Subject: Re: CAM question

I would also like to say that from my understanding from Jerry, the folks we slat for RRH, have to be able to take over their own rent by July of 2022, which limits the people we can present for that. We are looking at people that are working now with the ability to increase their income. Then prioritizing those folks., At first, I thought the RRH program would help 3 months to 2 years and we have several people that would be able to be slated with those parameters. They are literally homeless, their VI's fall between 4-8 and they have the ability to increase their income especially within 1-2 years' time. With the new info, I received it bumps a lot of our folks out. Please give me clarification on this If I am understanding this incorrectly.

Hello,

Yes, that makes sense. Liz did meet with us to make a decision on what peers should be best suited for which program. With that said what I have noticed is that as we learn more about our folks I am seeing in some cases what we originally decided may not work. We can take a look at what we came up with when we met with Liz, and Ashley and I can take your suggestion.
Thanks,
Kat

Maybe! But also: I think your best move is to identify your top handful of PSH referrals (based on VI and length of time homeless) and also top handful of RRH referrals (based on VI, length of time homeless, and those other RRH criteria like ability to increase income) and just go ahead and work on those so you always have someone ready to go. There's more RRH capacity in the community so I'd prioritize those and maybe just have one or two PSH files in the works. Does that make sense?

Good morning, Kat and I were talking and we were wondering if we could get a little more heads up on what slots will be available for CAM each week? Since deciding on the 3 days to transfer the file that just leaves us with a very small window for collecting information. I know you usually send out the email about slot on the Tuesday before could we maybe find out on the friday before? Our thinking is that if we know we can go ahead and gather the info on the folks we are slating and not have so much leg work to do in 3 days on possibly 2/ or 3 people. Kat is the only housing case manager we have lol

Thank you
