Mayor,

Just as a final follow up, we checked in with the Chief and APD to get some historical perspective. Per that conversation, we can confirm that more than 2000 pounds of litter, which far exceeds the threshold for felony littering, was left in the park, and required extensive City resources to clean up. City staff do not recall any other time in the past ten years where known persons left that volume of trash on City property.

Thanks, Jenna,

Mayor, this provides good background information for a response. However, I might also suggest that you state that the City Council has no direct role in criminal enforcement, nor in City policies including the parks director's ability to enforce temporary bans. In addition we believe it is necessary to limit statements on pending criminal matters in order to not interfere with the District Attorney's process.

Hi Mayor Manheimer,

Hope you're doing well! I'm working on a story about the individuals who have been charged with felony littering by APD in connection with December protests in Aston Park.

I know it hasn't been publicly discussed by council, but it's come up at some public comment sessions during council meetings, and I was hoping to get some perspective.

It looks as though there has only been one felony littering case in Buncombe County in the past 10 years, and I was hoping to learn why the city was pursuing these charges.

Also, a majority of those charged have been banned from all city parks for three years, though none have yet been convicted, and I was hoping you could weigh in.

I also wanted to ask if you had ever dealt with/heard of felony littering charges before.

Thanks so much,Â
