.3. Oak Grove Hill Tree Save Mitigation - Deferral Request

Meredith Nesbitt, Senior Planner, advised of the deferral request until March 26, 2019.

C. Graffy made a Motion to Approve the deferral to the March 26, 2019 Regular Meeting, and S. Swanick seconded the Motion. The Motion carried unanimously (6-0).

S. Swanick made a Motion for Joe Sailers to return to the dais, and C. Graffy seconded the Motion, which was unanimous.

E.4. Tree Mitigation - Kurz Corporate Headquarters

Bradley Priest, Senior Planner, presented a request by Kurz Corporate Headquarters, to preserve less than the required amount of specimen trees at 11836 Patterson Road, and to mitigate the shortage per Article 7.4 of the Huntersville Zoning Ordinance. The Staff Report was entered into the record, and is attached hereto as Exhibit D and incorporated herein by reference. Staff explained specimen trees; 1) large trim tree 24" in caliper, and above, or 2) smaller trim tree and 12" in caliper and above. The applicant provided a tree survey that shows all trees and preservation areas. The widening of Patterson Road (a Town project) makes it questionable whether or not the trees near the future right of way can be saved. Most of the trees located in the center of the site, and to the east will have to be removed. Staff showed the calculations, and as mentioned in the Staff Report the surveyor was not able to identify the species of multiple trees, but did identify the caliper. All trees were counted as specimen trees; therefore, the numbers proposed for mitigation are worst case scenario. An arborist will go to identify the trees for an accurate number, and recalculations can be made. Staff's opinion is that the percentage to be removed will go up because the total number of specimen trees will go down. The applicant is required to save 34 trees, and they are saving 15, and will mitigate 19 specimen trees which equates to 55 replacement trees at 2.5" in caliper. The mitigation plan is to plant trees along the building, adjacent to Phase 2, and in an open area of the parking lot and west of a pond. Staff recommends approval, with conditions: shift spacing of trees away from structures, large maturing deciduous trees, no evergreen, and no American Hornbeams.

Members of the Board expressed concerns with the parking area size and capacity, and once the expansion areas were built out, including Phase 2, how the planted trees would be affected. Shaun Tooley with Land Designs explained the accommodations being planned for all infrastructure, grading, and future construction, and tree plantings. The existing and mitigated trees will be protected during construction. There was a discussion about evergreen trees and staff explained the condition for no evergreen trees due to the lack of its spread. The intention of the mitigation ordinance is to replace the canopy that is being removed, and most of what is being removed are large maturing canopy trees such as oaks. Frank Wenz with Kurz advised the members that construction will begin shortly, and Phase 2 will be in 5-8 years depending on business. A discussion of a surveyor and tree survey was made. Staff clarified that a qualified professional is acceptable for a tree survey, and a sealed plan by a NC certified surveyor is acceptable. Mr. Tooley reiterated that the tree survey has been made and the caliper of the trees have been identified. An arborist will only identify the trees, and the applicant is not expecting more mitigation to be required. It is expected to be closer to saving 25% of the 30% requirement. The plan will remain similar to what is currently presented. A question was made as to staff following the ordinance, and staff read the ordinance, and clarified that all staff needs is the type of tree from the arborist to identify if the tree is a large or small specimen tree, or not.

J. Sailers made a Motion to Approve the mitigation plan as recommended by staff with conditions: shift spacing of trees away from structures, large maturing deciduous trees, and no evergreen, and no American Hornbeams.

H. Bankirer expressed his concerns with the action, and suggested to amend the Motion to no change from 55 trees. S. Swanick clarified that the total numbers of trees will not change, and C. Graffy suggested to hold the applicant to 55 trees, regardless if they are mitigation trees, or not. Staff noted that what is shown on the tree plan is what the applicant will plant. Other members expressed their concerns for mitigation being open-ended. Joe Sailers Amended Motion to Approve to include that there will be no fewer than 55 mitigation trees planted on the site, and S. Swanick seconded the Amended Motion. The Amended Motion carried unanimously (7-0).

E.5. R18-15: Northbrook Rezoning Request by Lennar Carolinas, LLC

Scott Hensley excused himself from participation due to a potentially perceived conflict of interest. H. Bankirer made a Motion to excuse, and F. Gammon seconded the Motion, which carried unanimously.

Prior to staff presentation of Item E.5., and in accordance with the Rules of Procedure, the Chairman called the following individuals for public comments:

1. Adam Brotherton, 12321 McCord Road, in favor. Mr. Brotherton expressed his support for the development. The houses have been reduced and commercial zoning is still along NC73 where it belongs. He felt infrastructure will be made to support the development by putting in a road from McCord to NC73, and felt it will boost the commercial by having access to the residential homes. The development will provide commercial services and employment opportunities, and offer pedestrian and bicycle options with a walking path by the creek. The 2030 Plan is a guide, and the Small Area Plan suggests a transition area between TR and commercial along 73. There is ample supply of land for office, industrial, and retail development in Huntersville.

2. Robyn Hahn, 11930 Sam Furr Road, in favor. Mrs. Hahn spoke of being a long time resident. When they purchased their home it was built for retirement with a small farm, gardening, and orchard. She expressed that Lennar has gone the extra mile to incorporate into the existing community something that flows and transitions. There is still the business part at the beginning of their property with neighbors on the other end, which is their preference.

3. Faye McConnell, 11920 Sam Furr Road, in favor. She is an adjacent property owner, and noted the residences on McCord Road and Ramah Church Road. She did not think commercial business should be in her neighborhood.

4. Rebecca Landman, 12118 Olsten Lane, opposed. She felt that continuing to add residences is wrong. Her concern was with school overcrowding. There is not a large number of schools to choose from. Charters are on a lottery, and parents are responsible for transportation, which is not an option for her family. Private schools are sometime unattainable for many families, which leaves public

schools. The continuous development of Huntersville is not a responsible choice. It adds strain on the schools, and roads.

5. Nancy Cecil, Cobbleview Lane, opposed. She expressed her concerns of opposition with the following reasons. The parcel are zoned CB, which is now not in the plan. CB is in the long term plan and should remain, and not change unless the community re-drafts a new plan. Serious consequences are being experienced already with road congestion, school overcrowding, higher density residential development, overcasting the infrastructure, and disregard for the environment. Clearing trees and paying mitigation fees is disrespectful to the environment and impacts the quality of life. The need for maintaining commercial business is important to the Town's economy. The small number of people who attended the public hearing and supported the zoning change to residential did not speak to these community concerns mentioned. They don't want warehouses, and neither does she. There is much more appropriate business that would bring employment to Huntersville as CB. The opposed brings important reasons; traffic congestion and quality of life as well as a number of other items. The NC73 meeting delayed the improvements for one year for a start date. No one is in favor of more road congestion, and the present congestion we already have. She requested that a vote be considered carefully, and that it will bring benefits to the residents and respects the long term plan, the strategic economic development plan, and the concern for school overcrowding. She added to follow the Planning staff recommendations.

6. Stacey Cachat, 15912 Lavenham Road, opposed. She works for a Walmart developer, and wanted to make sure the Town isn't being short-changed by the developer. The land that she works with is highly regulated for use. She explained the process and length of time (up to 24 months), and traffic study submissions. She is worried about the traffic studies submitted to the Town, and if they are incorporating all of the approved development. She encouraged the members to have a full understanding of what is already approved, what is in the pipeline, and this is just an addition. She expressed her concerns for traffic issues in the area, and does not want to add to it but be strategic. Schools have a major problem with overcrowding. She encouraged to members to have all the information and use the best and highest use for the Town and the people that live here.

7. Gay Stevens-Fragale, 15814 Hollingbourne Road, opposed. She expressed her opposition and stated it was reckless and irresponsible development that has taken place in Huntersville. The hope is that the recommendation be made consistent with the 30 year Plan and in the best interests of all owners, not just one land owner in the market to sell. The development was described as pushing a square peg into a round hole. There is no benefit. She felt it was unacceptable that Town Officials vote against Planning Board recommendations, staff recommendations, and that the impact of overdevelopment is being ignored when it comes to roads, schools, hospitals and first responders. It is unacceptable for elected Officials to resort to scare tactics to garner irresponsible votes as far as rezoning, and to dismiss the 30 year Plan as just a guide. Right decisions are not

being made when it comes to the growth of Huntersville. Infrastructure is important and behind.

8. Andrew Liberacki, 12311 Braeloch Court, opposed. He has not seen a lot of reasoning as to why this will be a good benefit to the Town, and neighbors to the property don't want warehouses in their backyard. In the 2030 Plan, and other staff recommendations, it doesn't seem like a good investment in the Town's long term future to make the rezoning now. There are not a lot of positives.

9. Kevin Short, 12100 McCord Road, opposed. When moved here it was known that across the street was commercial. It was rural and farm-like. The streets are overwhelmed, and he expressed his concern for the first responders. He is all for the property staying commercial, and will serve the Town best in the long term. He expressed his concern for Lennar putting a road in front of his house. Lennar did not invite him to meetings and he is across the street from the site. He received a phone call after the fact. He felt there were deceitful things going on as far as how Lennar was approaching things. He want to leave the property commercial, and serve the Town's best interest long term. The things that people moved here for are being destroyed by building too much, and without infrastructure.

10. Ken Chelcun, 12010 McCord Road, opposed. He stated he placed his trust in the Planning staff and Board to reject the request. He expressed his opinion about property revenues and taxes versus expenditures incurred for Police, Fire, and Parks & Rec to support the properties. Huntersville needs a higher revenue in jobs in CB to offset the out of control commuter housing tax burdens. There are a handful of neighbors that have been scared into lovely warehouses and trucking on McCord Road. He has spoken with 28 neighbors that do not want more housing sprawl. His property is highly impacted by the rezoning and development. He currently sees the Huntersville Hardwood buildings and hears the kiln blowers all night, but knew that when purchased his house. There is no new CB development that can be worse than what is already there. He believes there are great CB occupants that will provide jobs, essential services, and support the tax base that will greatly benefit the surrounding communities. He requested to vote no on the request.

11. Ed Cecil, Cobbleview Lane, opposed. He said that TR is better than NR; however, he does not accept the request from CB to TR. There is a necessity and importance of CB for the Town. The 2030 Plan and the Strategic Economic Plan are both important and should be followed, and neither can be ignored just for the benefit of developers. Schools are overcrowded. Roads are congested. Delays in NC73 construction. No commuter train. Lack of infrastructure, adequate police, and fire, as well as 6,700 homes already approved. CB brings good paying jobs and higher tax base compared to residential. This is not about Lennar and a project, it is about Huntersville and its people. Government exists to protect its citizens, not to do whatever any developer wants done. A zone change will have a clear negative impact on the Town, its citizens, and all future matters coming for residential building. The Board and Commissioners have the right and power to deny zoning changes to halt rampant development. The original character of

Huntersville must be maintained. Mr. Cecil felt that taking zoning away from CB is not in the public interest, and the Planning department has recommended denial. He read an email letter from Don Shue, owner of Soil Supply, concerning his opposition to the rezoning.

Meredith Nesbitt, Senior Planner, presented the request to rezone +/- 81.69 acres north of McCord Road (east of the Huntersville Hardwoods, Inc. site) from Corporate Business (CB) to Transitional Residential – Conditional District (TR-CD). There is a portion of the project that will remain CB (21.84 acres). The Staff Report was entered into the record, and is attached hereto as Exhibit E, and incorporated herein by reference. There are 122 single family lots being proposed, which makes the density 1.49 and is in keeping with the TR zone. The block length, Urban Open Space, tree preservation, buffers, lots sizes and widths, are being met, which is referenced in the Staff Report. The applicant has proposed a mini-round-a-bout on the connector from NC73 to McCord, and have addressed the curve radius. The turn arounds have been changed to hammerhead designs. There are stubs included to facilitate future connectivity, and a proposed connection on McCord Road and NC73. NCDOT has posted a public workshop for the future widening of NC73 (a State funded project), and staff is concerned with the controlled access planned by NCDOT. Staff requests that the Planning Board and applicant consider a deferral for discussions with NCDOT for alternative solutions, if needed. If access is not granted on NC73, the TIA may need to be revised. NCDOT is not opposed to access, but where the access would be may affect the site plan. Staff recommends denial, because it is not consistent with Policies ED-1 and ED-2 of the Huntersville 2030 Community Plan, the Strategic Economic Development Plan, and because of the negative impact on public facilities (school capacity). Additionally, staff would recommend a continuation so that the access on NC73 can be discussed.

The applicant was asked if a deferral was agreeable. Susan Irvin, Attorney at Law, representing Lennar, the applicant, stated that numerous conversations had been made that day with staff, and NCDOT. An email was received by NCDOT, a copy of which is attached hereto as Exhibit F, and incorporated herein by reference. The plans presented by NCDOT last night were the first conceptual plans for widening, and are very preliminary and will change. The applicant is willing to agree to a condition on the plan to coordinate with NCDOT on any location and design for the connection. As a practical matter, that is what happens during construction drawings, and after the conceptual zoning plan is approved. A one or two month delay will not accomplish anything. The timeline on this plan has evolved. It started in 2017 with 300 homes, and have met with the community. There was a show of hands at the last meeting from a bulk of people present that will support the TR. The applicant wants to proceed with the plan, and will not agree to defer.

Jack Simoneau, Planning Director, addressed a member's question about the NC73 project by explaining acquisitions and construction start dates (2023). Other questions and concerns were made for the NC73 connection, and staff explained how this can affect the layout of the site plan, and there is no guarantee that NCDOT will allow the applicant a connection; however, NCDOT is not

opposed, but a driveway permit has not been issued. Staff wants more discussion with the applicant and NCDOT to have a better feel of the flexibility of the current plan and where the access point will be. Jack Simoneau indicated that this issue will not be resolved within the next few months, and pointed out the U-turns on the NC73 plans, which cannot accommodate an access in its proximity. Either the U-turn or the access will need to be moved. Mr. Simoneau described the process of a rezoning plan, a subdivision sketch plan, and construction drawings.

Members of the Planning Board raised concerns of the APF (Adequate Public Facility). Staff informed the members that every subdivision is cumulative, and Fire vehicles and stations, Police vehicles and stations, and Park and Rec facilities are being tracked. It was further noted that within the past 2-3 years an APF has not required additional resources. Staff responded that the Town Board is using the numbers from the APFO in adding vehicles and/or officers and fire personnel. It was suggested that the Board consider a Motion to request the Town Board to charge Planning Staff to review the ordinance for APF.

J. Sailers made a Motion to Deny. In considering the proposed rezoning request Petition R18-15, Northbrook, the Planning Board finds that the rezoning request is not consistent with the Town's 2030 Community Plan, and applicable long range plans. It is recommend to deny because the proposed rezoning is not in keeping with Policy ED-1 and ED-2 of the 2030 Plan, and the Management of Real Estate Assets Object #1 of the Economic Development Plan, and that is adversely effects the schools relative to Article 11.4.7(e). S. Swanick seconded the Motion. Members expressed their individual opinions on the rezoning, concerns with school overcrowding, adequate public facilities, the current commercial zoning, and supporting the denial. The Motion carried unanimously (6-0).

S. Swanick made a Motion for Scott Hensley to return to the dais, and Jennifer Davis seconded the Motion, which was unanimous.

H. Bankirer made a separate Motion to request that the Town Board of Commissioners charge the Planning staff, with Planning Board members included, to examine the calculations, methodology and requirements for the Adequate Public Facility Ordinance, to recognize the increasing density and demands upon the Town. J. Sailers seconded the Motion, and added the two (2) Planning Board volunteers (Bankirer and Hensley), if created. The vote was unanimous (7-0).

F. Adjourn

Approved this 26th day of February 2019.

It's my understanding Room 2014 in Cornelius doesn't have A/V capabilities. Do we have a streaming option planned for Monday night's meeting? If not, I can request Anthony Roberts bring the iPad the town used to stream meetings prior to our new A/V system being set up.

Thanks,

Eric Rowell

The February 11 HEOSC meeting will be a joint meeting with Cornelius. The meeting will be held at Cornelius Town Hall, Room 204, at 6:30 p.m. The agenda will be sent to you this week.

If you have any questions, please let me know.

I hope this email finds you well and that yours was an enjoyable weekend. I wanted to follow up on our discussion from Friday regarding the dispatch contract as it relates to the ETJ. While, I maintain the position that the ETJ and dispatch contracts should not be connected, I wanted to make you aware of our efforts to resolve the dispatch contract numbers. My department has been reaching out to CMPD reference the need to renegotiate the dispatch contract since August 2016. We have a series of emails and voicemails relating to this issue that I can provide if you would like. Just like in the ETJ situation, CMPD has been very slow to respond and they did not give an initial proposed cost until February 2017 (well after the December 31 deadline required by contract).

The proposed new dispatch contract cost was based on calculations that included more than 30,000 zone checks as calls for service. These zone checks were self-initiated by HPD officers, were not logged or monitored by and required no work by CMPD call takers or dispatchers. HPD disagreed with CMPD's calculations and asked that they consider backing the zone checks out. On March 2, my Major sent CMPD Deputy Chief Graue the below email and, with the exception of acknowledging that she received the email, we have not received a response.

The cost for dispatch services under the existing contract which we have paid for the last five years is $276,000 annually. The cost under the proposed contact is $689,000 annually which represents a 150% increase. If $689,000 is their final proposal, CMPD should indicate this and I will take it to my Board for further guidance and direction. It is unlikely that my Board will accept this proposal knowing that more than 30,000 zone checks are included in the calculation. We are currently considering other options for contract dispatch services, some of which include Cornelius, Concord and Mooresville.

I hope that the above information is helpful as we work through the very important issue. Please don't hesitate to contact me if you need additional information or if I can be of further assistance.

> On Monday, February 27th, I presented the Chief with the draft contract for dispatch services and discussed the details of our meeting. While we were anticipating some increase, he too was taken aback by the size of the increase. While we are still evaluating the proposed agreement, the Chief has indicated that it is very unlikely that we would be able to move forward with a new contract at the cost projections given in your first proposal.
>
> Chief Spruill has asked that you consider eliminating Zone Checks from the total number of calls for service generated by Huntersville Police Department. Our review of CAD data shows that CMPD Dispatch was only involved in the processing of 34,632 of Huntersville's 2016 calls for service.

The remaining 33,839 calls for service involved Zone Checks that were self-initiated and handled solely by Huntersville officers via their mobile data terminal. These calls for service were not routed through or processed by CMPD dispatch. Since the zone checks did not involve CMPD dispatchers and created no additional workload for them, Huntersville requests that they be subtracted from the total number of calls for service used to calculate the new cost for contract dispatch services.

Examples of Zone Checks that did not involve CMPD dispatch are listed in the email below.

Huntersville 2016 Calls For Service
HPD Zone Check: 33,839

Examples:
CMPD Dispatch Created Call:
cid:image001.jpg@01D29364.2B4A54B0

HPD Zone Check:
cid:image002.jpg@01D29364.2B4A54B0

Major Difference:
When looking at the call the CMPD created call shows a CADPD for the Terminal as well as Calltaker ID.
When looking at the call the HPD Zone Check created call shows 92 for the Terminal as well as the Calltaker ID.

With Out HPD Zone Checks.
If you remove the HPD created calls which did not use the CMPD Dispatch from the raw I-Net total, CMPD Dispatch created roughly 34,632 Calls For Service.

Thank you

Any realtor you know should be worried. Ask anyone who was around trying to peddle homes in the late 90's for what you are going to see in the future. Any home in Huntersville now assigned to Hough just lost about 10% in value just on the speculation and once the reassignments start will see more like 30%. If I was a business looking to relocate you couldn't pay me enough to come to north Mecklenburg

My general thoughts on the action from Cornelius, in the end this gives away all leverage North Mecklenburg has with CMS. Best news for Iredell county in decades. I would expect CMS to push hard to get HB514 repealed since the towns took no action and we go back to being part of the big socio economic mid-point school plan CMS has had for years. Might be good in the short run for Cornelius but bad for area in the end. Screws Huntersville. What you end up with is that what is happening along Harris Blvd moves up into Huntersville proper and soon Cornelius finds crime and a lowering of the economic demographic now just south of them. In 30 years all of N. Meck with perhaps Davidson just enveloped by Charlotte. The new River District being planned by Charlotte between river and airport will move what has traditionally been "west Charlotte" north and the issues that come with that movement starts to bleed into the northern communities. As for those who hate charter schools likely to see more and more for profit schools in our area and that is not the best option. Oh well.

Subject:

In the end the towns have decided that the CMS board of education which chose NOT to provide funding for schools in the last bond package and then directed staff to NOT plan for schools are the best people to provide for the future. For you parents happy today I hope you are happy tomorrow. If you have children in elementary school and you realize that as they grow older they will be joined by 10,500 MORE kids over the next 15 years with NO new schools in the pipeline I hope you are comfortable, when the people who live in Huntersville realize that all new construction is slated for SOUTH of Huntersville. In the near future current residents will realize that as people seek to move here and google schools they will find that there are none coming, and will seek neighborhoods that have schools (like Iredell, Gaston, Lincoln counties) and the values of current neighborhoods will be suppressed as those areas see values rise, as the continued growth of apartments grows from the plans made years ago to gain populations along the railway for the train that will NEVER come (the next one is going to Belmont) you will find your property values stunted. Congratulations the towns have decided to leave thier futures in the hands of CMS. Those who foolishly make decisions based on the circumstances of today are destined to pay the price for lack of planning based on future projections. Leadership is about being AHEAD of the issues not kowtowing to a vocal minority who are only concerned about today. Samuel Adams said it best regarding those who didn't want to rock the boat or upset those in charge during the revolution, "If ye love wealth better than liberty, the tranquility of servitude better than the animating contest of freedom, go home from us in peace. We ask not your counsels or arms. Crouch down and lick the hands which feed you. May your chains set lightly upon you, and may posterity forget that ye were our countrymen". Just like the transit tax we pay for a train that will never come, just like the congestion due to density of apartments needed for the train that will never come, just like the toll road rather than the general purpose lanes we paid for with gas taxes for 30 years sleep comfortable in the knowledge that CMS and those answering to the powers that be in downtown Charlotte will take care of you in the future and no need for local leadership to plan ahead.

Tricia,

Thanks again for your help tonight with the draft report. Please see attached the email and draft article from Dr. Houck. I am still in the process of reviewing, but wanted to share with the Cornelius group as well in case his article can be of assistance in preparing your final report. Please respect Dr. Houck's wishes and don't discuss the article publicly since it is still a draft.

Regards,

Eric Rowell

Hi Eric:

Thank you for reaching out. Sorry for the delayed response. I regret not being able to present and speak with the group.

My article in the PJE is still "in press" - due out this fall. I'm happy to share a draft with you (attached) and answer questions about it; however, I'd appreciate it if the committee would refrain from discussing the article in media interviews, etc. to the extent possible.

In general, we find, using a national dataset, that districts that remove themselves from larger districts gain a financial advantage: they see increases in local revenue that more than compensate for decreases in federal revenue. In general, state revenue also increases. They are also more racially homogeneous. My coauthor and I do not necessarily see this as a good thing from the perspective of the remaining districts which are consequently more segregated and less well funded.

Again, this is a national study and I'd be happy to talk about/ conjecture what a separation would look like from the perspective of the NC funding mechanism.

Hope this helps! The committee is undertaking hard work and I appreciate y'all's time and effort in doing this research.

-Eric

Left Behind: District secession and the re-segregation of American schools.

Eric A. Houck, PhD – University of North Carolina at Chapel Hill[1]
Brittany C. Murray – University of North Carolina at Chapel Hill

Abstract

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield, Frankenberg, & Lee, 2003). The mechanisms of this re-segregation are legal action, voluntary moves towards unitary status, unintended consequences of integration-oriented strategies, and an increasing trend towards the fracturing, or splintering of school districts. Both economic and political theory would indicate that splintering districts would work to pull racial and economic advantage out of the remaining district and into their own. To test this, we created a dataset that captures the fiscal and demographic status of US school districts between 2000 and 2014 and analyze the effect of district separation on the remaining districts in terms of student body composition, overall integration and local, state and federal resources. Our findings indicate that separating districts are less diverse than the districts left behind. We further find that separating districts gain resources from local revenue and that remaining districts gain federal revenue in insufficient amounts to account for the loss of local funds. We find that these relative disadvantages for left behind districts and relative advantages for seceding districts persist when compared to the general population of school districts.

[1] Corresponding author: 121C Peabody Hall, CB#3500, Chapel Hill, NC 27599; eahouck@unc.edu

Introduction

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield et al., 2003). After Brown and Brown II, whites deployed multiple strategies to prevent the thoughtful and comprehensive integration of American public schools. These strategies included: delayed and ineffective implementation of integration-oriented policies; the abandonment of the public system in favor of all-white or predominantly-white independent schools; the closing of public systems to all students (Gordy, 2009; McUsic, 2003); a redoubled commitment to neighborhood-based student assignment policies that reinforced residential segregation patterns (Ayscue, Siegel-Hawley, Kucsera, & Woodward, 2018; Clotfelter, 2004, 2011; Orfield & Eaton, 1997; Rothstein, 2017; Williams & Houck, 2013); and the development of policies to ensure within-school segregation such as tracking or magnet school models (Mickelson, 2001; Oakes, 1995; West, 1994). Each of these policies built upon preexisting legal frameworks and policies with varying degrees of success. Overall, however, the weight of these combined efforts contributed to the weakening of a national commitment to providing equal educational opportunities for all students. Each of these strategies have policy analogues in current federal, state, and local policy systems, some of which retain the valence of white supremacy present at their inception and others which have been adapted or disguised to uphold the values and interests of racial and ethnic minority communities. We identify these multiple and overlapping strategies, engaging a variety of policymakers and stakeholders, as a *taxonomy of white resistance* to integrated public education. These efforts to resist integrationist policies resulted in the creation of a line of arguments that culminated in the 2007 Supreme Court case of Parents involved in Community Schools (PICS) ("Parents Involved in Community Schools v. Seattle School District No. 1,"

2007), where the use of race as a factor in student assignment was significantly curtailed. The result of these combined efforts is a public school system that is increasingly re-segregated and in which poor and racial and ethnic minority students are increasingly isolated from their wealthier, whiter peers.

This paper analyzes an additional strategy within this taxonomy: the creation of smaller catchment areas out of large unified districts. Supported by court rulings and enabled by the complex and multi-layered system for financing public schools, school district secession is the act of creating new school systems to allow communities to exert control over the composition and financing of school systems themselves rather than fighting for preferred policies within larger, usually more politically and racially diverse systems. While acknowledging the weighty historical valance of the term *secession*, we seek to better understand and describe the complicated intersections of race, class, and school finance that allow and encourage this phenomenon (EdBuild, 2017). We further seek to describe the result of these secessions on levels of student integration and financing of public schools. Specifically, we seek to understand:

- How many school district secessions have occurred during the recent wave of school re-segregation and where they have occurred;
- The demographic profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of racial and socio-economic integration and exposure; and,
- The finance profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of both overall funding levels and the proportion of that funding from federal, state, and local sources.

In the sections that follow we discuss the legal and policy contexts for recent school district secessions, review the systems and mechanisms for distributing per pupil revenue at the federal, state and local levels, present and analyze data on the racial and financial results of successful school district secessions for both the new and the original districts and discuss the implications of these findings for developing policies to support integrated school districts in a post-Brown, post-PICS world.

Legal and Policy Context

The history of resistance to integrating schools described in the introduction has not gone unnoticed or un-scrutinized. From the original Brown ruling (1954) and through the "all deliberate speed" language of Brown II (1955), court challenges and rulings have served to limit the scope and efficaciousness of integration-oriented school policies. State laws around school district secession vary considerably. A recent report (EdBuild, 2017) notes that 30 states have mechanisms for school district secession written into state code. Of these 30, only 23 require voter action, and only 4 states have provisions for citizens in the remaining districts to have voice via a vote in the process.

In some cases, communities are taking advantage of state level laws. Recently, the 11th Circuit Court of Appeals ruled that a petition to form a new school system in the city of Gardendale, Alabama acted with discriminatory purpose in its bid to separate from the wider Jefferson County school system. Lost in the debate over this decision was the fact that the Gardendale secession was the 11th attempt by a locality to remove itself from the county system, and the first

one to be blocked by a court (Jones, n.d.; Faulk, 2018). The Tennessee legislature has recently eliminated barriers to school district secession, resulting in the creation of several new districts around Memphis, and leading other counties to consider separation as well (Frankenberg, Siegel-Hawley, & Diem, 2017). These districts are leveraging or changing state law governing public systems to create their ability to separate. In other cases, however, localities are trying to declare themselves independent without specific state law (Strauss, 2018). Several communities surrounding Charlotte, NC - Huntersville, Matthews, and Mint Hill - have recently petitioned to become charter districts, thereby leveraging the state's charter school legislation to create separate districts that will remove them from the more comprehensive and unified Charlotte-Mecklenburg school system. ("Controversial NC charter bill approved. Now, these four towns could open schools.," n.d., "NC town charter school bill stirs state and local ire | Charlotte Observer," n.d.).

While district separation is driven by state law and adherence to statue, the legal frameworks that allow districts to pursue this path exist as a result of two US Supreme Court cases that dramatically influenced the scope and tenor of educational policymaking in the US around questions of school-district integration and via student assignment: San Antonio v. Rodriguez (1972) and Milliken v. Bradley (1974). Each of these cases were brought in order to fill in questions left unaddressed by Brown. That is, while Brown crafted an eloquent aspiration for racial integration as a mechanism to provide equitable educational opportunities for students, it failed to anticipate the vitriol of white backlash or myriad of practical legal questions that would arise in the aftermath of the decision (see, for example: López & Burciaga, 2014; Patterson, Patterson, & Freehling, 2001). Two of these questions existed around the role of funding laws

and practices in securing educational opportunity and the role of district boundaries in balkanizing students in geographically distinct and racially identifiable school districts. The Rodriguez case isolated school financing decisions from comprehensive federal oversight, and Milliken exacerbated this neglect by immunizing school district boundaries from student assignment policies. While there is debate about the relative effect contrary decisions would have had for the future of school integration policies, there is consensus that the fate of integrationist policies is determined by these rulings (Wells, Fox, and Miles 2015; Siegel-Hawley 2015).

In San Antonio v. Rodriguez the Court held that education was not a fundamental right and that school funding mechanisms based on local property taxes did not therefore violate the equal protection clause of the US Constitution (Sutton, 2008). This ruling flew in the face of other state court decisions which had acknowledged the equal protection implications of school funding based on a foundation of variable local property wealth, such as California's Serrano v. Priest (1971). While framing Serrano arguments, scholars had articulated as school finance proposition number one: that the wealth supporting school funding for a child should not be based on wealth other than the wealth of the state as a whole (Coons, Clune, & Sugarman, 1969; J. W. Guthrie, Springer, Rolle, & Houck, 2006). Rodriguez reversed this notion, thereby allowing inter-district variation in community support for public education and reaffirming Tieboutian competition among districts; the implication being that wealthier districts could leverage their wealth to provide greater support for schools in terms of teacher salary supplements, numbers of teachers, quality of instructional materials, and other resources (Ogletree & Robinson, 2015; Tiebout, 2007).

In Milliken v. Bradley, the Court reinforced the legality of de facto segregation – segregation that does not exist as a result of specific legal frameworks – and disallowed desegregation plans from reaching across district boundaries (Amaker, 1974; Sedler, 1986). The result of this ruling allowed districts to maintain racial segregation if they met the burden of demonstrating that it occurred via other mechanisms than specific laws. More importantly for the purposes of this study, Milliken versus Bradley "landlocked" majority minority districts into their boundaries and into their property tax bases, thereby preventing educators and policymakers from applying broad, regional desegregation plans (Jones, 1992) or having access to local dollars necessary to support these broader plans.

Taken together, therefore, these two cases effectively set the conditions for desegregation policy throughout the 1980s and until the turn of the century. Districts, especially Southern districts were left to determine how best to meet their obligation to desegregate based on their specific student population. Given a history of both *de facto* and *de jure* segregation and a legacy of segregating neighborhoods in real estate markets, cases such as Milliken incentivize the creation of whiter school districts out of broader, more integrated communities. While this racial component is important, it is wedded to powerful fiscal and financial incentives as well.

School finance and school desegregation

Into this legal framework flows a school finance and resource allocation system that is itself dizzyingly complex. In addition to running two separate educational budgets - one for current expenditures and one for capital expenditures – US public school systems also intake funds from

three sources: federal, state, and local government (Ladd & Hansen, 1999; Thompson & Wood, 2012). Each of these funding steams has a separate and distinct basis for funding and a different level of sensitivity to economic and political changes in local and national contexts (J. Guthrie, Springer, Rolle, & Houck, 2007; J. W. Guthrie, 2006).

Federal funds comprise approximately 10-12 percent of education budgets and are most often allocated on the principal of positive vertical equity – the unequal treatment of differently situated groups. Funding for Title I services or impact aid are targeted to support specific subpopulations of students; therefore, federal revenues per pupil are often found at increased levels in districts with greater educational challenges. State funds are the largest source of revenue for most states, and are distributed to districts based on state funding mechanisms. While some of these mechanisms provide additional funding to address student need, others do not. In addition, states vary in the student, school, and district characteristics they provide with vertically equitable funding. While student and district needs, district sparsity, and academic disadvantage may all be address within state funding mechanisms, there is no consensus across states on which of these items would be differentially funding, or to what degree. Finally, individual states establish different mechanisms for yoking state and local revenue. A number of states, for example, utilize power equalizing or guaranteed tax base plans to subsidize property-poor districts and reward local taxation effort (Springer, Houck, Guthrie 2015). Local funds are derived from local property tax valuations and are often considered the largest driver of educational inequality from a funding and resource allocation perspective. Variations in local wealth exist at the center of the school finance litigation paradigm as plaintiffs seek to ameliorate

the deleterious consequences of local revenue that can exacerbate existing within-state inequities (Akin & YoungDay, 1976; Chakrabarti, Livingston, & Roy, 2014; Ladd, 1975).

The ability of localities to levy the wealth of their tax base to provide additional school funding provides another motivation for district separation. Smaller wealthier communities can spread their greater wealth over a targeted number of students and thereby gain a fiscal and competitive advantage over surrounding school districts. Some districts have used local funds to shore up policies that abandoned busing for diversity in favor of neighborhood-based school assignment policies (Gamoran & An, 2016; Goldring, Cohen-Vogel, Smrekar, & Taylor, 2006; Houck, 2010).

Finally, the governance of different funding sources has implications for district operations. While federal and state revenue sources come with a variety of regulatory and reporting requirements, local funds are considerably more fungible, thereby allowing districts more flexibility in addressing their capital needs and operational goals. In this construction, additional local funding can be a proxy for flexibility and reduced costs in terms of developing and maintaining a reporting and compliance infrastructure.

As demonstrated, many of the mechanisms that generate and distribute revenue by states are sensitive to the racial and socio-economic conditions within a district. By changing student composition through a reassignment policy or through a district secession, districts gain change the manner in which schools are resourced – both in terms of dollar amounts of revenue as well as the governance and accountability mechanisms tied to that revenue (Houck, 2011).

The legal framework bounded by the Rodriguez and Milliken decisions, combined with a complicated and manifold funding system for public education, provides district leaders opportunities to take advantage of the spaces within this system for their own advantage. We sought to determine what advantage, if any, could be found by seceding into a new school district, relative to a left behind district and relative to other districts in general. Table 1presents data on district secession by state, as well as an overview of funding model values and any relevant legislation controlling secession.

Table 1: Secessions by state, funding model type, and secession legislation, 2000-2015

State	No. of seceded districts since 2000	State Equity Model	Must consider impact on
Alabama	10	Horizontal	None

Data and Methods

For the analyses that follow, we assembled a rich panel of district resources and demographics paired with time-varying indicators for districts that secede and those that are left behind. We used school- and district-level administrative data from the National Center for Educational Statistics (NCES) over the years 2000-2014. We manually identified seceded and remaining districts using guidance from EdBuild (EdBuild, 2017) over the universe of public school districts nationwide. Additionally, we matched these districts to the Stanford Education Data Archive to analyze community context variables created from American Communities Survey (ACS) items aggregated to the district level. Items from this dataset span the years between 2009-2015. We exclude special education, vocational, and charter school districts from the analysis.

Dependent Variables

Key outcome variables include measures of district resources and segregation. We use total, federal, state, and local revenues from NCES' district finance surveys and divided by total enrollment to create per-pupil measures adjusted for inflation using the Consumer Price Index (CPI).

To measure levels of segregation, we use school-level demographic data to calculate a black-white dissimilarity index. The index of dissimilarity measures segregation between two groups and is generally interpreted as the percentage of one group that would need to relocate so that the balance of every unit reflects the balance of the overall whole. A low dissimilarity index is viewed as representing more even integration and a higher dissimilarity index (with one as an

upper bound) indicates greater segregation. A limitation of the dissimilarity index is that, if levels of the two groups are unequal, the index can also represent homogeneity of one group over another.

We also calculate an exposure index which takes into account the relative sizes of each subgroup and tells us the extent to which one group comes in contact with the other (Reardon & Firebaugh, 2002; Reardon & O'Sullivan, 2004). The exposure index addresses a key limitation of the dissimilarity index by measuring the degree to which one is likely to have interactions with a member of a different group. A low exposure index indicates more segregated or isolated environment, and a higher exposure index represents a greater likelihood of interaction with a member of a different group.

Finally, we estimate a measure of intra-district diversity calculated using a Blau Index. The Blau index is a school-level measure representing the probability that a student selected at random is from a single racial/ethnic subgroup (Harrison & Klein, 2007; Rushton, 2008). It is calculated using the proportion of students from each racial/ethnic group represented using the following equation:

$$\lambda = 1 - (Pr_{white}^2 + Pr_{black}^2 + Pr_{Hispanic}^2 + Pr_{other}^2) \qquad (1)$$

The Blau index goes by many names in the sociological literature, but generally is an indication of the probability that, were two group members selected at random from a larger group they would represent members of different subpopulations. Though not often used in segregation analyses, the Blau index has been profitably used in organizational studies, albeit with some caveats (Jacobs et al., 2013; Rushton, 2008). We also include the proportion of black, white,

Hispanic, and students receiving free- or reduced-priced lunch in a district. Table 2 lists descriptive statistics for key variables.

Table 2: Descriptive statistics for key variables by secession status, 2000-2014

	All Districts	Original districts pre-secession	Original districts post- secession	Seceded districts

Independent Variables

To understand district secession, new districts appearing in the dataset were assumed to have formed from within a pre-existing district in previous years. New districts were identified and paired with their parent district based on geographic variables such as FIPS and zip codes. The final dataset consisted of 189,702 district-year observations. Of 15,001 unique school districts, we observe 36 seceded districts and 26 original districts in the dataset. We refer to original districts as those remaining after a district(s) separated. In some cases, original districts dissolved upon secession. Given the longitudinal nature of our data, these phenomena resulted in 288 distinct seceded district-years and 280 original district-years, providing a final analytic sample of 568 district-year observations. Figure 1 presents the secession and remaining rate by year for districts in the dataset. A list of the 44 separated/seceded districts and their remaining district, state, and year of secession can be found in Appendix 1.

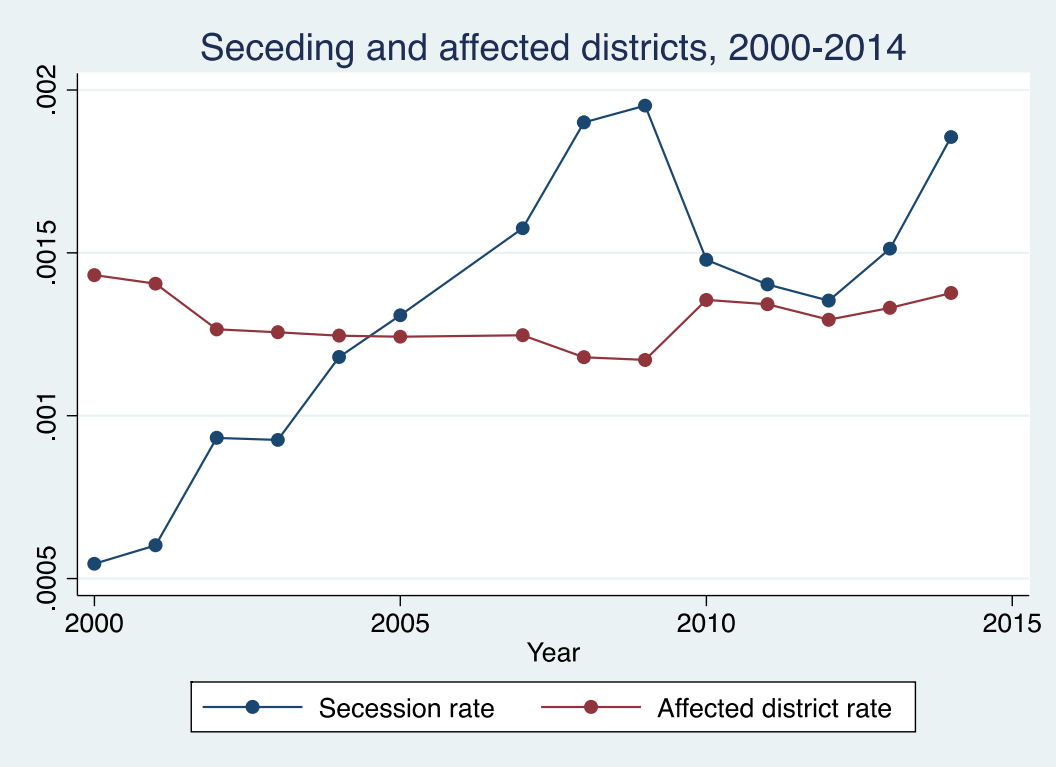

Figure 1: Secession rates by year

Analytic Strategy

Analysis was completed on 576 year-unit observations via univariate and multivariate analysis among both seceded and original districts. Descriptive analysis and t-tests were used to examine overall differences between seceded districts and their remaining districts for demographic variables, segregation indices, and funding levels. We use ordinary least-squares (OLS) regression models to estimate pooled differences between resources and demographics in original districts before and after district secession occurs. We run separate models for seceded districts, providing an estimate of the differences between resources and demographics for the original districts and newly formed districts. We also run a separate model for original districts after they have had smaller districts secede. These models include a vector of district and

community level controls. Given these models are heteroskedastic due to the nested nature of the data, we cluster at the district level to provide robust standard errors for interpretation.

These models take the form:

$$\gamma_d = \alpha + \beta_1 Sec_d + \beta_2 X_d + \sum \beta_3 Year_t + \sum \beta_4 Dist_d + \mu_d + \varepsilon_{dt} \quad (2)$$

Where γ_{dt} is the year to year variation in total, federal, state, and local revenue in addition to dissimilarity, exposure, and diversity indices; Sec_{dt} is a time-varying indicator for seceded districts and districts in the post-period of having a secession. We include a vector, X_{dt}, of time-varying district-level controls such as race, class, district, state, region, year and preexisting diversity of each district (community variables are omitted here given they are collinear with the district fixed effect). Finally, μ_d and ε_{dt} are between- and within-district error terms. We also wanted to examine how district resources and segregation levels varied at each additional year post-secession for both seceded and original districts. Therefore, we modified our predictor variable by capturing the number of years post secession to predict subsequent changes in the outcome variables. These models can be interpreted as change in revenue or segregation given an additional year of remaining as a seceded or original district post-secession.

Using these models, our analytic strategy was to examine the impact of secession on original and seceded districts relative to each other; that is to understand how resources and demographics changed

Results

Figure 2 and Table 3 present findings comparing revenue levels of seceded districts to remaining districts for all years of the study.

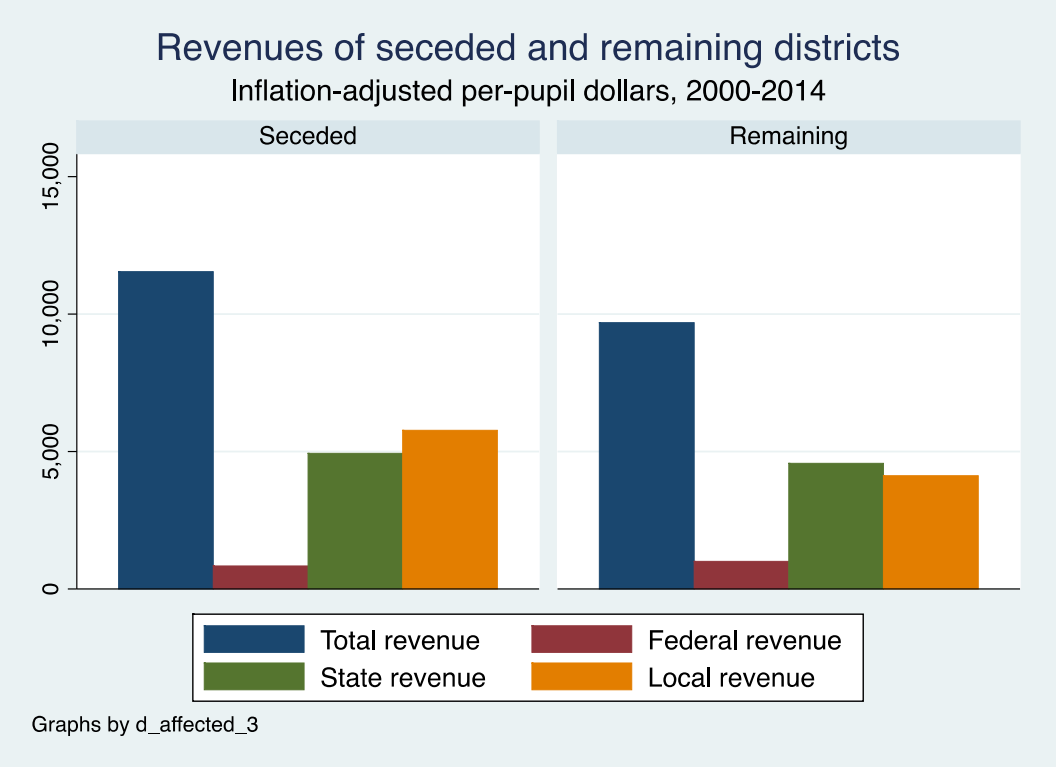

Figure 2: Inflation adjusted per pupil revenue, seceded versus remaining districts, 2000-2014

Table 3: Inflation adjusted revenues per pupil, 2000-2014

Measure	Seceded	Remaining		p
Total	11,514	9,678	***	p<.00
Federal	826	995	***	p<.00
State	4,931	4,536	-	p=.07
Local	5,772	4,117	***	p<.00
n=575				

Figure 2 demonstrates that seceded districts received $1,837 more overall funding , $395 more state funding, and substantially more local funding ($1,655) than remaining districts per pupil. Seceding districts did receive $169 less federal funding per pupil. Findings of reduced federal funding and increased local funding are expected, as federal funds are targeted to higher-needs populations that are presumably remaining in districts at higher rates than seceding districts. This increased federal funding, however, is not of a magnitude to make up for additional local revenue per pupil realized by the seceding districts. The finding that state revenue per pupil was

higher in seceding districts was surprising, as many states build vertically equitable levels into their funding mechanisms. The overall result is that it is fiscally beneficial for seceding districts and correspondingly fiscally detrimental to remaining districts for these separations to occur. T-tests of these differences shown in Table 3 indicate that all revenue differences are statistically significant, with state revenue per pupil only being significant at the $p<.10$ level with a p-value of .08.

Figure 3 and Table 4 present findings comparing the demographics of seceded districts to remaining districts for all years of the study.

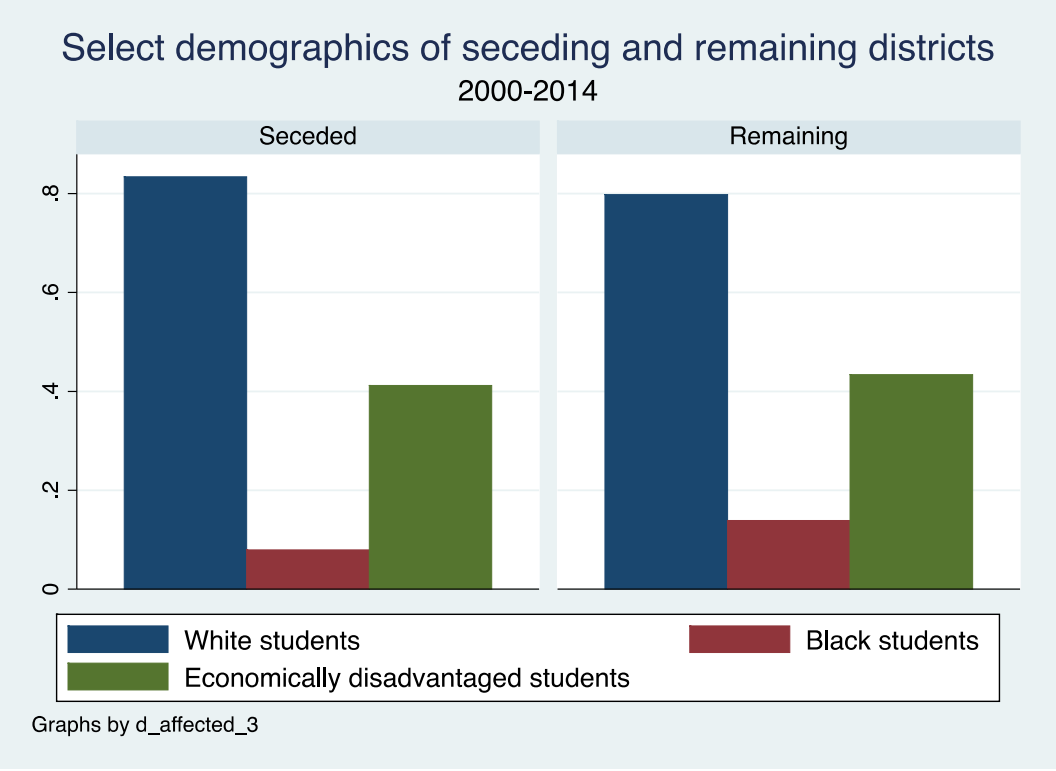

Figure 3: Demographics of seceded versus remaining districts, 2000-2014

Table 4: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
White	.84	.80	*	p=.02
Black	.08	.14	***	p<.00
Hispanic	.06	.03	***	p<.00
FRL	.41	.43	-	p=.12
n=575				

The finding in figure 3 comport with the assumption that seceded districts would be less diverse: seceded districts are 3% whiter than remaining districts and have 6% fewer Black and 1% fewer economically disadvantaged students than remaining districts. T-tests of these differences shown in Table 3 indicate that all demographic differences are statistically significant except for differences in the economically disadvantaged population (p=.12).

Figure 4 and Table 5 present findings comparing segregation levels of seceded districts to remaining districts for all years of the study.

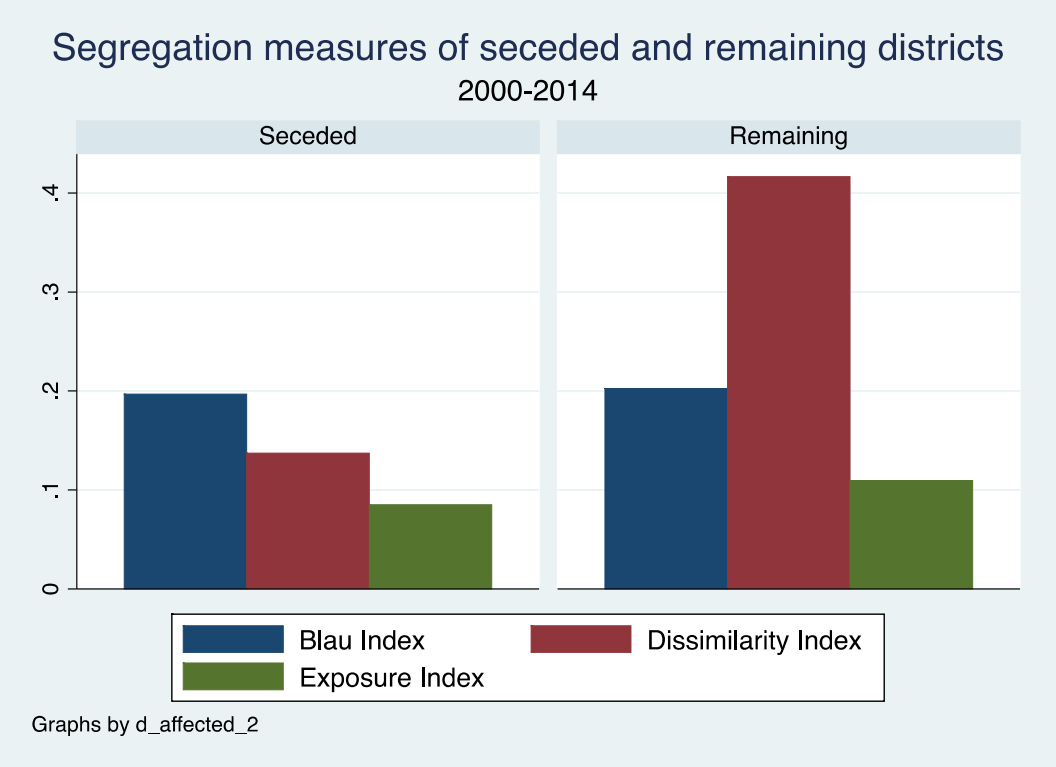

Figure 4: Segregation measures, seceded v. remaining, 2000-2014

Table 5: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
Dissimilarity	.14	.42	***	p<.00
Exposure	.08	.11	-	P<.06
Blau	.19	.20	-	P<.12
n=575				

The findings from Figure 4 and Table 4 are mixed. The dissimilarity index in remaining districts is .42; 29 points higher than in seceding districts and indicating that remaining districts are more segregated than seceding ones. The exposure index, however, is lower in seceded districts than in remaining districts by 3 points, which indicates the probability of interacting with someone of a different race is higher in remaining districts than in seeded ones. The Blau index is the same in both categories of district. T-tests of these differences shown in Table 5 indicate that only the differences in dissimilarity and exposure are statistically significant, and that the differences in the exposure index are only significant at the p<.10 level with a p-value of .06.

Table 6. OLS Estimates of Resources and Demographics Post-Secession in Original Districts and Seceded Districts

	Original district after secession compared to non-splintered districts	Seceded districts compared to non-seceded districts
Revenue per pupil		
Total	-1,306**	2,999***
Federal	-99	-73
State	-503	760
Local	-703*	2,312**
Segregation		
Dissimilarity	0.03	-0.23***
Exposure	-0.03*	0.02
Blau	0.02	0.08

Descriptively, these findings demonstrate that new seceded districts are advantaging themselves relative to the districts that remain. Racial differences between seceded and remaining districts are almost entirely driven by the Black student population, a piece of evidence that may indicate a connection between seceding districts and white flight community impulses. Fiscally, seceding districts realize higher levels of funding per pupil, driven almost entirely by increases in local revenues that offset marginal changes in state revenues and decreases in more targeted federal revenues per pupil.

We next model these dynamics to understand the relative position of remaining and seceded districts in the wider population of school districts. Table 6 reports coefficients and significance of equation (2), and reports that remaining districts are disadvantaged relative to districts that have not been separated from. This fiscal disadvantage is 1,300 dollars per pupil and over half of that difference is driven by reductions in local per pupil revenue. Seceding districts see a

fiscal advantage compared to general districts of almost 3,000 dollars per pupil with 2,312 of that difference accounted for by increases in local revenue. In addition seceded districts see a significant reduction in segregation as measured by the dissimilarity index, presumably due to a increased heterogeneity of the student population provided by the descriptive statistics.

We can assume that this pattern will hold as districts separate themselves, but a finding of interest was that some districts were providing multiple secessions. That is, some districts were spawning multiple new districts. To understand this dynamic better, and to see if the patterns of resource and demographic distribution held steady we calculated a "years post separation" variable for 1st, 2nd, and 3rd separations These count variables were run in a model with controls for race, class, district, district size, state, region and year. These models are not comparing remaining districts to only seceded districts; rather they are comparing the effect of secession on the remaining district compared to itself. Results of the effect of the first separation on select revenue and segregation variables is presented in Table 7.

Table 7: Annualized effect of secession on remaining district (first secession)

Variable	Coefficient		p
Total revenue*	-393	*	p=.09
Federal revenue*	203	**	p<.00
State revenue*	-460	**	p<.00
Local revenue*	-136	*	p=.08
Dissimilarity	-.008	**	p<.00
Exposure	.004	**	p<.00
* - all dollar amounts are per-pupil, inflation adjusted			

The findings in Table 5 differ from the findings in the t-test comparison analysis. The total revenues for the remaining district are reduced at a rate of $393 per year, but in this model state revenue also declines annually, and at the highest rate of revenue from any source. Local revenue declines annually at a rate of only $136 per pupil and federal revenue increases by $203

per pupil. Looking at revenue amounts per year when a district has been left for the first time, it appears that – in addition to some expected loss of local revenue as property is taken out of the district – the remaining district is at some structural disadvantage vis-à-vis the state funding mechanism. Since state funding mechanisms vary widely across all 50 states, it is difficult to ascertain what that structural inequality might be, but the disadvantage is significant both statistically and substantively.

When examining the effect of a first district leaving on the remaining district in terms of segregation measures, the dissimilarity index shows a slight decline and the exposure index a slight uptick. These findings, both significant, indicate that remaining districts are slightly more integrated , possibly because the remaining student population has been rendered ore homogeneous by the loss of the seceding district's student body.

Findings from an analysis of the second secession on the remaining district are presented in Table 9.

Table 9: Annualized effect of secession on remaining district (second secession)

Variable	Coefficient		p
Total revenue*	343	-	--
Federal revenue*	-699	**	p<.00
State revenue*	754	**	p<.00
Local revenue*	289	**	p<.00
Dissimilarity	-.016	**	p<.00
Exposure	.010	**	p<.00
* - all dollar amounts are per-pupil, inflation-adjusted			

Findings in Table 9 indicate that the second secession from a district yields very different benefits than the first. The second seceding district sees no statistically significant change in

total revenue, but revenues sources shift to decreased federal revenue per pupil and increased state and local revenue per pupil per year. The segregation patterns for remaining districts remain the same as for the first secession; the dissimilarity decreases while the exposure index increases.

Taken together, these results demonstrate that seceded districts are overall wealthier, whiter and less Black than their remaining district peers. While the revenue findings from the t-tests generally conform to the coefficients reported from regression analysis, the segregation indices differ. It looks as if, in regards to remaining districts, these districts are more segregated initially, but seem to become marginally less segregated as a result of secessions out of their district.

Discussion

The growing movement towards separating or secession of districts has negative ramifications for the remaining districts. These ramifications are both demographic and fiscal. Demographically, districts remaining after a secession are descriptively less white and more Black that the districts formed from them. They are more segregated in terms of the distribution of population, but more diverse in terms of exposure to students of different backgrounds than districts that secede. Some of this dynamic may be an artifact of the relative homogeneity of the seceding district. Districts that are left behind via the creation of new school districts have fewer white students to integrate across schools, and more Black students to consider and are prevented – via Milliken – from seeking to integrate systems across school district boundaries.

Fiscally, remaining districts are poorer than the districts that secede. Although remaining districts gain in federal revenue per pupil, they have fewer resources in terms of both state and local revenues per pupil with which to operate. A district facing the secession of another district – especially if that district is the first to secede – faces a loss of almost $400 per pupil as well as additional challenges from slightly higher populations of economically disadvantaged students. While these resources seem to be recouped if a second district secedes, revenue streams are shifted. Remaining districts are also unable to make up for the lost property wealth a seceding district takes with it and therefore face a less even playing field within a post-Rodriguez environment. The funding shifts noted in our analysis imply shifts in governance as well, as local funds allow districts to more nimbly operate. It may be no surprise then that nimbler districts with fewer educational challenges to face might begin to outperform their peers, thereby perpetuating a failing schools narrative and thwarting efforts at comprehensive, equity-oriented reform. .

This cursory study raises additional questions in this description of districts remaining after secession. Yet to be examined is the relative wealth of seceded and remaining districts in terms of property wealth per pupil, as well as the relative tax effort put forth by seceded and remaining districts in terms of property tax rates, which will reveal the ease with which districts can raise funds to supplement state and federal revenue sources. Nevertheless, it is clear that the ability to secede and form new school districts exists at an intersection of Rodriguez and Milliken, in a space defined by and yet unaddressed by the court in Brown. District secession is another mechanism within a taxonomy of white resistance to integration that districts are beginning to use with increasing frequency and to the advantage of some. This ability to literally game the

system for fiscal and demographic advantage shows that the court in Brown was able to articulate a vision, but unable to define the mechanisms by which that vision would be realized, nor able to anticipate the myriad pathways school leaders would take to resist or defy accepting the burden of that vision.

Hi Eric:

Thank you for reaching out. Sorry for the delayed response. I regret not being able to present and speak with the group.

My article in the PJE is still "in press" - due out this fall. I'm happy to share a draft with you (attached) and answer questions about it; however, I'd appreciate it if the committee would refrain from discussing the article in media interviews, etc. to the extent possible.

In general, we find, using a national dataset, that districts that remove themselves from larger districts gain a financial advantage: they see increases in local revenue that more than compensate for decreases in federal revenue. In general, state revenue also increases. They are also more racially homogeneous. My coauthor and I do not necessarily see this as a good thing from the perspective of the remaining districts which are consequently more segregated and less well funded.

Again, this is a national study and I'd be happy to talk about/ conjecture what a separation would look like from the perspective of the NC funding mechanism.

Hope this helps! The committee is undertaking hard work and I appreciate y'all's time and effort in doing this research.

-Eric

Left Behind: District secession and the re-segregation of American schools.

Eric A. Houck, PhD – University of North Carolina at Chapel Hill[1]
Brittany C. Murray – University of North Carolina at Chapel Hill

Abstract

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield, Frankenberg, & Lee, 2003). The mechanisms of this re-segregation are legal action, voluntary moves towards unitary status, unintended consequences of integration-oriented strategies, and an increasing trend towards the fracturing, or splintering of school districts. Both economic and political theory would indicate that splintering districts would work to pull racial and economic advantage out of the remaining district and into their own. To test this, we created a dataset that captures the fiscal and demographic status of US school districts between 2000 and 2014 and analyze the effect of district separation on the remaining districts in terms of student body composition, overall integration and local, state and federal resources. Our findings indicate that separating districts are less diverse than the districts left behind. We further find that separating districts gain resources from local revenue and that remaining districts gain federal revenue in insufficient amounts to account for the loss of local funds. We find that these relative disadvantages for left behind districts and relative advantages for seceding districts persist when compared to the general population of school districts.

Introduction

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield et al., 2003). After Brown and Brown II, whites deployed multiple strategies to prevent the thoughtful and comprehensive integration of American public schools. These strategies included: delayed and ineffective implementation of integration-oriented policies; the abandonment of the public system in favor of all-white or predominantly-white independent schools; the closing of public systems to all students (Gordy, 2009; McUsic, 2003); a redoubled commitment to neighborhood-based student assignment policies that reinforced residential segregation patterns (Ayscue, Siegel-Hawley, Kucsera, & Woodward, 2018; Clotfelter, 2004, 2011; Orfield & Eaton, 1997; Rothstein, 2017; Williams & Houck, 2013); and the development of policies to ensure within-school segregation such as tracking or magnet school models (Mickelson, 2001; Oakes, 1995; West, 1994). Each of these policies built upon preexisting legal frameworks and policies with varying degrees of success. Overall, however, the weight of these combined efforts contributed to the weakening of a national commitment to providing equal educational opportunities for all students. Each of these strategies have policy analogues in current federal, state, and local policy systems, some of which retain the valence of white supremacy present at their inception and others which have been adapted or disguised to uphold the values and interests of racial and ethnic minority communities. We identify these multiple and overlapping strategies, engaging a variety of policymakers and stakeholders, as a *taxonomy of white resistance* to integrated public education. These efforts to resist integrationist policies resulted in the creation of a line of arguments that culminated in the 2007 Supreme Court case of Parents involved in Community Schools (PICS) ("Parents Involved in Community Schools v. Seattle School District No. 1,"

2007), where the use of race as a factor in student assignment was significantly curtailed. The result of these combined efforts is a public school system that is increasingly re-segregated and in which poor and racial and ethnic minority students are increasingly isolated from their wealthier, whiter peers.

This paper analyzes an additional strategy within this taxonomy: the creation of smaller catchment areas out of large unified districts. Supported by court rulings and enabled by the complex and multi-layered system for financing public schools, school district secession is the act of creating new school systems to allow communities to exert control over the composition and financing of school systems themselves rather than fighting for preferred policies within larger, usually more politically and racially diverse systems. While acknowledging the weighty historical valance of the term *secession*, we seek to better understand and describe the complicated intersections of race, class, and school finance that allow and encourage this phenomenon (EdBuild, 2017). We further seek to describe the result of these secessions on levels of student integration and financing of public schools. Specifically, we seek to understand:

- How many school district secessions have occurred during the recent wave of school re-segregation and where they have occurred;
- The demographic profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of racial and socio-economic integration and exposure; and,
- The finance profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of both overall funding levels and the proportion of that funding from federal, state, and local sources.

In the sections that follow we discuss the legal and policy contexts for recent school district secessions, review the systems and mechanisms for distributing per pupil revenue at the federal, state and local levels, present and analyze data on the racial and financial results of successful school district secessions for both the new and the original districts and discuss the implications of these findings for developing policies to support integrated school districts in a post-Brown, post-PICS world.

Legal and Policy Context

The history of resistance to integrating schools described in the introduction has not gone unnoticed or un-scrutinized. From the original Brown ruling (1954) and through the "all deliberate speed" language of Brown II (1955), court challenges and rulings have served to limit the scope and efficaciousness of integration-oriented school policies. State laws around school district secession vary considerably. A recent report (EdBuild, 2017) notes that 30 states have mechanisms for school district secession written into state code. Of these 30, only 23 require voter action, and only 4 states have provisions for citizens in the remaining districts to have voice via a vote in the process.

In some cases, communities are taking advantage of state level laws. Recently, the 11th Circuit Court of Appeals ruled that a petition to form a new school system in the city of Gardendale, Alabama acted with discriminatory purpose in its bid to separate from the wider Jefferson County school system. Lost in the debate over this decision was the fact that the Gardendale secession was the 11th attempt by a locality to remove itself from the county system, and the first

one to be blocked by a court (Jones, n.d.; Faulk, 2018). The Tennessee legislature has recently eliminated barriers to school district secession, resulting in the creation of several new districts around Memphis, and leading other counties to consider separation as well (Frankenberg, Siegel-Hawley, & Diem, 2017). These districts are leveraging or changing state law governing public systems to create their ability to separate. In other cases, however, localities are trying to declare themselves independent without specific state law (Strauss, 2018). Several communities surrounding Charlotte, NC - Huntersville, Matthews, and Mint Hill - have recently petitioned to become charter districts, thereby leveraging the state's charter school legislation to create separate districts that will remove them from the more comprehensive and unified Charlotte-Mecklenburg school system. ("Controversial NC charter bill approved. Now, these four towns could open schools.," n.d., "NC town charter school bill stirs state and local ire | Charlotte Observer," n.d.).

While district separation is driven by state law and adherence to statue, the legal frameworks that allow districts to pursue this path exist as a result of two US Supreme Court cases that dramatically influenced the scope and tenor of educational policymaking in the US around questions of school-district integration and via student assignment: San Antonio v. Rodriguez (1972) and Milliken v. Bradley (1974). Each of these cases were brought in order to fill in questions left unaddressed by Brown. That is, while Brown crafted an eloquent aspiration for racial integration as a mechanism to provide equitable educational opportunities for students, it failed to anticipate the vitriol of white backlash or myriad of practical legal questions that would arise in the aftermath of the decision (see, for example: López & Burciaga, 2014; Patterson, Patterson, & Freehling, 2001). Two of these questions existed around the role of funding laws

and practices in securing educational opportunity and the role of district boundaries in balkanizing students in geographically distinct and racially identifiable school districts. The Rodriguez case isolated school financing decisions from comprehensive federal oversight, and Milliken exacerbated this neglect by immunizing school district boundaries from student assignment policies. While there is debate about the relative effect contrary decisions would have had for the future of school integration policies, there is consensus that the fate of integrationist policies is determined by these rulings (Wells, Fox, and Miles 2015; Siegel-Hawley 2015).

In San Antonio v. Rodriguez the Court held that education was not a fundamental right and that school funding mechanisms based on local property taxes did not therefore violate the equal protection clause of the US Constitution (Sutton, 2008). This ruling flew in the face of other state court decisions which had acknowledged the equal protection implications of school funding based on a foundation of variable local property wealth, such as California's Serrano v. Priest (1971). While framing Serrano arguments, scholars had articulated as school finance proposition number one: that the wealth supporting school funding for a child should not be based on wealth other than the wealth of the state as a whole (Coons, Clune, & Sugarman, 1969; J. W. Guthrie, Springer, Rolle, & Houck, 2006). Rodriguez reversed this notion, thereby allowing inter-district variation in community support for public education and reaffirming Tieboutian competition among districts; the implication being that wealthier districts could leverage their wealth to provide greater support for schools in terms of teacher salary supplements, numbers of teachers, quality of instructional materials, and other resources (Ogletree & Robinson, 2015; Tiebout, 2007).

In Milliken v. Bradley, the Court reinforced the legality of de facto segregation – segregation that does not exist as a result of specific legal frameworks – and disallowed desegregation plans from reaching across district boundaries (Amaker, 1974; Sedler, 1986). The result of this ruling allowed districts to maintain racial segregation if they met the burden of demonstrating that it occurred via other mechanisms than specific laws. More importantly for the purposes of this study, Milliken versus Bradley "landlocked" majority minority districts into their boundaries and into their property tax bases, thereby preventing educators and policymakers from applying broad, regional desegregation plans (Jones, 1992) or having access to local dollars necessary to support these broader plans.

Taken together, therefore, these two cases effectively set the conditions for desegregation policy throughout the 1980s and until the turn of the century. Districts, especially Southern districts were left to determine how best to meet their obligation to desegregate based on their specific student population. Given a history of both *de facto* and *de jure* segregation and a legacy of segregating neighborhoods in real estate markets, cases such as Milliken incentivize the creation of whiter school districts out of broader, more integrated communities. While this racial component is important, it is wedded to powerful fiscal and financial incentives as well.

School finance and school desegregation

Into this legal framework flows a school finance and resource allocation system that is itself dizzyingly complex. In addition to running two separate educational budgets - one for current expenditures and one for capital expenditures – US public school systems also intake funds from

three sources: federal, state, and local government (Ladd & Hansen, 1999; Thompson & Wood, 2012). Each of these funding steams has a separate and distinct basis for funding and a different level of sensitivity to economic and political changes in local and national contexts (J. Guthrie, Springer, Rolle, & Houck, 2007; J. W. Guthrie, 2006).

Federal funds comprise approximately 10-12 percent of education budgets and are most often allocated on the principal of positive vertical equity – the unequal treatment of differently situated groups. Funding for Title I services or impact aid are targeted to support specific subpopulations of students; therefore, federal revenues per pupil are often found at increased levels in districts with greater educational challenges. State funds are the largest source of revenue for most states, and are distributed to districts based on state funding mechanisms. While some of these mechanisms provide additional funding to address student need, others do not. In addition, states vary in the student, school, and district characteristics they provide with vertically equitable funding. While student and district needs, district sparsity, and academic disadvantage may all be address within state funding mechanisms, there is no consensus across states on which of these items would be differentially funding, or to what degree. Finally, individual states establish different mechanisms for yoking state and local revenue. A number of states, for example, utilize power equalizing or guaranteed tax base plans to subsidize property-poor districts and reward local taxation effort (Springer, Houck, Guthrie 2015). Local funds are derived from local property tax valuations and are often considered the largest driver of educational inequality from a funding and resource allocation perspective. Variations in local wealth exist at the center of the school finance litigation paradigm as plaintiffs seek to ameliorate

the deleterious consequences of local revenue that can exacerbate existing within-state inequities (Akin & YoungDay, 1976; Chakrabarti, Livingston, & Roy, 2014; Ladd, 1975).

The ability of localities to levy the wealth of their tax base to provide additional school funding provides another motivation for district separation. Smaller wealthier communities can spread their greater wealth over a targeted number of students and thereby gain a fiscal and competitive advantage over surrounding school districts. Some districts have used local funds to shore up policies that abandoned busing for diversity in favor of neighborhood-based school assignment policies (Gamoran & An, 2016; Goldring, Cohen-Vogel, Smrekar, & Taylor, 2006; Houck, 2010).

Finally, the governance of different funding sources has implications for district operations. While federal and state revenue sources come with a variety of regulatory and reporting requirements, local funds are considerably more fungible, thereby allowing districts more flexibility in addressing their capital needs and operational goals. In this construction, additional local funding can be a proxy for flexibility and reduced costs in terms of developing and maintaining a reporting and compliance infrastructure.

As demonstrated, many of the mechanisms that generate and distribute revenue by states are sensitive to the racial and socio-economic conditions within a district. By changing student composition through a reassignment policy or through a district secession, districts gain change the manner in which schools are resourced – both in terms of dollar amounts of revenue as well as the governance and accountability mechanisms tied to that revenue (Houck, 2011).

The legal framework bounded by the Rodriguez and Milliken decisions, combined with a complicated and manifold funding system for public education, provides district leaders opportunities to take advantage of the spaces within this system for their own advantage. We sought to determine what advantage, if any, could be found by seceding into a new school district, relative to a left behind district and relative to other districts in general. Table 1presents data on district secession by state, as well as an overview of funding model values and any relevant legislation controlling secession.

Table 1: Secessions by state, funding model type, and secession legislation, 2000-2015

State	No. of seceded districts since 2000	State Equity Model	Must consider impact on
Alabama	10	Horizontal	None
Colorado	4	Vertical	demographics
Idaho	3	Horizontal	None

Data and Methods

For the analyses that follow, we assembled a rich panel of district resources and demographics paired with time-varying indicators for districts that secede and those that are left behind. We used school- and district-level administrative data from the National Center for Educational Statistics (NCES) over the years 2000-2014. We manually identified seceded and remaining districts using guidance from EdBuild (EdBuild, 2017) over the universe of public school districts nationwide. Additionally, we matched these districts to the Stanford Education Data Archive to analyze community context variables created from American Communities Survey (ACS) items aggregated to the district level. Items from this dataset span the years between 2009-2015. We exclude special education, vocational, and charter school districts from the analysis.

Dependent Variables

Key outcome variables include measures of district resources and segregation. We use total, federal, state, and local revenues from NCES' district finance surveys and divided by total enrollment to create per-pupil measures adjusted for inflation using the Consumer Price Index (CPI).

To measure levels of segregation, we use school-level demographic data to calculate a black-white dissimilarity index. The index of dissimilarity measures segregation between two groups and is generally interpreted as the percentage of one group that would need to relocate so that the balance of every unit reflects the balance of the overall whole. A low dissimilarity index is viewed as representing more even integration and a higher dissimilarity index (with one as an

upper bound) indicates greater segregation. A limitation of the dissimilarity index is that, if levels of the two groups are unequal, the index can also represent homogeneity of one group over another.

We also calculate an exposure index which takes into account the relative sizes of each subgroup and tells us the extent to which one group comes in contact with the other (Reardon & Firebaugh, 2002; Reardon & O'Sullivan, 2004). The exposure index addresses a key limitation of the dissimilarity index by measuring the degree to which one is likely to have interactions with a member of a different group. A low exposure index indicates more segregated or isolated environment, and a higher exposure index represents a greater likelihood of interaction with a member of a different group.

Finally, we estimate a measure of intra-district diversity calculated using a Blau Index. The Blau index is a school-level measure representing the probability that a student selected at random is from a single racial/ethnic subgroup (Harrison & Klein, 2007; Rushton, 2008). It is calculated using the proportion of students from each racial/ethnic group represented using the following equation:

$$\lambda = 1 - (Pr_{white}^2 + Pr_{black}^2 + Pr_{Hispanic}^2 + Pr_{other}^2) \qquad (1)$$

The Blau index goes by many names in the sociological literature, but generally is an indication of the probability that, were two group members selected at random from a larger group they would represent members of different subpopulations. Though not often used in segregation analyses, the Blau index has been profitably used in organizational studies, albeit with some caveats (Jacobs et al., 2013; Rushton, 2008). We also include the proportion of black, white,

Hispanic, and students receiving free- or reduced-priced lunch in a district. Table 2 lists descriptive statistics for key variables.

Table 2: Descriptive statistics for key variables by secession status, 2000-2014

	All Districts	Original districts pre-secession	Original districts post- secession	Seceded districts
Revenue				
Total revenue per pupil	10,641.11	9,284.79	10,591.89	11,514.29

Independent Variables

To understand district secession, new districts appearing in the dataset were assumed to have formed from within a pre-existing district in previous years. New districts were identified and paired with their parent district based on geographic variables such as FIPS and zip codes. The final dataset consisted of 189,702 district-year observations. Of 15,001 unique school districts, we observe 36 seceded districts and 26 original districts in the dataset. We refer to original districts as those remaining after a district(s) separated. In some cases, original districts dissolved upon secession. Given the longitudinal nature of our data, these phenomena resulted in 288 distinct seceded district-years and 280 original district-years, providing a final analytic sample of 568 district-year observations. Figure 1 presents the secession and remaining rate by year for districts in the dataset. A list of the 44 separated/seceded districts and their remaining district, state, and year of secession can be found in Appendix 1.

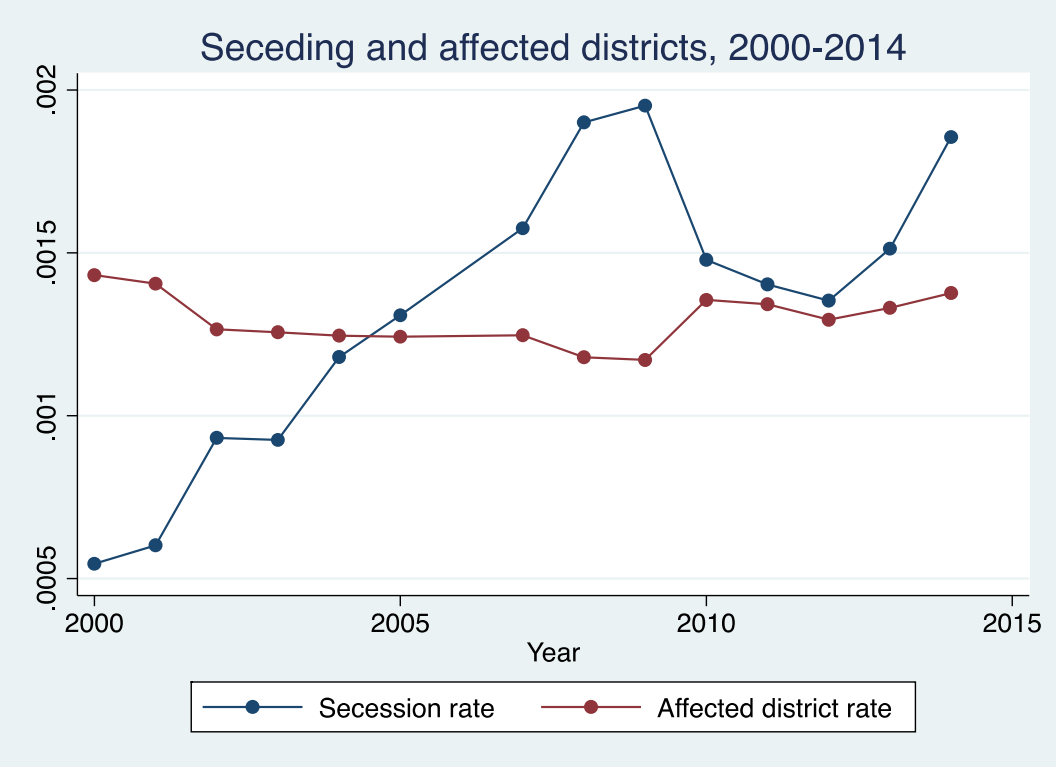

Figure 1: Secession rates by year

Analytic Strategy

Analysis was completed on 576 year-unit observations via univariate and multivariate analysis among both seceded and original districts. Descriptive analysis and t-tests were used to examine overall differences between seceded districts and their remaining districts for demographic variables, segregation indices, and funding levels. We use ordinary least-squares (OLS) regression models to estimate pooled differences between resources and demographics in original districts before and after district secession occurs. We run separate models for seceded districts, providing an estimate of the differences between resources and demographics for the original districts and newly formed districts. We also run a separate model for original districts after they have had smaller districts secede. These models include a vector of district and

community level controls. Given these models are heteroskedastic due to the nested nature of the data, we cluster at the district level to provide robust standard errors for interpretation.

These models take the form:

$$\gamma_d = \alpha + \beta_1 Sec_d + \beta_2 X_d + \sum \beta_3 Year_t + \sum \beta_4 Dist_d + \mu_d + \varepsilon_{dt} \quad (2)$$

Where γ_{dt} is the year to year variation in total, federal, state, and local revenue in addition to dissimilarity, exposure, and diversity indices; Sec_{dt} is a time-varying indicator for seceded districts and districts in the post-period of having a secession. We include a vector, X_{dt}, of time-varying district-level controls such as race, class, district, state, region, year and preexisting diversity of each district (community variables are omitted here given they are collinear with the district fixed effect). Finally, μ_d and ε_{dt} are between- and within-district error terms. We also wanted to examine how district resources and segregation levels varied at each additional year post-secession for both seceded and original districts. Therefore, we modified our predictor variable by capturing the number of years post secession to predict subsequent changes in the outcome variables. These models can be interpreted as change in revenue or segregation given an additional year of remaining as a seceded or original district post-secession.

Using these models, our analytic strategy was to examine the impact of secession on original and seceded districts relative to each other; that is to understand how resources and demographics changed

Results

Figure 2 and Table 3 present findings comparing revenue levels of seceded districts to remaining districts for all years of the study.

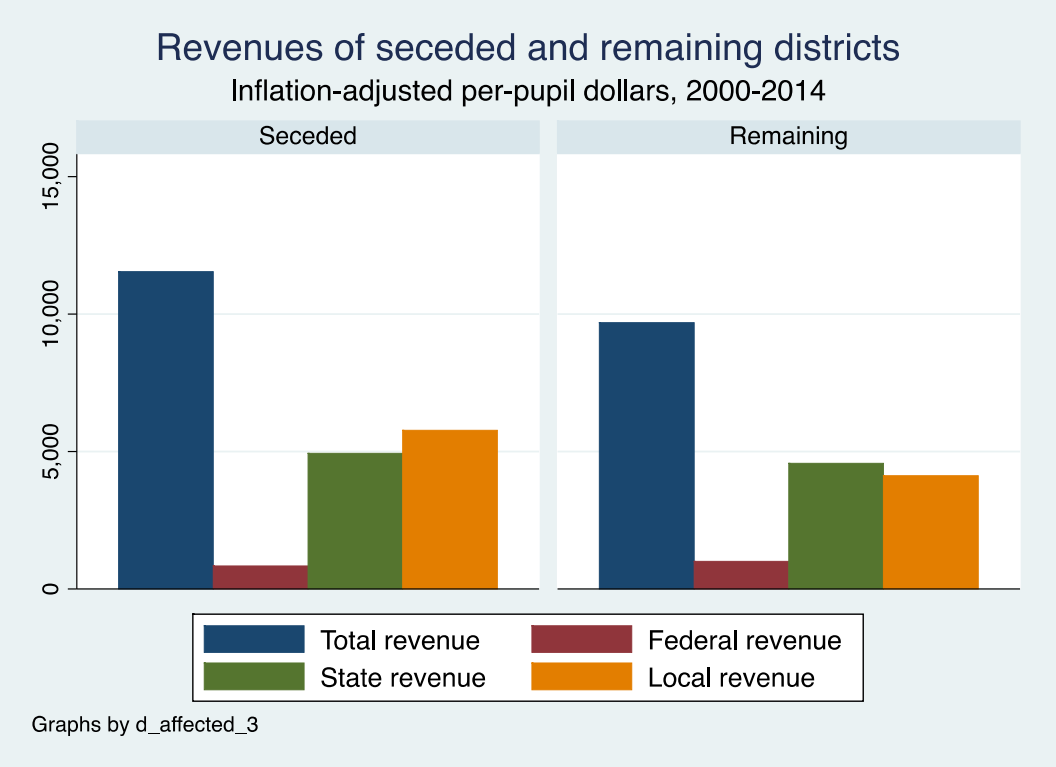

Figure 2: Inflation adjusted per pupil revenue, seceded versus remaining districts, 2000-2014

Table 3: Inflation adjusted revenues per pupil, 2000-2014

Measure	Seceded	Remaining		p
Total	11,514	9,678	***	p<.00
Federal	826	995	***	p<.00
State	4,931	4,536	-	p=.07
Local	5,772	4,117	***	p<.00
n=575				

Figure 2 demonstrates that seceded districts received $1,837 more overall funding , $395 more state funding, and substantially more local funding ($1,655) than remaining districts per pupil. Seceding districts did receive $169 less federal funding per pupil. Findings of reduced federal funding and increased local funding are expected, as federal funds are targeted to higher-needs populations that are presumably remaining in districts at higher rates than seceding districts. This increased federal funding, however, is not of a magnitude to make up for additional local revenue per pupil realized by the seceding districts. The finding that state revenue per pupil was

higher in seceding districts was surprising, as many states build vertically equitable levels into their funding mechanisms. The overall result is that it is fiscally beneficial for seceding districts and correspondingly fiscally detrimental to remaining districts for these separations to occur. T-tests of these differences shown in Table 3 indicate that all revenue differences are statistically significant, with state revenue per pupil only being significant at the $p<.10$ level with a p-value of .08.

