**Subject:** Re: Informative video on 4 to 3 lane conversions

---

Hi Sage,Â

Thanks for the video, however none of the examples here reflect the heavy traffic or the many businesses drivers would need to access in the center lane. Of course, it can be effective under certain circumstances, however, I do not feel Merrimon falls into that category. I have spoken to so many residents about this conversion and have not found one person in favor of the change.Â

Sincerely,

Sandra
