Rectangle Slip

Client Company Name: Enka High School

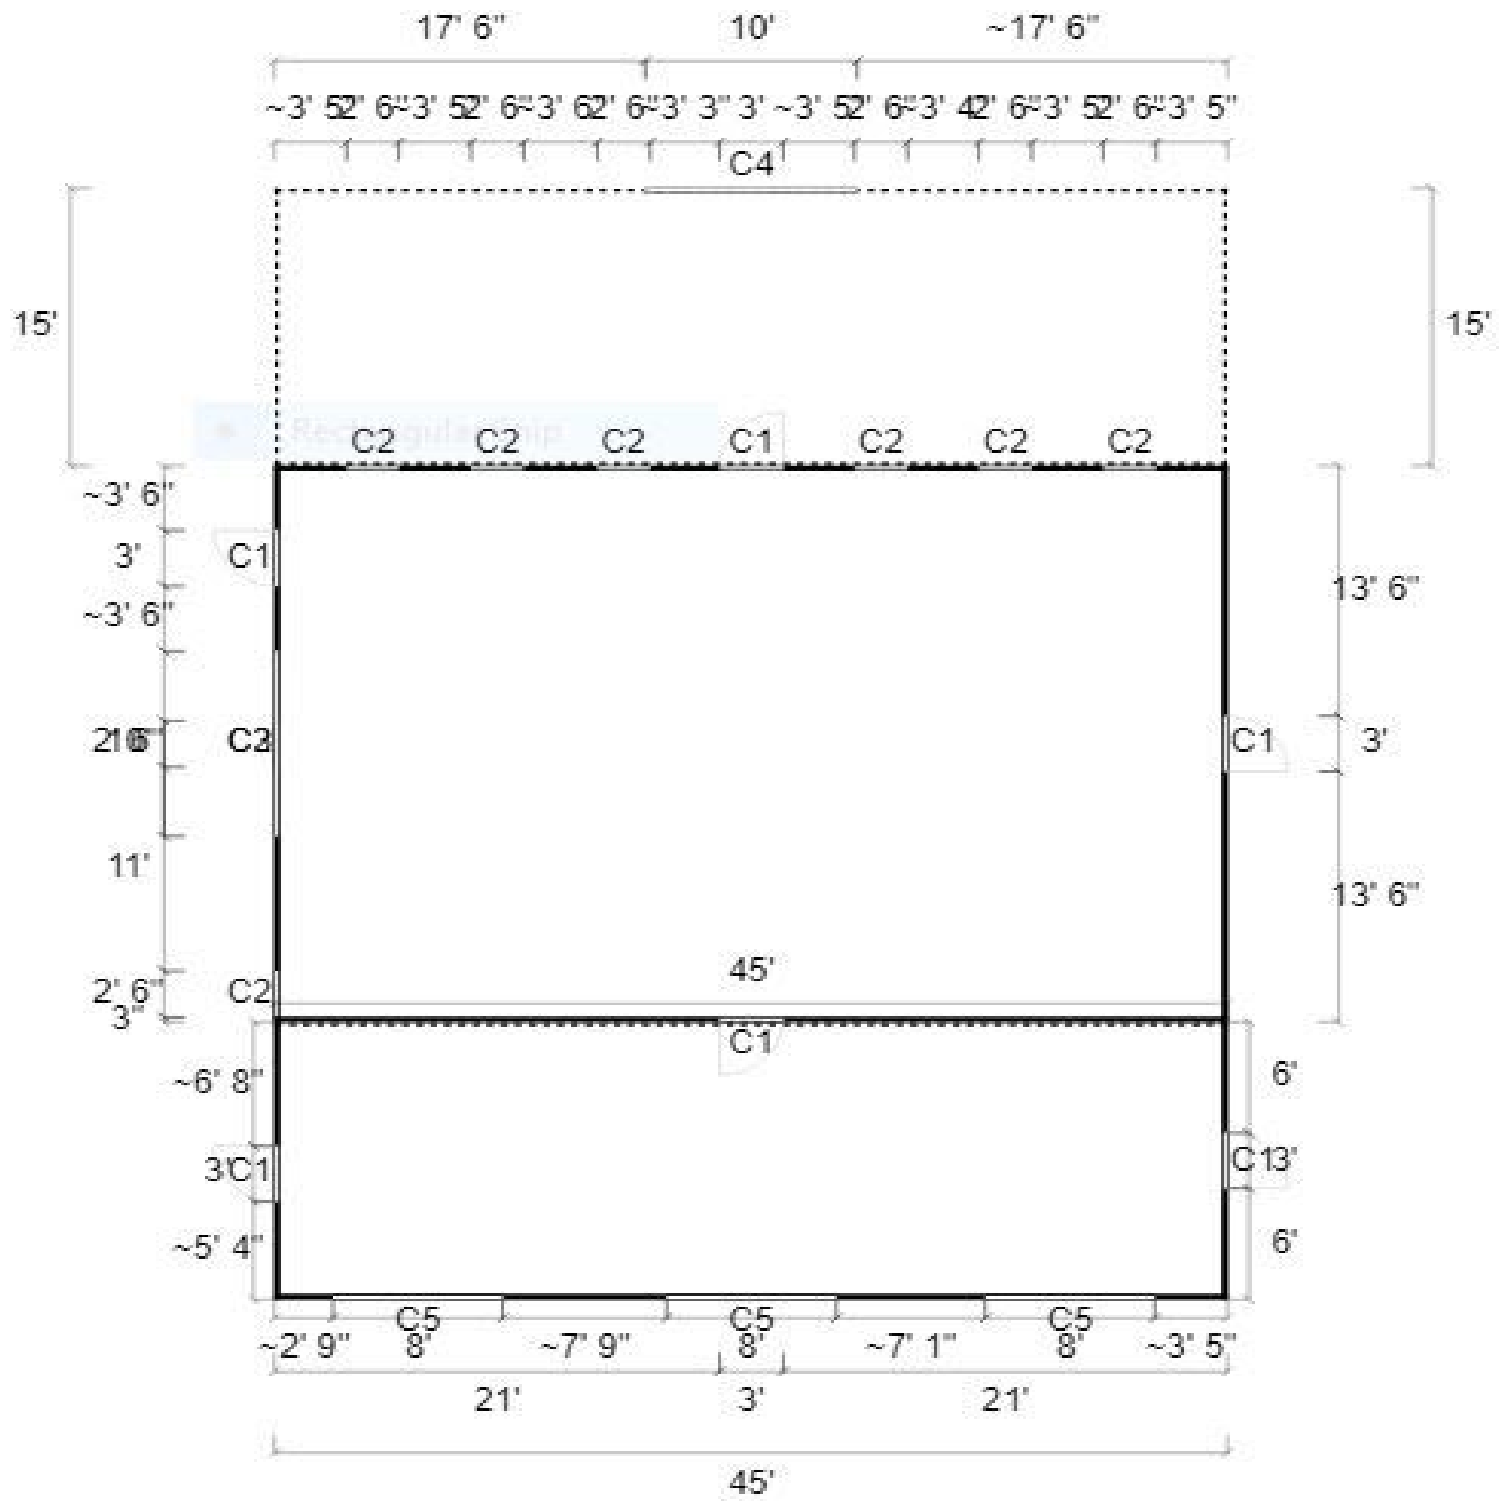

Client Address: 475 Enka Lake Road, Candler NC 28715

Client Job Title: Agriculture Teacher

Phone Number: (828) 208-6853

Email: mikayla.beysher@bcsemail.org

Dimensions

Enka FFA Barn Project

Our program pride's itself in providing students with hands-on and real-world experiences. Our model for education has three parts: Classroom/Laboratory, SAE and FFA. All three of these parts will be enhanced by this barn project. Through having this barn we can help students apply classroom concepts in a real world setting. Through this barn we can help students prepare for various FFA contests through having our own animals here at the school. We can also provide students with opportunities to gain hours for their Supervised Agriculture Experience project. We feel that the students in the Enka/Candler community deserve the opportunity to gain valuable skills in animal science that will help them in their future career endeavors. Our current animal housing facility was created by converting half of our tractor shed into a makeshift barn for our 3 dairy steers that we raised this year. Our Animal Science classes cover species including poultry, cattle, swine, sheep, goats, horses and small animals preparing students for a plethora of careers in Animal Science. Right here in Buncombe county there are 613 animal farms and animal agriculture is valued at \$15,155,000 in the county. When asked, students responded that working with the animals hands-on helped reinforce class concepts and made them excited about coming to school so that they could work with the animals. For many students, working with the animals was therapy after a stressful day all while still teaching them valuable lessons in animal agriculture. This project has united faculty, parents, students and community members and created excitement for these stakeholders during the COVID-19 pandemic. This Barn Facility will hold a lasting impact and be a source of pride for not only the Enka/Candler community, but for the entire county. Below is a picture of our current facilities.

Good Afternoon Mr.Belcher,

Thank you again for coming by today. I look forward to working with you to make this project happen for our students.

Attached are the items you asked for including the building quote, the concrete quote and our planning and budget documents. I am also going to share the planning and budget documents so you can see the most updated versions.

Thank you so much and let me know you receive the documents.