Figure 3 and Table 4 present findings comparing the demographics of seceded districts to remaining districts for all years of the study.

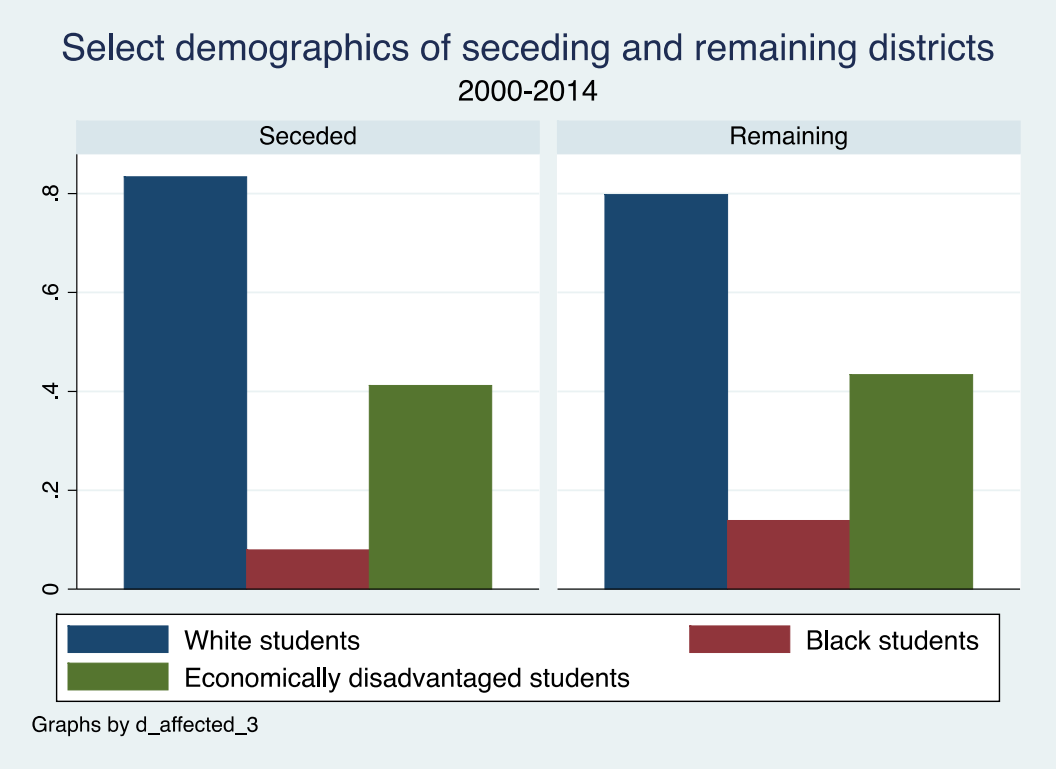

Figure 3: Demographics of seceded versus remaining districts, 2000-2014

Table 4: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
White	.84	.80	*	p=.02
Black	.08	.14	***	p<.00
Hispanic	.06	.03	***	p<.00
FRL	.41	.43	-	p=.12
n=575				

The finding in figure 3 comport with the assumption that seceded districts would be less diverse: seceded districts are 3% whiter than remaining districts and have 6% fewer Black and 1% fewer economically disadvantaged students than remaining districts. T-tests of these differences shown in Table 3 indicate that all demographic differences are statistically significant except for differences in the economically disadvantaged population (p=.12).

Figure 4 and Table 5 present findings comparing segregation levels of seceded districts to remaining districts for all years of the study.

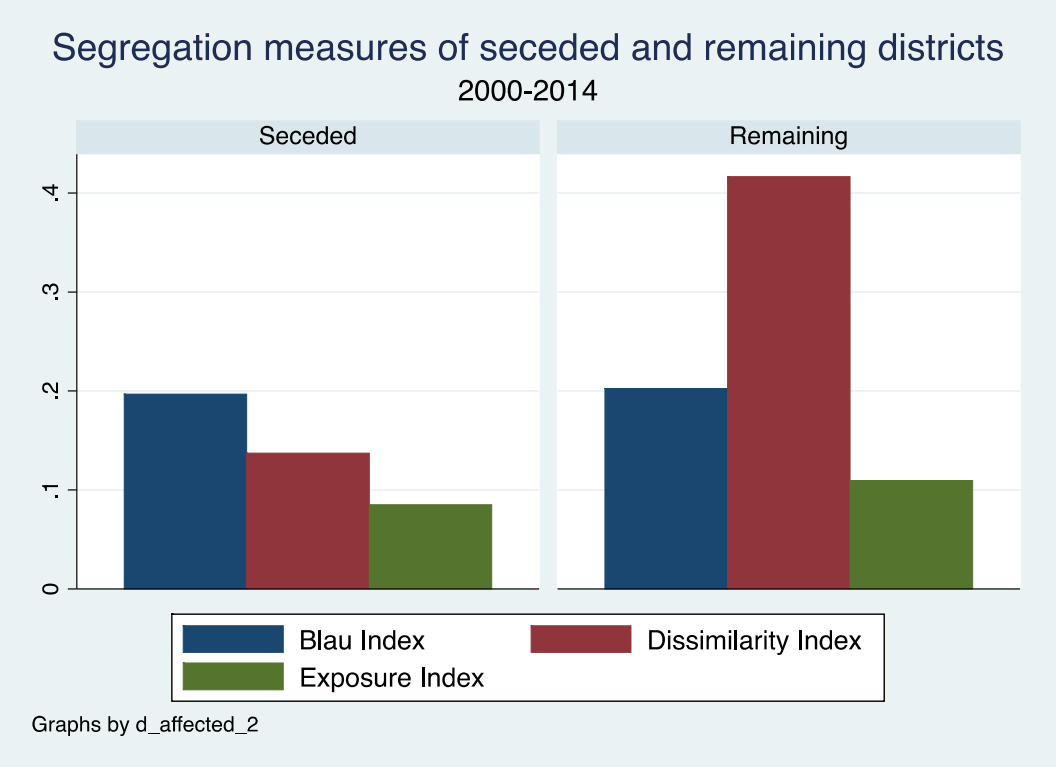

Figure 4: Segregation measures, seceded v. remaining, 2000-2014

Table 5: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
Dissimilarity	.14	.42	***	p<.00
Exposure	.08	.11	-	P<.06
Blau	.19	.20	-	P<.12
n=575				

The findings from Figure 4 and Table 4 are mixed. The dissimilarity index in remaining districts is .42; 29 points higher than in seceding districts and indicating that remaining districts are more segregated than seceding ones. The exposure index, however, is lower in seceded districts than in remaining districts by 3 points, which indicates the probability of interacting with someone of a different race is higher in remaining districts than in seeded ones. The Blau index is the same in both categories of district. T-tests of these differences shown in Table 5 indicate that only the differences in dissimilarity and exposure are statistically significant, and that the differences in the exposure index are only significant at the p<.10 level with a p-value of .06.

Table 6. OLS Estimates of Resources and Demographics Post-Secession in Original Districts and Seceded Districts

	Original district after secession compared to non-splintered districts	Seceded districts compared to non-seceded districts
Revenue per pupil		
Total	-1,306**	2,999***
Federal	-99	-73
State	-503	760
Local	-703*	2,312**
Segregation		
Dissimilarity	0.03	-0.23***
Exposure	-0.03*	0.02
Blau	0.02	0.08

Descriptively, these findings demonstrate that new seceded districts are advantaging themselves relative to the districts that remain. Racial differences between seceded and remaining districts are almost entirely driven by the Black student population, a piece of evidence that may indicate a connection between seceding districts and white flight community impulses. Fiscally, seceding districts realize higher levels of funding per pupil, driven almost entirely by increases in local revenues that offset marginal changes in state revenues and decreases in more targeted federal revenues per pupil.

We next model these dynamics to understand the relative position of remaining and seceded districts in the wider population of school districts. Table 6 reports coefficients and significance of equation (2), and reports that remaining districts are disadvantaged relative to districts that have not been separated from. This fiscal disadvantage is 1,300 dollars per pupil and over half of that difference is driven by reductions in local per pupil revenue. Seceding districts see a

fiscal advantage compared to general districts of almost 3,000 dollars per pupil with 2,312 of that difference accounted for by increases in local revenue. In addition seceded districts see a significant reduction in segregation as measured by the dissimilarity index, presumably due to a increased heterogeneity of the student population provided by the descriptive statistics.

We can assume that this pattern will hold as districts separate themselves, but a finding of interest was that some districts were providing multiple secessions. That is, some districts were spawning multiple new districts. To understand this dynamic better, and to see if the patterns of resource and demographic distribution held steady we calculated a "years post separation" variable for 1st, 2nd, and 3rd separations These count variables were run in a model with controls for race, class, district, district size, state, region and year. These models are not comparing remaining districts to only seceded districts; rather they are comparing the effect of secession on the remaining district compared to itself. Results of the effect of the first separation on select revenue and segregation variables is presented in Table 7.

Table 7: Annualized effect of secession on remaining district (first secession)

Variable	Coefficient		p
Total revenue*	-393	*	p=.09
Federal revenue*	203	**	p<.00
State revenue*	-460	**	p<.00
Local revenue*	-136	*	p=.08
Dissimilarity	-.008	**	p<.00
Exposure	.004	**	p<.00
* - all dollar amounts are per-pupil, inflation adjusted			

The findings in Table 5 differ from the findings in the t-test comparison analysis. The total revenues for the remaining district are reduced at a rate of $393 per year, but in this model state revenue also declines annually, and at the highest rate of revenue from any source. Local revenue declines annually at a rate of only $136 per pupil and federal revenue increases by $203

per pupil. Looking at revenue amounts per year when a district has been left for the first time, it appears that – in addition to some expected loss of local revenue as property is taken out of the district – the remaining district is at some structural disadvantage vis-à-vis the state funding mechanism. Since state funding mechanisms vary widely across all 50 states, it is difficult to ascertain what that structural inequality might be, but the disadvantage is significant both statistically and substantively.

When examining the effect of a first district leaving on the remaining district in terms of segregation measures, the dissimilarity index shows a slight decline and the exposure index a slight uptick. These findings, both significant, indicate that remaining districts are slightly more integrated , possibly because the remaining student population has been rendered ore homogeneous by the loss of the seceding district's student body.

Findings from an analysis of the second secession on the remaining district are presented in Table 9.

Table 9: Annualized effect of secession on remaining district (second secession)

Variable	Coefficient		p
Total revenue*	343	-	--
Federal revenue*	-699	**	p<.00
State revenue*	754	**	p<.00
Local revenue*	289	**	p<.00
Dissimilarity	-.016	**	p<.00
Exposure	.010	**	p<.00
* - all dollar amounts are per-pupil, inflation-adjusted			

Findings in Table 9 indicate that the second secession from a district yields very different benefits than the first. The second seceding district sees no statistically significant change in

total revenue, but revenues sources shift to decreased federal revenue per pupil and increased state and local revenue per pupil per year. The segregation patterns for remaining districts remain the same as for the first secession; the dissimilarity decreases while the exposure index increases.

Taken together, these results demonstrate that seceded districts are overall wealthier, whiter and less Black than their remaining district peers. While the revenue findings from the t-tests generally conform to the coefficients reported from regression analysis, the segregation indices differ. It looks as if, in regards to remaining districts, these districts are more segregated initially, but seem to become marginally less segregated as a result of secessions out of their district.

Discussion

The growing movement towards separating or secession of districts has negative ramifications for the remaining districts. These ramifications are both demographic and fiscal. Demographically, districts remaining after a secession are descriptively less white and more Black that the districts formed from them. They are more segregated in terms of the distribution of population, but more diverse in terms of exposure to students of different backgrounds than districts that secede. Some of this dynamic may be an artifact of the relative homogeneity of the seceding district. Districts that are left behind via the creation of new school districts have fewer white students to integrate across schools, and more Black students to consider and are prevented – via Milliken – from seeking to integrate systems across school district boundaries.

Fiscally, remaining districts are poorer than the districts that secede. Although remaining districts gain in federal revenue per pupil, they have fewer resources in terms of both state and local revenues per pupil with which to operate. A district facing the secession of another district – especially if that district is the first to secede – faces a loss of almost $400 per pupil as well as additional challenges from slightly higher populations of economically disadvantaged students. While these resources seem to be recouped if a second district secedes, revenue streams are shifted. Remaining districts are also unable to make up for the lost property wealth a seceding district takes with it and therefore face a less even playing field within a post-Rodriguez environment. The funding shifts noted in our analysis imply shifts in governance as well, as local funds allow districts to more nimbly operate. It may be no surprise then that nimbler districts with fewer educational challenges to face might begin to outperform their peers, thereby perpetuating a failing schools narrative and thwarting efforts at comprehensive, equity-oriented reform. .

This cursory study raises additional questions in this description of districts remaining after secession. Yet to be examined is the relative wealth of seceded and remaining districts in terms of property wealth per pupil, as well as the relative tax effort put forth by seceded and remaining districts in terms of property tax rates, which will reveal the ease with which districts can raise funds to supplement state and federal revenue sources. Nevertheless, it is clear that the ability to secede and form new school districts exists at an intersection of Rodriguez and Milliken, in a space defined by and yet unaddressed by the court in Brown. District secession is another mechanism within a taxonomy of white resistance to integration that districts are beginning to use with increasing frequency and to the advantage of some. This ability to literally game the

system for fiscal and demographic advantage shows that the court in Brown was able to articulate a vision, but unable to define the mechanisms by which that vision would be realized, nor able to anticipate the myriad pathways school leaders would take to resist or defy accepting the burden of that vision.

All,

Sorry for not sending earlier. Please see the email below and attached draft article from Dr. Houck. I am still in the process of reviewing, but wanted to share in case any of you had any comments to pass along to Dr. Houck as well. Please respect Dr. Houck's wishes and don't discuss the article publicly since it is still a draft.

Regards,

Eric Rowell

Hi Eric:

Thank you for reaching out. Sorry for the delayed response. I regret not being able to present and speak with the group.

My article in the PJE is still "in press" - due out this fall. I'm happy to share a draft with you (attached) and answer questions about it; however, I'd appreciate it if the committee would refrain from discussing the article in media interviews, etc. to the extent possible.

In general, we find, using a national dataset, that districts that remove themselves from larger districts gain a financial advantage: they see increases in local revenue that more than compensate for decreases in federal revenue. In general, state revenue also increases. They are also more racially homogeneous. My coauthor and I do not necessarily see this as a good thing from the perspective of the remaining districts which are consequently more segregated and less well funded.

Again, this is a national study and I'd be happy to talk about/ conjecture what a separation would look like from the perspective of the NC funding mechanism.

Hope this helps! The committee is undertaking hard work and I appreciate y'all's time and effort in doing this research.

-Eric

Left Behind: District secession and the re-segregation of American schools.

Eric A. Houck, PhD – University of North Carolina at Chapel Hill[1]
Brittany C. Murray – University of North Carolina at Chapel Hill

Abstract

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield, Frankenberg, & Lee, 2003). The mechanisms of this re-segregation are legal action, voluntary moves towards unitary status, unintended consequences of integration-oriented strategies, and an increasing trend towards the fracturing, or splintering of school districts. Both economic and political theory would indicate that splintering districts would work to pull racial and economic advantage out of the remaining district and into their own. To test this, we created a dataset that captures the fiscal and demographic status of US school districts between 2000 and 2014 and analyze the effect of district separation on the remaining districts in terms of student body composition, overall integration and local, state and federal resources. Our findings indicate that separating districts are less diverse than the districts left behind. We further find that separating districts gain resources from local revenue and that remaining districts gain federal revenue in insufficient amounts to account for the loss of local funds. We find that these relative disadvantages for left behind districts and relative advantages for seceding districts persist when compared to the general population of school districts.

Introduction

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield et al., 2003). After Brown and Brown II, whites deployed multiple strategies to prevent the thoughtful and comprehensive integration of American public schools. These strategies included: delayed and ineffective implementation of integration-oriented policies; the abandonment of the public system in favor of all-white or predominantly-white independent schools; the closing of public systems to all students (Gordy, 2009; McUsic, 2003); a redoubled commitment to neighborhood-based student assignment policies that reinforced residential segregation patterns (Ayscue, Siegel-Hawley, Kucsera, & Woodward, 2018; Clotfelter, 2004, 2011; Orfield & Eaton, 1997; Rothstein, 2017; Williams & Houck, 2013); and the development of policies to ensure within-school segregation such as tracking or magnet school models (Mickelson, 2001; Oakes, 1995; West, 1994). Each of these policies built upon preexisting legal frameworks and policies with varying degrees of success. Overall, however, the weight of these combined efforts contributed to the weakening of a national commitment to providing equal educational opportunities for all students. Each of these strategies have policy analogues in current federal, state, and local policy systems, some of which retain the valence of white supremacy present at their inception and others which have been adapted or disguised to uphold the values and interests of racial and ethnic minority communities. We identify these multiple and overlapping strategies, engaging a variety of policymakers and stakeholders, as a *taxonomy of white resistance* to integrated public education. These efforts to resist integrationist policies resulted in the creation of a line of arguments that culminated in the 2007 Supreme Court case of Parents involved in Community Schools (PICS) ("Parents Involved in Community Schools v. Seattle School District No. 1,"

2007), where the use of race as a factor in student assignment was significantly curtailed. The result of these combined efforts is a public school system that is increasingly re-segregated and in which poor and racial and ethnic minority students are increasingly isolated from their wealthier, whiter peers.

This paper analyzes an additional strategy within this taxonomy: the creation of smaller catchment areas out of large unified districts. Supported by court rulings and enabled by the complex and multi-layered system for financing public schools, school district secession is the act of creating new school systems to allow communities to exert control over the composition and financing of school systems themselves rather than fighting for preferred policies within larger, usually more politically and racially diverse systems. While acknowledging the weighty historical valance of the term *secession*, we seek to better understand and describe the complicated intersections of race, class, and school finance that allow and encourage this phenomenon (EdBuild, 2017). We further seek to describe the result of these secessions on levels of student integration and financing of public schools. Specifically, we seek to understand:

- How many school district secessions have occurred during the recent wave of school re-segregation and where they have occurred;
- The demographic profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of racial and socio-economic integration and exposure; and,
- The finance profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of both overall funding levels and the proportion of that funding from federal, state, and local sources.

In the sections that follow we discuss the legal and policy contexts for recent school district secessions, review the systems and mechanisms for distributing per pupil revenue at the federal, state and local levels, present and analyze data on the racial and financial results of successful school district secessions for both the new and the original districts and discuss the implications of these findings for developing policies to support integrated school districts in a post-Brown, post-PICS world.

Legal and Policy Context

The history of resistance to integrating schools described in the introduction has not gone unnoticed or un-scrutinized. From the original Brown ruling (1954) and through the "all deliberate speed" language of Brown II (1955), court challenges and rulings have served to limit the scope and efficaciousness of integration-oriented school policies. State laws around school district secession vary considerably. A recent report (EdBuild, 2017) notes that 30 states have mechanisms for school district secession written into state code. Of these 30, only 23 require voter action, and only 4 states have provisions for citizens in the remaining districts to have voice via a vote in the process.

In some cases, communities are taking advantage of state level laws. Recently, the 11th Circuit Court of Appeals ruled that a petition to form a new school system in the city of Gardendale, Alabama acted with discriminatory purpose in its bid to separate from the wider Jefferson County school system. Lost in the debate over this decision was the fact that the Gardendale secession was the 11th attempt by a locality to remove itself from the county system, and the first

one to be blocked by a court (Jones, n.d.; Faulk, 2018). The Tennessee legislature has recently eliminated barriers to school district secession, resulting in the creation of several new districts around Memphis, and leading other counties to consider separation as well (Frankenberg, Siegel-Hawley, & Diem, 2017). These districts are leveraging or changing state law governing public systems to create their ability to separate. In other cases, however, localities are trying to declare themselves independent without specific state law (Strauss, 2018). Several communities surrounding Charlotte, NC - Huntersville, Matthews, and Mint Hill - have recently petitioned to become charter districts, thereby leveraging the state's charter school legislation to create separate districts that will remove them from the more comprehensive and unified Charlotte-Mecklenburg school system. ("Controversial NC charter bill approved. Now, these four towns could open schools.," n.d., "NC town charter school bill stirs state and local ire | Charlotte Observer," n.d.).

While district separation is driven by state law and adherence to statue, the legal frameworks that allow districts to pursue this path exist as a result of two US Supreme Court cases that dramatically influenced the scope and tenor of educational policymaking in the US around questions of school-district integration and via student assignment: San Antonio v. Rodriguez (1972) and Milliken v. Bradley (1974). Each of these cases were brought in order to fill in questions left unaddressed by Brown. That is, while Brown crafted an eloquent aspiration for racial integration as a mechanism to provide equitable educational opportunities for students, it failed to anticipate the vitriol of white backlash or myriad of practical legal questions that would arise in the aftermath of the decision (see, for example: López & Burciaga, 2014; Patterson, Patterson, & Freehling, 2001). Two of these questions existed around the role of funding laws

and practices in securing educational opportunity and the role of district boundaries in balkanizing students in geographically distinct and racially identifiable school districts. The Rodriguez case isolated school financing decisions from comprehensive federal oversight, and Milliken exacerbated this neglect by immunizing school district boundaries from student assignment policies. While there is debate about the relative effect contrary decisions would have had for the future of school integration policies, there is consensus that the fate of integrationist policies is determined by these rulings (Wells, Fox, and Miles 2015; Siegel-Hawley 2015).

In San Antonio v. Rodriguez the Court held that education was not a fundamental right and that school funding mechanisms based on local property taxes did not therefore violate the equal protection clause of the US Constitution (Sutton, 2008). This ruling flew in the face of other state court decisions which had acknowledged the equal protection implications of school funding based on a foundation of variable local property wealth, such as California's Serrano v. Priest (1971). While framing Serrano arguments, scholars had articulated as school finance proposition number one: that the wealth supporting school funding for a child should not be based on wealth other than the wealth of the state as a whole (Coons, Clune, & Sugarman, 1969; J. W. Guthrie, Springer, Rolle, & Houck, 2006). Rodriguez reversed this notion, thereby allowing inter-district variation in community support for public education and reaffirming Tieboutian competition among districts; the implication being that wealthier districts could leverage their wealth to provide greater support for schools in terms of teacher salary supplements, numbers of teachers, quality of instructional materials, and other resources (Ogletree & Robinson, 2015; Tiebout, 2007).

In Milliken v. Bradley, the Court reinforced the legality of de facto segregation – segregation that does not exist as a result of specific legal frameworks – and disallowed desegregation plans from reaching across district boundaries (Amaker, 1974; Sedler, 1986). The result of this ruling allowed districts to maintain racial segregation if they met the burden of demonstrating that it occurred via other mechanisms than specific laws. More importantly for the purposes of this study, Milliken versus Bradley "landlocked" majority minority districts into their boundaries and into their property tax bases, thereby preventing educators and policymakers from applying broad, regional desegregation plans (Jones, 1992) or having access to local dollars necessary to support these broader plans.

Taken together, therefore, these two cases effectively set the conditions for desegregation policy throughout the 1980s and until the turn of the century. Districts, especially Southern districts were left to determine how best to meet their obligation to desegregate based on their specific student population. Given a history of both *de facto* and *de jure* segregation and a legacy of segregating neighborhoods in real estate markets, cases such as Milliken incentivize the creation of whiter school districts out of broader, more integrated communities. While this racial component is important, it is wedded to powerful fiscal and financial incentives as well.

School finance and school desegregation

Into this legal framework flows a school finance and resource allocation system that is itself dizzyingly complex. In addition to running two separate educational budgets - one for current expenditures and one for capital expenditures – US public school systems also intake funds from

three sources: federal, state, and local government (Ladd & Hansen, 1999; Thompson & Wood, 2012). Each of these funding steams has a separate and distinct basis for funding and a different level of sensitivity to economic and political changes in local and national contexts (J. Guthrie, Springer, Rolle, & Houck, 2007; J. W. Guthrie, 2006).

Federal funds comprise approximately 10-12 percent of education budgets and are most often allocated on the principal of positive vertical equity – the unequal treatment of differently situated groups. Funding for Title I services or impact aid are targeted to support specific subpopulations of students; therefore, federal revenues per pupil are often found at increased levels in districts with greater educational challenges. State funds are the largest source of revenue for most states, and are distributed to districts based on state funding mechanisms. While some of these mechanisms provide additional funding to address student need, others do not. In addition, states vary in the student, school, and district characteristics they provide with vertically equitable funding. While student and district needs, district sparsity, and academic disadvantage may all be address within state funding mechanisms, there is no consensus across states on which of these items would be differentially funding, or to what degree. Finally, individual states establish different mechanisms for yoking state and local revenue. A number of states, for example, utilize power equalizing or guaranteed tax base plans to subsidize property-poor districts and reward local taxation effort (Springer, Houck, Guthrie 2015). Local funds are derived from local property tax valuations and are often considered the largest driver of educational inequality from a funding and resource allocation perspective. Variations in local wealth exist at the center of the school finance litigation paradigm as plaintiffs seek to ameliorate

the deleterious consequences of local revenue that can exacerbate existing within-state inequities (Akin & YoungDay, 1976; Chakrabarti, Livingston, & Roy, 2014; Ladd, 1975).

The ability of localities to levy the wealth of their tax base to provide additional school funding provides another motivation for district separation. Smaller wealthier communities can spread their greater wealth over a targeted number of students and thereby gain a fiscal and competitive advantage over surrounding school districts. Some districts have used local funds to shore up policies that abandoned busing for diversity in favor of neighborhood-based school assignment policies (Gamoran & An, 2016; Goldring, Cohen-Vogel, Smrekar, & Taylor, 2006; Houck, 2010).

Finally, the governance of different funding sources has implications for district operations. While federal and state revenue sources come with a variety of regulatory and reporting requirements, local funds are considerably more fungible, thereby allowing districts more flexibility in addressing their capital needs and operational goals. In this construction, additional local funding can be a proxy for flexibility and reduced costs in terms of developing and maintaining a reporting and compliance infrastructure.

As demonstrated, many of the mechanisms that generate and distribute revenue by states are sensitive to the racial and socio-economic conditions within a district. By changing student composition through a reassignment policy or through a district secession, districts gain change the manner in which schools are resourced – both in terms of dollar amounts of revenue as well as the governance and accountability mechanisms tied to that revenue (Houck, 2011).

The legal framework bounded by the Rodriguez and Milliken decisions, combined with a complicated and manifold funding system for public education, provides district leaders opportunities to take advantage of the spaces within this system for their own advantage. We sought to determine what advantage, if any, could be found by seceding into a new school district, relative to a left behind district and relative to other districts in general. Table 1presents data on district secession by state, as well as an overview of funding model values and any relevant legislation controlling secession.

Table 1: Secessions by state, funding model type, and secession legislation, 2000-2015

State	No. of seceded districts since 2000	State Equity Model	Must consider impact on
Alabama	10	Horizontal	None
Colorado	4	Vertical	demographics
Idaho	3	Horizontal	None
Louisiana	3	Vertical	None
Maine	15	Vertical	None
Massachusetts	1	Vertical	None
Ohio	2	Vertical*	None

Data and Methods

For the analyses that follow, we assembled a rich panel of district resources and demographics paired with time-varying indicators for districts that secede and those that are left behind. We used school- and district-level administrative data from the National Center for Educational Statistics (NCES) over the years 2000-2014. We manually identified seceded and remaining districts using guidance from EdBuild (EdBuild, 2017) over the universe of public school districts nationwide. Additionally, we matched these districts to the Stanford Education Data Archive to analyze community context variables created from American Communities Survey (ACS) items aggregated to the district level. Items from this dataset span the years between 2009-2015. We exclude special education, vocational, and charter school districts from the analysis.

Dependent Variables

Key outcome variables include measures of district resources and segregation. We use total, federal, state, and local revenues from NCES' district finance surveys and divided by total enrollment to create per-pupil measures adjusted for inflation using the Consumer Price Index (CPI).

To measure levels of segregation, we use school-level demographic data to calculate a black-white dissimilarity index. The index of dissimilarity measures segregation between two groups and is generally interpreted as the percentage of one group that would need to relocate so that the balance of every unit reflects the balance of the overall whole. A low dissimilarity index is viewed as representing more even integration and a higher dissimilarity index (with one as an

upper bound) indicates greater segregation. A limitation of the dissimilarity index is that, if levels of the two groups are unequal, the index can also represent homogeneity of one group over another.

We also calculate an exposure index which takes into account the relative sizes of each subgroup and tells us the extent to which one group comes in contact with the other (Reardon & Firebaugh, 2002; Reardon & O'Sullivan, 2004). The exposure index addresses a key limitation of the dissimilarity index by measuring the degree to which one is likely to have interactions with a member of a different group. A low exposure index indicates more segregated or isolated environment, and a higher exposure index represents a greater likelihood of interaction with a member of a different group.

Finally, we estimate a measure of intra-district diversity calculated using a Blau Index. The Blau index is a school-level measure representing the probability that a student selected at random is from a single racial/ethnic subgroup (Harrison & Klein, 2007; Rushton, 2008). It is calculated using the proportion of students from each racial/ethnic group represented using the following equation:

$$\lambda = 1 - (Pr_{white}^2 + Pr_{black}^2 + Pr_{Hispanic}^2 + Pr_{other}^2) \qquad (1)$$

The Blau index goes by many names in the sociological literature, but generally is an indication of the probability that, were two group members selected at random from a larger group they would represent members of different subpopulations. Though not often used in segregation analyses, the Blau index has been profitably used in organizational studies, albeit with some caveats (Jacobs et al., 2013; Rushton, 2008). We also include the proportion of black, white,

Hispanic, and students receiving free- or reduced-priced lunch in a district. Table 2 lists descriptive statistics for key variables.

Table 2: Descriptive statistics for key variables by secession status, 2000-2014

	All Districts	Original districts pre-secession	Original districts post- secession	Seceded districts

Independent Variables

To understand district secession, new districts appearing in the dataset were assumed to have formed from within a pre-existing district in previous years. New districts were identified and paired with their parent district based on geographic variables such as FIPS and zip codes. The final dataset consisted of 189,702 district-year observations. Of 15,001 unique school districts, we observe 36 seceded districts and 26 original districts in the dataset. We refer to original districts as those remaining after a district(s) separated. In some cases, original districts dissolved upon secession. Given the longitudinal nature of our data, these phenomena resulted in 288 distinct seceded district-years and 280 original district-years, providing a final analytic sample of 568 district-year observations. Figure 1 presents the secession and remaining rate by year for districts in the dataset. A list of the 44 separated/seceded districts and their remaining district, state, and year of secession can be found in Appendix 1.

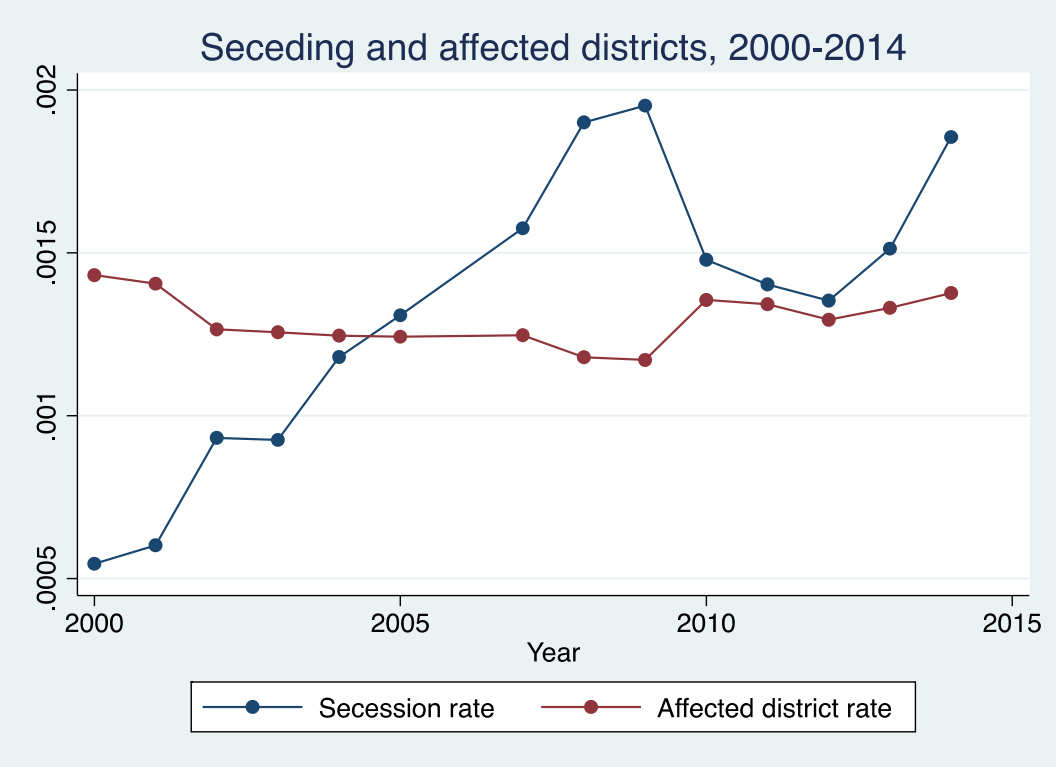

Figure 1: Secession rates by year

Analytic Strategy

Analysis was completed on 576 year-unit observations via univariate and multivariate analysis among both seceded and original districts. Descriptive analysis and t-tests were used to examine overall differences between seceded districts and their remaining districts for demographic variables, segregation indices, and funding levels. We use ordinary least-squares (OLS) regression models to estimate pooled differences between resources and demographics in original districts before and after district secession occurs. We run separate models for seceded districts, providing an estimate of the differences between resources and demographics for the original districts and newly formed districts. We also run a separate model for original districts after they have had smaller districts secede. These models include a vector of district and

community level controls. Given these models are heteroskedastic due to the nested nature of the data, we cluster at the district level to provide robust standard errors for interpretation.

These models take the form:

$$\gamma_d = \alpha + \beta_1 Sec_d + \beta_2 X_d + \sum \beta_3 Year_t + \sum \beta_4 Dist_d + \mu_d + \varepsilon_{dt} \quad (2)$$

Where γ_{dt} is the year to year variation in total, federal, state, and local revenue in addition to dissimilarity, exposure, and diversity indices; Sec_{dt} is a time-varying indicator for seceded districts and districts in the post-period of having a secession. We include a vector, X_{dt}, of time-varying district-level controls such as race, class, district, state, region, year and preexisting diversity of each district (community variables are omitted here given they are collinear with the district fixed effect). Finally, μ_d and ε_{dt} are between- and within-district error terms. We also wanted to examine how district resources and segregation levels varied at each additional year post-secession for both seceded and original districts. Therefore, we modified our predictor variable by capturing the number of years post secession to predict subsequent changes in the outcome variables. These models can be interpreted as change in revenue or segregation given an additional year of remaining as a seceded or original district post-secession.

Using these models, our analytic strategy was to examine the impact of secession on original and seceded districts relative to each other; that is to understand how resources and demographics changed

Results

Figure 2 and Table 3 present findings comparing revenue levels of seceded districts to remaining districts for all years of the study.

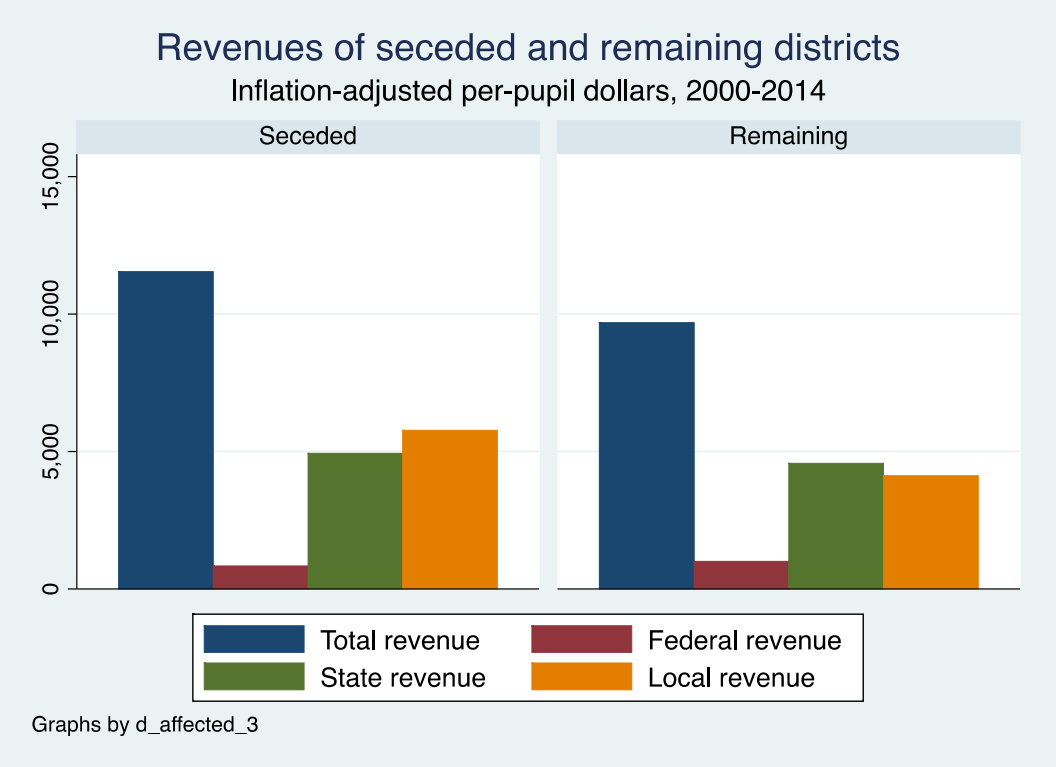

Figure 2: Inflation adjusted per pupil revenue, seceded versus remaining districts, 2000-2014

Table 3: Inflation adjusted revenues per pupil, 2000-2014

Measure	Seceded	Remaining		p
Total	11,514	9,678	***	p<.00
Federal	826	995	***	p<.00
State	4,931	4,536	-	p=.07
Local	5,772	4,117	***	p<.00
n=575				

Figure 2 demonstrates that seceded districts received $1,837 more overall funding , $395 more state funding, and substantially more local funding ($1,655) than remaining districts per pupil. Seceding districts did receive $169 less federal funding per pupil. Findings of reduced federal funding and increased local funding are expected, as federal funds are targeted to higher-needs populations that are presumably remaining in districts at higher rates than seceding districts. This increased federal funding, however, is not of a magnitude to make up for additional local revenue per pupil realized by the seceding districts. The finding that state revenue per pupil was

higher in seceding districts was surprising, as many states build vertically equitable levels into their funding mechanisms. The overall result is that it is fiscally beneficial for seceding districts and correspondingly fiscally detrimental to remaining districts for these separations to occur. T-tests of these differences shown in Table 3 indicate that all revenue differences are statistically significant, with state revenue per pupil only being significant at the $p<.10$ level with a p-value of .08.

Figure 3 and Table 4 present findings comparing the demographics of seceded districts to remaining districts for all years of the study.

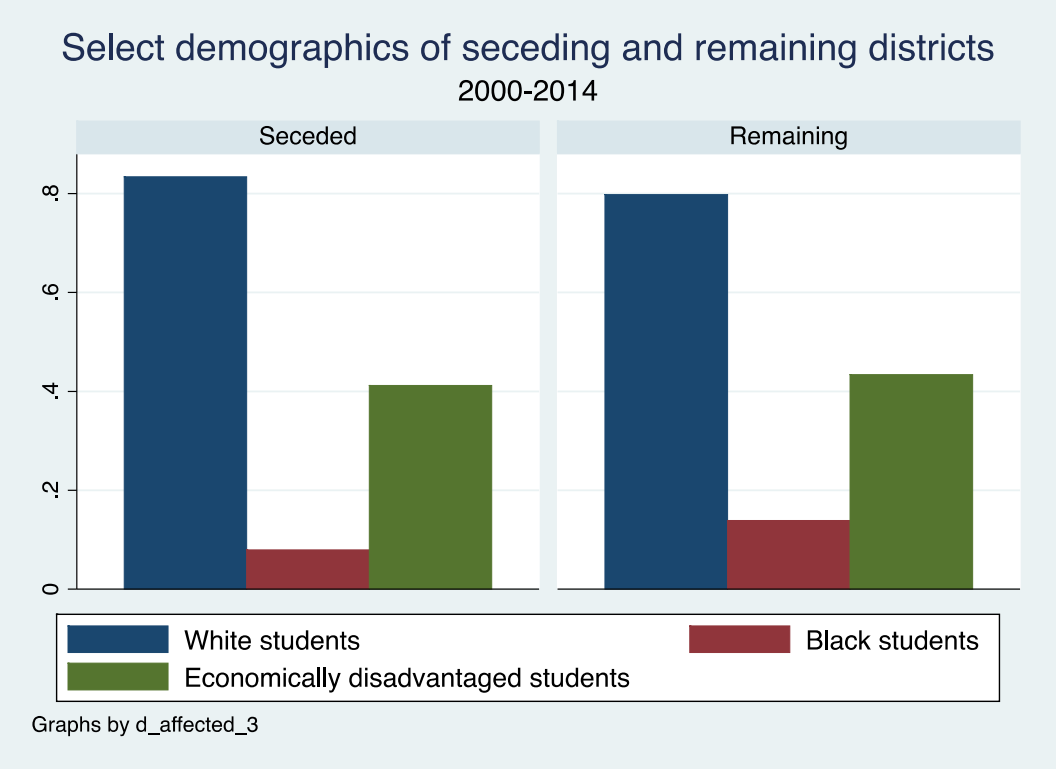

Figure 3: Demographics of seceded versus remaining districts, 2000-2014

Table 4: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
White	.84	.80	*	p=.02
Black	.08	.14	***	p<.00
Hispanic	.06	.03	***	p<.00
FRL	.41	.43	-	p=.12
n=575				

The finding in figure 3 comport with the assumption that seceded districts would be less diverse: seceded districts are 3% whiter than remaining districts and have 6% fewer Black and 1% fewer economically disadvantaged students than remaining districts. T-tests of these differences shown in Table 3 indicate that all demographic differences are statistically significant except for differences in the economically disadvantaged population (p=.12).

Figure 4 and Table 5 present findings comparing segregation levels of seceded districts to remaining districts for all years of the study.

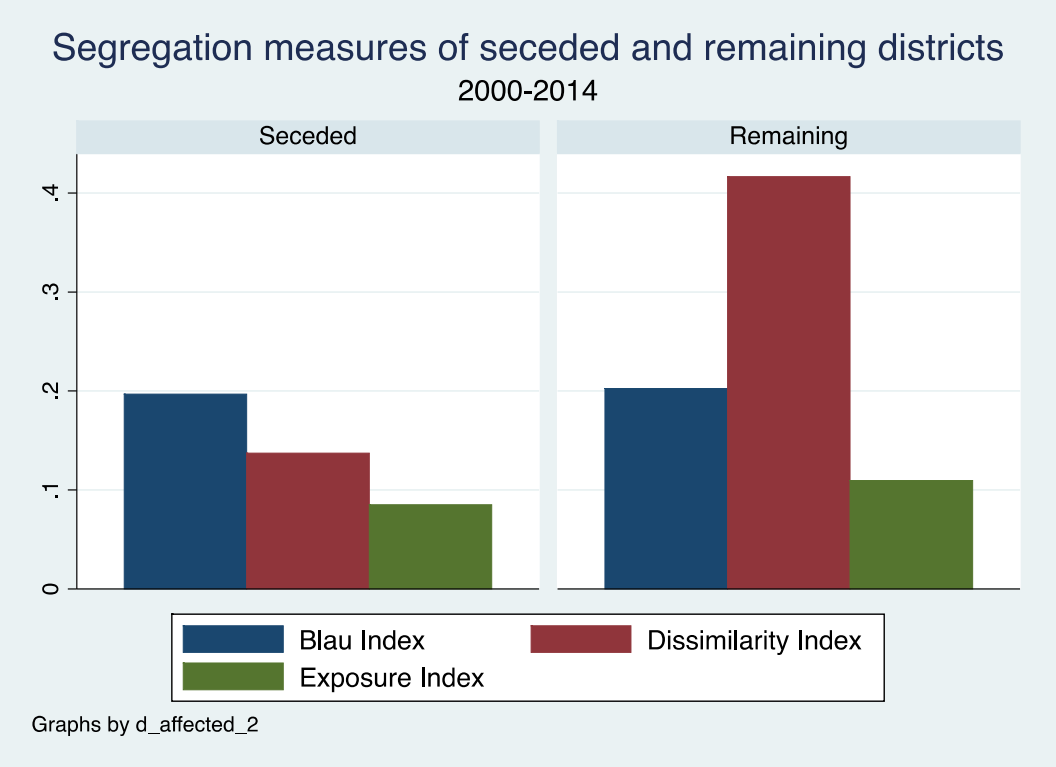

Figure 4: Segregation measures, seceded v. remaining, 2000-2014

Table 5: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
Dissimilarity	.14	.42	***	p<.00
Exposure	.08	.11	-	P<.06
Blau	.19	.20	-	P<.12
n=575				

The findings from Figure 4 and Table 4 are mixed. The dissimilarity index in remaining districts is .42; 29 points higher than in seceding districts and indicating that remaining districts are more segregated than seceding ones. The exposure index, however, is lower in seceded districts than in remaining districts by 3 points, which indicates the probability of interacting with someone of a different race is higher in remaining districts than in seeded ones. The Blau index is the same in both categories of district. T-tests of these differences shown in Table 5 indicate that only the differences in dissimilarity and exposure are statistically significant, and that the differences in the exposure index are only significant at the p<.10 level with a p-value of .06.

Table 6. OLS Estimates of Resources and Demographics Post-Secession in Original Districts and Seceded Districts

	Original district after secession compared to non-splintered districts	Seceded districts compared to non-seceded districts
Revenue per pupil		
Total	-1,306**	2,999***
Federal	-99	-73
State	-503	760
Local	-703*	2,312**
Segregation		
Dissimilarity	0.03	-0.23***
Exposure	-0.03*	0.02
Blau	0.02	0.08

Descriptively, these findings demonstrate that new seceded districts are advantaging themselves relative to the districts that remain. Racial differences between seceded and remaining districts are almost entirely driven by the Black student population, a piece of evidence that may indicate a connection between seceding districts and white flight community impulses. Fiscally, seceding districts realize higher levels of funding per pupil, driven almost entirely by increases in local revenues that offset marginal changes in state revenues and decreases in more targeted federal revenues per pupil.

We next model these dynamics to understand the relative position of remaining and seceded districts in the wider population of school districts. Table 6 reports coefficients and significance of equation (2), and reports that remaining districts are disadvantaged relative to districts that have not been separated from. This fiscal disadvantage is 1,300 dollars per pupil and over half of that difference is driven by reductions in local per pupil revenue. Seceding districts see a

fiscal advantage compared to general districts of almost 3,000 dollars per pupil with 2,312 of that difference accounted for by increases in local revenue. In addition seceded districts see a significant reduction in segregation as measured by the dissimilarity index, presumably due to a increased heterogeneity of the student population provided by the descriptive statistics.

We can assume that this pattern will hold as districts separate themselves, but a finding of interest was that some districts were providing multiple secessions. That is, some districts were spawning multiple new districts. To understand this dynamic better, and to see if the patterns of resource and demographic distribution held steady we calculated a "years post separation" variable for 1st, 2nd, and 3rd separations These count variables were run in a model with controls for race, class, district, district size, state, region and year. These models are not comparing remaining districts to only seceded districts; rather they are comparing the effect of secession on the remaining district compared to itself. Results of the effect of the first separation on select revenue and segregation variables is presented in Table 7.

Table 7: Annualized effect of secession on remaining district (first secession)

Variable	Coefficient		p
Total revenue*	-393	*	p=.09
Federal revenue*	203	**	p<.00
State revenue*	-460	**	p<.00
Local revenue*	-136	*	p=.08
Dissimilarity	-.008	**	p<.00
Exposure	.004	**	p<.00
* - all dollar amounts are per-pupil, inflation adjusted			

The findings in Table 5 differ from the findings in the t-test comparison analysis. The total revenues for the remaining district are reduced at a rate of $393 per year, but in this model state revenue also declines annually, and at the highest rate of revenue from any source. Local revenue declines annually at a rate of only $136 per pupil and federal revenue increases by $203

per pupil. Looking at revenue amounts per year when a district has been left for the first time, it appears that – in addition to some expected loss of local revenue as property is taken out of the district – the remaining district is at some structural disadvantage vis-à-vis the state funding mechanism. Since state funding mechanisms vary widely across all 50 states, it is difficult to ascertain what that structural inequality might be, but the disadvantage is significant both statistically and substantively.

When examining the effect of a first district leaving on the remaining district in terms of segregation measures, the dissimilarity index shows a slight decline and the exposure index a slight uptick. These findings, both significant, indicate that remaining districts are slightly more integrated , possibly because the remaining student population has been rendered ore homogeneous by the loss of the seceding district's student body.

Findings from an analysis of the second secession on the remaining district are presented in Table 9.

Table 9: Annualized effect of secession on remaining district (second secession)

Variable	Coefficient		p
Total revenue*	343	-	--
Federal revenue*	-699	**	p<.00
State revenue*	754	**	p<.00
Local revenue*	289	**	p<.00
Dissimilarity	-.016	**	p<.00
Exposure	.010	**	p<.00
* - all dollar amounts are per-pupil, inflation-adjusted			

Findings in Table 9 indicate that the second secession from a district yields very different benefits than the first. The second seceding district sees no statistically significant change in

total revenue, but revenues sources shift to decreased federal revenue per pupil and increased state and local revenue per pupil per year. The segregation patterns for remaining districts remain the same as for the first secession; the dissimilarity decreases while the exposure index increases.

Taken together, these results demonstrate that seceded districts are overall wealthier, whiter and less Black than their remaining district peers. While the revenue findings from the t-tests generally conform to the coefficients reported from regression analysis, the segregation indices differ. It looks as if, in regards to remaining districts, these districts are more segregated initially, but seem to become marginally less segregated as a result of secessions out of their district.

Discussion

The growing movement towards separating or secession of districts has negative ramifications for the remaining districts. These ramifications are both demographic and fiscal. Demographically, districts remaining after a secession are descriptively less white and more Black that the districts formed from them. They are more segregated in terms of the distribution of population, but more diverse in terms of exposure to students of different backgrounds than districts that secede. Some of this dynamic may be an artifact of the relative homogeneity of the seceding district. Districts that are left behind via the creation of new school districts have fewer white students to integrate across schools, and more Black students to consider and are prevented – via Milliken – from seeking to integrate systems across school district boundaries.

Fiscally, remaining districts are poorer than the districts that secede. Although remaining districts gain in federal revenue per pupil, they have fewer resources in terms of both state and local revenues per pupil with which to operate. A district facing the secession of another district – especially if that district is the first to secede – faces a loss of almost $400 per pupil as well as additional challenges from slightly higher populations of economically disadvantaged students. While these resources seem to be recouped if a second district secedes, revenue streams are shifted. Remaining districts are also unable to make up for the lost property wealth a seceding district takes with it and therefore face a less even playing field within a post-Rodriguez environment. The funding shifts noted in our analysis imply shifts in governance as well, as local funds allow districts to more nimbly operate. It may be no surprise then that nimbler districts with fewer educational challenges to face might begin to outperform their peers, thereby perpetuating a failing schools narrative and thwarting efforts at comprehensive, equity-oriented reform. .

This cursory study raises additional questions in this description of districts remaining after secession. Yet to be examined is the relative wealth of seceded and remaining districts in terms of property wealth per pupil, as well as the relative tax effort put forth by seceded and remaining districts in terms of property tax rates, which will reveal the ease with which districts can raise funds to supplement state and federal revenue sources. Nevertheless, it is clear that the ability to secede and form new school districts exists at an intersection of Rodriguez and Milliken, in a space defined by and yet unaddressed by the court in Brown. District secession is another mechanism within a taxonomy of white resistance to integration that districts are beginning to use with increasing frequency and to the advantage of some. This ability to literally game the

system for fiscal and demographic advantage shows that the court in Brown was able to articulate a vision, but unable to define the mechanisms by which that vision would be realized, nor able to anticipate the myriad pathways school leaders would take to resist or defy accepting the burden of that vision.

Subject: HEOSC Questions of CMS

Members of the Huntersville Education Options Study Commission,

Please see CMS's response to the questions poised to us by the subcommittee on Partnering with CMS:

1. **Please provide an interpretation to The Municipal Concerns Act of 2018, Article II – Priority of Capital Spending in Certain Municipalities?**

As covered at the Dec. 4th, 2018 MEAC meeting (**link**), Article II of the MCA instructs the Superintendent to provide "priority points" to the municipalities of Charlotte, Davidson, and Pineville for future (post-2017 bond) capital spending. It does ***NOT*** create a moratorium for capital spending in any of the seven municipalities within Mecklenburg County.

At the April 9th Board Meeting, CMS approved a new contract for our Capital Program Management (CPM) Vendor after a 6-month RFQ process. The CPM vendor will be tasked with recommending updates and improvements to the capital needs assessment tool that CMS has used for the past 10+ years. This would include accounting for the new "prioritization points" for Charlotte, Davidson, and Pineville. Further, should the HEOSC and the Huntersville Town Board opt not to pursue a municipal charter school, the town would immediately receive said bonus points. Now that the CPM contract is finalized, we are moving forward immediately with the review of the capital needs assessment tool. We look forward to sharing more details as the work progresses.

2. **What type of scenarios would CMS propose in a partnership with the Town of Huntersville to address future capital needs for our students?**

As discussed at the Dec. 4th, 2018 MEAC meeting **(link)**, with the passage of **SL 2018-5** (SB 99 from the 2017-2018 NCGA session), North Carolina municipalities are now authorized to utilize taxing authority to pay for all items relating to schools. This new ability opens opportunities for CMS to partner with municipalities in new and innovative ways. For example, Huntersville could donate land to CMS for the construction of new schools, or Huntersville could pay for the construction of schools on property owned by CMS (e.g. the Grand Oak Elementary site). We are pleased to explore these and other exciting new ways to partner with the Town of Huntersville to address future capital needs for our students.

3. **Please provide insight into how CMS uses student assignment policy to determine where new schools are built. The goal of this question is to understand the link between student assignment policies and school site selection.**

CMS's Student Assignment Policy is defined by **Policy JCA** and its accompanying regulations (**JCA-R**) and exhibits (**JCA-E1** & **JCA-E2**). Under the Guiding Principles for Student Assignment section of Policy JCA the Board states, "*the Board will consider several factors when determining and adjusting assignment patterns. These include but are not limited to current and future population growth and potential demographic shifts, overcrowding and underutilization of facilities. Additionally, the Board will consider undertaking a comprehensive district-wide review of the Student Assignment Plan every six years, while recognizing it may be necessary to make more frequent localized changes to the assignment plan based on the aforementioned factors.*" Further, that policy code defines five unranked Student Assignment Goals:

- Provide choice and promote equitable access to varied and viable programmatic options for all children
- Maximize efficiency in the use of school facilities, transportation and other capital and operational resources to reduce overcrowding
- Reduce the number of schools with high concentrations of poor and high-needs children
- Provide school assignment options to students assigned to schools that are not meeting performance standards established by the state
- Preserve and expand schools and programs in which students are successfully achieving the mission and vision of the Board

4. **Does CMS have any existing partnerships (municipal or otherwise) that address overcrowding/capacity? If so, please tell us about it.**

As mentioned in question #2 above, the newly authorized ability for municipalities to partner in school capital funding is new to North Carolina. As such, we do not have any current partnerships in place, but are excited about the possibilities of working with our municipal partners.

5. **Would CMS be willing to work on a Student Assignment Plan in collaboration with the Town of Huntersville that would meet the future capacity needs for our students?**

While **NCGS 115C-47 (3)** tasks local school boards with the exclusive right and duty to create attendance zones within their jurisdiction, CMS always welcomes engagement from our municipal partners and constituents when we assess proposed changes. In particular, we

plan to solicit feedback as we work to update our capital needs assessment tool. For more detail, please view the Feb. 5th, 2019 MEAC meeting (**link**).

6. **How does CMS determine the construction/building cost of a new school? What is the total construction/building costs of a new school:**

(Current cost per square foot) x (Programmed building square footage) x (1.33%*) + (Land and/or Demolition) = Initial projected budget without escalation

(*- Includes Furniture, Fixtures and Equipment/Curriculum and Instruction (FF&E), Design Fees, Consultants, Permitting, Contingency, Survey, Borings, Geotechnical/Special Inspection Services, Water Taps, Moving Cost.)

We look forward to continuing to partner with this committee and all of Huntersville over the years to come.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Huntersville Fire Department, Inc.
Huntersville, North Carolina

We have audited the accompanying financial statements of **Huntersville Fire Department, Inc.** (a nonprofit organization), which comprise the statements of assets, liabilities, and net assets – modified cash basis as of June 30, 2019 and 2018, and the related statements of revenue, expenses and changes in net assets – modified cash basis, and functional expenses – modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and net assets of **Huntersville Fire Department, Inc.** as of June 30, 2019 and 2018, and its revenue, expenses, and changes in net assets for the years then ended in accordance with the modified cash basis of accounting as described in Note 2.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

NOTE 1 - NATURE OF ACTIVITIES

Huntersville Fire Department, Inc. (the "Department") is a North Carolina non-profit organization formed for the purpose of fighting fires. The Department operates in the Town of Huntersville in Mecklenburg County, North Carolina. The majority of the Department's revenues are provided by a supplemental fire district tax administered by the Town of Huntersville and Mecklenburg County, North Carolina.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of Huntersville Fire Department, Inc. have been prepared on the modified cash basis of accounting; consequently, revenues and related assets are recognized when received rather than when earned and expenses are recognized when paid rather than when the obligation is incurred. The Department is required to report information regarding its financial position and activities according to two classes of net assets depending on the existence and/or nature of any donor restrictions as follows: net assets without donor restrictions and net assets with donor restrictions.

Donated Materials and Services

The Department records the value of donated goods or services when there is an objective basis available to measure their value. Donated materials and equipment are reflected as contributions in the accompanying statements at their estimated fair market values at date of receipt. No amounts have been reflected in the statements for donated services as no objective basis is available to measure the value of such services. Services donated to the Department include fighting fires, management, fund-raising, and other administrative services necessary for Department operations.

Restricted and Unrestricted Support

Contributions received are recorded as support with donor restrictions or without donor restrictions depending on the existence or nature of any donor restrictions.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future period or restricted by the donor for specific purposes are reported as support with donor restrictions and thus increases that net asset class. However, if a restriction is fulfilled in the same period in which the contribution is received, the Department reports the contribution as support without donor restrictions.

Property and Equipment

Property and equipment purchased by the Department are stated at cost. Donations of property and equipment are recorded as support at their estimated fair value as established by the donor. Such donations are reported as support without donor restrictions unless the donor has restricted the donated asset to a specific purpose.

- Continued -

NOTE 2 - **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** - Continued

Expenditures for maintenance, repairs and minor renewals are charged to expense as incurred. Major renewals and betterments are capitalized. Depreciation is calculated on the straight-line and accelerated methods over the following estimated useful lives:

Building	20 years
Leasehold improvements	15 – 40 years
Fire trucks and equipment	5 – 10 years
Furniture and fixtures	5 – 10 years

Deposits

The Department made a deposit in the amount of $485,000 for a new fire truck that will be acquired during the following fiscal year.

Income Tax Status

The Department is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue code. In addition, the Department has been classified as an organization that is not a private foundation under the Internal Revenue Code and qualifies for the 50% charitable contribution deduction for individual donors. There was no unrelated business income for the years ended June 30, 2019 and 2018.

The Department has adopted ASC 740-10 as it relates to uncertain tax positions for the years ended June 30, 2019 and 2018 and has evaluated its tax positions for all open tax years. The Department is not currently under audit nor has the Department been contacted by the Internal Revenue Service.

Based on the evaluation of the Department's tax positions, management believes all positions taken would be upheld under an examination. Therefore, no provision for the effects of uncertain tax positions has been recorded for the years ended June 30, 2019 and 2018.

Expense Allocation

The cost of providing the Department's various programs and activities have been summarized on a functional basis in the statement of activities. Expenses incurred to support the overall operations of the Department have been allocated to programs and supporting services – general management based on management's estimates of time and effort devoted to each component.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Management believes its estimates are reasonable.

Subsequent Events

Management has evaluated subsequent events through November 4, 2019, the date the financial statements were available to be issued.

- Continued -

NOTE 3 - CHANGE IN ACCOUNTING PRINCIPLE

On August 18, 2016, the FASB issued ASU 2016-14, *Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements for Not-for-Profit Entities.* The Department has adjusted the presentation of its financial statements accordingly, applying the changes retrospectively to the comparative period presented. The new standards change the following aspects of the Department's financial statements:

- Temporarily and permanently restricted net asset classes have been combined into a single net asset class called net assets with donor restrictions.
- The unrestricted net asset class has been renamed net assets without donor restrictions.
- The financial statements include a new disclosure about liquidity and availability of resources (NOTE 10).

NOTE 4 - CASH AND INVESTMENTS

The Department places its cash and cash equivalents on deposit with financial institutions in the United States. The Federal Deposit Insurance Corporation (FDIC) covers $250,000 for substantially all depository accounts.

During the year, the Department from time to time may have had amounts on deposit in excess of the insured limit. As of June 30, 2019, the Department had $1,592,641 which exceeds these insured amounts.

NOTE 5 - FIXED ASSETS

Composition of fixed assets is as follows:

	Fixed Assets July 1, 2018	Additions	Disposals	Fixed Assets June 30, 2019
Buildings	$ 170,674	$ -	$ -	$ 170,674
Leasehold improvements	44,874	18,320	-	63,194
Fire trucks and equipment	6,854,035	5,725	(453,260)	6,406,500
Furniture and fixtures	126,489	1,411	-	127,900
Construction in progress	-	140,514	-	140,514
	$ 7,196,072	$ 165,970	$ (453,260)	$ 6,908,782

Depreciation expense for the years ended June 30, 2019 and 2018 was $501,150 and $431,145, respectively.

NOTE 6 - CONCENTRATIONS

Sources of Revenue

The Department obtains a considerable portion of its unrestricted funding from the Town of Huntersville. The Town of Huntersville revenue accounted for approximately 91% of total Departmental support and revenue for each of the years ended June 30, 2019 and June 30, 2018.

- Continued -

NOTE 7 - RELATED PARTY TRANSACTIONS

All of the members of the Board of Directors are also paid volunteer fire fighters for the Department. The Department paid the members of the Board of Directors a total of $281,829 and $247,710 during the years ended June 30, 2019 and 2018, respectively, for their services as fire fighters.

A member of the Board of Directors is the owner of Irwin's Body Shop. The Department contracted with Irwin's Body Shop for repairs to fire trucks. The Department paid Irwin's Body Shop a total of $1,686 and $991 during the years ended June 30, 2019 and 2018, respectively, for fire truck repairs.

NOTE 8 - DONOR RESTRICTED NET ASSETS

Firemen's Relief Fund

Amounts held by the Department have been restricted for the Firemen's Relief Fund, which is administered by the North Carolina Firemen's Association. This fund is used to support injured fire fighters in times of need. The balance in these accounts at June 30, 2019 and 2018 totaled $250,608 and $333,493, respectively.

NOTE 9 - LONG-TERM DEBT

	2019	2018
Note payable with First Community Bank in monthly installments of $4,733, including interest at 2.55%, through June 2023. The note is secured by fire trucks and equipment.	$ 214,733	$ 265,355
Note payable with Local Government Federal Credit Union in monthly installments of $7,634, including interest at 2.750%, through October 2024. The note is secured by fire trucks and equipment.	453,888	531,842
Note payable with Local Government Federal Credit Union in annual installments of $105,498, including interest at 2.250%, through November 2020. The note is secured by equipment.	204,077	302,763
	872,698	1,099,960
Less: Current Portion	(232,930)	(227,262)
Long-Term Debt	$ 639,768	$ 872,698

- Continued -

NOTE 9 - **LONG-TERM DEBT** - Continued

Required principal payments on long-term debt are as follows:

Year Ending		Amount
2020	$	232,930
2021		238,793
2022		139,292
2023		141,898
2024		89,424
Thereafter		30,361
Total	$	872,698

Interest expense for the years ended June 30, 2019 and 2018 was $26,640 and $24,290, respectively.

NOTE 10 - **LIQUIDITY AND AVAILABILITY**

		2019		2018
Total financial assets	$	2,265,322	$	1,818,841
Donor imposed restrictions		(250,608)		(333,493)
Financial assets available to meet cash needs for general expenditures within one year	$	2,014,714	$	1,485,348

The Department receives the majority of its funding from the Town of Huntersville on a quarterly basis, so income is consistent and reliable. This ensures that necessary funds, such as payroll and other monthly obligations, will be available when due. The Department manages its liquidity and reserves following these guiding principles: operating within a prudent range of financial soundness and stability and maintaining adequate liquid assets to fund near-term operating needs. The Department forecasts its future cash flows and monitors its liquidity on an ongoing basis.

NOTE 11 - **RECLASSIFICATIONS**

Certain accounts have been reclassified to conform with the current year financial statement presentation. See NOTE 3.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hello again,

I got a reply from legislative staff. It's long and will likely lead to needing more research, but it's a start. Here are his answers (included after he restates each of Commissioner Naas's questions):

You asked the Legislative Analysis Division to provide you with information about how to create a new school district (LEA). I have provided responses to the specific questions below. Additionally, I have attached the final report from the Joint Legislative Study Committee on the Division of Local School Administrative Units (2018), which provides additional information on this issue.

Is there existing legislation that addresses forming a new LEA?

There is a statutory process for merging LEAs, but there is not currently a statutory process for creating new LEAs. In order to create a new LEA, new legislation would have to be enacted. However, while it would not technically be a new LEA, S.L. 2018-3 allows certain municipalities in North Carolina (including Cornelius) to create and operate their own charter schools. The law allows the city to give enrollment priority to residents of the city--which is different from other charter schools--and therefore would be analogous to creating a new district.

Is there (relatively) recent legal precedent?

There are relatively recent examples of districts merging (such as the merger of Cleveland County, Shelby City, and Kings Mountain in 2004), but there are no recent examples of the creation of new LEAs. The last city system to be authorized was in 1957 (the Madison-Mayodan City Administrative Unit, in Rockingham County), though it later merged back into the county system.

In terms of legal precedent outside of North Carolina, the primary legal issue that has come up relates to racial discrimination. Most recently, the 11th Circuit Court of Appeals prohibited the formation of a new city system in Gardendale, Alabama. In that case, the district had been under a desegregation order, and the court found that (i) the new district was being created for a racially discriminatory purpose and (ii) Gardendale failed to show that the new district would not impede the implementation of the existing desegregation order. While this decision is not binding in North Carolina, which is in the 4th Circuit, the decision relied on several Supreme Court decisions that do bind actions in this State. The 11th Circuit relied heavily (though not exclusively) on the fact that Jefferson County is still under a desegregation order (which Charlotte-Mecklenburg Schools are not), so that could also impact a decision made in North Carolina. For more information, see

Stout v. Jefferson County Board of Education (2018).

I presume new legislation would be needed to address specifics. If the new LEA were all within one county, would this be a local bill or statewide?

State funds are used to operate local school administrative units, including a special central office allotment for each LEA's central office. Because the creation of a new LEA would require additional State funds to implement the bill, the act would likely need to be filed as a public, rather than local act.

What would this legislation entail?

The legislation would need to at least address the following questions:

- Should a referendum be required? If so, who would get to vote on the question?
- How should the new district be governed?
- Who would create and approve the transition plan?
- Should there be an interim board?
- Who should be on the interim board?
- What happens to the interim board on the official date of the new system?
- What authority should the interim board be given?
- How should the permanent board be constituted?
- How much time is needed to transition?

I've heard breaking off a new LEA involves dissolution of the existing one and reconstituting the two separate entities. Is this correct?

Not necessarily--this dissolution and reconstitution usually takes place with mergers, but it is not necessary with the creation of a new LEA out of a portion of an existing LEA. Boundaries could be redrawn and property could be transferred without dissolving the existing district. Depending on the structure of the existing board, however, individual board members may no longer be qualified to serve if they live outside the boundaries of the electoral district.

Politics aside, what legal barriers or issues should the Commission be aware of?

Other that what has been referenced above, at least the following issues should be considered:

- Should all functions be separated, or should some functions be shared (i.e., administrative offices, building/vehicle maintenance shops, and motor fleet parking)?
- Which LEA gets which facility?
- Centralized or decentralized transportation services?
- How to handle existing lawsuits?
- How should specialty schools such as magnet schools and cooperative innovative high schools be handled?
- Multiple insurance contracts within each school district to cover property and liability exposures could lead to higher insurance costs
- There may be potential inefficiencies in school nutrition program
- Ensuring cyber security during and after the transition
- Employee contracts that extend beyond the transition

Subject: LEA Legislation

Hello Natasha-

I serve on the Cornelius Educational Options Commission (CEOSC) and have the action item of determining the legal/legislative steps required to form a new LEA. The Commission has several questions and I am wondering if your legislative staff might be able to help. Specifically:

> Is there existing legislation that addresses forming a new LEA?

> Is there (relatively) recent legal precedent?

> I presume new legislation would be needed to address specifics. If the new LEA were all within one county, would this be a local bill or statewide?

> What would this legislation entail? I've heard breaking off a new LEA involves dissolution of the existing one and reconstituting the two separate entities. Is this correct?

> Politics aside, what legal barriers or issues should the Commission be aware of?

Please let me know if you are able to help, and don't hesitate to contact me with any further questions.

Regards,

Kurt Naas
Town Commissioner

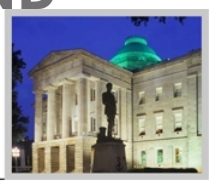
KILPATRICK TOWNSEND

NORTH CAROLINA
General Assembly Update



Legislature Still Ramping Up

It was another fairly quiet week at the General Assembly in terms of committee work and floor votes. Several committees met, but most of the bills considered were non-controversial local bills. The House took a final vote on Wednesday inviting

Governor Cooper to deliver his “State of the State” address. The address will be given in a joint legislative session on Monday, February 25, at 7:00 p.m. The number of bill filings continue to grow and as of Thursday afternoon, 88 bills had been filed in the House and 73 had been filed in the Senate. We expect the pace of session to pick up over the coming weeks with more committee meetings and floor work as more bills are filed. Appropriations sub-committees will also be meeting over the next couple of weeks to go over the budget process and hear presentations from respective agencies prior to the release of the Governor’s budget.

Read More

Relevant Education Bills

- **School Construction**
  - § S5 (Passed through Senate Appropriations Committee, will be heard in Senate Rules next week)
- **School Safety (Bills filed this week; all will be included in the budget)**
  - § H74 – 2019 School Safety Grants Program
    - · We are aware that charters were not included in initial filing under school safety equipment as they just used the same language from last year. This is okay – this is just place holder bill and we will continue to work to ensure budget language includes charters. Have already talked to Rep. Torbett and he is on board with including charters.
  - § H75 – School Mental Health Screening Study
  - § H76 – School Safety Omnibus
- **New term for public schools defined in statute (Filed this week)**
  - § H57 – Create Term for Public Schools & Codify NCVPS
    - · This is intended to be positive legislation to ensure that Charters do not fall through the cracks on good legislation

Subject : Fw: Legislative Update 03.16

Thought you all might like to see this legislative update from NCAPCS.

Here is the status of the bill filed to reverse H514: It has been referred to the House Rules Committee, which means it likely will go nowhere.

Bill: HB229 Sponsors: Alexander, K. (D107); Autry (D100); Martin (D34); Hawkins (D31)
Title: REPEAL MUNICIPAL CHARTER SCHOOLS
Summary: An Act to Repeal Legislation Permitting Municipalities to Operate Charter Schools.
Status: 03/04/2019 – House Committee On Rules, Calendar, and Operations of the House
History: 02/27/2019—H Filed in the House. 03/04/2019—H Passed 1st Reading. 03/04/2019—H Referred To House Committee On Rules, Calendar, and Operations of the House

NORTH CAROLINA
General Assembly Update

The Long Road to Becoming a Law

As of Thursday afternoon, 370 bills have been filed in the House and 289 have been filed in the Senate. Those numbers will continue to grow up until the bill filing deadlines in April. However, the majority of those bills will never make it past introduction. This op-ed does a good job at explaining the legislative process in North Carolina and what bills have enough muster to make it across the finish line.

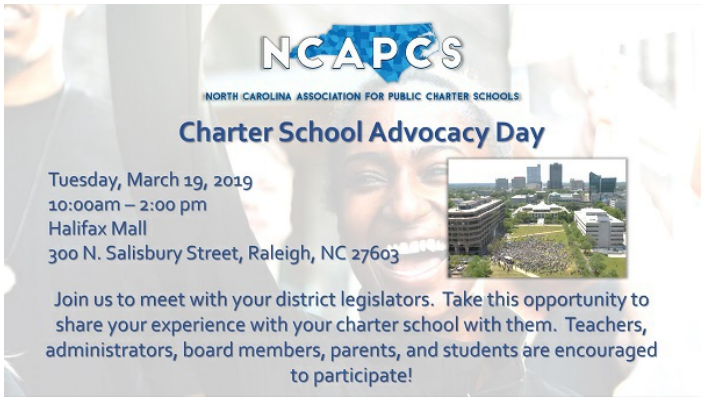
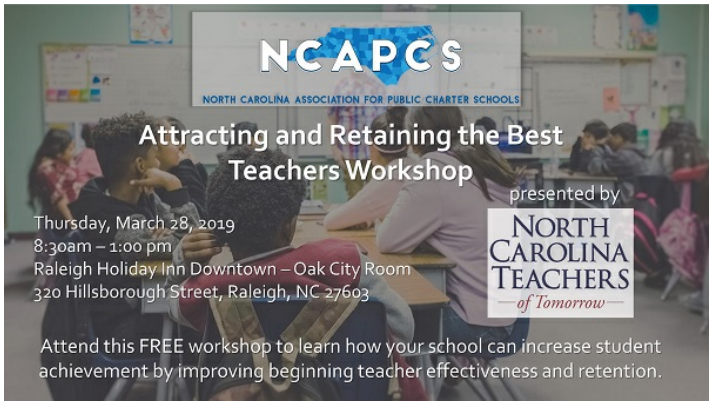
Relevant Bills



We invite charter school teachers, administrators, board members, parents, and students to help us create a more purposeful voice against reinstating the charter school cap in our state.

Charter School Advocacy Day

See list of upcoming events!



The Attracting and Retaining the Best Teachers Workshop, presented by North Carolina Teachers of Tomorrow, will inform your school's administrators and board members on how they can implement teacher licensing and early career support at their school. This FREE workshop will take place **Thursday, March 28, 8:30am-1:00pm at The Holiday Inn Downtown Raleigh**. Attendees will receive a 25% off discount code for our conference.

Attracting and Retaining the Best Teachers Workshop

Attendee registration is now available for our 2019 conference!

Click the link below to see this year's special offers. Early Bird registration ends **April 30**

2019 NCAPCS Conference Attendees

Sponsors, 75% our sponsorships have been taken for the conferenece! We normally reach this level of occupancy in May. Get your table before they run out!

2019 NCAPCS Conference Sponsors

Thank you for supporting North Carolina's charter schools.

Federal Funding

Federal K-12 Funding Laws

- Child Nutrition (School Lunch and Breakfast Programs)
- Elementary & Secondary Education Act (ESEA) – No Child Left Behind (NCLB)- Every Student Succeed Act (ESSA)
- Individuals with Disabilities Education Act (IDEA)
- Carl Perkins Career Technical Education (CTE)

Federal K-12 Revenue Major Categories

- Title I
  - Main source of federal funding for public schools
  - Various **formula & application-based grants** to support schools w/ **high concentrations of low income students (50%+)**

- Title II
  - Application-based grants to prepare/train/recruit high quality teachers

Federal K-12 Revenue Major Categories

- Individuals with Disabilities Education Act (IDEA)
  - Formula grant to support special ed programs for children w/ disabilities
  - Shared Fed/State funding responsibilities
    - Feds initially promised to cover 40% of cost
    - Current level of Fed support is 16% of cost
- Child Nutrition
  - Funding for mandatory school lunch & breakfast programs

School Based Child Nutrition Programs

- All programs are administered by the US Department of Agriculture.
- National School Lunch Program (NCLP)
  - Provides nutritionally balanced, low-cost or free lunches to children each school day
  - After School Snacks
  - School districts are reimbursed for their costs.
- School Breakfast Program (SBP)
- Farm to School Program
  - helps child nutrition program operators incorporate local foods in the National School Lunch Program and its associated programs
- Seamless Summer Option and Summer Food Service Program
- Child Nutrition $518.6M for 2017-18

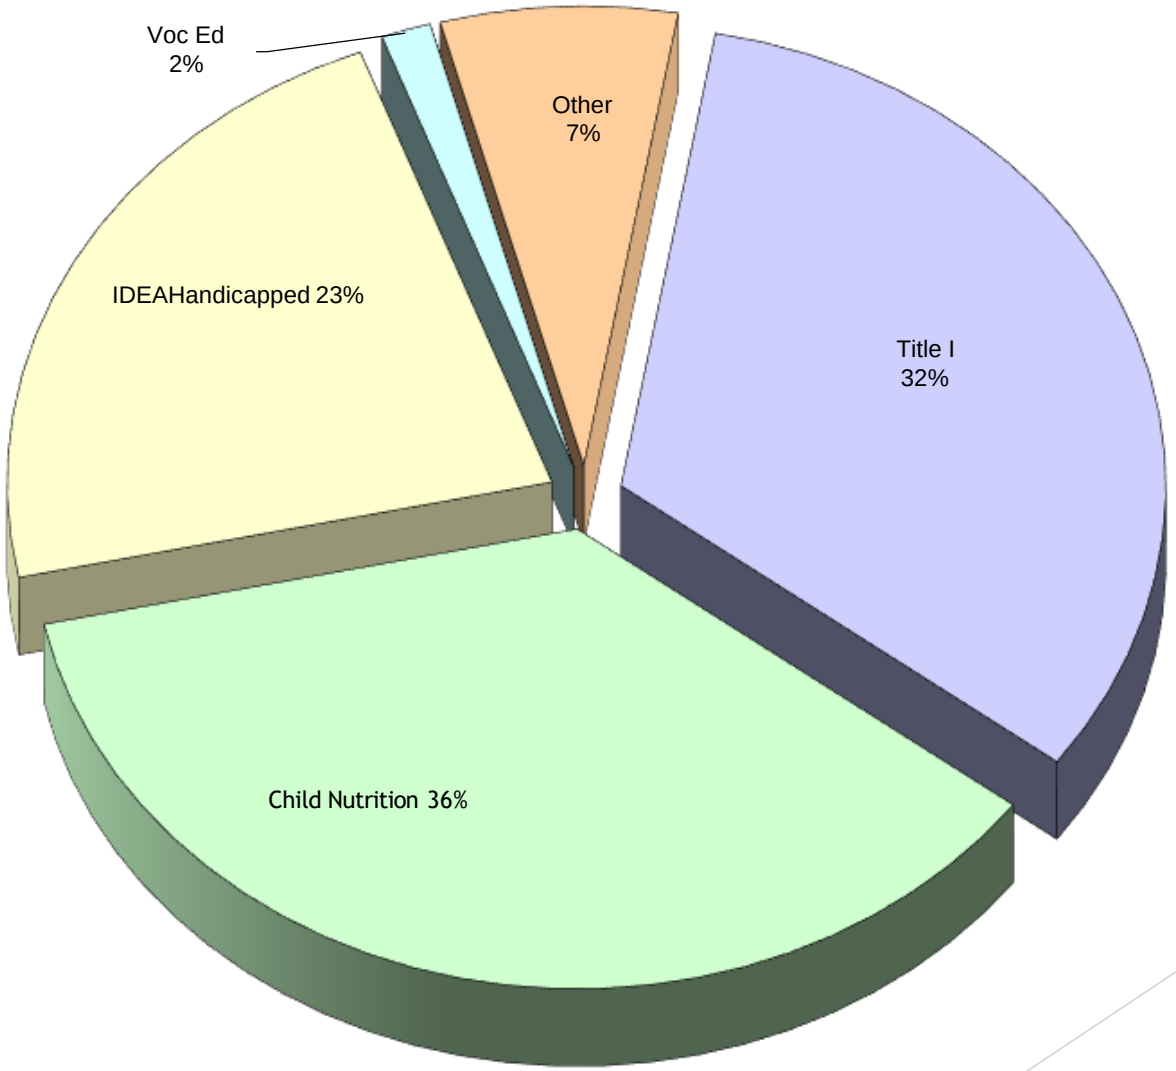
Federal K-12 Revenue Major Sources for NC 2017-18 (incl Charters)



State Funding

State v. Local Role in Public School Funding

G.S. 115C-408(b)

*…..it is the policy of the State of North Carolina to provide from **State** revenue sources the **instructional expenses for current operations** of the public school system as defined in the standard course of study.*

*It is the policy of the State of North Carolina that the **facilities requirements** for a public education system will be met by **county governments**.*

Local K-12Revenue Notable Data 2017-18

- Statewide
  - Avg $2,306.31 per-pupil local revenue
- Highest local funding per-pupil:
  - Chapel-Hill/Carrboro ($6,234.92)
- CMS
  - $2,493.60
- Lowest local funding per-pupil:
  - Robeson ($959.32)

State Funding Key Points

- Most State funding comes to LEAs through **Allotments**
- Allotments distributed based on **funding formulas** that typically utilize **ADM** and other targeted factors
- 44 State allotments
- **Position - Dollar** – **Categorical** Allotments

State Funding Allotments

Position Allotments

- LEAs allotted **guaranteed positions** for specific personnel
  - Months of employment
  - 1 Position = **dollar equivalent** of salary + benefits
  - Based on ratios of 1: # ADM
- State pays salary/benefits of employee regardless of placement on salary schedule
- Each LEA has different avg salary based on personnel's experience & education in that district

A Deeper Dive Into the Classroom Teacher Allotment

- Grades Kindergarten 1 per 18 in ADM.
- Grade 1 1 per 16 in ADM.
- Grades 2 - 3 1 per 17 in ADM.
- Grades 4 - 6 1 per 24 in ADM.
- Grades 7 - 8 1 per 23 in ADM.
- Grade 9 1 per 26.5 in ADM.
- Grades 10 - 12 1 per 29 in ADM.

