Ms Brown:

First, I am very sorry for your loss. I really don't know that the City can decline to respond to a public records request under the law.

Best,

Gwen Wisler

To all this will concern;

I was made aware that a Sunshine Records request was made for all of my communications with the City of Asheville government. I was also made aware that this request was made by someone who has been harassing me and others online as of late.

There is no sane reason this person is requesting my communications and photographs with your offices. I am not a public figure. I am not running for any kind of public office. I never plan on running for any public office. I am a "regular" citizen, living within the city limits of Asheville, while she is not.

As part of her "inquiry", she demanded all photographs to be included in my correspondence with you. As some of you are aware, I contacted you, as well as a few county commissioners, two years ago in regards to the horrendous care my husband received in his last days of Life at the hands of his employer, Mission Health/HCA.

There is ABSOLUTELY NO REASON to make these photographs or that particular correspondence public, nor send them to an individual that is abusing the Sunshine Request service for personal amusement while at the same time she ridicules and condemns others for doing such. (See below photo for just one example because there are several more).

If you release ANY of the photographs of my late husband, Gregory Brown, while he was in his last days of his Life, it WILL directly affect MY family and our teenaged daughters that I am now raising alone since his Death in January of 2020.

I donâ€™t care that anyone knows what else I have sent you folks ASIDE from the seriously disturbed and morbid request she has made by wanting photographs of my dead Husband.

This person is well aware of my familyâ€™s loss. It makes me ill.

I am requesting that those photographs of my husband and/or documentation photos while he was inpatient at HCA AND that particular email exchange be redacted from this juvenile records request.

It isnâ€™t appropriate. At all.

The Sunshine Request is included below.

Regards,
Sandra JW Brown, WAVL resident
aka: Sandora JW Brown

Kim is a calculating, manipulating liar who has sold out her constituents and her colleagues on her quest for power and fame. For example, Kim misuses Sunshine Request, her old comrade Patrick Conant's app, to stalk and harass her critics. She's vindictive and no different than every other pathologically narcissistic politician.

The only appetites Esther has are for blood and more real estate money she funnels into her bank accounts and law firm.

â€œ Hello City of Asheville, NC Government (Records Officer),

I'd like to make a multi-part public records request for the following information under NC Public Records Law.

Ref: https://www.ncleg.net/enactedlegislation/statutes/html/bychapter/chapter_132.html

Once you receive this request, please do not send me a reply back asking whether Iâ€™d â€œlike to further clarify or narrow the scopeâ€. Iâ€™m telling you now that I do not wish to further narrow the scope of the following request:

A) Please provide all written and electronic communications between anyone named Sandra Brown and the City of Asheville during the specific time period of 01/01/2010 through 04/14/2022 (or as of the date the query is performed).

B) Please provide all written and electronic communications between anyone named Sandora JW Brown and the City of Asheville during the specific time period of 01/01/2010 through 04/14/2022 (or as of the date the query is performed).

Where applicable â€“ Please include all .PDFs, files, attachments, videos, hyperlinks, photos, etc. that are indicated within the responsive records. For example: A .PDF that is an attachment within an email or text record, should also be provided as an accompanying file.

Things like emails and text messages already exist in a digital format (electronic medium). Therefore, you should be able to provide those records as requested under NC Public Records Law. You should also be able to provide these records in an electronic format such as Google Drive link, Dropbox folder, emailed response, .PDF, CD / Flash drive (if necessary), or other electronic format.

**** If you are unable to fulfill any or all parts of this request, please specifically cite where a reason for denial is justified under NC Public Records Law. ****

Thank you for your assistance!
