Brad,

No worries, and thanks! Have a great weekend.

Rob

Thank you, Rob,

I wanted to ensure that we were on the same page in that the evaluation was not solely focused on the "medic tent" incident. I will be speaking with the City Manager on this proposal on Monday, so we should have a response for you next week.

Until then, have a great weekend.

John,

What you have asked to be included is in complete agreement with what we envision as a significant portion of our work scope, and the pricing estimate we have provided would not be affected. Asking the questions you listed is what will allow us to analyze whether the policies, procedures and protocols APD has created to respond to protests/crowd control events are in synch with widely recognized best practices. It is what we refer to in the scope as the before-, during- and after-event analyses. Many of the interviews we would conduct with APD personnel would be to determine things such as 1) How were your policies created for the use of Crowd Control techniques/chemical agents, 2) Who makes the decision on scene to deploy chemical agents?, 3) Do you have formal mutual aid agreements with other cities/agencies in the area, and did you activate them?, amongst numerous other questions. This is what will allow us to analyze whether there were good policies in place to begin with, whether there was a formal operational plan for the protests that was appropriate, and whether APD personnel and leaders followed the policies, as well as whether changes need to be made to policies and operations for the future.

That is a long way, perhaps, of saying, "Yes. What you are asking to be included is essential to our analysis as we have outlined it in both the Work Scope and pricing estimate." It is also one of the reasons I added Chad McGinty to our team, as Operational Command and Control is also a specialty area for him, as you will see in his biography attached to the proposal.

I hope this helps.

Again, we would be honored to be selected to assist you.

Rob

Rob,

I have reviewed the materials, and wanted to make one important clarification. I notice that the proposed scope is a review of the incident involving the medic tent. Although this should be a focus area, we would like the evaluation to cover the entirety of the police response to the proposals over a period from approximately May 31 - June 5. As part of this, we want to evaluate specifically the following: the use of riot gear, the requests for outside agency assistance including the national guard, the use of tear gas, the use of non lethal projectiles, and specifically the events at the medic tent and a previous police response to blocked traffic on interstate (Jeff Bowen Bridge).

Can you please let me know if this broader scope is acceptable, and if that would affect the cost estimate? Sorry for any confusion, and I look forward to hearing from you.

Thank you,

Thank you, Rob,

It was a pleasure speaking with your whole team earlier this week. John and I will review the materials you provided and reply with a decision in the very near future. Please note that any final decisions on our part are contingent upon approval by the City Council as well.

We look forward to speaking with you soon.

Brad and John,

Attached is a Proposal Letter that outlines what we believe our Work Scope and estimated pricing would be for the incident assessment we discussed on the telephone this last Wednesday. Please know that we are more than open to discuss this Work Scope and pricing estimate to make sure we are meeting your needs. As such, please feel free to reach out to me at any time with any questions you may have. Please know that we would consider it an honor to be able to assist you at this time, and we would be able to initiate work quickly with the team members we have identified.

Regards,

Rob
