I asked Kim if any info remained at Stephens-Lee, but she said if it does, she's not seen it. I did find [this update](#) from May 2021 (when City Council unanimously approved the contract) that has a more comprehensive list of outreach than I've previously seen.

Pete or Allison, do you know where that info landed? I can't find it in the communications and outreach folder for Memorial in the planning and development drive. I went to the day time meeting and believe it was the first "city-wide" community meeting with post-it notes for amenities like a splash pad, seating expansion, etc. It was dominated by Asheville SC owners and fans and took place prior to any focused user group or neighborhood meetings.

I'll look through the paper surveys and photos Christy gave me, but I think that all relates to Jake Rusher and Walton/Grant.

Can anyone confirm if this 2019 meeting happened? And share any reports that came from it if so?

Thank you,

Sage

Hello Ms. Turner,

Â

With regard to Memorial Stadium, please note that in 2019 a community input meeting was held at Stephens-Lee Recreation Center and showed the strongest support for a field with no track. That support should be honored.

Â

Pick up soccer and soccer tournaments have been going on at Memorial long before the bond was issued.Â Furthermore, soccer games at Memorial include people with a wide mix of many races and genders from the local community so soccer and soccer events at Memorial are inclusive and should be supported. Memorial is a 100 year old city event space and should be maintained as such not diminished in its capacity.

I recommend that Mountainside park be expanded west into the city lot along Hunt Hill to balance the needs of the neighborhood with the broader community.

Â

Thanks for your service to the city we love.

Â

Best Regards,

Frank Balentine