State Funding
Position Allotments

- Position Allotment Examples:
  - Classroom Teachers
  - School Administrators
  - Instructional Support Personnel

State Funding Allotments

Dollar Allotments

- LEA receives set amount of dollars (typically $/ADM) to be used for allowable purposes
- Formula set by legislature
- Example
  - Classroom Materials: $30.12 per student

State Funding Allotments

- Some Dollar Allotment Categories:
  - Textbooks
  - Instructional Supplies

State Funding Allotments

Categorical Allotments

- Funding to purchase services necessary to address the needs of a specific population or service
- Different formulas to calculate amount received

State Funding Allotments

- Categorical Allotment Examples:
  - At-Risk Student Services
  - Transportation
  - Disadvantaged Student Supplemental Funding
  - Low-Wealth

State Funding Allotments

Position Allotment $$

Dollar Allotment $$

Categorical Allotment $$

Charlotte-Mecklenburg Schools

State Funding

- Allotments complicate the issue of how we look at State funding

- **We don't fund students**.....we fund positions and services

LEA and Charter School Funding

- Charter schools receive funding based upon and from the LEA from which the student otherwise would be assigned!

- State Funding:
  - LEAs receive money through allotments and funding formulas
  - Charter schools receive money in a per-pupil block grant
    - A proportionate share of all allotments are rolled up except for Limited English Proficiency and Special Education
    - This means that charters are receiving a portion of allotments for programs or grade spans that they do not serve i.e. teacher assistants; CTE

- LEAs must send local $ to charter school for each domiciled student enrolled in the charter school

Municipal Concerns Act Article III Report

November 7, 2018

Municipal Concerns Act, Article III

Section 1 – Identification of areas of overcrowding and overcrowding relief

Section 2 – Reinforcement of preference for municipal assignment zones

Section 3 – Identification of capital construction partnerships with municipalities in Mecklenburg County

Section 1 – Overcrowding and Overcrowding Relief

What is school capacity?

Multiple lenses through which to assess capacity. Each is valid, though no single one alone is sufficient

- NC Department of Public Instruction provides guidance
- CMS allocates teachers and resources aligned to student needs (e.g., student weighted staffing), school-specific programming (e.g., magnet and CTE programs) and other factors which also inform how a facility is used
- Building codes offer an additional lens

Section 1 – Overcrowding and Overcrowding Relief

- Classroom utilization
  - comparison of the number of classroom teachers to classrooms in the core facility (with and without learning cottages)

- Student enrollment
  - comparison of actual enrollment to design baseline
  - design baseline enrollment is based on an average number of students per classroom and is used during facility design
  - the design baseline does not indicate preferences for class size

- Common area utilization
  - among common areas, the cafeteria is the one most commonly utilized by each student daily
  - square footage per student in the cafeteria dining area compared to NC DPI guideline (12 ft^2/student, 3 lunch periods/day)

Section 1 – Overcrowding and Overcrowding Relief

Utilization analysis excludes the following schools:

Early and Middle Colleges

- Charlotte Engineering Early College
- Charlotte Teachers Early College
- Cato Middle College
- Harper Middle College
- Merancas Middle College
- Levine Middle College

Specialty Programs

- Charlotte-Mecklenburg Virtual High School
- Turning Point Academy

Section 1 – Overcrowding and Overcrowding Relief

Sample Schools	Number of Classroom Teachers	Number of Classrooms (mobiles not included)	Number of Classrooms (mobiles included)	Ratio Teachers to Classrooms (mobiles not included)	Ratio of Teachers to Classrooms (mobiles included)	2018-19 20th Day Enrollment	Ratio Enrollment to Design Baseline	Square Footage per Student (Cafeteria)	Delta Cafeteria Square Footage/Student to DPI Guidance (12 ft²/student)

Cornelius (4 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	1	1	1	1	1	1	1	1
K-8 and Middle	1	0	1	0	1	0	0	1
High	1	0	1	0	1	0	0	1

Cornelius – Considerations for Relief

Sample school: Hough High School

- Approximately 47% of Hough's students reside in Cornelius. An additional 17% reside in Davidson; there is not currently a CMS high school located in Davidson.
- Assess ability to assign approximately 750 Huntersville students to Huntersville high schools, either Hopewell and North Mecklenburg.
- Given current utilization at Hopewell and North Mecklenburg, assigning additional students to either would require reassigning a portion of their current students to other CMS high schools.
- Recall, a 2018-19 assignment change saw a portion of Hough's Huntersville population assigned to Hopewell; 11th and 12th graders were grandfathered.

Section 1 – Overcrowding and Overcrowding Relief

Davidson (1 school)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance

Section 1 – Overcrowding and Overcrowding Relief

Huntersville (11 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	4	3	0	7	3	4	7	0
K-8 and Middle	1	1	1	1	1	1	2	0
High	1	1	1	1	1	1	1	1

Huntersville – Considerations for Relief

Sample Schools: North Mecklenburg High School, Hopewell High School

- Approximately 10% of North Mecklenburg's students reside in Huntersville; at Hopewell, it's 41%

- A large portion, approximately 45%, of North Mecklenburg's enrollment are students taking advantage of the International Baccalaureate, World Language and Career & Technical Education magnet programs. Eliminating the programs could provide relief, but significantly reduce access to choice programs in the north.

- Assess the capacity of Hopewell and North Mecklenburg high schools against the number of high school students residing in Huntersville

Section 1 – Overcrowding and Overcrowding Relief

Matthews (5 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance

K-8 and Middle	0	1	0	1	1	0	1	0
High	1	0	1	0	1	0	0	1

Matthews – Considerations for Relief

Sample School: Elizabeth Lane Elementary

- Approximately 26% of current students reside in Matthews; assess ability to assign a portion of Charlotte students to surrounding elementary schools
- Consider surrounding elementary schools: Greenway Park is slightly underutilized while Olde Providence and Providence Spring are over-utilized
- Recall, a 2017 bond project will increase the number of classrooms at Lansdowne Elementary and provide relief to Elizabeth Lane
- Consider Matthews Elementary (94% of students reside in Matthews and the school is over-utilized based on 3 of 4 metrics) and Crown Point Elementary (92% of students reside in Matthews and the school is underutilized)
- Middle and high school continuation is a factor. For example, Elizabeth Lane continues to Providence HS (located in Charlotte) while Matthews and Crown Point continue to Butler HS (located in Matthews)

Section 1 – Overcrowding and Overcrowding Relief

Mint Hill (4 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	2	0	0	2	1	1	1	1
K-8 and Middle	1	0	1	0	1	0	1	0
High	0	1	0	1	0	1	0	1

Mint Hill – Considerations for Relief

Sample School: Rocky River High School

- No students residing in Mint Hill are assigned to Rocky River as their home high school; instead, high school students residing in Mint Hill are primarily assigned to Independence High School
- Rocky River, based on three of four metrics used to assess utilization, is under-utilized.
- With limited changes for students currently attending Rocky River, the school could accommodate all high school aged students currently residing in Mint Hill

Section 1 – Overcrowding and Overcrowding Relief

Pineville (1 school)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance

High	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Section 2 – Municipal Assignment / Attendance Areas

Board Policy JCA and associated exhibits JCA-E and JCA-E2 govern CMS' approach to developing school attendance boundaries and feeder patterns.

Among other things, the policy and associated exhibits direct staff to consider the following when developing school attendance boundaries:

- average home to school distance
- keeping entire elementary schools intact as part of middle and high school feeder patterns
- socioeconomic diversity of the student population
- utilization of the school compared to building capacity
- keeping entire neighborhoods assigned to the same school
- projections for population growth and demographic shifts

Section 2 – Municipal Assignment / Attendance Areas

CMS 2018-19 20th Day Enrollment: 147,352

Student Enrollment by Municipality

Municipality	Total Number of Schools*	Total CMS Students Residing** in the Municipality		Total CMS Students Attending a CMS School Located** in the Municipality

Appendix

A. Calculations and assumptions
   i. classroom utilization
   ii. common area utilization
   iii. student enrollment utilization

B. Schools by municipality

C. Bond Projects
   i. remaining projects on 2013 bond list with anticipated delivery dates
   ii. 2017 bond list with anticipated delivery dates

Appendix A – Calculations and Assumptions

Student residence and school location based on US mailing address with the exception of four CMS schools with a mailing address that differs greatly from their location on a map. For these schools, we used their map location in all analyses.

School	Postal Address	Map Location	Location Used for Analysis
Bain ES	Charlotte	Mint Hill	Mint Hill
Lebanon Road ES	Charlotte	Mint Hill	Mint Hill
Sterling ES	Pineville	Charlotte	Charlotte
Mint Hill MS	Matthews	Matthews / Mint Hill border	Mint Hill

Appendix A – Calculations and Assumptions

- **classroom utilization**

  # classroom teachers / total number of classrooms in the core facility

  # classroom teachers / (total number classrooms in core + total number in service mobile* units)

- **common area utilization – cafeteria**

  (cafeteria square footage * 3 lunch periods daily) / total enrollment

- **student enrollment utilization**

  total enrollment / (# classrooms in the core facility * 20)

*a small number of schools have classrooms in use which are part of the building which were later replaced. When such classrooms are still in use, they are included in the mobile unit count.

A. Bond Projects

   i. remaining projects on 2013 bond list with anticipated delivery dates

   ii. 2017 bond list with anticipated delivery dates

Appendix C – Remaining 2013 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Davidson K-8 Conversion	Addition/ Renovation	This project includes a new 20 classroom building for conversion to K-8	**Aug-19**
Selwyn Elementary	Renovation	This project includes renovation of the original 16-classroom building currently in use.	**Aug-19**
Pre K-8 Phase II (Ashley Park)	Addition/ Renovations	This project includes a cafeteria expansion; new gymnasium; technology, arts, and/or exploratory classrooms.	**Aug-19**
Pre K-8 Phase II (Druid Hills)	Addition/ Renovations	This project includes a gymnasium, technology, arts, and/or exploratory classrooms.	**Aug-19**

Appendix C – Remaining 2013 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Career/Tech Ed. Upgrades (Garinger HS)	Modification	This project includes CTE modifications for culinary arts and a greenhouse.	**Jan-19**
Career/Tech Ed. Upgrades (West Mecklenburg HS)	Modification	This project includes CTE modifications for culinary and carpentry.	**Jan-19**
Career/Tech Ed. Upgrades (Independence HS)	Modification	This project includes CTE modifications for automotive and carpentry.	**Jan-19**
Career/Tech Ed. Upgrades (North Mecklenburg HS)	Modification	This CTE project includes a new automotive building.	**Aug-19**
New STEAM K8 (Rea Farms)	New School	New 54-classroom K-8 facility to provide relief for Ballantyne, Elon, Hawk Ridge, Polo Ridge, Community House and J.M. Robinson.	**Aug-20**

Appendix C – 2017 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Collinswood Language Academy	New School	New 63 classroom school; relieves crowding and replace old school built in 1959	**Aug-20**
New Elementary School	New School	New 45 classroom school; relieves overcrowding at Windsor Park, Winterfield, Idlewild	**Aug-23**
Harding HS	Renovation/Addition	Renovate/replace cafeteria and gym	**Jan-21**
New High School	New School	New 125 classroom school; relieves crowding at South Mecklenburg, Ardrey Kell, Myers Park, Olympic HS	**Aug-23**
Montclaire ES	New School	New 45 classroom replacement school; replaces school built in 1958	**Aug-20**
West Mecklenburg HS	Renovation/ Addition	Renovate/replace gym built in 1954	**Aug-21**
New Language Immersion	New School	New 63 classroom school; K-8 Language Immersion Magnet (South)	**Aug-21**
New Elementary School	New School	New 45 classroom school; relieves crowding at Bain, Lebanon Rd., Piney Grove	**Aug-22**
Sharon ES	Renovation/ Addition	Provide additional classroom capacity needed for anticipated growth	**Aug-21**
E.E. Waddell	Renovation	Renovate current E.E. Waddell	**Aug-22**
New Elementary School	New School	New 45 classroom school; relieves overcrowding at Hidden Valley, J.W. Grier, Newell	**Aug-23**

Appendix C – 2017 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
West Charlotte HS	New School	New 125 classroom school; to replace current facility built in 1954	**Aug-22**
Shamrock Gardens ES	New School	New 45 classroom school; replace old facility built in 1954	**Jan-23**
Briarwood ES	New School	New 45 classroom school; replaces old facility built in 1956	**Aug-21**
South Mecklenburg HS	Renovation/ Addition	Renovate/replace two classroom buildings built in 1958 to upgrade learning conditions	**Jan-25**
New Language Immersion School	New School	New 63 classroom school; K-8 Immersion Magnet (North)	**Aug-21**
Specialty EC Program	New School	New facility for CMS Exceptional Children specialty program	**Aug-19**
New High School	New School	New 125 classroom school; relieves crowding at Olympic HS	**Aug-22**
New Elementary School	New School	New 45 classroom school; relieves crowding at Elon Park, Hawk Ridge, Polo Ridge ES	**Aug-23**
John Taylor Williams	Renovation	Create new Montessori HS magnet on J.T. Williams site	**Aug-24**
Career/Tech Ed. Upgrades	Renovation	Phase I upgrades at Olympic, Harding, Garinger and South Mecklenburg	**Jan-23**
Lansdowne ES	New School	New 45 classroom school; replaces old school built in 1959 and relieve crowding at Elizabeth Lane ES	**Aug-21**

Appendix C – 2017 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Northwest School of the Arts	Renovation/ Addition	Replace classroom building built in 1952 and build classroom addition that support program	**Aug-24**
East Mecklenburg HS	Renovation/ Addition	Renovate/replace 3 classroom buildings built in 1949 to upgrade facility conditions	**Aug-22**
New Elementary School	New School	New 45 classroom school; relieves crowding at Nations Ford, Sterling and Steele Creek ES	**Aug-21**
Mountain Island Lake Academy	Renovation/ Addition	K-8 Phase 2 – New gym and specialty classrooms	**Aug-23**
Garinger HS	Renovation/ Addition	Add new classrooms and replace older areas of school	**Jan-23**
Lincoln Heights ES	Renovation	Renovate and reopen as magnet school	**Aug-19**
Bruns Academy	New School	New 45 classroom elementary school (K-5); replaces old school built in 1969	**Aug-24**

Members of the MEAC,

As a reminder, we do **NOT** have a meeting today as most of the towns are in Raleigh for Town Hall Day at the NCGA.

A couple of housecleaning issues…

- From Leanne Winner's presentation, here is the link to the entire per pupil spending data per county so if there are other districts folks are interested in you can find them. http://apps.schools.nc.gov/ords/f?p=145:34:::NO:::
- I am working on getting the bond scoring list to you as requested during Dennis Rorie's presentation on Feb. 5th

Sincerely,
Charles Jeter

Hi Karen,
Please find attached Option 3 SWOT. Sorry, it has taken me awhile to get this to you. I did not hear back from Bobbie so the information is from only me. Guess, I should have let the group help at the last meeting.

Best,
Amie

17	
18	
19	
20	

	OPPORTUNITIES (+)
1	To have the opportunity to partner with CMS for better student projection numbers and to be able to adquately plan for growth

2	To have the opportunity to partner with CMS during the Siting Process within the Town of Huntersville
3	Furture growth
4	Town of Huntersville to opt out of HB 514. With the opting out of HB 514 Huntersville Schools would be placed back in line for “priority spending” by CMS.
5	Passage of SL 2018-5 (SB 99 from the 2017-2018 NCGA session), North Carolina municipalities are now authorized to utilize taxing authority to pay for all items relating to schools. This new ability opens opportunities for CMS to partner with municipalities.

Subject: Option 4 meeting minutes

Madame Chair,

Please see attached draft minutes and Option 4 SWOT outline. Let me know if you have any questions in case any of my shorthand doesn't make sense.

Thanks,

Eric Rowell

- March 20, 2019 Option 4 Subcommittee Meeting

- 11:13am – 12:07pm / Town Hall – Huntersville
- Eric Rowell, Mike Sass, Jim Puckett present
- No members of the public attended (one media cameraman attended)

- Agenda:
1.A. – Discuss pros/cons of Option 4: The feasibility of dividing the Charlotte-Mecklenburg LEA into smaller LEA's.

- Minutes: Subcommittee members discussed the various pros/cons associated with Option 4, and considered what additional information/questions the subcommittee members would need/have in order to conclude their due diligence in studying this option.

- SWOT outline [**DRAFT** – subject to revision]

1. STRENGTHS
- more actual (not just perceived) local control of education
- more input for all stakeholders (parents, teachers, and staff)
- studies and testimony presented support smaller districts as more efficient, while a possible North Mecklenburg LEA could still be large enough to take advantage of economies of scale
- any change that results in a reduction in current overcrowding is a strength
- easier access to school leadership
- more accountability of school leadership/teachers
- more permanent nature of a smaller LEA as opposed to just a single municipal charter, a smaller LEA would be a better long-term solution
- cost – likely far less expensive and more cost-effective to operate than CMS
- property tax dollars used for education would stay local and benefit local students
- maximize money spent on education/learning instead of on education bureaucracy
- greater parental choice, greater educational options in North Mecklenburg
- overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
- greater flexibility with curriculum and addressing concerns of parents than with CMS

2. WEAKNESSES
- even at 30-35K students, still far above the national average school district size
- cost – (both strength and weakness) far higher than a single municipal charter, but likely still more cost-efficient than CMS
- commercial tax base less without contributions from commercial property in Charlotte, potential greater burden on North Mecklenburg homeowners
- uncertainty over costs/taxes/curriculum, etc. resulting in more difficulty in making the case to the public and elected officials to pursue this option
- "regional" approach to education does not currently include Davidson
- potential zoning issues based on multi-jurisdiction district
- capital funding and land acquisition – still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land

3. OPPORTUNITIES
- convincing teachers of a better teaching environment in a smaller district
- political makeup of a new school board – more receptive/responsive to voters in North Mecklenburg
- ability to determine best makeup of the charter school board – elected board members, appointed board members, some hybrid model, etc.
- more/better focused growth and data projections, working closer with town planning staff on demographics/growth trends, etc.
- regional approach to education would benefit not just education, also all planning efforts
- start the dialogue statewide over what the right size of a school district in NC should be
- continue the work of earlier legislative study committees on school district size even if this option not pursued by the town(s)
- help set the template for how this option could be replicated in other areas of the state with similar concerns
- cost savings for new construction – ability to build school buildings more efficiently/less expensive than CMS schools

4. THREATS
- any agreement to deconsolidate must come from the NCGA, which is unlikely at this time
- education policy continues to become more partisan, not less, so any large-scale solution is unlikely
- the sheer logistics/dynamics alone for such a change to the status quo – how to unwind CMS, what to do with CMS assets in North Mecklenburg, would a constitutional amendment be necessary, etc.?
- political instability – locally and in Raleigh
- potential lawsuits – who would bear the costs?
- CMS – unlikely to cease opposition efforts to a change to the status quo

5. QUESTIONS/ADDITIONAL INFORMATION
- how would the deconsolidation process take place?
- decision makers would need to f/u with prior participants in this debate, prior study committee contributors to see what the next study or legislation would look like
- what is the state of research currently on school district size and economic impact of LEA's? (Dr. Houck, et al, provided information to the legislative study committee over a year ago)
- what are the other three (3) towns included in HB514 – Mint Hill, Cornelius, and Matthews – doing related to new LEA's or deconsolidation
- potential for additional NCGA legislation if HEOSC identifies gaps/problems in current HB514 and related legislation, e.g., clearer funding options if a municipality opted to open a municipal charter school

---

- RECOMMENDATION TO BOARD IN THIS OPTION? - cont. to investigate option 4 – but currently better path is the municipal charter, which would confirm some assumptions and help us realize some of the unknowns as they currently stand – which would lead down path to new LEA

I am enjoying but working on some numbers too. This will help. We do zone checks the same way so I get that. Will try to have you something this week.

On Wed, Mar 1, 2017 at 5:38 PM -0500, "Cleveland Spruill" <cspruill@huntersville.org> wrote:

> Bence, here is the data reference our annual calls for service. Huntersville Police generated 34,632 calls for service that were processed by dispatch in 2016. We generated an additional 33,839 calls that were Zone Checks that did not go through, get processed by or involve dispatchers. The Zone Checks involve the officers logging out checking businesses, construction sites, other areas where we are seeing crime trends, homes while residents are away, etc. The officers use the computer to log in and out on Zone Checks and there is no involvement of work involved for the dispatcher. I can explain the Zone Check further if necessary. Let me know if you need anything else.

Subject: I-Mobile Update

As of today, CAD event type Zone Check will be removed and replaced with an out-of-service code for CMPD **ONLY**. This will remove the option of Zone Checks for us as well. We have created new CAD event types specifically for HPD. After you update your I-mobile the following types will appear:

HPD—Huntersville PD
- Business patrol
- Foot patrol
- Problem Oriented Policing
- School patrol

These new event types will replace zone checks for HPD. Please do not check out of service – zone check as there is no way for us to count these in our stats.

Instructions from updating I-Mobile ----Each officer will have to update I-mobile to see these event types. While signed into I-Mobile, click on "VerMgmt" on the menu bar of I-Mobile. Select and click on "Check update". A few moments later you will receive a message with the number of files that need to be updated. Click "OK" to download and install the updates. You will receive a message if the more files need to be installed. Just click on "VerMgmt" and click "check update" again until you receive a message that "All files are up to date".

But - a) does town zoning ordinance 10.10.9 re signs apply to private property (i.e., can people put up campaign signs whenever they want as long as it's in the middle of their private yard)?, and b) our election doesn't have a primary, so is there any impact on our prohibition of signs until 30 days before early voting (i.e., some are claiming bc of state and Charlotte races ongoing where voting is already taking place, Huntersville rules don't apply and signs can already go up)?

Any assistance/clarification would be appreciated because I don't want to have to see these signs one day longer than absolutely necessary.

Regards,

Eric Rowell

Subject : FW: Steering Committee Chairperson Election

Hello –
I sent the e-mail below to see if any Steering Committee members wanted to express interest in serving as the chairperson. I've received no replies so far. If no one is interested, staff and the consultant team will leave it to the Committee to figure it out a week from tomorrow.

Regards,
Dave

Subject: Steering Committee Chairperson Election

Good afternoon –

As discussed on October 1st, the Steering Committee agenda for October 30th will include the election of a chairperson. The chairperson has 3 major functions: (1) preside over meetings and maintain efficient meeting progress, (2) coordinate future agendas with staff and the consultant team, and (3) conduct Committee voting for approval of meeting minutes and during the hopefully rare occasion when a substantive Committee vote is warranted (remember we want to reach consensus wherever possible). It would be helpful if the Chairperson has had previous experience working with or leading group working meetings.

Scott Harrington came up with a good idea (thanks) to prepare for the Chairperson election:

"Just a suggestion for your consideration regarding the informed selection of a Steering Committee chairperson. Consider sending an email to our committee members soliciting the names and biographical sketches of the persons who would be open to serving as the "Chair" of the Steering Committee early next week. Collect the names and bios of the willing and send them out to the committee in advance of our 10/30 meeting. The benefit of this tact is to give our members an opportunity to consider our candidate choice(s) privately. A second plus is that the voting process on 10/30 should go swiftly."

This idea is worth pursuing. If you are interested in serving as the Chair, please send me a 1-page biographical sketch no later than Wednesday, October 23rd (EOB). I will then send out the bios of all interested candidates to the entire Committee on October 24th. I would ask that you do not contact other Committee members to discuss the Chairperson election. All discussion and deliberations should occur on October 30th.

If you have any questions or comments, please let me know.

Thanks,
Dave

Subject: Steering Committee Meeting Materials - October 1st Orientation Session

Good Morning –

Thanks to all of you who were able to attend the October 1st Orientation session. Meeting materials are attached for your review. If any of the members who couldn't attend, I'd be happy to set up a time to meet and answer any questions you might have. I have also attached draft meeting minutes – please let me know if any revisions need to be made.

Please note that our next meeting is set for **Wednesday, October 30, 2019, at 6:30 PM at the Huntersville Town Hall**.

Between now and October 30th, I will provide more information as it becomes available. In the near future, I'm hoping we'll be able to post Committee information on the project website, but for the time being, e-mails will be used.

Again, thanks for your time. Please let me know if you have any questions or comments.

4. Committee Discussion

5. Adjourn

Huntersville Community Plan Update

Steering Committee Orientation Meeting

Tuesday, October 1, 2019
6:00 – 8:00 PM
Huntersville Town Hall
101 Huntersville-Concord Rd.
Huntersville, NC 28078

Meeting Minutes

A. Call to Order

Steering Committee Members in Attendance: Kim Aichele, Tim Bender, Ross Boner, John Carbonell, Chris Edwards, John Forehand, Scott Harrington, Joshua Helm, Kristen Ingram, Dan Murphy, George Solomon
Steering Committee Members Absent: Randy Brawley, Erin Gillespie, Eric Rowell, Kaitlyn Sisson
Staff Members in Attendance: Jack Simoneau, Dave Hill, Anthony Roberts, Jackie Huffman, Bill Coxe
Meeting Hand-Out Materials (Attached): Meeting Agenda, Resolution R-2019-18 (Creation of and appointments to the Steering Committee), Steering Committee Contact Information List, 10/01/2019 Steering Committee PowerPoint presentation, and Community Plan Scope of Work.

B. Welcome & Introductions

The meeting started at 6:00 PM. Dave Hill, Sr. Planner and Project Manager, opened the meeting and welcomed the Steering Committee Members to the orientation session. Each of the Members introduced themselves, provided a brief description of their background, and stated the reason(s) they wanted to serve on the Steering Committee.

C. Comprehensive Planning Presentation

Jack Simoneau, Planning Director, provided a PowerPoint presentation about comprehensive planning – state legislation that enables municipalities to adopt plans and implement zoning, the history of Huntersville's plans, the impact the Town's plans and related zoning regulations have had on development over the years, and a summary of the major elements of the current 2030 Community Plan.

D. Steering Committee Background

Dave Hill resumed the PowerPoint presentation by highlighting the Steering Committee. He summarized work on the Plan Update that started in early 2019, including the January 2019 Town Board retreat where discussion on the Plan began. He outlined the Committee's functions, said that the election of a Committee chairperson would be placed on the Committee' next meeting agenda, briefly mentioned the scope of work and schedule for the project, provided some governance suggestions, and closed with some discussion items to open Committee discussion.

E. Committee Discussion

One the first items discussed was the Committee's preferences regarding meeting times and dates. The following decisions were made by Committee consensus:

DRAFT

1. The Committee was informed that the first visit by the consultant team would likely be October 29th and 30th. The Committee agreed that it would prefer to meet on Wednesday, October 30th, at 6:30 – 8:30 PM. This would allow the consultant to report out on progress during their visit.

2. The Committee agreed that future meeting guidelines would be as follows: Meet only on Tuesdays, Wednesdays, or Thursdays, with meetings to be during evening hours (most of the Members in attendance indicated that they work during daytime hours). Meeting location was not discussed extensively, but most of the Members present were satisfied that Town Hall was a reasonable place.

Other Committee Discussion Items

1. Committee Members asked for a project contact list that would include both Town Staff and consultant information. Dave Hill is the Project Manager and should be the first point of contact for Committee Members. A contact list for all staff and consultant project participants will be provided to the Committee in the near future.

2. Committee members were asked to start thinking about electing a chairperson during the meeting on October 30th. The functions of the chairperson were discussed (see PowerPoint presentation).

3. Staff mentioned that a project website will be created, with a link to the Town's main website page. The project website will build slowly, with the intent to include: an announcement that the Plan Update is about to begin, a place for people to register to receive notifications of meetings, events, and review documents, an archive library for older documents such as past Community Plans adopted by the Town, a place to share comments, and a placeholder for future citizen surveys. More traditional media, such as fliers and newsletters, were also mentioned as a way to communicate with those without internet connectivity.

4. The Committee was asked to think about ways to encourage public participation during the development of the Plan Update. One thought was to print business cards with the project logo, website address, and other primary information. Committee members can then hand the cards out to anyone interested. This idea will be pursued by staff. Another idea was to buy magnets with project information (Like refrigerator magnets). Another idea was to prepare a table exhibit that could be set up at community events to introduce the project and provide contact information. Staff asked that any additional ideas be e-mailed to Dave Hill as the consultants prepare a public engagement plan (which will be presented to the Committee in the future).

5. Dave Hill offered to attend neighborhood, HOA, civic group, business association, or other meetings to provide information about the plan Update and how to get involved.

6. The Committee discussed several topics that might emerge as major issues during the Plan Update, and identified some issues of interest to them individually.

F. Adjourn

The meeting adjourned at 7:45 PM.

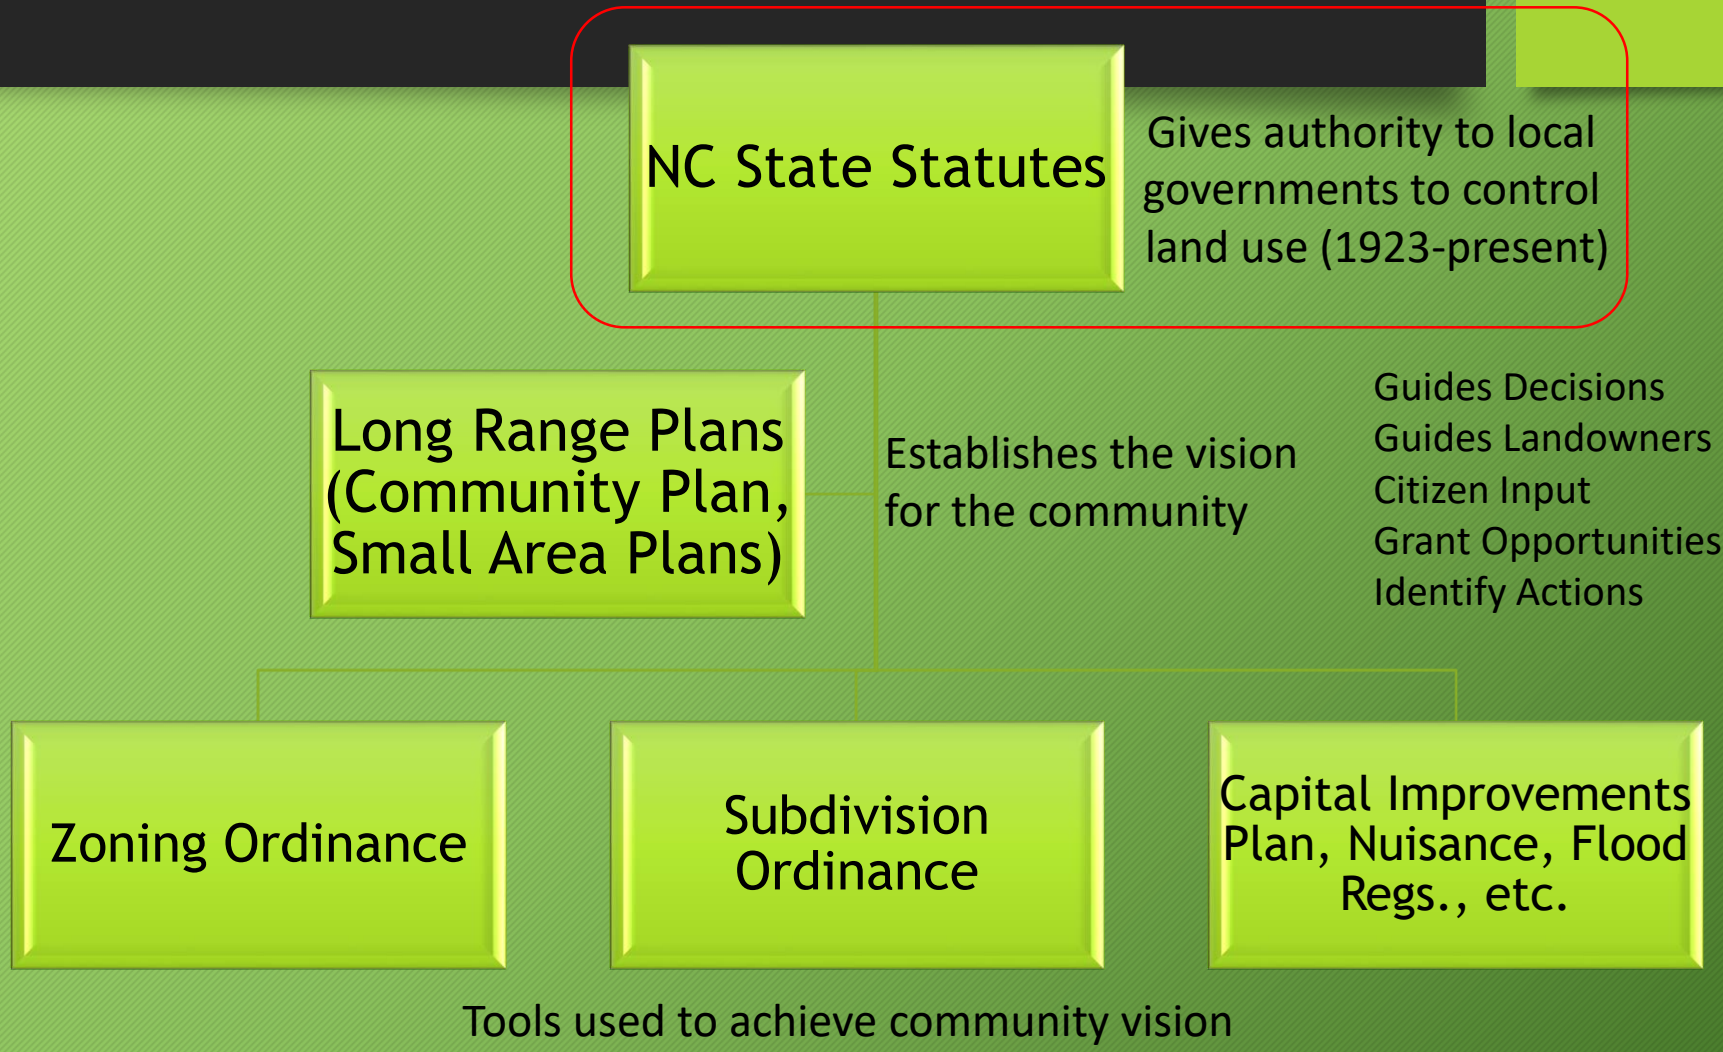
Planning in North Carolina



NC General Statutes: Current Law

§ 160A-381. Grant of power. (a) For the purpose of promoting health, safety, morals, or the general welfare of the community, any city may adopt zoning and development regulation ordinances. These ordinances may be adopted as part of a unified development ordinance or as a separate ordinance. A zoning ordinance may regulate and restrict the height, number of stories and size of buildings and other structures, the percentage of lots that may be occupied, the size of yards, courts and other open spaces, the density of population, the location and use of buildings, structures and land. The ordinance shall provide density credits or severable development rights for dedicated rights-of-way pursuant to G.S. 136-66.10 or G.S. 136-66.11.

§ 160A-383. Purposes in view.

(a) Zoning regulations shall be made in accordance with a comprehensive plan.

(b) Prior to adopting or rejecting any zoning amendment, the governing board shall adopt one of the following statements which shall not be subject to judicial review:

(1) A statement approving the zoning amendment and describing its consistency with an adopted comprehensive plan and explaining why the action taken is reasonable and in the public interest.

(2) A statement rejecting the zoning amendment and describing its inconsistency with an adopted comprehensive plan and explaining why the action taken is reasonable and in the public interest.

(3) A statement approving the zoning amendment and containing at least all of the following:

a. A declaration that the approval is also deemed an amendment to the comprehensive plan. The governing board shall not require any additional request or application for amendment to the comprehensive plan.

b. An explanation of the change in conditions the governing board took into account in amending the zoning ordinance to meet the development needs of the community.

c. Why the action was reasonable and in the public interest.

NC General Statutes: Effective 01/01/2021

"§ 160D-5-1. Plans.

(a) Preparation of Plans and Studies. – As a condition of adopting and applying zoning regulations under this Chapter, a local government shall adopt and reasonably maintain a comprehensive plan that sets forth goals, policies, and programs intended to guide the present and future physical, social, and economic development of the jurisdiction.

A comprehensive plan is intended to guide coordinated, efficient, and orderly development within the planning and development regulation jurisdiction based on an analysis of present and future needs. Planning analysis may address inventories of existing conditions and assess future trends regarding demographics and economic, environmental, and cultural factors. The planning process shall include opportunities for citizen engagement in plan preparation and adoption. In addition to a comprehensive plan, a local government may prepare and adopt such other plans as deemed appropriate. This may include, but is not limited to, land-use plans, small area plans, neighborhood plans, hazard mitigation plans, transportation plans, housing plans, and recreation and open space plans. If adopted pursuant to the process set forth in this section, such plans shall be considered in review of proposed zoning amendments.

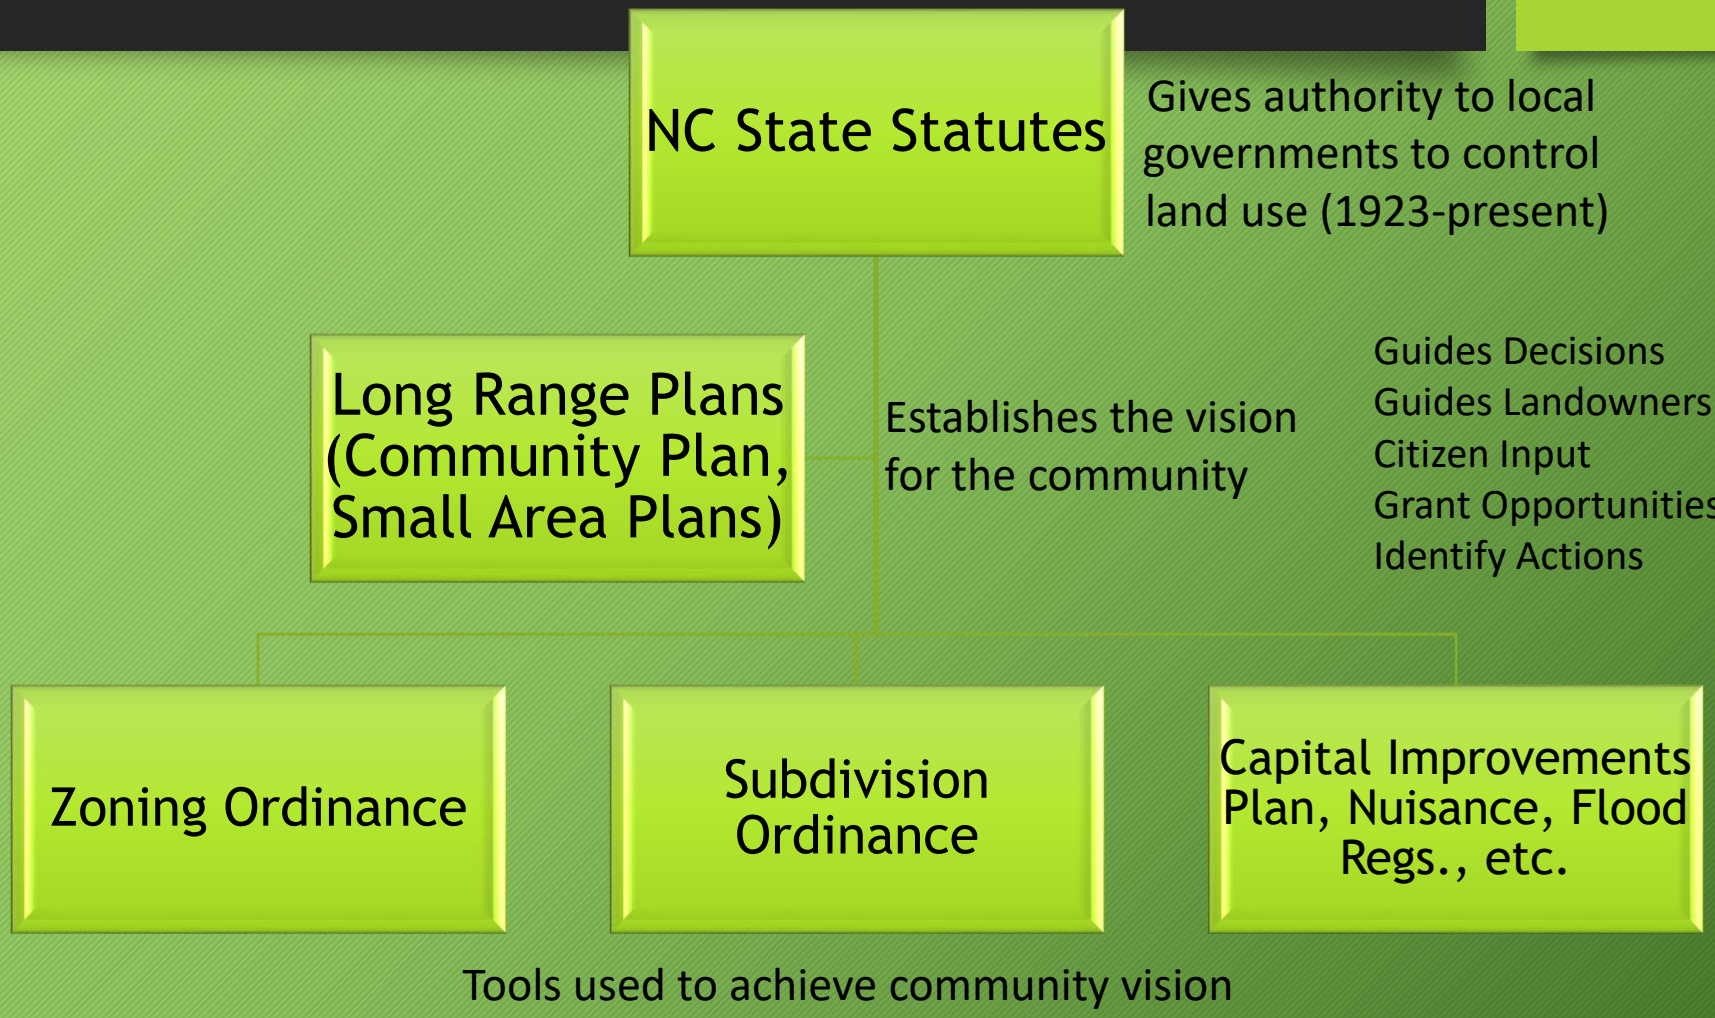
NC General Statutes: Effective 01/01/2021 *(con.)*

(b) **Contents.** – A comprehensive plan may, among other topics, address any of the following as determined by the local government:

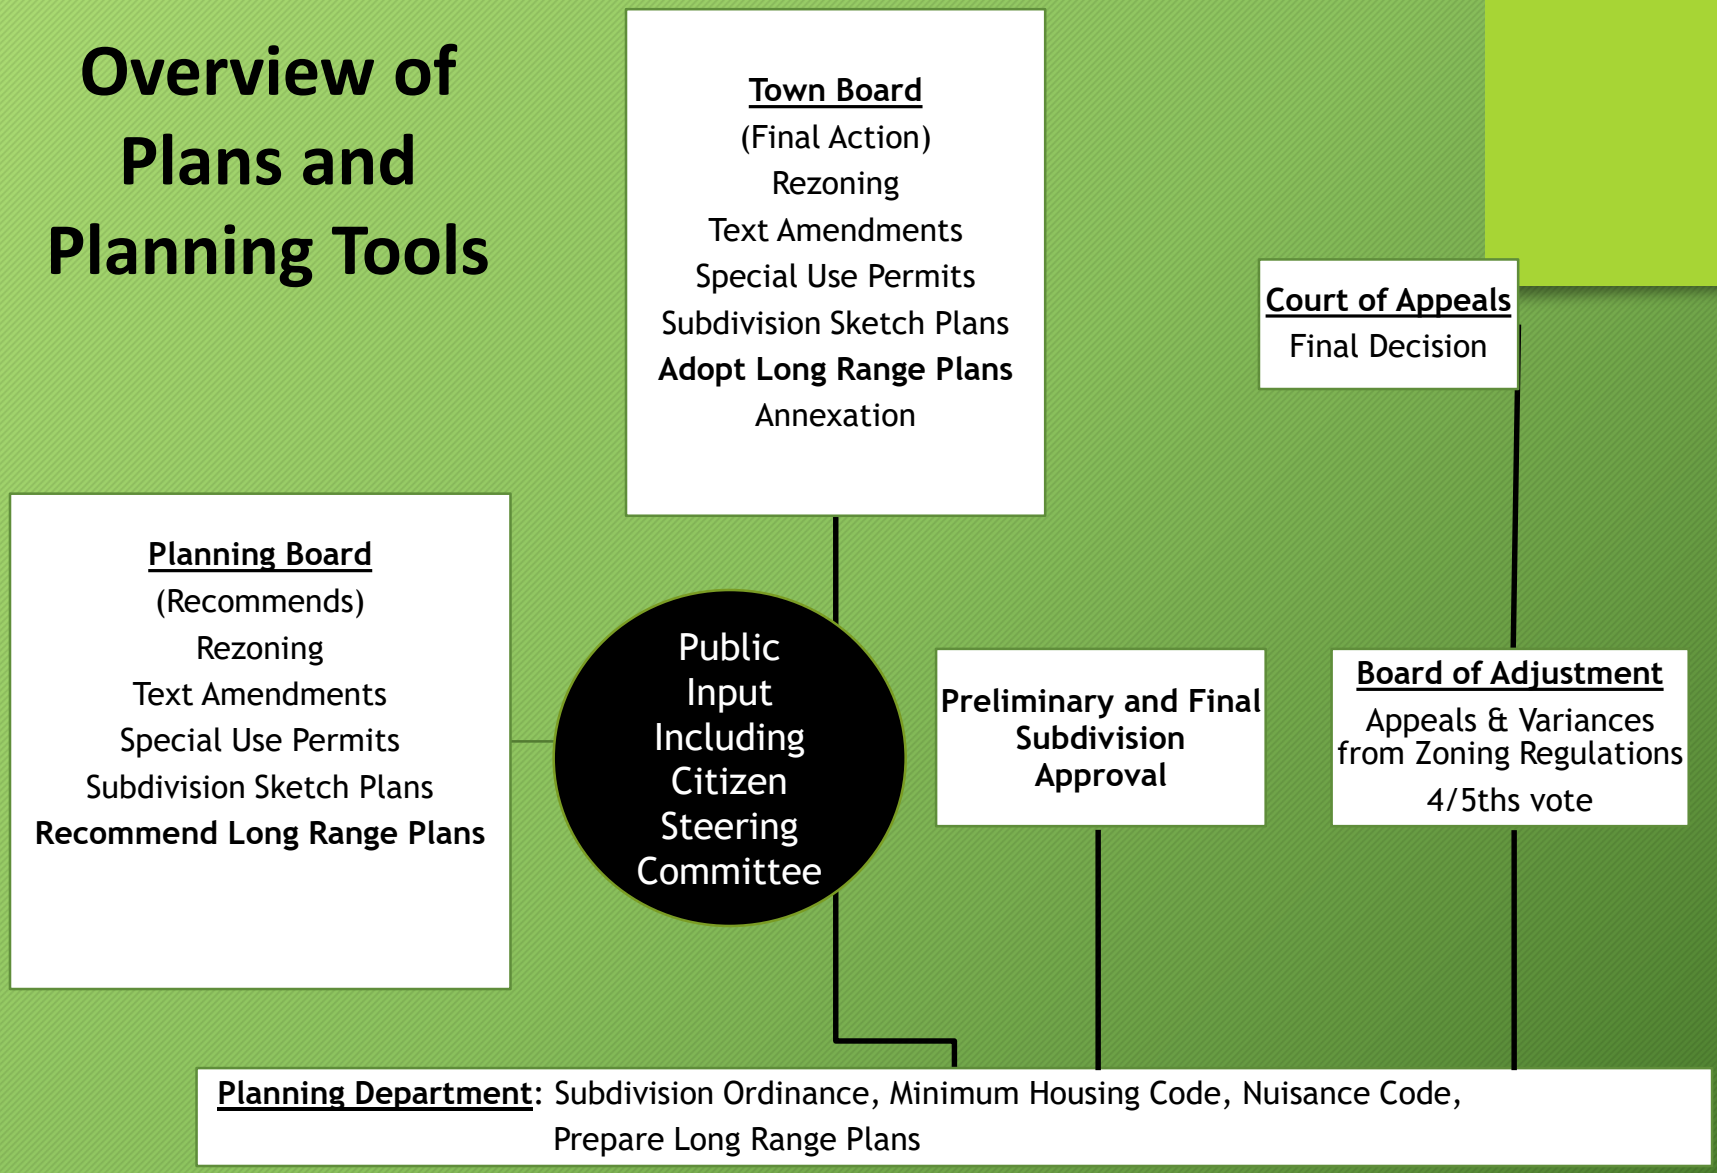
(1) Issues and opportunities facing the local government, including consideration of trends, values expressed by citizens, community vision, and guiding principles for growth and development.
(2) The pattern of desired growth and development and civic design, including the location, distribution, and characteristics of future land uses, urban form, utilities, and transportation networks.
(3) Employment opportunities, economic development, and community development.
(4) Acceptable levels of public services and infrastructure to support development, including water, waste disposal, utilities, emergency services, transportation, education, recreation, community facilities, and other public services, including plans and policies for provision of and financing for public infrastructure.
(5) Housing with a range of types and affordability to accommodate persons and households of all types and income levels.
(6) Recreation and open spaces.
(7) Mitigation of natural hazards such as flooding, winds, wildfires, and unstable lands.
(8) Protection of the environment and natural resources, including agricultural resources, mineral resources, and water and air quality.
(9) Protection of significant architectural, scenic, cultural, historical, or archaeological resources.
(10) Analysis and evaluation of implementation measures, including regulations, public investments, and educational programs.

(c) Adoption and Effect of Plans. – Plans shall be adopted by the governing board with the advice and consultation of the planning board. Adoption and amendment of a comprehensive plan is a legislative decision and shall follow the process mandated for zoning text amendments set by G.S. 160D-6-1. Plans adopted under this Chapter may be undertaken and adopted as part of or in conjunction with plans required under other statutes, including, but not limited to, the plans required by G.S. 113A-110. Plans adopted under this Chapter shall be advisory in nature without independent regulatory effect. Plans adopted under this Chapter do not expand, diminish, or alter the scope of authority for development regulations adopted under this Chapter. Plans adopted under this Chapter shall be considered by the planning board and governing board when considering proposed amendments to zoning regulations as required by G.S. 160D-6-4 and G.S. 160D-6-5.

Planning in North Carolina



Overview of Plans and Planning Tools



Proper Planning Requires Meaningful Citizen Input

Huntersville Plans

Huntersville has been remarkably consistent in updating its Community Plans every 7-9 years.

1981 Huntersville Land Development Plan
(Centralina Council of Governments)

1989 Original Huntersville Town Community Plan

1992 Charlotte-Mecklenburg County North District Plan

1995 Huntersville Community Plan

2003 Huntersville Community Plan Update

2011 Huntersville Community Plan Update

2019 Huntersville Community Plan Update

Timeline of Development in Huntersville: 1990 -96

- **1990 POPULATION 3,014 people**
- Small zoning jurisdiction boundaries; conventional zoning
- 1995 Huntersville Community Plan
- 1996 Revised Huntersville Zoning Ordinance – form-based code (buildings front street or open space, connected streets; sidewalks both sides of streets, mixed uses)

Town's Long Range Vision

HUNTERSVILLE COMMUNITY PLAN RECOMMENDATIONS

HUNTERSVILLE BOARD OF COMMISSIONERS ADOPTED SEPTEMBER 5, 1995

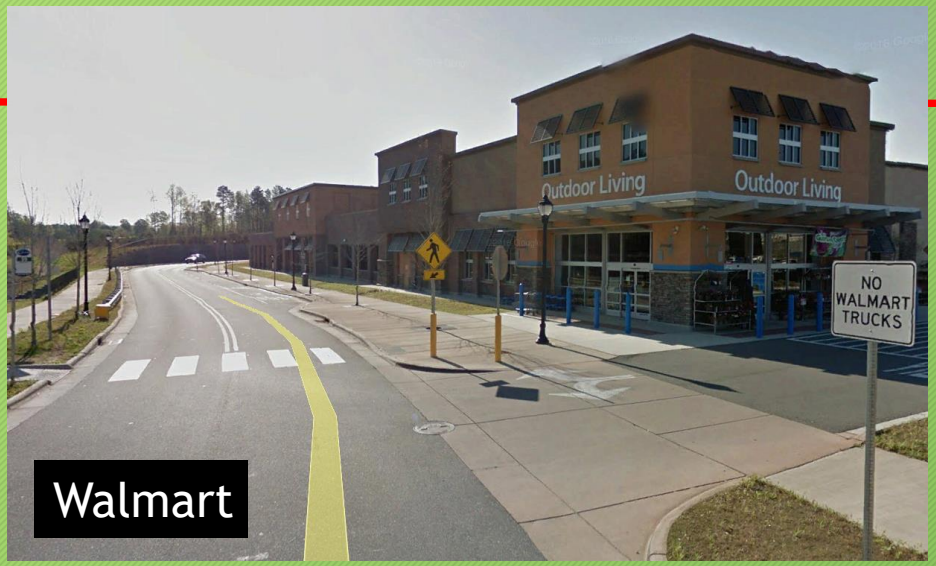
- Buildings Should Front Street; street is public realm and should be aesthetically attractive; parking on side and rear
- Connected Streets
- Mixture of Land Uses
- Intense Development Between I-77 and NC 115 Corridor & lower intensity east & west
- Redevelop downtown as walkable mixed use center
- Multimodal streets (vehicles, bicycles, pedestrians, transit)

Conventional Zoning Pre-1996

- Separation of Land Uses
- Buildings Front Parking Lots
- Streets Do Not Interconnect

Huntersville Form Based Code

- Mixture of Land Uses
- Buildings Front Streets;
- On-Street Parking
- Streets Interconnect With Adjoining Lots



Walmart

Harris Teeter

AAA Auto

NC DMV

Birkdale Village: Form Based Zoning Code

Timeline of Development in Huntersville: 1990-2000

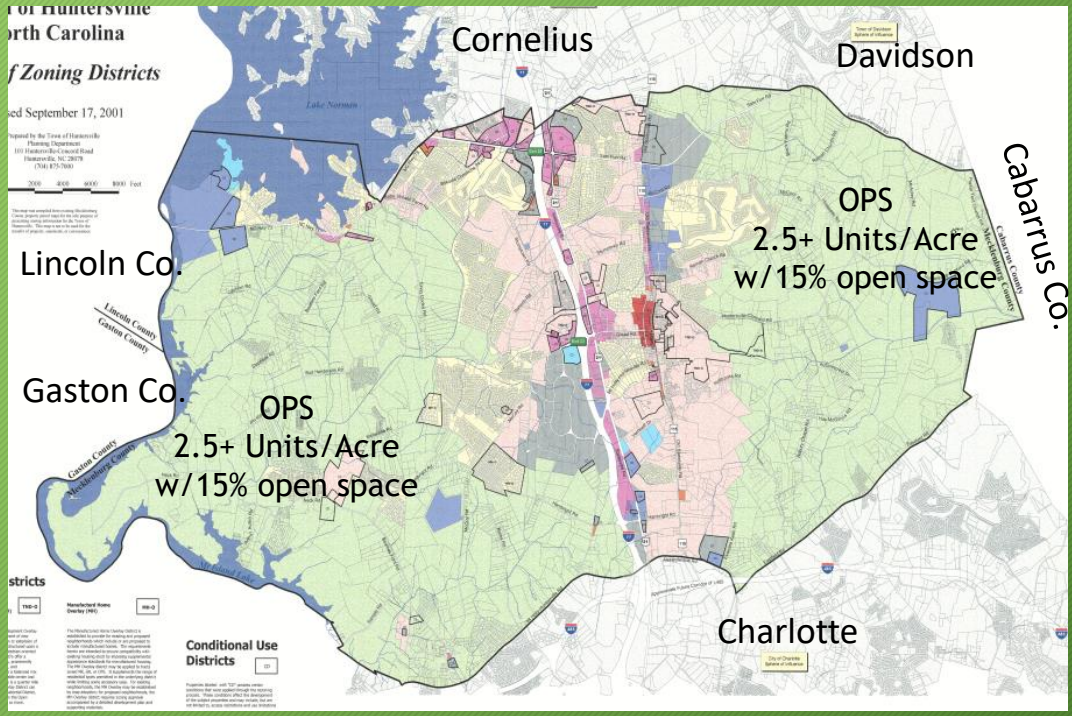
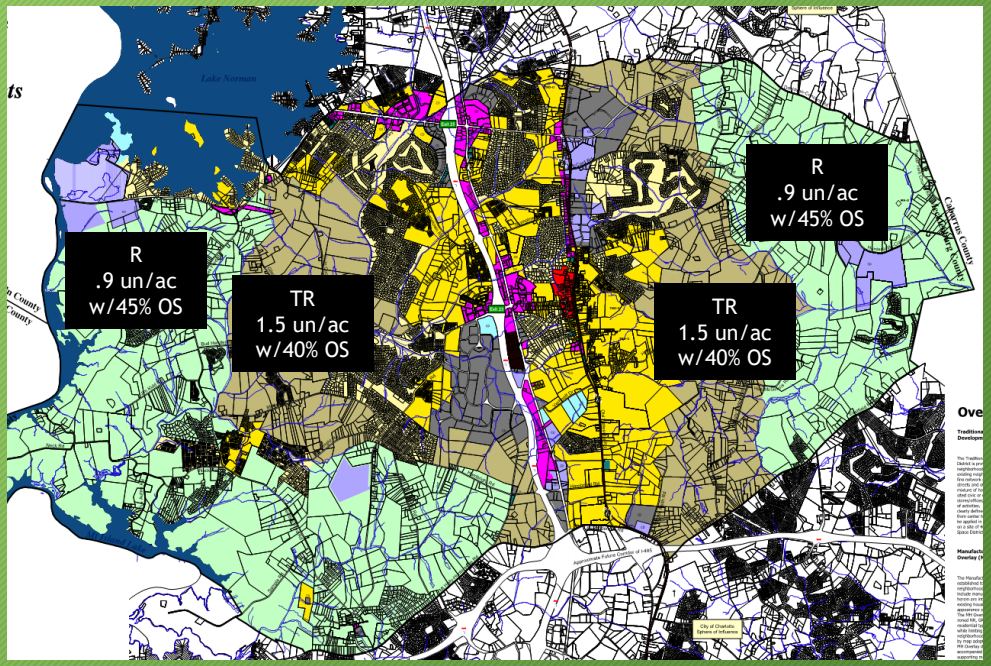
- Small zoning jurisdiction boundaries; conventional zoning
- 1995 Huntersville Community Plan
- 1996 Revised Huntersville Zoning Ordinance – form-based code (buildings front street or open space, connected streets; sidewalks both sides of streets, mixed uses)
- 1997 Huntersville expands zoning jurisdiction to sphere of influence (63 sq. mi.)
- **2000 POPULATION 24,960**



Timeline of Development in Huntersville: 1990 - 2003

- **1990 POPULATION 3,014 people**
- Small zoning jurisdiction boundaries; conventional zoning
- 1995 Huntersville Community Plan
- 1996 Revised Huntersville Zoning Ordinance – form-based code (buildings front street or open space, connected streets; sidewalks both sides of streets, mixed uses)
- 1997 Huntersville expands zoning jurisdiction to sphere of influence (63 sq. mi.)
- **2000 POPULATION 24,960**
- 2002-2003: Huntersville updates the Community Plan keeping the same vision for development along I-77 NC 115 but lower intensity in OPS (change to Rural & Transitional); amend Zoning and Subdivision Ordinance



- Lighting Standards
- Tree Preservation Standards
- Water Quality

Timeline of Development in Huntersville: 1990 - 2011

- **1990 POPULATION 3,014 people**
- Small zoning jurisdiction boundaries; conventional zoning
- 1995 Huntersville Community Plan
- 1996 Revised Huntersville Zoning Ordinance – form-based code (buildings front street or open space, connected streets; sidewalks both sides of streets, mixed uses)
- 1997 Huntersville expands zoning jurisdiction to sphere of influence (63 sq. mi.)
- **2000 POPULATION 24,960**
- 2002-2003: Huntersville updates the Community Plan keeping the same vision for development along I-77 NC 115 but lower intensity in OPS (change to Rural & Transitional); amend Zoning and Subdivision Ordinance
- **2010 POPULATION: 46,773 (2,994 ETJ)**
- **2011 Huntersville Updates the Community Plan**

Town of Huntersville, NC
Population Estimates & Projections

Updated 1/28/2019

2010 - 2030

NC State Demographer Official Estimates | *Population Estimates / ToH Planning Department*

Long Range Planning for Entire Jurisdiction

Town of Huntersville

2030 Community Plan

Adopted by
Town Board of Commissioners on
June 20, 2011

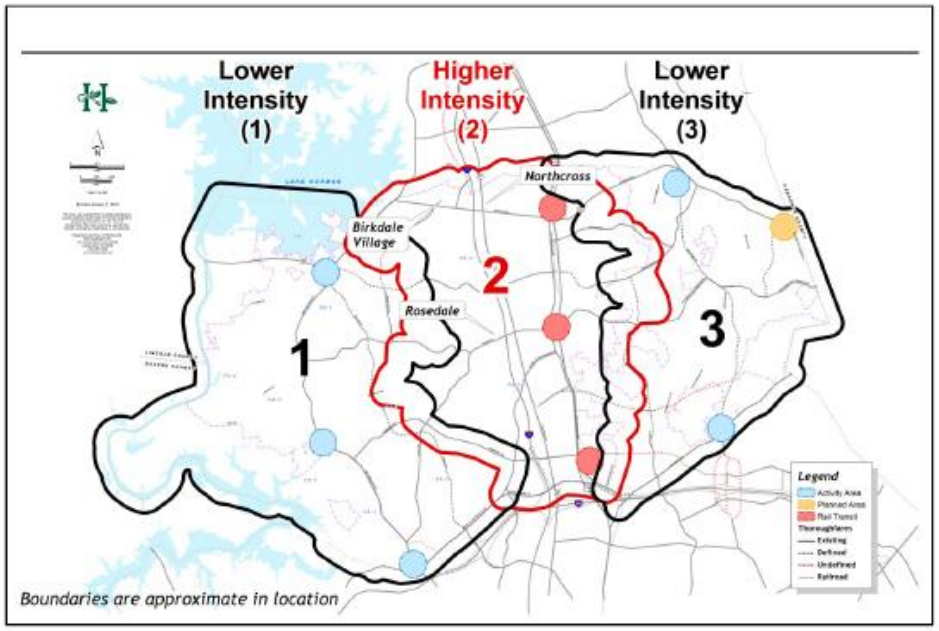
Town Limits & ETJ

Town of Huntersville Vision Statement

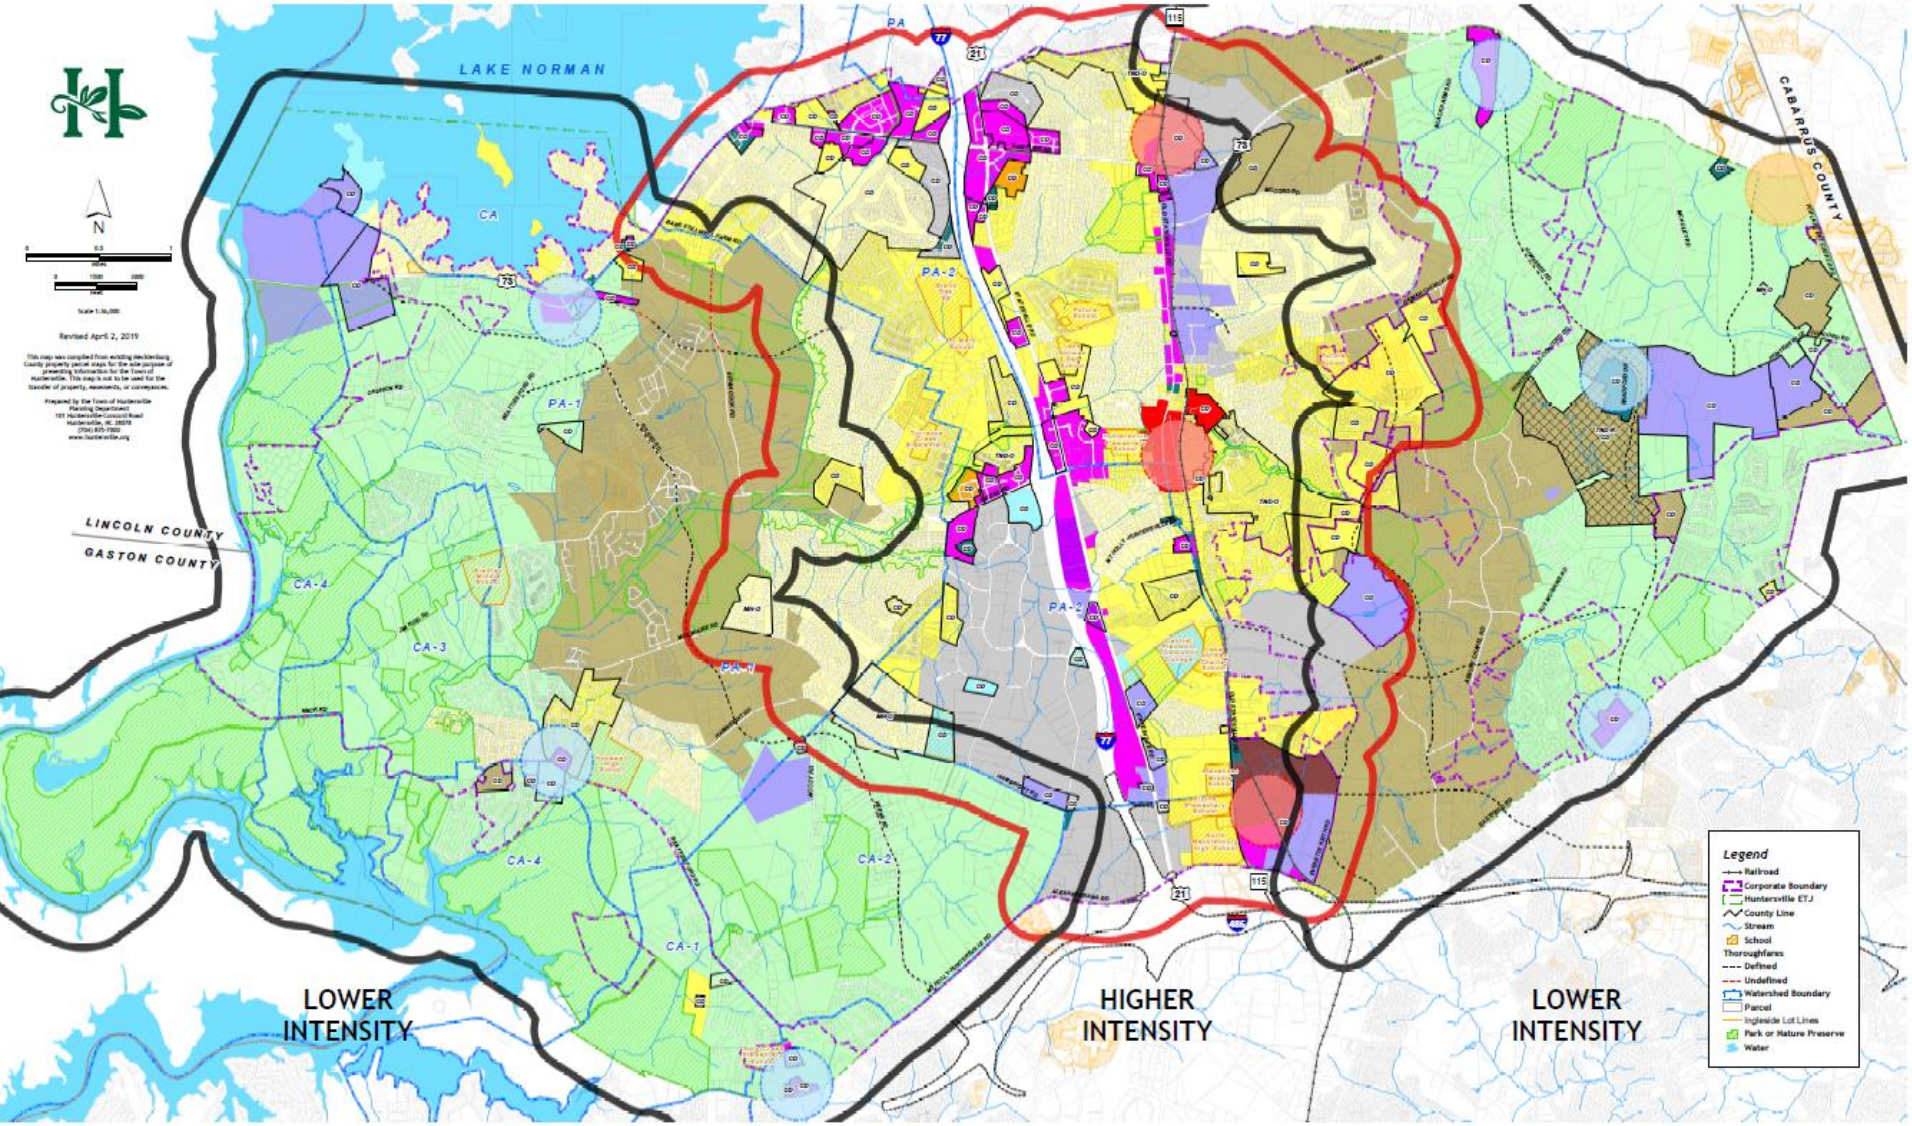
In 2030, Huntersville will be a vibrant and visually attractive community defined by high quality growth and development that:

- preserves natural, scenic and historical assets;
- offers a variety of housing and employment options;
- creates opportunities for recreation, art and culture; and
- is served by a multi-modal interconnected transportation system.

Land use and transportation planning practices will be responsive to a world that is changing, will be fiscally responsible, and reflect an appropriate balance of economic, environmental and social factors. Higher intensity development and redevelopment will generally be focused within two miles of the I-77/NC-115 corridor (area 2), with lower intensity development located east and west of this corridor (areas 1 and 3) and in mixed-use village centers at important crossroads.



2019 Map of Zoning Districts with 2030 Community Plan Intensity Zones



Major Projects and Issues

- Update of 2011 Huntersville Community Plan
- Huntersville Bikeway Plan just started (Huntersville Parks & Recreation)
- NCTIP Road Improvements: $484 Million
- Traffic Impact Analysis Ordinance Review
- Strategic Economic Development Plan Implementation
- I-77 HOV Lane Expansion
- Streamlining Permit Process
- Downtown Redevelopment
- Town Center Development
- Current Projects: www.huntersville.org

Consultant Notice to Proceed **Sept 10th, 2019**

Huntersville Town Board Resolution No. R-2019-18 *(Excerpts)*

- The purpose of creating the Huntersville Community Plan Update Steering Committee is to serve as an advisory board to the Town of Huntersville Planning Board and Board of Commissioners until such time as the Plan Update is adopted by the Board of Commissioners.
- The Steering Committee will meet at least eight (8) times during the project, with an anticipated timeframe extending from September 2019 through September 2020, subject to change. The Planning Director shall have the authority to call the meetings of the Committee, which will be called and advertised as a special-called meeting, and to set the agenda for each meeting as part of the special-called meeting notice. Only items of business specified in the special-called meeting notice may be conducted at each meeting.
- The Steering Committee will elect a Chairperson from its membership. The Chairperson will lead meetings, manage discussion in a civil and orderly fashion, and coordinate the making of decisions by the Committee, whether by consensus or by a motion made, seconded and approved by majority vote.
- In order for the Committee to carry out its responsibilities, it is necessary for members to attend the meetings. If a member is absent for two (2) meetings, the Committee may request that the member be replaced by the Town Board of Commissioners.
- Meetings will be advertised and conducted in accordance with the North Carolina Open Meetings Law. Minutes shall be kept for each meeting.
- Upon adoption of the Community Plan Update, the Huntersville Community Plan Update Steering Committee may be dissolved by the Board of Commissioners.

Membership Functions……

- Attend 6-8 Steering Committee Meetings
- Listen & Evaluate
- Share Ideas and Opinions
- Use Your Knowledge of Huntersville
- Get People Involved and Be an Ambassador!

PROJECT SCHEDULE

The following is a draft schedule for the Huntersville 2030 Community Plan Update:

Suggested Committee Governance:

- Chairperson keeps agenda on track
- Civil discourse at all times
- Equal opportunities to provide viewpoints
- Make decisions by consensus (avoid formal voting)
- Abide by the scope of work and schedule
- Major changes in scope, budget, or schedule have to be approved by the Town Board

For Committee Consideration:

- Next Meeting: October 29th / 30th (Tentative)
- Election of Committee Chairperson
- Meeting Preferences
  - Location, Day of the Week, Time of Day
- Public Engagement / Citizen Involvement

Town of Huntersville, North Carolina
Community Plan Update
Scope of Work
Date of Approval: September 3, 2019

INTRODUCTION

STEWART is the lead firm selected to prepare the Huntersville Community Plan Update, with Nealon Planning and Kimley-Horn serving as subcontractors to Stewart. The lead firm and subcontractors are referred to collectively in the scope of work as the CONSULTANT.

This scope of work outlines the work program for the development of the Huntersville Community Plan Update. It has been developed based upon a detailed proposal, conversations with Town staff, and prior experience creating similar plans. The work program is organized into the following phases:

- Phase 1: Project Initiation
- Phase 2: Analysis & Visioning
- Phase 3: Plan Development
- Phase 4: Implementation & Adoption

The CONSULTANT will work together with Huntersville Planning staff and other Town departments in all facets of the plan development process, including work with the Steering Committee appointed by the Huntersville Town Board of Commissioners, data analysis and mapping, public engagement, and the creation of policies and actionable implementation strategies.

SCOPE OF WORK

PHASE 1: PROJECT INITIATION

Prior to beginning the planning process, the CONSULTANT will meet with Town staff to refine the work plan, public engagement process, schedule, communication methods, and other items related to project execution.

1.1 Existing Plan and Document Review/Data Gathering

The CONSULTANT will work with Town staff to identify and assemble relevant background documents for review. Spatial data and adopted plans will be collected from the Town, state, and federal agencies as well as private organizations. At a minimum the following will be reviewed:

- GIS Files
- Neighboring Jurisdiction and Regional Plans
- Zoning Ordinance
- Subdivision Ordinance
- 2030 Community Plan
- 2014 Strategic Economic Development Plan
- Small Area Plans
- Land Use Corridor Plans
- Downtown Master Plan
- Neighborhood Plans
- Redevelopment Plans
- Comprehensive & Metropolitan Transportation Plans
- NCTIP/Town CIP Projects

An Assessment of the adopted Community Plan is vital to understanding the challenges, opportunities, and successes stemming from the existing guidance document and implementation measures. The CONSULTANT will work with Town staff to produce an assessment of the existing plan focusing on policy, results of implementation strategies, and consistency with small area plans and other Town studies. As part of this the CONSULTANT will summarize progress and outstanding issues related to the Six Focus Areas established in the existing Community Plan:

1. Housing
2. Environment
3. Transportation
4. Economic & Commercial Development
5. Downtown
6. Public Systems, Facilities & Services

1.2 Tour and Initiation Meetings

To initiate the planning process, the CONSULTANT will conduct an initial round of meetings with staff, the Steering Committee, elected/appointed officials, and stakeholders to help identify key issues to be addressed in the Community Plan Update and to understand expectations. The meetings will include the following:

- *Kickoff Meeting with Staff* – Key CONSULTANT team members will attend a kickoff meeting with Town staff. The meeting will take place the same day as the tour.
- *Community Tour* – CONSULTANT will conduct tour(s) with Town staff to document, inventory, and view key area and features such as Town-owned land and buildings, protected and unprotected natural resource areas, housing, recently approved developments (or areas proposed/being considered for development), and utilities/infrastructure. This tour will help the CONSULTANT understand how the land area is currently organized, used, and supported by public facilities.
- *Stakeholder Interviews* – The CONSULTANT will conduct a series of stakeholder interviews (6 meetings) taking place over the course of one day. The CONSULTANT will work with Town staff to identify these interests (business owners, community and neighborhood groups, economic development and tourism officials, representatives from the environmental community, etc.). The purpose of the meetings is to listen and understand concerns and identify plan opportunities and constraints.
- *Steering Committee Meeting* – The first meeting with the Steering Committee will occur during this phase of the project where we will discuss the project scope, schedule, stakeholder feedback, and identify issues. At least one member of the CONSULTANT team will attend all Steering Committee meetings unless specified in the scope or agreed upon through communications with Town staff.

1.3 Public Engagement Materials

Website and Public Engagement materials – The CONSULTANT will create a standalone website and public engagement materials including a Frequently Asked Questions (FAQ) document or brochure for education purposes. A brief, introductory power point presentation will be created to assist with community outreach. The website will be set up early in the process to allow for people to register for updates during the planning process. Contact information provided via the website will be provided to the town staff to allow for periodic communication. It is also anticipated

that the town's existing email distribution list (Constant Contact) will also be leveraged to announce key opportunities for public involvement. The website will also be used to link to surveys, provide notices of upcoming meetings and events and serve as a repository for project documents and resources.

Phase 1 Meetings:

- Project Initiation Meeting with Staff
- Community Tour
- Stakeholder Interviews (6)
- Steering Committee Meeting #1 – Project Initiation
- Monthly coordination calls with Town Staff

Phase 1 Deliverables:

- Plan Review – A summary of previous planning efforts and adopted policy will be prepared and highlights will be presented to the Steering Committee. Highlights of the plan reviews will also be included in the final plan document. Town staff to provide the following:
  - Text or power-point based summary of progress since current Community Plan adoption related to the six focus areas, including policies and implementation recommendations.
  - Summary of progress made and key ideas within adopted small area plans that are relevant to the Community Plan Update.
- Stakeholder Interview Schedule and Invitation Template – The CONSULTANT will develop a schedule and an email invitation template for staff to use to invite stakeholders to participate in the plan update.
- Meeting Materials – The CONSULTANT will be responsible for producing materials and summaries for the Stakeholder Interviews, Steering Committee Meeting, and other meetings.
- Public Engagement Plan – The CONSULTANT will produce document that lists planned public outreach efforts including meetings and major touchpoints for social media, workshops, and Board and elected official presentations.
- Public Engagement and Branding Materials – FAQ or brochure and standalone website. Introduction power point. Branding including project name, color palette and font set.

PHASE 2: ANALYSIS & VISIONING

2.1 Mapping and Community Profile

The CONSULTANT will prepare a Community Profile (CP). The CP will include the Town history, a Town profile, and associated indicators (population, employment, income, socioeconomic data, housing, education, health, aging, development projects, etc.). Data from the Census Bureau, State of North Carolina, and other available sources will be used. Materials from Huntersville 101 will be integrated into the CP as appropriate.

The information collected and analyzed in the Community Profile will be used to inform the Community Plan Update and provide key facts and figures that can be integrated into presentations and documents in a highly graphic and easily understandable format. This data will be presented at a Steering Committee meeting, a community meeting in Phase 3, and provide educational materials for public engagement efforts, guide the team's work in future phases, and will ultimately be incorporated into the final plan.

This task will include developing maps that will be used throughout the process. Using data collected as part of Phase 1, the CONSULTANT will analyze existing land use patterns to determine development trends and establish character areas which will be useful for determining future land use recommendations. A land supply inventory will also be created that factors in utilized land (built lands not likely to redevelop or accommodate new development), underutilized land (determined by querying certain types of land uses based on a structure value to land value ratio), and vacant or available land. Environmental constraints will also be mapped. An inventory and summary of available, buildable land will be created to help identify areas of potential change.

2.2 Community Survey Phase 1

The CONSULTANT will work closely with Town staff to develop a Community Survey to gather feedback from the public regarding plan development preferences and key issues to be addressed by plan policies, future regulatory efforts, and investment decisions. The survey will include a visual preference survey, utilizing local and regional precedents to the extent possible, which will allow participants to express

preference for a variety of design options including streets, neighborhood design, open space, and architectural types. It is anticipated that the Community Survey will be available on-line, in print form, and as the focus of the public meetings during Phase 3. It is also important to note that questions/answers from the 2011 survey will be reviewed and utilized in the current survey as appropriate to explore changes in preferences, etc.

The CONSULTANT will work with a third-party provider (i.e. MetroQuest, PublicInput.com or other provider) to create an interactive survey that could include a community forum and/or map-based activities that allow participants to spatially locate priorities and/or identify land use preferences.

2.3 Visioning Workshop

Following the analysis phase, the CONSULTANT will coordinate with Town staff to schedule and conduct a workshop over the course of 3.5 days with open studio times and a variety of formal and informal meetings. A concentrated effort focused on community betterment will build excitement and create momentum for the plan. The first day will focus on issues, opportunities, and visioning. The second day will include a meeting to convey themes of input received on the first day. The third day will focus on developing recommendations, concepts, and action items. An informal public meeting or event and a Steering Committee meeting will also be scheduled during the workshop. During this phase the CONSULTANT will prepare an activity meant to guide children through an interactive planning exercise. This activity could be used during the workshop or at a separate meeting facilitated by Town staff.

Planners and designers will present workshop results at a Steering Committee meeting, and two public open house/workshop sessions will be scheduled to gather input on the plan. As part of the workshop the CONSULTANT may also schedule a work session with staff and key stakeholders and/or an informal meeting.

Phase 2 Meetings:

- Steering Committee Meeting #2 - Analysis
- 3.5 Days of Public Meetings
- Steering Committee Meeting #3
- Monthly coordination calls with Town Staff

Phase 2 Deliverables:

- *Mapping Deliverables (provided in ArcGIS v10.5 Map Package (.mpk) format):*
  - Existing Land Use
  - Land Use Supply (Vacant, Developed, and Underdeveloped Lands)
  - Parcel Size Map
  - Environmental Constraints Map (Floodplains, Wetlands, Slope, Topography, Vegetation, and other Sensitive Resources)
  - Multi-Modal Transportation Maps
  - Infrastructure and Services (Water, Sewer, Storm, Schools, Police, Fire, EMS)
  - Parks, Recreation and Open Space (including Agricultural Lands)
  - Cultural and Historic Resources
- Community Survey (Phase 1)
- Community Profile Deliverable
- Workshop Materials
- Preliminary Vision, Goals, and Recommendations
- Meeting Materials and Summaries

PHASE 3: PLAN DEVELOPMENT

3.1 Plan and Policy Framework

Building on the draft vision, goals, and public input the CONSULTANT will prepare a detailed outline or framework of the proposed plan. Upon direction from Town staff, the framework could incorporate the previous plan's six focus areas as well as any other elements identified in the visioning process.

3.2 Land Use Suitability

The CONSULTANT will conduct a Land Use Suitability Analysis that will determine areas most suitable for different types of development based on economic development and environmental inputs. It is anticipated that suitability maps will be created for residential, nonresidential (commercial, industrial, etc.), and conservation/open space. Exact land use types and inputs will be determined based on consultation with Town staff. Typical inputs include proximity to existing and proposed roadways and utility infrastructure, proximity to schools, parks and commercial areas, adjacent land uses, and environmental constraints.

The suitability analysis will be combined with input from public meetings to determine land use preferences including land use-mix, scale, and design character. Deliverables for this task will be utilized to formulate land use recommendations.

3.3 Build-Out Summary

The CONSULTANT will coordinate with town staff to gather data on residential build-out estimates produced by town staff. A student generation rate will be applied to dwelling unit projections. Build-out estimates from staff will be compared to estimates in the Regional CONNECT Our Future model. This information will be summarized for use in the Community Plan Update process.

3.4 Future Land Use and Housing

Following the Land Use Suitability Analysis, and processing of feedback from the workshop and Steering Committee meeting, the CONSULTANT will work to create a Future Land Use Map to accommodate growth and development through the next five to ten years.

