██████ has been homeless since he was 6 or 7 years old. He encountered a terrible accident that involved being hit by a train and lost his right arm. He said that he got "extremely depressed and thought about suicide all the time." He also said that being at this shelter keeps him from having these types of thoughts because he feels like he is apart of something bigger now. He remains optimistic in getting permanent housing in which he has done all the necessary paperwork in place to speed up his process.
