Hey y'all, see below - are your folks using the supplemental form? My guess is no but am checking in case!

Good Morning NC HMIS LSAs,
The MCAH team are hard at working updating all of the forms and assessments for the upcoming data standards. While reviewing the documents we have posted, a question came up about the use of the "NC HMIS Street Outreach Supplemental Form." It is located here (You may have to log in to the learning center before the link works for you):

https://hmislearningcenter.org/index.php/hmisi-documents/all-documents/search-result?filter_search=NC%20HMIS%20Street%20Outreach%20Supplemental%20Form&show_category=0

I have also attached it to this email for easy reference. This form was provided to allow Street Outreach projects to track required the current living situation (previously date of contact) and date of engagement HMIS data elements after the introduction of the coordinated entry data elements.

Our question is: to your knowledge, are any of your programs using this supplemental form? If so, is there a particular reason they aren't just using the larger form that integrates these CE elements? If no one is using this form, we don't want to confuse Street Outreach projects by having an superfluous assessment form available on the learning center.

Thanks much for your feedback.

Thurston Alexander-Smith