The CONSULTANT will conduct detailed analyses of issues and opportunities in various portions of the Town. Residential growth areas, redevelopment opportunities, economic development opportunities and conservation priorities will be studied.

The map will be supplemented with descriptions of land use categories that will be brought to life using precedent imagery. The descriptions will specify intended use mix, scale, density, and other design features (i.e. – street standards, open space form, and footprint).

As part of this task the CONSULTANT will work with Town staff to provide guidance on the federal Fair Housing Act. Housing recommendations in the Community Plan Update will provide policy guidance on the Town's housing stock and future location and mix of housing within Huntersville. The CONSULTANT will strive to emphasize the importance of providing a range of housing types for all segments of Huntersville's population.

3.5 Transportation

Inventory.

The CONSULTANT will inventory projects recommended in local, regional, and statewide transportation plans. The inventory will consider all modes, including roadway, bicycle, pedestrian, and transit. Funded transportation projects from the Charlotte Regional Transportation Planning Organization (CRTPO) 2045 Metropolitan Transportation Plan (MTP), North Carolina Surface Transportation Improvement Program (NC STIP), the Town's Capital Improvements Program (CIP), and unfunded projects from the CRTPO Comprehensive Transportation Plan and the Town's mode-specific plans will be inventoried. Projects from neighboring jurisdictions considered to have an impact on the Town will also be considered. The inventory of projects will document project source, funding status, and implementation timeframe. No additional traffic analysis or modeling will be conducted.

Diagnostic.

Once the community plan goals are finalized and a draft land use plan is available, the inventory of projects will be revisited to determine how well the projects address the community vision. The diagnostic will consider the proposed design (if

available) of the transportation projects and will recommend strategies that seek to limit community disruptions due to the number and magnitude of concurrent projects under construction.

Transit Assessment.
The CONSULTANT will consider the long-term goal of commuter rail transit while acknowledging the land use benefits of different types of transit (e.g., commuter rail, light rail). The transit assessment will consider the recently completed North Corridor reassessment and parallel and perpendicular connections between the I-77 Express Lanes and the Norfolk-Southern "O" line commuter rail. Ridership forecasting or detailed transit analysis will not be conducted.

Transportation Policies and Action Items.
Using the Huntersville 2030 Community Plan (Part 3, Section 15.0) as a model, the CONSULTANT will recommend transportation policies and programs that support the Plan Update's other topical areas. Recommended policies and programs will include ways to integrate transportation design decisions into other Town decision-making processes.

3.6 Public Systems and Facilities Services

Analyses and recommendations will address capacity and constraints as it relates to potential growth within Huntersville. A framework for public and privately funded utility infrastructure improvements needs to be updated regularly to ensure that it is in line with the type of growth that is envisioned as part of the land use element of the plan. Recommendations and priorities for public utility extensions will be included in this element.

3.7 Economic Development and Placemaking

The Community Profile (population, households, building permits, employment, trends, incomes, and other key variables) will be utilized for this analysis. A comprehensive baseline of where the Town is today will be established. This will be compared with the surrounding markets and/or peer communities. Economic development is critical to the future success of the Town of Huntersville. To help understand and address this issue, the CONSULTANT will consult with the Charlotte Regional Business Alliance, Lake Norman Economic Development, the Lake Norman

Chamber, the Huntersville Chamber, and other agencies to gather information on existing policies, plans, and incentives.

Leveraging the Community Assessment, as well as other published data sources, the CONSULTANT will prepare a market review for Huntersville. This effort will focus on the market potential for housing, retail, job-producing, and entertainment-based sectors. This review will consider baseline and historical conditions; the location, direction, and outcomes of investment decisions; and the use of real estate by various sectors of the local economy. These factors will be synthesized to assess strengths, weaknesses, opportunities, and threats (SWOT) to better understand the development potential of the Town. Ultimately, the CONSULTANT will develop an inventory of potential catalyst sites and available and/or potentially developable land in Huntersville.

Economic development strategies and recommendations will be identified, including new and existing activities and policies. Strategies will be organized around the plan's goals and placed into a matrix that designates between short- and intermediate-term opportunities and longer-term strategic investments.

Economic and Fiscal Health Analysis

Kimley-Horn will prepare a cost to serve analysis by land use type (residential, retail, office, industrial, hospitality) for the towns of Huntersville and Cornelius. This analysis will leverage, but update, the structure and findings of the CONNECT Our Future Cost to Serve analysis that was prepared in 2013. Cost to serve measures will focus municipal-provided services like emergency services, utilities, parks and recreation, and transportation. The cost of schools, which are a function of Mecklenburg County, will be excluded from the analysis. A high-level indication of potential tax revenue by land use type will also be included.

The findings of the Economic and Fiscal Health Analysis task will be useful in comparing the impacts of growth alternatives for future land uses. They can also be used in future land use decisions to be made by staff and appointed/elected officials. The deliverable for this task will be a technical memorandum and an editable spreadsheet of findings for future use by both jurisdictions.

[Authorized by the Huntersville Town Board; contracted by the Lake Norman Economic Development Corporation]

3.8 Environment and Open Space

This element will incorporate and build off the Town's rural base and environmental resources. Protection and management strategies will be evaluated to ensure that future land use decision-making incorporates appropriate concerns and protection of priority areas such as the Critical Area of the Lake Norman Watershed. The Mecklenburg County Soil and Water Conservation District and the North Carolina Wildlife Resources Commission will be consulted for more input into this section of the Plan.

Open space and recreation resources are important not only to residents and visitors, but also the business community. This element of the plan will focus on meeting the current and future open space, parks, and recreation needs of the Town, and how the Town can use its existing and future open space resources as an opportunity to promote recreational opportunities that could facilitate economic development and promote recreational tourism. The Community Plan Update will include GIS mapping of existing facilities and ongoing open space protection efforts, and will highlight priority park improvements/investments, greenway corridors, regional park locations and interconnection opportunities, and strategic open space priorities.

3.9 Community Survey Phase 2

The CONSULTANT will work closely with Town staff to develop a second Community Survey to gather feedback from the public regarding draft recommendations and priority implementation steps.

3.10 Plan Development

The CONSULTANT, in collaboration with Town staff, will prepare and submit a draft 2030 Community Plan Update (to be delivered in batches of chapters for ease of review) to Town staff and the Steering Committee for review. Following this review, the draft document will be posted on the Town website for public comment. Town staff and the CONSULTANT will also conduct a community open house to reveal the full plan. An online comment form will be created in order to capture public comments. All comments received from staff, the Steering Committee, and the public will be catalogued, and responses made. This careful tracking of comments will allow the CONSULTANT to identify common themes in feedback/ comments for

discussion with staff and elected/appointed officials during the review and public hearing process. The draft document will be revised and amended as appropriate.

Phase 3 Meetings:

- Steering Committee Meeting #4 – Framework and Vision
- Steering Committee Meeting #5 – Draft Plan
- Community Meetings/Open House – Draft Plan
- Monthly coordination calls with Town Staff

Phase 3 Deliverables:

- Future Land Use Map and Policies
- Character Area Descriptions
- Community Survey (Phase 2)
- Draft Community Plan Update
- Summary of Comments on Draft Plan (pdf format)
- Meeting and Public Workshop materials

PHASE 4: IMPLEMENTATION & ADOPTION

4.1 Implementation

After the plan is in draft format the CONSULTANT will conduct a work session with planning staff and other Town departments to discuss implementation steps. Topics that will be discussed include potential amendments to the zoning ordinance, ways to address adequate public facilities, traffic impact analyses, tree preservation, affordable housing/inclusionary zoning and other design standards recommended during the Plan update process.

4.2 Plan Adoption

Plan adoption will be a collaborative process between Town staff and the CONSULTANT. The final 2030 Community Plan Update will be presented to the public at a Community Meeting/Open House and to the Planning Board and Town Board of Commissioners during the review and public hearing process. Following the public hearing process, a final set of plan documents in printed and electronic format will be provided to the Town.

Optionally, the CONSULTANT will assist the town by conducting additional neighborhood meetings and/or attending existing meetings of civic groups to gather feedback on proposed recommendations.

Phase 4 Meetings:

- Steering Committee #6 – Implementation
- Up to 2 Adoption Meetings (Planning Board and/or Town Board of Commissioners)
- Monthly coordination calls with Town staff

Phase 4 Deliverables:

- Implementation Recommendations
- Final Adopted Plan
- Meeting Summaries

Training and Continuing Service

The CONSULTANT will conduct a half-day training session for Town staff, Planning Board, and/or Board of Commissioners. As part of a Continuing Service promise, the CONSULTANT will be available by phone or email for a period of six months following plan adoption to assist staff with questions. This continuing service is included in the base fee and is not an additional cost to the Town.

TOWN RESPONSIBILITIES

It shall be the responsibility of the Town staff to provide the following items:

1. Provide any available electronic information on the study area to be used in the preparation of plans.
2. Provide reasonable advanced notice of scheduled meetings.
3. Provide decisions on critical issues as necessary in a timely manner.
4. Payment of all invoices per Conditions of the Agreement.

COMPENSATION / BUDGET

The CONSULTANT agrees to provide professional services as outlined above in the Scope of Services on a lump sum basis. The total project budget is $124,960, which includes expenses for travel, basic food and supplies for meetings, and printing and deliverables specified in the scope of services. Optional services will be completed based upon a revised contract agreement.

Phase	Description	Cost
1	Project Initiation	$15,045
2	Analysis & Visioning	$52,090
3	Plan Development	$42,310
4	Implementation & Adoption	$12,360
	Expenses	$3,155
	Total	$124,960

ADDITIONAL/OPTIONAL SERVICES

Any item not contained in the scope of services above will be deemed as an Additional Service. Additional services will be provided if requested by the Client for a negotiated lump sum fee or at our Standard Hourly Billing Rates. Potential optional services and deliverables include the following:

Table 1: Optional Tasks

Optional Task	***Description***	***Cost***
Concept Designs [A Concept Design was approved for the Downtown on 9/3/2019]	Optionally conceptual designs will be created for one or more areas that illustrate placemaking opportunities key infrastructure and public realm improvements, building scale, orientation, and other features. Downtown Huntersville would be a prime candidate for a conceptual design that illustrates potential public and private investment and the impact of form-based design policies. The Hambright Road area and/or an undeveloped activity center on the east side of Town would also be candidate locations.	$7,500 per area
Economic and Fiscal Health Analysis [Authorized by Huntersville Town Board provided the Lake Norman EDC pays for the analyses.]	Kimley-Horn will prepare a cost to serve analysis by land use type (residential, retail, office, industrial, hospitality) for the towns of Huntersville, Cornelius, and Davidson. This analysis will leverage, but update, the structure and findings of the CONNECT Our Future Cost to Serve analysis that was prepared in 2013. Cost to serve measures will focus municipal-provided services like emergency services, utilities, parks and recreation, and transportation. The cost of schools, which are a function of Mecklenburg County, will be excluded from the analysis. A high-level indication of potential tax revenue by land use type will also be included.	$18,000* **The cost above represents analyses for the towns of Huntersville, Cornelius, and Davidson.*

	The findings of the Economic and Fiscal Health Analysis task will be useful in comparing the impacts of growth alternatives for future land uses. They can also be used in future land use decisions to be made by staff and appointed/elected officials. The deliverable for this task will be a technical memorandum and an editable spreadsheet of findings for future use by each jurisdiction.	
Return on Investment Analysis	As directed by the Town of Huntersville, the CONSULTANT will prepare benefit-cost analyses for key infrastructure investments. This effort could be leveraged to support the prioritization process, particularly for those investments that are not currently funded or those that are controversial. Key metrics to be reviewed as part of analyses of return on investment include safety, economic competitiveness, environmental sustainability, quality of life, and state of good repair.	$7,500 per analysis
Detailed Real Estate Analysis	Detailed real estate demand analyses can be prepared to support the development of specific small area plans or unique catalyst sites. These analyses would draw from the overarching market review prepared for the base planning effort but increase the level of detail based on a site's access, visibility, and surrounding land uses. This enhancement would be most beneficial for unique areas/sites and could be added, as needed, when beginning small area planning efforts or as key sites are identified.	$5,000 per analysis
Financial Feasibility Analysis	As directed, test pro formas for detailed small area plans or catalyst projects could be prepared in order to test the marketability of attracting a	$7,500 per pro forma

	private developer to the project based on target return levels. Information provided in this analysis could be used to market key catalyst projects to the development community. This enhancement would be most beneficial for unique areas/sites and could be added, as needed, when beginning small area planning efforts or as key sites are identified.	
Transportation Programming / Prioritization	Programming. The CONSULTANT will work with the Town to create a process to prioritize future transportation projects. This process will consider factors such as investment categories (e.g. mode, partnerships, congestion relief, development facilitation, small area plan), financial targets by category, and long-term value compared to short-term capital costs. Once the prioritization process is approved by the Town, the CONSULTANT will evaluate inventoried projects to identify no more than five additional major transportation projects to pursue over the next ten years.	$5,000
Design Evaluation	As an optional service, the CONSULTANT will work with the Town to identify locations (e.g. intersections, short corridors, or project areas) for which a transportation project or other initiative is likely to affect travel modes and patterns. Upon request for the Design Evaluation Optional Service, the CONSULTANT will work with the Town to define the location(s) and determine the appropriate level of coordination with Town representatives and external stakeholders (e.g. CRTPO, NCDOT, CATS, etc.). For each location, the CONSULTANT will evaluate current design plans and identify potential design changes or improvements so the project better reflects Town interests such as land use	Cost dependent on scope

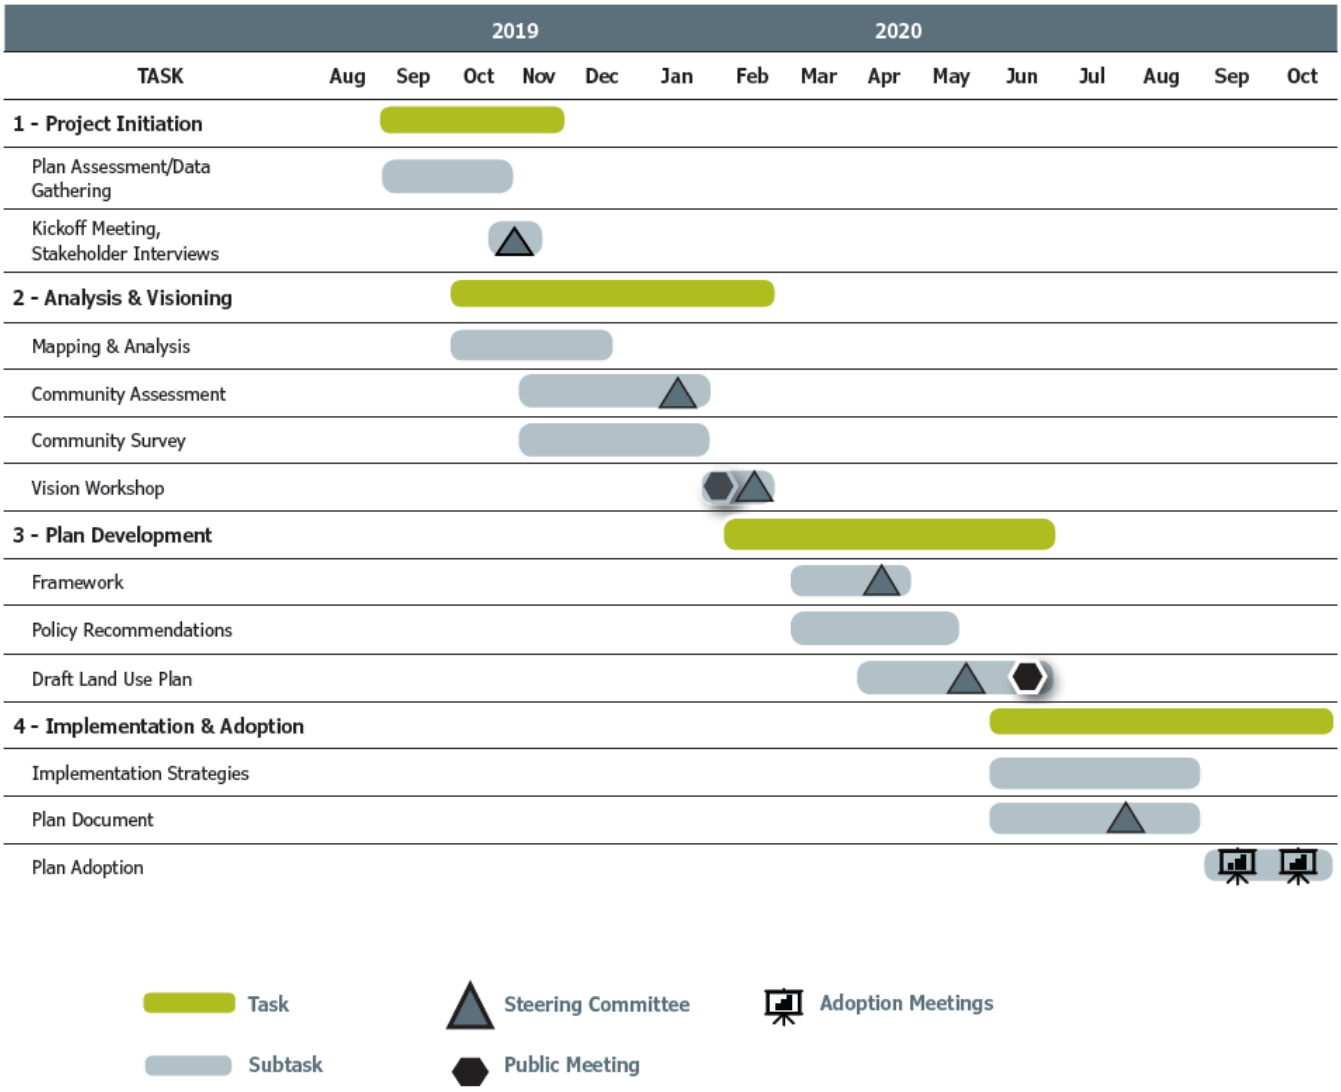
	context (existing and/or planned) or bicycle and pedestrian needs.	
Hot Spot Analysis	The CONSULTANT will conduct a Town-wide review of crash data compiled by NCDOT. This data will be supplemented with feedback from stakeholders and the public. The CONSULTANT will create a process to select the highest priority intersections using a combination of severity, frequency, geographic distribution, and/or relationship to other plans. The CONSULTANT will collaborate with the Town to select 5 locations for more detailed evaluation, including field review to document contributing factors to the crashes and create a list of potential countermeasures. Opinion of probable cost to be included.	$7,500
Additional Meetings	• Adoption Meetings (in addition to the 2 meetings included in scope) • Focus Group Meetings	$1,200 per meeting per Stewart, Kimley Horn or Nealon Planning staff member

PROJECT SCHEDULE

The CONSULTANT agrees to provide services to the Town in the most expeditious manner as is practical and will adhere to the project schedule as appropriate and realistic. It is anticipated that the project will be completed within 12 months from the Notice to Proceed. Note, the adoption process may extend beyond this period.

PROJECT SCHEDULE

The following is a draft schedule for the Huntersville 2030 Community Plan Update:



Town of Huntersville 2019 Community Plan Update

Steering Committee Contact Information

Appointed by the Huntersville Board of Commissioners on 09/03/2019

The purpose of creating the Huntersville Community Plan Update Steering Committee is to serve as an advisory board to the Town of Huntersville Planning Board and Board of Commissioners until such time as the Plan Update is adopted by the Board of Commissioners.

The Steering Committee consists of fifteen (15) members, who are residents of the Town of Huntersville and appointed by the Town of Huntersville Board of Commissioners. The appointees have been selected from the pool of volunteer applicants interested in serving on the Committee.

The Steering Committee will meet at least eight (8) times during the project, with an anticipated timeframe extending from September 2019 through September 2020, subject to change. The Planning Director shall have the authority to call the meetings of the Committee, which will be called and advertised as a special-called meeting, and to set the agenda for each meeting as part of the special-called meeting notice. Only items of business specified in the special-called meeting notice may be conducted at each meeting.

The Steering Committee will elect a Chairperson from its membership. The Chairperson will lead meetings, manage discussion in a civil and orderly fashion, and coordinate the making of decisions by the Committee, whether by consensus or by a motion made, seconded and approved by majority vote.

In order for the Committee to carry out its responsibilities, it is necessary for members to attend the meetings. If a member is absent for two (2) meetings, the Committee may request that the member be replaced by the Town Board of Commissioners.

Meetings will be advertised and conducted in accordance with the North Carolina Open Meetings Law. Minutes shall be kept for each meeting.

Upon adoption of the Community Plan Update, the Huntersville Community Plan Update Steering Committee may be dissolved by the Board of Commissioners.

Subject: Thank you and moving forward

First I want to thank all of your for your warm welcome and allowing me to be a part of your team. I am proud to be back and extremely impressed with everyone I have had a chance to meet. As we move forward there are a few things I want us all to recognize:

1. We are an outstanding police department and this is a great place to work
2. We are not perfect and we have some things to work on that affect people, processes and outcomes.
3. We will all contribute to fix things that need to be fixed in continuing HPDs great tradition

With these things in mind I wanted to thank those of you who have shared your thoughts on issues and concerns. I realize I have not spoken to all of you and I will, but I already have a good understanding of things thanks to those of you who have spoken to me in person and as a group. As we move forward, I want to be clear my philosophy centers around the victims of crime externally (not politics) and internal on the individual patrol unit. Patrol is where it starts and all other services, from SWAT to volunteers to support to investigations, is in support of our response to incidents on patrol. The most important element in our organization is the person responding to 911 calls for service (victim orientation). Having said that, all positions are critical in some way and I think we all recognize that.

Supervisors, especially above the rank of Sergeant, are ALL supporting roles in the department – including patrol supervisors and the entire command staff. Our job is to keep line officers and support staff productive, well trained, well directed, and well equipped. To that end we must communicate. My goal here is to encourage you to communicate with your peers, subordinates and supervisors honestly about issues. For example, I know there is a feeling of disconnect between command staff and subordinates. This is not an uncommon problem and I'm not surprised to hear that. However, I will tell you there is no scanner or detection mechanism that will isolate that problem into actionable tasks to fix it either. The only way to fix that is to communicate specifically to your supervisors what you want to see or don't want to see. What is hindering you or even hurting your ability to do your job. These are legitimate questions but you have to be blunt and specific. if you are being mistreated that I can fix it, but if you FEEL your supervisors are not listening to you, for example, you have to demonstrate you are communicating as well. I have asked the Captains and Major to meet with you as a group or individually to start fostering better communication on what you are seeing the contributes to this problem. Please do so. Do not fear retaliation or black balling or anything like that for expressing your opinion about issues in the proper setting because I will not tolerate that. I do expect everybody up and down the chain to be respectful to each other in sharing your feelings, but you don't have to be soft or careful about what you are thinking. Most of you will not I'm sure and I appreciate that.

To be sure, not all issues you have will get fixed. Sometimes we will say well it has to be that way and you are going to have to live with it. I think most of you can at least grudgingly accept that but it has to be communicated to you and not left in limbo. I will do that.

I also want to address rumors and gossip. These are not specific things I have seen but something every organization suffers from and it is destructive. Again, we will provide avenues for you to find out information. You deserve that and I promise you if you want to know something ask me. However, I don't want anyone talking just to try to stir up controversy (we will have enough of that anyway!). Let me be clear, if you talking with a co-worker about what might happen and what could happen that is not bad gossip to me. We all want to know things and I encourage one of you discussing it to call and ask me or somebody 'Hey, what are you going to do going to do…" with this or that. You deserve answers.

However, if you start talking to someone about someone else, like "I heard so and so is doing this or that", I will track that down to its source and if that information is false, or if it was outside proper channels even if true, I will discipline for that. Remember you could be the VICTIM of such gossip as well. Also, if someone tells you something and you repeat it you own it just as if you had started it. Be prepared if you repeat malicious gossip to be compelled to answer who told you, and if you tell somebody something improperly don't hold it against them if they tell it to me. It is so disruptive that I will trace it to its source because that is just how I feel about respecting each other.

Finally on that topic, I realize some people are talking outside the department about things in the interest of changing things they feel they cannot otherwise fix (and some just like seeing the world burn). I encourage you to work with us and not try to burn down the house to fix something you don't like. While it is a violation of policy to do such a thing and I will discipline anyone that falsely makes statements to incite division whether internal or external, I will not spend any time hunting those that want to speak outside the department. I am interested in those of you (98%) that want to have a drama free environment to work and provide the best possible service to this community. I am committing to all of you while I am here to be open, honest and work in the best interest of this Town. All I ask is that you do the same.

In closing, I want to say that I will be making some decisions eventually that some of you will not like. We have some unit cohesion issues related to scheduling. We have some structure issues related to assignments and utilization of positions. And we have some communication issues that are brought about by some or all of these conditions. And we will identify and address other issues you have shared with me. However, changes we make will not be haphazard nor will they be without thought. I ask you to give me a chance to put in place some fixes to some very specific problems you have shared with me, and to understand that there are parts of this job that is difficult and we have to suck it up and share in the misery sometimes. In return, I promise to keep informed and get your participation as much as possible. Together we will improve and already outstanding police department.

Thank you again for all you do, for your welcome of me, and for you future participation in our continuous improvement.

Sincerely,

Chief

All,

fyi - the town board agreed last night to both recommendations from the HEOSC: extending the time for a survey and making conflict disclosures more proactive. They also allowed for a change to the procedural rules that would let us meet somewhere other than Town Hall in the event that planned A/V changes/construction in Town Hall conflict with one of our planned meetings.

Thanks,

Eric Rowell

Hi Eric,
Thank you for the clarifying email. I was referring to this Thursday (today). However, given the tight turnaround for this request, if there are agenda requests for the 11/26 meeting, please have those to me (with a cc to Angie and Jackie) by next Tuesday, 11/20.

Also, if anyone would like to join us for tomorrow's meeting (2:30 at Town Hall), feel free to join us - as long as we don't have a majority of the Commission join.

Thanks,
Karen

Good evening,
It was my pleasure to be with you all Monday evening. Thank you for your support in electing me Chair of the HEOSC.

I have had the pleasure of working with a few of you over the years, and I am excited about the opportunity to work with such a high caliber group of involved citizens.

I will be meeting with Town staff Friday morning to discuss future meeting agenda topics. I would request that if you have specific requests, beyond those discussed at our meeting Monday, to please forward those to me by Thursday evening.

Again, I look forward to working with you in this important work.

Warm regards,
Karen

Attachment : image001.jpg;image001.jpg;

When I first did a quick glance at e-mails I wasn't sure any pertained to your request (concerning DNA). I have pulled some that may be related to what you are looking for. There were e-mails pertaining to specific cases, which I did not include. You can find the .pst file for those e-mails at: https://www.dropbox.com/s/3mi6wuz3nm80nea/DNA.pst?dl=0

Concerning the redactions, the response I received from Major Graham is "The redacted items are just purchases or lab fees not related to DNA supplies or tests. For example they could be fingerprint exams or testing of seized drugs. Several of these lines also had names of victims or suspects attached to the invoice. "

I think also case numbers were redacted. I'm clarifying with the state whether they can be redacted. My go-to person there is conducting classes this week, so it may be Monday before I get a response. I'll let you know as soon as I receive that.

Concerning zone checks, I'm going to check into that and will let you know.

Also, in your message you mentioned documents that are incomplete or missing altogether. If you will let me know what you think is incomplete or missing, I will see what I can find out.

Thanks,
Janet

Town of Huntersville Public Records

Hi there

A message was added to record request #19-2:

Mrs. Pierson - relating to HPD's responsive documents for 1. DNA, multiple documents provided were redacted and other documents appear to be incomplete or missing altogether. Please have HPD specify any applicable exemption(s) under N.C.G.S. Chapter 132 for any redactions and if any responsive records are being withheld or denied.

Thanks

Subject: Updated SWOT analysis

Good morning, HEOSC members.

Please find attached an updated version, including Option 4 details as follow up from last night's meeting.

Additionally, I have made Anthony, Angie and Janet aware of your two action items from last night, including revising paragraph 8 of the Town Board creating resolution regarding drawing a conclusion prior to hearing public comment and the expiration of your term in April 2019. Karen, Anthony will follow up with you regarding attendance at the April 15 Town Board meeting (I would expect staff will explain the changes and your presence will not be required, but will follow up).

Thank you all for your continued dedication to this committee and its outcomes.

Jackie Huffman
Assistant Town Manager
Town of Huntersville

Option 1 - Operate a stand-alone municipal charter school

	STRENGTHS (+)	IMPORTANCE
1	Control our destiny - local decisions made by local leaders. Better planning/cooperation/responsiveness with the Town	
2	Clearly defined process w/ lots of support	
3	Focus on unique challenges and opportunities within Huntersville	
4	Local money stays local	
5	HB514, helped to create a more dynamic education environment in the state	
6	Identify both local and statewide best practices and options for creating a municipal charter school	
7	Potential to relieve over-crowded schools	
	Large pool of diverse potential charter board members in Huntersville from various educational, workforce backgrounds	
1	Solid financial foundation and favorable financing options via Town	
2		
3		
4		
5		
6		
7		
8		
9		
10		
11		
12		

	WEAKNESSES (–)	IMPORTANCE
1	Siting and funding land and facilities	
2	Lengthy process - heavy lift	
3	Upfront expenses - who pays that? (Superintendent expenses, training expenses, etc.)	
4	Limited ability to solve issue of overcrowding quickly - multiple schools needed	
5	Local opposition e.g.) municipal concerns act	
6	Taxes – uncertainty over future costs a concern for residents, concerns over paying for two "districts" even if you have no children attending CMS or town charter school

Additional questions
Funding from the town
Incoming charters

Option 2 - Establishing a municipal sponsor

	STRENGTHS (+)
1	ability to weight admission in favor of Huntersville residents
2	more space/sq. footage available for schools equates to better security/safety for students by moving students out of trailers and into enclosed buildings
3	greater parental choice, greater educational options in North Mecklenburg
4	overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
5	greater flexibility with curriculum and addressing concerns of parents than with CMS
6	fixed, upfront costs only instead of the possibility of ongoing/annual contributions from the general fund for a town-run municipal charter school
7	independent, separate charter board – not run/influenced directly by the town board and vagaries of town board politics
8	Avoid the learning curve associated with start-up process
9	
10

	OPPORTUNITIES (+)
1	municipal charter school has never been done in NC, opportunity to demonstrate a new model for education statewide
2	cost savings for new construction – ability to build school buildings more efficiently/less expensive than CMS schools
3	ability to determine best makeup of the charter school board – elected board members, appointed board members, some hybrid model, etc.
4	large pool of diverse potential charter board members in North Mecklenburg region from various educational, workforce backgrounds
5	ALSO, large pool of diverse charter schools – new or existing – to potentially partner with, not limited to existing charter schools locally (LKN Charter, Pine Lake Prep, CSD, etc.)

Additional questions/information needed

1. as much information as possible regarding ability of town to acquire
2. request opinion of town attorney related to: current and proposed
3. what are the other three (3) towns included in HB514 – Mint Hill,
4. potential for additional NCGA legislation if HEOSC identifies
5. How would partnership affect a school's existing charter?

y partnering with a new or existing charter schoo

WEAKNESSES (–)	IMPORTANCE
potential zoning issues based on unknown location of potential school	
difficulty in deciding where to start – which grade level?	
weighted in favor of Huntersville students and then having a large number of Huntersville students possibly not being admitted	
safety issues – a new charter school unlikely to have a building large enough at the outset to avoid housing some students in trailers	
capital funding and land acquisition – still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land	
taxes – uncertainty over future costs a concern for residents, concerns over paying for two "districts" even if you have no children attending CMS or town charter school	
cost of upfitting/retrofitting existing building for a charter school (cost would be mitigated by use of warehouse-style space)	

THREATS (–)	IMPORTANCE
uncertain/unknown demand – possibility of student applications less than anticipated, risk of "new" school stigma causing parents to avoid sending their child for the first few years; unknown impact on exisiting charter schools	
political instability – locally and in Raleigh	
potential lawsuits – who would bear the costs?	
CMS – unlikely to cease opposition efforts to charters in general and municipal charter schools	
no actual vested interests yet – with no municipal charter school even in the application phase, easier to stop the effort before a municipal charter is open and accepting students	
potential for current charter school cap to be lowered/decreased	
timeline/length of charter school application process being altered/derailed by political instability, plus the length/in-depth nature of the application process itself – NC charter board may scrutinize the first municipal charter applications more heavily than non-municipal charters	

Option 3 - Partner with Charlotte-Mecklenb

Option 4 - The feasibility of dividing the Charlotte Mecklenburg LEA into smaller LEAs

	STRENGTHS (+)	IMPORTANCE
1	More actual (not just perceived) local control of education	
2	More input for all stakeholders (parents, teachers, and staff)	
3	Studies and testimony presented support smaller districts as more efficient, while a possible North Meck LEA could still be large enough to take advantage of economies of scale	
4	easier access to school leadership	
5	more accountability of school leadership/teachers	
6	more permanent nature of a smaller LEA as opposed to just a single municipal charter, a smaller LEA would be a better long-term solution	
7	cost - likely far less expensive and more cost effective to operate than CMS	
8	property tax dollars used for education would stay local and benefit local students	
9	maximize money spent on education/learning instead of on educational bureaucracy	
10	greater parental choice, greater educational options in North Mecklenburg	
11	overcrowding/capacity problem relieved sooner than waiting on a solution from CMS	
12	greater flexibility with curriculum and addressing concerns of parents than with CMS	
13		
14		
15		
16		
17		
18		
19		
20		

	WEAKNESSES (–)	IMPORTANCE
1	even at 30-35k students, still far above the national average school district size	
2	cost - (both strength and weakness) far higher than a single municipal charter, but likely still more cost-efficient than CMS	
3	commercial tax base less without contributions from commercial property in Charlotte, potential greater burden on North Mecklenburg homeowners	
4	uncertainty over costs/taxes/curriculum etc resulting in more difficulty in making the case to the public and elected officials to pursue this option	
5	"regional" approach to education does not currently include Davidson	
6	potential zoning issues based on multi-jurisdictional district	
7	capital funding and land acquisition - still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land

19		
20		

	OPPORTUNITIES (+)	IMPORTANCE
1	convincing teachers of a better teaching environment in a smaller district	
2	political makeup of a new school board - more receptive / responsive to voters in North Mecklenburg	
3	ability to determine best makeup of the charter school board - elected board members, appointed board members, some hybrid model, etc	
4	more / better focused growth and data projections, working closer with the Town planning staff on demographics / growth trends etc	
5	regional approach to education would benefit not just education, also planning efforts	
6	start the dialogue statewide over what the right size of a school district size even if this option not pursued by the town (s)	
7	help set the template for how this option could be replicated in other areas of the state with similar concerns	
8	cost savings for new construction - ability to build school buildings more efficiently / less expensive than CMS schools

16		
17		
18		
19		
20		

	THREATS (–)	IMPORTANCE
1	any agreement to deconsolidate must come from NCGA, which is unlikely at this time	
2	education policy continues to become more partisan, not less, so any large-scale solution is unlikely	
3	the sheer logistics / dynamics alone for such a change to the status quo how to unwind CMS, what to do with CMS assets in North Mecklenburg, would a constitutional amendment be necessary, etc?	
4	political instability - locally and in Raleigh	
5	potential lawsuits - who would bear the costs?	
6	CMS - unlikely to cease opposition efforts to change the status quo

19		
20		

QUESTIONS / ADDITIONAL INFORMATION:

how would the deconsolidation process take place?

decision makers would need to follow up with prior participants in this debate, prior study committee contributors to see what the next study or legislation would look like

what is the state of research currently on school district size and economic impact of LEA's? (Dr. Houck, et al, provided information to the legislative study committee over a year ago)

what are the other three (3) towns included in HB514 – Mint Hill, Cornelius, and Matthews – doing related to new LEA's or deconsolidation

potential for additional NCGA legislation if HEOSC identifies gaps/problems in current HB514 and related legislation, e.g., clearer funding options if a municipality opted to open a municipal charter school

RECOMMENDATION TO BOARD IN THIS OPTION? - cont. to investigate option 4 – but currently better path is the municipal charter, which would confirm some assumptions and help us realize some of the unknowns as they currently stand – which would lead down path to new LEA

Option 5 - Do nothing

Good afternoon committee members, board,and staff

The school board was informed of the public records request sent by Mrs Bentley. I know staff will be providing you with a response and timeline this week.
But I also wanted to share this email thread to provide clarity because I heard it mentioned that a request had been sent to Mr Jeter and not responded to. That in fact was a false narrative. Actually the Huntersville staff person that was asked to request the info realized at 10:22pm on Monday, November 25th that she had never sent the request and it was them sent to Mr Jeter. He began working on it Tuesday and then was made aware of the request by Karen Bentley.
Please know that open and accurate communication is essential in building a strong collaborative partnership between the town and CMS. I look forward to working in that direction in the coming months

Please don't hesitate to contact me with any needs.

I hope that many of you will join us next week for the MEAC meeting December 4th at 11am in the Government Center.

Rhonda Cheek
Vice Chair, CMS Board of Education
District 1 Representative

HUNTERSVILLE EDUCATIONAL OPTIONS STUDY COMMISSION
MEETING MINUTES

February 11, 2019
6:00 p.m. – Cornelius Town Hall
21445 Catawba Avenue, Room 204

The Huntersville Educational Options Study Commission (HEOSC) held a joint meeting with the Cornelius Educational Options Study Commission (CEOSC) at Cornelius Town Hall at 6:00 p.m. on February 11, 2019.

WELCOME AND CALL TO ORDER

Chair Karen Bentley called the meeting to order.

IDENTIFICATION OF A QUORUM

Chair Bentley noted a quorum was present.

HEOSC members present: Karen Bentley (Chair), Al Desciscio, William Farber, Amie Hutchison, Derek Partee, Todd Porter, Eric Rowell (Vice Chair), Mike Sass, Bobbie Shields and Carrie Warren.

HEOSC members not present: Jim Puckett.

CEOSC members present: Joanie Baker, Cynthia Bush, Dave Mancuso, Kurt Naas, Richard Pappas, Ivonne Reed and Tricia Sisson. Dave Mancuso entered meeting late.

NEW BUSINESS

Wayne Herron, Cornelius Deputy Town Manager, presented information that CEOSC prepared on regional projected population and student population growth. *PowerPoint Presentation attached hereto as Exhibit No. 1.*

Growth trends for the northern suburbs relative to Charlotte were discussed. This information was presented at the first MEAC meeting. *PowerPoint Presentation attached hereto as Exhibit No. 2.* The source for the data was the City of Charlotte demographer. Mr. Naas noted Cornelius worked with various Planning Departments in preparing growth projections for the region that looked at what's planned on the land use and not just what has happened in the past.

Mr. Mancuso reviewed enrollment information for Lake Norman area schools. *Refer to Exhibit No. 3.*

Mr. Naas reviewed capacity information by municipality for Lake Norman area schools. *Refer to Exhibit No. 4.* This information was based on classrooms as originally built (no mobiles) and approximately 20 students per classroom. CMS does not calculate capacity the same way, therefore the CMS capacity chart for the same schools would look very different.

Chair Bentley reviewed the five options that the Town Board directed HEOSC to study, which are the same five options CEOSC was tasked to study.

1. Operate a stand-alone municipal charter school.
2. Establishing a municipal sponsored charter by partnering with a new or existing charter school.
3. Partner with Charlotte-Mecklenburg Schools for a new school or expansion of an existing school.
4. The feasibility of dividing the Charlotte-Mecklenburg LEA into smaller LEAs.
5. Do nothing.

Ms. Sisson reviewed the LKN Schools Capital Needs Assessment prepared by CEOSC, dated February 6, 2019. *Refer to PowerPoint attached hereto as Exhibit No. 5.*

Mr. Naas reviewed information received from Mooresville Graded School District related to funding a school district of that size.

Mr. Naas noted that CEOSC has created subcommittees to look at each of the options they were tasked to study.

Following the discussion with CEOSC, Chair Bentley asked what additional information HEOSC members needed specific to the charter school option. Members would like to have the finance piece and will need time to study information presented this evening.

Chair Bentley noted that the state is looking at capping charter schools because of the growth.

Mr. Shields suggested getting feedback from CMS. Chair Bentley confirmed that representatives from CMS will be attending a future HEOSC meeting.

Mr. Rowell noted WBTV had a story on the news that CMS was still reviewing options for repealing/revisiting HB514.

Huntersville Commissioner Melinda Bales noted that the North Carolina League of Municipalities has put HB514 on their legislative agenda for this session to ask that it be repealed.

Ms. Warren stated she would like to see data as to what is the best for the students – what will serve them best.

Chair Bentley requested a legislative update be included on the next agenda for HEOSC. Erick Houck with UNC School of Education will be the speaker at a future meeting to provide information on creating LEA.

Mr. Naas noted that CEOSC has been looking at the LEA option and what legislative asks would be needed, for instance CMS transferring schools to the new LEA. Since taxpayers have paid for the schools, the new LEA should not have to buy them back.

Mr. Shields noted that Mecklenburg County had conversations in the past with CMS about ownership of schools and it is the opinion of CMS that they have the constitutional right to own the schools.

DRAFT

Mr. Rowell recommended creating subcommittees and requested the Chair prepare how that could be set up to discuss at next meeting.

There being no further business, the meeting was adjourned.

HUNTERSVILLE EDUCATIONAL OPTIONS STUDY COMMISSION
MEETING MINUTES

March 11, 2019
6:30 p.m. – Huntersville Town Hall

The Huntersville Educational Options Study Commission held a meeting at Huntersville Town Hall at 6:30 p.m. on March 11, 2019.

WELCOME AND CALL TO ORDER

Chair Karen Bentley called the meeting to order.

IDENTIFICATION OF A QUORUM

Chair Bentley noted a quorum was present.

Commission Members Present: Karen Bentley (Chair), Al Desciscio, William Farber, Amie Hutchison, Derek Partee, Todd Porter, Jim Puckett, Eric Rowell (Vice Chair), Michael Sass, Bobbie Shields and Carrie Warren.

PUBLIC INPUT

None.

NEW BUSINESS

Chair Bentley welcomed Charlotte-Mecklenburg Schools Superintendent Dr. Clayton Wilcox, CMS Board Chair Mary McCray and CMS Board District 1 Representative Rhonda Cheek.

Chair Bentley reviewed what the charge of the commission is and the options the commission was tasked to study. Prior to the meeting the commission submitted the following four questions they would like to hear about relative to CMS.

1. Provide a historical, current and future build-out plan for schools in Mecklenburg County The request was to tie this to the past and future bonds so this Commission can see how many schools Huntersville and the North Mecklenburg area were recipients of.
2. Why did the CMS Board of Education propose the bond package they did with a specific request to explain the matrix and confirm how CMS developed the most recent bond package.
3. Clarification on the reason for CMS policy as it relates to the suburbs specifically.
4. Explain the CMS rubric in detail and how long has CMS been using it, has it changed over time, is it time to relook at it.

Chair McCray stated she believes the collaboration and the conversation is what we need in order to get a better understanding of some of the obstacles and some of the things that we do face in CMS when it comes to build-out plans and everything that we encounter. The things that HEOSC is talking about are the very things that we discuss as a school board.

Dr. Wilcox indicated he would like to listen to the concerns then go back and discuss next steps with senior leadership to address some of the challenges that you've identified.

Ms. Cheek noted she met with some Town Board members and the Mayor last summer about some of the issues such as overcrowding, what kind of kids are in our schools, etc.

Chair McCray reviewed information related to bond projects from 2000 to 2017. *Refer to Exhibit No. 1.*

Ms. Cheek reviewed projects in the northern part of the county. The total spent on schools in the north Mecklenburg area from 2000 to 2017 is $420 million. *Refer to Exhibit No. 2.*

Mr. Puckett requested the breakout of projects completed in the north Mecklenburg area from 1985 to 2000.

Chair McCray noted they would put a request in for that to be researched.

Chair Bentley asked for clarification on what specifically was on the 2017 bond.

Ms. Cheek noted that it included the K-8 language immersion magnet school that will be located on the site where Alexander used to be.

Dr. Wilcox noted that CMS has not determined what the attendance will be at that school. There are no schools in that area that would be eligible for transfer in. Dr. Wilcox reviewed sustainment dollars that are used to repair schools. The county contributes approximately $18 million to that fund.

Chair McCray noted it is the intent of the county to extend the bond out to 7 years and do not anticipate any new bonds unless the county decided to do an emergent funding mechanism using Certificate of Participation.

Chair Bentley noted the according to the Municipal Concerns Act if we were to choose to open a school then a moratorium would be enacted and we would not be eligible for funding from that bond package.

Chair McCray reviewed the matrix used by CMS. Projects are presented to the CMS Board in the Capital Needs Assessment. We review 100 projects that staff has ranked in order according to the matrix that our management construction group put together.

Ms. Cheek reviewed the Capital Needs Assessment Scoring Rubric. *Refer to Exhibit No. 3.* Capacity is included on rubric.

Dr. Wilcox indicated Construction Management Services has been asked to review the rubric.

Ms. Cheek explained that in looking at numbers for schools in north Mecklenburg area, schools were not overcrowded according to how they calculate capacity which is based on certificates of occupancy.

Mr. Puckett pointed out it takes decades to build schools so overcrowding becomes an issue if CMS is basing capacity on certificates of occupancy. Suggested CMS needs to look at what has been approved but not yet built.

Anthony Roberts, Town Manager, suggested that building permits could be looked at.

Dr. Wilcox reviewed funding per student and explained that after the 20th day of school, if a student enters the CMS system, they don't get the funding for that student. Dr. Wilcox also reviewed funding for exceptional children.

Dr. Wilcox indicated that they want CMS to continue to be in the north Mecklenburg area and thinks CMS and the Town can work together for a positive outcome.

Areas the Town and CMS could look at partnering include joint funding, land banking.

Mayor Aneralla proposed a potential partnership could be that CMS give the Town property it owns in Centennial and the Town could partner with a charter school to build a school in advance of 10 years.

Questions for HEOSC to research include how could joint funding work, what is allowed legally in regards to land, clarification on moratorium and rubric, options for capacity issues.

OLD BUSINESS

Mr. Rowell noted upcoming meeting dates for subcommittees.

CLOSING COMMENTS

None.

There being no further business, the meeting was adjourned.

DRAFT

Town of Huntersville
Huntersville Educational Options Study Commission
April 8, 2019

To: Huntersville Educational Options Study Commission

From: Janet Pierson, Administration

Date: 4/8/19

Subject: Approval of Minutes - March 25

HUNTERSVILLE EDUCATIONAL OPTIONS STUDY COMMISSION
MEETING MINUTES

March 25, 2019
6:30 p.m. – Huntersville Town Hall

The Huntersville Educational Options Study Commission held a meeting at Huntersville Town Hall at 6:30 p.m. on March 25, 2019.

WELCOME AND CALL TO ORDER

Chair Karen Bentley called the meeting to order.

IDENTIFICATION OF A QUORUM

Chair Bentley noted a quorum was present.

Commission Members Present: Karen Bentley (Chair), William Farber, Amie Hutchison, Derek Partee, Jim Puckett, Eric Rowell (Vice Chair), Michael Sass, Bobbie Shields and Carrie Warren.

Commission Members Not Present: Al Desciscio.

REVIEW AND APPROVAL OF MINUTES

Derek Partee made a motion to approve the minutes of the February 25, 2019 minutes with the amendment that Jim Puckett be noted as not present at the meeting. Mr. Puckett seconded motion. Motion carried unanimously.

SUBCOMMITTEE REPORTS

Ms. Warren gave report on Subcommittee for Stand Alone option.

- Reviewed bylaws.
- Put together SWAT analysis.
- Weaknesses identified: finding funding, upfront expenses, doesn't address overcrowding short term, continued threats that HB514 will be overruled, possible cap on charter schools.
- Need to meet again.

Mr. Rowell gave report for Subcommittee on establishing a municipal sponsored charter by partnering with a new or existing charter school.

- Discussed pros and cons partnering with existing charter.
- Prepared SWAT analysis.
- Strengths include more space available, greater flexibility curriculum, fixed upfront costs.
- Weaknesses include zoning issues, difficulty deciding where to start, safety issues, finding suitable land, future cost, cost of upfitting existing building for charter school.

- Opportunities include municipal charter never done in NC, large pool of diverse potential charter board members.
- Threats include uncertainty, political instability, potential law suits, unknown demand, potential cap is decreased, length of charter process.
- No immediate plans to meet again.

Ms. Hutchison gave report on Subcommittee for partnering with Charlotte-Mecklenburg Schools for a new school or expansion of an existing school.

- Provided copies of e-mail from Town Attorney with interpretation of Municipal Concerns Act. *Refer to Exhibit No. 1.*
- If go through with creating school, schools within Town of Huntersville would not be a priority for funding.
- Board of Commissioners would have to do moratorium that they will not create schools so they can be more of a priority.
- Weaknesses include last in line for funding, Town of Huntersville not taking advantage of a law that is provided to them.
- Questions sent to Dr. Wilcox have not been responded to.

Mr. Rowell gave report on Subcommittee for the feasibility of dividing the Charlotte-Mecklenburg LEA into smaller LEAs.

- Ranked lower on prioritization list.
- Don't know what Option 3 looks like.
- Strengths include more actual control, more input, studies support smaller districts are more efficient, large enough to take advantage of economies of scale, easy access to leadership, more accountability, cost more efficient than CMS, property tax dollars stay here, maximize dollars spent on education.
- Weaknesses include above national average in size, cost can be weakness, independent school burden on homeowners.
- Threats include agreement must come from General Assembly, education is becoming more partisan, logistics and dynamics of starting to break up CMS, don't know what that would look like, constitutional amendments would be needed.

The Subcommittee for the Do Nothing option has not met.

A request was made for the subcommittees to send their SWAT analyses to the Chair.

NEW BUSINESS

Community Education and Feedback Process Discussion. The Commission discussed options for receiving community input on the options. Suggestions included survey, social media, run full page ad in Herald with the options, meeting that reviews different options. Timeframe for receiving public input was discussed. Chair Bentley suggested having work sessions on April 8 and 22, public forum on April 29, work session with benefit of public input on May 6, finalize report to Town Board on May 13, present to Town Board either May 20 or June 3. The Commission will discuss options for public input again on April 8.

Legislative Update. Anthony Roberts, Town Manager, noted that multiple bills have been filed in the House and Senate against municipal charter schools. Those bills are in the Rules Committee where they typically die or freeze up. The North Carolina League of Municipalities is also putting together a bill against municipal charter schools.

MEAC Update. Commissioner Melinda Bales noted that MEAC has not had a meeting since February and they do not have one currently scheduled.

OLD BUSINESS

None.

CLOSING COMMENTS

Chair Bentley announced that Todd Porter has officially resigned from the Commission.

There being no further business, the meeting was adjourned.

To: Eric Rowell <ericwrowell@gmail.com>

All,

Please see the attached questionnaire. If you would like to share your views with Huntersville voters in the Huntersville Politics group on fb and at my website, please return to me via email no later than 27 September 2019.

Let me know if there are any questions or if you have any trouble with the attachment.

Thanks,

Eric Rowell

Huntersville Town Board Candidate Questionnaire

ericwrowell.com / Huntersville Politics

With so few opportunities for voters to hear directly from the candidates prior to election day, I am hoping this questionnaire will provide the community with more insight into your candidacy. There is no word limit – write as much or as little as necessary to answer each question. You can use the space below so I can easily copy and paste your responses.

Please return to me no later than **27 September 2019** and I will begin posting completed questionnaires at my website and simultaneously at the Huntersville Politics facebook group page beginning the week of September 30th. The questionnaires posted during the 2017 campaign were very popular and were some of the most viewed content ever at my site.

Thank you,

Eric Rowell

- A specific agenda item you want to work on if elected:

- For challengers – one specific vote over the last two years you disagreed with and why:

- For incumbents – any vote over the last two years you would change and why – or, if none, any item you wish you the board would have accomplished and why:

- What is the proper role of town government and do you think there is any limit to what town government can use taxpayer dollars for:

- If you are running on an anti-growth platform, how do you intend to legally halt or slow down growth in Huntersville? Be specific.:

- If not running on an anti-growth platform, how do you plan to deal with growth challenges if elected?:

- Should town government select winners and losers in business by providing tax incentives/tax rebates to certain companies over others:

- Are you hoping to benefit yourself personally if elected? If yes, explain. If no, one example of prioritizing Huntersville over your own self-interests:

- If elected, is it more important to you to vote the will of the people (however that is determined) or to vote your conscience (except when the board is acting as a quasi-judicial body):

- Does the town need to do more to ensure transparency and accountability in its departments, including the use of independent, professional audits?:

- Do you support the public education status quo in Huntersville?:

- Cats or Dogs (or Chickens)?:

- Best place to get pizza in or around Huntersville:

- Your favorite 19th century French political economist:

- Person/group most responsible for influencing your political views?:

- How can readers find out more about your campaign? (social media, website)?:

Eric:

Here you go.

From: Bence Hoyle <bhoyle@huntersville.org>
Sent: Tuesday, January 8, 2019 12:10 PM

Some of you have asked about the statistic that went out about rape cases. During 2018 we received 13 reports of Rape. This included 10 reports of forcible rape, one fondling, one sodomy and one case of statutory rape.

In all of these cases the victim and suspect were known to each other. There were no random acts of violence that would indicate a predator or danger to the general public. These relationships included persons that were married, in a dating relationship, acquaintances and/or family members.

Further:

- Four of the thirteen cases were closed by arrest of the suspect.
- Four cases were closed when the victim refused to prosecute the suspect (common in relationship assaults) or the District Attorney would not accept the case for prosecution.
- Four cases are still open. These cases are still awaiting results from a lab, evidence from an electronic device OR they are lacking any evidence to make a legal decision regarding prosecution.
- One case is unfounded. The victim in this case changed their statement after taking the initial report.

Three of the cases were reported between six months and one year after the assault occurred. Unfortunately there are also some false reports that we often cannot determine one way or the other.

I'm going to review how we are reporting these because a case that is "Unfounded' should not be reported at all. Unfounded means "did not happen" and in all reporting systems nationwide those are not counted. Also, some of these cases such as 'fondling' is a sex assault and not a rape. I need to take a dive into that.

For sure we can say those types of cases are up but we do not see a trend that would lead us to some kind of intervention action. We will continue to monitor it and hopefully this is a one-off year.

Bence

Local Government Volunteers

You can join Local Government Federal Credit Union

LGFCU, as we're commonly known, is a not-for-profit, full-service financial cooperative. We offer Checking, Share and Money Market accounts; auto, home and personal loans; Individual Retirement Accounts (IRAs); credit cards, insurance and more. We are the only statewide credit union exclusively serving municipal and county employees, elected/appointed officials, volunteers and their families.

One of the largest networks of branches and ATMs in NC

While LGFCU and State Employees' Credit Union are two separate credit unions, we've partnered so LGFCU members enjoy full service at SECU's more than 250 branches and nearly 1,100 CashPoints® ATMs.

Along with convenient access to your accounts, members benefit from low interest rates on loans and higher returns on deposits—you even earn dividends on your Checking Account! And, once you've joined, your family, including your grandparents and siblings, is also eligible for membership.

Joining is easy!

Open a Share Account with as little as $25 when you visit a local branch. Once you're a member, you can access all the services offered by LGFCU. We look forward to having you and your family as members!

Exclusively serving local government and its volunteers

LGFCU recognizes your efforts and your role in building and supporting communities from within. As a volunteer, you do your part.

Whether staffing a hospital gift shop, coaching Little League, reshelving books at a public library or putting out fires, volunteers provide valuable services at all levels of municipal and county government in North Carolina. Now let LGFCU do its part by extending membership into the only credit union exclusively serving North Carolina local government employees and volunteers.

Visit **www.lgfcu.org**, call **888.732.8562** (your calls may be recorded for quality assurance) or find an ATM or local branch near you using the locator on our website.

LGFCU®
LOCAL GOVERNMENT
FEDERAL CREDIT UNION

Join the Credit Union that supports you

What is a credit union?

A credit union is a not-for-profit financial cooperative organized to provide affordable credit and promote financial responsibility to its members. Credit unions are member-owned and controlled through a volunteer board of directors elected by the membership. This results in a safe, convenient place to save and borrow money at reasonable rates from an institution that exists solely to benefit its membership.

Is a credit union different from a bank?

Historically, credit unions extended credit to people of ordinary means, a population overlooked by banks. As not-for-profit cooperatives, credit unions do not have paid board members or stockholders. Instead, earnings are returned to the membership through lower rates on loans, higher dividends on savings and fewer fees. Part of credit unions' mission is to educate members about their finances. In a credit union, all members are equal.

When was LGFCU founded?

In 1983, the National Credit Union Administration granted a federal charter for N.C. Local Government Employees Federal Credit Union (LGFCU). Although we share a network of branches and ATMs with State Employees' Credit Union, LGFCU remains a separate financial institution.

Who may join LGFCU?

To be eligible for membership, you must be a volunteer associated with a local government in North Carolina, or be a family member of a current LGFCU member.

To be eligible you must volunteer for a:

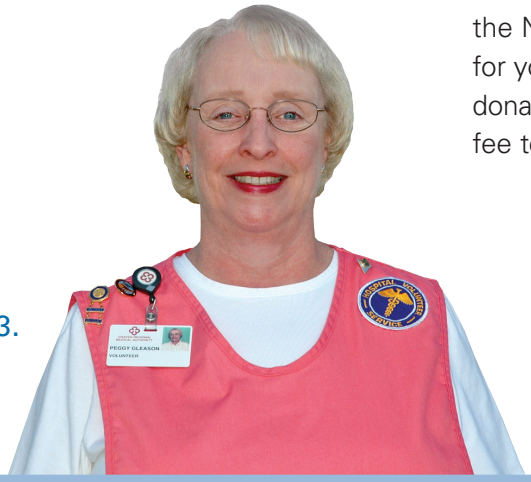
- North Carolina Municipality or County
- Municipal/County Board
- Member Hospital
- Fire/Rescue Station
- Law Enforcement Agency
- Library
- Parks and Recreation Department
- Board of Election
- Council of Governments

Where do I go for services?

Recognizing the benefit to members and an opportunity for efficiency, LGFCU contracts with SECU to deliver services to its members. When you call in, visit a branch or use a CashPoints® ATM, you're working through SECU's services. Members can also use Member Connect for 24-hour online or mobile account access.

Why join?

Volunteers with NCRPA have the privilege of using the NCRPA Visa® Check Card. You can earn money for your organization with every purchase. LGFCU will donate 50 percent of its share of the net merchant fee to the association.



Peggy of New Bern joined LGFCU in 2003.

* IMPORTANT INFORMATION ABOUT PROCEDURES FOR OPENING A NEW ACCOUNT. To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. What this means for you: When you open an account, we will ask for your name, address, date of birth and other information that will allow us to identify you. We may also ask to see your driver's license or other identifying documents.

And because you volunteer for a local government organization, you're eligible to join your Local Government Federal Credit Union.

LGFCU is the only statewide credit union exclusively serving local government employees and volunteers, elected and appointed officials and their families. We offer Checking, Share and Money Market accounts; auto, home and personal loans; credit cards, insurance and much more, with competitive rates and dividends.

We support North Carolina communities through scholarships, financial education and more. Join the only Credit Union as dedicated to giving back as you are!

EQUAL HOUSING OPPORTUNITY

Federally insured by NCUA

Join LGFCU

You can join LGFCU by opening a Share Account. It's a dividend-earning savings account that's the foundation of every membership, and represents your ownership in the Credit Union.

To open a Share Account, fill out the application (on reverse side) and bring the following with you to your nearest branch:

- ☐ Current driver's license or photo ID
- ☐ Proof of qualifying status*
- ☐ Minimum deposit of $25

If you are joining as a family or household member of a current LGFCU member, please also bring their account number or proof of LGFCU membership.

Learn more at **lgfcu.org/join**.

Calls may be recorded for quality assurance.

* Proof may include a signed form or voucher from your volunteer manager.

Subject : Heard you are on vacation

Charles told me you are at Disney with your family. I thought the e-mails had been quiet the past couple of days. LOL

Just wanted to tell you to have a great time and cherish the time with your family. We took my granddaughter there in November for her 6th birthday and it truly is a magical place. It just warmed my heart seeing her so happy. But……it will wear you out! I couldn't believe how exhausted we were at the end of the day.

Enjoy your vacation and the town will be here when you get back! ☺

Janet

HUNTERSVILLE EDUCATIONAL OPTIONS STUDY COMMISSION
MEETING MINTUES

January 28, 2019
6:30 p.m. – Huntersville Town Hall

The Huntersville Educational Options Study Commission held a meeting at Huntersville Town Hall at 6:30 p.m. on January 28, 2019.

WELCOME AND CALL TO ORDER

Chair Karen Bentley called the meeting to order.

IDENTIFICATION OF A QUORUM

Chair Bentley noted a quorum was present.

Commission Members Present: Karen Bentley (Chair), William Farber Jr., Amie Hutchison, Derek Partee, Todd Porter, Jim Puckett, Eric Rowell (Vice Chair), Michael Sass. Bobbie Shields and Carrie Warren entered the meeting late.

Commission Members Not Present: Albert Desciscio and Todd Porter

Review and Approval of Minutes

Approval of Minutes – December 19. Puckett made a motion to approve the minutes of the December 19, 2018 Huntersville Educational Options Study Commission Meeting. Partee seconded motion. Motion carried unanimously.

Approval of Minutes – January 14. Partee made a motion to approve the minutes of the January 14, 2019 Huntersville Educational Options Study Commission Meeting. Puckett seconded motion. Motion carried unanimously.

PUBLIC INPUT

None

NEW BUSINESS

Dave Machado Presentation. Dave Machado, Director of North Carolina Office of Charter Schools, presented PowerPoint presentation on charter school application timeline/process, funding sources/breakdown/disbursements, operational constraints/statutory mandates, instructional requirements, operational flexibility, governance flexibility, facilities, accountability, and ensuring diversity.

PowerPoint presentation attached hereto as Exhibit No. 1.

DRAFT

Joy Warner Presentation. Joy Warner, Executive Director and Founder of Community School of Davidson, reviewed the history and operations of CSD.

- Reviewed mission and vision of CSD.
- CSD opened in 2001, obtained charter in 2003 as K-3 charter school. CSD expanded and now serves grades K-12.
- Grades K-5 have a full-time teacher and full-time assistant, with about 20-24 students per class. Classes that have kids with significant special needs may have a third adult. Grades 6-7 have two licensed teachers co-teaching groups of 24 students in the core classes. Average class size of grades 8-12 is 16-20 students.
- Most important job is to find the best educators. CSD teachers have a lot of power and authority in the classroom within CSD's philosophy and mission.
- Have weighted lottery based on socioeconomics.
- Approached two CMS superintendents about operating a school, but never did work anything out.
- Kids learn differently so there needs to be accommodations to meet their educational needs.
- Transportation plan – CSD operates four buses and do cluster pick-ups and drops.
- Offer free and reduced lunch to families who qualify, which are covered through the regular budget.
- Teacher pay is comparable to the state, except for beginning teachers. Beginning teachers are not comparable right now because of the increase legislators gave the low end and CSD could not do that. There is differentiated pay that is associated with responsibilities.
- Things the Town should be most concerned about are finance and budget, special education and leadership.

OLD BUSINESS

Update on Records Request. Mr. Roberts noted that CMS has responded to all seven items. There is only a portion of Item 4 that they still owe us.

The commission reviewed the proposed Work Plan and discussed future speakers. *Updated Proposed Work Plan attached hereto as Exhibit No. 2.*

The commission will have a joint workshop with the Cornelius Educational Options Study Commission on February 11 in Cornelius.

CLOSING COMMENTS

None

There being no further business the meeting was adjourned.

Dr. Houck:

I am a member of the Huntersville Education Options Study Commission. Since, unfortunately, you were unable to present the slideshow linked below in person due to illness, I wanted to reach out to determine if there had been any recent updates on this issue that the HEOSC should be aware of. In particular, has the article you were planning for the Peabody Journal of Education been published yet? If so, would you be able to provide me a copy of the article or a link?

I would be happy to speak to you in more detail over the phone if you have time. Any assistance would be appreciated.

Subject : HEOSC Questions of CMS

Members of the Huntersville Education Options Study Commission,

Please see CMS's response to the questions poised to us by the subcommittee on Partnering with CMS:

1. **Please provide an interpretation to The Municipal Concerns Act of 2018, Article II – Priority of Capital Spending in Certain Municipalities?**

   As covered at the Dec. 4th, 2018 MEAC meeting (**link**), Article II of the MCA instructs the Superintendent to provide "priority points" to the municipalities of Charlotte, Davidson, and Pineville for future (post-2017 bond) capital spending. It does ***NOT*** create a moratorium for capital spending in any of the seven municipalities within Mecklenburg County.

   At the April 9th Board Meeting, CMS approved a new contract for our Capital Program Management (CPM) Vendor after a 6-month RFQ process. The CPM vendor will be tasked with recommending updates and improvements to the capital needs assessment tool that CMS has used for the past 10+ years. This would include accounting for the new "prioritization points" for Charlotte, Davidson, and Pineville. Further, should the HEOSC and the Huntersville Town Board opt not to pursue a municipal charter school, the town would immediately receive said bonus points. Now that the CPM contract is finalized, we are moving forward immediately with the review of the capital needs assessment tool. We look forward to sharing more details as the work progresses.

2. **What type of scenarios would CMS propose in a partnership with the Town of Huntersville to address future capital needs for our students?**

   As discussed at the Dec. 4th, 2018 MEAC meeting **(link)**, with the passage of **SL 2018-5** (SB 99 from the 2017-2018 NCGA session), North Carolina municipalities are now authorized to utilize taxing authority to pay for all items relating to schools. This new ability opens opportunities for CMS to partner with municipalities in new and innovative ways. For example, Huntersville could donate land to CMS for the construction of new schools, or Huntersville could pay for the construction of schools on property owned by CMS (e.g. the Grand Oak Elementary site). We are pleased to explore these and other exciting new ways to partner with the Town of Huntersville to address future capital needs for our students.

3. **Please provide insight into how CMS uses student assignment policy to determine where new schools are built. The goal of this question is to understand the link between student assignment policies and school site selection.**

   CMS's Student Assignment Policy is defined by **Policy JCA** and its accompanying regulations (**JCA-R**) and exhibits (**JCA-E1** & **JCA-E2**). Under the Guiding Principles for Student Assignment section of Policy JCA the Board states, "*the Board will consider several factors when determining and adjusting assignment patterns. These include but are not limited to current and future population growth and potential demographic shifts, overcrowding and underutilization of facilities. Additionally, the Board will consider undertaking a comprehensive district-wide review of the Student Assignment Plan every six years, while recognizing it may be necessary to make more frequent localized changes to the assignment plan based on the aforementioned factors."* Further, that policy code defines five unranked Student Assignment Goals:
   - Provide choice and promote equitable access to varied and viable programmatic options for all children
   - Maximize efficiency in the use of school facilities, transportation and other capital and operational resources to reduce overcrowding
   - Reduce the number of schools with high concentrations of poor and high-needs children
   - Provide school assignment options to students assigned to schools that are not meeting performance standards established by the state
   - Preserve and expand schools and programs in which students are successfully achieving the mission and vision of the Board

4. **Does CMS have any existing partnerships (municipal or otherwise) that address overcrowding/capacity? If so, please tell us about it.**

   As mentioned in question #2 above, the newly authorized ability for municipalities to partner in school capital funding is new to North Carolina. As such, we do not have any current partnerships in place, but are excited about the possibilities of working with our municipal partners.

5. **Would CMS be willing to work on a Student Assignment Plan in collaboration with the Town of Huntersville that would meet the future capacity needs for our students?**

While **NCGS 115C-47 (3)** tasks local school boards with the exclusive right and duty to create attendance zones within their jurisdiction, CMS always welcomes engagement from our municipal partners and constituents when we assess proposed changes. In particular, we plan to solicit feedback as we work to update our capital needs assessment tool. For more detail, please view the Feb. 5th, 2019 MEAC meeting **(link)**.

6. **How does CMS determine the construction/building cost of a new school? What is the total construction/building costs of a new school:**

   (Current cost per square foot) x (Programmed building square footage) x (1.33%*) + (Land and/or Demolition) = Initial projected budget without escalation

   (*- Includes Furniture, Fixtures and Equipment/Curriculum and Instruction (FF&E), Design Fees, Consultants, Permitting, Contingency, Survey, Borings, Geotechnical/Special Inspection Services, Water Taps, Moving Cost.)

We look forward to continuing to partner with this committee and all of Huntersville over the years to come.

Elyse Dashew
Vice Chair, At-Large Representative
Charlotte-Mecklenburg Board of Education
Chair, Municipal Education Advisory Committee

HEOSC Report to Huntersville Town Board
May 20, 2019 - DRAFT

Huntersville Educational Options Study Commission

- Purpose
- Members
- Projected Enrollment
- Option Evaluations

HEOSC Members

Karen Bentley - Chair
Al Desciscio
Bill Farber
Amie Hutchison
Derek Partee
Jim Puckett
Eric Rowell
Mike Sass
Bobbie Shields
Carrie Warren

Purpose of the HEOSC

On October 15, 2018, Huntersville Commissioners established the Huntersville Educational Options Study Commission.

The Commission was established to evaluate options available to the Town of Huntersville to reduce overcrowding within the public school system in Huntersville. Those options are:

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Dividing the Charlotte Mecklenburg LEA into smaller LEAs

Note: no adjustment made for current enrollment over/under planned enrollment in existing N. Meck Schools

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

- No pushback either legislatively or legally
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - **1896 students by 2025**
  - **3327 students by 2030**
  - **5302 students by 2035**
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for North Mecklenburg schools
- Continued strain in the relationship between North Mecklenburg and CMS
- Ongoing concerns about overcrowding can deter economic development/expansion in the region

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Huntersville and CMS

Option 2: Partner with CMS

Current/Previous Partnering Agreements:

- 2003 Bailey Middle JUA
- 2004 Reallocation of Land Bond Dollars JUA for Hough
- 2005 Westmoreland Road Elementary(JV Washam) JUA
- 2015 Cornelius Elementary JUA

To Do:

- Add Huntersville's JUA's
- Add land already provided to CMS (between Hough and Bailey?

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.

CONS

- Uncertainty of future improvements in our area
- Long timeline to solutions or results.
- No guarantee that any future elected political entities honor any prior negotiated deals

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

- Less divisive – public entities working together toward a common goal of positive educational outcomes
- Potential ability to influence rubric going forward

CONS (continued)

- Differing opinions and perspectives will still be present between Huntersville and CMS
- Potential loss of magnet school options under MEAC reassignment suggestion
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development.
- Lack of firm foundation on which to build a successful partnership

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet capacity needs.

PROS

CONS (continued)

- Continued lack of local control over education
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.
- Uncertainty of site selection and bond assignments based on current rubric and definitions of overcrowding

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).

- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.

- Town of Huntersville can agree to [INSERT LANGUAGE IN MUNICIPAL CONCERNS ACT] opt out of HB 514 as requested by CMS.

- Any group of concerned citizens can follow the traditional charter school route outside of HB 514.

Option 3: Operate a stand-alone Municipal Charter School

Background on House Bill 514

- Governance Structure
  - Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
  - NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties

- Municipal charters can prioritize enrollment to students in the municipality

- Employment requirements
  - Municipal charters can employ teachers provided
    - at least 50% hold teaching licenses
    - All teachers of core subjects (science, math, social studies, language arts) are college graduates

  - Municipal charters can employ/discharge others to perform non-teaching duties

  - Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

Sources: https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Operate a stand-alone Municipal Charter School

- Estimated Timing
  - 1 year approval process after application submitted
  - 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
  - Total timetable 2-4 years minimum to open school
  - Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School Huntersville Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Huntersville Operating Budget

MUNICIPAL CHARTER SCHOOL							Base
FYE 6/30							
ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	(1,220)	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need **$1MM+** to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Promotes local control and increases parental choice
- Operational expenses fully funded through existing revenues
- Local decisions made by local leaders; better planning/cooperation with Town of Huntersville
- Prioritizes enrollment for town children
- Reduces bureaucracy increases efficiency, and lowers administrative costs

CONS

- Risk alienating local LEA
- Law may be changed/repealed to be less favorable; (e.g. charter cap)
- Legal challenges may occur
- Uncertainty over funding and perception of double taxation
- High initial liquidity needs and upfront expenses
- Siting/land issues, inability to fund land purchases without legislative changes

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Potential to relieve overcrowded schools
- Large pool of diverse potential charter school board members in North Mecklenburg from various educational/workforce backgrounds

CONS

Option 3: Operate a stand-alone Municipal Charter School

Sources of Leverage:

- Town's financial condition and bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Operate a stand-alone Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, becomes longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- Demonstrating best practices in options for alternatives in public education
- Could lead to increased ability to be an incubator for other charter school startups in the Lake Norman Region
- May strain relationship with local LEA

Option 3: Operate a stand-alone Municipal Charter School

Next Steps:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit citizen feedback

Option 4: Partner with an Existing Charter School

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school
- Avoid learning curve associated with start-up process for school

CONS

- Loss of total control over municipal sponsored charter school
- May not receive interest from preferred partner charter schools

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

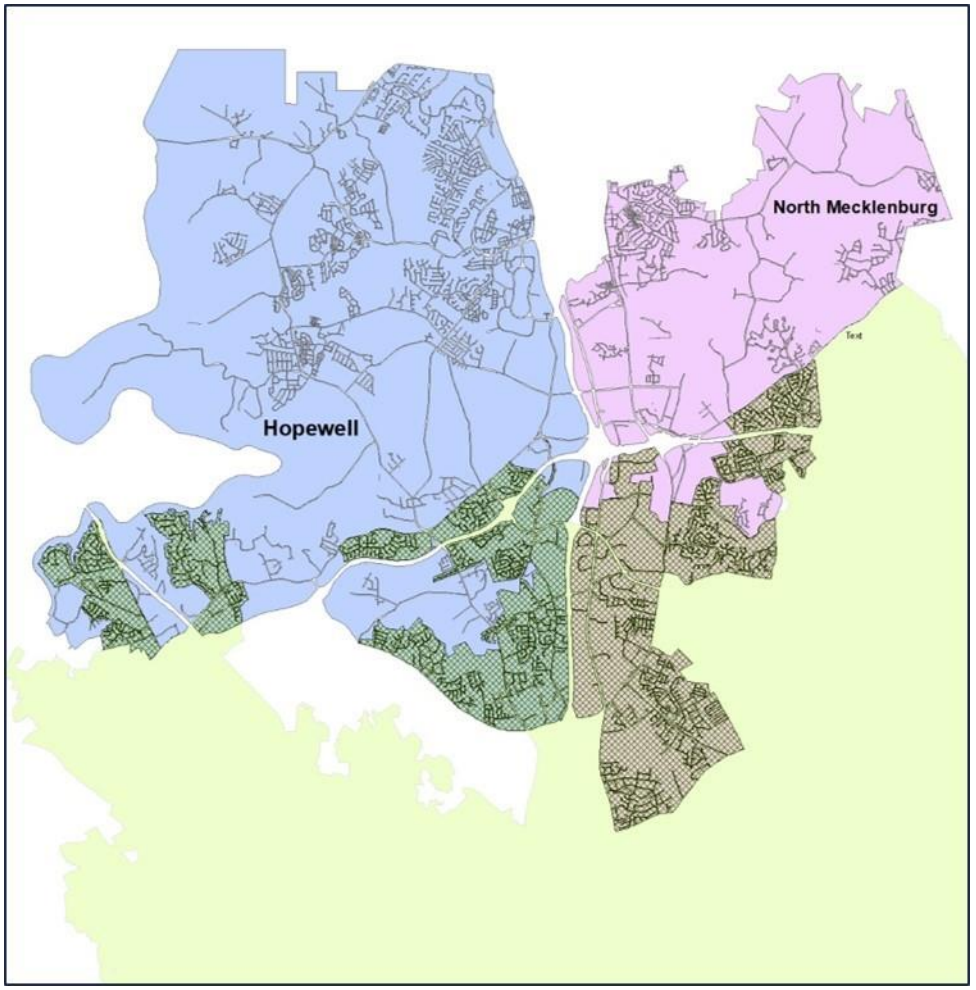
Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 5: Dividing the Charlotte Mecklenburg LEA into smaller LEAs

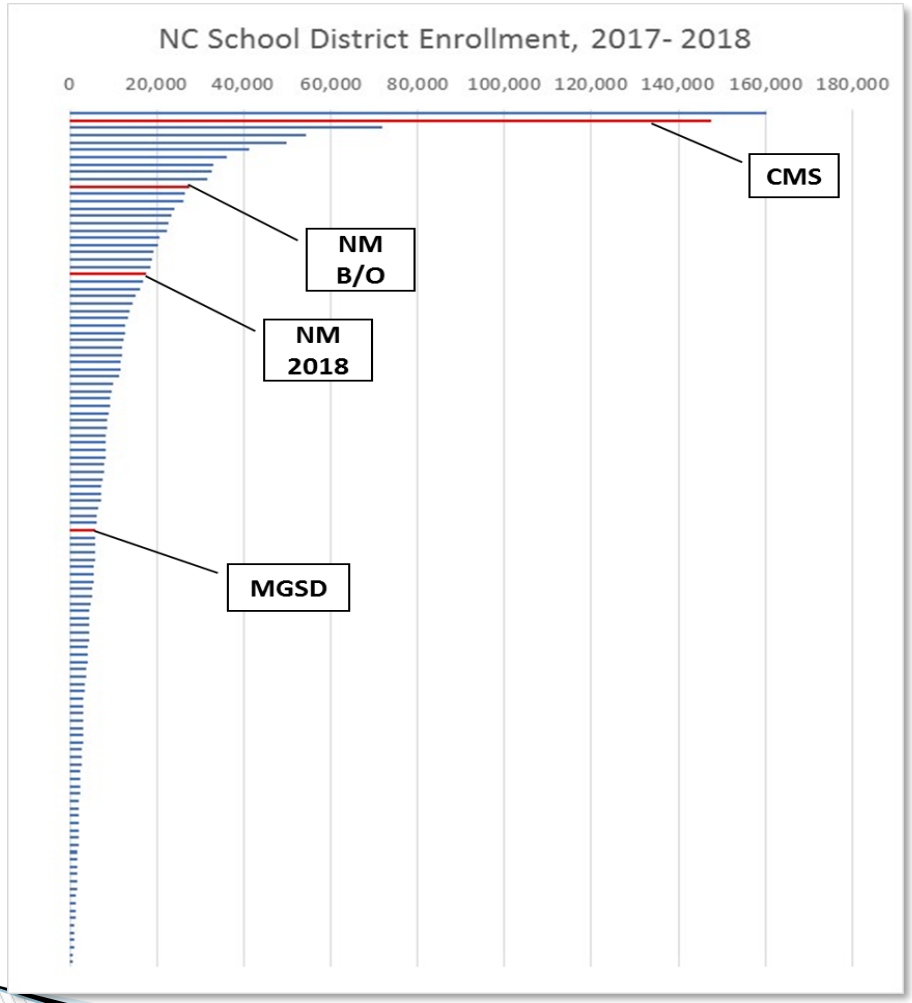
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

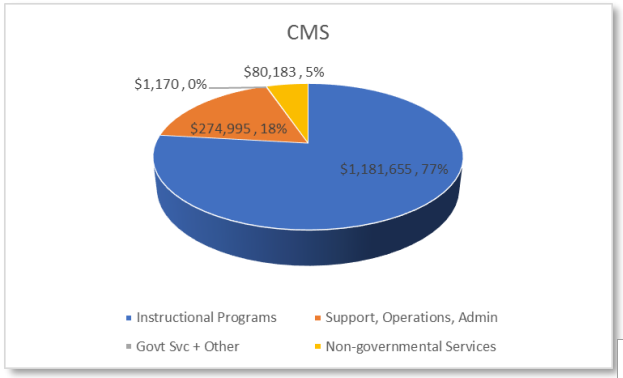
Comparison to Existing LEAs



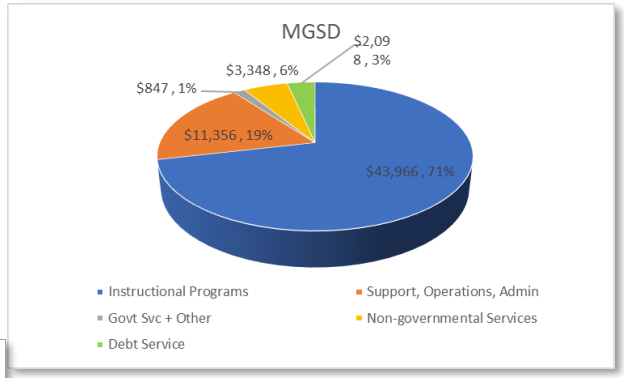
- **At current enrollment a North Meck LEA would be the 23rd largest school district in NC**
- **At buildout a North Meck LEA would be the 11th largest school district in NC**

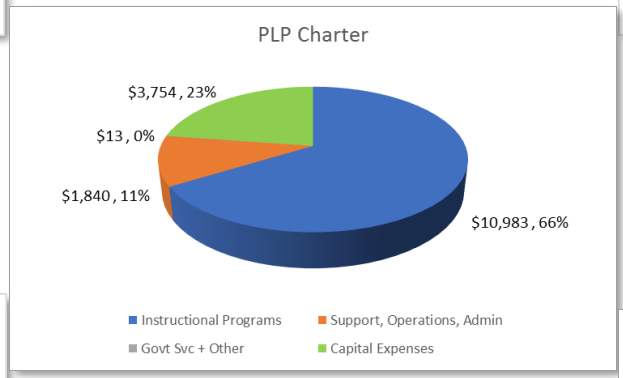
Source: "Size of Local School Districts", Joint Legislative Study

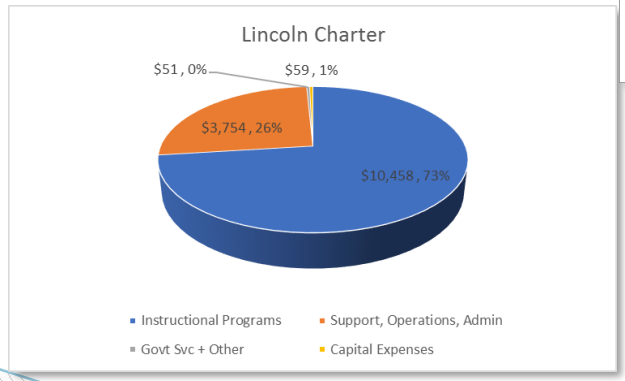
Various Cost Structures



Economies of scale not evident between MGSD & CMS







Operating strategies differ between charter schools

High School	1500	-0.1	0.2	0.5	0.8
Estimated Construction Cost	in millions	$0	$25	$155	$180

Option 5: New LEA

PROS

- Local control
  - Capital budget
  - Student assignment
  - Taxation
  - Board representation
- Fewer bureaucratic layers
- Tailored solutions
- Greater sense of community

CONS

- Politically difficult
- Potential loss of programming breadth

Summary and Next Steps

Based on the projection of the current and future facilities needs of the Huntersville and North Mecklenburg student population, and feedback received during the April 29, 2019 Public Input meeting, the HEOSC will finalize their findings of the 5 Options available to the Town of Huntersville to address future educational needs.

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Create a New LEA

Final report date May 20, 2019

Option 6: Charter School Incubator

- - Make Huntersville the most attractive place in the state for new/expansion charter schools
- - Even if Town Board moves forward with a municipal charter or partners with an existing charter, opening could be years away
- - In the interim, publicize Huntersville's need to reduce overcrowding and issue a Request for Proposals to charters statewide
- - Have Planning Dept. work with interested charter schools to identify impediments to building a new or expansion charter school in Huntersville (e.g., easing zoning restrictions, identifying potential school parcels, expediting requests)
- - Cont. to add to the educational diversity in Huntersville

Appendix

Capital Needs Assessment Summary - Huntersville

1. Assessing Huntersville growth only, an elementary school will be needed by 2025, two elementary schools by 2030, and a middle school and high school by 2035.
2. Huntersville school age children will need ***23 additional classrooms by 2020***, and capacity will be constrained without significant re-assignment of Charlotte students out of Huntersville schools or the equivalent of a mid-sized Charter school in Huntersville.