Questions / Comments:

I am emailing in support of the Enka High School Barn Project. As a teacher at Enka High I know the direct impact this would have on our students. The Ag classes here at Enka are wonderful and the addition of a barn would be an invaluable asset. Our FFA program is already nationally recognized due to the outstanding work of our teachers, Mr. Franklin and Mrs. Beysher. The barn would allow the animal science program at our school to increase, in turn giving our students more hands on opportunities. Please consider helping our students reach this goal.

Thank you!

Hi. I am a teacher at Enka High School. I would like to encourage you to consider helping fund our Barn Project. It will be a big help to our students as they can participate in hands on learning. Our FFA has done an outstanding job of applying for grants, etc, but we are still short of reaching our goal. Please strongly consider funding this. Thanks so much for your time.

Questions / Comments:

The Enka High School barn project is something I completely endorse and pray receives funding. This is an essential part of our students receiving the best possible instruction by their teachers having access to the most equitable resources. As a former farmer's child and FFA Ag student, some of my best memories involved our teachers allowing us to get involved with various projects that took place with our school barn and various types of equipment housed there. These kids and the community will only benefit from having it become a vital part of their education.

Katie Harris

Email:

katie.harris@bcsemail.org

Questions / Comments:

Good Morning,

I am emailing you to voice my support and plea for the Enka Barn Project you will be hearing about this evening. Mr. Franklin has an outstandingly incredible record in both our community and nationally for his outstanding Ag Mechanics program here at Enka High.

The addition of Ms. Beysher has definitively increased our student interest in the FFA program by offering animal science in the school's curriculum. This barn project is important for this curriculum to be truly effective and would allow our students to learn

hands-on with the animals they are studying. This would not only complement our already nationally known FFA program but would expand the opportunities that we could give our students, and ultimately our community. Enka High School would be incredibly grateful

for this project to be funded so our students can begin to develop lifelong skills that will pour back into our community and foster yet another nationally recognized program here at Enka. Ms. Beysher has proactively reached out to many different resources

in order to get this project started. as well as written grants. She has poured so much of herself into this project for the sake of her students, her future students, and the program here at Enka High. I can't speak more highly of Mr. Franklin, Ms. Beysher,

our students and how much they all deserve this wonderful opportunity. Please consider helping Enka High School and our students in the Candler community to reach this goal.

Respectfully,

Katie Harris

Assistant Principal & Community Member

Questions / Comments:

Hello - My name is Laura Roberts and I've been a teacher at Enka High School for 33 years. I just wanted to let you know how excited I am at the possibility for our students here at Enka to have a barn facility to enhance their agricultural studies! This will meet the needs of the children in this community especially due to their interest in this program and because they can relate their own experiences from our beautiful community farms to topics enhanced by the enrichment of hands on activities provided by the acquisition of the barn! I teach biology and many of my students come to me with background knowledge gained from agricultural classes, which will have an even greater effect by the opportunities provided by this new facility. Thank you very much for your consideration! Laura Roberts

Mrs. Beysher and I would like to say a big thank you to everyone who called or emailed the County Commissioners before last night's Board meeting. It was evident that your outreach had an effect on the vote. They voted unanimously to give us 15000 toward our Barn. Now a dream that was 5 months ago, in less than a month, we will be breaking ground on reality.

Enka Barn Project

email: "crystal.cheek@bcsemail.org Crystal cheek"

Monday, September 21, 2020 at 3:56:54 PM Eastern Daylight Time

To: email: "joe.belcher@buncombecounty.org Joe Belcher (joe.belcher@buncombecounty.org)" , email:

"Robert.Pressley@buncombecounty.org Robert Pressley"

Good afternoon. I am delighted and thrilled to be back with the school system that I called home for 31.5 years, just in a different position. I keep saying that I am going to slow down in my retirement, but I seem to get busier. That is okay as long as I continue to make an impact on two things I love: Education and Workforce Development.

As the Foundation Director, I feel I can now use my talents to merge these two and assist students and teachers in raising awareness of the impact one has on another, advocate that career pathways should be crafted based on a student's interest, and that everyone's version of success is measured in his/her own way. That being said, I will be calling on my workforce friends to help me in this effort. I am an educator at heart and will always do whatever possible to help students succeed.

I am proud of the place where I began my teaching career- Enka High School. They are expanding their Agriculture Program and will be raising funds to build a barn this year. I am reaching out to you because I know you love to see students succeed and you believe in education as well. Would you please consider helping them either through a financial or in-kind gift. We all would greatly appreciate it.

Again, I thank you for always supporting me and my many hats and thank you for being a great friend to the workforce. Take care and have a great day. Christy
