In a few sentences, please describe the event.	Sunrise Community for Recovery and Wellness is a 501C3 celebrating five years of providing services, education and resources for people in substance use and mental wellness recovery. We want to celebrate this milestone by inviting community partners to table about their services and share information for people in recovery or who know someone in recovery.
How is the event unique? Does the event meet a need, demand, or interest that is not adequately met by other special events held within Asheville's outdoor public space?	This will be a unique event in that it will be a small group of organizations focused on the recovery community sharing information on educational resources and services to support the recovery community. This will also be a positive celebration of this community.
Please briefly outline the experience and qualifications of the producing individual or group as it relates to the event as described.	Sunrise Community for Recovery and Wellness will be hosting this event and celebrating 5 years of operation as a leading peer-run and peer managed nonprofit providing services, outreach and education throughout the county. We work with people in recovery at all socio-economic levels, including those currently incarcerated and recently released from incarceration.
Additional Comments?	We appreciate the opportunity to share resources, educate the public, and celebrate 5 years with our community in the beautiful downtown Pack Square Park.