	Avg School Capacity	2020	2025	2030	2035
Huntersville Population					
Elementary School	776	0.3	1.3	2.2	3.5
Middle School	1093	0.1	0.4	0.6	1.0
High School	2053	0.1	0.3	0.5	0.7

	Optimal School Size	2020	2025	2030	2035
Huntersville Population					
Elementary School	700	0.3	1.4	2.4	3.9
Middle School	1100	0.1	0.4	0.6	1.0
High School	1500	0.1	0.4	0.6	1.0

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Huntersville Population	65,780			78,860			91,939			110,000		
Elementary School	3,689	239	12	4,422	972	49	5,156	1,706	85	6,169	2,719	136
Middle School	1,487	96	5	1,783	392	20	2,079	688	34	2,487	1,096	55
High School	2,018	131	7	2,419	532	27	2,820	933	47	3,374	1,487	74
Huntersville School Pop Total	7,194	466	23	8,624	1,896	95	10,055	3,327	166	12,030	5,302	265

1. Adding the under-utilization in Huntersville schools to the analysis enables Huntersville to stem the urgent need for more schools a bit longer.

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Huntersville Population	65,780			78,860			91,939			110,000		
Elementary School	3,689	-211	-11	4,422	522	26	5,156	1,256	63	6,169	2,269	113
Middle School	1,487	-50	-2	1,783	246	12	2,079	542	27	2,487	950	48
High School	2,018	-88	-4	2,419	313	16	2,820	714	36	3,374	1,268	63
Huntersville School Pop Total	7,194	-349	-17	8,624	1,081	54	10,055	2,512	126	12,030	4,487	224

Current Under Utilization	2018	+ kids	# classrooms
Huntersville Elementary Schools		-450	-23
Huntersville Middle Schools		-146	-7
Huntersville High School		-219	-11

	Optimal School Size	2020	2025	2030	2035
Huntersville Population

Middle School	1100	0.0	0.2	0.5	0.9
High School	1500	-0.1	0.2	0.5	0.8
Estimated Construction Cost	in millions	$0	$25	$155	$180

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035
Cornelius Population					
Elementary School	776	0.1	0.3	0.5	0.5
Middle School	1093	0.1	0.1	0.2	0.2
High School	2053	0.0	0.1	0.1	0.1

	Optimal School Size	2020	2025	2030	2035
Cornelius Population					
Elementary School	700	0.1	0.3	0.5	0.5
Middle School	1100	0.1	0.1	0.2	0.2
High School	1500	0.1	0.1	0.2	0.2

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Cornelius Population	34,248			37,124			40,000			40,000		
Elementary School	1,554	95	5	1,684	225	11	1,815	356	18	1,815	356	18

*Assessment of capital needs based on optimal school size

LED Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County	
Cornelius Elementary	Elementary	Cornelius	780	-132	648	634	97.8%	4	0.6%	1	0.2%	7	1.1%	2	0.3%
JV Washam Elementary	Elementary	Cornelius	780	339	1119	796	71.1%	272	24.3%	32	2.9%	12	1.1%	7	0.6%
Bailey Middle School	Middle	Cornelius	1140	562	1702	845	49.6%	509	29.9%	343	20.2%	4	0.2%	1	0.1%
Hough High School	High	Cornelius	2000	544	2544	1185	46.6%	898	35.3%	430	16.9%	26	1.0%	5	0.2%

HEOSC sub-committee assignments

The function of each sub-committee is to vet all information received from speakers and other sources relevant to the option being reviewed, and to provide a thorough pro/con assessment of the option for use by the larger committee as we work to develop at recommendation to the Huntersville Town Board.

1) Operate a stand-alone municipal charter school – Al Desciscio, Carrie Warren, Mike Sass

2) Establish a municipal sponsored charter by partnering with a new or existing charter school – Bill Farber, Derek Partee, Eric Rowell

3) Partner with Charlotte-Mecklenburg Schools for a new school or expansion of an existing school – Amie Hutchison, Bobbie Shields, Todd Porter

4) The feasibility of dividing the Charlotte Mecklenburg LEA into smaller LEAs – Mike Sass, Eric Rowell, Jim Puckett

5) Do nothing – Jim Puckett, Todd Porter

AGENDA
Huntersville Educational Options Study Commission
April 22, 2019 - 6:30 PM

TOWN HALL (**101 Huntersville-Concord Road**)

1. **Welcome and Call to Order**
2. **Identification of a Quorum**
3. **Public Input** - *Limited to 3 minutes per speaker, or 30 minutes total*
4. **New Business**
5. **Subcommittee Reports**
6. **Old Business**
   - 6.A. Continue discussion on SWOT Analysis.
   - 6.B. Continue discussion on public input session.
7. **Closing Comments**
8. **Adjourn**

Option 1 - Operate a stand-alone municipal charter school

	STRENGTHS (+)	IMPORTANCE
1	Control our destiny - local decisions made by local leaders. Better planning/cooperation/responsiveness with the Town	
2	Clearly defined process w/ lots of support	
3	Focus on unique challenges and opportunities within Huntersville	
4	Local money stays local	
5	HB514, helped to create a more dynamic education environment in the state	
6	Identify both local and statewide best practices and options for creating a municipal charter school	
7	Potential to relieve over-crowded schools	
	Large pool of diverse potential charter board members in Huntersville from various educational, workforce backgrounds	
1	Solid financial foundation and favorable financing options via Town	
2		
3		
4		
5		
6		
7		
8		
9		
10		
11		
12		

	WEAKNESSES (–)	IMPORTANCE
1	Siting and funding land and facilities	
2	Lengthy process - heavy lift	
3	Upfront expenses - who pays that? (Superintendent expenses, training expenses, etc.)	
4	Limited ability to solve issue of overcrowding quickly - multiple schools needed	
5	Local opposition e.g.) municipal concerns act	
6	Taxes – uncertainty over future costs a concern for residents, concerns over paying for two "districts" even if you have no children attending CMS or town charter school

	OPPORTUNITIES (+)	IMPORTANCE
1	Mixed performance among CMS Schools presents and opportunity to create more high quality options for public school students	
2	State and local leadership demonstrating a commitment to serve the needs of families and students.	

	THREATS (–)	IMPORTANCE
1	514 repeal	
2	Charter cap coming back	

3	Attract a talent pipeline for teachers	
4	Independent partners to provide technical assistance that the school might likely need.

Additional questions
Funding from the town
Incoming charters

Option 2 - Establishing a municipal sponsor

	STRENGTHS (+)
1	ability to weight admission in favor of Huntersville residents
2	more space/sq. footage available for schools equates to better security/safety for students by moving students out of trailers and into enclosed buildings
3	greater parental choice, greater educational options in North Mecklenburg
4	overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
5	greater flexibility with curriculum and addressing concerns of parents than with CMS
6	fixed, upfront costs only instead of the possibility of ongoing/annual contributions from the general fund for a town-run municipal charter school
7	independent, separate charter board – not run/influenced directly by the town board and vagaries of town board politics
8	Avoid the learning curve associated with start-up process
9

12	
13	
14	
15	
16	
17	
18	
19	
20	

	OPPORTUNITIES (+)
1	municipal charter school has never been done in NC, opportunity to demonstrate a new model for education statewide
2	cost savings for new construction – ability to build school buildings more efficiently/less expensive than CMS schools
3	ability to determine best makeup of the charter school board – elected board members, appointed board members, some hybrid model, etc.
4	large pool of diverse potential charter board members in North Mecklenburg region from various educational, workforce backgrounds
5	ALSO, large pool of diverse charter schools – new or existing – to potentially partner with, not limited to existing charter schools locally (LKN Charter, Pine Lake Prep, CSD, etc.)

Additional questions/information needed

1. as much information as possible regarding ability of town to acquire
2. request opinion of town attorney related to: current and proposed
3. what are the other three (3) towns included in HB514 – Mint Hill,
4. potential for additional NCGA legislation if HEOSC identifies
5. How would partnership affect a school's existing charter?

red charter school b

y partnering with a new or existing charter schoo

WEAKNESSES (–)	IMPORTANCE
potential zoning issues based on unknown location of potential school	
difficulty in deciding where to start – which grade level?	
weighted in favor of Huntersville students and then having a large number of Huntersville students possibly not being admitted	
safety issues – a new charter school unlikely to have a building large enough at the outset to avoid housing some students in trailers	
capital funding and land acquisition – still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land	
taxes – uncertainty over future costs a concern for residents, concerns over paying for two "districts" even if you have no children attending CMS or town charter school	
cost of upfitting/retrofitting existing building for a charter school (cost would be mitigated by use of warehouse-style space)	

THREATS (–)	IMPORTANCE
uncertain/unknown demand – possibility of student applications less than anticipated, risk of "new" school stigma causing parents to avoid sending their child for the first few years; unknown impact on exisiting charter schools	
political instability – locally and in Raleigh	
potential lawsuits – who would bear the costs?	
CMS – unlikely to cease opposition efforts to charters in general and municipal charter schools	
no actual vested interests yet – with no municipal charter school even in the application phase, easier to stop the effort before a municipal charter is open and accepting students	
potential for current charter school cap to be lowered/decreased	
timeline/length of charter school application process being altered/derailed by political instability, plus the length/in-depth nature of the application process itself – NC charter board may scrutinize the first municipal charter applications more heavily than non-municipal charters	

Option 3 - Partner with Charlotte-Mecklenb

	STRENGTHS (+)
1	Working together for stronger education
2	Resources already in place
3	This has been done before - Review the previous partnership
4	No legislative action
5	Majority of the schools in Huntersville are academically strong

20	

	OPPORTUNITIES (+)
1	To have the opportunity to partner with CMS for better student projection numbers and to be able to adquately plan for growth
2	To have the opportunity to partner with CMS during the Siting Process within the Town of Huntersville

3	Furture growth
4	Town of Huntersville to opt out of HB 514. With the opting out of HB 514 Huntersville Schools would be placed back in line for "priority spending" by CMS.
5	Passage of SL 2018-5 (SB 99 from the 2017-2018 NCGA session), North Carolina municipalities are now authorized to utilize taxing authority to pay for all items relating to schools. This new ability opens opportunities for CMS to partner with municipalities.

2018, Article II - Priority of Capital Sp

f Huntersville to address future capa

nine where new schools are built. Th
ss overcrowding/capacity? If so, plea
with the Town of Huntersville that wo

at is the total construction/building c

ew school or expansion of an existing school

WEAKNESSES (–)	IMPORTANCE
Nothing changes	
CMS current process on determining school capacity.	
CMS current process of determining growth in an area.	
Current/Future approved CMS Bonds do not have funding to address the overcrowding, capacity and/or future growth relief (new construction) for the Town of Huntersville Schools	

THREATS (–)	IMPORTANCE
The possibility of losing magnet school options in District 1 with the reassignment of students.	
Student reassignment within District 1 has the potential of negative impact on the Town of Huntersville's economy (property values / business development).	

Repeal of SL 2018-5 SB 99 from the 2017-2018 NCGA sessions	
The possibility of CMS reassigning students in over capacity school to under capacity school in District 1 and believe that this will "fix" our problem of overcrowded schools. This would not be a long term solution this is only kicking the can down the road.	

pending in Certain Municipalities.

city needs for our students?

he goal with this question is to understand the link between student assignment policies
ase tell us about it.
ould meet the future capacity needs for our students?

ost of a new school?

and school siting.

Option 4 - The feasibility of dividing the Charlotte Mecklenburg LEA into smaller LEAs

	STRENGTHS (+)	IMPORTANCE
1	More actual (not just perceived) local control of education	
2	More input for all stakeholders (parents, teachers, and staff)	
3	Studies and testimony presented support smaller districts as more efficient, while a possible North Meck LEA could still be large enough to take advantage of economies of scale	
4	easier access to school leadership	
5	more accountability of school leadership/teachers	
6	more permanent nature of a smaller LEA as opposed to just a single municipal charter, a smaller LEA would be a better long-term solution	
7	cost - likely far less expensive and more cost effective to operate than CMS	
8	property tax dollars used for education would stay local and benefit local students	
9	maximize money spent on education/learning instead of on educational bureaucracy	
10	greater parental choice, greater educational options in North Mecklenburg	
11	overcrowding/capacity problem relieved sooner than waiting on a solution from CMS	
12	greater flexibility with curriculum and addressing concerns of parents than with CMS	
13		
14		
15		
16		
17		
18		
19		
20		

	WEAKNESSES (–)	IMPORTANCE
1	even at 30-35k students, still far above the national average school district size	
2	cost - (both strength and weakness) far higher than a single municipal charter, but likely still more cost-efficient than CMS	
3	commercial tax base less without contributions from commercial property in Charlotte, potential greater burden on North Mecklenburg homeowners	
4	uncertainty over costs/taxes/curriculum etc resulting in more difficulty in making the case to the public and elected officials to pursue this option	
5	"regional" approach to education does not currently include Davidson	
6	potential zoning issues based on multi-jurisdictional district	
7	capital funding and land acquisition - still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land

17		
18		
19		
20		

	OPPORTUNITIES (+)	IMPORTANCE
1	convincing teachers of a better teaching environment in a smaller district	
2	political makeup of a new school board - more receptive / responsive to voters in North Mecklenburg	
3	ability to determine best makeup of the charter school board - elected board members, appointed board members, some hybrid model, etc	
4	more / better focused growth and data projections, working closer with the Town planning staff on demographics / growth trends etc	
5	regional approach to education would benefit not just education, also planning efforts	
6	start the dialogue statewide over what the right size of a school district size even if this option not pursued by the town (s)	
7	help set the template for how this option could be replicated in other areas of the state with similar concerns	
8	cost savings for new construction - ability to build school buildings more efficiently / less expensive than CMS schools

15		
16		
17		
18		
19		
20		

	THREATS (–)	IMPORTANCE
1	any agreement to deconsolidate must come from NCGA, which is unlikely at this time	
2	education policy continues to become more partisan, not less, so any large-scale solution is unlikely	
3	the sheer logistics / dynamics alone for such a change to the status quo how to unwind CMS, what to do with CMS assets in North Mecklenburg, would a constitutional amendment be necessary, etc?	
4	political instability - locally and in Raleigh	
5	potential lawsuits - who would bear the costs?	
6	CMS - unlikely to cease opposition efforts to change the status quo

QUESTIONS / ADDITIONAL INFORMATION:

how would the deconsolidation process take place?

decision makers would need to follow up with prior participants in this debate, prior study committee contributors to see what the next study or legislation would look like

what is the state of research currently on school district size and economic impact of LEA's? (Dr. Houck, et al, provided information to the legislative study committee over a year ago)

what are the other three (3) towns included in HB514 – Mint Hill, Cornelius, and Matthews – doing related to new LEA's or deconsolidation

potential for additional NCGA legislation if HEOSC identifies gaps/problems in current HB514 and related legislation, e.g., clearer funding options if a municipality opted to open a municipal charter school

RECOMMENDATION TO BOARD IN THIS OPTION? - cont. to investigate option 4 – but currently better path is the municipal charter, which would confirm some assumptions and help us realize some of the unknowns as they currently stand – which would lead down path to new LEA

Option 5 - Do nothing

	STRENGTHS (+)
1	business as usual
2	no expense for Town

WEAKNESSES (–)	IMPORTANCE
no new schools for 15 years	
will lead to significant overcrowding in Huntersville/Lake Norman area schools	
Could deter econominic development/expansion due to continued concerns over local schools issues	

THREATS (–)	IMPORTANCE

Funding from the town

Date : 10/28/2019 12:30:02 PM
From : "Eric Rowell" ericwrowell@gmail.com
To : "Anthony Roberts" aroberts@huntersville.org
Cc : "Jackie Huffman" jhuffman@huntersville.org
Subject : HFD, Inc. question

Mr. Roberts:

A question about your favorite topic - social media. HFD, Inc. posted the following statement on their fb page this weekend to promote their public safety day, "From the fire station to the brand new Tower Ladder 1 (Seagrave Aerialscope) everything on display is Tax Payer owned and funded."

It's my understanding based on the town's contract with HFD, Inc. that all vehicles and equipment are titled in the name of HFD, Inc. and would have to be purchased back by the town upon any cancellation/termination of the contract. My question - do taxpayers actually OWN the new Tower Ladder 1 truck (or any other HFD, Inc. vehicles or equipment)?

Thank you,

Eric Rowell
Huntersville

Subject : HFFA contract

Mrs. Pierson,

I'm sure I have this somewhere but can't locate. Can you please send me a copy of the current, executed HFFA management contract between the town and Swim Club Management? Let me know if there are any questions.

Thank you,

Eric Rowell

Subject : HFFA Contract
Attachment : Swim Club - Revised and Supplement.pdf;

Per your request, attached is the contract with Swim Club Management.

If you have any questions, let me know.

Thanks,
Janet

REVISED CONTRACT FOR SERVICES

This Contract for Services ("Contract") is made and entered into to be effective **September 5, 2017** between the **Town of Huntersville**, North Carolina, a municipal corporation organized under the laws of the State of North Carolina (the "Town") and **Swim Club Management Group of Charlotte, Inc.** ("Contractor") (Town and Contractor each sometimes referred to herein as a "Party" to this Contract and collectively referred to herein as the "Parties").

For and in consideration of the mutual promises set forth in this Contract, the parties do mutually agree as follows:

1. Obligations of Contractor - The Contractor agrees to fully, timely and properly provide full and complete management of Huntersville Family Fitness and Aquatic Center ("HFFA") including programming; staffing; marketing; scheduling; billing; collecting; daily financial reporting in accordance with applicable legal requirements and instructions of Town CFO; managing ongoing maintenance and repairs of the HFFA facilities; and long-range planning and other services necessary for the management of HFFA. Without limiting the generality of the foregoing, Contractor shall provide all services as more particularly described in the Scope of Work document attached hereto and incorporated herein by reference as Attachment A (all such services provided referred to herein as the "Services").

   The term of this Contract shall be **from September 5, 2017 through June 30, 2022 (the "Term"), unless otherwise terminated under the terms of this Contract** ("Year 1" means September 5, 2017 – June 30, 2018; "Year 2" means July 1, 2018- June 30, 2019; "Year 3" means July 1, 2019 –June 30, 2020; "Year 4" means July 1, 2020 – June 30, 2021; "Year 5" means July 1, 2021 –June 30, 2022).

   This Contract does not grant the Contractor the right or the exclusive right to provide specified services to Town, but does allow for Contractor to exclusively provide the management services described herein at HFFA. Similar services may be obtained from sources other than the Contractor (or not at all) at the discretion of the Town.

   The Contractor shall begin work immediately upon issuance of a written notice to proceed. The Contractor agrees to perform the Services in a timely, complete, and professional manner and in accordance with the terms and conditions of this Contract. Furthermore, the Contractor represents and warrants that (i) it is duly qualified and, if required by law, licensed to provide the Services; (ii) it will provide the Services in a manner consistent with the level of care and skill ordinarily exercised by contractors providing similar Services under similar conditions; (iii) it possesses sufficient experience, personnel, and resources to provide the Services; (iv) it shall provide the Services in compliance with applicable laws, statutes, ordinances, codes, orders, rules and regulations; and (v) its reports, if any, shall be complete, accurate, and unambiguous.

2. Obligations of Town. The Town hereby agrees to pay to the Contractor for the faithful performance of this Contract as follows:

   a. Management Fees. Management fees are as follows and shall be payable to Contractor in equal monthly installments:

(i)	Management Fee – Year 1 (September 5, 2017-June 30, 2018) (pro rata share $58,500/year management fee)	$	48,082.00
(ii)	Management Fee Year 2 (July 1, 2018 –June 30, 2019) (3% increase)	$	60,255.00
(iii)	Management Fee Year 3 (July 1, 2019 –June 30, 2020) (3% increase)	$	62,062.65
(iv)	Management Fee – Year 4 (July 1, 2020 -June 30, 2021) (pro rata share $58,500/year management fee)	$	63,924.52
(v)	Management Fee Year 5 (July 1, 2021 –June 30, 2022) (3% increase)	$	65,842.26

b. Reimbursable Expenses. Additionally, the Town shall reimburse Contractor for: (a) the cost of all Contractor employees that staff HFFA Staffing costs, including payroll taxes, payroll processing fees, and employee health insurance and (b) any other actual, out-of-pocket expense incurred by Contractor in connection with providing the Services ("Reimbursable Expenses"); provided any and all Reimbursable Expenses must be approved in advance by Town and be in accordance with an Approved Budget, as defined below.

c. Additionally, Town and Contractor agree that Contractor shall receive additional yearly compensation based on the following formula:

i. Reduce $530,000 less the dollar amount of Hotel/Motel/Tourism Tax transferred to HFFA in the fiscal year (excluding amounts transferred for capital expenditures and expenditures outside the ordinary course of business). This resulting difference shall be multiplied by fifty percent (50%) and the resulting number is the bonus to be paid to Contractor. In Year 1 the bonus calculation period will be the six-month period ending June 30, 2018 (January 1 to June 30, 2018).

For example, if zero dollars ($0.00) of Hotel/Motel/Tourism Tax was transferred to HFFA in a given year the resulting difference would be $530,000, which would be multiplied by 50% to create a bonus due to Contractor of $265,000.

ii. Beginning in the 2020/2021 fiscal year, this Contractor bonus will be calculated by adding capital expenditures to the difference.

For example, if zero dollars ($0.00) of Hotel/Motel/Tourism Tax is used in the given fiscal year, but the capital expenses were $250,000, the bonus would be calculated as follows: $530,000 less $250,000 equals $280,000. This difference

($280,000) multiplied by fifty percent (50%) equals $140,000, which would be the bonus due to Contractor.

Any bonus earned by Contractor as detailed above shall be paid to Contractor within one hundred and eighty (180) days of the fiscal year end.

3. Project Coordinator. Town Manager, or designee, is designated as the Project Coordinator for Town. The Project Coordinator shall be Town's representative in connection with the Contractor's performance under this Contract. Town has complete discretion in replacing the Project Coordinator with another person of its choosing.

4. Contractor Supervisor. **Brian Sheehan** is designated as the Contractor Supervisor for the Contractor. The Contractor Supervisor is fully authorized to act on behalf of the Contractor in connection with this Contract.

5. Terms and Methods of Payment. The Town will make payment after invoices are approved on a net 30-day basis, excluding payroll reimbursements which shall be payable net five (5) business days. The Town will not pay for services or materials in advance without the prior approval of the Town's Finance Officer. Contractor shall invoice Town monthly for management fees (to be paid in equal monthly installments, pro-rated for any partial month), staff costs, and reimbursable expenses; provided however, the staffing/employment costs, including payroll taxes, payroll processing fees, and employee health insurance, will be billed to the Town bi-weekly based on the actual payroll costs from the preceding pay period and shall be paid by the Town within five (5) business days of receipt.

6. Standard Terms and Conditions: Contractor agrees to the Standard Terms and Conditions set forth as Exhibit 1, attached hereto and incorporated herein by reference.

7. Additional Provisions: the parties agree to the following additional provisions.

   a. Facility Management and Staffing

   Contractor will provide complete facility management for the hours of operation of the facility. The hours of operation will be established by the Contractor after consultation and in consideration of the recommendations of the Town and a management team to be established by Contractor and Town.

   Contractor staff may honor the following holidays: Christmas Day, New Year's Day, and Thanksgiving Day. If staffing is to be required on such holidays, such affected staff shall be paid, and Town will be billed at regular staffing rates.

   Except as otherwise provided, all full-time and part-time staff will be employees of the Contractor and will be comprised of degree or degree candidate instructors and/or instructors nationally certified to appropriate professional organizations in their respective areas. At their discretion, and from time to time, Contractor may substitute criteria of experience and demonstrated knowledge in providing acceptable staff after consultation and in consideration of the recommendations of the Town. The staff may include, but not be limited to, health educators, dietitians, group exercise instructors, massage therapists, exercise specialists, lifeguards, swim

instructors, aquatic leaders, child care providers, business office specialists, and other service specialists.

b. Budgeting; Procurement. Contractor will prepare and submit a proposed operating budget for HFFA prior to Town's annual budget process and assist Town staff as reasonably requested in connection with the Town's annual budget process. Town will have overall and final determination of the budget to be established pursuant to its budgetary requirements under State law (an "Approved Budget"). Any deviations from the adopted budgets will require approval by the Town Board. The Approved Budget will also identify expenses that are paid for directly by the Town and what expenses are Reimbursable Expenses paid for by Contractor but reimbursed by the Town.

   Procurement of goods and services for HFFA shall be in accordance with all North Carolina General Statutes applicable to purchases by North Carolina municipalities and shall also be in accordance with all applicable Town's purchasing rules and regulations, specifically including the provision that all purchases exceeding One Thousand Dollars ($1,000) shall be submitted to Town for a purchase order. For clarity, all purchases, whether by Contractor or by Town, shall at all times be subject to applicable North Carolina purchasing and bid laws.

c. Daily financial management. Contractor shall review, approve, and prepare cash disbursement documents for payment of HFFA invoices in accordance with Town's financial procedures. Cash receipt reports, along with the cash, shall be prepared and brought to Town's finance department on a daily basis. Contractor will work with Town's financial staff in preparing year-end financial information needed for the annual audit.

d. Employees. All salaried employees of Contractor who are engaged exclusively in the performance of this Contract to manage HFFA, shall work forty (40) hour weeks on behalf of HFFA (subject to normal vacation, sick leave, etc.). A reconciliation report of employee's gross wages and salaries, health care insurance fees, employer payroll taxes, and other applicable payroll costs will be provided. Town shall pay for non-employee expenses associated with service operations that fall within the budgetary guidelines without requiring prior approval as long as single expenses do not exceed the amounts defined in the section entitled Operational Management. Any expenses that are outside of the budget will not be purchased until the Town has consented thereto and adjusted the budget accordingly. Contractor agrees to provide payroll reports to the Town with breakdowns according to budgetary line items. In addition, Contractor will provide reports specific to employee payroll information should this be needed for audit purposes. Contractor reserves the right to identify administrative and departmental leadership employees by payroll number, without employee names provided.

   It is acknowledged and agreed that the Contractor will invest substantial resources to train and convey information concerning operational techniques and management procedures to its employees at the Town's facility and Town acknowledges that such information and investment is a valuable asset of the Contractor's business. Town agrees that no employee or former employee of Contractor in a position of Administration or Departmental Leadership, shall be hired by the Town to work for a period of one (1) year following the expiration or termination of this Contract without the prior written approval of Contractor.

e. Operational Agreements

1. Contractor will, at all times, manage the facility in such a manner that aligns with the Town's core values, and will take no action that would be deemed discriminatory or not afford equal opportunities for full participation according to the policies established by the Town.

2. The Town has entered into certain contracts for the usage of the facility and such contracts, as well as any other usage contracts that the Town may enter into, will be honored by Contractor in planning and managing the facility. However, any Town decision affecting the operation of the facility will involve consultation with the Contractor to determine the impact of such decision on this Contract. Should the Town enter into an agreement during the term of this Contract that Contractor deems to prohibit Contractor's ability to achieve profitability, and where such agreement is entered into by the Town in spite of Contractor's direct request against such agreement, Contractor may, at its sole option terminate the Contract, so long as Contractor is not otherwise in default under this Contract.

3. It is understood that Town, at all times, retains the right of final decision on the use of the facility. Contractor shall not have the right to enter into a binding obligation on behalf of the Town or HFFA unless the associated expense is already allowed for in the approved HFFA budget, or as otherwise allowed or delegated to do so by the Town. Contracts must be pre-audited prior to signature as required by law.

4. All fees and rates charged to members of HFFA shall be approved by the Town. The currently agreed upon fee schedule is attached hereto as Exhibit 2.

5. All sponsorship agreement shall be approved by the Town. A list of current sponsorship agreements is attached hereto as Exhibit 3.

f. Annual review and evaluation. The Parties intend to meet at least annually to review HFFA operations, Contractor's performance and any other matters of interest to the Parties and the operation of HFFA ("Performance Review"). As of the date of this Contract, the Town has established an "Oversight Committee" (consisting of members of the Town's Board) and this Oversight Committee and key Town staff will endeavor to meet with Contractor staff as part of this Performance Review process.

g. Miscellaneous

1. Town agrees to allow Contractor to display a sign at premises in a conspicuous place designating the responsibility to the Contractor for the quality of the overall operation.

2. The Contractor shall not be liable for pool damages caused by hydrostatic lifting.

h. Notice. All notices or other communications required by or permitted under this Contract (each such notice or other communication, a "Notice") shall be in writing and shall be deemed effective when physically delivered, sent by United States Postal Service, certified mail, return receipt

requested, or sent via designated delivery service as described in 26 U.S.C. § 7502(f)(2) addressed as follows:

If to the Contractor:

Brian C. Sheehan
President/CEO of Swim Club Management Group, Inc.
9801 Kincey Avenue, Suite 165
Huntersville, NC 28078
Telephone: (704) 766-2726

With a copy to:

Elena F. Mitchell
Moore & Van Allen, PLLC
100 North Tryon Street, Suite 4700
Charlotte, NC 28202

If to the Town:

Town of Huntersville
Attention: Town Manager
P.O. Box 664
Huntersville, NC 28070
Telephone 704-766-2201

Any of the above addresses may be changed by giving Notice of such change in the manner described above.

8. Counterpart Execution. This Contract may be executed and recorded in two or more counterparts, each of which shall be deemed an original and all of which, when taken together, shall constitute one and the same instrument. Each party shall be entitled to rely upon executed copies of this Contract transmitted by facsimile or electronic "PDF" to the same and full extent as the originals.

[THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY]
[SIGNATURES ON NEXT PAGE]

IN WITNESS WHEREOF, the Town and the Contractor have executed this Contract on the day and year first written above.

Exhibit 1

Standard Terms and Conditions

1. Invoices. Applicable North Carolina sales tax shall be invoiced as a separate item. Invoices shall be sent to Town's accounts payable department with a copy to the Town Project Coordinator.

2. Payment Terms. Except for payroll reimbursements which shall be paid within five (5) business days as set forth above, payment terms are Net 30 days after receipt of correct invoice.

3. Compliance with All Laws. Contractor warrants that all performance hereunder shall be in accordance with all applicable federal, state and local laws, regulations and orders.

4. If Contractor, any of Contractor's employees, or any of Contractor's subcontractors or employees of subcontractors will have any direct interaction with minors, then Contractor or the subcontractor must (i) on an annual basis conduct a check of the N.C. Sex Offender and Public Protection Registration Program, the N.C. Sexually Violent Predator Registration Program and the National Sex Offender Registry for all such employees; and (ii) prohibit individuals listed on such registries from being on Town property.

5. Nondiscrimination. During the performance of the Contract, Contractor shall not discriminate against or deny the Contract's benefits to any person on the basis of sexual orientation, national origin, race, ethnic background, color, religion, gender, age or disability.

6. Conflict of Interest. Contractor represents and warrants that no member of Town or any of its employees or officers who may obtain a direct benefit, personal gain or advantage for themselves or a relative or associate as a result of the Contract, subcontract or other agreement related to the Contract is in a position to influence or has attempted to influence the making of the Contract, has been involved in making the Contract, or will be involved in administering the Contract. Contractor shall cause this paragraph to be included in all Contracts, subcontracts and other agreements related to the Contract.

7. Gratuities to Town. The right of Contractor to proceed may be terminated by written notice if Town determines that Contractor, its agent or another representative offered or gave a gratuity to an official or employee of Town in violation of policies of Town.

8. Kickbacks to Contractor. Contractor shall not permit any kickbacks or gratuities to be provided, directly or indirectly, to itself, its employees, subcontractors or subcontractor employees for the purpose of improperly obtaining or rewarding favorable treatment in connection with a Town Contract or in connection with a subcontract relating to a Town Contract. When Contractor has grounds to believe that a violation of this clause may have occurred, Contractor shall promptly report to Town in writing the possible violation.

9. Iran Divestment Act. Contractor certifies that, as of the date listed below, it is not on the Final Divestment List, as created by the State Treasurer pursuant to N.C.G.S. § 143-6A-4, in violation of the Iran Divestment Act. In compliance with the requirements of the Iran Divestment Act and N.C.G.S. § 143C-6A-5(b), Contractor shall not utilize in the performance of the contract any subcontractor that is identified on the Final Divestment List. The Final Divestment List can be found on the State Treasurer's website at the address www.nctreasurer.com/Iran and should be updated every 180 days.

10. E-Verification. Contractor shall comply with the requirements of Article 2 of Chapter 64 of the North Carolina General Statutes.

11. Indemnification. Contractor shall indemnify and hold harmless Town, its officers, agents, employees and assigns from and against all claims, losses, costs, damages, expenses, attorneys' fees and liability that any of them may sustain (a) arising out of Contractor's failure to comply with any applicable law, ordinance,

regulation, or industry standard or (b) arising directly or indirectly out of Contractor's performance or lack of performance of the terms and conditions of the Contract including injuries or damages to persons or property that shall happen or occur in connection with Services. Contractor assumes no liability for damage or injury to persons or property arising from or caused by acts of God or mechanical failure of equipment, other than those that are proximately caused by the negligence, gross negligence or intentional misconduct of the Contractor.

12. Insurance. Unless such insurance requirements are waived or modified by Town or risk management ("DIRM"), Contractor certifies that it currently has and agrees to purchase and maintain during its performance under the Contract the following insurance from one or more insurance companies acceptable to Town and authorized to do business in the State of North Carolina: Automobile - Contractor shall maintain bodily injury and property damage liability insurance covering all owned, non-owned and hired automobiles. The policy limits of such insurance shall not be less than $1,000,000 combined single limit each person/each occurrence. Commercial General Liability - Contractor shall maintain commercial general liability insurance that shall protect Contractor from claims of bodily injury or property damage which arise from performance under the Contract. This insurance shall include coverage for contractual liability. The policy limits of such insurance shall not be less than $10,000,000 combined single limit each occurrence/annual aggregate. Professional Liability Insurance – Contractor certifies that it currently has and agrees to purchase and maintain during its performance under the Contract the following insurance from one or more insurance companies acceptable to the Town and authorized to do business in the State of North Carolina: Professional liability insurance in the amount of $10,000,000 combined single limit each occurrence/annual aggregate. Worker's Compensation and Employers' Liability Insurance - If applicable to Contractor, Contractor shall meet the statutory requirements of the State of North Carolina for worker's compensation coverage and employers' liability insurance. Contractor shall also provide any other insurance or bonding specifically recommended in writing by the DIRM or required by applicable law. Certificates of such insurance shall be furnished by Contractor to Town and shall contain the provision that Town be given 30 days' written notice of any intent to amend or terminate by either Contractor or the insuring Contractor. Failure to furnish insurance certificates or to maintain such insurance shall be a default under the Contract and shall be grounds for immediate termination of the Contract.

13. Termination for Default. The Town and Contractor shall have the right to cancel this Contract based on either party's non-performance of duties and responsibilities as follows:

    (a)The other party shall notify the defaulting party by certified mail of any problem regarding contractual non-performance as detailed in this Agreement. Defaulting party shall have sixty (60) days following notification to remedy stated violation of contract.

    (b) If defaulting party fails to remedy violation and continues to not perform as detailed in this Agreement, the other party may terminate Agreement by providing thirty (30) days written notice to defaulting party by certified mail.

14. Accounting Procedures. Contractor shall comply with any accounting and fiscal management procedures prescribed by Town to apply to the Contract and shall assure such fiscal control and accounting procedures as may be necessary for proper disbursement of and accounting for all project funds.

15. Improper Payments. Contractor shall assume all risks attendant to any improper expenditure of funds under the Contract. Contractor shall refund to Town any payment made pursuant to the Contract if it is subsequently determined by audit that such payment was improper under any applicable law, regulation or procedure. Contractor shall make such refunds within 30 days after Town notifies Contractor in writing that a payment has been determined to be improper.

16. Contract Transfer. Contractor shall not assign, subcontract or otherwise transfer any interest in the Contract without the prior written approval of Town. Town shall not assign, subcontract or otherwise transfer any interest in the Contract without the prior written approval of Contractor.

17. Contract Personnel. Contractor agrees that it has, or will secure at its own expense, all personnel required to provide the Services set forth in the Contract.

18. Contract Modifications. The Contract may be amended only by written amendment duly executed by both Town and Contractor.

19. Relationship of Parties. Contractor is an independent contractor and not an employee of Town. The conduct and control of the work will lie solely with Contractor. The Contract shall not be construed as establishing a joint venture, partnership or any principal-agent relationship for any purpose between Contractor and Town. Employees of Contractor shall remain subject to the exclusive control and supervision of Contractor, which is solely responsible for their compensation.

20. Advertisement. The Contract will not be used in connection with any advertising by Contractor without prior written approval by Town.

21. Monitoring and Evaluation. Contractor shall cooperate with Town, or with any other person or agency as directed by Town, in monitoring, inspecting, auditing or investigating activities related to the Contract. Contractor shall permit Town to evaluate all activities conducted under the Contract. Town has the right at its sole discretion to require that Contractor remove any employee of Contractor from Town Property and from providing Services under the Contract following provision of notice to Contractor of the reasons for Town's dissatisfaction with the Services of Contractor's employee.

22. Financial Responsibility. Contractor is financially solvent and able to perform under the Contract. Should the Town believe the Contractors financial solvency is impaired, Town shall have the right to request, on a yearly basis, that Contractor make available for inspection the Contractor's most recent yearly financial statements. The abovementioned documents will be available at the Contractors office for viewing at an agreed upon time. The documents shall be marked proprietary trade information and confidential, may not be copied, and shall only be used for the purpose of validating the financial solvency of the Contractor. In the event of any proceedings, voluntary or involuntary, in bankruptcy or insolvency by or against Contractor, the inability of Contractor to meet its debts as they become due or in the event of the appointment, with or without Contractor's consent, of an assignee for the benefit of creditors or of a receiver, then Town shall be entitled, at its sole option, to cancel any unfilled part of the Contract without any liability whatsoever for the unfulfilled Goods or Services.

23. Governmental Restrictions. In the event any governmental restrictions are imposed which necessitate alteration of the material, quality, workmanship or performance of the items offered prior to their delivery, it shall be the responsibility of the Contractor to notify, in writing, the issuing purchasing office at once, indicating the specific regulation which required such alterations. Town reserves the right to accept any such alterations, including any price adjustments occasioned thereby, or to cancel the Contract.

24. Inspection at Contractor's Site. Town reserves the right to inspect, at a reasonable time, the equipment/item, plant or other facilities of a prospective contractor prior to Contract award, and during the Contract term as necessary for Town determination that such equipment/item, plant or other facilities conform with the specifications/requirements and are adequate and suitable for the proper and effective performance of the Contract.

25. Confidential Information. Employee Personnel Information: If, during the course of Contractor's performance of the Contract, Contractor should obtain any information pertaining to employees of Town's personnel records, Contractor agrees to keep any such information confidential and to not disclose or permit it to be disclosed, directly or indirectly, to any person or entity. Other Confidential Information: (a) Contractor agrees that it will at all times hold in confidence for Town all designs, know-how, techniques, devices, drawings, specifications, patterns, technical information, documents, business plans, item requirements, forecasts and similar data, oral, written or otherwise, conveyed by Town to Contractor in connection herewith or procured,

developed, produced, manufactured or fabricated by Contractor in connection herewith or procured, developed, produced, manufactured or fabricated by Contractor in connection with Contractor's performance hereunder (collectively, "Information"). Contractor shall exercise the same degree of care to prevent disclosure of any Information to others as it takes to preserve and safeguard its own proprietary information, but in any event, no less than a reasonable degree of care. Contractor shall not, without the prior written consent of Town, reproduce any Information; nor disclose Information to any party; nor use any Information for any purpose other than performance for the benefit of Contractor hereunder. (b) Any technical knowledge or information of Contractor which Contractor shall have disclosed or may hereafter disclose to Town in connection with the Services or other performance covered by the Contract shall not, unless otherwise specifically agreed upon in writing by Town, be deemed to be confidential or proprietary information and shall be acquired by Town free from any restrictions as part of the consideration of the Contract.

26. Intellectual Property. Contractor agrees, at its own expense, to indemnify, defend and save Town harmless from all liability, loss or expense, including costs of settlement and attorney's fees, resulting from any claim that Town's use, possession or sale of the Services infringes any copyright, patent or trademark or is a misappropriation of any trade secret.

27. No Pre-Judgment or Post-Judgment Interest. In the event of any action by Contractor for breach of contract in connection with the Contract, any amount awarded shall not bear interest either before or after any judgment, and Contractor specifically waives any claim for interest.

28. Background Checks. At the request of Town's Project Coordinator, Contractor (if an individual) or any individual employees of Contractor shall submit to Town criminal background check and drug testing procedures.

29. Mediation. If a dispute arises out of or relates to the Contract, or the breach of the Contract, and if the dispute cannot be settled through negotiation, the parties agree to try in good faith to settle the dispute by mediation administered by the American Arbitration Association under its Commercial Mediation Rules before resorting to litigation.

30. No Third Party Benefits. The Contract shall not be considered by Contractor to create any benefits on behalf of any third party. Contractor shall include in all contracts, subcontracts or other agreements relating to the Contract an acknowledgment by the contracting parties that the Contract creates no third party benefits.

31. Force Majeure. If Town is unable to perform its obligations or to accept the Services because of Force Majeure (as hereinafter defined), the time for such performance by Town or acceptance of Services will be equitably adjusted by allowing additional time for performance or acceptance of Services equal to any periods of Force Majeure. "Force Majeure" shall mean any delays caused by acts of God, riot, war, terrorism, inclement weather, labor strikes, material shortages and other causes beyond the reasonable control of Town or Contractor. If Contractor is unable to perform its obligations or provide the Services because of Force Majeure, the time for such performance by Contractor for providing Services will be equitably adjusted by allowing additional time for performance or acceptance of Services equal to any periods of Force Majeure.

32. Ownership of Documents. All documents created pursuant to the Contract shall, unless expressly provided otherwise in writing, be owned by Town. Upon the termination or expiration of the Contract, any and all finished or unfinished documents and other materials produced by Contractor pursuant to the Contract shall, at the request of Town, be turned over to Town. Any technical knowledge or information of Contractor which Contractor shall have disclosed or may hereafter disclose to Town shall not, unless otherwise specifically agreed upon in writing by Town, be deemed to be confidential or proprietary information and shall be acquired by Town free from any restrictions as part of the consideration of the Contract.

33. Strict Compliance. Town may at any time insist upon strict compliance with these terms and conditions notwithstanding any previous course of dealing or course of performance between the parties to the contrary.

34. General Provisions. Town's remedies as set forth herein are not exclusive. Any delay or omission in exercising any right hereunder, or any waiver of any single breach or default hereunder, shall not be deemed to be a waiver of such right or of any other right, breach, or default. If action be instituted by Contractor hereunder, Town shall be entitled to recover costs and reasonable attorney's fees. Contractor may not assign, pledge, or in any manner encumber Contractor's rights under this Contract or applicable Purchase Order, or delegate the performance of any of its obligations hereunder, without Town's prior, express written consent.

35. Contract Situs. All matters, whether sounding in contract or tort relating to the validity, construction, interpretation and enforcement of the Contract, will be determined in Mecklenburg County, North Carolina. North Carolina law will govern the interpretation and construction of the Contract.

Attachment A

Scope of Services
Company shall provide complete facility management to include but not be limited to the following:

- To work with Town's Park and Recreation Department to design programing and events that are mutually beneficial and create synergy for both organizations
- Cooperative budgeting for HFFA with the Town following the Town' s schedule and process for approval
- Manage the budget according the Town guidelines and compliance orders
- Manage HFFA in a manner that is fiscally responsible and creates financial sustainability for HFFA
- Hire, employ and manage all aspects of all staff member' s employment with the exception of the Town' s provision of a business office manager, should Town desire to employ their own
- Participate in the management of and review of Town' s appointed business office manager, should this position be needed
- Manage all tenant, vendor and service contracts for the building, keeping Town staff apprised of any major changes to these relationships
- Supervise the maintenance of the building and grounds to mutually agreed upon standards as determined by periodic mutual inspection processes
- Develop and implement the internal and external marketing and sales processes for the center
- Develop and implement: membership plans and programs, fitness, aquatic and children's services programs and services that keep HFFA competitive in the marketplace and increase non-dues revenue
- Survey and collect feedback from members and service users on a periodic and as needed basis to assist with continuous quality improvement
- Comply with Town' s requirements and requests related to financial recording
- Build and maintain cooperative and mutually beneficial community partnerships for the purpose of improving the health and well-being of the general community, visitors and guests
- Maintain financial data, membership data and program utilization for the purpose of reporting and business analysis
- Attend Town staff and board meetings as needed and requested

SUPPLEMENT TO CONTRACT – PERFORMANCE BOND

THIS SUPPLEMENT to that Revised Contract for Services by and between the **Town of Huntersville** (the "Town") and **Swim Club Management Group of Charlotte, Inc.** ("Contractor") dated as of September 5, 2017 ("Contract"), is given by Contractor and accepted by Town as of the 3 day of November, 2017.

WHEREAS, Paragraph 22 of the Standard Terms and Conditions of the Contract, attached thereto as Exhibit 1, entitled Financial Responsibility, affirms that Contractor is financially solvent and able to perform under the Contract, but further provides for the right of Town to request financial records from Contractor should Town believe that such solvency is impaired; and

WHEREAS, rather than requiring production of such records Contractor proposes to provide Town with a performance bond assuring Town of Contractor's performance of the Contract; and

WHEREAS, Town agrees that the production and maintenance of such performance bond would satisfy the production of records requirements of Paragraph 22 of the Standard Terms and Conditions of the Contract; and

WHEREAS, Contractor has provided to Town such Performance Bond, a copy of which is attached as Exhibit A.

NOW, THEREFORE, Contractor agrees to provide, maintain, and keep in effect throughout the entire term of the Contract, and any renewals and extensions thereof, a Performance Bond to assure the performance of the Contract by the Contractor, substantially in the form of the existing bond, a copy of which is attached hereto as Exhibit A, and issued by a nationally rated Surety qualified to do business and issue bonds in the State of North Carolina. Town acknowledges that so long as such bond or successor or replacement bonds are in effect, Contractor shall not be required to furnish or provide financial records as described in the aforesaid Paragraph 22.

Executed as of the day and year set forth above.

SWIM CLUB MANAGEMENT GROUP OF CHARLOTTE, INC.

By: _____
Brian C. Sheehan, President

Accepted by Town of Huntersville as of the 3 day of November, 2017.

HOUSE BILL 229

Short Title:	Repeal Municipal Charter Schools.	(Public)
Sponsors:	Representatives Alexander, Autry, Martin, and Hawkins (Primary Sponsors). *For a complete list of sponsors, refer to the North Carolina General Assembly web site.*	
Referred to:	Rules, Calendar, and Operations of the House	

March 4, 2019

A BILL TO BE ENTITLED

AN ACT TO REPEAL LEGISLATION PERMITTING MUNICIPALITIES TO OPERATE CHARTER SCHOOLS.

The General Assembly of North Carolina enacts:

SECTION 1. The following session laws are repealed:

(1) S.L. 2018-3.

(2) Section 38.8 of S.L. 2018-5.

(3) Section 11.1 of S.L. 2018-97.

(4) Section 20 of S.L. 2018-145.

SECTION 2. This act is effective when it becomes law. Upon the effective date of this act, the State Board of Education shall terminate the charter of any charter school operated by a municipality.

Subject : Housing study

Mr. McDaniels,

I read a story this morning at WFAE about an affordable housing study commissioned by the LNEDC and presented to the three towns yesterday. If this study was done by your group, please provide me a copy of the study and any other materials that were presented to the towns. I am planning to attend the morning session of the Huntersville board retreat this morning if it's easier to provide me a hard copy in person.

Thank you,

Eric Rowell
Huntersville

Vickie,

Could you please provide me a listing of the names of all sworn personnel hired by HPD since October 29, 2018 through the present? Also, could you confirm who on that list would have been a lateral hire and who would be a new hire straight from BLET?

Let me know if there are any questions.

Thank you,

Eric:

Thanks for your email. The Managers Directive I sent out on June 10th was meant to let employees know not to "independently" promote or share offers from any vendor or business (including their own) using the town's email or the town's social media sites. Chief Hoyle authorized the recommendation of Knox Box to our Town residents as a way to provide the same opportunity to the public for emergency service delivery as is currently in place for CMS facilities and a majority of businesses in this area. To my knowledge, there is no monetary benefit to the Town or to any employee.

We are continually seeking ways for improvement, including review of Town policies and procedures. We will review the June 10th Managers Directive and other town policies to clarify how partnerships with town vendors should be communicated to the public on our website and social media sites. Thanks.

Anthony Roberts,
Town Manager

Subject : Huntersville Community Plan Update - Steering Committee Appointments

Good afternoon –

Thanks to all of you who applied to serve on the Plan Update Steering Committee. As some of you know, the Steering Committee appointments were on the Town Board of Commissioners' agenda at last night's (Aug 19th) meeting. The Commissioners decided to defer making any appointments until the next regular meeting, which will be held on Tuesday, September 3 (the normal Monday Sept 2nd meeting date falls on Labor Day weekend). There were 51 applicants, and I got the sense that the Board was impressed by the level of interest and wanted more time to review all candidates.

Two items worth mentioning – the Commissioners did decide that 15 members will be appointed, and they wanted to make every effort to encourage those not selected to participate in the process.

Thanks for your time, and when the appointments are made I'll send another e-mail update.

Subject : Huntersville Education Options Study Commission

Commissioner Powell, I chair a subcommittee on the Huntersville Educational Options Study Commission and we are conducting SWOT analysis regarding different options. One of the issues we have on our radar is HB 229 (bill to repeal HB 514 municiple charter schools). As the former county commissioner for District One I was actively involved with HB 514. Could you as our representatives please let me/us know you personal position on HB 514 as well as your position on HB 229 pending legislation to repeal 514 and what you are actively doing in regards to it being passed or defeated. As we are reaching the end of our preliminary discover period a prompt answer would be greatly appreciated.

Subject : Huntersville hotel/motel info

Mrs. Huffman,

Can you advise the local act that authorized Huntersville and/or Mecklenburg County's occupancy tax? I would like to review the limitations on how Huntersville can spend occupancy (and prepared food beverage?) tax revenue. Also, a breakdown of the amount/percentage of the tax revenue that comes to Huntersville directly versus what goes to Visit LKN, Charlotte, etc. If this information is already provided in the town audit or at the town's website, please feel free to just forward me a link to the necessary information.

Let me know if there are any questions about this request.

Thanks,

Eric Rowell
Huntersville

Subject : Huntersville Politics questionnaire
Attachment : Huntersville Politics 2019 questionnaire.docx;

All,

Please see the attached questionnaire. If you would like to share your views with Huntersville voters in the Huntersville Politics group on fb and at my website, please return to me via email no later than 27 September 2019.

Let me know if there are any questions or if you have any trouble with the attachment.

Thanks,

Eric Rowell
Huntersville

Huntersville Town Board Candidate Questionnaire

ericwrowell.com / Huntersville Politics

With so few opportunities for voters to hear directly from the candidates prior to election day, I am hoping this questionnaire will provide the community with more insight into your candidacy. There is no word limit – write as much or as little as necessary to answer each question. You can use the space below so I can easily copy and paste your responses.

Please return to me no later than **27 September 2019** and I will begin posting completed questionnaires at my website and simultaneously at the Huntersville Politics facebook group page beginning the week of September 30th. The questionnaires posted during the 2017 campaign were very popular and were some of the most viewed content ever at my site.

Thank you,

Eric Rowell

- A specific agenda item you want to work on if elected:

- For challengers – one specific vote over the last two years you disagreed with and why:

- For incumbents – any vote over the last two years you would change and why – or, if none, any item you wish you the board would have accomplished and why:

- What is the proper role of town government and do you think there is any limit to what town government can use taxpayer dollars for:

- If you are running on an anti-growth platform, how do you intend to legally halt or slow down growth in Huntersville? Be specific.:

- If not running on an anti-growth platform, how do you plan to deal with growth challenges if elected?:

- Should town government select winners and losers in business by providing tax incentives/tax rebates to certain companies over others:

- Are you hoping to benefit yourself personally if elected? If yes, explain. If no, one example of prioritizing Huntersville over your own self-interests:

- If elected, is it more important to you to vote the will of the people (however that is determined) or to vote your conscience (except when the board is acting as a quasi-judicial body):

- Does the town need to do more to ensure transparency and accountability in its departments, including the use of independent, professional audits?:

- Do you support the public education status quo in Huntersville?:

- Cats or Dogs (or Chickens)?:

- Best place to get pizza in or around Huntersville:

- Your favorite 19th century French political economist:

- Person/group most responsible for influencing your political views?:

- How can readers find out more about your campaign? (social media, website)?:

Subject : Huntersville Steering Committee Meeting Poll

Good Morning –
As we prepare to start the Huntersville Community Plan Update, the Planning staff is offering an orientation meeting before we start working on the plan itself. Please click on the Doodle Poll link below and let us know which date (Sept 25th or 26th) works best for you. I apologize that we don't have more options – facility availability has caused some challenges. Once we know which date works best, you'll be notified of the meeting location.

https://doodle.com/poll/4tqtfg2ueps7u2f6

There are also some documents that will be stored in a dropbox so you can review them. The current 2030 Community Plan will be provided, along with some of the older plans that were adopted years ago.

Thanks for your time. Please let me know if you have any questions or concerns.

MEETING NOTICE

April 5, 2019

The Huntersville Board of Commissioners will hold a work session on Friday, April 12, 2019 from 8:30 a.m. until 3:30 p.m. The work session will be held at Huntersville Town Hall, 101 Huntersville-Concord Road, Huntersville, North Carolina. The purpose of the work session is to discuss the upcoming 2019-2020 budget and strategic planning for the Town of Huntersville. Topics may include, but would not be limited to, improvements to public streets, Capital Improvement Program and Comprehensive Plan. During the work session, the Board of Commissioners may have a closed session for personnel and a closed session for property acquisition. Action may be taken by the Board at this meeting.

If you have any questions, please contact me.

Anthony, at our subcommittee meeting last night I came up that we STILL haven't received the bond monies spend in North Mecklenburg for the period of 1985 to 2000. We asked the superintendent and board members for it again in person when they met with us. Could you please follow up and get that information. Thanks

Subject : Information/Records request - HPD

Mrs. Pierson:

Pursuant to NCGS 160A-168 please provide me the following information and/or records related to HPD Officer Zach Duncan:

- His age;
- Date of his original employment;
- His current position;
- His current title;
- His current salary;
- The date and type of each promotion, demotion, transfer, suspension, separation, or other change in position classification with Huntersville/HPD; and
- The date and type of each dismissal, suspension, or demotion for disciplinary reasons taken by Huntersville/HPD.

I am requesting this information and/or records be provided to me electronically if possible. If electronic production is not possible, please notify me if there will be any fees related to producing this information and/or records and, if so, whether the cost will exceed $25.00. Please specify any applicable exemption(s) under NCGS Chapter 132, Chapter 160A, or otherwise if any or all of this request is denied.

Please provide your response within fifteen (15) business days or as promptly as possible. Don't hesitate to contact me with any questions regarding this request.

Thank you,

Eric Rowell

Members of HEOSC:

Attached please find the report and other information of the Municipal Education Advisory Committee, the study committee formed by CMS, as requested. I have also attached a document entitled "CMS teachers' testimony pdf.pdf" that the Town received. It is addressed to the Town of Cornelius, but was also submitted for consideration by the HEOSC.

Thanks.

Angie

Town of Huntersville
NORTH CAROLINA

October 5, 2018 World Teachers' Day

To: Mayor Woody Washam

From: Twelve CMS Middle School Teachers

This testimony reflects twelve CMS Middle School Teachers. It explains why Cornelius and the community should be working to support and improve CMS and not weaken or undermine CMS via charter expansion.

As teachers, some of us national as well as state certified, have seen these issues for many years:

Charter Schools are not held to the same standards as the public schools and because of this they are not required to follow all of the same rules that we have to follow:

- Not all charter school students have to take End of Grade and End of Course tests and final exams
- Not all charter schools require teachers to be state certified
- Exceptional Children (special ed.) services are not equal or required at the same level of support
- Not all charter schools follow the NC academic curriculum and standards thus creating a major problem for students who go back and forth between the public and charter schools. Basically, these students are not getting the same material. For example, a student that goes from one CMS school to another can walk into a class and can feel comfortable that the material they will be presented is nearly identical to the place in the curriculum from the CMS school from which they transferred. This advantage generates far less burden on the student.

Funding for public schools is decided within the first month of school, and that is based on our number of students. Parents will typically enroll their student in a charter school and then decide between Thanksgiving and Xmas that the charter school is not working out, but more often the charter school declines to continue to accept their enrollment, because these students are highly challenging cases and the charter school is unable to meet their educational needs.

Since charter schools are not required to educate all students regardless of the disability or discipline issues, these students return mid-year to the public school. Two unfortunate things happen:

1) CMS will not receive money for the student(s) and when there are multiple enrollments -- and our experience is “there always are multiple charter students at mid-year” --that lost dollar amount is substantial.

2) Though CMS did not receive the money for each of these students, we are still required to accept them into already full classrooms, therefore, creating even larger classes than is reasonable.

As challenging as these points sound, it is important to emphasize that many of these EC (special ed.) students come with a 504 plan or an IEP, meaning they require a special level of supervision (i.e. medical supports and separate testing locations). This increases the financial burden on the CMS school.

Also problematic is the fact that these transferred charter students are behind academically, and this is especially evident in math class. Each of the math teachers participating in this summary has yet to have a student from a charter school who was ahead of, or even working at, the same level as CMS.

Teachers in other disciplines have reported that charter students frequently arrive at CMS instructed in different topics. For example, 8th grade CMS students are on US History, but the transferred charter student is coming from having just studied World History.

By standards, charter students generally express the greatest disparity in academic excellence.

This obviously puts an added burden on the charter student, as well as the CMS classmates and teacher.

A side issue worth considering: Many charters do not offer similar opportunities, whether it be athletic programs with gyms or libraries. Tragically, some charter schools do not offer free breakfasts like CMS provides their students, nor do some charters offer free and reduced lunch.

Increasing the number of charter schools will potentially exacerbate the clear divide that we already experience in our community: the more affluent students separated from those in less financially secure households.

Charlotte-Mecklenburg Schools

Every Child. Every Day. For a Better Tomorrow.

Municipal Concerns Act Article III Report

November 7, 2018

Municipal Concerns Act, Article III

Section 1 – Identification of areas of overcrowding and overcrowding relief

Section 2 – Reinforcement of preference for municipal assignment zones

Section 3 – Identification of capital construction partnerships with municipalities in Mecklenburg County

Section 1 – Overcrowding and Overcrowding Relief

What is school capacity?

Multiple lenses through which to assess capacity. Each is valid, though no single one alone is sufficient

- NC Department of Public Instruction provides guidance
- CMS allocates teachers and resources aligned to student needs (e.g., student weighted staffing), school-specific programming (e.g., magnet and CTE programs) and other factors which also inform how a facility is used
- Building codes offer an additional lens

Section 1 – Overcrowding and Overcrowding Relief

- Classroom utilization
  - comparison of the number of classroom teachers to classrooms in the core facility (with and without learning cottages)

- Student enrollment
  - comparison of actual enrollment to design baseline
  - design baseline enrollment is based on an average number of students per classroom and is used during facility design
  - the design baseline does not indicate preferences for class size

- Common area utilization
  - among common areas, the cafeteria is the one most commonly utilized by each student daily
  - square footage per student in the cafeteria dining area compared to NC DPI guideline (12 ft^2/student, 3 lunch periods/day)

Section 1 – Overcrowding and Overcrowding Relief

Utilization analysis excludes the following schools:

Early and Middle Colleges

- Charlotte Engineering Early College
- Charlotte Teachers Early College
- Cato Middle College
- Harper Middle College
- Merancas Middle College
- Levine Middle College

Specialty Programs

- Charlotte-Mecklenburg Virtual High School
- Turning Point Academy

Section 1 – Overcrowding and Overcrowding Relief

Sample Schools	Number of Classroom Teachers	Number of Classrooms (mobiles not included)	Number of Classrooms (mobiles included)	Ratio Teachers to Classrooms (mobiles not included)	Ratio of Teachers to Classrooms (mobiles included)	2018-19 20th Day Enrollment	Ratio Enrollment to Design Baseline	Square Footage per Student (Cafeteria)	Delta Cafeteria Square Footage/Student to DPI Guidance (12 ft²/student)

Crestdale MS	45	53	53	0.85	0.85	898	0.85	13.77	1.77
Bain ES	48	39	59	1.23	0.81	940	1.21	18.88	6.88

Section 1 – Overcrowding and Overcrowding Relief

Charlotte (141 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	51	33	14	70	24	60	64	20
K-8 and Middle	24	12	17	19	18	18	28	8
High	16	5	15	6	12	9	11	10

Section 1 – Overcrowding and Overcrowding Relief

Cornelius (4 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	1	1	1	1	1	1	1	1
K-8 and Middle	1	0	1	0	1	0	0	1
High	1	0	1	0	1	0	0	1

Cornelius – Considerations for Relief

Sample school: Hough High School

- Approximately 47% of Hough's students reside in Cornelius. An additional 17% reside in Davidson; there is not currently a CMS high school located in Davidson.
- Assess ability to assign approximately 750 Huntersville students to Huntersville high schools, either Hopewell and North Mecklenburg.
- Given current utilization at Hopewell and North Mecklenburg, assigning additional students to either would require reassigning a portion of their current students to other CMS high schools.
- Recall, a 2018-19 assignment change saw a portion of Hough's Huntersville population assigned to Hopewell; 11th and 12th graders were grandfathered.

Section 1 – Overcrowding and Overcrowding Relief

Davidson (1 school)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	1	0	0	1	1	0	1	0
K-8 and Middle	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
High	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Section 1 – Overcrowding and Overcrowding Relief

Huntersville (11 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	4	3	0	7	3	4	7	0
K-8 and Middle	1	1	1	1	1	1	2	0
High	1	1	1	1	1	1	1	1

Huntersville – Considerations for Relief

Sample Schools: North Mecklenburg High School, Hopewell High School

- Approximately 10% of North Mecklenburg's students reside in Huntersville; at Hopewell, it's 41%

- A large portion, approximately 45%, of North Mecklenburg's enrollment are students taking advantage of the International Baccalaureate, World Language and Career & Technical Education magnet programs. Eliminating the programs could provide relief, but significantly reduce access to choice programs in the north.

- Assess the capacity of Hopewell and North Mecklenburg high schools against the number of high school students residing in Huntersville

Section 1 – Overcrowding and Overcrowding Relief

Matthews (5 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	2	1	2	1	2	1	1	2
K-8 and Middle	0	1	0	1	1	0	1	0
High	1	0	1	0	1	0	0	1

Matthews – Considerations for Relief

Sample School: Elizabeth Lane Elementary

- Approximately 26% of current students reside in Matthews; assess ability to assign a portion of Charlotte students to surrounding elementary schools
- Consider surrounding elementary schools: Greenway Park is slightly underutilized while Olde Providence and Providence Spring are over-utilized
- Recall, a 2017 bond project will increase the number of classrooms at Lansdowne Elementary and provide relief to Elizabeth Lane
- Consider Matthews Elementary (94% of students reside in Matthews and the school is over-utilized based on 3 of 4 metrics) and Crown Point Elementary (92% of students reside in Matthews and the school is underutilized)
- Middle and high school continuation is a factor. For example, Elizabeth Lane continues to Providence HS (located in Charlotte) while Matthews and Crown Point continue to Butler HS (located in Matthews)

Section 1 – Overcrowding and Overcrowding Relief

Mint Hill (4 schools)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	2	0	0	2	1	1	1	1
K-8 and Middle	1	0	1	0	1	0	1	0
High	0	1	0	1	0	1	0	1

Mint Hill – Considerations for Relief

Sample School: Rocky River High School

- No students residing in Mint Hill are assigned to Rocky River as their home high school; instead, high school students residing in Mint Hill are primarily assigned to Independence High School
- Rocky River, based on three of four metrics used to assess utilization, is under-utilized.
- With limited changes for students currently attending Rocky River, the school could accommodate all high school aged students currently residing in Mint Hill

Section 1 – Overcrowding and Overcrowding Relief

Pineville (1 school)

	Ratio of Teachers to Classrooms				Design Baseline		Square Footage per Student (Cafeteria)	
	# schools with more teachers than classrooms (excluding mobiles)	# schools with fewer teachers than classrooms (excluding mobiles)	# schools with more teachers than classrooms (including mobiles)	# schools with fewer teachers than classrooms (including mobiles)	# schools enrollment > design baseline	# schools enrollment < design baseline	# schools with more square feet per student than DPI guidance	# schools with fewer square feet per student than DPI guidance
Elementary	1	0	0	1	0	1	1	0
K-8 and Middle	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
High	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Section 2 – Municipal Assignment / Attendance Areas

Board Policy JCA and associated exhibits JCA-E and JCA-E2 govern CMS' approach to developing school attendance boundaries and feeder patterns.

Among other things, the policy and associated exhibits direct staff to consider the following when developing school attendance boundaries:

- average home to school distance
- keeping entire elementary schools intact as part of middle and high school feeder patterns
- socioeconomic diversity of the student population
- utilization of the school compared to building capacity
- keeping entire neighborhoods assigned to the same school
- projections for population growth and demographic shifts

Section 2 – Municipal Assignment / Attendance Areas

CMS 2018-19 20th Day Enrollment: 147,352

Student Enrollment by Municipality

Municipality	Total Number of Schools*	Total CMS Students Residing** in the Municipality		Total CMS Students Attending a CMS School Located** in the Municipality

A. Bond Projects

   i. remaining projects on 2013 bond list with anticipated delivery dates

   ii. 2017 bond list with anticipated delivery dates

Appendix C – Remaining 2013 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Davidson K-8 Conversion	Addition/ Renovation	This project includes a new 20 classroom building for conversion to K-8	**Aug-19**
Selwyn Elementary	Renovation	This project includes renovation of the original 16-classroom building currently in use.	**Aug-19**
Pre K-8 Phase II (Ashley Park)	Addition/ Renovations	This project includes a cafeteria expansion; new gymnasium; technology, arts, and/or exploratory classrooms.	**Aug-19**
Pre K-8 Phase II (Druid Hills)	Addition/ Renovations	This project includes a gymnasium, technology, arts, and/or exploratory classrooms.	**Aug-19**

Appendix C – Remaining 2013 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Career/Tech Ed. Upgrades (Garinger HS)	Modification	This project includes CTE modifications for culinary arts and a greenhouse.	**Jan-19**
Career/Tech Ed. Upgrades (West Mecklenburg HS)	Modification	This project includes CTE modifications for culinary and carpentry.	**Jan-19**
Career/Tech Ed. Upgrades (Independence HS)	Modification	This project includes CTE modifications for automotive and carpentry.	**Jan-19**
Career/Tech Ed. Upgrades (North Mecklenburg HS)	Modification	This CTE project includes a new automotive building.	**Aug-19**
New STEAM K8 (Rea Farms)	New School	New 54-classroom K-8 facility to provide relief for Ballantyne, Elon, Hawk Ridge, Polo Ridge, Community House and J.M. Robinson.	**Aug-20**

Appendix C – 2017 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Collinswood Language Academy	New School	New 63 classroom school; relieves crowding and replace old school built in 1959	**Aug-20**
New Elementary School	New School	New 45 classroom school; relieves overcrowding at Windsor Park, Winterfield, Idlewild	**Aug-23**
Harding HS	Renovation/Addition	Renovate/replace cafeteria and gym	**Jan-21**
New High School	New School	New 125 classroom school; relieves crowding at South Mecklenburg, Ardrey Kell, Myers Park, Olympic HS	**Aug-23**
Montclaire ES	New School	New 45 classroom replacement school; replaces school built in 1958	**Aug-20**
West Mecklenburg HS	Renovation/ Addition	Renovate/replace gym built in 1954	**Aug-21**
New Language Immersion	New School	New 63 classroom school; K-8 Language Immersion Magnet (South)	**Aug-21**
New Elementary School	New School	New 45 classroom school; relieves crowding at Bain, Lebanon Rd., Piney Grove	**Aug-22**
Sharon ES	Renovation/ Addition	Provide additional classroom capacity needed for anticipated growth	**Aug-21**
E.E. Waddell	Renovation	Renovate current E.E. Waddell	**Aug-22**
New Elementary School	New School	New 45 classroom school; relieves overcrowding at Hidden Valley, J.W. Grier, Newell	**Aug-23**

Appendix C – 2017 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
West Charlotte HS	New School	New 125 classroom school; to replace current facility built in 1954	**Aug-22**
Shamrock Gardens ES	New School	New 45 classroom school; replace old facility built in 1954	**Jan-23**
Briarwood ES	New School	New 45 classroom school; replaces old facility built in 1956	**Aug-21**
South Mecklenburg HS	Renovation/ Addition	Renovate/replace two classroom buildings built in 1958 to upgrade learning conditions	**Jan-25**
New Language Immersion School	New School	New 63 classroom school; K-8 Immersion Magnet (North)	**Aug-21**
Specialty EC Program	New School	New facility for CMS Exceptional Children specialty program	**Aug-19**
New High School	New School	New 125 classroom school; relieves crowding at Olympic HS	**Aug-22**
New Elementary School	New School	New 45 classroom school; relieves crowding at Elon Park, Hawk Ridge, Polo Ridge ES	**Aug-23**
John Taylor Williams	Renovation	Create new Montessori HS magnet on J.T. Williams site	**Aug-24**
Career/Tech Ed. Upgrades	Renovation	Phase I upgrades at Olympic, Harding, Garinger and South Mecklenburg	**Jan-23**
Lansdowne ES	New School	New 45 classroom school; replaces old school built in 1959 and relieve crowding at Elizabeth Lane ES	**Aug-21**

Appendix C – 2017 Bond Projects

Project Purpose	Project	Project Scope	Anticipated Opening Date
Northwest School of the Arts	Renovation/ Addition	Replace classroom building built in 1952 and build classroom addition that support program	**Aug-24**
East Mecklenburg HS	Renovation/ Addition	Renovate/replace 3 classroom buildings built in 1949 to upgrade facility conditions	**Aug-22**
New Elementary School	New School	New 45 classroom school; relieves crowding at Nations Ford, Sterling and Steele Creek ES	**Aug-21**
Mountain Island Lake Academy	Renovation/ Addition	K-8 Phase 2 – New gym and specialty classrooms	**Aug-23**
Garinger HS	Renovation/ Addition	Add new classrooms and replace older areas of school	**Jan-23**
Lincoln Heights ES	Renovation	Renovate and reopen as magnet school	**Aug-19**
Bruns Academy	New School	New 45 classroom elementary school (K-5); replaces old school built in 1969	**Aug-24**

Subject : Invitation to CMS

Regarding our meeting with someone from CMS it occurred to me we are asking the wrong people to attend. As I see it our goal is to understand CMS's position as relates to facility planing for Huntersville and the remainder of North Mecklenburg. The reason for the very formation of this committee was the fact that CMS did not provide a single "neighborhood" seat in the last bond campaign. This was done without any conversations with the towns or planning staffs. The Board of County Commissioners (BOCC) and the Board of Education (BOE) met, if my memory is correct, three times over a nearly two year period to discuss in detail the bond proposal. The BOCC in fact delayed placing a bond on the ballot in 2016 since CMS was discussing what their student assignment philosophy would be and until that was somewhat codified the BOCC wanted to wait. That said, there was a list of schools prioritized by CMS using whatever matrix etc. they employed. At every occasion I commented that I would NOT support the list since there wasn't any capacity for the north and that there was millions slated for magnet schools that no one could define the rational nor prioritize how the schools would accept students, who would go there and the rational for where they would be built

At our final joint meeting where the list was presented I confirmed I would not support when it came to us on our agenda and there was NO attempt to compromise or make accommodation for my concerns. AFTER that meeting according due to pressure from a member of the BOCC, West Charlotte and another elementary school that I can't recall the name, was moved up onto the bond package LEAP-FROGGING North Meck and Huntersville Elementary. The BOCC was then presented with the new list for our official vote and I was the lone NO.

So it is my belief that the nature of having CMS come to speak to us is to offer an opportunity to explain why/how the original list (that was used for two years) was developed, why it was changed with NO debate after the final joint meeting, and why the BOE then felt it was prudent to adopt as policy a framework to ignore our area going forward.

That said, Dr. Wilcox wasn't the superintendent during the meetings surrounding the bond project list (he did attend as a spectator I believe for he final joint meeting) and to the best of my memory Rhonda Cheek wasn't at any of the joint meetings where the list was discussed. With that in mind it isn't really fair nor prudent to have them speak to why the actions were taken in as much as they weren't there It is my understanding from the press Rhonda has stated she had no knowledge about the new "policy" yet Charles Jeter has stated she did. I will defer to Rhonda's version but that means she has no standing as to the rationale used for the policy. Therefore I believe the person who should be asked to speak to the actions taken is the board chair, Mary McCray. She can also speak to her vision going forward. Dr. Wilcox and Rhonda should be invited to attend if they wish.

Good evening, HEOSC members

First of all, the Town is very thankful for your dedication, hard work, and commitment on the Huntersville Education Options Study Commission. We are continuing our evaluation process, which includes a Town Hall meeting June 24 at 7 pm at Town Hall. The Town plans to host a Q and A session, not necessarily formal presentation and invite the you and the community to attend.

Finally, as your service on the HEOSC has completed, we wanted to let you know that your Town email accounts will be deactivated in one week, on Tuesday, June 25.

If you have any questions, you are welcome to reach out to me or the Town Manager Anthony Roberts (copied on this email).

Thank you again for all you have done and continue to do to support the Town of Huntersville.

Jackie Huffman

Hello Eric and Karen,

I'm a reporter with WSOC – and cover education in our area. I was not able to be at the Huntersville Educational Options Study Commission sub-committee meeting last night, but understand you spoke about the option of developing a stand-alone charter school.

Did anything concrete come out of the meeting? Any conclusions? Just want to make sure we stay up to date!

Thank you!

Subject : March 11 Meeting

CMS folks have their board meeting the night after our March 11 meeting, so we would like to try to get them out a little early. Please let me know by **Tuesday, March 5 at noon** if you would be able to make the March 11 meeting at **5:30 p.m.** instead of 6:30 p.m.

Thanks!
Janet

Subject : March 11 Meeting
Attachment : 031119HEOSCSpecialMeeting.pdf;

Since the March 11 meeting is going to start at 5:30 p.m. (not at the regular time of 6:30 p.m.), there are certain procedures of the open meetings law that we have to follow.

I have attached a Call for a Special Meeting for HEOSC for March 11 at 5:30 p.m. signed by Chair Bentley. According to procedures, since the time is different than the regular schedule, the chair must sign a call for a special meeting noting the date, time, location and purpose of the meeting. That signed call must then be delivered to all members of the commission (which is the reason for this e-mail). A notice of the special meeting is then posted on our bulletin board and website, and emailed to anyone that has requested to receive notice.

If you have any questions, please let me know.

Thanks,
Janet

CALL FOR SPECIAL MEETING

I, Karen Bentley, Chair of the Huntersville Educational Options Study Commission, do hereby call a special meeting of the Commission for Monday, March 11, 2019 at 5:30 p.m. at Huntersville Town Hall, 101 Huntersville-Concord Road. The purpose of this meeting is to discuss partnering with Charlotte-Mecklenburg Schools.

Karen Bentley

Karen Bentley, Chair

Date : 5/4/2019 6:52:40 AM
From : "Eric Rowell" erowell@huntersville.org
To : "Karen Bentley" kbentley@huntersville.org
Subject : May 6 meeting

Karen,

We're supposed to have our final meeting prior to presentation to the board this Monday, right? Or am I getting my dates wrong and our final meeting is set for May 13? There's a town board meeting May 6 so we obviously can't use town hall to meet.

Thanks,

Eric

Subject : MEAC Meeting Dec. 4th at 11:00am

Members of the Huntersville Educational Options Study Committee,

On behalf of Elyse Dashew, Rhonda Cheek and Ericka Ellis Stewart (CMS Members of the Municipal Education Advisory Committee - MEAC), I would like to invite you to be our guest for the inaugural MEAC Meeting.

The meeting will be held on Dec. 4th from 11:00am – 2:00pm at the Char-Meck Govt Center in Room 267. This meeting will focus on providing baseline data from outside experts on population growth and taxes as well as an overview of CMS capital spending.

We hope to see you all in two weeks.

Sincerely,
Charles Jeter

Subject : Must read

The link below is one of the best 5 minutes you will spend regarding the CMS claims of how charter schools etc. are damaging. I can tell you from over a decade of experience this is DEAD ON. CMS repeatedly makes emotional arguments for why choice is bad for them except when THEY provide choice then all arguments are off the table.

Copied and pasted from the Dept of Revenue's website that is the basis of distribution for sales tax receipts in FY 2019. This spreadsheet is calculating a percentage of population and property taxes. The property tax column is impacted by the rates of each local unit. This table is not about calculating what percentage of the County population is in Huntersville. It's about determining a percent share distribution for sales tax revenue. This data would indicate Huntersville makes up 5.5% (59,494/1,074,596) of the County's population; but 2.84% per share of distribution – giving each local unit a proportionate share of revenue based on their number of residents.

In case you are looking for this data, per the assessor's office, the estimated total county tax value for FY 2019 is: $129,895,099,659. Huntersville's estimated assessed value in FY 2019 is: $7,144,155,812; therefore, Huntersville is 5.5% of the total County tax value. The most recent estimate after the revaluation indicates Huntersville will be 5.1% of the total county valuation.

Please let me know how I can be helpful.

Subject : New Education Opinion - Silver v. Halifax Cty. Bd. of Commissioners

All,

A recent NC Supreme Court that may be of interest to this group. The Court was deciding whether a local board of county commissioners may be held legally responsible for providing a sound basic education for students in the county; this was before the Court on appeal from a trial court's grant of defendant's Rule 12(b)(6) motion to dismiss.

The Court ruled in this case a county board of commissioners is not obliged, separate from the state, to provide children the opportunity to receive a sound basic education.

The case has a lot of good background on many issues that we discussed at our last meeting and I thought it may be of interest to the committee members.

Subject : October 1st Steering Committee Orientation Meeting

Dear Steering Committee Members –
Please pardon the delay in trying to set up our first meeting. We have several members with scheduling conflicts for all of the dates suggested, but we need to move forward.

The first Steering Committee meeting, held for orientation purposes, will be on:

Tuesday, October 1st
6:00 – 8:00 PM
Huntersville Town Hall

- 101 Huntersville-Concord Rd. (Intersection of Gilead and Old Statesville Rd.)
- Parking is available at Town Hall or in the Town Center parking garage
- All Steering Committee meetings will be advertised as public meetings with proper advance notice

For those unable to attend, staff will provide meeting materials for you to review.

Prior to October 1st, you may want to review the current Huntersville 2030 Community Plan, found at https://www.huntersville.org/646/Huntersville-2030-Community-Plan. This plan will be the starting point for all of the update work that will be conducted.

Finally, for planning purposes, the first working meeting with the consultant team will likely be during October 29th and 30th. Please check your schedules and be prepared to discuss when and where that meeting should be held.

If you have any questions, please let me know.

Thanks for your time,
Dave

Subject : Option 2 meeting minutes
Attachment : 2019-03-14 meeting minutes.docx;

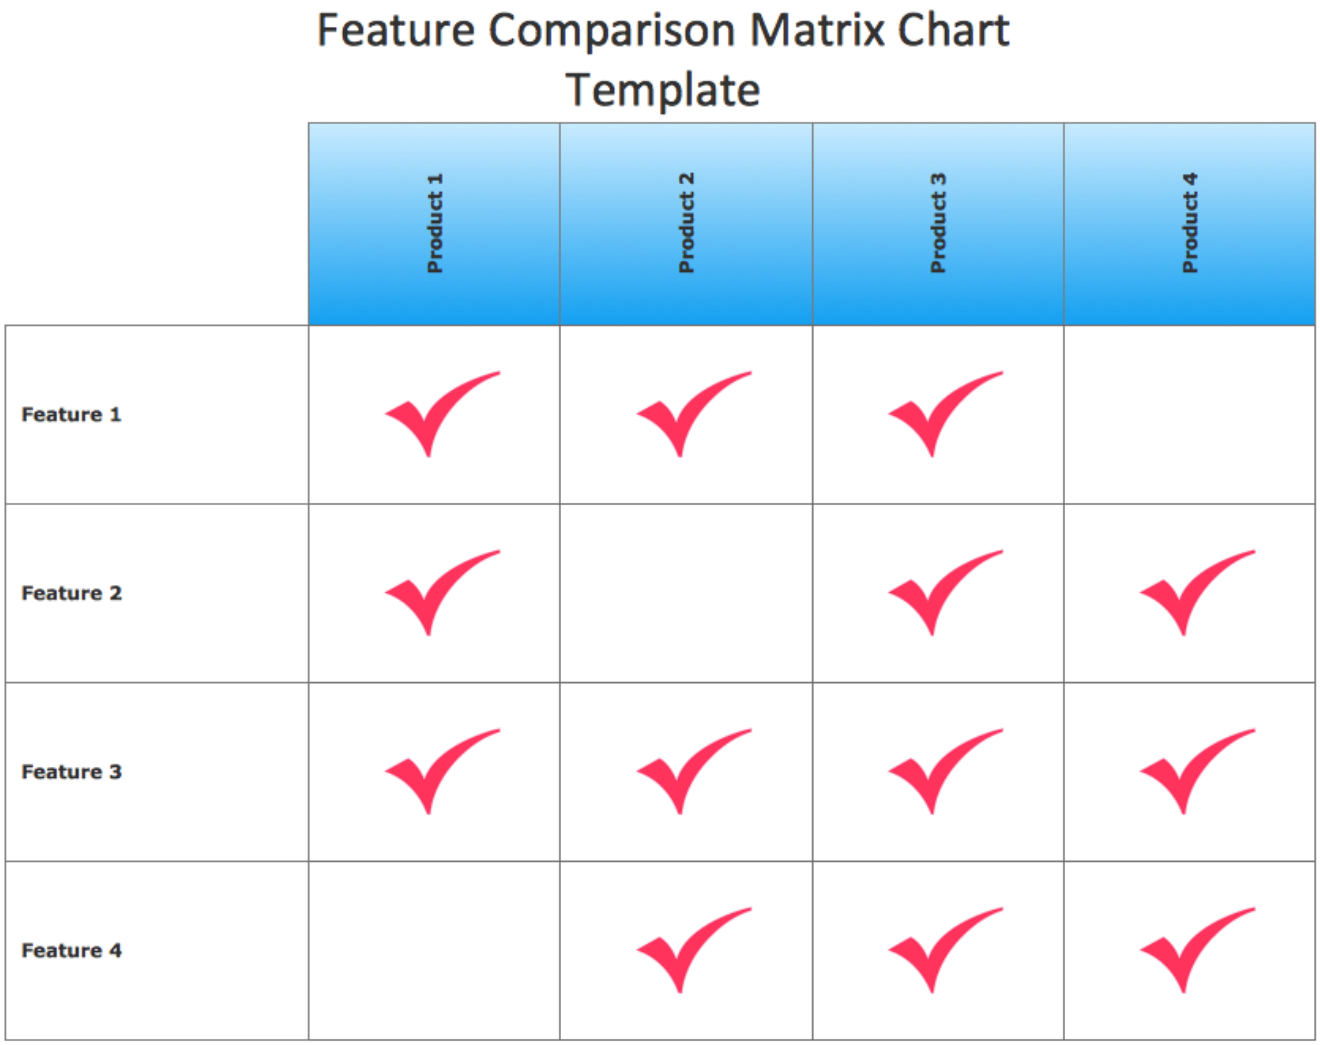
Madame Chair,

Please see attached draft minutes and Option 2 SWOT outline. Let me know if you have any questions in case any of my shorthand doesn't make sense.

