Great newsletter this month. I recommend everyone take the time to read this and learn more about the neighborhood we serve.

Although we aren't directly involved with the memorial stadium project, it is important for staff to know the details and understand the neighborhood's needs.

The Cappadocia Church project is going to require a lot of help and I plan to have everyone here get involved in some capacity. A A

Neighborhood meetings are the 2nd Thursday of the month at 6pm. They are still using the zoom format, but I hope we move back to in-person meetings soon. I plan to schedule every staff member a month to attend the meeting with me, but I encourage you to attend any meeting you aren't scheduled for. They aren't always topics that affect our center, but it is good to keep up with what's happening in our community. You would be paid for the hour of the meeting even if you aren't scheduled. Let me know if you have any questions.

Thanks
Kim

Letter from the President

Hello to all of the Neighbors old and new.

We are in the process of starting our Neighborhood Association meetings again in March. This letter is a plea to ask each one of you to get involved. We need everyone who cares about where they live to participate. The meetings are nonstop, the issues are nonstop and the commitment to sustain fair housing, crime prevention, beautification, fair property taxes and generational wealth are nonstop. We can no longer talk about it we have to be about it and that means having a seat at the table whether its City or County. We have to show up and speak up. What happens in our Neighborhood does not affect some, it affects all. One or two people can not carry the load, it takes all of us. The meetings are on Zoom at this time and we are hoping to be able to meet in person maybe later in the year. I do know that some people may not have access to a computer and that may prevent you from attending but you can still reach out to me or any of the Executive Committee members to see how you can help. Just in the last couple of months major developments have transpired and major impacts could have resulted in us losing Cappadocia Church. Please come on board and help us in our efforts to keep East End rising.

We have to talk about land usage, we have to talk green spaces, we have to talk about the heritage trail, we have to talk about getting people out to vote, we have to talk about property taxes, we have to talk about our elders aging in place, we have to talk about drugs, we have to talk about our youth, we have to talk about food security, we have to talk about preservation, we have to talk about building neighbor relationships, we have to talk about what it looks like for 2000 people to attend an event at Memorial Stadium and the impact that will have on our neighborhood and we have to talk about reparations and what that looks like for East End.

WE ARE BETTER TOGETHER!!!

Best Regards,
Renee White
