Subject: Bio and Headshot

Dr. Turner,
I have pulled your bio and headshot from your website. Are you ok if we use this for our website and programs for the event?

William H. Turner, PhD, the fifth of ten children, was born in 1946 in the coal town of Lynch, Kentucky, in Harlan County. His grandfathers, father, four uncles and older brother were coal miners. Bill has spent his professional career studying and working on behalf of marginalized communities, helping them create opportunities in the larger world while not abandoning their important cultural ties. He is best-known for his ground-breaking research on African-American communities in Appalachia, but Bill's work is universal. As an academic and a consultant, he has studied economic systems and social structures in the urban South and burgeoning Latino communities in the Southwest. What he strives for on behalf of his clients and their communities is what we all want: prosperity, understanding and respect. Today, Bill and his wife, Vivian – the retired President of the R.J. Reynolds Foundation in Winston-Salem, N.C. – live near their children and grandchildren in Houston.