One possible option to rate/compare each option for prioritization could be a comparison matrix (see example image below). This might make sense if we find multiple overlapping points for each option, might provide the town board with a helpful visual.

Thanks,

Eric Rowell



- March 14, 2019 Option 2 Subcommittee Meeting

- 12:00pm – 1:10pm / Steele Creek Library Branch – Charlotte, NC
- Eric Rowell, Derek Partee, Bill Farber present
- No members of the public attended

- Agenda:
1.A. – Discuss pros/cons of Option 2: Establishing a municipal sponsored charter school by partnering with a new or existing charter school.

- Minutes: Subcommittee members discussed the various pros/cons associated with Option 2, and considered what additional information/questions the subcommittee members would need/have in order to conclude their due diligence in studying this option.

- SWOT outline [**DRAFT** – subject to revision]

1. STRENGTHS
- ability to weight admission in favor of Huntersville residents
- more space/sq. footage available for schools equates to better security/safety for students by moving students out of trailers and into enclosed buildings
- greater parental choice, greater educational options in North Mecklenburg
- overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
- greater flexibility with curriculum and addressing concerns of parents than with CMS
- fixed, upfront costs only instead of the possibility of ongoing/annual contributions from the general fund for a town-run municipal charter school
    - potential better rates for bonds/loans than a new non-municipal backed charter
- independent, separate charter board – not run/influenced directly by the town board and vagaries of town board politics

2. WEAKNESSES
- potential zoning issues based on unknown location of potential school
- difficulty in deciding where to start – which grade level?
- how to address possibility of starting a municipal charter school weighted in favor of Huntersville students and then having a large number of Huntersville students possibly not being admitted
- safety issues – a new charter school unlikely to have a building large enough at the outset to avoid housing some students in trailers
- capital funding and land acquisition – still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land
- taxes – uncertainty over future costs a concern for residents, concerns over paying for two "districts" even if you have no children attending CMS or town charter school
- cost of upfitting/retrofitting existing building for a charter school (cost would be mitigated by use of warehouse-style space)

3. OPPORTUNITIES
- municipal charter school has never been done in NC, opportunity to demonstrate a new model for education statewide

- cost savings for new construction – ability to build school buildings more efficiently/less expensive than CMS schools
- ability to determine best makeup of the charter school board – elected board members, appointed board members, some hybrid model, etc.
- large pool of diverse potential charter board members in Huntersville from various educational, workforce backgrounds
- ALSO, large pool of diverse charter schools – new or existing – to potentially partner with, not limited to existing charter schools locally (LKN Charter, Pine Lake Prep, CSD, etc.)

4. THREATS
- uncertain/unknown demand – possibility of student applications less than anticipated, risk of "new" school stigma causing parents to avoid sending their child for the first few years
- political instability – locally and in Raleigh
- potential lawsuits – who would bear the costs?
- CMS – unlikely to cease opposition efforts to charters in general and municipal charter schools
- no actual vested interests yet – with no municipal charter school even in the application phase, easier to stop the effort before a municipal charter is open and accepting students
- potential for current charter school cap to be lowered/decreased
- timeline/length of charter school application process being altered/derailed by political instability, plus the length/in-depth nature of the application process itself – NC charter board may scrutinize the first municipal charter applications more heavily than non-municipal charters

5. QUESTIONS/ADDITIONAL INFORMATION
- as much information as possible regarding ability of town to acquire land for a charter school and capital funding options
- request opinion of town attorney related to: current and proposed relevant legislation; ability of town to buy land for a charter; ability of town to own a building housing a charter; ability of town to lease an existing town-owned building for a charter
- what are the other three (3) towns included in HB514 – Mint Hill, Cornelius, and Matthews – doing related to municipal charter schools
- potential for additional NCGA legislation if HEOSC identifies gaps/problems in current HB514 and related legislation, e.g., clearer funding options if a municipality opted to open a municipal charter school

Subject : Option 4 meeting minutes
Attachment : 2019-03-20 meeting minutes.docx;

Madame Chair,

Please see attached draft minutes and Option 4 SWOT outline. Let me know if you have any questions in case any of my shorthand doesn't make sense.

Thanks,

Eric Rowell

- March 20, 2019 Option 4 Subcommittee Meeting

- 11:13am – 12:07pm / Town Hall – Huntersville
- Eric Rowell, Mike Sass, Jim Puckett present
- No members of the public attended (one media cameraman attended)

- Agenda:
1.A. – Discuss pros/cons of Option 4: The feasibility of dividing the Charlotte-Mecklenburg LEA into smaller LEA's.

- Minutes: Subcommittee members discussed the various pros/cons associated with Option 4, and considered what additional information/questions the subcommittee members would need/have in order to conclude their due diligence in studying this option.

- SWOT outline [**DRAFT** – subject to revision]

1. STRENGTHS
- more actual (not just perceived) local control of education
- more input for all stakeholders (parents, teachers, and staff)
- studies and testimony presented support smaller districts as more efficient, while a possible North Mecklenburg LEA could still be large enough to take advantage of economies of scale
- any change that results in a reduction in current overcrowding is a strength
- easier access to school leadership
- more accountability of school leadership/teachers
- more permanent nature of a smaller LEA as opposed to just a single municipal charter, a smaller LEA would be a better long-term solution
- cost – likely far less expensive and more cost-effective to operate than CMS
- property tax dollars used for education would stay local and benefit local students
- maximize money spent on education/learning instead of on education bureaucracy
- greater parental choice, greater educational options in North Mecklenburg
- overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
- greater flexibility with curriculum and addressing concerns of parents than with CMS

2. WEAKNESSES
- even at 30-35K students, still far above the national average school district size
- cost – (both strength and weakness) far higher than a single municipal charter, but likely still more cost-efficient than CMS
- commercial tax base less without contributions from commercial property in Charlotte, potential greater burden on North Mecklenburg homeowners
- uncertainty over costs/taxes/curriculum, etc. resulting in more difficulty in making the case to the public and elected officials to pursue this option
- "regional" approach to education does not currently include Davidson
- potential zoning issues based on multi-jurisdiction district
- capital funding and land acquisition – still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land

3. OPPORTUNITIES
- convincing teachers of a better teaching environment in a smaller district
- political makeup of a new school board – more receptive/responsive to voters in North Mecklenburg
- ability to determine best makeup of the charter school board – elected board members, appointed board members, some hybrid model, etc.
- more/better focused growth and data projections, working closer with town planning staff on demographics/growth trends, etc.
- regional approach to education would benefit not just education, also all planning efforts
- start the dialogue statewide over what the right size of a school district in NC should be
- continue the work of earlier legislative study committees on school district size even if this option not pursued by the town(s)
- help set the template for how this option could be replicated in other areas of the state with similar concerns
- cost savings for new construction – ability to build school buildings more efficiently/less expensive than CMS schools

4. THREATS
- any agreement to deconsolidate must come from the NCGA, which is unlikely at this time
- education policy continues to become more partisan, not less, so any large-scale solution is unlikely
- the sheer logistics/dynamics alone for such a change to the status quo – how to unwind CMS, what to do with CMS assets in North Mecklenburg, would a constitutional amendment be necessary, etc.?
- political instability – locally and in Raleigh
- potential lawsuits – who would bear the costs?
- CMS – unlikely to cease opposition efforts to a change to the status quo

5. QUESTIONS/ADDITIONAL INFORMATION
- how would the deconsolidation process take place?
- decision makers would need to f/u with prior participants in this debate, prior study committee contributors to see what the next study or legislation would look like
- what is the state of research currently on school district size and economic impact of LEA's? (Dr. Houck, et al, provided information to the legislative study committee over a year ago)
- what are the other three (3) towns included in HB514 – Mint Hill, Cornelius, and Matthews – doing related to new LEA's or deconsolidation
- potential for additional NCGA legislation if HEOSC identifies gaps/problems in current HB514 and related legislation, e.g., clearer funding options if a municipality opted to open a municipal charter school

---

- RECOMMENDATION TO BOARD IN THIS OPTION? - cont. to investigate option 4 – but currently better path is the municipal charter, which would confirm some assumptions and help us realize some of the unknowns as they currently stand – which would lead down path to new LEA

Subject : Political Sign
Attachment : senate bill 315.pdf;

Hi Eric,

I was able to go out at take a look at the signs. To the best of my knowledge they are all located in NCDOT right of way. I've attached a copy of Senate Bill 315. SB315 explains where signs may be located along the State highway system. Sub section (e) states that Unlawful removal of a sign is a Class 3 misdemeanor. The Towns Sign Ordinance was amended to reflect the Senate Bill. Town Staff will enforce its ordinance on Town maintained streets and will forward your concerns onto NCDOT for potential violations in state right of way.

Thank You,

Brian Richards

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2011

SESSION LAW 2011-408
SENATE BILL 315

AN ACT TO PERMIT CAMPAIGN SIGNS IN HIGHWAY RIGHTS-OF-WAY WITH REASONABLE TIME, PLACE, AND MANNER RESTRICTIONS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 136-32 reads as rewritten:

"**§ 136-32. ~~Other than official signs prohibited.~~Regulation of signs.**

(a) Commercial Signs. – No unauthorized person shall erect or maintain upon any highway any warning or direction sign, marker, signal or light or imitation of any official sign, marker, signal or light erected under the provisions of G.S. 136-30, except in cases of emergency. No person shall erect or maintain upon any highway any traffic or highway sign or signal bearing thereon any commercial ~~advertising:~~ or political advertising, except as provided in subsections (b) through (e) of this section: Provided, nothing in this section shall be construed to prohibit the erection or maintenance of signs, markers, or signals bearing thereon the name of an organization authorized to erect the same by the Department of Transportation or by any local authority referred to in G.S. 136-31. Any person who shall violate any of the provisions of this section shall be guilty of a Class 1 misdemeanor. The Department of Transportation may remove any signs erected without ~~authority.~~ authority or allowed to remain beyond the deadline established in subsection (b) of this section.

(b) Compliant Political Signs Permitted. – During the period beginning on the 30th day before the beginning date of "one-stop" early voting under G.S. 163-227.2 and ending on the 10th day after the primary or election day, persons may place political signs in the right-of-way of the State highway system as provided in this section. Signs must be placed in compliance with subsection (d) of this section and must be removed by the end of the period prescribed in this subsection.

(c) Definition. – For purposes of this section, "political sign" means any sign that advocates for political action. The term does not include a commercial sign.

(d) Sign Placement. – The permittee must obtain the permission of any property owner of a residence, business, or religious institution fronting the right-of-way where a sign would be erected. Signs must be placed in accordance with the following:

(1) No sign shall be permitted in the right-of-way of a fully controlled access highway.
(2) No sign shall be closer than three feet from the edge of the pavement of the road.
(3) No sign shall obscure motorist visibility at an intersection.
(4) No sign shall be higher than 42 inches above the edge of the pavement of the road.
(5) No sign shall be larger than 864 square inches.
(6) No sign shall obscure or replace another sign.

(e) Penalties for Unlawful Removal of Signs. – It is a Class 3 misdemeanor for a person to steal, deface, vandalize, or unlawfully remove a political sign that is lawfully placed under this section.

(f) Application Within Municipalities. – Pursuant to Article 8 of Chapter 160A of the General Statutes, a city may by ordinance prohibit or regulate the placement of political signs on rights-of-way of streets located within the corporate limits of a municipality and maintained by the municipality. In the absence of an ordinance prohibiting or regulating the placement of political signs on the rights-of-way of streets located within a municipality and maintained by the municipality, the provisions of subsections (b) through (e) of this section shall apply."

SECTION 2. This act becomes effective October 1, 2011, and applies to any primary or election held on or after that date.

In the General Assembly read three times and ratified this the 28th day of July, 2011.

Subject : Potential 10.10.09 violation

Mr. Roberts:

I would like to report potential sign violations that need to be investigated. One - at the top of Stephens Rd. and Beatties Ford Rd., a candidate sign that appears to be in violation of subsection c). And another on both the north and south sides of Bud Henderson Rd. where it meets Beatties Ford, there are clusters of candidate signs fronting property that they probably didn't get permission from in violation of subsection d).

I will continue to report any other possible violations I see around town.

Thank you,

Eric Rowell

Subject : potential financing option
Attachment : Municipal Charter School Financing Discussion Materials 5.7.19 (onepage....pdf;

Good afternoon HEOSC members,

Mayor Aneralla requested that we have the Town financial advisor and bond counsel offer what we hope is some clarity regarding potential funding options related to municipal charter schools. That effort resulted in the addition of this slide to your previous handout.

If you have questions, please let me or Anthony know.

Again, thank you for your service on this committee.

Regards,

Jackie Huffman
Assistant Town Manager
Town of Huntersville

Potential Alternative Financing Option – 5/7/19 UPDATE

- After further due diligence, the Town's Bond Counsel (Parker Poe), Davenport and Town staff have discussed a potential Alternative Financing Option that may be available, should the Town decide to assist in the debt financing of Charter School facilities. This approach would be subject to further legal review and discussion with the Local Government Commission.

- An overview of the potential legal structure of the financing (prepared by Bond Counsel) is outlined below:
  - Session Law 2018-5 (as amended by Session Law 2018-97) gives the Town the authority to appropriate certain funds for public education.
  - For schools in the Town, the Town may appropriate for capital and operating expenses. Appropriated funds may be used to enter into operational and financing leases for use as school property, but may not be used to obtain any other interest in real property (i.e. cannot be used to buy property outright).
  - If an entity were formed (like a nonprofit corporation) under state law to acquire and build a school facility, the Town/charter school could enter into a lease with the entity to use the facility for the charter school.
  - The entity formed to acquire and build the facility could presumably pursue financing for the acquisition and construction based on the strength of the lease with the Town/charter school (subject to the bank/capital markets and terms they might require to lend money on that basis).

- This financing approach through a "conduit borrower" like a nonprofit described above, while not typically used in North Carolina governmental financings, is not uncommon for governmental financings in other states and has been used to fund traditional Charter Schools in North Carolina and elsewhere.
  - For example, a similar financing structure (Lease Revenue Bonds) is commonly used in Virginia governmental financing. Under this structure, debt is issued by a separate entity (e.g. Industrial Development Authority) and the local governments enter into a Lease Arrangement with the separate entity with lease payments equal to the annual debt service. The local government's obligation to pay under the lease structure is subject to annual appropriation.
  - In addition to the lease, the lender / bondholder receives a Lease Hold interest in the collateral property for a term that typically extends beyond the stated final maturity of the debt instrument in order to provide an opportunity to recoup potential losses from a non-appropriation event.
  - The Lease Revenue Bond credit rating level is driven by the local government's credit quality and the value / essentiality of the lease-hold collateral.
  - This Lease Revenue Bond structure has been well received by both the Banks and the Capital Markets and is treated similar to a North Carolina Installment Financing approach from a credit perspective.

Municipal Advisor Disclosure

The enclosed information relates to an existing or potential municipal advisor engagement.

The U.S. Securities and Exchange Commission (the "SEC") has clarified that a broker, dealer or municipal securities dealer engaging in municipal advisory activities outside the scope of underwriting a particular issuance of municipal securities should be subject to municipal advisor registration. Davenport & Company LLC ("Davenport") has registered as a municipal advisor with the SEC. As a registered municipal advisor Davenport may provide advice to a municipal entity or obligated person. An obligated person is an entity other than a municipal entity, such as a not for profit corporation, that has commenced an application or negotiation with an entity to issue municipal securities on its behalf and for which it will provide support. If and when an issuer engages Davenport to provide financial advisory or consultant services with respect to the issuance of municipal securities, Davenport is obligated to evidence such a financial advisory relationship with a written agreement.

When acting as a registered municipal advisor Davenport is a fiduciary required by federal law to act in the best interest of a municipal entity without regard to its own financial or other interests. Davenport is not a fiduciary when it acts as a registered investment advisor, when advising an obligated person, or when acting as an underwriter, though it is required to deal fairly with such persons.

This material was prepared by public finance, or other non-research personnel of Davenport. This material was not produced by a research analyst, although it may refer to a Davenport research analyst or research report. Unless otherwise indicated, these views (if any) are the author's and may differ from those of the Davenport fixed income or research department or others in the firm. Davenport may perform or seek to perform financial advisory services for the issuers of the securities and instruments mentioned herein.

This material has been prepared for information purposes only and is not a solicitation of any offer to buy or sell any security/instrument or to participate in any trading strategy. Any such offer would be made only after a prospective participant had completed its own independent investigation of the securities, instruments or transactions and received all information it required to make its own investment decision, including, where applicable, a review of any offering circular or memorandum describing such security or instrument. That information would contain material information not contained herein and to which prospective participants are referred. This material is based on public information as of the specified date, and may be stale thereafter. We have no obligation to tell you when information herein may change. We make no representation or warranty with respect to the completeness of this material. Davenport has no obligation to continue to publish information on the securities/instruments mentioned herein. Recipients are required to comply with any legal or contractual restrictions on their purchase, holding, sale, exercise of rights or performance of obligations under any securities/instruments transaction.

The securities/instruments discussed in this material may not be suitable for all investors or issuers. Recipients should seek independent financial advice prior to making any investment decision based on this material. This material does not provide individually tailored investment advice or offer tax, regulatory, accounting or legal advice. Prior to entering into any proposed transaction, recipients should determine, in consultation with their own investment, legal, tax, regulatory and accounting advisors, the economic risks and merits, as well as the legal, tax, regulatory and accounting characteristics and consequences, of the transaction. You should consider this material as only a single factor in making an investment decision.

The value of and income from investments and the cost of borrowing may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions or companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance and estimates of future performance are based on assumptions that may not be realized. Actual events may differ from those assumed and changes to any assumptions may have a material impact on any projections or estimates. Other events not taken into account may occur and may significantly affect the projections or estimates. Certain assumptions may have been made for modeling purposes or to simplify the presentation and/or calculation of any projections or estimates, and Davenport does not represent that any such assumptions will reflect actual future events. Accordingly, there can be no assurance that estimated returns or projections will be realized or that actual returns or performance results will not materially differ from those estimated herein. This material may not be sold or redistributed without the prior written consent of Davenport.

Subject : preliminary PPT for discussion at tonight's HEOSC meeting
Attachment : HEOSC_Report for HEOSC 4-22.pptx;

Hello all,
Attached is the modified/updated PPT discussed last week at the Drafting sub-committee meeting. A huge shout out to Tricia Sisson for attending our meeting and also to her colleagues on the CEOSC for their work in pulling this format (and much of the background content) together - also for their willingness to let us piggyback on their great work.

We will use this slide deck as the basis for our SWOT discussion tonight.

Thanks,
Karen

HEOSC Report to Huntersville Town Board
May 20, 2019 - DRAFT

Huntersville Educational Options Study Commission

- Purpose
- Members
- Needs State
- Option Evaluations

Purpose of the HEOSC

On October 15, 2018, Huntersville Commissioners established the Huntersville Educational Options Study Commission.

The Commission was established to evaluate options available to the Town of Huntersville to reduce overcrowding within the public school system in Huntersville. Those options are:

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Dividing the Charlotte Mecklenburg LEA into smaller LEAs

Note: no adjustment made for current enrollment over/under planned enrollment in existing N. Meck Schools

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

- No pushback either legislatively or legally
- Appeases those satisfied with current school status
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - **1896 students by 2025**
  - **3327 students by 2030**
  - **5302 students by 2035**
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for Lake Norman schools
- Continued strain in the relationship between Lake Norman region and CMS
- No control over where CMS draws lines for student assignment. This can deter economic development/expansion over concerns about school capacity.

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Huntersville and CMS

Option 2: Partner with CMS

Current/Previous Partnering Agreements:

- 2003 Bailey Middle JUA
- 2004 Reallocation of Land Bond Dollars JUA for Hough
- 2005 Westmoreland Road Elementary(JV Washam) JUA
- 2015 Cornelius Elementary JUA

To Do:

- Add Huntersville's JUA's
- Add land already provided to CMS (between Hough and Bailey?

Option 2: Partner with CMS

Objective: Create a partnership between the Towns of Cornelius and Huntersville and CMS that promotes a quality and efficient educational experience for N. Meck students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.

CONS

- Possibility of no improvements in our area
- Long timeline to solutions or results.
- If a deal is reached, no guarantee that a newly elected board would continue to honor that deal
- Cornelius pays 4.3% of total property taxes and makes up 2.7% of the county population – add huntersville tax/pop

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

- Less divisive – public entities working together toward a common goal of positive educational outcomes
- Potential ability to influence rubric going forward

CONS (continued)

- Differing opinions and perspectives will still be present between N. Meck towns and CMS
- Potential loss of magnet school options under MEAC reassignment suggestion
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development.
- Perception of a lack of advocacy of N. Meck representation on CMS school board

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

CONS (continued)

- Continued lack of local control over education
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.
- Uncertainty of site selection and bond assignments based on current rubric and definitions of overcrowding
- Historically partnerships with CMS have proven to be less than beneficial for this area

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).
- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.
- Town of Huntersville can agree to opt out of HB 514 as requested by CMS.
- Any group of concerned citizens can follow the traditional charter school route outside of HB 514.
- Campaign to rally the court of public opinion.

Option 2: Partner with CMS

Potential Outcomes:

- Form a CMS advisory board with representation from Cornelius, Davidson and Huntersville. Consideration can also be given to creating a larger board with representation from Pineville and Matthews.

- Build relationship with the CMS school board to be a stronger advocate for the needs of our area.

- According to the Municipal Concerns Act Article III Report, a consideration for relief for Cornelius at the high school level would be to reassign 750 students to Huntersville schools. Based on a planned 2000 students at Hough, it is currently at 127% capacity. This relief would *temporarily* bring Hough to 90% capacity, leaving room for student population growth. This is only a short term solution as HS overcrowding is a real issue in 2025.

- Once current overcrowding is addressed, work with CMS to create a plan to build future buildings or improve current facilities.

Option 2: Partner with CMS

Next Steps:

- Set up meeting with representatives from CMS, including Superintendent Dr. Wilcox.
- Work with planning board to develop list of potential sites for new schools.
- Review past and current partnerships with CMS to define parameters of future partnerships with CMS.
- Work with CMS on redrawing boundaries and district lines to better accommodate LKN municipalities. Develop a plan to communicate changes to property owners.
- Explore options to expand current buildings at Bailey and Hough to accommodate more students without modulars. Possibilities may include more classrooms, expand cafeterias or add enclosed outdoor seating, and add a new building for eight and ninth grades between Bailey and Hough.

Option 3: Operate a stand-alone Municipal Charter School

- Using Current CMS North Mecklenburg boundaries

Background on House Bill 514

- Governance Structure
  - Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
  - NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties

- Municipal charters can prioritize enrollment to students in the municipality

- Employment requirements
  - Municipal charters can employ teachers provided
    - at least 50% hold teaching licenses
    - All teachers of core subjects (science, math, social studies, language arts) are college graduates

  - Municipal charters can employ/discharge others to perform non-teaching duties

  - Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

Sources: https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Operate a stand-alone Municipal Charter School

- Estimated Timing
  - 1 year approval process after application submitted
  - 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
  - Total timetable 2-4 years minimum to open school
  - Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School Huntersville Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Huntersville Operating Budget

MUNICIPAL CHARTER SCHOOL							Base
FYE 6/30							
ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	(1,220)	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need **$1MM+** to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Option 3: Operate a stand-along Municipal Charter School

PROS

- Promotes local control and increases parental choice
- Likely breakeven budgeting resulting in no new taxes
- Ensures town representation
- Prioritizes enrollment for town children
- Reduces bureaucracy, increases efficiency, and lowers administrative costs

CONS

- Potentially higher costs for service delivery elaborate
- Risk alienating local LEA
- Law may be changed/repealed to be less favorable; (e.g. charter cap)
- Legal challenges may occur
- Uncertainty over funding and perception of Double Taxation
  - Need to educate citizens on funding sources
- High initial liquidity needs
- Profitability impacted by rental expense before ramp up completed

Option 3: Operate a stand-along Municipal Charter School

PROS

- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Alleviates overcrowding issue
- Reinforces the concept of neighborhood school
- Large pool of diverse potential charter school board members in N. Mecklenburg from various educational/workforce backgrounds

CONS

Option 3: Operate a stand-alone Municipal Charter School

Sources of Leverage:

- Town bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Operate a stand-alone Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, becomes longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- Demonstrating best practices in options for alternatives in public education
- Could lead to increased ability to be an incubator for other charter school startups in the Lake Norman Region
- May strain relationship with local LEA

Option 3: Operate a stand-alone Municipal Charter School

Next Steps:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit citizen feedback

Option 4: Partner with an Existing Charter School

- Enter into a management agreement with an existing, established, local charter school to establish and maintain operations of an independent municipal-owned charter school

Option 4: Partner with an Existing Charter School

Partnering Criteria:

- Located in the North Mecklenburg area
- Local operations management (no outsourcing of primary business oversight)
- No less than 5-years of operations with consistent enrollment exhibiting high parental demand (i.e. wait lists that consistently exceed enrollment), and acceptable performance metrics (EOG Scores) demonstrating consistent educational success
- Acceptable learning curriculum
- Demonstrated positive operating cash flow for at least three of the most current years of operations
- Active and engaging instructional practices
- Must exhibit low/acceptable staff turnover, with Academic Director in place for at least 3-years, and instructors at or above state requirement of at least 50% teachers certified and licensed

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school

CONS

- Loss of total control over municipal sponsored Charter School
- May not receive interest from preferred partner schools

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 4: Partner with an Existing Charter School

Next Steps:

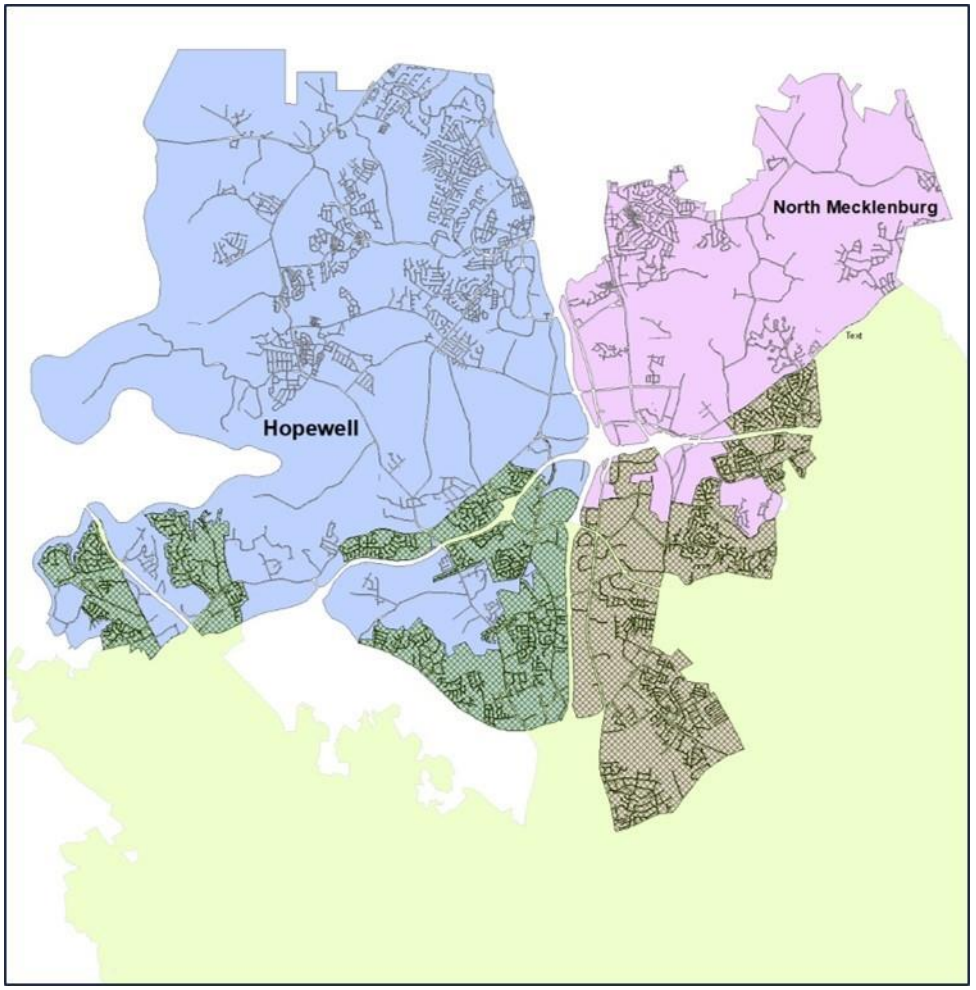
- Analyze sub-option of operating a charter satellite campus
- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Possibly partner with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit and review interest from local Charter School operators that meet or exceed the aforementioned requirements

Option 5: Dividing the Charlotte Mecklenburg LEA into smaller LEAs

- Using Current CMS North Mecklenburg boundaries

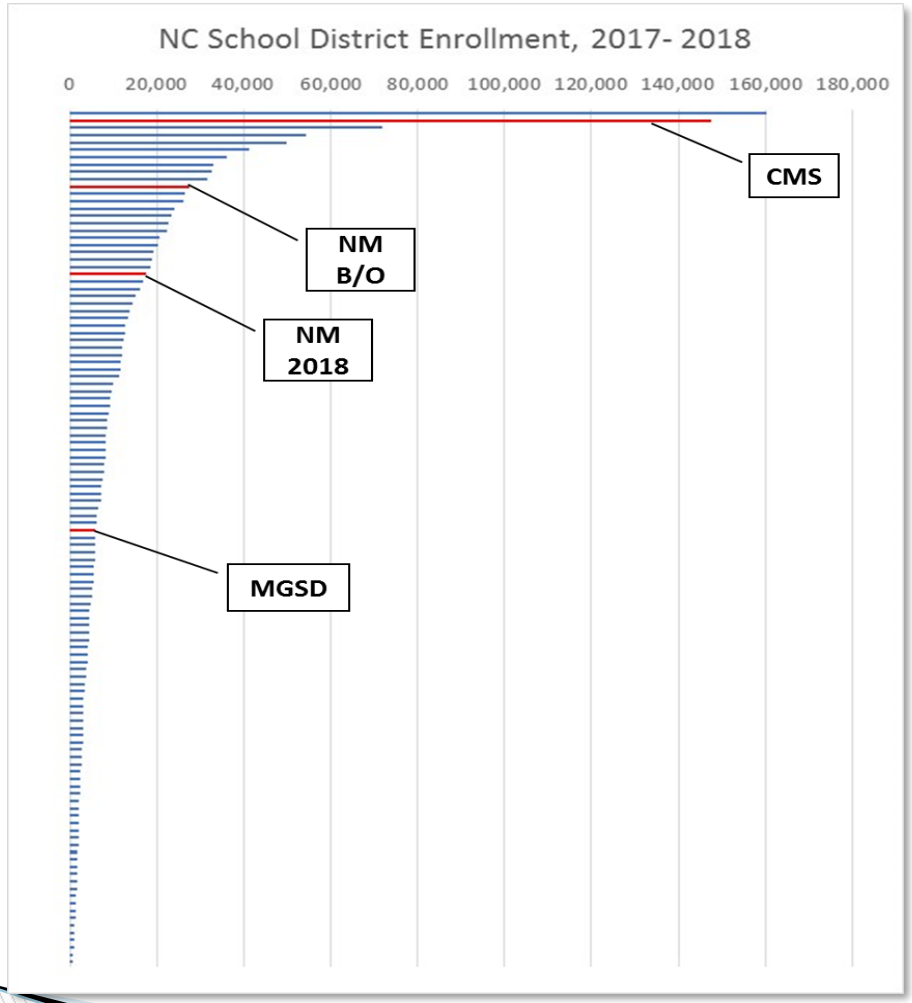
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

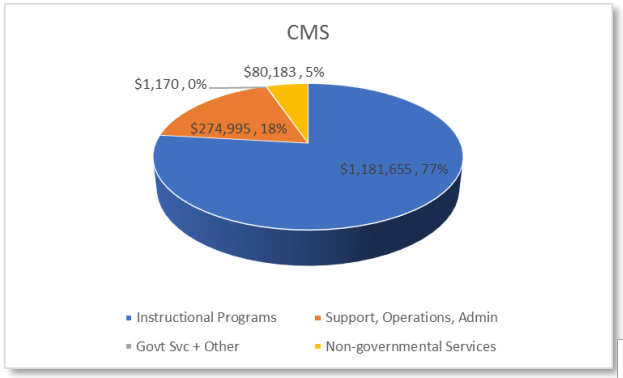
Comparison to Existing LEAs



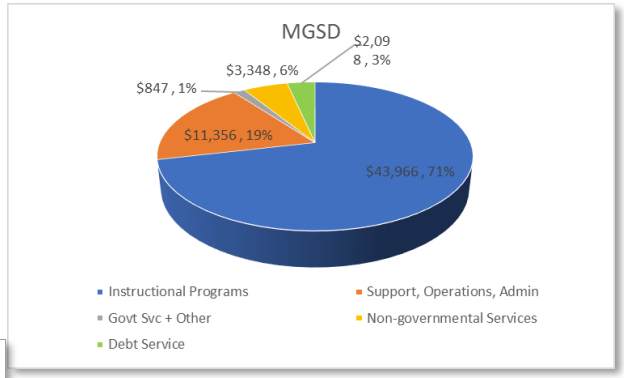
- **At current enrollment a North Meck LEA would be the 23rd largest school district in NC**
- **At buildout a North Meck LEA would be the 11th largest school district in NC**

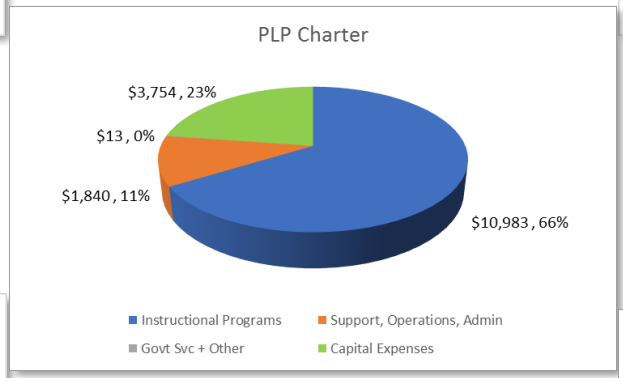
Source: "Size of Local School Districts", Joint Legislative Study

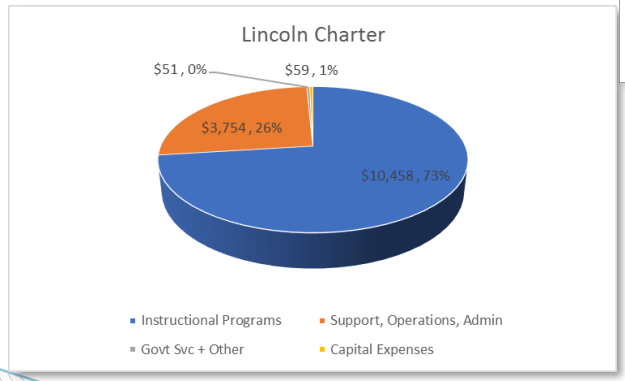
Various Cost Structures



Economies of scale not evident between MGSD & CMS







Operating strategies differ between charter schools

Cornelius Capital Needs Assessment – LEA Option

1. Adding in the over-utilization of the Cornelius schools does make a material difference in the school needs for Cornelius students
2. Cornelius school age children will need additional schools by 2035, likely 1 elementary, 1 middle and 1 high school

Huntersville Capital Needs Assessment – LEA Option

1. Adding in the over/under-utilization of the Huntersville schools does make a material difference in the school needs for Huntersville students
2. Huntersville school age children will need an additional elementary school by 2025, 3 elemtary schools, 1 middle school and 1 high school by 2035.

Option 5: New LEA

PROS

- Local control
  - Capital budget
  - Student assignment
  - Taxation
  - Board representation
- Fewer bureaucratic layers
- Tailored solutions
- Greater sense of community

CONS

- Politically difficult
- Potential loss of programming breadth

Option 5: New LEA

Sources of Leverage:

- Citizen involvement

Potential Outcomes:

- North Meck LEA
- LKN LEA

Next Steps:

- Determine legal process
- Perform revenue analysis
- Engage the community with round table meetings
  - Teachers
  - Parents
- Continue to study feasibility

Summary and Next Steps

Based on the projection of the current and future facilities needs of the Huntersville and North Mecklenburg student population, and feedback received during the April 29, 2019 Public Input meeting, the HEOSC will finalize their findings of the 5 Options available to the Town of Huntersville to address future educational needs.

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Create a New LEA

Final report date May 20, 2019

Appendix

Capital Needs Assessment Summary - Huntersville

1. Assessing Huntersville growth only, an elementary school will be needed by 2025, two elementary schools by 2030, and a middle school and high school by 2035.
2. Huntersville school age children will need ***23 additional classrooms by 2020***, and capacity will be constrained without significant re-assignment of Charlotte students out of Huntersville schools or the equivalent of a mid-sized Charter school in Huntersville.

	Avg School Capacity	2020	2025	2030	2035
Huntersville Population					
Elementary School	776	0.3	1.3	2.2	3.5
Middle School	1093	0.1	0.4	0.6	1.0
High School	2053	0.1	0.3	0.5	0.7

	Optimal School Size	2020	2025	2030	2035
Huntersville Population					
Elementary School	700	0.3	1.4	2.4	3.9
Middle School	1100	0.1	0.4	0.6	1.0
High School	1500	0.1	0.4	0.6	1.0

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Huntersville Population	65,780			78,860			91,939			110,000		
Elementary School	3,689	239	12	4,422	972	49	5,156	1,706	85	6,169	2,719	136
Middle School	1,487	96	5	1,783	392	20	2,079	688	34	2,487	1,096	55
High School	2,018	131	7	2,419	532	27	2,820	933	47	3,374	1,487	74
Huntersville School Pop Total	7,194	466	23	8,624	1,896	95	10,055	3,327	166	12,030	5,302	265

1. Adding the under-utilization in Huntersville schools to the analysis enables Huntersville to stem the urgent need for more schools a bit longer.

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Huntersville Population	65,780			78,860			91,939			110,000		
Elementary School	3,689	-211	-11	4,422	522	26	5,156	1,256	63	6,169	2,269	113
Middle School	1,487	-50	-2	1,783	246	12	2,079	542	27	2,487	950	48
High School	2,018	-88	-4	2,419	313	16	2,820	714	36	3,374	1,268	63
Huntersville School Pop Total	7,194	-349	-17	8,624	1,081	54	10,055	2,512	126	12,030	4,487	224

Current Under Utilization	2018	+ kids	# classrooms
Huntersville Elementary Schools		-450	-23
Huntersville Middle Schools		-146	-7
Huntersville High School		-219	-11

	Optimal School Size	2020	2025	2030	2035

High School	1500	-0.1	0.2	0.5	0.8
Estimated Construction Cost	in millions	$0	$25	$155	$180

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035
Cornelius Population					
Elementary School	776	0.1	0.3	0.5	0.5
Middle School	1093	0.1	0.1	0.2	0.2
High School	2053	0.0	0.1	0.1	0.1

	Optimal School Size	2020	2025	2030	2035
Cornelius Population					
Elementary School	700	0.1	0.3	0.5	0.5
Middle School	1100	0.1	0.1	0.2	0.2
High School	1500	0.1	0.1	0.2	0.2

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Cornelius Population	34,248			37,124			40,000			40,000

*Assessment of capital needs based on optimal school size

LED Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County

Madame Chair,

Leading up to our next meeting, could you elaborate on the "public input" part of our charge from the town board so we can be prepared to discuss ideas on how best to complete this task.

Thanks,

Eric Rowell

Hi Eric. As you know, the HEOSC designated you to make sure that a public records request was made to CMS. I have therefore prepared the attached public records request and would like for you to review it before I send it. Jackie, Anthony and I reviewed it, and we expanded it beyond just what the Mayor had originally requested in anticipation of gathering data that may be useful to the HEOSC.

Thank you.

Angie

To: Sidney D. Evans, sidneyd.evans@cms.k12.nc.us

On behalf of the Town of Huntersville, I request the following public records from the Charlotte Mecklenburg School system, including but not limited to records of school system staff and records of the Mecklenburg County Board of Public Education, if different:

1. Any and all documents relating to the current rubric for determining school construction, both new and replacement.

2. Any and all records, paper or electronic, containing data related to the 2017 bond package that was used for creating the list of schools to be included as part of the bond package, and for determining the list of schools that would be excluded from the 2017 bond package.

3. Any and all records related to, containing, or explaining the current replacement/ expansion score for each school in the system.

4. All staff reports related to the 2017 bond package.

5. All current staff reports related to any new construction or replacement projects since the 2017 bond package was passed.

6. Any and all documents containing demographic information compiled by or on behalf of the Charlotte Mecklenburg School System, related to the population of school aged children for the 2018-2019 school year in Mecklenburg County, and in the Town of Huntersville specifically, broken out by grade and/or age group, and indicating growth projections for each population for the next ten years. Please include all documents relied upon in compiling such demographic information, whether prepared by Charlotte Mecklenburg School system, or another person or entity.

7. Any and all documents showing the status of any authorized but unissued bonds approved by the voters for any school purposes, including but not limited to the 2017 bond issue. Please also provide any and all documents containing information about the planned use of such authorized but unissued bonds (or nonuse if applicable) including the specific purpose(s) for such planned use, and the timing of such planned use. If such bonds are planned not to be used, please provide any and all documentation which reflects the reasons for such nonuse.

As used herein, the words “documents”, “reports”, “records” or data shall be deemed to include all such information whether maintained in paper format, electronic format, or any other format or medium upon which information can be maintained.

If you do not maintain or have access to these records or information, please provide me the name and address of the proper custodian.

I am requesting this information be provided to me electronically if possible. If electronic production is not possible, please notify me if there will be any fees related to producing these records or information and, if so, whether the cost will exceed $25.00. Please specify any applicable exemption(s) under N.C.G.S. Chapter 132 if any or all of this records request is denied.

Please provide your response within fifteen (15) business days or as promptly as possible. Don't hesitate to contact me with any questions regarding this request.

Thank you.

Request #19-2

OPEN

As of January 10, 2019, 7:56am
Request Visibility: Staff

Details

Mrs. Pierson:

Please provide me a copy of any and all policies, procedures, memorandums, emails, or any other document, including purchase orders or invoices, outlining or describing:

1. The use of DNA detectors and/or DNA testing kits by any HPD employee, sworn or non-sworn, for any purpose, investigative or otherwise; and

2. Zone checks, i.e., the practice of (most commonly) HPD patrol officers using software to check into various locations while on patrol.

Don't hesitate to contact me with any questions about this request.

Thanks,

Eric Rowell

Subject : Rainwater collection - subdivision ordinance

Jack,

Ran into a neighbor this weekend who mentioned plans to build a deck and that lead into his desire to build some type of rainwater collection system, but was prevented by doing so because of our subdivision ordinance. I'm not very familiar with the subdivision ordinance so is there something in ours that does specifically prevent rainwater collection?

Thanks,

Eric Rowell

Town of Huntersville Public Records

Hi there

A document has been released for record request #19-2 along with the following message:

I added the document NMSInvoices. I pulled these myself and I don't believe there are any missing pages. Was there anything missing from the CMPD invoices? I don't have as easy access to those, but could get them.

Thanks,
Janet

Subject : Re: [External]Huntersville Education Options Study Commission
Attachment : image001.jpg;

Elaine, thanks and I am hoping you will take the time to learn about HB 229 and if you disagree please publicly let those pushing the legislation know of your request they withdraw it from committee and any further consideration on behalf of those you represent (they are like yourself Democrats so more likely to give your opinion serious consideration than say mine). You maintain the bully pulpit and are the voice for those you represent. While you are of course free to form your opinion based on principle and study of the issues you do not have the right to remain silent on the issue when you office requires you to "speak" for those you represent. Your position becomes part of the process and those who are engaged in acting as part of the process have the right to know where you stand as well. The BOCC controls nearly 1/3 or CMS's operating budget and all of their capital investment. It is that leverage, that you control on behalf of your constituents, that allows the towns and those in public education to make decisions, but only to the extent that you honor your duty and be transparent in the process.

Former Commissioner Karen Bentley and myself both spoke on behalf of the citizens of Huntersville and Cornelius when the issue of HB 514 came up and encouraged the towns to participate. We have also since then felt that the issue of education and the actions of CMS are of such importance that we continue to actively work towards change. Part of our work on behalf of the Town of Huntersville is to actively participate in the actions taken in Raleigh that impact education in our area and NOTHING has a greater potential for a positive impact than the opportunities afford by HB 514 and likewise the threat of HB 229. It is important that the town and the citizens understand where those who represent them stand so we can know how to best engage those elected in the process. So while I appreciate your rather generic support of education I would hope you would take the responsibility of leadership and let us know your personal and political opinions on these two pieces of legislation so we can be prepared with that knowledge as action in the future becomes needed. You speak of listening and transparency, both admirable in a leader, but action and resolve are what are required of those holding elected office.

It is important that those trying to set a course for the future (in this case the Huntersville and Cornelius Town Boards) know all they can about the environment in which they will make decisions and one of the most important facts toward that end is where those elected to office stand on the issues of the day. Our committee is in part gathering the facts and options available and part of that is knowing the position of those in position of impacting future slated legislation or opposition to current legislation. The chairwoman of the BOE and the Superintendent Wilcox were kind enough to meet with us and let us know their position on HB 514 and their support for HB 299, I hope you will offer us the same respect.

Dear Jim,
It's nice to hear from you.
Since the day I was sworn in, the BOCC has not taken an official position on HB 514. This is the first mention I've seen of HB 229.
Mecklenburg County will continue to monitor possible impact on the County as it relates to County budget funding for CMS, tax assessments and collections.
I will share one personal position and deeply held belief. I believe in engaging and listening to all stakeholders. I believe this is the core of our democracy.
You heard me give this speech to the BOCC in the attached 2016 video. I meant every word.

Commissioner Powell, I chair a subcommittee on the Huntersville Educational Options Study Commission and we are conducting SWOT analysis regarding different options. One of the issues we have on our radar is HB 229 (bill to repeal HB 514 municiple charter schools). As the former county commissioner for District One I was actively involved with HB 514. Could you as our representatives please let me/us know you personal position on HB 514 as well as your position on HB 229 pending legislation to repeal 514 and what you are actively doing in regards to it being passed or defeated. As we are reaching the end of our preliminary discover period a prompt answer would be greatly appreciated.

Elaine, thanks and I am hoping you will take the time to learn about HB 229 and if you disagree please publicly let those pushing the legislation(they are like yourself Democrats so more likely to give your opinion serious consideration than say mine). You maintain the bully pulpit and are the voice for those you represent. While you are of course free to form your opinion based on principle and study of the issue you do not have the right to remain silent on the issue when you office requires you to "speak" for those you represent. Your position becomes part of the process and those who are engaged in acting as part of the process have the right to know where you stand as well. The BOCC control nearly 1/3 or CMS's operating budget and all of their capital investment. It is that leverage, that you control on behalf of your constituents, that allows the towns and those in public education to make decisions, but only to the extent that you honor your duty and be transparent in the process.

Former Commissioner Karen Bentley and myself bot spoke of behalf of the citizens of Huntersville and Cornelius when the issue of HB 514 came up and encouraged the towns to participate. Town of Huntersville Public Records

Hi there

A message was sent to you regarding record request #19-39:

Major Graham has indicated that there 940 incident reports. He said some of them may be as simple as they stopped a car for a traffic violation and found a little bit of marijuana. Do you want all those incident reports or do you want to narrow the request down any.

Thanks

Janet

I asked Major Graham about the discrepancy. He indicated that as they reviewed in detail the initial 940 found, that the crime analyst removed some crimes that did not fall into the category requested.

Vickie,

Do you have possession of the version of the town's personnel policy immediately preceding this Nov. 2015 version you provided? If so, are you able to provide me a copy of that policy?

Thanks,

Eric Rowell

Subject: 2020 Master Plan

Jack,

Is our planning or parks staff in contact with or working with the county master plan team on the county parks 2020 master plan? Their website is below, similar to what we have set up for the Huntersville 2040 plan. At minimum, do we anticipate a 2020 master plan public meeting taking place in Huntersville?

http://meckplaybook.com/

Thanks,

Eric Rowell

Thanks for this John. One clarification—the bullet for “Keep the town caricature” was that a typo? Should it say Keep the town character? Or is there a caricature of Huntersville that we need to preserve?

Subject: 2030/2040 Plan Discussed At Huntersville Candidate Forum

Last night was the Huntersville Candidate Forum. Questions from the audience were submitted to the monitor. One of the questions to the 9 people running for town commisioiner was "What 2 areas of the 2030/2040 plan to you beleive need the most focus". Below are the comments. This is not a prioritized list it is just the order in which people answered the question. Rather than repeat comments, some answers are consollidated.

Figure it will give us food for thought.

- Focus on economic / business development
- Keep our rural areas safe (preserve hardwood trees), tree canopies
- Explore 55+ communities
- Reduce density
- Expand green spaces
- Incorporate community involvement
- Identify the next business areas (next Birkdale or business park)
- Where will the next growth areas be
- Improve infrastructure, get ahead of the game (where is next high-density area)
- Build on the 2030 plan
- Think outside the box
- More affordable housing options
- Focus on a holistic approach
- Preserve Huntersville heritage make sure Huntersville is Huntersville
- Keep the town caricature
- Improve the downtown area / experience

Looking forward to seeing everybody at the end of the month.

Thanks for this John. One clarification—the bullet for "Keep the town caricature" was that a typo? Should it say Keep the town character? Or is there a caricature of Huntersville that we need to preserve?

Subject: 2030/2040 Plan Discussed At Huntersville Candidate Forum

Last night was the Huntersville Candidate Forum. Questions from the audience were submitted to the monitor. One of the questions to the 9 people running for town commisioiner was "What 2 areas of the 2030/2040 plan to you beleive need the most focus". Below are the comments. This is not a prioritized list it is just the order in which people answered the question. Rather than repeat comments, some answers are consollidated.

Figure it will give us food for thought.

- Focus on economic / business development
- Keep our rural areas safe (preserve hardwood trees), tree canopies
- Explore 55+ communities
- Reduce density
- Expand green spaces
- Incorporate community involvement
- Identify the next business areas (next Birkdale or business park)
- Where will the next growth areas be
- Improve infrastructure, get ahead of the game (where is next high-density area)
- Build on the 2030 plan
- Think outside the box
- More affordable housing options
- Focus on a holistic approach
- Preserve Huntersville heritage make sure Huntersville is Huntersville
- Keep the town caricature
- Improve the downtown area / experience

Looking forward to seeing everybody at the end of the month.

Thanks guys. That what I figured.

It brings up a thought though. I'd like everyone to think about the character of Huntersville. What is it today? What do we need to preserve or reinforce? Talk with your families, friends and your neighbors about it. A way to approach it is to think about a place in town that you love or a place (even if its not in town) that exemplifies what certain places in town could be, feel or look like. This will help when we get into talking about our vision and goals. If you think about it, jot your thoughts down or take a picture of something. We will have time for steering committee members to discuss this at an upcoming meeting, likely the January meeting.

Dave,

Do you know if the information/posters and other interactive items from last night will be available for us to view at the water plant during our steering committee meeting tomorrow? I was unable to attend, but would be interested in seeing some of the public input in addition to what I saw posted online, and would like the Stewart team to explain to us how this public input will be used by them.

Thanks,

Eric Rowell

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Please note, Wednesdays meeting is **not** at Town Hall. It is being held at Duke's Water and Treatment Plant:

Address: 7980 Babe Stillwell Farm Rd, Huntersville, NC 28078

Thanks to everyone for freeing up your schedule to meet at 3:30 and hopefully attending the Public Review Meeting which runs from 6 - 8 PM at the same location.

Let me know if you have any questions.

Committee Members -

Attached are three documents in advance of your meeting next week on Feb 26th. More information will provided as it becomes available. Please note that three additions were made to the Stakeholder Meeting Summary. We are trying to keep all meeting summaries in one document for ease of access.

Also, Eric Rowell is the only Committee member to express interest in the Vice-Chair position.

Thanks for your time. If you have any questions, please contact me.

Subject : RE: All, Please Note Different Location For Wednesday Meeting
Attachment : image002.png;image003.png;

Hi Eric –
Agenda Item #8 for tomorrow is the place where discussion will involve a description of what happened at the Visioning Session at the Water Plant. All of the information boards will be posted on the website (as soon as I can get them there), and will also be on display again during the Wednesday meetings.

Dave,

Do you know if the information/posters and other interactive items from last night will be available for us to view at the water plant during our steering committee meeting tomorrow? I was unable to attend, but would be interested in seeing some of the public input in addition to what I saw posted online, and would like the Stewart team to explain to us how this public input will be used by them.

Thanks,

Eric Rowell

Please note, Wednesdays meeting is **not** at Town Hall. It is being held at Duke's Water and Treatment Plant:

Address: 7980 Babe Stillwell Farm Rd, Huntersville, NC 28078

Thanks to everyone for freeing up your schedule to meet at 3:30 and hopefully attending the Public Review Meeting which runs from 6 - 8 PM at the same location.

Let me know if you have any questions.

Subject: Steering Committee Meeting #3 - Advance Materials

Committee Members -

Attached are three documents in advance of your meeting next week on Feb 26th. More information will provided as it becomes available. Please note that three additions were made to the Stakeholder Meeting Summary. We are trying to keep all meeting summaries in one document for ease of access.

Also, Eric Rowell is the only Committee member to express interest in the Vice-Chair position.

Thanks for your time. If you have any questions, please contact me.

Yes, I saw those opinions yesterday. The Midlands case is definitely helpful. The hearing has been set for April 10 at 2:30 p.m. Sorry – I had meant to let you know that. Glad you followed up. The appellants have ordered a transcript, which I think will help us as well.

Any updates on the appeal yet? Has a hearing been set in Superior Court?

I was reminded to inquire after reading a BOA case that came out in the most recent unpublished COA opinions this week. See opinion below. Mirrors some of the same issues raised on appeal of our case.

MEETING MINUTES

Public Art Commission

Wednesday, February 13, 2019

Members Present: Scott Mumma – C, Melissa Jackson, April Dunn, Ingrid Hooks, Nancy Neely, Margo Pemmaraju

Members Absent: John Foster - VC

CALL TO ORDER

The meeting was called to order by Chair Scott Mumma at 6:30pm with a quorum present.

APPROVAL OF MEETING MINUTES

Minutes from 1/09/19 motion: 1st by Melissa / 2nd Nancy and all present approved.

PUBLIC COMMENTS

No public comments

ART INSTALLATION WITH ATRIUM

Meg-Art withdrew their proposal for the Atrium project due to feeling she could provide the design and idea. However, did not feel she could complete the entire project with construction and install. Left with one proposal by Grace Scott.

What can we do with the activation going on currently at events with the tiles? Do we want to do another call to artists? Can we return to Atrium and see if we can raise the stipend? Feel the stipend needs to be higher since the piece with the tiles will take a bit more time with design, construction & install. We can blast the call to the universities in the state with art degrees. It might bring more interest.

Can we go back to the proposal left and ask the artist if she has another idea to make it different and kinetic with the current proposal submitted? Make it look less like a logo and more fun. Something that is kinetic and interactive. Going to go back to Grace and see if we can make it kinetic. An idea is to add a mirror to the piece to make it interactive. Like to see how we can blend it in to the scheme outside already present in that area.

Three options: Commission to request another call to artists. Talk to Atrium about increasing stipend. Talk to current artists to refine the piece.

Commission to discuss with Atrium. Go back to the artists, if Atrium agrees, to resubmit another idea that follows guidelines.

BUDGET 2019-2020

Budget was not received well when presented. Still looking at how to enhance the Arts and Cultural Building. Murals seem to be a popular item people are looking for.

Have a mascot (root vine) using the "H". Vine represents the farming community. Make a character out of the vine. Survey can be done to vote for the mascot and let the community submit ideas. We don't want to make the mascot a goal currently (this is a big long time branding project). Something we can keep bringing up and take the time to create right.

We need to look at creating a sponsorship packet/letter to local businesses. Start with an official letter and make a sponsorship packet to hand out to the businesses. This will be a 2019 goal of the commission.

Some of the places the commission would like to focus on is the art center, sculpture art garden, & fundraising.

Jail – has its own identity and the town has other property that we can create into a sculpture garden. Cornelius used a public park to get a sculpture garden. There is a lot of space in this town that we can work with.

2019 Goals:

1. Work with Town Manager for guidance and getting a foundation/vision
2. Sponsorships & packet
3. Network / contacts together
4. Projects (benches and murals)

Review and recommend the projects in the town is our main focus. But we can concentrate on sponsorships to help push ideas we want to see implemented.

UPDATES/COMMENTS

Found foundations we can utilize and is similar to partners for parks. Donations go to them and they provide the tax receipts.

1. St Johns Cultural Council: available to 501c3 only, expensive, we pay 5% of gross deposit as the management fees, located in Florida. Good place to process funds.
2. Fractured Atlas: $10 a month for corporate membership or $20 per month for premium membership. More bang for the buck with resources provided instead of just being a deposit account. In the long run this could connect us to opportunities. Need a valid email. We need to have a tax ID to utilize.

Start small and go up to the next foundation. ASC reach out to them for foundations in the area but have not had any luck. NC Council for the Arts we can reach out to them to ask about a local foundation. News article out today about ASC is having a hard time getting funding and is looking to the county for funding.

HELLO HUNTERSVILLE / UPDATES

Commission requested to change dates of March & April meeting. New meetings dates will be Tuesday, March 12 and Tuesday, April 9 due to staff liaison absence on Wednesday's original scheduled dates/times. Will post updated times to all communication channels.

Looking to follow up on Primal Brewery and possible connection to a wood worker.

Hambright Rd and new language school. Art is being proposed for the intersection in the plan. Looking to see if CMS will fund that project and commission would be more than happy to pass along some ideas for art in that area.

Details on mural proposal on Guinard property with local artists will be passed along as they are worked out between the artist and property owner since it is private property and not town owned.

Have an example of a kinetic bicycle that could be a potential donation for the greenway coming to the 115/downtown area.

Sunday, May 5 from 2-6pm – asking the commission to mark their calendars to be present. Will have a tent next to Atrium for information to the public and to be next to the tile activation.

Parking deck was given a rough estimate from a local artist (Nick – Napoletano Art). Looking around $20,000-$40,000 to complete the side with a mural. This would be great for sponsorships and potentially multiple ones to accomplish this project.

Looking to do a call to artists for mosaic benches at the bus stops on the north bound / south bound side of 115. These benches would be pieced together by the public at Hello Huntersville, taken back by the artists to seal and brought back to be grouted and installed at the location. South bound side can be installed right on sidewalk. North bound side would need a concrete pad and retaining wall for the cost of approximately $500.00 and would be a 2'x7'x2' section. Benches will need to be ordered for approximately $500 per bench and will not be included in the artist's responsibilities. Timeline for the call is two weeks with commission approval on Tuesday, March 12 of the artist and selection then sent to the board for Monday, March 18 approval. Funding from ASC for grant received is $5,000. Looking at a potential sponsors for another $5,000. Total project budget is the current amount of the secured $5,000. This will fund one bench. If another sponsor is gained we will look at funding both benches off sponsorships received.

Vote to form call to artists for benches at downtown bus stops: April: 1st, Ingrid: 2nd and unanimously all 6 voted yes.

There being no other business to discuss – motion to adjourn… April: 1st, Melissa: 2nd and unanimously the meeting was adjourned at 8:16pm.

The next meeting will be on Tuesday, March 12 at 6:30 p.m.

MEETING MINUTES

Public Art Commission

Wednesday, January 9, 2019

Members Present: Scott Mumma – C, John Foster – VC, Melissa Jackson, April Dunn, Ingrid Hooks, Nancy Neely, Margo Pemmaraju

Members Absent:

CALL TO ORDER

The meeting was called to order by Chair Scott Mumma at 6:30pm with a quorum present.

APPROVAL OF MEETING MINUTES

Minutes from 12/12/18 motion: 1st by April / 2nd Melissa and all present approved.

PUBLIC COMMENTS

Mayor: Thank you for what you're doing and you are breaking ground for how you are helping the town. Try to engage anyone who didn't get on the committee to do what you want to accomplish. Consider setting some goals and would love to have an iconic mascot for downtown as we look to develop it further.

Commission said their goal is to get in the budget. Answer was help would be given to find sponsors and introduce the commission to people to get money to push the art scene. Get grants and businesses engaged. Greenway has fundraisers to get what they need. Look for sponsorships. Talk to the town manager and get involved with him from his track record with the arts in Cornelius.

ART INSTALLATION WITH ATRIUM

Two submissions for the Atrium piece. Both look good. Both are local. Concerned about expertise. Meg Art has a lot of expertise with knowledge on tiles. Interactive element of both piece that were submitted. Flowers will be put in the metal to spin like pinwheels. Con that was seen was depending on someone else to help finish the flowers. The other artist has more experience. Meg Art is envisioning using the entire field. We wouldn't be able to do that due to zoning. We could make it different heights and place on the concrete ribbon. Meg Art will require more discussion to finalize details. Need more details from both artists. Chair is going to follow up.

Atrium got 100 tiles from Huntersville Christmas. Looking at different event dates we can have them at every date through 2019. Suggesting is to do the collection over 8 – 9 months. Let's take some time to walk through it. It gives the artists time to rework some of the details to make a decision. Atrium does not feel crunched for time. Would like the reveal for the Christmas event. Let's stretch out the

activations and take on the other year events to get the tiles. If we can select the artist by Hello Huntersville they can be more engaged in the project and the collections at that event.

Will Benny and Meg Art share the same vision?

Flowers: more specific plot design (drawing of everything, sizes, more specifics, kinetic). Ask about Benny and who else is involved. General materials and what that cost would be. Let them know we don't have the green space and would be restricted to the concrete ribbon. Sides of the tiles for safety concerns (would they be rounded?).

Pyramid: how is moves, height, dimensions, material, and vision around adding her tiles? Looks like mixed media in the tiles of the samples of other work provided. There is dimension to the tiles and are not completely flat. Her work and experience is a lot. How the logo is represented and are there stops to help the piece line up and not continue to move is another question that needs to be asked.

The deadline for the piece has passed so we will move forward with gaining more details on the pieces from the two submissions. Let's look at the Easter event and Hello Huntersville for activations and reevaluate where we are after that. We can use the fall events to tell about the reveal.

BUDGET 2019-2020

Scott will lead budget pre meeting on January 22 from 6pm – 6:15p. 6:30pm is when Rich will be recognized for his donation of 2019 and the piece from 2018.

Commission will be requesting $10,000 from the Travel and Tourism line of the budget to match grants and pay for Call to Artist sites.

Event idea for the commission: In-kind donations working with artists and local businesses to hold a silent auction. HPAC host own event. Artists, music, silent auction. Art posted on the town website. Artists get a ton of requests but we can get enough artists to make it successful. PAC receives the fundraise money. Maybe connect it to another event with food and live music.

UPDATES/COMMENTS

Talked about looking at improvements to the Arts and Cultural Building and the amount of funds to be requested in the 2019-2020 budget year.

Areas of the HACC were the outside landscaping, signage, outside lighting, outdoor murals, indoor murals and removal of paint on interior windows to increase light into the facility.

Would like to request $10,000 of which $5,000 would be earmarked for a matching grant (ElectriCities) and $5,000 for membership costs (American for the Arts, CAFÉ).

Primal Brewery looking for connections with the arts. Wood working with Primal and if David would like to sponsor the first wooden piece for Huntersville.

Look to the chambers and see if we can connect with their list of corporate places to be involved with the arts.

Arts and Science Council update: 1/26 Connect with Culture Day (Raptor Center), dance, art in the Charlotte region. Gaps of what is not happening in arts and science for all ages let know our feedback.

HELLO HUNTERSVILLE (TABLE UNTIL NEXT MEETING)

There being no other business to discuss – motion to adjourn… April: 1st, Melissa: 2nd and unanimously the meeting was adjourned at 8:00pm.

The next meeting will be on Wednesday, February 13 at 6:30 p.m.

A few follow-up questions. No rush. The answers can wait until Interim Chief Hoyle is more certain so he doesn't have to speculate.

1) Is it yes, generally always, or usually? Please confirm - a guilty plea is not necessary before assets/property can be seized and profits split with HPD, correct?

2) List any and all federal law enforcement and/or federal administrative agencies HPD is currently partnering or working with.

3) Please provide any and all agreements/contracts between HPD and any federal agency HPD is currently partnering or working with.

4) How many HPD officers, sworn or non-sworn, are currently assigned to any type of joint task force or are involved with a federal agency in any manner?

5) If the answer to Number 4 above was 1 or more, are those officers, sworn or non-sworn, being paid for their time by Huntersville or by the joint task force/federal agency, or some combination of both?

6) Please provide me a copy of the most current Equitable Sharing Agreement and Certification form.

Thank you,

Eric Rowell

Reply-To: Bence Hoyle <bhoyle@huntersville.org>

All those are questions for the federal agency that makes those decisions. We do not get specific case information (Cornelius don't anyway). I will give you some speculation below:

Subject: Asset forfeiture funds

Good evening, Chief.

We have $734k in asset forfeiture funds on our books. We have a citizen making a public records request asking where the money came from, in general questions like:

1) is the case that generated the money finished in the court system?

Yes. Generally always. A judge orders the forfeiture at the time judgment usually

2) did the funds come from a Huntersville resident?

It could have but probably a low percentage. Officers are assigned a Federal task force with Federal jurisdiction, so they work the suppliers that bring the drugs to town, not usually the local seller. So most likely not.

3) did the case occur in Huntersville?

Same as 2

4) what citizens did the property come from? List of individuals, businesses etc

Fed question. These are federal forfeitures.

5) was the property cash, vehicle, etc?

Almost always cash. Vehicles are generally sold and agencies participating get a cut of that. Usually 5-15% depending on involvement.

Is this information disclosable as a matter of public record? Could you send me a reference on what governs whether this data is public?

The case probably is disclosable but again it is a Federal case so they would have to request that from the US Attorney. The reason we have to be careful is because some of these forfeitures could have come from suspect turned witnesses who may be protected by the court. We just don't know all that. We usually get a check and thats it unless we call them and asked them to work something local - then we get the whole task force.

Paperwork Reduction Act Notice

Under the Paperwork Reduction Act, a person is not required to respond to a collection of information unless it displays a valid OMB control number. We try to create accurate and easily understood forms that impose the least possible burden on you to complete. The estimated average time to complete this form is 30 minutes. If you have comments regarding the accuracy of this estimate, or suggestions for making this form simpler, please write to the Asset Forfeiture and Money Laundering Section at 1400 New York Avenue, N.W., Washington, DC 20005.

Privacy Act Notice

The Department of Justice is collecting this information for the purpose of reviewing your equitable sharing expenditures. Providing this information is voluntary; however, the information is necessary for your agency to maintain Program compliance. Information collected is covered by Department of Justice System of Records Notice, 71 Fed. Reg. 29170 (May 19, 2006), JMD-022 Department of Justice Consolidated Asset Tracking System (CATS). This information may be disclosed to contractors when necessary to accomplish an agency function, to law enforcement when there is a violation or potential violation of law, or in accordance with other published routine uses. For a complete list of routine uses, see the System of Records Notice as amended by subsequent publications.

Single Audit Information

Independent Auditor

Name:
Company:
Phone: **Email:**

Were equitable sharing expenditures included on your jurisdiction's prior fiscal year's Schedule of Expenditures of Federal Awards (SEFA)?

YES ☐ NO ☐

Prior year Single Audit Number Assigned by Harvester Database:

Affidavit

Under penalty of perjury, the undersigned officials certify that they have read and understand their obligations under the *Guide to Equitable Sharing for State, Local, and Tribal Law Enforcement Agencies (Guide)* and all subsequent updates, this Equitable Sharing Agreement, and the applicable sections of the Code of Federal Regulations. The undersigned officials certify that the information submitted on the Equitable Sharing Agreement and Certification form (ESAC) is an accurate accounting of funds received and spent by the Agency.

The undersigned certify that the Agency is in compliance with the applicable nondiscrimination requirements of the following laws and their Department of Justice implementing regulations: Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq.*), Title IX of the Education Amendments of 1972 (20 U.S.C. § 1681 *et seq.*), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794), and the Age Discrimination Act of 1975 (42 U.S.C. § 6101 *et seq.*), which prohibit discrimination on the basis of race, color, national origin, disability, or age in any federally assisted program or activity, or on the basis of sex in any federally assisted education program or activity. The Agency agrees that it will comply with all federal statutes and regulations permitting federal investigators access to records and any other sources of information as may be necessary to determine compliance with civil rights and other applicable statutes and regulations.

Equitable Sharing Agreement

This Federal Equitable Sharing Agreement, entered into among (1) the Federal Government, (2) the Agency, and (3) the Agency's governing body, sets forth the requirements for participation in the federal Equitable Sharing Program and the restrictions upon the use of federally forfeited funds, property, and any interest earned thereon, which are equitably shared with participating law enforcement agencies. By submitting this form, the Agency agrees that it will be bound by the *Guide* and all subsequent updates, this Equitable Sharing Agreement, and the applicable sections of the Code of Federal Regulations. Submission of the ESAC is a prerequisite to receiving any funds or property through the Equitable Sharing Program.

1. Submission. The ESAC must be signed and electronically submitted within 60 days of the end of the Agency's fiscal year. Electronic submission constitutes submission to the Department of Justice and the Department of the Treasury.

2. Signatories. The ESAC must be signed by the head of the Agency and the head of the governing body. Examples of Agency heads include police chief, sheriff, director, commissioner, superintendent, administrator, county attorney, district attorney, prosecuting attorney, state attorney, commonwealth attorney, and attorney general. The governing body head is the head of the agency that appropriates funding to the Agency. Examples of governing body heads include city manager, mayor, city council chairperson, county executive, county council chairperson, administrator, commissioner, and governor. The governing body head cannot be an official or employee of the Agency and must be from a separate entity.

3. Uses. Shared assets must be used for law enforcement purposes in accordance with the *Guide* and all subsequent updates, this Equitable Sharing Agreement, and the applicable sections of the Code of Federal Regulations.

4. Transfers. Before the Agency transfers funds to other state or local law enforcement agencies, it must obtain written approval from the Department of Justice or Department of the Treasury. Transfers of tangible property are not permitted. Agencies that transfer or receive equitable sharing funds must perform sub-recipient monitoring in accordance with the Code of Federal Regulations.

5. Internal Controls. The Agency agrees to account separately for federal equitable sharing funds received from the Department of Justice and the Department of the Treasury, funds from state and local forfeitures, joint law enforcement operations funds, and any other sources must not be commingled with federal equitable sharing funds.

The Agency certifies that equitable sharing funds are maintained by the entity that maintains the Agency's appropriated or general funds and agrees that the funds will be subject to the standard accounting requirements and practices employed by the Agency's jurisdiction in accordance with the requirements set forth in the *Guide*, any subsequent updates, and the Code of Federal Regulations, including the requirement to maintain relevant documents and records for five years.

The misuse or misapplication of equitably shared funds or assets or supplantation of existing resources with shared funds or assets is prohibited. The Agency must follow its jurisdiction's procurement policies when expending equitably shared funds. Failure to comply with any provision of the *Guide*, any subsequent updates, and the Code of Federal Regulations may subject the Agency to sanctions.

6. Single Audit Report and Other Reviews. Audits shall be conducted as provided by the Single Audit Act Amendments of 1996 and OMB Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards. The Agency must report its equitable sharing expenditures on the Schedule of Expenditures of Federal Awards (SEFA) under Catalog of Federal Domestic Assistance number 16.922 for Department of Justice and 21.016 for Department of the Treasury. The Department of Justice and the Department of the Treasury reserve the right to conduct audits or reviews.

7. Freedom of Information Act (FOIA). Information provided in this Document is subject to the FOIA requirements of the Department of Justice and the Department of the Treasury. Agencies must follow local release of information policies.

8. Waste, Fraud, or Abuse. An Agency or governing body is required to immediately notify the Money Laundering and Asset Recovery Section of the Department of Justice and the Executive Office for Asset Forfeiture of the Department of the Treasury of any allegations or theft, fraud, waste, or abuse involving federal equitable sharing funds.

Civil Rights Cases

During the past fiscal year: (1) has any court or administrative agency issued any finding, judgment, or determination that the Agency discriminated against any person or group in violation of any of the federal civil rights statutes listed above; or (2) has the Agency entered into any settlement agreement with respect to any complaint filed with a court or administrative agency alleging that the Agency discriminated against any person or group in violation of any of the federal civil rights statutes listed above?

☐ **Yes** ☒ **No**

Agency Head

Name: Spruill, Cleveland L.
Title: Chief
Email: cspruill@huntersville.org

Signature: Submitted Electronically Date: 08/24/2018

To the best of my knowledge and belief, the information provided on this ESAC is true and accurate and has been reviewed and authorized by the Law Enforcement Agency Head whose name appears above. Entry of the Agency Head name above indicates his/her agreement to abide by the Guide, any subsequent updates, and the Code of Federal Regulations, including ensuring permissibility of expenditures and following all required procurement policies and procedures.

Governing Body Head

Name: Roberts, Anthony
Title: Town Manager
Email: aroberts@huntersville.org

Signature: Submitted Electronically Date: 08/23/2018

To the best of my knowledge and belief, the Agency's current fiscal year budget reported on this ESAC is true and accurate and the Governing Body Head whose name appears above certifies that the agency's budget has not been supplanted as a result of receiving equitable sharing funds. Entry of the Governing Body Head name above indicates his/her agreement to abide by the policies and procedures set forth in the Guide, any subsequent updates, and the Code of Federal Regulations.

☒ I certify that I have obtained approval from and I am authorized to submit this form on behalf of the Agency Head and the Governing Body Head.

All those are questions for the federal agency that makes those decisions. We do not get specific case information (Cornelius don't anyway). I will give you some speculation below:

Subject: Asset forfeiture funds

Good evening, Chief.

We have $734k in asset forfeiture funds on our books. We have a citizen making a public records request asking where the money came from, in general questions like:

1) is the case that generated the money finished in the court system?

Yes. Generally always. A judge orders the forfeiture at the time judgment usually

2) did the funds come from a Huntersville resident?

It could have but probably a low percentage. Officers are assigned a Federal task force with Federal jurisdiction, so they work the suppliers that bring the drugs to town, not usually the local seller. So most likely not.

3) did the case occur in Huntersville?

Same as 2

4) what citizens did the property come from? List of individuals, businesses etc

Fed question. These are federal forfeitures.

5) was the property cash, vehicle, etc?

Almost always cash. Vehicles are generally sold and agencies participating get a cut of that. Usually 5-15% depending on involvement.

Is this information disclosable as a matter of public record? Could you send me a reference on what governs whether this data is public?

The case probably is disclosable but again it is a Federal case so they would have to request that from the US Attorney. The reason we have to be careful is because some of these forfeitures could have come from suspect turned witnesses who may be protected by the court. We just don't know all that. We usually get a check and thats it unless we call them and asked them to work something local - then we get the whole task force.

Welcome to Huntersville

Mrs. Pierson,

Now that the town is back open - let me formally request a copy of the most current Equitable Sharing Agreement and Certification form from HPD, a form I've been provided multiple times now. Let me know if there are any questions.

Thank you,

Eric Rowell

A few follow-up questions. No rush. The answers can wait until Interim Chief Hoyle is more certain so he doesn't have to speculate.

1) Is it yes, generally always, or usually? Please confirm - a guilty plea is not necessary before assets/property can be seized and profits split with HPD, correct?

2) List any and all federal law enforcement and/or federal administrative agencies HPD is currently partnering or working with.

3) Please provide any and all agreements/contracts between HPD and any federal agency HPD is currently partnering or working with.

4) How many HPD officers, sworn or non-sworn, are currently assigned to any type of joint task force or are involved with a federal agency in any manner?

5) If the answer to Number 4 above was 1 or more, are those officers, sworn or non-sworn, being paid for their time by Huntersville or by the joint task force/federal agency, or some combination of both?

6) Please provide me a copy of the most current Equitable Sharing Agreement and Certification form.

Thank you,

Eric Rowell

Subject : RE: Call for Special Meeting - Subcommittee

If it is called or announced in a meeting, it is not necessary. But since dates/times for the subcommittee meetings were not announced in the HEOSC meeting and then also for the HEOSC meeting Monday night, since it's starting early and it wasn't announced at the last meeting, this is just the steps we have to follow. I think it's a little crazy as long as you publicize it and post it, but if we are ever questioned on it, I want to be able to prove we followed the proper procedure.

Got it, and always good to err or the side of too much rather than too little. Perhaps the county and CMS have a more aggressive publication policy that covers the need to have members sign off individually or perhaps I was just lucky and over the course of 22 years was able to avoid having to sign anything because someone else did. Thanks for the explanation and keeping us legal.

Subject: Call for Special Meeting - Subcommittee

I have attached a call for a special meeting that needs to be signed. One can sign, e-mail it to the other and then forward me the signed one. If I need to change one of the names on the call to Jim Puckett, just let me know.

Once the call is signed, I will send all subcommittee members a signed one. This just has to be done per the open meetings law.

If you have any questions, let me know.

Thanks,
Janet

Beginning in March the meetings will be available on Mecklenburg County's TV channel. As of now, those meetings will be shown every Sunday evening at 6:00 p.m.

Thanks, but what about making available again at the town's website as well? I don't think the Mecklenburg County tv channel is available on hulu or netflix - i.e., how many residents even have access to this tv channel? Not everyone is on facebook so I just want to ensure as many people as possible can view the meetings, especially now that we have the new A/V up and working.

Actually the Huntersville staff person that was asked to request the info realized at 10:22pm on Monday, November 25th that she had never sent the request and it was them sent to Mr Jeter. He began working on it Tuesday and then was made aware of the request by Karen Bentley.

Can you request from cms the following:
Current rubric for determining school construction new and replacement All data related to the 2017 bond package that was used for creating the list of schools The current replacement/ expansion score for each school in the system All staff reports related to the 2017 bond package All current staff reports related to any new construction or replacement projects since the 2017 bond package was passed.

Thank you!!!
Janet

Karen,

Can they provide a historical, current and future build plan of schools in Mecklenburg? Can they tie this to past and future bonds so that we can see how many schools Huntersville and North Mecklenburg were recipients of. I thought we discussed this at the last meeting.

Thank you,

Al

Subject : Re: CMS presentation - March 11

While considering the future is important I believe we need to have a solid understanding of what got us to the table, namely an explanation of the last bond package and how the final list was developed and how north Mecklenburg's needs were considered (ignored) and the rational for the current direction of the board to the superintendent as relates to the freeze on facilities in north Mecklenburg. I will be honest I do not know how we would come to place any trust on the future without some explanation for the past, especially since none has ever been presented.

Mrs. Beeker,

In case you haven't seen today's opinions yet, see the link below for a relevant opinion you may want to provide to town board and BofA members regarding bias and conditional use permit issues. I thought it was a good primer/review on those issues.

https://appellate.nccourts.org/opinions/?c=2&pdf=38073

Thanks,

Eric Rowell

Please note that the resolution also describes some of the ways in which the Committee will function. On behalf of Town staff and the consultant team that will be working with you, we want you to feel that you have made a significant contribution to Huntersville by the time the Plan Update is completed, and that the Plan embodies the appropriate strategy for our community's future. We also want to do our best to make the time you spend on the project as effective as possible.
>
> The scope of work for the project is attached. Please don't worry about printing it unless you really want to – we'll have paper copies available at our first meeting. We are also planning to have an orientation session before the project starts to familiarize Committee members with the current plan and past plans. We also plan to have other materials available for you to look at if interested.
>
> I look forward to meeting and working with you. In the near future, we'll start asking about future meeting dates and times to see if we can accommodate as many member's schedules as possible. If you don't mind, please reply confirming receipt of this e-mail. If you have any questions, please contact me.

Dear Jackie,

Can you send me the contact information (Cell phone number) for Albert, Carrie, and Eric. I wanted to be able to reach out to them to start the process of scheduling our HEOSC subcommittee meetings.

Thank you for all of your hard work to provide our Commission such great information over the past four months. We all recognize how much time you all have put in to give our group the best information possible.

Thanks !

Mike Sass

Subject : Re: December 10 meeting

The town has now closed facilities for the day because of the additional winter weather this morning. We only have one meeting scheduled for December already due to the next regularly scheduled meeting falling on Christmas Eve. Should those of us able to make it to town hall try to meet if we can ensure a quorum since we've already invited speakers? Thoughts?

Thanks,

Eric Rowell

Hi all,
I just sent a Doodle poll for y'all to complete so we can get this meeting scheduled.

Also, attached is the preliminary report from our colleagues in Cornelius. They have done a very thorough job of pulling supporting data into their presentation - something I think we should do also.

All,

Sorry, but I just checked my home calendar and was reminded I will be out of town the weekend of April 20. I could be available via phone for a conference call if the group still decides the morning of April 20 works best. My calendar is fairly open between now and our next meeting on April 22 if we want to circulate other dates/times.

Thanks,

Eric Rowell

CEOSC Report to Cornelius Town Board

Cornelius Education Options Study Commission

April 1, 2019

Cornelius Education Options Study Commission

- Purpose
- Needs State
- Option Evaluations

Purpose of the CEOSC

- Project the current and future facilities needs of the Cornelius and North Mecklenburg student population
- Evaluate the following 5 Options:
  1. Do Nothing
  2. Partner with CMS
  3. Open and Operate Municipal Charter School(s)
  4. Partner with an Existing Charter School
  5. Create a New LEA

Projected Enrollment

Note: no adjustment made for current enrollment over/under planned enrollment in existing N. Meck Schools

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continue with the status quo allowing CMS to solve the issue as they see fit

PROS

- No pushback either legislatively or legally
- Appeases those satisfied with current school status
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - 500+ students by 2025
  - 800+ students by 2030
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for Lake Norman schools
- Continued strain in the relationship between Lake Norman region and CMS
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Cornelius and CMS

Option 2: Partner with CMS

Current/Previous Partnering Agreements:

- 2003 Bailey Middle JUA
- 2004 Reallocation of Land Bond Dollars JUA for Hough
- 2005 Westmoreland Road Elementary(JV Washam) JUA
- 2015 Cornelius Elementary JUA

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.
- Less divisive – public entities working together toward a common goal of positive educational outcomes

CONS

- Possibility of no improvements in our area
- Long timeline to solutions or results.
- If a deal is reached, no guarantee that a newly elected board would continue to honor that deal
- Cornelius pays 4.3% of total property taxes and makes up 2.7% of the county population
- Our area only has 1/9 representation on CMS board
- Differing opinions and perspectives will still be present between Cornelius and CMS

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

CONS (continued)

- Potential loss of magnet school options under MEAC reassignment suggestion
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development.
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).
- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.
- Town of Cornelius can agree to opt out of HB 514 as requested by CMS.
- Any group of concerned citizens can follow the traditional charter school route outside of HB 514.
- Campaign to rally the court of public opinion.

Option 2: Partner with CMS

Potential Outcomes:

- Form a CMS advisory board with representation from Cornelius, Davidson and Huntersville. Consideration can also be given to creating a larger board with representation from Pineville and Matthews.

- Build relationship with the CMS school board to be a stronger advocate for the needs of our area.

- According to the Municipal Concerns Act Article III Report, a consideration for relief for Cornelius at the high school level would be to reassign 750 students to Huntersville schools. Strengthening our relationship with CMS could help accomplish this relief. Based on a planned 2000 students at Hough, it is currently at 127% capacity. This relief would bring Hough to 90% capacity, leaving room for student population growth.

- Once current overcrowding is addressed, work with CMS to create a plan to build future buildings or improve current facilities, possibly funded through COPS.

Option 2: Partner with CMS

Next Steps:

- Set up meeting with representatives from CMS, including Superintendent Dr. Wilcox.
- Work with planning board to develop list of potential sites for new schools.
- Review past and current partnerships with CMS to define parameters of future partnerships with CMS.
- Work with CMS on redrawing boundaries and district lines to better accommodate LKN municipalities. Develop a plan to communicate changes to property owners.
- Explore options to expand current buildings at Bailey and Hough to accommodate more students without modulars. Possibilities may include more classrooms, expand cafeterias or add enclosed outdoor seating, and add a new building for eight and ninth grades between Bailey and Hough.

