Re: Records

Public records law does not require a government agency to create or compile a record that does not exist, and Gaston College does not maintain a specific record or report that contains all the data in these information requests. Additionally, the current payroll system does not contain a complete history of various data such as title changes and various available data could not be summarized into an intelligible report. The available data that could be summarized is provided in the attached report. The report includes faculty and staff base salaries as of 4/27/21, and annual gross earnings for part-time employees for calendar year 1/1/20 through 12/31/20. Also attached is an existing record showing pay grades and titles as of 3/1/21 for full-time staff positions.
