Thanks Garrett,

Darlene sent me some text photos of the new locations yesterday!

The City & DOT homelessness working group is meeting again Friday 4/23, but that may not be soon enough to address concerns?

Looping in Scott at DOT since he is their designated contact person for these issues.

I am curious as to what happened with the efforts to get the RV's located to private property. It was my understanding that someone/group was working with them to make this happen.

Looping in Emily & Hilary as well - Robert may still be out?

Are there ordinances/laws that would prohibit the use of the generators in the parking lot?

Thanks,  
Jes

Hi all - several of the vehicles previously observed in the gravel parking lot by Flint and Cherry Street have been relocated. Per several concerns we've received in the last few days, the vehicles parked in the paved lot on Cherry Street near the skatepark are operating gas generators, and have parked in such a way that vehicle access into/out of the lot is impeded. The one RV shown in the lot under I-240 is parked at a meter, and has not paid the meter. We've not taken any enforcement action, since this is all NCDOT property, but wanted to seek your guidance on possible next steps/options.

They were also given a 7 day notice. We received an additional complaint of cars not being able to drive between the RV's and other vehicles. The notice was given yesterday.

The RV's have been removed from the Cherry Street lot, right?

I'm not sure where they were relocated to, but I didn't see them on Cherry Street yesterday afternoon.

Greg, one is in the paved lower lot below the skatepark on Cherry and the other is under the Lexington bridge.
