**Subject:** Q&I

---

Hey there, I am writing this to get a little direction on the Q&I policy. I spoke with Emily and we have had a few positive cases at the shelter. 1 is in isolation now and the other 2 choose to leave. 1 is isolated at her parents house and the other I'm afraid I don't know where he is. Can you please inform me on the updated policy and procedures so I can inform my staff of the protocol. The CDC website is too complex for them and I just want to break it down and how this works with the vaccinated and unvaccinated and the timelines on quarantine? We also had an incident where a peer didn't want to quarantine and was walking down the halls without a mask being rude and coughing on people I believe law enforcement ended up coming. What do we do in a situation like this? We obviously don't want them out and about but we also don't want our whole shelter infected. Thank you for your help!