Option 3: Municipal Charter School

- Using Current CMS North Mecklenburg boundaries

Background on House Bill 514

- Governance Structure
  - Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
  - NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties
- Municipal charters can prioritize enrollment to students in the municipality
- Employment requirements
  - Municipal charters can employ teachers provided
    - at least 50% hold teaching licenses
    - All teachers of core subjects (science, math, social studies, language arts) are college graduates
  - Municipal charters can employ/discharge others to perform non-teaching duties
  - Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School

- Estimated Timing
  - 1 year approval process after application submitted
  - 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
  - Total timetable 2-4 years minimum to open school
  - Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School Cornelius Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Cornelius Operating Budget

MUNICIPAL CHARTER SCHOOL **Base**

FYE 6/30

ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	**(1,220)**	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need $1MM+ to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Option 3: Municipal Charter School Implications

PROS

- Promotes local control and increases parental choice
- Ensures town representation
- Prioritizes enrollment for town children
- Reduces bureaucracy, increases efficiency, and lowers administrative costs
- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Alleviates overcrowding issue
- Reinforces the concept of neighborhood school

CONS

- Potentially higher costs for service delivery
- Risk alienating local LEA
- Law may be changed/repealed to be less favorable
- Legal challenges may occur
- How does Town fund initial school start up/Double Taxation
- High initial liquidity needs
- Profitability impacted by rental expense before ramp up completed

Option 3: Municipal Charter School

Sources of Leverage:

- Town bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- May strain relationship with local LEA

Option 3: Municipal Charter School

Next Steps:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Huntersville (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit citizen feedback

Option 4: Partner with an Existing Charter School

- Enter into a management agreement with an existing, established, local charter school to establish and maintain operations of an independent municipal-owned charter school

Option 4: Partner with an Existing Charter School

Partnering Criteria:

- Located in the North Mecklenburg area
- Local operations management (no outsourcing of primary business oversight)
- No less than 5-years of operations with consistent enrollment exhibiting high parental demand (i.e. wait lists that consistently exceed enrollment), and acceptable performance metrics (EOG Scores) demonstrating consistent educational success
- Acceptable learning curriculum
- Demonstrated positive operational cash flow for at least three of the most current years of operations
- Active and engaging instructional practices
- Must exhibit low/acceptable staff turnover, with Academic Director in place for at least 3-years, and instructors at or above state requirement of at least 50% teachers certified and licensed

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school

CONS

- Loss of total control over municipal sponsored Charter School
- May not receive interest from preferred partner schools

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

Option 4: Partner with Existing Charter School

Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 4: Partner with an Existing Charter School

Next Steps:

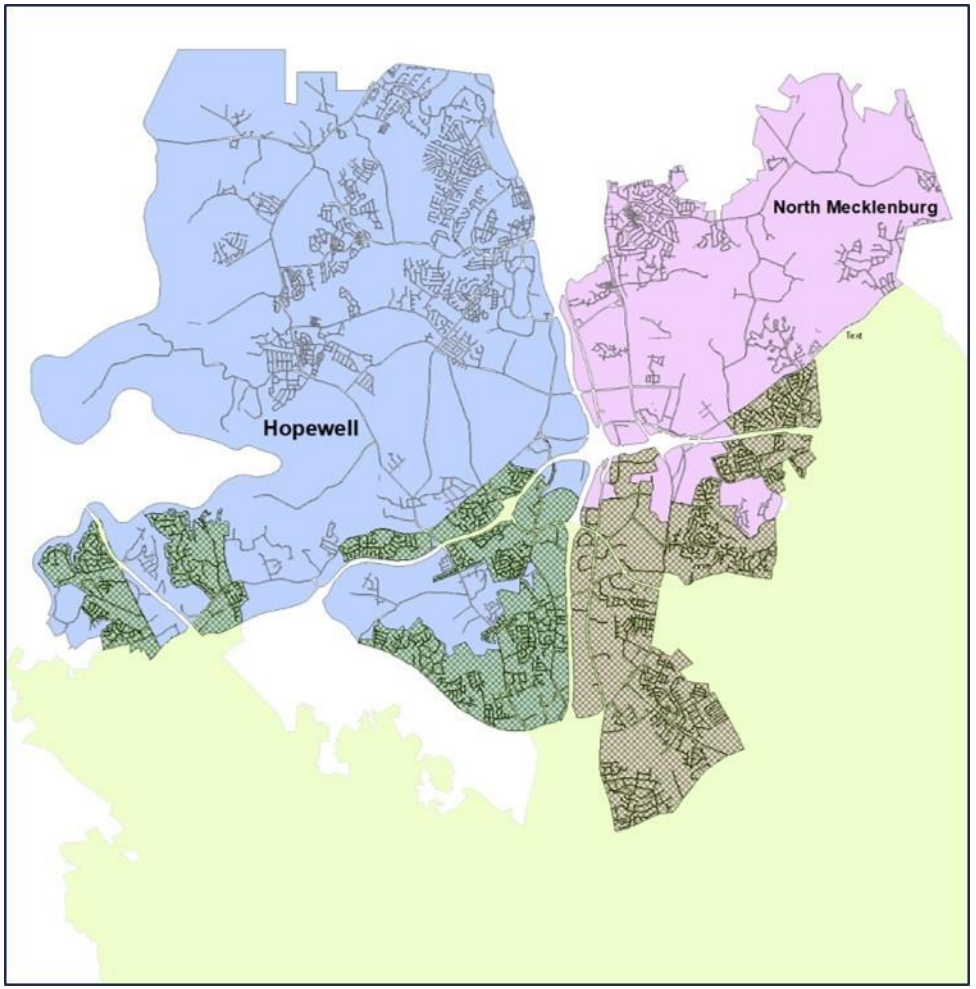
- Analyze sub-option of operating a charter satellite campus
- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Possibly partner with Huntersville (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit and review interest from local Charter School operators that meet or exceed the aforementioned requirements

Option 5: New LEA

- Using Current CMS North Mecklenburg boundaries

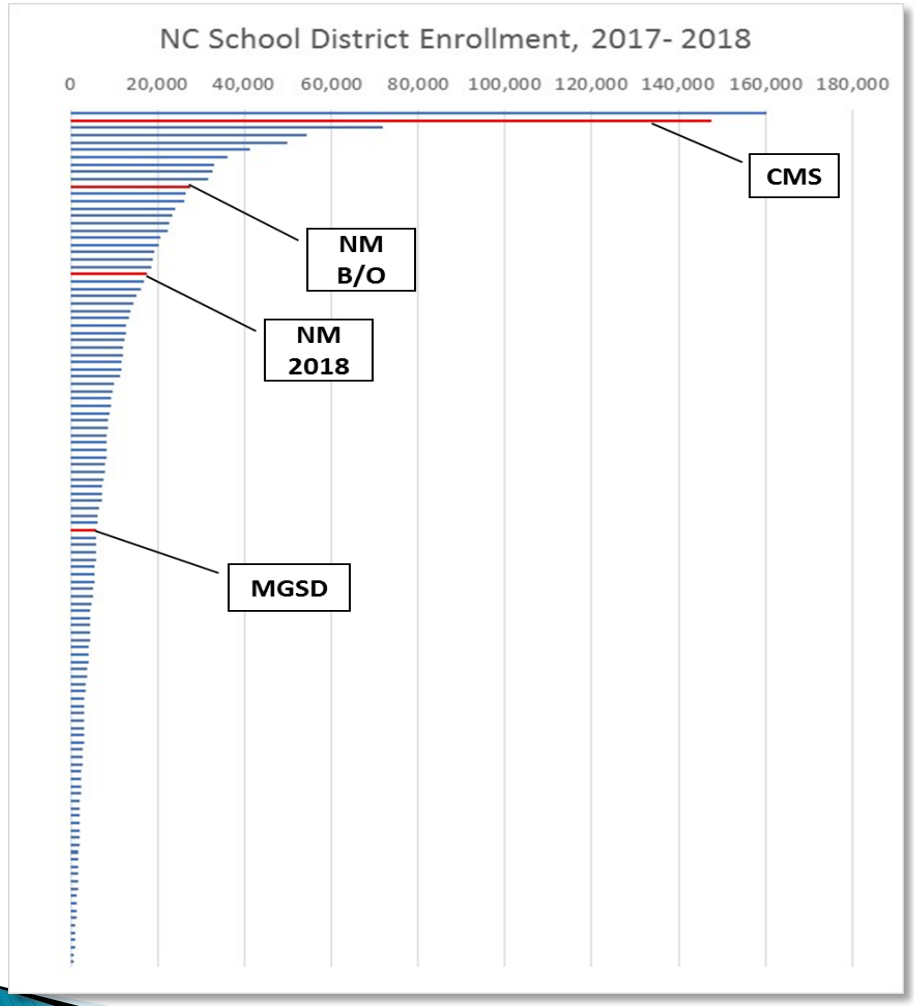
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

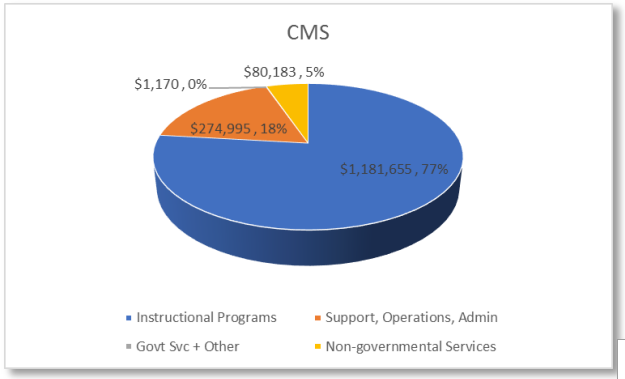
Comparison to Existing LEAs



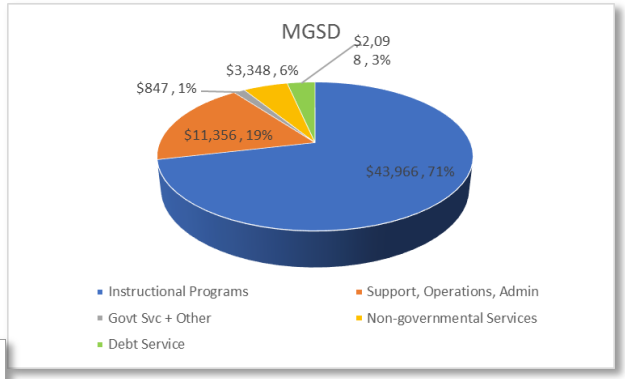
- At current enrollment a North Meck LEA would be the 23rd largest school district in NC
- At buildout a North Meck LEA would be the 11th largest school district in NC

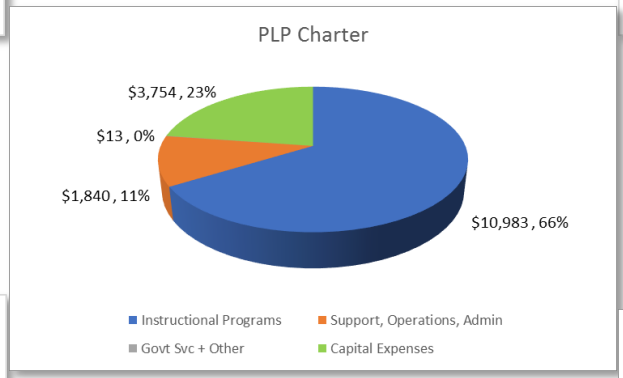
Source: "Size of Local School Districts", Joint Legislative Study

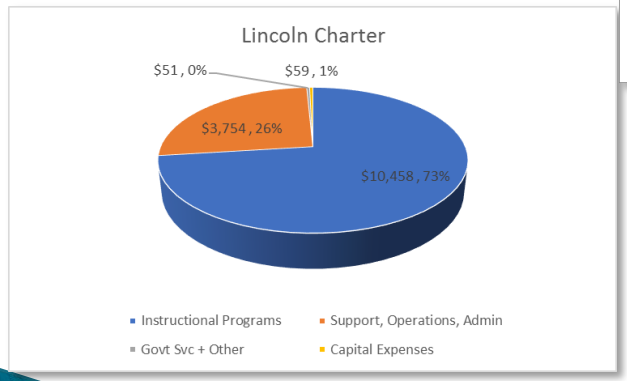
Various Cost Structures



Economies of scale not evident between MGSD & CMS







Operating strategies differ between charter schools

Rounded to whole buildings

Option 5: New LEA

PROS

- Local control
  - Capital budget
  - Student assignment
  - Taxation
  - Board representation
- Fewer bureaucratic layers
- Tailored solutions
- Greater sense of community

CONS

- Politically difficult
- Potential loss of programming breadth

Option 5: New LEA

Sources of Leverage:

- Citizen involvement

Option 5: New LEA

Potential Outcomes:

- North Meck LEA
- LKN LEA

Option 5: New LEA

Next Steps:

- Determine legal process
- Perform revenue analysis
- Engage the community with round table meetings
  - Teachers
  - Parents
- Continue to study feasibility

Summary and Next Steps

- Based on the projection of the current and future facilities needs of the Cornelius and North Mecklenburg student population, and feedback received during this meeting, the CEOSC will finalize their findings of the 5 Options available to the Town of Cornelius to address future educational needs.
  1. Do Nothing
  2. Partner with CMS
  3. Open and Operate Municipal Charter School(s)
  4. Partner with an Existing Charter School
  5. Create a New LEA

- Final report date TBD, anticipated to be May 2019

Appendix

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035
Cornelius Population					
Elementary School	776	0.1	0.3	0.5	0.5
Middle School	1093	0.1	0.1	0.2	0.2
High School	2053	0.0	0.1	0.1	0.1

	Optimal School Size	2020	2025	2030	2035
Cornelius Population					
Elementary School	700	0.1	0.3	0.5	0.5
Middle School	1100	0.1	0.1	0.2	0.2
High School	1500	0.1	0.1	0.2	0.2

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Cornelius Population	34,248			37,124			40,000			40,000		
Elementary School	1,554	95	5	1,684	225	11	1,815	356	18	1,815	356	18

Cornelius School Pop Total	3,773	230	12	4,090	547	27	4,407	864	43	4,407	864	43

Est Construction Cost:
Source MGSD Dec 2018
Partial building cost applied

*Assessment of capital needs based on optimal school size

LED Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County	
Cornelius Elementary	Elementary	Cornelius	780	-132	648	634	97.8%	4	0.6%	1	0.2%	7	1.1%	2	0.3%

Hi all,
I just sent a Doodle poll for y'all to complete so we can get this meeting scheduled.

Also, attached is the preliminary report from our colleagues in Cornelius. They have done a very thorough job of pulling supporting data into their presentation - something I think we should do also.

All,

Sorry, but I just checked my home calendar and was reminded I will be out of town the weekend of April 20. I could be available via phone for a conference call if the group still decides the morning of April 20 works best. My calendar is fairly open between now and our next meeting on April 22 if we want to circulate other dates/times.

Thanks,

Eric Rowell

Attachment : HEOSC_Report for HEOSC 4-29-19.pptx;

Thanks, Mike, for your thoughtful comments. I have inserted your recommended changes as appropriate for tonight's presentation; holding the others for the final presentation/report.

Thanks, also, Carrie and Amie for your recommendations - those have been added as well.

I have attached the slide deck for tonight's presentation. You will notice that I have moved the slide referencing HB 514 and the newly added Municipal Concerns Act slide to the front of the presentation. I felt like these two elected body actions are what set the stage for why the Town created the HEOSC. I will not be reviewing or referencing the Appendix - that will be for our dialogue at the next meeting in preparation for the final report to the Board.

Subject: FEEDBACK ON HEOSC PLANNING

1. APRIL 29 PUBLIC INPUT NIGHT

We are considering the April 29, 2019 evening as an opportunity for the public to learn more about the work of the Huntersville Educational Options Study Commission (HEOSC). The hope is that by being provided a "preliminary report" from HEOSC, community members will be able to provide our group more meaningful feedback and input PRIOR to our final report including prioritized recommendations for the Huntersville Town Commissioners.

We are being very open and transparent providing such a detailed and comprehensive PRELIMINARY REPORT to the public three weeks before our final presentation on May 20. However, by doing so, we may be putting ourselves a bit at risk for potential errors in the report that we have not fully identified to date.

As a result, I would want us to stress very clearly this report is only a very PRELIMINARY DRAFT. By having this document being available to a wide variety of people, we may get embarrassed by some oversight in the preliminary report, but may also benefit from "more eyes" on the report and a community member may identify an issue for us PRIOR to the most important matter---providing a thorough comprehensive report to the Town of Huntersville on May 20, 2019.

2. PREPARATION FOR OUR FINAL REPORT ON MAY 20, 2019

As we prepare our final report AFTER the April 29, 2019 Public Input Session, I would suggest we consider the following additions to our report:

A. A slide to highlight the key factors the Town Commissioners asked us to consider when prioritizing the five options in our final report. We may consider saying the following:

"Our Huntersville Educational Options Study Commission for approximately the past six months has diligently studied the project we were asked to address. We were asked to prioritize the five options to relieve overcrowding of schools in our community. These options were prioritized after much study and deliberation. We utilized the following criteria provided us by the Town of Huntersville Commissioners:

- The Study Commission shall use the information gathered, and, through a deliberative process, prioritize the options studied, taking into account financial and legal feasibility, effectiveness to reduce overcrowding of schools in Huntersville, efficiency, and ease of implementation.

B. Consider a section in the final report located AFTER the final prioritized options, but PRIOR to the appendix that would provide some "SUGGESTIONS" to the Town Commissioners that would include topics that may assist the Town that we discovered in our lengthy due diligence process. The section may include ideas such as the following:

* As the Town moves forward reviewing the HEOSC final report, we would suggest collaborating with the Town of Cornelius. As a HEOSC, our group coordinated our study with the CEOSC over the past six months. We discovered we were identifying many of the same challenges with CMS as well as the same potential opportunities for solutions. While the needs of the town of Huntersville do not perfectly align with the needs of Cornelius, they are close enough to warrant a partnership going forward.

* While developing a new LEA for Huntersville/Lake Norman /North Mecklenburg region was one of the lowest priorities recommended by the HEOSC, we believe it is ultimately the best option to improve the overall quality of education for the students in our community. We would suggest the Town continue to look for opportunities to advocate for this type of solution.

*We would like to suggest the Town of Huntersville work to become an even stronger supporter of charter school development the in the area. Perhaps the Town could put together a plan to identify ways to make the ability to develop a charter school in the Town as smooth and barrier free as possible. Being an "incubator" for charter schools in the area will assist in relieving overcrowding an create opportunities to improve the quality of education for our children of the community.

* We would suggest the Town of Huntersville continue to work diligently with CMS to change what many believe is the primary reason adequate classroom space is NOT being provided the students in North Meckenburg County. The "rubric" CMS utilizes for school and classroom space planning does not appropriately consider the usual and customary measures school planning professionals utilize throughout the nation for planning the needs for classroom space in a community. CMS uses a "certificate of occupancy" for determining a need versus a method that utilizes factors such as town "planned housing developments" and a factor as to how many students would be attending school per house. A second key factor in CMS poor planning is the continued use of portable classrooms. Portable classrooms should be only TEMPORARY solutions to overcrowding. CMS appears to plan as if these units are long term solutions to relieve overcrowding.

3. FEEDBACK ON THE APRIL 29. 2019 PRELIMINARY REPORT POWERPOINT

A. PAGE 14: The reference to the Town of Huntersville contributing 1.7 M???Over what period of time???

B. PAGE 15: We reference a "rubric" in the PROS...should we say something like a "school construction planning rubric"

C. PAGE 19 : I want to confirm the statement of the "Municipality's governing body composition"

D. PAGE 20: "Operational expenses fully funded....."??? Perhaps it should say---Operational expenses should be able to be meet the ongoing needs from local, state, and federal payments.

E. PAGE 22: "2-4 years to open"??? Stating the Fall 2022 is the earliest we could open a school even with "all planets aligning"

F. PAGE 32: When we reference a potential new LEA and the tax base...I believe there is a relatively simple calculation for determining the "wealth" of a "local unit of government" or "taxing body". Why would we not perform a calculation of the "ASSESSED VALUE per Property Tax Payer" in Huntersville versus a similar statistic for all of CMS.
In comparing school districts and their relative wealth in providing services to students in Illinois we had a calculation that identified each school district's "EQUALIZED ASSESSED VALUE OF PROPERTY PER

PUPIL". It provided one a quick estimate of a school district's "ability to pay" and assisted in determining to what degree a community "effort" tax wise could go into providing services.

G. PAGES 34 and 35: While I think the information is good and helpful, these pages offer "Opportunities" and "Threats"...not consistent with the format of the other sections. I am not suggesting we drop these pages...just confirming this is what we want.

H. APPENDIX: I am not so sure how wise it is to include the Appendix in our presentation to the community on April 29. I would want more time for our HEOSC and Huntersville Town staff to review the accuracy of these documents. I understand having a comprehensive appendix will be helpful with our final report to preserve a great amount of detailed work performed by our group.

I. MUNICIPAL CONCERNS ACT OF 2018 approved by Resolution by the CMS Board on October 30, 2018: Should we consider some slide either for April 29 or for sure for the May 20 report that highlights the ACT. But most importantly, as we make our recommended priorities to the Town of Huntersville that the "weighty calculus" of this ACT could have on Huntersville is a high priority for the Town officials...over our "pay grade" as a Commission.

These are a few thoughts as you prepare the report for us on Monday.

Mike Sass

HEOSC Preliminary Report
April 29, 2019

Huntersville
NORTH CAROLINA

Huntersville Educational Options Study Commission (HEOSC)

- Purpose
- Members
- Projected Enrollment
- Option Evaluations
- Summary and Considerations
- Appendix

Purpose of the HEOSC

On October 15, 2018, Huntersville Commissioners established the Huntersville Educational Options Study Commission.

The Commission was established to evaluate options available to the Town of Huntersville to reduce overcrowding within the public school system in Huntersville. Those options, presented based on ease of implementation, are:

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Dividing the Charlotte Mecklenburg LEA into smaller LEAs

HEOSC Members

Karen Bentley - Chair
Al Desciscio
Bill Farber
Amie Hutchison
Derek Partee
Jim Puckett
Eric Rowell
Mike Sass
Bobbie Shields
Carrie Warren

House Bill 514

AN ACT TO PERMIT CERTAIN TOWNS TO OPERATE CHARTER SCHOOLS

Governance Structure

- Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
- NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties

Municipal charters can prioritize enrollment to students in the municipality

Employment requirements

- Municipal charters can employ teachers provided
  - at least 50% hold teaching licenses
  - All teachers of core subjects (science, math, social studies, language arts) are college graduates
- Municipal charters can employ/discharge others to perform non-teaching duties
- Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

The Municipal Concerns Act of 2018

A RESOLUTION TO ADDRESS THE CONCERNS ABOUT PUBLIC EDUCATION IN MECKLENBURG COUNTY AS ENUMERATED BY THE MUNICIPALITIES LOCATED WITHIN MECKLENBURG COUNTY TO THE CHARLOTTE-MECKLENBURG BOARD OF EDUCATION ("Resolution") - approved by CMS BOE 10/30/18

Article II – Priority of Capital Spending in Certain Municipalities

- To ensure the Board upholds its fiduciary responsibility to the taxpayers of Mecklenburg County, the Board instructs the Superintendent to prioritize all future capital funding to projects that are located within the municipal limits of Charlotte, Davidson, and Pineville, none of which were included in North Carolina General Assembly Session Law 2018-3 ("SL 2018-3"), and are therefore are unable to create and operate their own municipal charter schools.
- Article II shall not apply to any projects already included as part of the 2017 bond package or from a bond package approved prior to 2017 that is not already completed.
- Article II does not apply to any capital needed for repairs or maintenance at any existing school located in any of the Municipalities.
- Municipalities included under SL 2018-3 may be included in this section for priority spending upon the passage of a binding resolution by their elected Board of Commissioners guaranteeing a 15-year moratorium on enacting any section of SL 2018-3.
- Any municipality that is added to the list outlined in Article II Section 1 above by taking action prescribed in Section 4 above, shall immediately be removed from consideration under this Article should it take any action that can be construed to undo any binding resolution as described in Section 4.

The Need for Additional Capacity

Capital Needs Assessment Summary - Huntersville

1. Assessing Huntersville growth only, one elementary school will be needed by 2025, two elementary schools by 2030, and a middle school and high school by 2035.
2. Huntersville school age children will need ***23 additional classrooms by 2020***, and capacity will be constrained without significant re-assignment of Charlotte students out of Huntersville schools or the equivalent of a mid-sized Charter school in Huntersville.

	Avg School Capacity	2020	2025	2030	2035
Huntersville Population					
Elementary School	776	0.3	1.3	2.2	3.5
Middle School	1093	0.1	0.4	0.6	1.0
High School	2053	0.1	0.3	0.5	0.7

	Optimal School Size	2020	2025	2030	2035
Huntersville Population					
Elementary School	700	0.3	1.4	2.4	3.9
Middle School	1100	0.1	0.4	0.6	1.0
High School	1500	0.1	0.4	0.6	1.0

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Huntersville Population	65,780			78,860			91,939			110,000		
Elementary School	3,689	-211	-11	4,422	522	26	5,156	1,256	63	6,169	2,269	113
Middle School	1,487	-50	-2	1,783	246	12	2,079	542	27	2,487	950	48
High School	2,018	-88	-4	2,419	313	16	2,820	714	36	3,374	1,268	63
Huntersville School Pop Total	7,194	-349	-17	8,624	1,081	54	10,055	2,512	126	12,030	4,487	224

Adding the under-utilization in Huntersville schools to the analysis enables Huntersville to stem the urgent need for more schools a bit longer.

Estimated Construction Cost	in millions	$0	$25	$155	$180

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

- No pushback either legislatively or legally
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - **1896 students by 2025**
  - **3327 students by 2030**
  - **5302 students by 2035**
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for North Mecklenburg schools
- Continued strain in the relationship between North Mecklenburg and CMS

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

CONS

- Ongoing concerns about overcrowding can deter economic development and expansion in the region
- Continue to fund the capital needs of CMS outside of the Lake Norman area
- No control over where CMS draws lines for student assignment. This can negatively impact property values.

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Huntersville and CMS

Option 2: Partner with CMS

Current Partnering Agreements (Joint Use Agreements)

- Alexander Middle School- 12010 Hambright Road
- Barnette Elementary School Gym- 13659 Beatties Ford Road
- Bradley Middle School- 13345 Beatties Ford Road
- Huntersville Elementary School- 200 Gilead Road
- Torrence Creek Elementary School- 14550 Ranson Road

Represents a total investment by the Town of Huntersville of $1,170,159

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.
- Less divisive – public entities working together toward a common goal of positive educational outcomes
- Potential ability to influence rubric going forward

CONS

- Uncertainty of future improvements in our area
- Long timeline to solutions or results.
- No guarantee that any future elected political entities honor any prior negotiated deals
- Differing opinions and perspectives will still be present between Huntersville and CMS
- Continued lack of local control over education

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

CONS (continued)

- Lack of firm foundation on which to build a successful partnership
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.
- Uncertainty of site selection and bond assignments based on current rubric and definitions of overcrowding
- Differing opinions on many issues make partnership challenging (e.g. capacity definition, site selection, capital project rubric, mobile classroom use).

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).
- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.
- Town of Huntersville can agree to enact a binding resolution guaranteeing a 15 year moratorium on enacting any section of SL2018-3 as outlined in the CMS Municipal Concerns Act.
- Any group of citizens can follow the traditional charter school route outside of HB 514.

Option 3: Operate a stand-alone Municipal Charter School

Option 3: Operate a stand-alone Municipal Charter School

Estimated Timing

- 1 year approval process after application submitted
- 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
- Total timetable 2-4 years minimum to open school
- Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Promotes local control and increases parental choice
- Operational expenses should be able to be meet the ongoing needs from local, state, and federal payments.
- Local decisions made by local leaders; better planning and cooperation with Town of Huntersville
- Prioritizes enrollment for town children
- Reduces bureaucracy, increases efficiency, and lowers administrative costs

CONS

- Risk alienating local LEA
- Law may be changed/repealed to be less favorable; (e.g. charter cap)
- Legal challenges may occur
- Uncertainty over funding and perception of double taxation
- High initial liquidity needs and upfront expenses
- Siting/land issues, inability to fund land purchases without legislative change.

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Potential to relieve overcrowded schools
- Large pool of diverse potential charter school board members in North Mecklenburg coming from various educational/workforce backgrounds

CONS

- No guarantee for Charter approval
- Estimated time frame of 3-4 years for Charter school to open
- Potential loss of magnet school options under MEAC reassignment suggestion

Option 3: Operate a stand-alone Municipal Charter School

Sources of Leverage:

- Town's financial condition and bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Operate a stand-alone Municipal Charter School

Town Board Considerations:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges

Option 4: Partner with an Existing Charter School

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school
- Avoid learning curve associated with start-up process for school

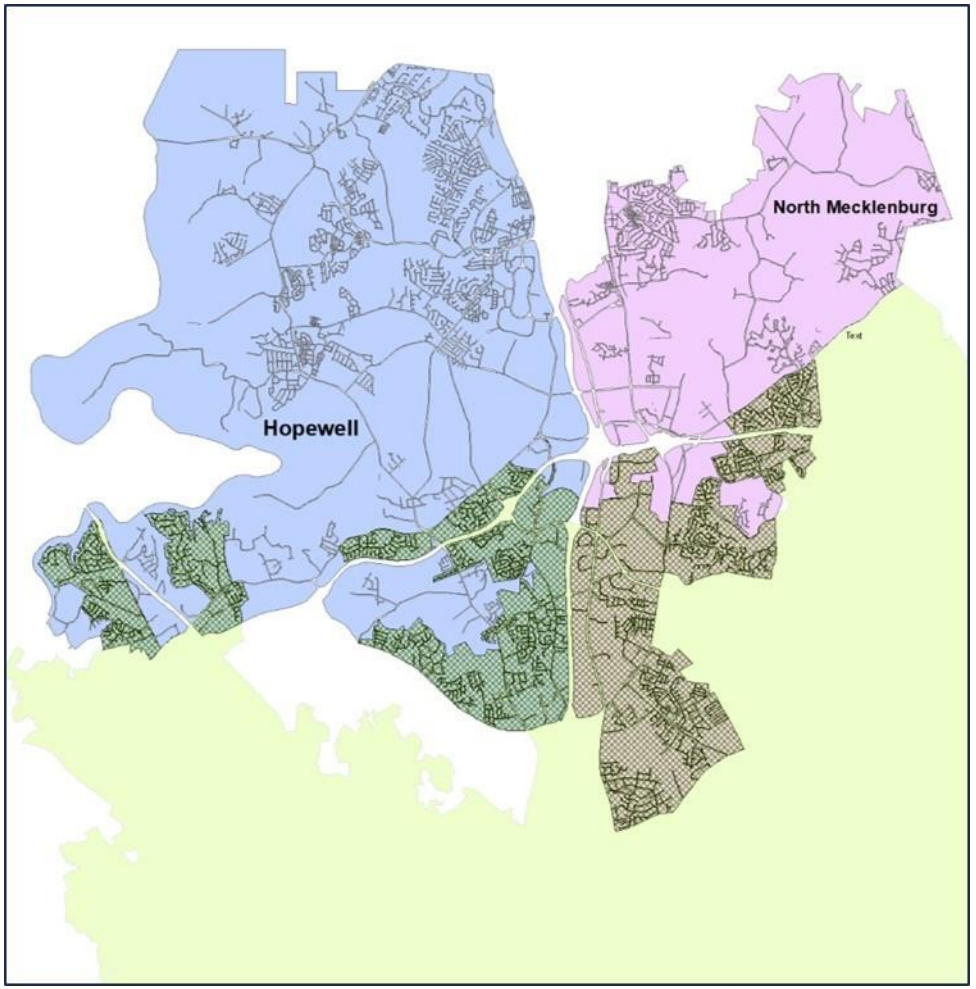
CONS

- Loss of total control over municipal sponsored charter school
- May not receive interest from preferred partner charter schools

Option 5: Dividing the Charlotte Mecklenburg LEA into smaller LEAs

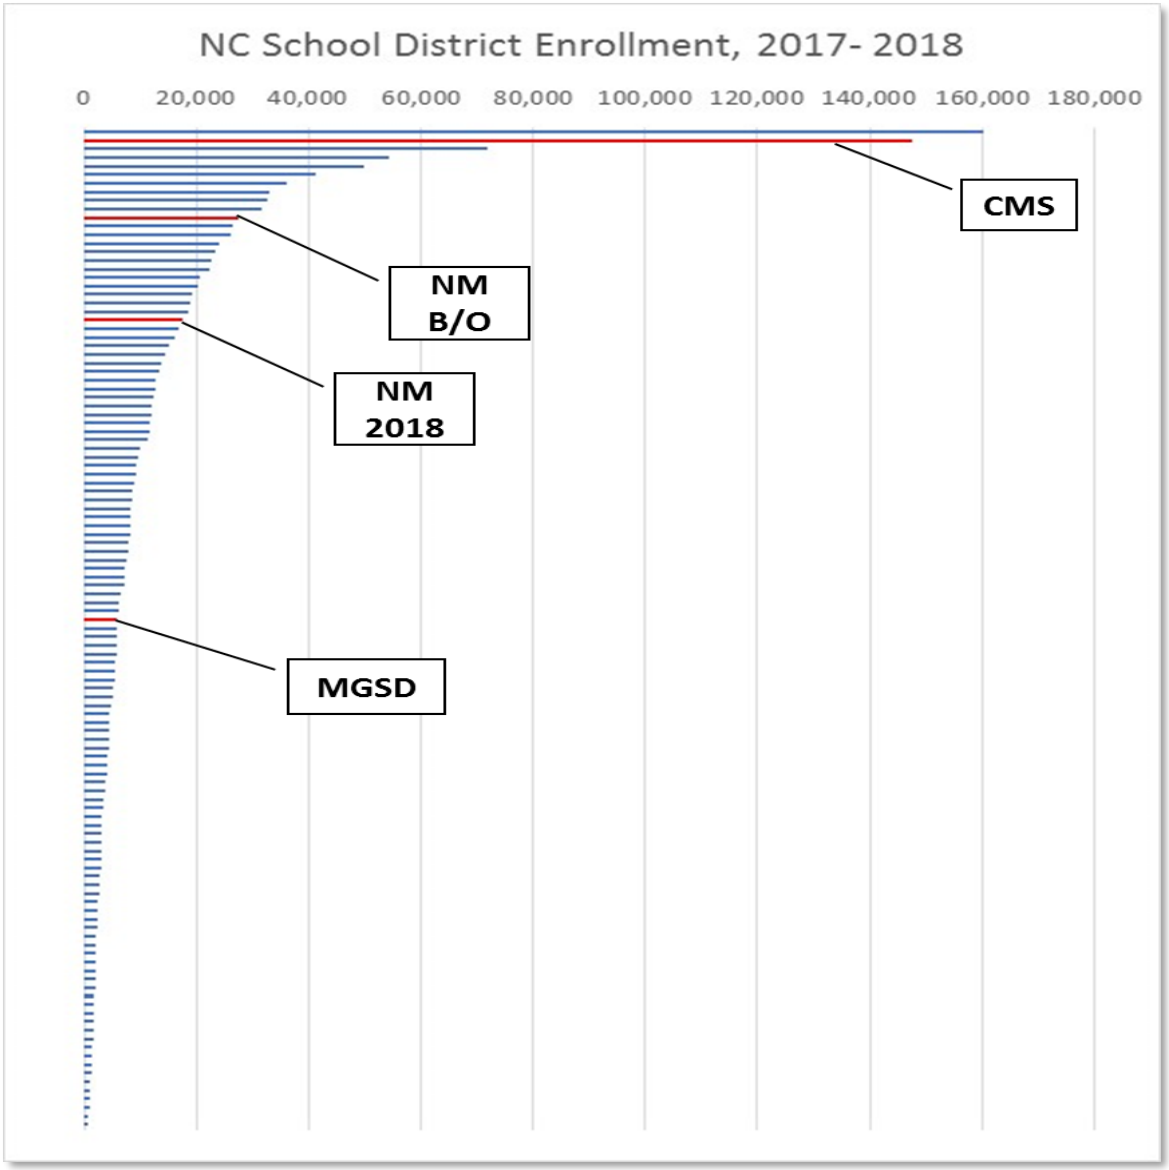
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

Comparison to Existing LEAs



- At current enrollment a North Meck LEA would be the 23rd largest school district in NC
- At buildout a North Meck LEA would be the 11th largest school district in NC

Source: "Size of Local School Districts", Joint Legislative Study

Huntersville Capital Needs Assessment – LEA Option

1. Adding in the over/under-utilization of the Huntersville schools does make a material difference in the school needs for Huntersville students
2. Huntersville school age children will need one additional elementary school by 2025, 3 elementary schools, 1 middle school and 1 high school by 2035.

* Estimated Construction Cost per building source: MGSD Dec 2018 - rounded to whole building

Analysis assumes correction of current over utilization vs. planned enrollment in existing N. Meck Schools

Current Over/Under Utilization	+ kids	# classrooms
N. Meck Elementary Schools	-193	-10
N. Meck Middle Schools	416	21
N. Meck High Schools	500	25

Option 5: Dividing Charlotte Mecklenburg LEA into smaller LEAs

PROS

- likely less expensive and more cost effective to operate than CMS
- property tax dollars used for education would stay local and benefit local students
- maximize money spent on education/learning instead of on educational bureaucracy
- greater parental choice, greater educational options in North Mecklenburg
- overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
- greater flexibility with curriculum and addressing concerns of parents than with CMS

CONS

- even at 30-35k students, still far above the national average school district size
- cost - (both strength and weakness) far higher than a single municipal charter, but likely still more cost-efficient than CMS
- commercial tax base less without contributions from commercial property in Charlotte, potential greater burden on North Mecklenburg homeowners
- uncertainty over costs/taxes/curriculum etc resulting in more difficulty in making the case to the public and elected officials to pursue this option

Option 5: Dividing Charlotte Mecklenburg LEA into a smaller LEAs

PROS

- More actual (not just perceived) local control of education
- More input for all stakeholders (parents, teachers, and staff)
- Studies and testimony presented support smaller districts as more efficient, while a possible North Meck LEA could still be large enough to take advantage of economies of scale
- easier access to school leadership
- more accountability of school leadership/teachers
- more permanent nature of a smaller LEA as opposed to just a single municipal charter, a smaller LEA would be a better long-term solution

CONS

- "regional" approach to education does not currently include Davidson
- potential zoning issues based on multi-jurisdictional district
- capital funding and land acquisition - still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land

Summary and Considerations

Summary and Next Steps

Based on the projection of the current and future facilities needs of the Huntersville and North Mecklenburg student population, and feedback received during the April 29, 2019 Public Input meeting, the HEOSC will finalize their findings of the 5 Options available to the Town of Huntersville to address future educational needs.

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Create a New LEA

Final report date May 20, 2019

Appendix

Option 3: Operate a stand-alone Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, becomes longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- Demonstrating best practices in options for alternatives in public education
- Could lead to increased ability to be an incubator for other charter school startups in the Lake Norman Region
- May strain relationship with local LEA

Option 3: Municipal Charter School Huntersville Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Huntersville Operating Budget

MUNICIPAL CHARTER SCHOOL							Base
FYE 6/30							
ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	(1,220)	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need **$1MM+** to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035
Cornelius Population					
Elementary School	776	0.1	0.3	0.5	0.5
Middle School	1093	0.1	0.1	0.2	0.2
High School	2053	0.0	0.1	0.1	0.1

	Optimal School Size	2020	2025	2030	2035
Cornelius Population					
Elementary School	700	0.1	0.3	0.5	0.5
Middle School	1100	0.1	0.1	0.2	0.2
High School	1500	0.1	0.1	0.2	0.2

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms
Cornelius Population	34,248			37,124			40,000			40,000		
Elementary School	1,554	95	5	1,684	225	11	1,815	356	18	1,815	356	18
Middle School	907	55	3	984	132	7	1,060	208	10	1,060	208	10
High School	1,312	80	4	1,422	190	10	1,533	301	15	1,533	301	15
Cornelius School Pop Total	3,773	230	12	4,090	547	27	4,407	864	43	4,407	864	43

*Assessment of capital needs based on optimal school size

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 5: Dividing Charlotte Mecklenburg LEA into a smaller LEAs

Town Board Considerations

- Not a short term solution to overcrowding
- Will need to muster the political will to pursue
- Convincing teachers of a better teaching environment in a smaller district
- Political makeup of a new school board - more receptive / responsive to voters in North Mecklenburg
- More/better focused growth and data projections, working closer with the Town planning staff on demographics / growth trends etc
- Regional approach to education would benefit not just education, also planning efforts
- Start the dialogue statewide over what the right size of a school district size even if this option not pursued by the town (s)
- Help set the template for how this option could be replicated in other areas of the state with similar concerns

Option 5: Dividing Charlotte Mecklenburg LEA into a smaller LEA

Town Board Considerations

- Any agreement to deconsolidate must come from NCGA, which is unlikely at this time
- Education policy continues to become more partisan, not less, so any large-scale solution is unlikely
- The sheer logistics / dynamics alone for such a change to the status quo how to unwind CMS, what to do with CMS assets in North Mecklenburg, would a constitutional amendment be necessary, etc?
- Political instability - locally and in Raleigh
- Potential lawsuits - who would bear the costs?
- CMS - unlikely to cease opposition efforts to change the status quo

LEA Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County	
Cornelius Elementary	Elementary	Cornelius	780	-132	648	634	97.8%	4	0.6%	1	0.2%	7	1.1%	2	0.3%
JV Washam Elementary	Elementary	Cornelius	780	339	1119	796	71.1%	272	24.3%	32	2.9%	12	1.1%	7	0.6%

This is awesome, Mike.

I very much agree with emphasizing that this is a preliminary report tomorrow and on not including the appendix until the final report.

I also like the idea of the suggestions section for the town board. At the meeting, we decided against giving them specific action items, but I like the more general ones you've outlined below. That would also be a great place the capture the spirit of what's on the Opportunities and Threats pages under the separate LEA option. I wasn't part of the decision to create those two slides, but my guess is that the point is to encourage our electeds to consider moving us toward a split as a long-term goal.

A slide on the municipal concerns act is another great idea. I'd like to see it right behind the slides explaining HB514. That way it gives the context for some of the cons.

See everyone tomorrow!
Carrie

Subject: FEEDBACK ON HEOSC PLANNING

1. APRIL 29 PUBLIC INPUT NIGHT

We are considering the April 29, 2019 evening as an opportunity for the public to learn more about the work of the Huntersville Educational Options Study Commission (HEOSC). The hope is that by being provided a "preliminary report" from HEOSC, community members will be able to provide our group more meaningful feedback and input PRIOR to our final report including prioritized recommendations for the Huntersville Town Commissioners.

We are being very open and transparent providing such a detailed and comprehensive PRELIMINARY REPORT to the public three weeks before our final presentation on May 20. However, by doing so, we may be putting ourselves a bit at risk for potential errors in the report that we have not fully identified to date.

As a result, I would want us to stress very clearly this report is only a very PRELIMINARY DRAFT. By having this document being available to a wide variety of people, we may get embarrassed by some oversight in the preliminary report, but may also benefit from "more eyes" on the report and a community member may identify an issue for us PRIOR to the most important matter---providing a thorough comprehensive report to the Town of Huntersville on May 20, 2019.

2. PREPARATION FOR OUR FINAL REPORT ON MAY 20, 2019

As we prepare our final report AFTER the April 29, 2019 Public Input Session, I would suggest we consider

the following additions to our report:

A. A slide to highlight the key factors the Town Commissioners asked us to consider when prioritizing the five options in our final report. We may consider saying the following:

"Our Huntersville Educational Options Study Commission for approximately the past six months has diligently studied the project we were asked to address. We were asked to prioritize the five options to relieve overcrowding of schools in our community. These options were prioritized after much study and deliberation. We utilized the following criteria provided us by the Town of Huntersville Commissioners:

- The Study Commission shall use the information gathered, and, through a deliberative process, prioritize the options studied, taking into account financial and legal feasibility, effectiveness to reduce overcrowding of schools in Huntersville, efficiency, and ease of implementation.

B. Consider a section in the final report located AFTER the final prioritized options, but PRIOR to the appendix that would provide some "SUGGESTIONS" to the Town Commissioners that would include topics that may assist the Town that we discovered in our lengthy due diligence process. The section may include ideas such as the following:

* As the Town moves forward reviewing the HEOSC final report, we would suggest collaborating with the Town of Cornelius. As a HEOSC, our group coordinated our study with the CEOSC over the past six months. We discovered we were identifying many of the same challenges with CMS as well as the same potential opportunities for solutions. While the needs of the town of Huntersville do not perfectly align with the needs of Cornelius, they are close enough to warrant a partnership going forward.

* While developing a new LEA for Huntersville/Lake Norman /North Mecklenburg region was one of the lowest priorities recommended by the HEOSC, we believe it is ultimately the best option to improve the overall quality of education for the students in our community. We would suggest the Town continue to look for opportunities to advocate for this type of solution.

*We would like to suggest the Town of Huntersville work to become an even stronger supporter of charter school development the in the area. Perhaps the Town could put together a plan to identify ways to make the ability to develop a charter school in the Town as smooth and barrier free as possible. Being an "incubator" for charter schools in the area will assist in relieving overcrowding an create opportunities to improve the quality of education for our children of the community.

* We would suggest the Town of Huntersville continue to work diligently with CMS to change what many believe is the primary reason adequate classroom space is NOT being provided the students in North Meckenburg County. The "rubric" CMS utilizes for school and classroom space planning does not appropriately consider the usual and customary measures school planning professionals utilize throughout the nation for planning the needs for classroom space in a community. CMS uses a "certificate of occupancy" for determining a need versus a method that utilizes factors such as town "planned housing developments" and a factor as to how many students would be attending school per house. A second key factor in CMS poor planning is the continued use of portable classrooms. Portable classrooms should be only TEMPORARY solutions to overcrowding. CMS appears to plan as if these units are long term solutions to relieve overcrowding.

3. FEEDBACK ON THE APRIL 29. 2019 PRELIMINARY REPORT POWERPOINT

A. PAGE 14: The reference to the Town of Huntersville contributing 1.7 M???Over what period of time???

B. PAGE 15: We reference a "rubric" in the PROS...should we say something like a "school construction planning rubric"

C. PAGE 19 : I want to confirm the statement of the "Municipality's governing body composition"

D. PAGE 20: "Operational expenses fully funded....."??? Perhaps it should say---Operational expenses should be able to be meet the ongoing needs from local, state, and federal payments.

E. PAGE 22: "2-4 years to open"??? Stating the Fall 2022 is the earliest we could open a school even with "all planets aligning"

F. PAGE 32: When we reference a potential new LEA and the tax base...I believe there is a relatively simple calculation for determining the "wealth" of a "local unit of government" or "taxing body". Why would we not perform a calculation of the "ASSESSED VALUE per Property Tax Payer" in Huntersville versus a similar statistic for all of CMS.
In comparing school districts and their relative wealth in providing services to students in Illinois we had a calculation that identified each school district's "EQUALIZED ASSESSED VALUE OF PROPERTY PER PUPIL". It provided one a quick estimate of a school district's "ability to pay" and assisted in determining to what degree a community "effort" tax wise could go into providing services.

G. PAGES 34 and 35: While I think the information is good and helpful, these pages offer "Opportunities" and "Threats"...not consistent with the format of the other sections. I am not suggesting we drop these pages...just confirming this is what we want.

H. APPENDIX: I am not so sure how wise it is to include the Appendix in our presentation to the community on April 29. I would want more time for our HEOSC and Huntersville Town staff to review the accuracy of these documents. I understand having a comprehensive appendix will be helpful with our final report to preserve a great amount of detailed work performed by our group.

I. MUNICIPAL CONCERNS ACT OF 2018 approved by Resolution by the CMS Board on October 30, 2018: Should we consider some slide either for April 29 or for sure for the May 20 report that highlights the ACT. But most importantly, as we make our recommended priorities to the Town of Huntersville that the "weighty calculus" of this ACT could have on Huntersville is a high priority for the Town officials...over our "pay grade" as a Commission.

These are a few thoughts as you prepare the report for us on Monday.

Karen,

Slides 33 and 34 have strange formatting - that might have been corrected already. I suggest you ask that questions be held until the end of the presentation to allow time to get through the entire presentation.

Thanks Mike for the awesome review and comments!

Bobbie

Subject: Re: FEEDBACK ON HEOSC PLANNING

Thanks, Mike, for your thoughtful comments. I have inserted your recommended changes as appropriate for tonight's presentation; holding the others for the final presentation/report.

Thanks, also, Carrie and Amie for your recommendations - those have been added as well.

I have attached the slide deck for tonight's presentation. You will notice that I have moved the slide referencing HB 514 and the newly added Municipal Concerns Act slide to the front of the presentation. I felt like these two elected body actions are what set the stage for why the Town created the HEOSC. I will not be reviewing or referencing the Appendix - that will be for our dialogue at the next meeting in preparation for the final report to the Board.

Attachment : HEOSC_Report for Town Board 5-20-19 (1).pptx;

Updated, per Carrie's and Jim's input. I have included the Decision Matrix, but only as a visual so the Board can understand the tool that was used to facilitate our final decision making process/dialogue. On the same slide, I have also listed the options in priority order based on our discussions. The following slide reflects the motion that was voted on unanimously by the Commission, with the additional acknowledgement that partnering with CMS is a consideration only in the context of a continuation of existing JUAs.

Thanks for your input...

Subject: Re: Final report

I don't see the decision matrix in this, what slide number, if it is there I agree we don't need to include as we stated there was not common basis for the ranking from member to member and was useful as a process tool not really a decision making tool.

As for the recommendation, we did conclude only the two options (with option two being a combination of two options with the choice to be determined by the town board after further review) I also believe Karen will speak to the lack of listing the last two options as being no option at all and therefore not recommended. The reason I say that is that for ME I would rank Do Nothing above Partner since CMS only offered up a willingness to take Huntersville taxes with no offer from them other than what they are currently doing. SO I would leave the ranking of those two to the board to decide if they want to get into funding education under some scenario other than a Municipal Charter since we do not deal in taxing issues.

Hi Karen,

Where is the prioritization of the five options? I'm only seeing three listed on the recommendations slide.

I was also under the impression that we were leaving the decision matrix out of the presentation. I recall that being the consensus based on the facts that we each approached the scoring differently and that we ultimately prioritized the options differently as well.

Thanks,
Carrie

HEOSC colleagues,
Attached is the final report for your review. Take special note of the "Recommendations" slide to make sure I have captured the essence of our conversation from last Monday. Also, note that I still have to add the information from the decision matrix. Also, Eric, I need your Incubator slide...

I would welcome any of you that are available to attend the meeting Monday night to do so.

Thanks,
Karen

I don't see the decision matrix in this, what slide number, if it is there I agree we don't need to include as we stated there was not common basis for the ranking from member to member and was useful as a process tool not really a decision making tool.

As for the recommendation, we did conclude only the two options (with option two being a combination of two options with the choice to be determined by the town board after further review) I also believe Karen will speak to the lack of listing the last two options as being no option at all and therefore not recommended. The reason I say that is that for ME I would rank Do Nothing above Partner since CMS only offered up a willingness to take Huntersville taxes with no offer from them other than what they are currently doing. SO I would leave the ranking of those two to the board to decide if they want to get into funding education under some scenario other than a Municipal Charter since we do not deal in taxing issues.

Derek Partee
Jim Puckett
Eric Rowell
Mike Sass
Bobbie Shields
Carrie Warren

Purpose of the HEOSC

On October 15, 2018, Huntersville Commissioners established the Huntersville Educational Options Study Commission.

The Commission was established to evaluate options available to the Town of Huntersville to reduce overcrowding within the public school system in Huntersville. Those options are:

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Dividing the Charlotte Mecklenburg LEA into smaller LEAs

Projected Enrollment

Note: no adjustment made for current enrollment over/under planned enrollment in existing N. Meck Schools

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

- No pushback either legislatively or legally
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - **1896 students by 2025**
  - **3327 students by 2030**
  - **5302 students by 2035**
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for North Mecklenburg schools
- Continued strain in the relationship between North Mecklenburg and CMS
- Ongoing concerns about overcrowding can deter economic development/expansion in the region

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Huntersville and CMS

Option 2: Partner with CMS

Current/Previous Partnering Agreements:

- 2003 Bailey Middle JUA
- 2004 Reallocation of Land Bond Dollars JUA for Hough
- 2005 Westmoreland Road Elementary(JV Washam) JUA
- 2015 Cornelius Elementary JUA

To Do:

- Add Huntersville's JUA's
- Add land already provided to CMS (between Hough and Bailey?

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.

CONS

- Uncertainty of future improvements in our area
- Long timeline to solutions or results.
- No guarantee that any future elected political entities honor any prior negotiated deals

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet current and future capacity needs.

PROS

- Less divisive – public entities working together toward a common goal of positive educational outcomes
- Potential ability to influence rubric going forward

CONS (continued)

- Differing opinions and perspectives will still be present between Huntersville and CMS
- Potential loss of magnet school options under MEAC reassignment suggestion
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development.
- Lack of firm foundation on which to build a successful partnership

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Huntersville and CMS that promotes a quality and efficient educational experience for Huntersville students in school buildings that meet capacity needs.

PROS

CONS (continued)

- Continued lack of local control over education
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.
- Uncertainty of site selection and bond assignments based on current rubric and definitions of overcrowding

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).

- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.

- Town of Huntersville can agree to [INSERT LANGUAGE IN MUNICIPAL CONCERNS ACT] opt out of HB 514 as requested by CMS.

- Any group of concerned citizens can follow the traditional charter school route outside of HB 514.

Option 3: Operate a stand-alone Municipal Charter School

Background on House Bill 514

- Governance Structure
  - Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
  - NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties

- Municipal charters can prioritize enrollment to students in the municipality

- Employment requirements
  - Municipal charters can employ teachers provided
    - at least 50% hold teaching licenses
    - All teachers of core subjects (science, math, social studies, language arts) are college graduates

  - Municipal charters can employ/discharge others to perform non-teaching duties

  - Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

Sources: https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Operate a stand-alone Municipal Charter School

- Estimated Timing
  - 1 year approval process after application submitted
  - 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
  - Total timetable 2-4 years minimum to open school
  - Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School Huntersville Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Huntersville Operating Budget

MUNICIPAL CHARTER SCHOOL							Base
FYE 6/30							
ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	(1,220)	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need **$1MM+** to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Promotes local control and increases parental choice
- Operational expenses fully funded through existing revenues
- Local decisions made by local leaders; better planning/cooperation with Town of Huntersville
- Prioritizes enrollment for town children
- Reduces bureaucracy increases efficiency, and lowers administrative costs

CONS

- Risk alienating local LEA
- Law may be changed/repealed to be less favorable; (e.g. charter cap)
- Legal challenges may occur
- Uncertainty over funding and perception of double taxation
- High initial liquidity needs and upfront expenses
- Siting/land issues, inability to fund land purchases without legislative changes

Option 3: Operate a stand-alone Municipal Charter School

PROS

- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Potential to relieve overcrowded schools
- Large pool of diverse potential charter school board members in North Mecklenburg from various educational/workforce backgrounds

CONS

Option 3: Operate a stand-alone Municipal Charter School

Sources of Leverage:

- Town's financial condition and bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Operate a stand-alone Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, becomes longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- Demonstrating best practices in options for alternatives in public education
- Could lead to increased ability to be an incubator for other charter school startups in the Lake Norman Region
- May strain relationship with local LEA

Option 3: Operate a stand-alone Municipal Charter School

Next Steps:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit citizen feedback

Option 4: Partner with an Existing Charter School

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school
- Avoid learning curve associated with start-up process for school

CONS

- Loss of total control over municipal sponsored charter school
- May not receive interest from preferred partner charter schools

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

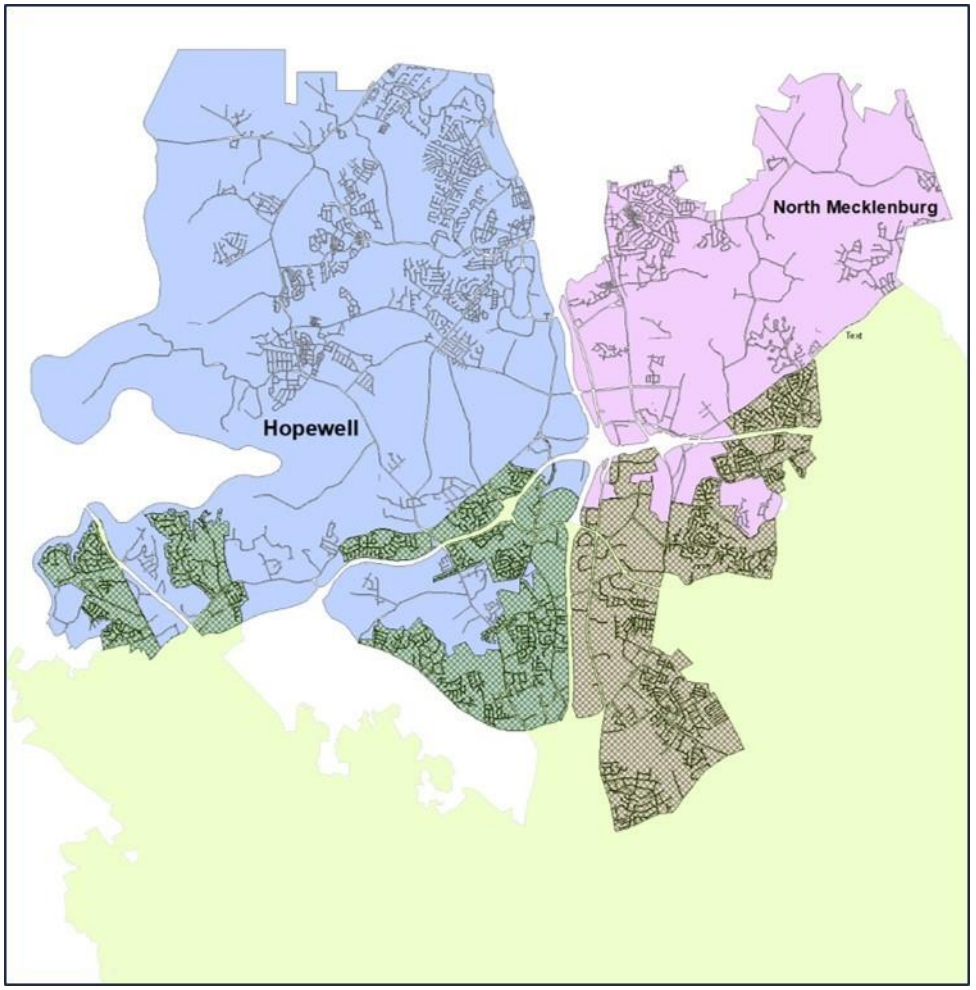
Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 5: Dividing the Charlotte Mecklenburg LEA into smaller LEAs

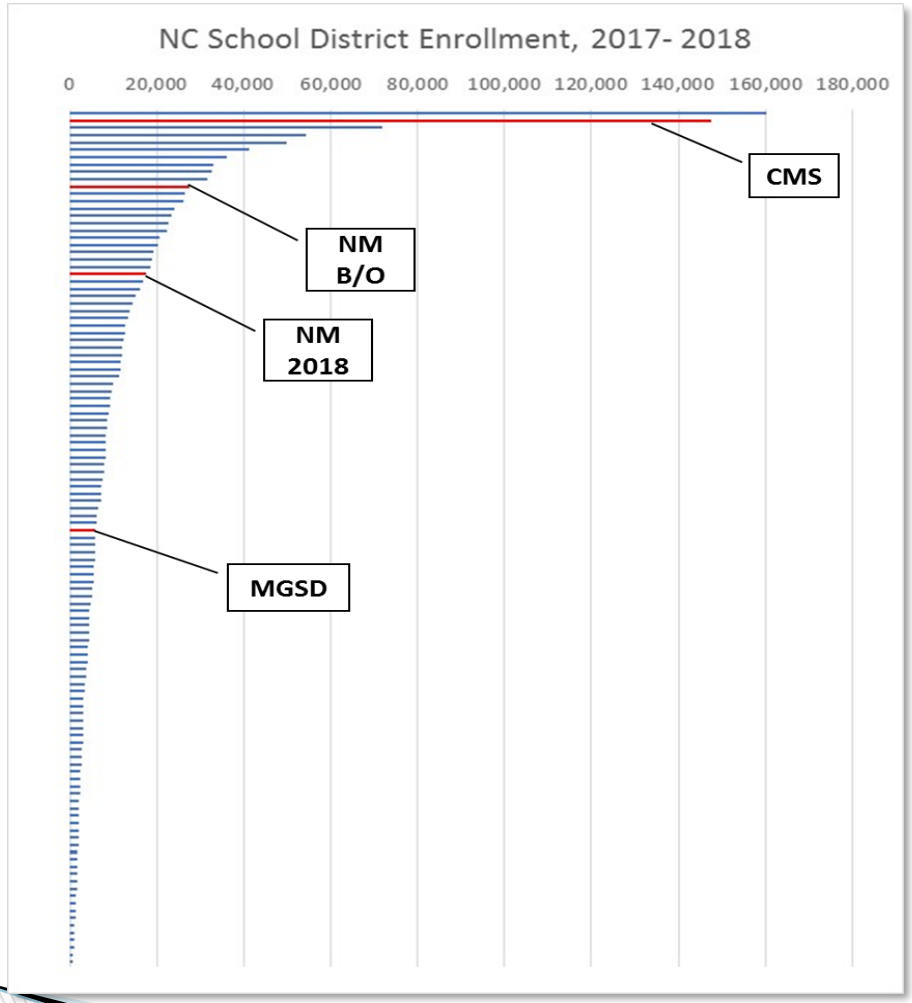
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

Comparison to Existing LEAs



- **At current enrollment a North Meck LEA would be the 23rd largest school district in NC**
- **At buildout a North Meck LEA would be the 11th largest school district in NC**

Huntersville Capital Needs Assessment – LEA Option

1. Adding in the over/under-utilization of the Huntersville schools does make a material difference in the school needs for Huntersville students
2. Huntersville school age children will need an additional elementary school by 2025, 3 elemtary schools, 1 middle school and 1 high school by 2035.

	2020	+ kids	# classrooms	2025	+ kids	# classrooms	2030	+ kids	# classrooms	2035	+ kids	# classrooms

Option 5: New LEA

PROS

- Local control
  - Capital budget
  - Student assignment
  - Taxation
  - Board representation
- Fewer bureaucratic layers
- Tailored solutions
- Greater sense of community

CONS

- Politically difficult
- Potential loss of programming breadth

Summary and Next Steps

Based on the projection of the current and future facilities needs of the Huntersville and North Mecklenburg student population, and feedback received during the April 29, 2019 Public Input meeting, the HEOSC will finalize their findings of the 5 Options available to the Town of Huntersville to address future educational needs.

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Create a New LEA

Final report date May 20, 2019

Charter School Incubator Option

- - Make Huntersville the most attractive place in the state for new/expansion charter schools
- - Even if Town Board moves forward with a municipal charter or partners with an existing charter, opening could be years away
- - In the interim, publicize Huntersville's need to reduce overcrowding and address future capacity and issue a Request for Proposals to charters statewide
- - Have Planning Dept. work with interested charter schools to identify impediments to building a new or expansion charter school in Huntersville (e.g., easing zoning restrictions, identifying potential school parcels, expediting requests)
- - Cont. to add to the educational diversity in Huntersville

Appendix

Capital Needs Assessment Summary - Huntersville

1. Assessing Huntersville growth only, an elementary school will be needed by 2025, two elementary schools by 2030, and a middle school and high school by 2035.
2. Huntersville school age children will need ***23 additional classrooms by 2020***, and capacity will be constrained without significant re-assignment of Charlotte students out of Huntersville schools or the equivalent of a mid-sized Charter school in Huntersville.

	Avg School Capacity	2020	2025	2030	2035
Huntersville Population					
Elementary School	776	0.3	1.3	2.2	3.5
Middle School	1093	0.1	0.4	0.6	1.0
High School	2053	0.1	0.3	0.5	0.7

	Optimal School Size	2020	2025	2030	2035

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035
Cornelius Population					
Elementary School	776	0.1	0.3	0.5	0.5
Middle School	1093	0.1	0.1	0.2	0.2

*Assessment of capital needs based on optimal school size

LED Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County

Subject: Re: Final report

Updated, per Carrie's and Jim's input. I have included the Decision Matrix, but only as a visual so the Board can understand the tool that was used to facilitate our final decision making process/dialogue. On the same slide, I have also listed the options in priority order based on our discussions. The following slide reflects the motion that was voted on unanimously by the Commission, with the additional acknowledgement that partnering with CMS is a consideration only in the context of a continuation of existing JUAs.

Thanks for your input...

Subject: Re: Final report

I don't see the decision matrix in this, what slide number, if it is there I agree we don't need to include as we stated there was not common basis for the ranking from member to member and was useful as a process tool not really a decision making tool.

As for the recommendation, we did conclude only the two options (with option two being a combination of two options with the choice to be determined by the town board after further review) I also believe Karen will speak to the lack of listing the last two options as being no option at all and therefore not recommended. The reason I say that is that for ME I would rank Do Nothing above Partner since CMS only offered up a willingness to take Huntersville taxes with no offer from them other than what they are currently doing. SO I would leave the ranking of those two to the board to decide if they want to get into funding education under some scenario other than a Municipal Charter since we do not deal in taxing issues.

Subject: Re: Final report

Hi Karen,

Where is the prioritization of the five options? I'm only seeing three listed on the recommendations slide.

I was also under the impression that we were leaving the decision matrix out of the presentation. I recall that being the consensus based on the facts that we each approached the scoring differently and that we ultimately prioritized the options differently as well.

Thanks,
Carrie

HEOSC colleagues,
Attached is the final report for your review. Take special note of the "Recommendations" slide to make sure I have captured the essence of our conversation from last Monday. Also, note that I still have to add the information from the decision matrix. Also, Eric, I need your Incubator slide...

I would welcome any of you that are available to attend the meeting Monday night to do so.

Thanks,
Karen

Thanks Christy for your reply and yes you have the request we have made multiple times including in person with Dr. Wilcox when he spoke before our committee. I hope Natasha and Elaine will respond as you have. I am reminded of a great quote I heard lately from Brene Brown, "Brave Leaders are never silent around hard things".

Jim et al (Media removed):

Thank you so much for sending over the PowerPoint.

As I noted before, HB 229 was sent to Rules without a referral to Education. In effect, that means the bill is dead. Despite what media says about it, I would be shocked if Representative Lewis put the bill forward for a vote in committee. I am intentionally not a co-sponsor of the bill because I do not support it. I will speak to Rep. Alexander about HB 229, but again this bill is not going to move. Crossover day is May 9th, so this bill will be dead for the session at that time.

Again, I have already stated that I will support the municipal charter should it come to fruition in order to ensure its long term success. I think you would agree that everyone's main goal is to ensure that the children of North Mecklenburg have the best public education opportunities that are diverse and inclusive.

On the other subject -- I want to make sure I understand what you are requesting from CMS. You would like a breakdown of facilities spending in North Mecklenburg from years 1985 to present. Is that correct? If not, please let me know exactly what you are requesting.

Regards,
Representative Clark

Subject: Re: Follow up to your reply re: HB 514 and 229

Elaine, thanks for coming last night. Natasha and Christy what follows, in my opinion, is equally relevant to you and your positions.

Elaine, Ido not believe you have replied to the request below. I have attached the power point from last night in case you didn't have a copy. You will note on slide 23 one of the concerns we have is the uncertainty about future legislation regarding HB 514 (two media reports last night also noted the HB 299 legislation as a factor). I would be MOST helpful I believe to this committee as well as our sister committee in Cornelius as well as both town boards to have a firm understanding of where our elected representatives stand on this issue. It is extremely important in my opinion for transparency that the town boards know if our elected representatives, who fund CMS, are in support or in opposition to the present pending legislation. While I understand it is currently in committee (HB 299) it is usually the case that those who represent the communities in question make their position on the matter public. I would further ask that if you are in opposition to HB 299 (I assume you have now educated yourself on this issue) you will publicly ask the sponsors of the bill to remove it as it is aimed at YOUR constituents not theirs. At this time my notes only reflect that you are not familiar with this issue and that you have decided not to take any leadership towards it one way or the other. Knowing your interests in transparency and assuming you feel you have an obligation to engage in pubic education issues since nearly 1/2 of the county budget is spent there I feel we are owed some indication of support or opposition and your plans to those ends.

On a related subject, our committee an the town of Huntersville have repeatedly asked CMS for a breakdown of facilities spending in north Mecklenburg for the period prior to the landmark federal busing case and the subsequent spending after. CMS has made a great

deal about the funds spent from 2000 to present but have told us for months they can't seem to discover the amount of funding spent (or more accurately not spent) in the 15 years prior to being forced to make up for under serving our community. Both the legislature and the BOCC are soon to be offering their budget to CMS. I would hope as representatives of the taxpayers of our area you would join the town in requesting what should be readily available data. I/we feel it is important that the public be provided a balanced offering of fact, not only those facts that benefit the agenda of one side.

Subject: Follow up to your reply re: HB 514 and 229

Elaine, thanks and I am hoping you will take the time to learn about HB 229 and if you disagree please publicly let those pushing the legislation know of your request they withdraw it from committee and any further consideration on behalf of those you represent (they are like yourself Democrats so more likely to give your opinion serious consideration than say mine). You maintain the bully pulpit and are the voice for those you represent. While you are of course free to form your opinion based on principle and study of the issues you do not have the right to remain silent on the issue when you office requires you to "speak" for those you represent. Your position becomes part of the process and those who are engaged in acting as part of the process have the right to know where you stand as well. The BOCC controls nearly 1/3 or CMS's operating budget and all of their capital investment. It is that leverage, that you control on behalf of your constituents, that allows the towns and those in public education to make decisions, but only to the extent that you honor your duty and be transparent in the process.

Former Commissioner Karen Bentley and myself both spoke on behalf of the citizens of Huntersville and Cornelius when the issue of HB 514 came up and encouraged the towns to participate. We have also since then felt that the issue of education and the actions of CMS are of such importance that we continue to actively work towards change. Part of our work on behalf of the Town of Huntersville is to actively participate in the actions taken in Raleigh that impact education in our area and NOTHING has a greater potential for a positive impact than the opportunities afford by HB 514 and likewise the threat of HB 229. It is important that the town and the citizens understand where those who represent them stand so we can know how to best engage those elected in the process. So while I appreciate your rather generic support of education I would hope you would take the responsibility of leadership and let us know your personal and political opinions on these two pieces of legislation so we can be prepared with that knowledge as action in the future becomes needed. You speak of listening and transparency, both admirable in a leader, but action and resolve are what are required of those holding elected office.

It is important that those trying to set a course for the future (in this case the Huntersville and Cornelius Town Boards) know all they can about the environment in which they will make decisions and one of the most important facts toward that end is where those elected to office stand on the issues of the day. Our committee is in part gathering the facts and options available and part of that is knowing the position of those in position of impacting future slated legislation or opposition to current legislation. The chairwoman of the BOE and the Superintendent Wilcox were kind enough to meet with us and let us know their position on HB 514 and their support for HB 299, I hope you will offer us the same respect.

HEOSC Report to Huntersville Town Board
May 20, 2019 - DRAFT

Huntersville Educational Options Study Commission

- Purpose
- Members
- Needs State
- Option Evaluations

Purpose of the HEOSC

On October 15, 2018, Huntersville Commissioners established the Huntersville Educational Options Study Commission.

The Commission was established to evaluate options available to the Town of Huntersville to reduce overcrowding within the public school system in Huntersville. Those options are:

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Dividing the Charlotte Mecklenburg LEA into smaller LEAs

HEOSC Members

Karen Bentley - Chair
Al Desciscio
Bill Farber
Amie Hutchison
Derek Partee
Jim Puckett
Eric Rowell
Mike Sass
Bobbie Shields
Carrie Warren

Note: no adjustment made for current enrollment over/under planned enrollment in existing N. Meck Schools

Option 1: Do Nothing

- Continue with the status quo allowing CMS to solve for overcrowding as they see fit

Option 1: Do Nothing

Objective: Continuing with the status quo where CMS addresses overcrowding and capital needs on their terms and timeframes

PROS

- No pushback either legislatively or legally
- Appeases those satisfied with current school status
- No monetary cost to the town
- No required effort from town officials

CONS

- No real, long-term solution for overcrowding, especially with the forecasted population growth
  - **1896 students by 2025**
  - **3327 students by 2030**
  - **5302 students by 2035**
- No new classroom buildings in our region for at least 15 years
- No equitable distribution of resources for Lake Norman schools
- Continued strain in the relationship between Lake Norman region and CMS
- No control over where CMS draws lines for student assignment. This can deter economic development/expansion over concerns about school capacity.

Option 2: Partner with CMS

- Create a collaborative educational partnership between the Town of Huntersville and CMS

Option 2: Partner with CMS

Current/Previous Partnering Agreements:

- 2003 Bailey Middle JUA
- 2004 Reallocation of Land Bond Dollars JUA for Hough
- 2005 Westmoreland Road Elementary(JV Washam) JUA
- 2015 Cornelius Elementary JUA

To Do:

- Add Huntersville's JUA's
- Add land already provided to CMS (between Hough and Bailey?

Option 2: Partner with CMS

Objective: Create a partnership between the Towns of Cornelius and Huntersville and CMS that promotes a quality and efficient educational experience for N. Meck students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

- No legislative requirement at state or county level
- Potentially more cost effective than other options
- Utilizes resources already in place with CMS – transportation, staff, food service, specialists, etc.

CONS

- Possibility of no improvements in our area
- Long timeline to solutions or results.
- If a deal is reached, no guarantee that a newly elected board would continue to honor that deal
- Cornelius pays 4.3% of total property taxes and makes up 2.7% of the county population – add huntersville tax/pop

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

- Less divisive – public entities working together toward a common goal of positive educational outcomes
- Potential ability to influence rubric going forward

CONS (continued)

- Differing opinions and perspectives will still be present between N. Meck towns and CMS
- Potential loss of magnet school options under MEAC reassignment suggestion
- No control over where CMS draws lines for student assignment. This can negatively impact property values and business development.
- Perception of a lack of advocacy of N. Meck representation on CMS school board

Option 2: Partner with CMS

Objective: Create a partnership between the Town of Cornelius and CMS that promotes a quality and efficient educational experience for Cornelius students in school buildings that meet capacity needs.

- Through this partnership, devise a plan to address present and future population growth in the Lake Norman area and provide an equitable distribution of funding and resources.

PROS

CONS (continued)

- Continued lack of local control over education
- We do not agree with the CMS definition for capacity as we do not consider modular classrooms a good solution.
- Uncertainty of site selection and bond assignments based on current rubric and definitions of overcrowding
- Historically partnerships with CMS have proven to be less than beneficial for this area

Option 2: Partner with CMS

Sources of Leverage:

- Land – current town-owned land is limited with no viable locations, possible developer incentives with future developments (i.e., trade land to build a school for revised density requirements).
- Financial incentives to partner in building new facilities as the town has with previous JUAs. Town can offer to pay for athletic fields, playgrounds, gyms, theaters, etc., for new buildings in our town.
- Town of Huntersville can agree to opt out of HB 514 as requested by CMS.
- Any group of concerned citizens can follow the traditional charter school route outside of HB 514.
- Campaign to rally the court of public opinion.

Option 2: Partner with CMS

Potential Outcomes:

- Form a CMS advisory board with representation from Cornelius, Davidson and Huntersville. Consideration can also be given to creating a larger board with representation from Pineville and Matthews.

- Build relationship with the CMS school board to be a stronger advocate for the needs of our area.

- According to the Municipal Concerns Act Article III Report, a consideration for relief for Cornelius at the high school level would be to reassign 750 students to Huntersville schools. Based on a planned 2000 students at Hough, it is currently at 127% capacity. This relief would *temporarily* bring Hough to 90% capacity, leaving room for student population growth. This is only a short term solution as HS overcrowding is a real issue in 2025.

- Once current overcrowding is addressed, work with CMS to create a plan to build future buildings or improve current facilities.

Option 2: Partner with CMS

Next Steps:

- Set up meeting with representatives from CMS, including Superintendent Dr. Wilcox.
- Work with planning board to develop list of potential sites for new schools.
- Review past and current partnerships with CMS to define parameters of future partnerships with CMS.
- Work with CMS on redrawing boundaries and district lines to better accommodate LKN municipalities. Develop a plan to communicate changes to property owners.
- Explore options to expand current buildings at Bailey and Hough to accommodate more students without modulars. Possibilities may include more classrooms, expand cafeterias or add enclosed outdoor seating, and add a new building for eight and ninth grades between Bailey and Hough.

