Subject: Fwd: Parks Ban Letters

Lt. Griffin,

City park ban notices were sent out to all of the individuals involved in the ASTon Park demonstrations in December 2021. As a result of CID's investigation, they were all charged with aid and abet felony littering. I received an email asking that all subjects be banned from city parks. Bann notices were sent to all parties notifying them they were banned from all city parks for three years.

A number of the folks have since contacted Parks and Rec, requesting to appeal their ban. Parks and Rec does not have an appeal process in place, and advises that this has been handled by the police department in the past.

Parks in Rec. is asking for our assistance with this issue. What is the process, and how should we proceed?

Hi,

I have talked with a few people trying to figure out the process for individuals who have received Park Ban letters and want to appeal. I was told to contact Community Outreach.

The prior contact I have for anyone wanting to appeal their Park Ban letter was Sharlene Raines, who worked at the downtown police office. They are no longer there. I am trying to find out if someone took their place? Who, what, is the process for someone wanting to appeal their Park Ban?

Lenora Jones, M.S.W.
