Please use additional sheets if necessary.**

Thank you for the opportunity to submit an application to serve on the Design Review Committee. I am a Designer and have worked on projects throughout the region ranging from large-scale commercial multifamily projects to smaller scale residential projects. I am currently a Designer at Laura Hudson Architecture working on a variety of projects in the Asheville area including commercial multifamily, office spaces, and private residences. I have 5 years of experience working in Charlotte, NC at architecture firms specializing in Multifamily design. I have worked with non-profit organizations such as Roof Above in Charlotte, NC to design affordable housing for the homeless as well as NCHFA. In the Asheville area I have experience working with local organizations Green Opportunities, LEAF and the Asheville Design Center to bring benefits of design to underserved communities. I am very interested in creative approaches to development that integrate multiple sectors to deliver thoughtful design to the community.

With a BS in International Business and MArch from the University of North Carolina at Charlotte my interests lie at the intersection of business and design, in particular how the two can be integrated to achieve a bottom-up versus top-down approach to development. I find inspiration in the work of architects Teddy Cruz and David Baker, both having found effective approaches to addressing inclusive development through innovative business models, sustainable and holistic approaches to design and utilization of new technology.