Option 3: Operate a stand-alone Municipal Charter School

- Using Current CMS North Mecklenburg boundaries

Background on House Bill 514

- Governance Structure
  - Municipality's governing body can serve as ex officio board or appoint one to govern its municipal charter school
  - NC Office of Charter Schools provides technical assistance, guidance and training to municipal charter schools, as part of its duties

- Municipal charters can prioritize enrollment to students in the municipality

- Employment requirements
  - Municipal charters can employ teachers provided
    - at least 50% hold teaching licenses
    - All teachers of core subjects (science, math, social studies, language arts) are college graduates

  - Municipal charters can employ/discharge others to perform non-teaching duties

  - Municipal charters' employees can participate in the state retirement and health system for teachers and state employees

Sources: https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Operate a stand-alone Municipal Charter School

- Estimated Timing
  - 1 year approval process after application submitted
  - 1-3 years after approval received to id/ready/retrofit location, hire/train staff, order supplies, advertise for students, etc.
  - Total timetable 2-4 years minimum to open school
  - Therefore, earliest opening likely Fall 2022

Sources:
https://www.ncleg.gov/Sessions/2017/Bills/House/PDF/H514v7.pdf
https://content.govdelivery.com/accounts/NCSBE/bulletins/224f427

Option 3: Municipal Charter School Huntersville Operating Budget Assumptions

- Municipal charter school of 1,500 students with 3 year ramp up
- EC students 13% of student population
- Approximately 1-2% annual increase in $/ADM
- Approximately 1-2% annual increase in expenses
- Rent expense based on $12/sq ft, 100,000 sq ft building

Huntersville Operating Budget

MUNICIPAL CHARTER SCHOOL							Base
FYE 6/30							
ADM (student population)	750	1,125	1,500	1,500	1,500	1,500	1,500
INCOME STATEMENT (000s)	**YEAR 1**	**YEAR 2**	**YEAR 3**	**YEAR 4**	**YEAR 5**	**YEAR 10**	**YEAR 15**
Total Revenues	6,660	9,172	12,289	12,468	12,650	13,600	14,625
% chg	*0.0%*	*37.7%*	*34.0%*	*1.5%*	*1.5%*	*1.5%*	*1.5%*
Salaries/Benefits	5,418	6,461	7,665	7,789	7,916	8,583	9,308
% of Revenues	*81.4%*	*70.4%*	*62.4%*	*62.5%*	*62.6%*	*63.1%*	*63.6%*
Rent	1,080	1,102	1,124	1,146	1,169	1,291	1,425
Other Operational Expenses	1,381	1,580	1,824	1,848	1,872	1,999	2,135
Total Expenses	7,879	9,142	10,612	10,783	10,957	11,876	12,877
% chg	*0.0%*	*16.0%*	*16.1%*	*1.6%*	*1.6%*	*1.6%*	*1.6%*
Operating Income	(1,220)	29	1,677	1,685	1,692	1,724	1,748
Operating Income Margin	-18.3%	0.3%	13.6%	13.5%	13.4%	12.7%	12.0%

Key Takeaways:

- Need **$1MM+** to open municipal charter & fund its initial operations plus liquidity needs
- Once fully operational, school can operate at better than breakeven
- Outside of salaries/benefits, rent biggest single projected expense

Potential Diversity Statistics using LNC

	Total Population	Asian	African-American	Hispanic	2+ Races	Caucaisan
Elementary School	399	10%	14%	6%	7%	64%
Middle School	799	9%	12%	7%	7%	66%
High School	805	5%	15%	4%	4%	71%
Total LNC	2,003	8%	13%	6%	6%	68%

Key Takeaways:

- Diversity of Municipal Charter School should mirror the demographics of the Lake Norman area
- Used Lake Norman Charter demographics from 2017-2018 as a proxy to estimate potential demographics of Cornelius Municipal Charter School

Option 3: Operate a stand-along Municipal Charter School

PROS

- Promotes local control and increases parental choice
- Likely breakeven budgeting resulting in no new taxes
- Ensures town representation
- Prioritizes enrollment for town children
- Reduces bureaucracy, increases efficiency, and lowers administrative costs

CONS

- Potentially higher costs for service delivery elaborate
- Risk alienating local LEA
- Law may be changed/repealed to be less favorable; (e.g. charter cap)
- Legal challenges may occur
- Uncertainty over funding and perception of Double Taxation
  - Need to educate citizens on funding sources
- High initial liquidity needs
- Profitability impacted by rental expense before ramp up completed

Option 3: Operate a stand-along Municipal Charter School

PROS

- Provides potential for higher standard/more flexible curriculum and enhanced instructional practices
- Alleviates overcrowding issue
- Reinforces the concept of neighborhood school
- Large pool of diverse potential charter school board members in N. Mecklenburg from various educational/workforce backgrounds

CONS

Option 3: Operate a stand-alone Municipal Charter School

Sources of Leverage:

- Town bond rating may assist Municipal Charter School with capital/liquidity funding
- Local developers may find trade of land for school in return for higher density an attractive proposition
- May generate positive parental response resulting in high demand for seats in the school

Option 3: Operate a stand-alone Municipal Charter School

Potential Outcomes:

- Could be elongated start-up timetable, but once fully operational, becomes longer term solution to alleviate overcrowding issue for the Town
- Creative financial solutions will be needed to address significant initial liquidity needs and upfront costs
- Can learn from local charter schools as demonstrated models of excellence
- Demonstrating best practices in options for alternatives in public education
- Could lead to increased ability to be an incubator for other charter school startups in the Lake Norman Region
- May strain relationship with local LEA

Option 3: Operate a stand-alone Municipal Charter School

Next Steps:

- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Consider partnering with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit citizen feedback

Option 4: Partner with an Existing Charter School

- Enter into a management agreement with an existing, established, local charter school to establish and maintain operations of an independent municipal-owned charter school

Option 4: Partner with an Existing Charter School

Partnering Criteria:

- Located in the North Mecklenburg area
- Local operations management (no outsourcing of primary business oversight)
- No less than 5-years of operations with consistent enrollment exhibiting high parental demand (i.e. wait lists that consistently exceed enrollment), and acceptable performance metrics (EOG Scores) demonstrating consistent educational success
- Acceptable learning curriculum
- Demonstrated positive operating cash flow for at least three of the most current years of operations
- Active and engaging instructional practices
- Must exhibit low/acceptable staff turnover, with Academic Director in place for at least 3-years, and instructors at or above state requirement of at least 50% teachers certified and licensed

Option 4: Partner with an Existing Charter School

PROS

- Financial economies of scale from shared resources of operating expenses, such as administration, employment, and transportation
- Knowledge and experience of application and establishment process
- Benefitting from established, successful educational curriculum
- Local brand recognition based on reputation of partnering school

CONS

- Loss of total control over municipal sponsored Charter School
- May not receive interest from preferred partner schools

Option 4: Partner with an Existing Charter School

Sources of Leverage:

- Town's ability to assist Charter School with capital funding sources
- Town's ability to assist and prioritize Charter School with additional field space
- Ability for Charter School to expand and offer seats to wait listed students

Potential Outcomes:

- Faster Start-Up
- Higher quality staffing
- Leverage proven Managing Director and curriculum

Option 4: Partner with an Existing Charter School

Next Steps:

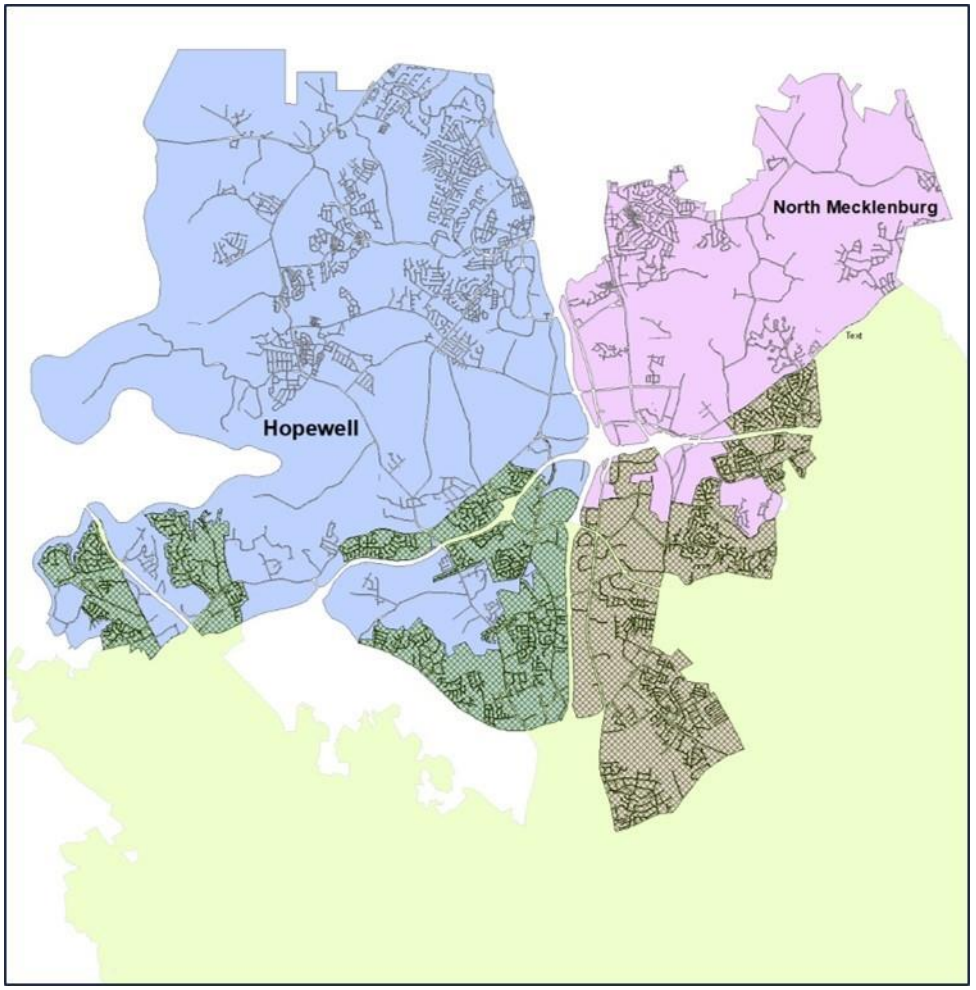
- Analyze sub-option of operating a charter satellite campus
- Determine viability of financing/sources of capital
- Determine availability and upfit of existing leasable space
- Possibly partner with Cornelius (and Davidson) to share resources
- Determine additional legal and political challenges
- Solicit and review interest from local Charter School operators that meet or exceed the aforementioned requirements

Option 5: Dividing the Charlotte Mecklenburg LEA into smaller LEAs

- Using Current CMS North Mecklenburg boundaries

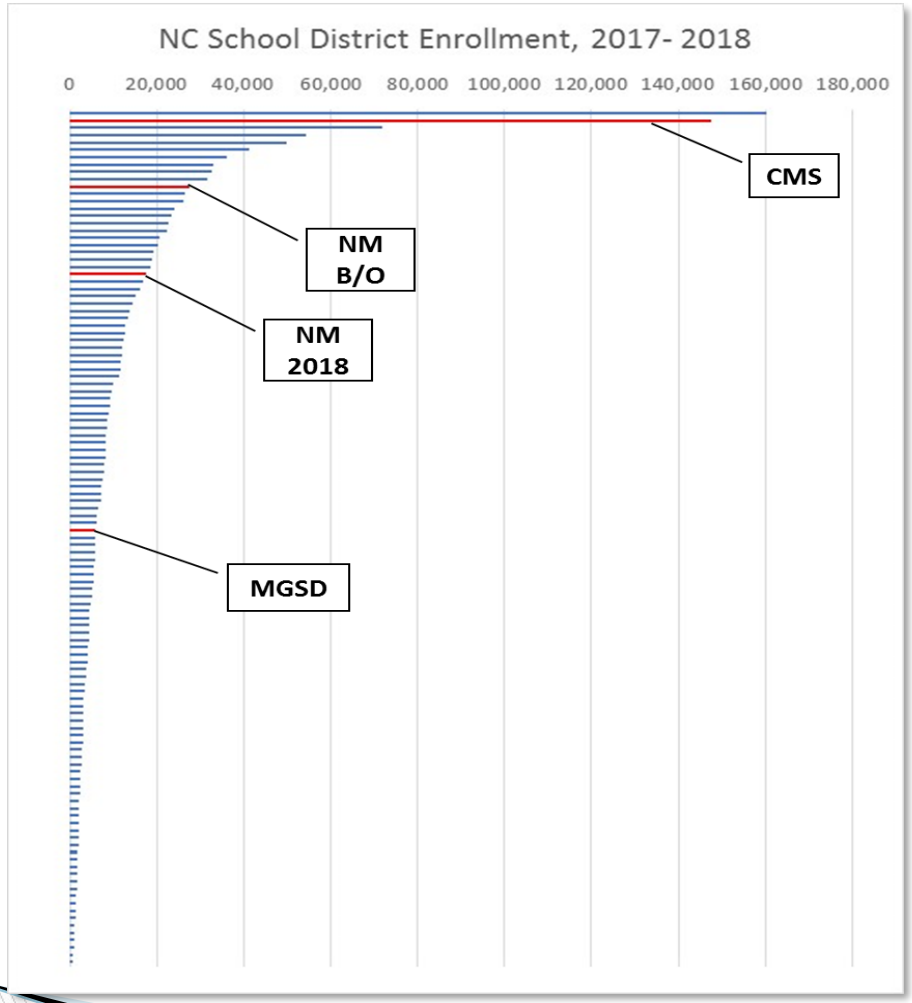
Definition & Assumptions

- Create a new school district separate from CMS
- Current CMS school assignment borders unchanged
  - Minimal disruption
  - Preserves diversity
  - Engages Charlotte positively



Source: CMS

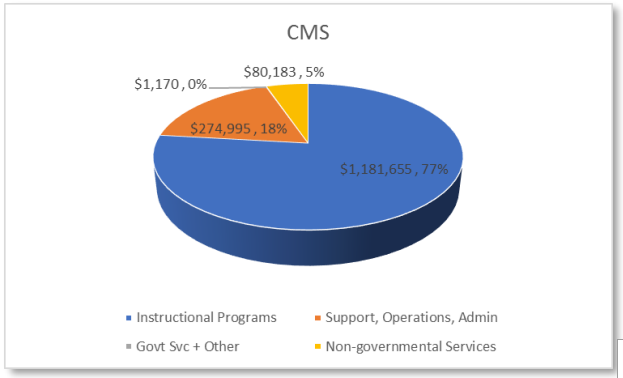
Comparison to Existing LEAs



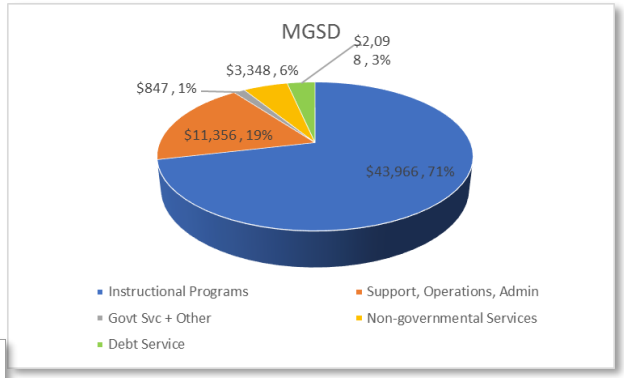
- **At current enrollment a North Meck LEA would be the 23rd largest school district in NC**
- **At buildout a North Meck LEA would be the 11th largest school district in NC**

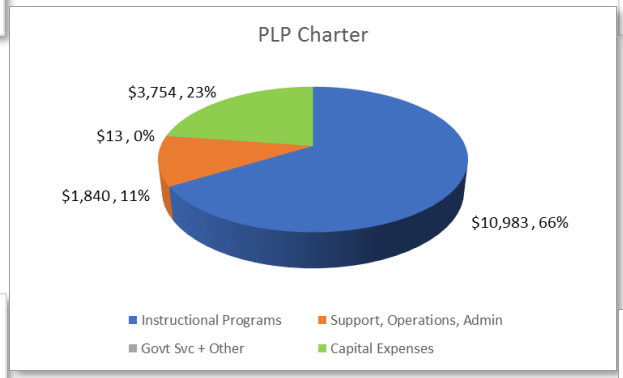
Source: "Size of Local School Districts", Joint Legislative Study

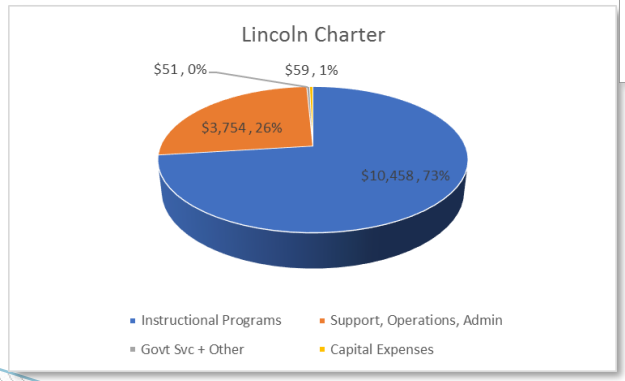
Various Cost Structures



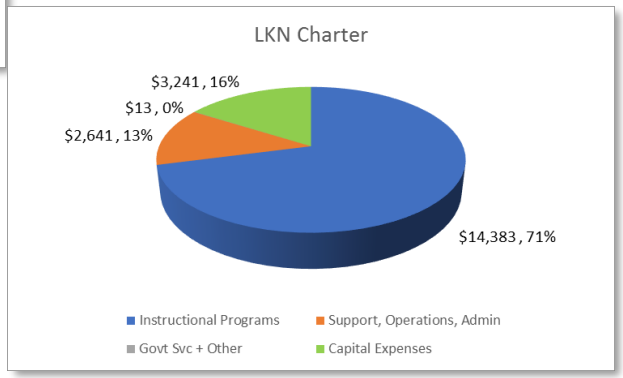
Economies of scale not evident between MGSD & CMS







Operating strategies differ between charter schools



(1) CMS 2017 Annual Rerport
(2) MGSD Financial Report, 2017, p. 8 (Does not include D & A)
(3) Lincoln Chart Financial Audit, 2018
(4) PLP Financial Audit
(5) Capital expenses for charter schools are reported as operating expenditures net of depreciation
(6) LKN Charter Financial Audit, 2018
(7) Does not include GASB 75 restatement

Option 5: New LEA

PROS

- Local control
  - Capital budget
  - Student assignment
  - Taxation
  - Board representation
- Fewer bureaucratic layers
- Tailored solutions
- Greater sense of community

CONS

- Politically difficult
- Potential loss of programming breadth

Option 5: New LEA

Sources of Leverage:

- Citizen involvement

Potential Outcomes:

- North Meck LEA
- LKN LEA

Next Steps:

- Determine legal process
- Perform revenue analysis
- Engage the community with round table meetings
  - Teachers
  - Parents
- Continue to study feasibility

Summary and Next Steps

Based on the projection of the current and future facilities needs of the Huntersville and North Mecklenburg student population, and feedback received during the April 29, 2019 Public Input meeting, the HEOSC will finalize their findings of the 5 Options available to the Town of Huntersville to address future educational needs.

1. Do Nothing
2. Partner with CMS
3. Open and Operate Municipal Charter School(s)
4. Partner with an Existing Charter School
5. Create a New LEA

Final report date May 20, 2019

Appendix

Capital Needs Assessment Summary - Huntersville

1. Assessing Huntersville growth only, an elementary school will be needed by 2025, two elementary schools by 2030, and a middle school and high school by 2035.
2. Huntersville school age children will need ***23 additional classrooms by 2020***, and capacity will be constrained without significant re-assignment of Charlotte students out of Huntersville schools or the equivalent of a mid-sized Charter school in Huntersville.

	Avg School Capacity	2020	2025	2030	2035
Huntersville Population					
Elementary School	776	0.3	1.3	2.2	3.5

Option 3: Municipal Charter School Capital Needs Assessment

For the Municipal Charter School Option:

1. Assessing Cornelius growth only, no complete ***new schools*** are needed by 2035 using either avg school capacity or optimal school size assumptions.
2. Cornelius school age children will need ***additional classrooms by 2020***, and capacity will be constrained without significant re-assignment into Huntersville schools or by adding the equivalent of a small to mid-sized Charter school in Cornelius

	AVG School Capacity	2020	2025	2030	2035

*Assessment of capital needs based on optimal school size

LED Option Analysis Assumptions

1. Uses current total N. Meck boundaries for CMS schools
2. All schools located in Davidson/Cornelius/ Huntersville would be assigned to the new LEA
3. All schools will use "planned enrollment" at 20 students/classroom as the student population

						Students Enrolled From:									
School	School Type	Municipality	Planned Enrollment	Over/ Under Plan	Total Enrollment	Cornelius		Huntersville		Davidson		Charlotte		Out of County

Thanks Christy for your reply and yes you have the request we have made multiple times including in person with Dr. Wilcox when he spoke before our committee. I hope Natasha and Elaine will respond as you have. I am reminded of a great quote I heard lately from Brene Brown, "Brave Leaders are never silent around hard things".

Jim et al (Media removed):

Thank you so much for sending over the PowerPoint.

As I noted before, HB 229 was sent to Rules without a referral to Education. In effect, that means the bill is dead. Despite what media says about it, I would be shocked if Representative Lewis put the bill forward for a vote in committee. I am intentionally not a co-sponsor of the bill because I do not support it. I will speak to Rep. Alexander about HB 229, but again this bill is not going to move. Crossover day is May 9th, so this bill will be dead for the session at that time.

Again, I have already stated that I will support the municipal charter should it come to fruition in order to ensure its long term success. I think you would agree that everyone's main goal is to ensure that the children of North Mecklenburg have the best public education opportunities that are diverse and inclusive.

On the other subject -- I want to make sure I understand what you are requesting from CMS. You would like a breakdown of facilities spending in North Mecklenburg from years 1985 to present. Is that correct? If not, please let me know exactly what you are requesting.

Regards,
Representative Clark

Subject: Re: Follow up to your reply re: HB 514 and 229

Elaine, thanks for coming last night. Natasha and Christy what follows, in my opinion, is equally relevant to you and your positions.

Elaine, Ido not believe you have replied to the request below. I have attached the power point from last night in case you didn't have a copy. You will note on slide 23 one of the concerns we have is the uncertainty about future legislation regarding HB 514 (two media reports last night also noted the HB 299 legislation as a factor). I would be MOST helpful I believe to this committee as well as our sister committee in Cornelius as well as both town boards to have a firm understanding of where our elected representatives stand on

this issue. It is extremely important in my opinion for transparency that the town boards know if our elected representatives, who fund CMS, are in support or in opposition to the present pending legislation. While I understand it is currently in committee (HB 299) it is usually the case that those who represent the communities in question make their position on the matter public. I would further ask that if you are in opposition to HB 299 (I assume you have now educated yourself on this issue) you will publicly ask the sponsors of the bill to remove it as it is aimed at YOUR constituents not theirs. At this time my notes only reflect that you are not familiar with this issue and that you have decided not to take any leadership towards it one way or the other. Knowing your interests in transparency and assuming you feel you have an obligation to engage in pubic education issues since nearly 1/2 of the county budget is spent there I feel we are owed some indication of support or opposition and your plans to those ends.

On a related subject, our committee an the town of Huntersville have repeatedly asked CMS for a breakdown of facilities spending in north Mecklenburg for the period prior to the landmark federal busing case and the subsequent spending after. CMS has made a great deal about the funds spent from 2000 to present but have told us for months they can't seem to discover the amount of funding spent (or more accurately not spent) in the 15 years prior to being forced to make up for under serving our community. Both the legislature and the BOCC are soon to be offering their budget to CMS. I would hope as representatives of the taxpayers of our area you would join the town in requesting what should be readily available data. I/we feel it is important that the public be provided a balanced offering of fact, not only those facts that benefit the agenda of one side.

Subject: Follow up to your reply re: HB 514 and 229

Elaine, thanks and I am hoping you will take the time to learn about HB 229 and if you disagree please publicly let those pushing the legislation know of your request they withdraw it from committee and any further consideration on behalf of those you represent (they are like yourself Democrats so more likely to give your opinion serious consideration than say mine). You maintain the bully pulpit and are the voice for those you represent. While you are of course free to form your opinion based on principle and study of the issues you do not have the right to remain silent on the issue when you office requires you to "speak" for those you represent. Your position becomes part of the process and those who are engaged in acting as part of the process have the right to know where you stand as well. The BOCC controls nearly 1/3 or CMS's operating budget and all of their capital investment. It is that leverage, that you control on behalf of your constituents, that allows the towns and those in public education to make decisions, but only to the extent that you honor your duty and be transparent in the process.

Former Commissioner Karen Bentley and myself both spoke on behalf of the citizens of Huntersville and Cornelius when the issue of HB 514 came up and encouraged the towns to participate. We have also since then felt that the issue of education and the actions of CMS are of such importance that we continue to actively work towards change. Part of our work on behalf of the Town of Huntersville is to actively participate in the actions taken in Raleigh that impact education in our area and NOTHING has a greater potential for a positive impact than the opportunities afford by HB 514 and likewise the threat of HB 229. It is important that the town and the citizens understand where those who represent them stand so we can know how to best engage those elected in the process. So while I appreciate your rather generic support of education I would hope you would take the responsibility of leadership and let us know your personal and political opinions on these two pieces of legislation so we can be prepared with that knowledge as action in the future becomes needed. You speak of listening and transparency, both admirable in a leader, but action and resolve are what are required of those holding elected office.

It is important that those trying to set a course for the future (in this case the Huntersville and Cornelius Town Boards) know all they can about the environment in which they will make decisions and one of the most important facts toward that end is where those elected to office stand on the issues of the day. Our committee is in part gathering the facts and options available and part of that is knowing the position of those in position of impacting future slated legislation or opposition to current legislation. The chairwoman of the BOE and the Superintendent Wilcox were kind enough to meet with us and let us know their position on HB 514 and their support for HB 299, I hope you will offer us the same respect.

Dave,

Regarding public participation ideas. Will the steering committee meetings be live streamed (assuming we keep meeting in town hall)? The HEOSC meetings were never well attended by the public, but the live stream of the meetings usually had a few hundred views.

Thanks,

Eric Rowell

Thanks, Janet.

HEOSC colleagues - attached you will find a document that I created to house all of the SWOT analyses for each option. I have embedded the feedback/input provided to date. We will utilize this document during our Subcommittee Reports agenda time to facilitate our discussion around the pros and cons of each option.

As your time permits, please take a look at the workbook and come prepared to provide additional input for each option. We are in the home stretch of our Commission's work and I appreciate the time you all have taken to perform this important due diligence in preparation for our formal proposal to the Town Board.

Thanks,
Karen

Additional questions
Funding from the town
Incoming charters

Option 2 - Establishing a municipal sponsor

	STRENGTHS (+)
1	ability to weight admission in favor of Huntersville residents
2	more space/sq. footage available for schools equates to better security/safety for students by moving students out of trailers and into enclosed buildings
3	greater parental choice, greater educational options in North Mecklenburg
4	overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
5	greater flexibility with curriculum and addressing concerns of parents than with CMS
6	fixed, upfront costs only instead of the possibility of ongoing/annual contributions from the general fund for a town-run municipal charter school
7	independent, separate charter board – not run/influenced directly by the town board and vagaries of town board politics
8	
9	
10	
11	
12	
13	
14	
15	
16	
17	
18	
19	
20	

	OPPORTUNITIES (+)
1	municipal charter school has never been done in NC, opportunity to demonstrate a new model for education statewide
2	cost savings for new construction – ability to build school buildings more efficiently/less expensive than CMS schools
3	ability to determine best makeup of the charter school board – elected board members, appointed board members, some hybrid model, etc.
4	large pool of diverse potential charter board members in Huntersville from various educational, workforce backgrounds
5	ALSO, large pool of diverse charter schools – new or existing – to potentially partner with, not limited to existing charter schools locally (LKN Charter, Pine Lake Prep, CSD, etc.)

y partnering with a new or existing charter schoo

WEAKNESSES (–)	IMPORTANCE
potential zoning issues based on unknown location of potential school	
difficulty in deciding where to start – which grade level?	
weighted in favor of Huntersville students and then having a large number of Huntersville students possibly not being admitted	
safety issues – a new charter school unlikely to have a building large enough at the outset to avoid housing some students in trailers	
capital funding and land acquisition – still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land	
taxes – uncertainty over future costs a concern for residents, concerns over paying for two "districts" even if you have no children attending CMS or town charter school	
cost of upfitting/retrofitting existing building for a charter school (cost would be mitigated by use of warehouse-style space)	

THREATS (–)	IMPORTANCE
uncertain/unknown demand – possibility of student applications less than anticipated, risk of "new" school stigma causing parents to avoid sending their child for the first few years	
political instability – locally and in Raleigh	
potential lawsuits – who would bear the costs?	
CMS – unlikely to cease opposition efforts to charters in general and municipal charter schools	
no actual vested interests yet – with no municipal charter school even in the application phase, easier to stop the effort before a municipal charter is open and accepting students	
potential for current charter school cap to be lowered/decreased	
timeline/length of charter school application process being altered/derailed by political instability, plus the length/in-depth nature of the application process itself – NC charter board may scrutinize the first municipal charter applications more heavily than non-municipal charters	

Option 3 - Partner with Charlotte-Mecklenb

Attachment : HEOSC Option analysis_SWOT.xlsx;

Thanks, Janet.

HEOSC colleagues - attached you will find a document that I created to house all of the SWOT analyses for each option. I have embedded the feedback/input provided to date. We will utilize this document during our Subcommittee Reports agenda time to facilitate our discussion around the pros and cons of each option.

As your time permits, please take a look at the workbook and come prepared to provide additional input for each option. We are in the home stretch of our Commission's work and I appreciate the time you all have taken to perform this important due diligence in preparation for our formal proposal to the Town Board.

Thanks,
Karen

Additional questions
Funding from the town
Incoming charters

Option 2 - Establishing a municipal sponsor

	STRENGTHS (+)
1	ability to weight admission in favor of Huntersville residents
2	more space/sq. footage available for schools equates to better security/safety for students by moving students out of trailers and into enclosed buildings
3	greater parental choice, greater educational options in North Mecklenburg
4	overcrowding/capacity problem relieved sooner than waiting on a solution from CMS
5	greater flexibility with curriculum and addressing concerns of parents than with CMS
6	fixed, upfront costs only instead of the possibility of ongoing/annual contributions from the general fund for a town-run municipal charter school
7	independent, separate charter board – not run/influenced directly by the town board and vagaries of town board politics
8

17	
18	
19	
20	

	OPPORTUNITIES (+)
1	municipal charter school has never been done in NC, opportunity to demonstrate a new model for education statewide
2	cost savings for new construction – ability to build school buildings more efficiently/less expensive than CMS schools
3	ability to determine best makeup of the charter school board – elected board members, appointed board members, some hybrid model, etc.
4	large pool of diverse potential charter board members in Huntersville from various educational, workforce backgrounds
5	ALSO, large pool of diverse charter schools – new or existing – to potentially partner with, not limited to existing charter schools locally (LKN Charter, Pine Lake Prep, CSD, etc.)

y partnering with a new or existing charter schoo

WEAKNESSES (–)	IMPORTANCE
potential zoning issues based on unknown location of potential school	
difficulty in deciding where to start – which grade level?	
weighted in favor of Huntersville students and then having a large number of Huntersville students possibly not being admitted	
safety issues – a new charter school unlikely to have a building large enough at the outset to avoid housing some students in trailers	
capital funding and land acquisition – still too many unanswered questions about what the town can/cannot do, plus dealing with the practical problem of finding suitable land	
taxes – uncertainty over future costs a concern for residents, concerns over paying for two "districts" even if you have no children attending CMS or town charter school	
cost of upfitting/retrofitting existing building for a charter school (cost would be mitigated by use of warehouse-style space)	

THREATS (–)	IMPORTANCE
uncertain/unknown demand – possibility of student applications less than anticipated, risk of "new" school stigma causing parents to avoid sending their child for the first few years	
political instability – locally and in Raleigh	
potential lawsuits – who would bear the costs?	
CMS – unlikely to cease opposition efforts to charters in general and municipal charter schools	
no actual vested interests yet – with no municipal charter school even in the application phase, easier to stop the effort before a municipal charter is open and accepting students	
potential for current charter school cap to be lowered/decreased	
timeline/length of charter school application process being altered/derailed by political instability, plus the length/in-depth nature of the application process itself – NC charter board may scrutinize the first municipal charter applications more heavily than non-municipal charters

Karen,

I am just finishing up with a client and cannot get to the meeting until a few minutes before the end and will therefore not attend. I will followup with Amie if there are new developments with CMS.

Best regards,

Bobbie Shields

Jim:

After speaking with Chair Bentley last week, it was decided to not have our potential speakers drive 1 hour here and 1 hour back to speak 30 minutes on past history of CMS especially if you were going to be absent and not be able to help lead the discussion. I contacted both speakers to let them know that someone from one of the HEOSC subcommittees may reach out to them for more knowledge. Thus, Chair Bentley wanted to spend more time on subcommittee updates and the community education process/discussion.

Dr. Houck:

Thank you for providing a draft of your article. We will gladly honor your request to avoid any discussion in media, etc. I will try to review and digest in the remaining time the Committee has and will share with the group at our next meeting. Only five pages in - but one possible revision, you should add Cornelius to the list of communities surrounding Charlotte since Cornelius was also included in the HB514 legislation, and it may be more accurate to describe what the four towns have been granted the ability to do through the legislation as creating municipal charter schools rather than charter districts - although that may be a distinction without a difference for the purposes of your article.

I'm sure I will have more questions after I have a chance to review in detail.

Hi Eric:

Thank you for reaching out. Sorry for the delayed response. I regret not being able to present and speak with the group.

My article in the PJE is still "in press" - due out this fall. I'm happy to share a draft with you (attached) and answer questions about it; however, I'd appreciate it if the committee would refrain from discussing the article in media interviews, etc. to the extent possible.

In general, we find, using a national dataset, that districts that remove themselves from larger districts gain a financial advantage: they see increases in local revenue that more than compensate for decreases in federal revenue. In general, state revenue also increases. They are also more racially homogeneous. My coauthor and I do not necessarily see this as a good thing from the perspective of the remaining districts which are consequently more segregated and less well funded.

Again, this is a national study and I'd be happy to talk about/ conjecture what a separation would look like from the perspective of the NC funding mechanism.

Hope this helps! The committee is undertaking hard work and I appreciate y'all's time and effort in doing this research.

Left Behind: District secession and the re-segregation of American schools.

Eric A. Houck, PhD – University of North Carolina at Chapel Hill[1]
Brittany C. Murray – University of North Carolina at Chapel Hill

Abstract

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield, Frankenberg, & Lee, 2003). The mechanisms of this re-segregation are legal action, voluntary moves towards unitary status, unintended consequences of integration-oriented strategies, and an increasing trend towards the fracturing, or splintering of school districts. Both economic and political theory would indicate that splintering districts would work to pull racial and economic advantage out of the remaining district and into their own. To test this, we created a dataset that captures the fiscal and demographic status of US school districts between 2000 and 2014 and analyze the effect of district separation on the remaining districts in terms of student body composition, overall integration and local, state and federal resources. Our findings indicate that separating districts are less diverse than the districts left behind. We further find that separating districts gain resources from local revenue and that remaining districts gain federal revenue in insufficient amounts to account for the loss of local funds. We find that these relative disadvantages for left behind districts and relative advantages for seceding districts persist when compared to the general population of school districts.

Introduction

Sixty-five years after the Brown v. Board decision, American schools are re-segregated and re-segregating (Boger & Orfield, 2005; Orfield & Frankenberg, 2014; Orfield et al., 2003). After Brown and Brown II, whites deployed multiple strategies to prevent the thoughtful and comprehensive integration of American public schools. These strategies included: delayed and ineffective implementation of integration-oriented policies; the abandonment of the public system in favor of all-white or predominantly-white independent schools; the closing of public systems to all students (Gordy, 2009; McUsic, 2003); a redoubled commitment to neighborhood-based student assignment policies that reinforced residential segregation patterns (Ayscue, Siegel-Hawley, Kucsera, & Woodward, 2018; Clotfelter, 2004, 2011; Orfield & Eaton, 1997; Rothstein, 2017; Williams & Houck, 2013); and the development of policies to ensure within-school segregation such as tracking or magnet school models (Mickelson, 2001; Oakes, 1995; West, 1994). Each of these policies built upon preexisting legal frameworks and policies with varying degrees of success. Overall, however, the weight of these combined efforts contributed to the weakening of a national commitment to providing equal educational opportunities for all students. Each of these strategies have policy analogues in current federal, state, and local policy systems, some of which retain the valence of white supremacy present at their inception and others which have been adapted or disguised to uphold the values and interests of racial and ethnic minority communities. We identify these multiple and overlapping strategies, engaging a variety of policymakers and stakeholders, as a *taxonomy of white resistance* to integrated public education. These efforts to resist integrationist policies resulted in the creation of a line of arguments that culminated in the 2007 Supreme Court case of Parents involved in Community Schools (PICS) ("Parents Involved in Community Schools v. Seattle School District No. 1,"

2007), where the use of race as a factor in student assignment was significantly curtailed. The result of these combined efforts is a public school system that is increasingly re-segregated and in which poor and racial and ethnic minority students are increasingly isolated from their wealthier, whiter peers.

This paper analyzes an additional strategy within this taxonomy: the creation of smaller catchment areas out of large unified districts. Supported by court rulings and enabled by the complex and multi-layered system for financing public schools, school district secession is the act of creating new school systems to allow communities to exert control over the composition and financing of school systems themselves rather than fighting for preferred policies within larger, usually more politically and racially diverse systems. While acknowledging the weighty historical valance of the term *secession*, we seek to better understand and describe the complicated intersections of race, class, and school finance that allow and encourage this phenomenon (EdBuild, 2017). We further seek to describe the result of these secessions on levels of student integration and financing of public schools. Specifically, we seek to understand:

- How many school district secessions have occurred during the recent wave of school re-segregation and where they have occurred;
- The demographic profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of racial and socio-economic integration and exposure; and,
- The finance profile of both seceding districts and original districts compared both to each other and to the wider population of school districts in terms of both overall funding levels and the proportion of that funding from federal, state, and local sources.

In the sections that follow we discuss the legal and policy contexts for recent school district secessions, review the systems and mechanisms for distributing per pupil revenue at the federal, state and local levels, present and analyze data on the racial and financial results of successful school district secessions for both the new and the original districts and discuss the implications of these findings for developing policies to support integrated school districts in a post-Brown, post-PICS world.

Legal and Policy Context

The history of resistance to integrating schools described in the introduction has not gone unnoticed or un-scrutinized. From the original Brown ruling (1954) and through the "all deliberate speed" language of Brown II (1955), court challenges and rulings have served to limit the scope and efficaciousness of integration-oriented school policies. State laws around school district secession vary considerably. A recent report (EdBuild, 2017) notes that 30 states have mechanisms for school district secession written into state code. Of these 30, only 23 require voter action, and only 4 states have provisions for citizens in the remaining districts to have voice via a vote in the process.

In some cases, communities are taking advantage of state level laws. Recently, the 11th Circuit Court of Appeals ruled that a petition to form a new school system in the city of Gardendale, Alabama acted with discriminatory purpose in its bid to separate from the wider Jefferson County school system. Lost in the debate over this decision was the fact that the Gardendale secession was the 11th attempt by a locality to remove itself from the county system, and the first

one to be blocked by a court (Jones, n.d.; Faulk, 2018). The Tennessee legislature has recently eliminated barriers to school district secession, resulting in the creation of several new districts around Memphis, and leading other counties to consider separation as well (Frankenberg, Siegel-Hawley, & Diem, 2017). These districts are leveraging or changing state law governing public systems to create their ability to separate. In other cases, however, localities are trying to declare themselves independent without specific state law (Strauss, 2018). Several communities surrounding Charlotte, NC - Huntersville, Matthews, and Mint Hill - have recently petitioned to become charter districts, thereby leveraging the state's charter school legislation to create separate districts that will remove them from the more comprehensive and unified Charlotte-Mecklenburg school system. ("Controversial NC charter bill approved. Now, these four towns could open schools.," n.d., "NC town charter school bill stirs state and local ire | Charlotte Observer," n.d.).

While district separation is driven by state law and adherence to statue, the legal frameworks that allow districts to pursue this path exist as a result of two US Supreme Court cases that dramatically influenced the scope and tenor of educational policymaking in the US around questions of school-district integration and via student assignment: San Antonio v. Rodriguez (1972) and Milliken v. Bradley (1974). Each of these cases were brought in order to fill in questions left unaddressed by Brown. That is, while Brown crafted an eloquent aspiration for racial integration as a mechanism to provide equitable educational opportunities for students, it failed to anticipate the vitriol of white backlash or myriad of practical legal questions that would arise in the aftermath of the decision (see, for example: López & Burciaga, 2014; Patterson, Patterson, & Freehling, 2001). Two of these questions existed around the role of funding laws

and practices in securing educational opportunity and the role of district boundaries in balkanizing students in geographically distinct and racially identifiable school districts. The Rodriguez case isolated school financing decisions from comprehensive federal oversight, and Milliken exacerbated this neglect by immunizing school district boundaries from student assignment policies. While there is debate about the relative effect contrary decisions would have had for the future of school integration policies, there is consensus that the fate of integrationist policies is determined by these rulings (Wells, Fox, and Miles 2015; Siegel-Hawley 2015).

In San Antonio v. Rodriguez the Court held that education was not a fundamental right and that school funding mechanisms based on local property taxes did not therefore violate the equal protection clause of the US Constitution (Sutton, 2008). This ruling flew in the face of other state court decisions which had acknowledged the equal protection implications of school funding based on a foundation of variable local property wealth, such as California's Serrano v. Priest (1971). While framing Serrano arguments, scholars had articulated as school finance proposition number one: that the wealth supporting school funding for a child should not be based on wealth other than the wealth of the state as a whole (Coons, Clune, & Sugarman, 1969; J. W. Guthrie, Springer, Rolle, & Houck, 2006). Rodriguez reversed this notion, thereby allowing inter-district variation in community support for public education and reaffirming Tieboutian competition among districts; the implication being that wealthier districts could leverage their wealth to provide greater support for schools in terms of teacher salary supplements, numbers of teachers, quality of instructional materials, and other resources (Ogletree & Robinson, 2015; Tiebout, 2007).

In Milliken v. Bradley, the Court reinforced the legality of de facto segregation – segregation that does not exist as a result of specific legal frameworks – and disallowed desegregation plans from reaching across district boundaries (Amaker, 1974; Sedler, 1986). The result of this ruling allowed districts to maintain racial segregation if they met the burden of demonstrating that it occurred via other mechanisms than specific laws. More importantly for the purposes of this study, Milliken versus Bradley "landlocked" majority minority districts into their boundaries and into their property tax bases, thereby preventing educators and policymakers from applying broad, regional desegregation plans (Jones, 1992) or having access to local dollars necessary to support these broader plans.

Taken together, therefore, these two cases effectively set the conditions for desegregation policy throughout the 1980s and until the turn of the century. Districts, especially Southern districts were left to determine how best to meet their obligation to desegregate based on their specific student population. Given a history of both *de facto* and *de jure* segregation and a legacy of segregating neighborhoods in real estate markets, cases such as Milliken incentivize the creation of whiter school districts out of broader, more integrated communities. While this racial component is important, it is wedded to powerful fiscal and financial incentives as well.

School finance and school desegregation

Into this legal framework flows a school finance and resource allocation system that is itself dizzyingly complex. In addition to running two separate educational budgets - one for current expenditures and one for capital expenditures – US public school systems also intake funds from

three sources: federal, state, and local government (Ladd & Hansen, 1999; Thompson & Wood, 2012). Each of these funding steams has a separate and distinct basis for funding and a different level of sensitivity to economic and political changes in local and national contexts (J. Guthrie, Springer, Rolle, & Houck, 2007; J. W. Guthrie, 2006).

Federal funds comprise approximately 10-12 percent of education budgets and are most often allocated on the principal of positive vertical equity – the unequal treatment of differently situated groups. Funding for Title I services or impact aid are targeted to support specific subpopulations of students; therefore, federal revenues per pupil are often found at increased levels in districts with greater educational challenges. State funds are the largest source of revenue for most states, and are distributed to districts based on state funding mechanisms. While some of these mechanisms provide additional funding to address student need, others do not. In addition, states vary in the student, school, and district characteristics they provide with vertically equitable funding. While student and district needs, district sparsity, and academic disadvantage may all be address within state funding mechanisms, there is no consensus across states on which of these items would be differentially funding, or to what degree. Finally, individual states establish different mechanisms for yoking state and local revenue. A number of states, for example, utilize power equalizing or guaranteed tax base plans to subsidize property-poor districts and reward local taxation effort (Springer, Houck, Guthrie 2015). Local funds are derived from local property tax valuations and are often considered the largest driver of educational inequality from a funding and resource allocation perspective. Variations in local wealth exist at the center of the school finance litigation paradigm as plaintiffs seek to ameliorate

the deleterious consequences of local revenue that can exacerbate existing within-state inequities (Akin & YoungDay, 1976; Chakrabarti, Livingston, & Roy, 2014; Ladd, 1975).

The ability of localities to levy the wealth of their tax base to provide additional school funding provides another motivation for district separation. Smaller wealthier communities can spread their greater wealth over a targeted number of students and thereby gain a fiscal and competitive advantage over surrounding school districts. Some districts have used local funds to shore up policies that abandoned busing for diversity in favor of neighborhood-based school assignment policies (Gamoran & An, 2016; Goldring, Cohen-Vogel, Smrekar, & Taylor, 2006; Houck, 2010).

Finally, the governance of different funding sources has implications for district operations. While federal and state revenue sources come with a variety of regulatory and reporting requirements, local funds are considerably more fungible, thereby allowing districts more flexibility in addressing their capital needs and operational goals. In this construction, additional local funding can be a proxy for flexibility and reduced costs in terms of developing and maintaining a reporting and compliance infrastructure.

As demonstrated, many of the mechanisms that generate and distribute revenue by states are sensitive to the racial and socio-economic conditions within a district. By changing student composition through a reassignment policy or through a district secession, districts gain change the manner in which schools are resourced – both in terms of dollar amounts of revenue as well as the governance and accountability mechanisms tied to that revenue (Houck, 2011).

The legal framework bounded by the Rodriguez and Milliken decisions, combined with a complicated and manifold funding system for public education, provides district leaders opportunities to take advantage of the spaces within this system for their own advantage. We sought to determine what advantage, if any, could be found by seceding into a new school district, relative to a left behind district and relative to other districts in general. Table 1presents data on district secession by state, as well as an overview of funding model values and any relevant legislation controlling secession.

Table 1: Secessions by state, funding model type, and secession legislation, 2000-2015

State	No. of seceded districts since 2000	State Equity Model	Must consider impact on
Alabama	10	Horizontal	None
Colorado	4	Vertical	demographics
Idaho	3	Horizontal	None
Louisiana	3	Vertical	None
Maine	15	Vertical	None
Massachusetts	1	Vertical	None
Ohio	2	Vertical*	None
South Dakota	1	Vertical	funding
Tennessee	6	Vertical	None
Utah	1	Vertical	funding
Wisconsin	1	Vertical	Demographics and funding
Note: TN secessions are not included in this analysis given districts seceded after our study period.			
Source: EdBuild			

Data and Methods

For the analyses that follow, we assembled a rich panel of district resources and demographics paired with time-varying indicators for districts that secede and those that are left behind. We used school- and district-level administrative data from the National Center for Educational Statistics (NCES) over the years 2000-2014. We manually identified seceded and remaining districts using guidance from EdBuild (EdBuild, 2017) over the universe of public school districts nationwide. Additionally, we matched these districts to the Stanford Education Data Archive to analyze community context variables created from American Communities Survey (ACS) items aggregated to the district level. Items from this dataset span the years between 2009-2015. We exclude special education, vocational, and charter school districts from the analysis.

Dependent Variables

Key outcome variables include measures of district resources and segregation. We use total, federal, state, and local revenues from NCES' district finance surveys and divided by total enrollment to create per-pupil measures adjusted for inflation using the Consumer Price Index (CPI).

To measure levels of segregation, we use school-level demographic data to calculate a black-white dissimilarity index. The index of dissimilarity measures segregation between two groups and is generally interpreted as the percentage of one group that would need to relocate so that the balance of every unit reflects the balance of the overall whole. A low dissimilarity index is viewed as representing more even integration and a higher dissimilarity index (with one as an

upper bound) indicates greater segregation. A limitation of the dissimilarity index is that, if levels of the two groups are unequal, the index can also represent homogeneity of one group over another.

We also calculate an exposure index which takes into account the relative sizes of each subgroup and tells us the extent to which one group comes in contact with the other (Reardon & Firebaugh, 2002; Reardon & O'Sullivan, 2004). The exposure index addresses a key limitation of the dissimilarity index by measuring the degree to which one is likely to have interactions with a member of a different group. A low exposure index indicates more segregated or isolated environment, and a higher exposure index represents a greater likelihood of interaction with a member of a different group.

Finally, we estimate a measure of intra-district diversity calculated using a Blau Index. The Blau index is a school-level measure representing the probability that a student selected at random is from a single racial/ethnic subgroup (Harrison & Klein, 2007; Rushton, 2008). It is calculated using the proportion of students from each racial/ethnic group represented using the following equation:

$$\lambda = 1 - (Pr_{white}^2 + Pr_{black}^2 + Pr_{Hispanic}^2 + Pr_{other}^2) \qquad (1)$$

The Blau index goes by many names in the sociological literature, but generally is an indication of the probability that, were two group members selected at random from a larger group they would represent members of different subpopulations. Though not often used in segregation analyses, the Blau index has been profitably used in organizational studies, albeit with some caveats (Jacobs et al., 2013; Rushton, 2008). We also include the proportion of black, white,

Hispanic, and students receiving free- or reduced-priced lunch in a district. Table 2 lists descriptive statistics for key variables.

Table 2: Descriptive statistics for key variables by secession status, 2000-2014

	All Districts	Original districts pre-secession	Original districts post- secession	Seceded districts
Revenue				
Total revenue per pupil	10,641.11	9,284.79	10,591.89	11,514.29
Federal revenue per pupil	864.24	931.54	1,143.54	825.78
State revenue per pupil	4,875.95	4,281.51	5,126.95	4,931.25

Source: NCES, SEDA, US Census Bureau

Independent Variables

To understand district secession, new districts appearing in the dataset were assumed to have formed from within a pre-existing district in previous years. New districts were identified and paired with their parent district based on geographic variables such as FIPS and zip codes. The final dataset consisted of 189,702 district-year observations. Of 15,001 unique school districts, we observe 36 seceded districts and 26 original districts in the dataset. We refer to original districts as those remaining after a district(s) separated. In some cases, original districts dissolved upon secession. Given the longitudinal nature of our data, these phenomena resulted in 288 distinct seceded district-years and 280 original district-years, providing a final analytic sample of 568 district-year observations. Figure 1 presents the secession and remaining rate by year for districts in the dataset. A list of the 44 separated/seceded districts and their remaining district, state, and year of secession can be found in Appendix 1.

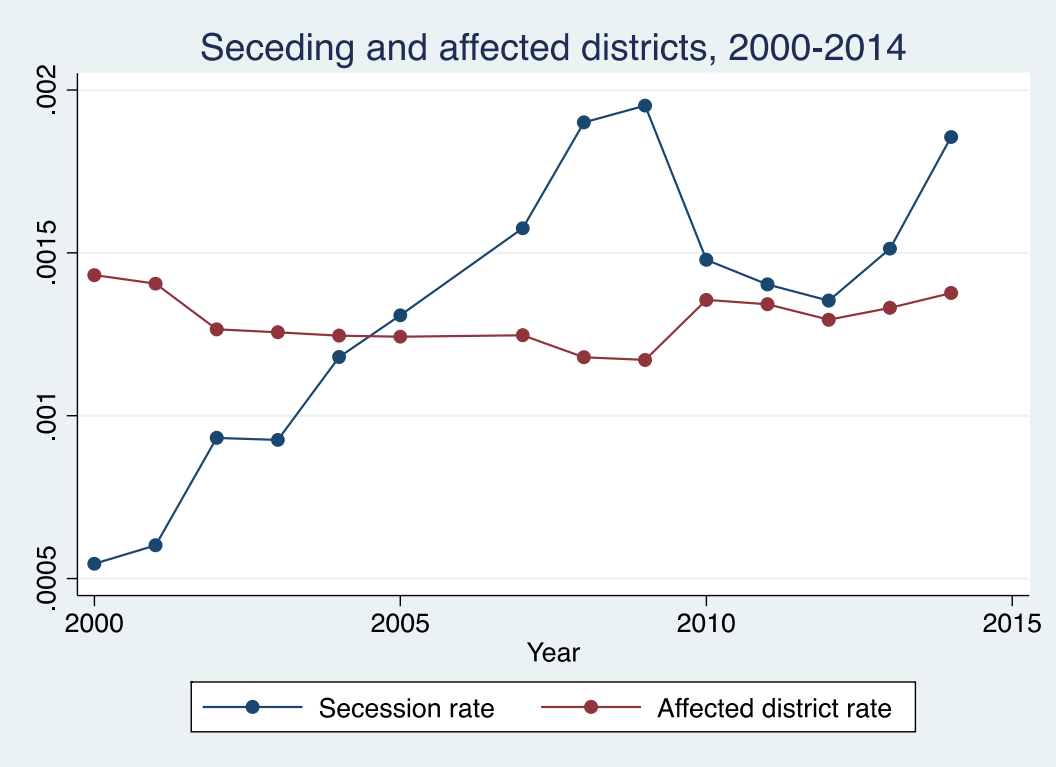

Figure 1: Secession rates by year

Analytic Strategy

Analysis was completed on 576 year-unit observations via univariate and multivariate analysis among both seceded and original districts. Descriptive analysis and t-tests were used to examine overall differences between seceded districts and their remaining districts for demographic variables, segregation indices, and funding levels. We use ordinary least-squares (OLS) regression models to estimate pooled differences between resources and demographics in original districts before and after district secession occurs. We run separate models for seceded districts, providing an estimate of the differences between resources and demographics for the original districts and newly formed districts. We also run a separate model for original districts after they have had smaller districts secede. These models include a vector of district and

community level controls. Given these models are heteroskedastic due to the nested nature of the data, we cluster at the district level to provide robust standard errors for interpretation.

These models take the form:

$$\gamma_d = \alpha + \beta_1 Sec_d + \beta_2 X_d + \sum \beta_3 Year_t + \sum \beta_4 Dist_d + \mu_d + \varepsilon_{dt} \quad (2)$$

Where γ_{dt} is the year to year variation in total, federal, state, and local revenue in addition to dissimilarity, exposure, and diversity indices; Sec_{dt} is a time-varying indicator for seceded districts and districts in the post-period of having a secession. We include a vector, X_{dt}, of time-varying district-level controls such as race, class, district, state, region, year and preexisting diversity of each district (community variables are omitted here given they are collinear with the district fixed effect). Finally, μ_d and ε_{dt} are between- and within-district error terms. We also wanted to examine how district resources and segregation levels varied at each additional year post-secession for both seceded and original districts. Therefore, we modified our predictor variable by capturing the number of years post secession to predict subsequent changes in the outcome variables. These models can be interpreted as change in revenue or segregation given an additional year of remaining as a seceded or original district post-secession.

Using these models, our analytic strategy was to examine the impact of secession on original and seceded districts relative to each other; that is to understand how resources and demographics changed

Results

Figure 2 and Table 3 present findings comparing revenue levels of seceded districts to remaining districts for all years of the study.

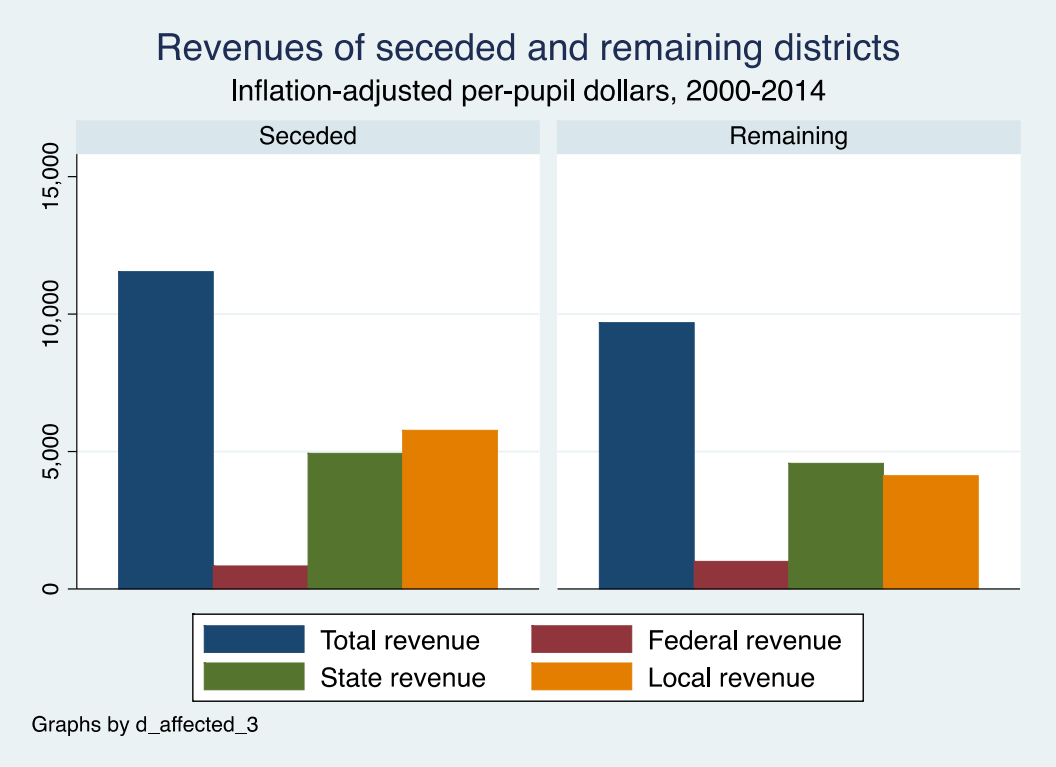

Figure 2: Inflation adjusted per pupil revenue, seceded versus remaining districts, 2000-2014

Table 3: Inflation adjusted revenues per pupil, 2000-2014

Measure	Seceded	Remaining		p
Total	11,514	9,678	***	p<.00
Federal	826	995	***	p<.00
State	4,931	4,536	-	p=.07
Local	5,772	4,117	***	p<.00
n=575				

Figure 2 demonstrates that seceded districts received $1,837 more overall funding , $395 more state funding, and substantially more local funding ($1,655) than remaining districts per pupil. Seceding districts did receive $169 less federal funding per pupil. Findings of reduced federal funding and increased local funding are expected, as federal funds are targeted to higher-needs populations that are presumably remaining in districts at higher rates than seceding districts. This increased federal funding, however, is not of a magnitude to make up for additional local revenue per pupil realized by the seceding districts. The finding that state revenue per pupil was

higher in seceding districts was surprising, as many states build vertically equitable levels into their funding mechanisms. The overall result is that it is fiscally beneficial for seceding districts and correspondingly fiscally detrimental to remaining districts for these separations to occur. T-tests of these differences shown in Table 3 indicate that all revenue differences are statistically significant, with state revenue per pupil only being significant at the $p<.10$ level with a p-value of .08.

Figure 3 and Table 4 present findings comparing the demographics of seceded districts to remaining districts for all years of the study.

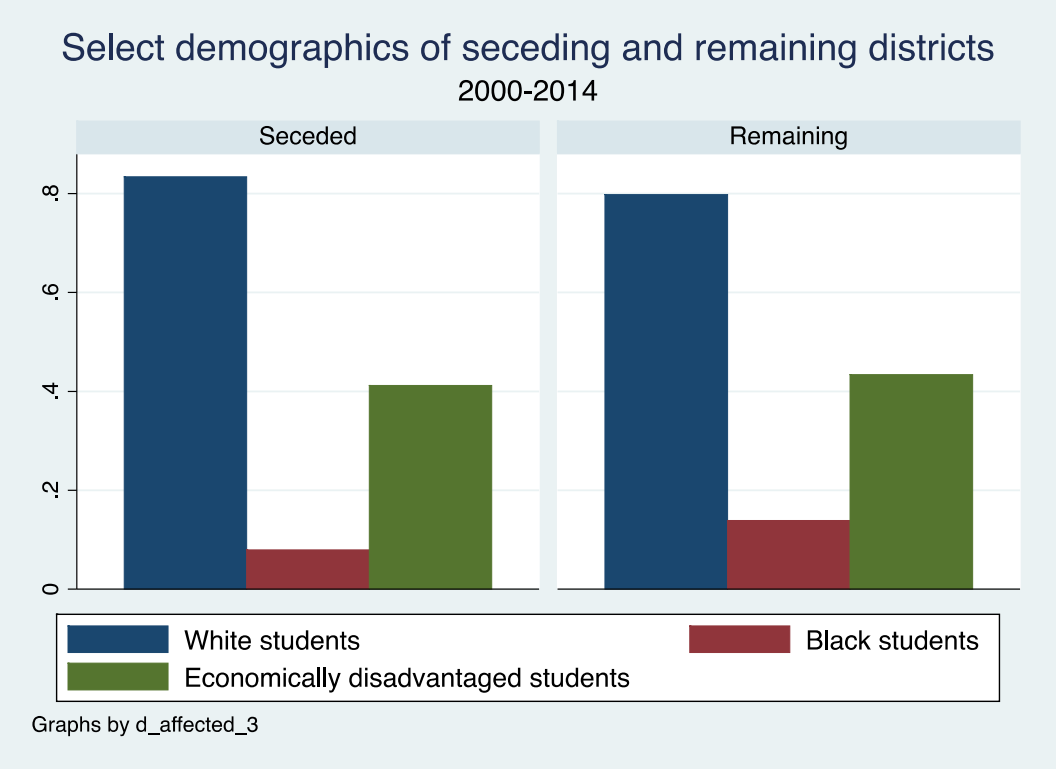

Figure 3: Demographics of seceded versus remaining districts, 2000-2014

Table 4: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
White	.84	.80	*	p=.02
Black	.08	.14	***	p<.00
Hispanic	.06	.03	***	p<.00
FRL	.41	.43	-	p=.12
n=575				

The finding in figure 3 comport with the assumption that seceded districts would be less diverse: seceded districts are 3% whiter than remaining districts and have 6% fewer Black and 1% fewer economically disadvantaged students than remaining districts. T-tests of these differences shown in Table 3 indicate that all demographic differences are statistically significant except for differences in the economically disadvantaged population (p=.12).

Figure 4 and Table 5 present findings comparing segregation levels of seceded districts to remaining districts for all years of the study.

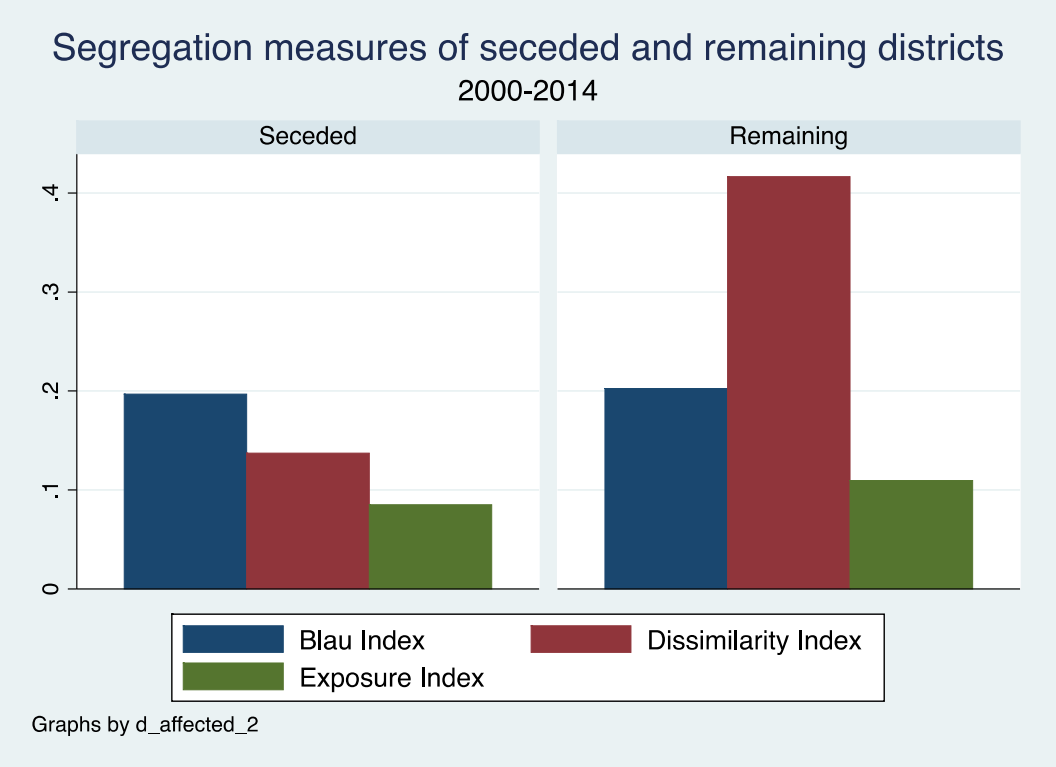

Figure 4: Segregation measures, seceded v. remaining, 2000-2014

Table 5: Demographics of seceded versus remaining districts, 2000-2014

Measure	Seceded	Remaining		p
Dissimilarity	.14	.42	***	p<.00
Exposure	.08	.11	-	P<.06
Blau	.19	.20	-	P<.12
n=575				

The findings from Figure 4 and Table 4 are mixed. The dissimilarity index in remaining districts is .42; 29 points higher than in seceding districts and indicating that remaining districts are more segregated than seceding ones. The exposure index, however, is lower in seceded districts than in remaining districts by 3 points, which indicates the probability of interacting with someone of a different race is higher in remaining districts than in seeded ones. The Blau index is the same in both categories of district. T-tests of these differences shown in Table 5 indicate that only the differences in dissimilarity and exposure are statistically significant, and that the differences in the exposure index are only significant at the p<.10 level with a p-value of .06.

Table 6. OLS Estimates of Resources and Demographics Post-Secession in Original Districts and Seceded Districts

	Original district after secession compared to non-splintered districts	Seceded districts compared to non-seceded districts
Revenue per pupil		
Total	-1,306**	2,999***
Federal	-99	-73
State	-503	760
Local	-703*	2,312**
Segregation		
Dissimilarity	0.03	-0.23***
Exposure	-0.03*	0.02
Blau	0.02	0.08

Descriptively, these findings demonstrate that new seceded districts are advantaging themselves relative to the districts that remain. Racial differences between seceded and remaining districts are almost entirely driven by the Black student population, a piece of evidence that may indicate a connection between seceding districts and white flight community impulses. Fiscally, seceding districts realize higher levels of funding per pupil, driven almost entirely by increases in local revenues that offset marginal changes in state revenues and decreases in more targeted federal revenues per pupil.

We next model these dynamics to understand the relative position of remaining and seceded districts in the wider population of school districts. Table 6 reports coefficients and significance of equation (2), and reports that remaining districts are disadvantaged relative to districts that have not been separated from. This fiscal disadvantage is 1,300 dollars per pupil and over half of that difference is driven by reductions in local per pupil revenue. Seceding districts see a

fiscal advantage compared to general districts of almost 3,000 dollars per pupil with 2,312 of that difference accounted for by increases in local revenue. In addition seceded districts see a significant reduction in segregation as measured by the dissimilarity index, presumably due to a increased heterogeneity of the student population provided by the descriptive statistics.

We can assume that this pattern will hold as districts separate themselves, but a finding of interest was that some districts were providing multiple secessions. That is, some districts were spawning multiple new districts. To understand this dynamic better, and to see if the patterns of resource and demographic distribution held steady we calculated a "years post separation" variable for 1st, 2nd, and 3rd separations These count variables were run in a model with controls for race, class, district, district size, state, region and year. These models are not comparing remaining districts to only seceded districts; rather they are comparing the effect of secession on the remaining district compared to itself. Results of the effect of the first separation on select revenue and segregation variables is presented in Table 7.

Table 7: Annualized effect of secession on remaining district (first secession)

Variable	Coefficient		p
Total revenue*	-393	*	p=.09
Federal revenue*	203	**	p<.00
State revenue*	-460	**	p<.00
Local revenue*	-136	*	p=.08
Dissimilarity	-.008	**	p<.00
Exposure	.004	**	p<.00
* - all dollar amounts are per-pupil, inflation adjusted			

The findings in Table 5 differ from the findings in the t-test comparison analysis. The total revenues for the remaining district are reduced at a rate of $393 per year, but in this model state revenue also declines annually, and at the highest rate of revenue from any source. Local revenue declines annually at a rate of only $136 per pupil and federal revenue increases by $203

per pupil. Looking at revenue amounts per year when a district has been left for the first time, it appears that – in addition to some expected loss of local revenue as property is taken out of the district – the remaining district is at some structural disadvantage vis-à-vis the state funding mechanism. Since state funding mechanisms vary widely across all 50 states, it is difficult to ascertain what that structural inequality might be, but the disadvantage is significant both statistically and substantively.

When examining the effect of a first district leaving on the remaining district in terms of segregation measures, the dissimilarity index shows a slight decline and the exposure index a slight uptick. These findings, both significant, indicate that remaining districts are slightly more integrated , possibly because the remaining student population has been rendered ore homogeneous by the loss of the seceding district's student body.

Findings from an analysis of the second secession on the remaining district are presented in Table 9.

Table 9: Annualized effect of secession on remaining district (second secession)

Variable	Coefficient		p
Total revenue*	343	-	--
Federal revenue*	-699	**	p<.00
State revenue*	754	**	p<.00
Local revenue*	289	**	p<.00
Dissimilarity	-.016	**	p<.00
Exposure	.010	**	p<.00
* - all dollar amounts are per-pupil, inflation-adjusted			

Findings in Table 9 indicate that the second secession from a district yields very different benefits than the first. The second seceding district sees no statistically significant change in

total revenue, but revenues sources shift to decreased federal revenue per pupil and increased state and local revenue per pupil per year. The segregation patterns for remaining districts remain the same as for the first secession; the dissimilarity decreases while the exposure index increases.

Taken together, these results demonstrate that seceded districts are overall wealthier, whiter and less Black than their remaining district peers. While the revenue findings from the t-tests generally conform to the coefficients reported from regression analysis, the segregation indices differ. It looks as if, in regards to remaining districts, these districts are more segregated initially, but seem to become marginally less segregated as a result of secessions out of their district.

Discussion

The growing movement towards separating or secession of districts has negative ramifications for the remaining districts. These ramifications are both demographic and fiscal. Demographically, districts remaining after a secession are descriptively less white and more Black that the districts formed from them. They are more segregated in terms of the distribution of population, but more diverse in terms of exposure to students of different backgrounds than districts that secede. Some of this dynamic may be an artifact of the relative homogeneity of the seceding district. Districts that are left behind via the creation of new school districts have fewer white students to integrate across schools, and more Black students to consider and are prevented – via Milliken – from seeking to integrate systems across school district boundaries.

Fiscally, remaining districts are poorer than the districts that secede. Although remaining districts gain in federal revenue per pupil, they have fewer resources in terms of both state and local revenues per pupil with which to operate. A district facing the secession of another district – especially if that district is the first to secede – faces a loss of almost $400 per pupil as well as additional challenges from slightly higher populations of economically disadvantaged students. While these resources seem to be recouped if a second district secedes, revenue streams are shifted. Remaining districts are also unable to make up for the lost property wealth a seceding district takes with it and therefore face a less even playing field within a post-Rodriguez environment. The funding shifts noted in our analysis imply shifts in governance as well, as local funds allow districts to more nimbly operate. It may be no surprise then that nimbler districts with fewer educational challenges to face might begin to outperform their peers, thereby perpetuating a failing schools narrative and thwarting efforts at comprehensive, equity-oriented reform. .

This cursory study raises additional questions in this description of districts remaining after secession. Yet to be examined is the relative wealth of seceded and remaining districts in terms of property wealth per pupil, as well as the relative tax effort put forth by seceded and remaining districts in terms of property tax rates, which will reveal the ease with which districts can raise funds to supplement state and federal revenue sources. Nevertheless, it is clear that the ability to secede and form new school districts exists at an intersection of Rodriguez and Milliken, in a space defined by and yet unaddressed by the court in Brown. District secession is another mechanism within a taxonomy of white resistance to integration that districts are beginning to use with increasing frequency and to the advantage of some. This ability to literally game the

system for fiscal and demographic advantage shows that the court in Brown was able to articulate a vision, but unable to define the mechanisms by which that vision would be realized, nor able to anticipate the myriad pathways school leaders would take to resist or defy accepting the burden of that vision.

Cornelius, yes! Good catch! We will make sure to make that change when the page edits come our way. I'm sure there are other items you may notice and I'd love to get your feedback on them, as well as answer any substantive questions you have that may have implications for your work with this committee.

Thanks,

-Eric

Dr. Houck:

Thank you for providing a draft of your article. We will gladly honor your request to avoid any discussion in media, etc. I will try to review and digest in the remaining time the Committee has and will share with the group at our next meeting. Only five pages in - but one possible revision, you should add Cornelius to the list of communities surrounding Charlotte since Cornelius was also included in the HB514 legislation, and it may be more accurate to describe what the four towns have been granted the ability to do through the legislation as creating municipal charter schools rather than charter districts - although that may be a distinction without a difference for the purposes of your article.

I'm sure I will have more questions after I have a chance to review in detail.

Regards,

Eric Rowell

Huntersville

Hi Eric:

Thank you for reaching out. Sorry for the delayed response. I regret not being able to present and speak with the group.

My article in the PJE is still "in press" - due out this fall. I'm happy to share a draft with you (attached)
and answer questions about it; however, I'd appreciate it if the committee would refrain from discussing the article in media interviews, etc. to the extent possible.

In general, we find, using a national dataset, that districts that remove themselves from larger districts gain a financial advantage: they see increases in local revenue that more than compensate for decreases in federal revenue. In general, state revenue also increases. They are also more racially homogeneous. My coauthor and I do not necessarily see this as a good thing from the perspective of the remaining districts which are consequently more segregated and less well funded.

Again, this is a national study and I'd be happy to talk about/ conjecture what a separation would look like from the perspective of the NC funding mechanism.

Hope this helps! The committee is undertaking hard work and I appreciate y'all's time and effort in doing this research.

-Eric

I am a member of the Huntersville Education Options Study Commission. Since, unfortunately, you were unable to present the slideshow linked below in person due to illness, I wanted to reach out to determine if there had been any recent updates on this issue that the HEOSC should be aware of. In particular, has the article you were planning for the Peabody Journal of Education been published yet? If so, would you be able to provide me a copy of the article or a link?

I would be happy to speak to you in more detail over the phone if you have time. Any assistance would be appreciated.

Subject: HEOSC Questions of CMS

Members of the Huntersville Education Options Study Commission,

Please see CMS's response to the questions poised to us by the subcommittee on Partnering with CMS:

1. **Please provide an interpretation to The Municipal Concerns Act of 2018, Article II – Priority of Capital Spending in Certain Municipalities?**

   As covered at the Dec. 4th, 2018 MEAC meeting (**link**), Article II of the MCA instructs the Superintendent to provide "priority points" to the municipalities of Charlotte, Davidson, and Pineville for future (post-2017 bond) capital spending. It does ***NOT*** create a moratorium for capital spending in any of the seven municipalities within Mecklenburg County.

   At the April 9th Board Meeting, CMS approved a new contract for our Capital Program Management (CPM) Vendor after a 6-month RFQ process. The CPM vendor will be tasked with recommending updates and improvements to the capital needs assessment tool that CMS has used for the past 10+ years. This would include accounting for the new "prioritization points" for Charlotte, Davidson, and Pineville. Further, should the HEOSC and the Huntersville Town Board opt not to pursue a municipal charter school, the town would immediately receive said bonus points. Now that the CPM contract is finalized, we are moving forward immediately with the review of the capital needs assessment tool. We look forward to sharing more details as the work progresses.

2. **What type of scenarios would CMS propose in a partnership with the Town of Huntersville to address future capital needs for our students?**

   As discussed at the Dec. 4th, 2018 MEAC meeting **(link)**, with the passage of **SL 2018-5** (SB 99 from the 2017-2018 NCGA session), North Carolina municipalities are now authorized to utilize taxing authority to pay for all items relating to schools. This new ability opens opportunities for CMS to partner with municipalities in new and innovative ways. For example, Huntersville could donate land to CMS for the construction of new schools, or Huntersville could pay for the construction of schools on property owned by CMS (e.g. the Grand Oak Elementary site). We are pleased to explore these and other exciting new ways to partner with the Town of Huntersville to address future capital needs for our students.

3. **Please provide insight into how CMS uses student assignment policy to determine where new schools are built. The goal of this question is to understand the link between student assignment policies and school site selection.**

   CMS's Student Assignment Policy is defined by **Policy JCA** and its accompanying regulations (**JCA-R**) and exhibits (**JCA-E1** & **JCA-E2**). Under the Guiding Principles for Student Assignment section of Policy JCA the Board states, "*the Board will consider several factors when determining and adjusting assignment patterns. These include but are not limited to current and future population growth and potential demographic shifts, overcrowding and underutilization of facilities. Additionally, the Board will consider undertaking a comprehensive district-wide review of the Student Assignment Plan every six years, while recognizing it may be necessary to make more frequent localized changes to the assignment plan based on the aforementioned factors.*" Further, that policy code defines five unranked Student Assignment Goals:
   - Provide choice and promote equitable access to varied and viable programmatic options for all children
   - Maximize efficiency in the use of school facilities, transportation and other capital and operational resources to reduce overcrowding
   - Reduce the number of schools with high concentrations of poor and high-needs children
   - Provide school assignment options to students assigned to schools that are not meeting performance standards established by the state

- Preserve and expand schools and programs in which students are successfully achieving the mission and vision of the Board

4. **Does CMS have any existing partnerships (municipal or otherwise) that address overcrowding/capacity? If so, please tell us about it.**

   As mentioned in question #2 above, the newly authorized ability for municipalities to partner in school capital funding is new to North Carolina. As such, we do not have any current partnerships in place, but are excited about the possibilities of working with our municipal partners.

5. **Would CMS be willing to work on a Student Assignment Plan in collaboration with the Town of Huntersville that would meet the future capacity needs for our students?**

   While **NCGS 115C-47 (3)** tasks local school boards with the exclusive right and duty to create attendance zones within their jurisdiction, CMS always welcomes engagement from our municipal partners and constituents when we assess proposed changes. In particular, we plan to solicit feedback as we work to update our capital needs assessment tool. For more detail, please view the Feb. 5th, 2019 MEAC meeting **(link)**.

6. **How does CMS determine the construction/building cost of a new school? What is the total construction/building costs of a new school:**

   (Current cost per square foot) x (Programmed building square footage) x (1.33%*) + (Land and/or Demolition) = Initial projected budget without escalation

   (*- Includes Furniture, Fixtures and Equipment/Curriculum and Instruction (FF&E), Design Fees, Consultants, Permitting, Contingency, Survey, Borings, Geotechnical/Special Inspection Services, Water Taps, Moving Cost.)

We look forward to continuing to partner with this committee and all of Huntersville over the years to come.

Subject: HEOSC

Gentlemen, by pulling your agenda item you have lost the opportunity to publicly explain WHY it is important. Those who oppose have now defined the issue. According to social media and even some print media this is about increasing taxes and racism. Lost is the issue of 10,500 kids coming without any schools to go to. Lost is the issue of if a young couple or a company that hires young people googles Huntersville and sees that the school system isn't going to build schools and NO ONE seems to care, why would they move here. In fact I could not in good conscience tell a couple who planned to have children in the next 3-5 years to come since in the 8-10 years when their kids are ready for school I don't know where they will be. I will also tell you that the likely makeup of the new BOE will be even less motivated to come to our aid. The politics of at large elections in Mecklenburg don't work to our advantage.

As for the notion of double taxation, first, all projections show a charter school IF you go that way becomes cash positive in 2-3 years. But even if not then you should immediately propose shutting down Huntersville Park and Rec because the county handles that with property tax and may after this election with a sales tax. Charlotte has NO park and rec. so if double taxation is an issue why do I pay for Mecklenburg County parks, city of Charlotte parks AND Huntersville parks. I guess parks are more important than schools.

Right now those who oppose any change are against you AND for those who haven't been paying attention those who oppose control the message if they go looking to see what this is all about. YOU are silent, so the "facts" are whatever Charlie and Rhonda and company say they are.

Lastly the State of NC saw that this was serious enough to give you options and two separate well designed commissions gave you the facts and forecast dire consequences if nothing was done. Yet as we head into election day this appears to be exactly what is happening. Charlie Jeter has earned his money. He has thwarted any efforts for change and with the election of the next board (which seem to have the upper hand in the debate since only their "facts" are in the public) I suspect CMS will be going back to the legislature to kill HB514. This is just like I-77. The towns apparently don't think there is a problem so when the s**t hits the fan in 8-10 years and everyone wants to know how this happened it will

be because the people who were in charge when the crisis was identified, who got legislative approval to do something chose to stay the course with CMS. Raleigh CMS et al will simply say the towns didn't want change.

I know you may be looking to do something later, but today the opposition owns the issue and the election may well be won or lost on how they define it since we haven't heard how you guys define it.

Good afternoon again Eric

The Town of Huntersville insures directly the premises at Fire Stations 1, 2 and 4; we are not named as an additional insured on the fire department's policy. I am confirming my understanding that we do not name the Fire department as an additional insured on our policy. I'll let you know when I have confirmation.

Thanks

Eric,

Hope you are doing well. We will bring a hard copy to the retreat this morning. The urban institute should post a digital copy soon as well.

Subject: Housing study

Mr. McDaniels,

I read a story this morning at WFAE about an affordable housing study commissioned by the LNEDC and presented to the three towns yesterday. If this study was done by your group, please provide me a copy of the study and any other materials that were presented to the towns. I am planning to attend the morning session of the Huntersville board retreat this morning if it's easier to provide me a hard copy in person.

Thank you,

Eric Rowell
Huntersville

I authorized it and have advised them to continue. It saves lives by allowing first responders to get into a dwelling faster. We have specific keys to those boxes and when we see those boxes we know how to get in without destroying things. CMPD, Huntersville Fire, and CMS use them as well.

We partner with many vendors to improve lives and yes it is profitable for some Im sure. But we cannot work without our partners and we will continue to do so. We have stopped promoting golf tournaments because you didnt like it even though they were NOT for profit, and we will jump through hoops for partners that may only benefit a few, but when it comes to saving lives we will partner without hesitation. Citizens have a choice to use them or not, but you cannot expect an public private partnership to be one sided. Sue us and let the courts decide but i think it legal, justified, and a good thing for the community.

I don't think anyone made a request to pay dues. However, Tracy Houk reached out to both the Huntersville Chamber and the Lake Norman Chamber to see how the Park Dept. may get involved to enhance sponsorship opportunities. Thus, an invoice came across my desk to the Park Dept. and I called time out for the Board to consider.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Huntersville Fire Department, Inc.
Huntersville, North Carolina

We have audited the accompanying financial statements of **Huntersville Fire Department, Inc.** (a nonprofit organization), which comprise the statements of assets, liabilities, and net assets – modified cash basis as of June 30, 2018 and 2017, and the related statements of revenue, expenses and changes in net assets – modified cash basis, and functional expenses – modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

he Accompanying Notes Are An Integral Part Of This Statement.

NOTE 1 - NATURE OF ACTIVITIES

Huntersville Fire Department, Inc. (the "Department") is a North Carolina non-profit organization formed for the purpose of fighting fires. The Department operates in the Town of Huntersville in Mecklenburg County, North Carolina. The majority of the Department's revenues are provided by a supplemental fire district tax administered by the Town of Huntersville and Mecklenburg County, North Carolina.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of Huntersville Fire Department, Inc. have been prepared on the modified cash basis of accounting, consequently revenues and related assets are recognized when received rather than when earned and expenses are recognized when paid rather than when the obligation is incurred. The Department is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Donated Materials and Services

The Department records the value of donated goods or services when there is an objective basis available to measure their value. Donated materials and equipment are reflected as contributions in the accompanying statements at their estimated fair market values at date of receipt. No amounts have been reflected in the statements for donated services as no objective basis is available to measure the value of such services. Services donated to the Department include fighting fires, management, fund-raising, and other administrative services necessary for Department operations.

Restricted and Unrestricted Support

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence or nature of any donor restrictions.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future period or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. However, if a restriction is fulfilled in the same period in which the contribution is received, the Department reports the support as unrestricted.

Property and Equipment

Property and equipment purchased by the Department are stated at cost. Donations of property and equipment are recorded as support at their estimated fair value as established by the donor. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose.

NOTE 2 - **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** - Continued

Expenditures for maintenance, repairs and minor renewals are charged to expense as incurred. Major renewals and betterments are capitalized. Depreciation is calculated on the straight-line and accelerated methods over the following estimated useful lives:

Building	20 years
Leasehold improvements	15-40 years
Fire trucks and equipment	5–10 years
Furniture and fixtures	5-10 years

Income Tax Status

The Department is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue code. In addition, the Department has been classified as an organization that is not a private foundation under the Internal Revenue Code and qualifies for the 50% charitable contribution deduction for individual donors. There was no unrelated business income for the years ended June 30, 2018 and 2017.

The Department has adopted ASC 740-10 as it relates to uncertain tax positions for the years ended June 30, 2018 and 2017 and has evaluated its tax positions for all open tax years. The Department is not currently under audit nor has the Department been contacted by the Internal Revenue Service.

Based on the evaluation of the Department's tax positions, management believes all positions taken would be upheld under an examination. Therefore, no provision for the effects of uncertain tax positions has been recorded for the years ended June 30, 2018 and 2017.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Management believes its estimates are reasonable.

Subsequent Events

Management has evaluated subsequent events through December 7, 2018, the date the financial statements were available to be issued.

NOTE 3 - **CASH AND INVESTMENTS**

The Department places its cash and cash equivalents on deposit with financial institutions in the United States. The Federal Deposit Insurance Corporation (FDIC) covers $250,000 for substantially all depository accounts.

- Continued -

NOTE 3 - **CASH AND INVESTMENTS** - Continued

During the year, the Department from time to time may have had amounts on deposit in excess of the insured limit. As of June 30, 2018, the Department had $1,016,497 which exceeds these insured amounts.

NOTE 4 - **FIXED ASSETS**

Composition of fixed assets is as follows:

	Fixed Assets July 1, 2017	Additions	Transfer	Fixed Assets June 30, 2018
Buildings	$ 110,000	$ 60,674	$ -	$ 170,674
Leasehold improvements	44,874	-	-	44,874
Fire trucks and equipment	5,824,094	1,029,941	-	6,854,035
Furniture and fixtures	86,010	40,479	-	126,489
Construction in progress	36,181	-	(36,181)	-
	$ 6,101,159	$ 1,131,094	$ (36,181)	$ 7,196,072

Depreciation expense for the years ended June 30, 2018 and 2017 was $431,145 and $380,745, respectively.

NOTE 5 - **CONCENTRATIONS**

Sources of Revenue

The Department obtains a considerable portion of its unrestricted funding from the Town of Huntersville. The Town of Huntersville revenue accounted for approximately 91% and 89% of total Departmental support and revenue for the years ended June 30, 2018 and June 30, 2017, respectively.

NOTE 6 - **RELATED PARTY TRANSACTIONS**

All of the members of the Board of Directors are also paid volunteer fire fighters for the Department. The Department paid the members of the Board of Directors a total of $247,710 and $214,540 during the years ended June 30, 2018 and 2017, respectively, for their services as fire fighters.

A member of the Board of Directors is the owner of Irwin's Body Shop. The Department contracted with Irwin's Body Shop for repairs to fire trucks. The Department paid Irwin's Body Shop a total of $991 and $2,267 during the years ended June 30, 2018 and 2017, respectively, for fire truck repairs.

NOTE 7 - **FIREMEN'S RELIEF FUND**

Amounts held by the Department have been restricted for the Firemen's Relief Fund, which is administered by the North Carolina Firemen's Association. This fund is used to support injured fire fighters in times of need. The balance in these accounts at June 30, 2018 and 2017 totaled $333,493 and $278,827, respectively.

- Continued -

NOTE 8 - **LONG-TERM DEBT**

	2018	2017
Note payable with First Community Bank in monthly installments of $4,733, including interest at 2.55%, through June 2023. The note is secured by fire trucks and equipment.	$ 265,355	$ 314,705
Note payable with Local Government Federal Credit Union in monthly installments of $7,634, including interest at 2.750%, through October 2024. The note is secured by fire trucks and equipment.	531,842	607,683
Note payable with Local Government Federal Credit Union in annual installments of $105,498, including interest at 2.250%, through November 2020. The note is secured by equipment.	302,763	-
	1,099,960	922,388
Less: Current Portion	(227,262)	(125,191)
Long-Term Debt	$ 872,698	$ 797,197

Required principal payments on long-term debt are as follows:

Year Ending	Amount
2019	$ 227,262
2020	232,939
2021	238,793
2022	139,292
2023	141,898
Thereafter	119,776
Total	$ 1,099,960

Interest expense for the years ended June 30, 2018 and 2017 was $24,290 and $31,626, respectively.

Attachment : Occupancy Tax Overview 2018.pdf;

Good afternoon, Eric.

Thank you for your patience regarding this records request. Angie found this resource – I think you'll find links in it to the occupancy tax questions from below.

I am not aware of any funds going directly to Visit Lake Norman; my understanding is that their funding flows through the Towns to VLN. I expect the percentages to be in the same Interlocal agreement as the U Drive It Tax. I expect to forward the U Drive It Tax info by the end of business tomorrow.

See you at HEOSC shortly. Thank you

Jackie Huffman
Assistant Town Manager
Town of Huntersville

Subject: Huntersville hotel/motel info

Mrs. Huffman,

Can you advise the local act that authorized Huntersville and/or Mecklenburg County's occupancy tax? I would like to review the limitations on how Huntersville can spend occupancy (and prepared food beverage?) tax revenue. Also, a breakdown of the amount/percentage of the tax revenue that comes to Huntersville directly versus what goes to Visit LKN, Charlotte, etc. If this information is already provided in the town audit or at the town's website, please feel free to just forward me a link to the necessary information.

Let me know if there are any questions about this request.

Thanks,

Eric Rowell
Huntersville

OCCUPANCY TAX OVERVIEW
Updated through the 2018 Regular Session

JURISDICTION & SESSION LAW	DATE LEGISLATIVELY ENACTED	AMOUNT OF TAX	HOW ALLOCATED	GOVERNING BODY	NOTES
Ahoskie, Town of SL 2006-164 SL 2008-45	7/26/06 7/03/08	Up to 3%	At least 2/3 to promote travel and tourism; remainder for tourism-related expenditures in the area.
